Accreditation

Angelo State University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, masters, and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Angelo State University.

Note: The Commission should be contacted only if there is evidence that appears to support the institution’s significant non-compliance with a requirement or standard. Normal inquiries about Angelo State University, such as admission requirements, financial aid, educational programs, etc., should be addressed directly to Angelo State University and not to the Commission’s office.

The Athletic Training Program offered through the Department of Nursing and Rehabilitation Sciences, is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

Angelo State University, through its College of Business, is nationally accredited by the Accreditation Council for Business Schools and Programs (ACBSP) to offer the following degree programs: (1) At the graduate level, the Master of Business Administration (M.B.A.) and the Master of Professional Accountancy (M.P.Ac.) and (2) At the undergraduate level, the Bachelor of Business Administration (B.B.A.) degree.

Angelo State University’s undergraduate educator preparation programs, through its College of Education, are nationally accredited by the National Council for the Accreditation of Teacher Education (NCATE) to prepare individuals working in pre-kindergarten to 12th grade schools and accredited by the Texas Education Agency, State Board for Educator Certification (SBEC) to prepare individuals as teachers in elementary, middle, and high schools. The Department of Teacher Education’s Early Childhood to Sixth Grade educator preparation program is a nationally recognized elementary teacher preparation program by the Association for Childhood Education International, and the special education teacher preparation program is nationally recognized by the Council for Exceptional Children.

Angelo State University’s graduate programs, through its College of Education, are nationally accredited by the Council for the Accreditation of Educator Preparation (CAEP) to prepare individuals working in pre-kindergarten to 12th grade schools and accredited by the Texas Education Agency, State Board for Educator Certification (SBEC) to prepare individuals as educational diagnosticians, principals, school counselors, and superintendents of schools.

Angelo State University is an accredited institutional member of the National Association of Schools of Music.

The B.S.N. and M.S.N. programs at ASU are fully accredited by the Accreditation Commission for Education in Nursing (ACEN). In addition, all nursing programs have full approval status by the Texas Board of Nursing.

The Social Work Program at Angelo State University is accredited by the Council on Social Work Education (CSWE): 1701 Duke Street, Suite 200, Alexandria, VA 22314, 703-683-8080, info@cswe.org.

The Doctor of Physical Therapy program at Angelo State University is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314; telephone: 703-706-3245; email: accreditation@apta.org; website: http://www.capteonline.org.

Statement on Equal Educational Opportunity

Angelo State University is open to all persons eligible for admission as students regardless of race, color, religion, sex, age, national origin, mental or physical disability, or Vietnam Era or Special Disabled Veteran status. All students admitted to the university are treated without discrimination in regard to their participation in university educational programs or activities. The university is an equal opportunity employer and no applicant or employee will be discriminated against because of race, color, religion, sex, age, national origin, mental or physical disability, or Vietnam Era or Special Disabled Veteran status in regard to employment or during the course of employment in the institution. The university does not discriminate on the basis of sex or disability in its educational programs. Any student with inquiries should contact the Student Life Office, Room 112 University Center, at 325-942-2191.

Notice

The policies, regulations, procedures, and fees in this Catalog are subject to change without prior notice, if necessary, to keep University policies in compliance with State and federal laws, the rules and regulations of the Board of Regents, The Texas Tech University System, or the educational objectives of the University. The University reserves the right to change curricula, rules, fees, admission requirements, and other requirements without notice. The provisions of this Catalog do not constitute a contract, express or implied, between any applicant, student, faculty member, or any other person, and Angelo State University.

General Information

Angelo State University

Angelo State University is a dynamic institution of higher education long recognized for its strong academic programs, its technological sophistication and its nurturing environment, which helps all students—including many first-generation college attendees—attain their full potential.

As a comprehensive university and a member of the Texas Tech University System, Angelo State has built a national reputation, being selected by the prestigious Princeton Review as one of the “Best Colleges” nationally for five consecutive years since 2010. One of the nation’s most prominent college guides, Princeton Review is the only major one that surveys students for their opinions before publishing its college recommendations. ASU is one of only three state-supported institutions in Texas to make the list each year since 2010. Since 2009 ASU has also been recognized by the U.S. Department of Education as an Hispanic Serving Institution.

With a full range of academic programs as well as a vibrant Honors Program and an active Center for International Studies, ASU provides educational opportunities that prepare students for successful careers or for entry into graduate and professional schools, such as medicine and law. For instance, ASU’s pre-law graduates have a 90 percent acceptance rate into law school. Graduates completing Angelo State’s pre-med program over the last four decades have an average 52 percent acceptance rate to medical school, compared to a statewide average of 35 percent. The Computer Science Department’s computer game development sequence has been named one of the “Top 50 Undergraduate Game Design Programs” in the U.S. by the Princeton Review while ASU Physics and Geosciences Department has been identified by Physics Today as one of the top 21 undergraduate physics programs in the nation.

Academically, the university is organized with five colleges—Arts and Sciences; Business; Education; Health and Human Services; and Graduate Studies—as well as 19 academic departments. Those departments offer 43 undergraduate degrees, 20 master’s degrees and one doctoral degree with more than 100 majors and concentrations. Additionally, ASU provides options for a variety of pre-professional and four-plus-one programs.

In addition to strong academic offerings, ASU provides an ultramodern, 268-acre campus that offers an attractive and safe setting for a college education. ASU’s campus facilities are valued at over $396 million and include the Math-Computer Science Building, which houses one of the most sophisticated computer systems in the state; the Junell Center/Stephens Arena, one of the top facilities in all of NCAA Division II athletics; and the Houston Harte University Center, the focus of campus student life.

Not only does Angelo State provide excellent facilities for higher education, but also the financial resources to help students attain that education. Through the Carr Academic Scholarship Program, ASU annually awards scholarships of more than $5.4 million to students. Since Carr scholarships were first awarded in 1981, more than $66 million has been granted to ASU students. Through the Carr Scholarships and ASU’s extensive gift aid program, Angelo State keeps the cost of a college education within reach of the average family.

Beyond the classroom, ASU students have a variety of opportunities to broaden their horizons and strengthen their resumes. With more than 100 student organizations to choose from and active recreational and intramural offerings, students can connect with others who have similar interests. ASU leadership programs allow students to develop skills that will help them in their careers and in life. The Center for International Studies allows students to complement their campus education with study abroad programs as near as Mexico and as far away as Russia.

The numerous academic and extracurricular opportunities are complemented by a highly competitive intercollegiate athletics program with men’s teams in five sports and women’s teams in eight sports. The Rams and RunBelles compete in NCAA Division II and the Lone Star Conference. Over the years the institution has claimed four national titles, the most recent being the NCAA D-II Women’s Track and Field Championship in 2010 and the 2004 NCAA D-II Softball Championship.

Success at ASU, whether in the classroom, in student organizations or on playing fields, translates into success in life. ASU graduates have headed major national corporations, played in Super Bowls, anchored national newscasts, served on Pulitzer Prize juries, held statewide political office, and made numerous contributions to their communities and society.

Mission Statement

Angelo State University, a member of the Texas Tech University System, delivers undergraduate and graduate programs in the liberal arts, sciences, and professional disciplines. In a learning-centered environment distinguished by its integration of teaching, research, creative endeavor, service, and co-curricular experiences, ASU prepares students to be responsible citizens and to have productive careers.

Value Statements

- Learning: Our Focus
  ASU holds student learning as the center of everything that we do.
- Excellence: Our Standard
  ASU embraces excellence in teaching, scholarly activity, creative endeavor and service.
- Transformation: Change for the Better
  ASU prepares its students for a life of contribution and accomplishment by instilling a respect for learning and intellectual inquiry.
- Integrity: Social and Ethical Responsibility
  ASU expects a high standard of social and ethical responsibility from all members of the campus community.
- Engagement: Participation and Community Service
  ASU encourages participation and community service both on and off campus by faculty, staff, and students.
- Innovation: Teaching, Service, and Scholarship
  ASU promotes innovation in teaching, scholarship, technology, collaborative partnerships, support services, and co-curricular activities.
- Diversity: Cultures, People and Ideas
  ASU believes that everyone should experience a diversity of cultures, people and ideas in order to better appreciate the world around them.
- Collegiality: Getting Along
  ASU fosters - among students, faculty, and staff, and across disciplines - a culture of shared governance, open communication, transparent operations, and mutual respect.
History of the University

Angelo State University was created as Angelo State College in 1965 by an act of the 58th Session of the Texas Legislature in 1963, but its origins can be traced to an unsuccessful 1923 bid to be selected as the home of Texas Technological College. When Lubbock was chosen as the site for Texas Tech, the citizens of San Angelo decided to create their own college, even if they had to pay for it themselves. Funded by local contributions and a self-imposed city tax rate, San Angelo Junior College opened its doors in 1928 on North Oakes Street near downtown San Angelo.

When classes began, 112 students enrolled with city students paying $75 tuition and out-of-town students $115. In May of 1929, six students walked across the stage in the institution’s first commencement exercise. Today ASU has more than 31,000 alumni around the globe. In 2007, ASU became the newest member of the Texas Tech University System.

Academics have always been important at Angelo State, even when the school was known as San Angelo College, which as early as 1936 was one of the few junior colleges accredited by the Southern Association of Colleges and Schools, or SACS. The voters of Tom Green County in 1945 created a County Junior College District and elected the first Board of Trustees. In 1947 the first building was constructed on the present campus, which today encompasses 268 acres.

The citizens of San Angelo never lost the dream of having a four-year college in their community and worked diligently to accomplish that goal. That dream became a reality, effective September 1, 1965, when authority for the institution was transferred from the Board of Trustees of the junior college to the Board of Regents, State Senior Colleges, later the Texas State University System. In May of 1967, the first baccalaureate degrees were awarded. The name of the institution was changed to Angelo State University in May of 1969.

The College of Graduate Studies was authorized by the Board of Regents on May 15, 1970, and approved by the Texas Higher Education Coordinating Board, on October 19, 1970. The first graduate students were enrolled in the fall of 1971.

By 1991, ASU was receiving national attention, being recognized by U.S. News and World Report as one of the nation’s up-and-coming universities.

City of San Angelo

San Angelo is the center of a thriving community of 100,000 and the city nearest the geographic center of Texas. For some, San Angelo is the true heart of Texas. For others, it is where Central Texas and the Hill Country meet West Texas. Either way, it is a community of genuine, big-hearted and hard-working people who are proud of their Texas heritage.

San Angelo has a rich and culturally diverse history. Though the city owes its birth to the establishment of Fort Concho along the Concho River in 1867, various Indian tribes as well as Spanish conquistadors and priests traversed the area for centuries before that. They were followed by Buffalo soldiers and pioneer ranchers, who opened the way for merchants, bankers and educators in San Angelo and Tom Green County.
Admission to the University

Angelo State University commits itself to the equal consideration of all qualified applicants for admission without regard to race, color, religion, sex, age, or national origin, and without regard to disabilities as required by the Americans with Disabilities Act of 1990. See Students with Disabilities page 282 for additional information. An applicant will be eligible for admission to the University when the Office of Admissions has on file the items required in the appropriate category and when all requirements in that category have been met.

Angelo State University requires applicants from high school or GED recipients to submit ACT or the SAT scores. The scores cannot be more than five years old. High school administrators can provide details with regard to these examinations.

Bacterial Meningitis Vaccination

The state of Texas requires that students registering for the first time at ASU or returning to ASU after taking at least one long semester away from continuous enrollment must provide verification of appropriate bacterial meningitis vaccination, effective January 1, 2012. Verification of vaccination must be received at least 10 days prior to the beginning of each enrollment period. If proof is not received by this date, the student will not be eligible to register for classes. It is, therefore, imperative that the student provide the necessary documentation in a timely manner.

Exceptions to the vaccination requirement are allowed in limited circumstances consistent with Texas legislation:

- An affidavit or certificate from a physician that states that the vaccination would be harmful to the health and well-being of the student.
- A conscientious exemption form from the Texas Department of State Health Services or the Texas Higher Education Board that states that the student is declining the vaccination for reasons of conscience, including a religious belief.

Complete information is available on the ASU website at http://www.angelo.edu/services/registrars_office/ meningitis.

Housing and Residential Programs

Single undergraduate students who are approved for admission will be allowed to register only after they have satisfied the requirements of the university’s housing policy. More information about the housing policy may be found on-line and students may apply on-line at http://www.angelo.edu/dept/residential_programs/.

Personal Standards

Angelo State University requires the same personal standards and applies the same criteria in considering applications for admission as it uses in the retention of students who are enrolled. The personal standards of conduct expected of students who enroll at Angelo State University are provided in the Student Life Regulations and Policies contained in the Student Handbook.

Admission Requirements

Undergraduate Programs

All undergraduate applicants will be required to submit a non-refundable, undergraduate application fee. Applications submitted without this fee will not be processed until the fee is received.

Angelo State University commits itself to the equal consideration of all qualified applicants for admission without regard to race, color, religion, sex, age, or national origin, and without regard to disabilities as required by the Americans with Disabilities Act of 1990. An applicant will be eligible for admission to the university when the Office of Admissions has on file the items required in the appropriate category, as listed below, and when all requirements in that category have been met.

- Application for Admission. *
- Official transcripts of high school records.
- Scores on the American College Test (ACT) or the Scholastic Assessment Test (SAT) (scores cannot be more than five years old).
- Current non-refundable application fee.

I. Assured Admission

Assured admission is granted to applicants based on satisfaction of the following requirements: a) graduate from an accredited high school or home school with a Texas Advanced or Recommended or Distinguished Achievement Program diploma or the Endorsements or Distinguished level of Achievement on the Foundation High School Program or its equivalent; and b) present the combination rank in class and minimum test scores indicated below.

<table>
<thead>
<tr>
<th>High School Class Rank</th>
<th>Test Scores ACT or SAT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Top 10%</td>
<td>No Minimum</td>
</tr>
<tr>
<td>Next 40%</td>
<td>17 / 820 (Math/Critical Reading)</td>
</tr>
<tr>
<td>3rd Qtr.</td>
<td>File Review</td>
</tr>
<tr>
<td>4th Qtr.</td>
<td>File Review</td>
</tr>
</tbody>
</table>

Assured admission may also be granted to applicants not on a Texas High School Diploma Program but who meet one of the requirements listed below and meet the class rank and test score requirements noted above. The required SAT scores for assured admission are based on the math and critical reading portions of the SAT only.

a. Submit, for private and home school students, the Texas Private High School Certification Form published by and made available on the Texas Higher Education Coordinating Board website.

b. Satisfy ACT’s College Readiness Benchmarks on the ACT assessment.

c. Earn an SAT assessment score of at least a 1500 out of 2400.

Students who are unranked or fall within the 3rd or 4th quartiles will have their file reviewed to determine admissibility and potential for success at Angelo State University. Consideration factors could include, but are not limited to, the applicant’s academic record, class rank, standardized test scores, first-generation status, bilingual pro-

* An application for admission form may be obtained by accessing the University’s website at http://myfuture.angelo.edu/
ficiency, extracurricular activities, community activities, region of residence, socioeconomic background, financial status of the school district, the school district’s performance level on the TEA’s accountability criteria, responsibilities such as employment or helping to rear children, resident of a rural or urban area or a resident of a central city or suburban area, attendance in a school under a court ordered desegregation plan, commitment to a particular field of study, personal interview, admission to a comparable accredited out-of-state institution, any other consideration the university considers necessary to accomplish the university’s stated mission.

II. Admission File Review of Freshman Applicants

Applicants who do not meet the assured admission criteria will have their records reviewed to evaluate other factors that predict success at Angelo State University. Consideration factors are the same as those used in the Assured Admission for applicants who are unranked or in the 3rd or 4th quartile.

III. Admission to A College Major

All new students will be admitted to the university then to a college and major. A college or major may have admission requirements in addition to those of the university.

IV. General Equivalency Diploma (GED) Admission

Individuals who are not high school graduates but who have submitted evidence of a high school equivalency diploma from the Texas Education Agency (or equivalent agency in other states) may be eligible for admission to Angelo State University when they have submitted all of the following items to the Office of Admissions:

• Application for Admission
• Scores on the ACT or the SAT (scores cannot be more than five years old).
• Current non-refundable application fee.

These applicants must meet one of the following admission requirements:

a. Satisfy the College Readiness Benchmarks on the ACT assessment.

b. Earn an SAT assessment score of at least a 1500 out of 2400.

c. Meet Texas Success Initiative (TSI) exemption requirements with a composite score of 23 or above (19 subscore in English and math) on the ACT or a combined verbal and math score of 1070 (minimum 500 verbal and 500 math subscores) or above on the SAT or provide passing scores on the TSI assessment test.

Students granted enrollment to take academic courses under the Springboard ASU Dual Credit/Concurrent Enrollment Admission Program will not be considered as having officially been admitted to, nor matriculated at, Angelo State University until they graduate from high school and enroll in the university as regular students.
Admission to the University

VI. Transfer Admissions
Students transferring from an accredited college or university will be eligible for admission to Angelo State University when they have met all admission requirements and have on file in the Office of Admissions the following items:

- Application for Admission.
- Official transcripts of all college or university work.
- Current non-refundable application fee.

a. Transfer students from an accredited college or university who are not on disciplinary suspension may be admitted if their cumulative grade point average on all college level work attempted meets the following criteria and the other designated requirements:

<table>
<thead>
<tr>
<th>Total College Level Semester Credit Hours Attempted</th>
<th>Minimum Cumulative Grade Point Average and Other Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-17</td>
<td>2.00 and meet admission criteria for regular admission for high school graduates</td>
</tr>
<tr>
<td>18 or more</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Students who are on academic suspension at any institution attended are ineligible for admission to Angelo State University until the period and terms of the suspension have been satisfied and the above criteria have been met.

b. Graduates from an accredited two-year college with the associate degree will be admitted to Angelo State University once official transcripts demonstrating a 2.00 GPA or greater on all transferable coursework have been received in the Office of Admissions. However, a maximum of sixty-six semester credit hours of college level academic course work may be applied toward a bachelor’s degree at ASU. ASU will not accept transfer credit for developmental courses.

c. When calculating a transfer grade point average, grades of “A”, “B”, “C”, “D”, and “F” are computed as recorded. Grades of “WF” are averaged as “F”. When a course has been repeated, the last grade stands and is used for GPA calculations. Grades in non-transferable, developmental, and some technical/vocational courses are disregarded.

d. Students meeting all admission requirements who are currently enrolled in another college or university are not able to provide current transcripts of all previous work may appeal their admission to the Office of Admissions. It is the responsibility of the students to provide the official transcript to the Office of Admissions or be subject to forced withdrawal.

VII. Admission Review of Transfer Applicants
Transfer applicants who do not meet the admission GPA requirements but who have a minimum GPA of 2.00 on transferable coursework will have their records reviewed to evaluate other factors that could predict success at Angelo State University. A committee will review applicants holistically. Academic information such as the types of courses taken and the pattern of progress, as well as course work taken leading toward the major, the student-submitted essay explaining her/his decision to transfer to Angelo State University, reasons for past academic performance and plans to ensure future academic success, and extracurricular activities or employment information will be sued to evaluate the applicant.

VIII. Former Student Admissions
All former undergraduate Angelo State University students who did not attend one long semester (fall or spring) must re-apply for undergraduate admission to re-enter ASU. They must submit an application for undergraduate admission and the current non-refundable application fee.

Former ASU students who attend another college or university after leaving ASU will be considered as transfer students and must meet the requirements listed in section 6 above. Students must submit official transcripts of all college or university course work since their last enrollment at ASU. The cumulative grade point average of all official transcripts that were not previously received in the Office of Admissions must be a minimum 2.00.

Students who leave ASU on scholastic probation may be re-admitted on scholastic probation. If a student was suspended from ASU, he or she may return on probationary status after complying with the suspension requirements.

IX. Transient Admissions
Applicants who have completed college work and are working toward a degree at another college or university are eligible to be considered for transient admission. Applicants who desire to register for any term may be considered for enrollment without regard to the provisions of (section 6) above, but must not be on academic suspension from another institution.

Transient students are required to submit an application for undergraduate admission, the current non-refundable undergraduate application fee, and proof of good standing with their current institution.

X. Post-baccalaureate Admissions
Post-baccalaureate admission is granted to students who have been awarded a bachelor’s degree and do not want to obtain another undergraduate degree. Post-baccalaureate students are required to submit an application for undergraduate admission, current non-refundable undergraduate application fee, and proof of baccalaureate degree.

ASU undergraduate students who are in good standing and seek post-baccalaureate admission for the term directly following their graduation need to submit a Continuing Education Verification Form for admission.

XI. Provisional Admission
a. Freshman applicants not admitted through the university’s standard admission and review process may be considered for admission through the provisional admission program.

b. Students may satisfy their provisional admission requirement in one of two ways:

1) Apply and be accepted to the Angelo State Direct Path Program, a partnership with Howard College. Upon earning 18 transferable credit hours with a cumulative 2.00 or higher grade point average a student will be fully admitted to Angelo State University.

2) Participate in the Summer Gateway Program by enrolling in and completing six hours of transferable coursework with a 2.00 or greater grade point average either at Angelo State University or at another college or university. Following successful completion of the requirements, a student will be admitted to Angelo State University.
XIII. Other Provisions and Conditions of Admission

All other provisions and conditions of admission not covered by the above admission requirements shall be established by the president of the university.

XIII. Admission Decision Appeals

The policies and procedures for considering admission decision appeals shall be established by the vice president for student affairs and enrollment management, subject to approval by the president of the university. The university’s decision in all such cases shall be final.

---

General Statement Regarding Transfer Students

Angelo State University (ASU) seeks students from two-year and four-year colleges and will assist those students in every reasonable way to make the transition to ASU as efficient as possible. The University will accept transfer credits from regionally accredited institutions and will apply up to sixty-six semester credit hours from a two-year college toward a bachelor’s degree. Current ASU students who enroll in courses at two-year colleges or four-year universities during the summer or otherwise must have an official transcript of earned course work sent to the Office of Admissions. The semester credit hours (SCH) fulfilling the education requirements and requirements for the major are designated in the academic regulation sections of this Catalog. The ASU core course numbers and the Texas Common Course Numbers can be found beginning on page 318.

Beginning fall 2011, undergraduate transferable coursework with a grade of “C” or better may be used to satisfy an undergraduate ASU degree plan as credit only. Transferable grades of “D” will not be used to satisfy degree requirements, including core requirements and course pre-requisites.

The Office of Admissions, in conjunction with the Department of Security Studies and Criminal Justice, will make an exception to standard policy with regard to Community College of the Air Force (CCAF) credits for a CCAF degree-holder. All credits from CCAF associate’s degrees will be accepted and applied toward your degree plan. However, should you choose to change your degree plan to a degree other than those specified below, the transfer credits originally accepted and applied may be revoked. If a CCAF degree-holder has additional college credits beyond the basic CCAF A.A.S. degree, ASU may accept those as well, over and above the stated maximum number of transfer credit hours (66) that may apply toward a degree plan. Again, exception to standard ASU policy will be retracted if you later choose a degree plan other than specified below.

- B.B.S. in Border Security
- B.C.C.S.S. in Cultural Competence and Security Studies
- B.C.F.S.S. in Cultural Fluency and Security Studies
- B.I.S.S.A. in Intelligence, Security Studies, and Analysis

---

Policy on Transfer Credit Disputes

(a) The following procedures shall be followed by Texas public institutions of higher education in the resolution of transfer disputes involving lower division courses:

(1) If an institution of higher education does not accept course credit earned by a student at another institution of higher education, the receiving institution shall give written notice to the student and to the sending institution that transfer of the course credit is denied, and shall include in the notice the reasons for denying the credit. Attached to the written notice shall be the procedures for resolution of transfer disputes for lower-division courses as outlined in this section, accompanied by clear instructions outlining the procedure for appealing the decision to the Commissioner.

(2) A student who receives notice as specified in paragraph (1) of this subsection may dispute the denial of credit by contacting a designated official at either the sending or the receiving institution.

(3) The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with Board rules and guidelines.

(4) If the transfer dispute is not resolved to the satisfaction of the student or the institution within 45 days after the date the student received written notice of the denial, the sending institution may notify the Commissioner in writing of the request for transfer dispute resolution, and the institution that denies the course credit for transfer shall notify the Commissioner in writing of its denial and the reasons for the denial.

(b) The Commissioner or the Commissioner’s designee shall make the final determination about a dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institution.

(c) Each institution of higher education shall publish in its course catalogs the procedures specified in subsections (a), (b), (d), and (e) of this section.

(d) The Board shall collect data on the types of transfer disputes that are reported and the disposition of each case that is considered by the Commissioner or the Commissioner’s designee.

(e) If a receiving institution has cause to believe that a course being presented by a student for transfer from another school is not of an acceptable level of quality, it should first contact the sending institution and attempt to resolve the problem. In the event that the two institutions are unable to come to a satisfactory resolution, the receiving institution may notify the Commissioner, who may investigate the course. If its quality is found to be unacceptable, the Board may discontinue funding for the course.

A Transfer Dispute Resolution Form must be completed and forwarded to the receiving institution within 15 calendar days after the evaluation has been submitted to the student. (Form available in the Office of Admissions.)
Admission to the University

**Fresh Start**

An applicant for admission who is a Texas resident may seek to enter this institution pursuant to the “academic fresh start” statute, Texas Education Code, 51.931. If the applicant informs the Admissions Office in writing of the election at the time of application to the University, the institution will not consider academic course credits or grades earned by the applicant 10 or more years prior to the starting date of the semester in which the applicant seeks to enroll. An applicant who chooses to apply under this statute may not receive any course credit for courses taken 10 or more years prior to enrollment. All students who wish to enroll in academic course work at Angelo State University under the “academic fresh start” must submit an Application for Admission and official transcripts of all college or university work attempted and current application fee.

**International Student Admissions**

Angelo State University is authorized under Federal law to enroll nonimmigrant alien students.

A student from a foreign country will be eligible for admission to Angelo State University and a Form I-20, Certificate for Eligibility, will be issued when all admission requirements have been met and the following items are on file in the Center for International Studies:

I. Graduates of foreign secondary schools who have completed the equivalent of at least an American high school diploma (12th grade) may apply for admission to Angelo State University by writing to the Center for International Studies and submitting the online application at [https://www.applytexas.org](https://www.applytexas.org). The mailing address for the Center for International Studies is ASU Station #11035, San Angelo, TX 76909-1035, and the website address is [http://www.angelo.edu/dept/cis/](http://www.angelo.edu/dept/cis/).

II. Applicants with foreign academic credentials must provide academic records in the original language with a certified English translation. Applicants who have attended school outside the United States must provide official results of secondary external examinations (e.g., GCE “Ordinary” level exams) on examination board letterhead, certificates of completion of a state secondary school examination, and official transcripts from any university-level studies already completed in the United States or elsewhere. Failure to provide complete information regarding post-secondary level study could result in cancellation of admission. Students who have completed secondary school in the United States also must take and submit scores from the SAT or ACT.

III. Students whose native language is not English also must present a score of at least 550 (paper-based exam), 213 (computer-based exam), or 79 (internet-based exam) on the Test of English as a Foreign Language (TOEFL). Or students may present a score of at least 6.5 on the International English Language Testing System (IELTS). The TOEFL/IELTS requirement may be waived if the student has attended a U.S. high school or college for at least two consecutive years or if the student is a citizen in a country where English is the native language. Angelo State University will make the final decision regarding approved English speaking countries. A list of approved English speaking countries is on file in the Center for International Studies. Information concerning the TOEFL may be obtained from Educational Testing Service, P.O. Box 899, Princeton, New Jersey 08540, U.S.A. Information concerning the IELTS may be obtained from IELTS International, 825 Colorado Boulevard, Suite 112, Los Angeles, California 90041, U.S.A.

**Students not meeting the TOEFL or IELTS requirements can apply to the English Language Learners Institute (ELLI) and may be provisionally admitted. After successful completion of ELLI requirements, student may begin their undergraduate program.**

IV. International students not living in the United States are encouraged to apply a year in advance. International students are required to verify their ability to support themselves financially. Please visit the Center for International Studies website for more information on the cost to attend. The website address is: [http://www.angelo.edu/dept/cis/admission_requirements.php](http://www.angelo.edu/dept/cis/admission_requirements.php).

V. A nonrefundable application fee is required. An International Money Order or U.S. Postal Money Order for the current application fee must accompany the international student application. Students who apply on-line through the Texas Common Application may pay the current application fee with a credit card at the time of application.

An international applicant must have all of these items on file in the Center for International Studies no later than June 10 in order to register for the fall semester, November 1 to register for the spring semester, and March 15 to register for the summer session.

International students are subject to the same special requirements regarding satisfactory writing, reading, and mathematics skills as imposed on high school graduates or transfer students based upon their scores on their ACT or SAT exams and the requirements established by the Texas Success Initiative (TSI).

**Insurance Requirement for International Students**

All international students will be automatically billed by ASU for the Group Hospitalization, Medical U.S. Evacuation, and Repatriation Insurance plan provided through the University for each semester enrolled. Further information regarding insurance coverage and cost may be obtained from the University’s Center for International Studies.

* See page 287 regarding TSI requirements.*
Tuition and Fees

A complete list, including authority and explanations for tuition and fees, is available on the Tuition and Fees web page https://www.angelo.edu/services/controller/sa_tuition&fees.php. Tuition and fee grids are provided on the site to assist students in estimating the cost of attendance based on enrolled semester hours.

The Student Accounts Office is responsible for billing and collection of student accounts. Angelo State University reserves the right, without notice in this or any other publication, to change, amend, add to, or otherwise alter any or all fees, dues, rates, or other charges set forth herein and subject to action by the Texas State Legislature, the Board of Regents of the Texas Tech University System, or other authority.

It is the student’s responsibility to ensure payment of tuition and fees based on the number of semester credit hours for which they register is received by the payment due date.

Textbooks

All students whether residents or nonresidents of Texas will be required to procure such textbooks as are prescribed for the respective courses in which they are enrolled. All required textbooks may be purchased at the ASU Bookstore located in the Houston Harte University Center. The ASU Bookstore will in turn purchase these books from the students at the end of each term, depending upon the condition of the book and whether it is still on the required list.

In addition to the selection of new and used textbooks available for purchase, the ASU Bookstore offers a textbook rental program. For additional information regarding textbook selection and purchase/rental options, visit www.angelo.bkstr.com, email angelo@bkstr.com, or call 325-942-2335.

Payment Procedures

Student billing statements and payment due dates may be viewed electronically via RamPort https://ramport.angelo.edu/cp/home/displaylogin by selecting the Student Services Tab, Student Accounts Channel and View My Bill. Class schedules are not valid until the ASU Student Accounts Office has received payment of the current amount due including financial aid credit. Payment must reach the Student Accounts Office, or payment arrangements must be made, prior to the close of business on the due date. Failure to make payments by the due date will result in cancellation of the student’s registration after the close of business on the due date. Students who are cancelled prior to the first class day for nonpayment must re-register for classes, and the original schedule is not guaranteed.

Dropped/Late Registration Fee: A late registration fee will be charged to registrations after the payment due date and for registrations dropped due to non-payment.

Payment Options

A student may pay for tuition and mandatory fees for the fall and spring semesters by one of two methods: payment in full or payment in four installments. A student selecting the four payment installment plan that has made a payment or received a credit to their account may not be removed from the plan. However, the full amount due plus the applicable fee may be paid in full at any time. All available financial aid awarded to a student will be applied toward the full amount due to the university before the installment payments are scheduled. The installment option is not available for the summer semesters.

The installment plan consists of four payments of 25% of the tuition, fees, and room and board charges, if applicable. A fee for enrolling in the plan will be charged. Initial installments may also be due depending on the time of enrollment in the plan. Students making an installment payment after the due date will be assessed a late fee.

During the add/drop period, students adding courses on the installment program will be required to pay 25% of the full cost for the additional courses at the time the courses are added. Students dropping hours will pay installments on the basis of semester credit hours for which they are currently enrolled. Any refund will be applied toward the installment payments still due. Students officially withdrawing from the university must pay all tuition and fees owed at the time of withdrawal.

Short Term Loans

Emergency loans in varying amounts are available to students on a limited basis with a minimal service charge assessed. A separate application is required for each term and the plan does not include balances due for housing, incidental fees or other institutional charges. Additional information regarding short term loans is available via http://www.angelo.edu/cstudent.
### Tuition and Fees

#### General Payment Information

Payment can be made as follows:

- **In person**: Students can pay in cash at the Student Accounts Office located in the Administration Building, Room 100 between 8am and 5pm Monday through Friday, or by personal check, money order, VISA, MasterCard, American Express or Discover Card. Checks should be made payable to Angelo State University. All payments made other than cash are subject to final acceptance for payment.

- **By mail**: Cash should not be sent through the mail and Angelo State University accepts no responsibility for cash sent by mail. Payments may be mailed to ASU Student Accounts Office, ASU Station #11046, and San Angelo, TX 76909.

- **By web – students**: Pay online at [angelo.edu/webpay](http://angelo.edu/webpay), VISA, MasterCard, American Express, Discover Card and e-check accepted.

- **By web – parents**: Students must login to web pay and select “Your Account” for more information on adding additional users. VISA, MasterCard, American Express, Discover Card and e-check accepted.

#### Return Check Charge:

A fee will be assessed for each check or e-check returned from the bank unpaid. A return check or e-check for the initial payment of tuition and fees may result in cancellation of enrollment. Responsibility rests with the students regardless of the maker of the check.

#### Refund Policy

Change in class schedule. Any refund as a result of a class change will be processed and distributed within 40 days after the drop period has ended for the semester or term. The class change refund amount will be in accordance with the following schedule:

**Fall or Spring Semester**

- 1st class day through 12th class day ........................................... 100%
- After the 12th class day ................................................................. None

**Summer terms**

- 1st class day through 4th class day ........................................... 100%
- After the 4th class day ................................................................. None

**Withdrawal from the university.** Withdrawal from the university is defined as leaving the university for the remainder of the semester and being officially removed from all classes. This includes students withdrawing from the university at their request or those who have been withdrawn due to university action. Students must contact the Office of the Registrar to complete the withdrawal process. Students who do not complete the withdrawal process by the appropriate deadline will be assigned a grade in each of their classes. Students officially withdrawing from the university may be eligible for a refund of tuition and fees according to the following schedule. (Class days indicated below is defined by the official university calendar, not the individual students’ calendar.)

**Fall, Spring, or Summer term of 10 weeks or longer**

- Prior to the first class day ......................................................... 100%
- During the 1st through 5th class days ........................................ 80%
- During the 6th through 10th class days ....................................... 70%
- During the 11th through 15th class days .................................... 50%
- During the 16th through 20th class days .................................... 25%
- After the 20th class day ............................................................. None

#### Term or session of five weeks but less than 10 weeks

- Prior to the first class day ......................................................... 100%
- During the 1st through 3rd class days ........................................ 80%
- During the 4th through 6th class days ....................................... 50%
- After the 6th class day ............................................................. None

#### Term or session of five weeks or less

- Prior to the 1st class day ......................................................... 100%
- During the 1st class day ............................................................ 80%
- During the 2nd class day ............................................................ 50%
- After the 2nd class day ............................................................. None

Financial aid recipients who officially withdraw from the university and those who are determined to have unofficially withdrawn due to receiving “Fs” in all courses in which he/she was enrolled for the semester or term will be subject to the Federal Return of Title IV refund calculation. This calculation will determine the amount of awarded aid the student earned and the amount of awarded aid the student did not earn and must be returned to the aid program(s).

#### Exemptions and Waivers

All exemptions and waivers have been authorized by statute in the Texas Education Code or through action of the Board of Regents of the Texas Tech University System. Angelo State University reserves the right, without notice in this or any other publication, to change, amend, add to, or alter any or all exemptions and waivers subject to and in accordance with actions of the Texas State Legislature and/or the Board of Regents.

A complete list of waivers and exemptions offered by Angelo State University can be found at [http://www.angelo.edu/csstudent](http://www.angelo.edu/csstudent). For additional information, contact the Student Accounts Office at 325-942-2008 or 877- 942-2008.

#### Statement on Refunds

Angelo State University has adopted and published in the Student Handbook “Grievance and Appeal Procedures for Students at Angelo State University.” In cases where students or parents feel that individual circumstances warrant exceptions from published policy regarding charges or refunds at Angelo State University and where such matters are not satisfactorily resolved, the matter may be appealed by contacting the Registrar’s Office. The appeal must be submitted to the University no later than 90 days after the end of the term in which the occurrence happened.

#### $1,000 Tuition Rebates

The purpose of this program is to provide tuition rebates that will provide a financial incentive for students to prepare for their university studies and complete their baccalaureate studies with as few courses outside the degree plan as possible. This program is authorized by the Texas Education Code, Section 54.0065.

The major conditions the student must meet to qualify for this program are as follows: (1) they must have enrolled for the first time in an institution of higher education in the fall 1997 semester or later, and (2) they must have attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree.

These are the major conditions to qualify for this program. ASU students must complete a Request for Tuition Rebate form in the Registrar’s Office during the semester in which graduation is anticipated. For complete details about this program, please contact the Registrar’s Office.
Angelo State University Tuition Rebate for Undergraduates

Information regarding the tuition rebate program at Angelo State University is published in the University Catalog. We are also listed on the College for Texans website www.collegefortexans.com as participating in this program.

Upon initial enrollment at Angelo State University, faculty advisors will inform first-time freshmen or new advisees of the tuition rebate program so that they will be aware the program exists. Upon submission of an application for graduation, the respective dean’s offices will remind students of this program, the deadlines for applying and where the appropriate forms can be obtained, if not given out from their offices.

Students may obtain the required application for tuition rebate from the Registrar’s Office along with a copy of the Texas Education Code that created this benefit, if they so desire. Referral to the University Catalog for additional information is relayed to students as well. The application for tuition rebate is required prior to students receiving their baccalaureate degree and is to be turned in only during the semester the student intends to graduate. Any applications made prior to the semester of, or after graduation, will be considered invalid and will not be processed. Once students have officially graduated, their eligibility for the rebate is determined. Students will be informed of the tuition rebate decision within no later than 60 days following graduation. Students who do not meet eligibility for the tuition rebate will be notified by letter which will include the reason(s) for award denial. Those that meet eligibility requirements will receive a check from Angelo State University, or if outstanding loan obligations to the University are owed, the Bursar’s Office will notify the student that the award amount has been applied to said financial obligation. Any excess not applied to loan obligations will be awarded to the students.

Disputes regarding the tuition rebate will be directed first to the office overseeing the process. If resolution is not found there, the appeal process will be taken to the appropriate Director, Dean or Vice Presidential level which will have final say on the appeal. Angelo State University will follow the guidelines set forth by both the Texas Legislature and the Texas Higher Education Coordinating Board.

Texas Education Code

§Sec. 54.0065. Tuition Rebate for Certain Undergraduates.
I. A qualified student is eligible for a rebate of a portion of the undergraduate tuition the student has paid if the student:

A. is awarded a baccalaureate degree from a general academic teaching institution within the period prescribed by Section 56.462(1)(A) or (B), as applicable, to qualify for forgiveness of a Texas B-On-time loan; and

B. has attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree program:

1. including:
   (a) transfer credits; and
   (b) course credit earned exclusively by examination, except that, for purposes of this subsection, only the number of semester credit hours earned exclusively by examination in excess of nine semester credit hours is treated as hours attempted; and

2. excluding:

   (a) course credit that is earned to satisfy requirements for a Reserve Officers’ Training Corps (ROTC) program but that is not required to complete the degree program; and
   (b) course credit, other than course credit earned exclusively by examination, that is earned before graduating from high school.

II. The amount of tuition to be rebated to a student under this section is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution of higher education awarding the degree was less than $1,000, in which event the amount of tuition to be rebated is an amount equal to the amount of undergraduate tuition paid by the student to the institution. However, a student who paid the institution awarding the degree an amount of undergraduate tuition less than $1,000 may qualify for an increase in the amount of the rebate, not to exceed a total rebate of $1,000, for any amount of undergraduate tuition the student paid to other institutions of higher education by providing the institution with proof of the total amount of that tuition paid to other institutions of higher education.

III. A student who has transferred from another institution of higher education shall provide the institution awarding the degree an official transcript from each institution attended by the student in order that the period during which the student has been enrolled in a general academic teaching institution and the total number of hours attempted by the student can be verified.

IV. To qualify for a rebate under this section, the student must have been a resident of this state and entitled to pay tuition at the rate provided by this chapter for a resident student at all times while pursuing the degree.

V. All institutions of higher education shall notify each first-time freshman student of the tuition rebate program.

VI. The institution awarding the degree shall pay the rebate under this section from local funds.

VII. If a student entitled to a rebate under this section has an outstanding student loan, including an emergency loan, owed or guaranteed by this state, including the Texas Guaranteed Student Loan Corporation, the institution shall apply the amount of the rebate to the student’s loan. If a student has more than one outstanding loan, the institution shall apply the amount of the rebate to the loans as directed by the student or, if the student fails to provide timely instructions on the application of the amount, the institution shall apply the amount of the rebate to the loans according to priorities established by the coordinating board. If the amount of the rebate exceeds the amount of the loan indebtedness, the institution shall pay the student the excess amount.

VIII. The legislature shall account in the General Appropriations Act for the rebates authorized by this section in a way that provides a corresponding increase in the general revenue funds appropriated to the institution. It is the intent of the legislature that rebates authorized by this section shall be financed by savings to the state resulting from reductions in the number of courses taken by undergraduate students.

IX. The coordinating board, in consultation with the institutions of higher education, shall adopt rules for the administration of this section, including a rule to allow an otherwise eligible student to receive a rebate under this section if the student is not awarded a baccalaureate degree within the period required by Subsection (a)(1) solely as a result of a hardship or other good cause. The performance of active duty military service by a student shall be recognized as “good cause” for purposes of this section.

Angelo State University Undergraduate and Graduate Catalog 2013-2014
Tuition and Fees

Tuition Rebate for Certain Undergraduates

Authorized by Section 54.0065 of the Texas Education Code

Chapter 13. Financial Planning

Subchapter E. Tuition Rebates for Certain Undergraduates

THECB Rules and Regulations

§13.80 Purpose

The purpose of this program is to provide tuition rebates that will provide a financial incentive for students to prepare for university studies while completing their high school work, avail themselves of academic counseling, make early career decisions, and complete their baccalaureate studies with as few courses outside the degree plan as possible. Minimizing the number of courses taken by students results in financial savings to students, parents, and the state.

Source Note: The provisions of this §13.80 adopted to be effective May 21, 2001, 26 TexReg 3627.

§13.81 Authority

The program is authorized by Texas Education Code, §54.0065.

Source Note: The provisions of this §13.81 adopted to be effective May 21, 2001, 26 TexReg 3627.

§13.82 Eligible Students

To be eligible for a rebate under this program, a student must:

(a) have enrolled for the first time in an institution of higher education in the fall 1997 semester or later;

(b) request a rebate for coursework related to a first baccalaureate degree received from a general academic teaching institution;

(c) have been a resident of Texas as set forth under Chapter 21, Subchapter B of this title (relating to Determining Residence Status) and have been entitled to pay resident tuition at all times while pursuing the degree;

(d) if enrolled for the first time in fall 2005 or later, graduate within four calendar years for a four-year degree or within five calendar years for a five-year degree if the degree is in architecture, engineering, or any other program determined by the Board to require more than four years to complete; and

(e) have attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree under the catalog under which the student graduated. Hours attempted include transfer credits, course credit earned exclusively by examination (except that, for the purposes of this program, only the number of semester credit hours earned exclusively by examination in excess of nine semester credit hours is treated as hours attempted), courses dropped after the official census date, optional internship and cooperative education courses, and repeated courses. Hours attempted shall not include course credit that is earned to satisfy requirements for a Reserve Officers’ Training Corps (ROTC) program but that is not required to complete the degree program, course credit, other than course credit earned exclusively by examination, that is earned before graduating from high school, and courses dropped for reasons that are determined by the institution to be totally beyond the control of the student. For students concurrently earning a baccalaureate degree and a Texas teaching certification, required teacher education courses shall not be counted to the extent that they are over and above the free electives allowed in the baccalaureate degree program.

Source Note: The provisions of this §13.82 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective December 3, 2003, 28 TexReg 10756; amended to be effective November 22, 2005, 30 TexReg 7729; amended to be effective November 29, 2011, 36 TexReg 8014.

Effective for students who enroll for the first time in fall 2005 or later, an otherwise eligible student may be eligible for a tuition rebate without satisfying the requirements of §13.82(4) of this title (relating to Eligible Students), if the student is awarded a baccalaureate degree and the institution determines that the student has demonstrated a hardship under the policy required by §13.85(g) of this title (relating to Responsibilities of Institutions).

Source Note: The provisions of this §13.83 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective November 22, 2005, 30 TexReg 7729.

§13.84 Amount of Tuition Rebates

(a) The amount of tuition to be rebated to a student under this program is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution awarding the degree was less than $1,000, in which event the amount of tuition to be rebated is an amount equal to the amount of undergraduate tuition paid by the student to the institution.

(b) A student who paid the institution awarding the degree an amount of undergraduate tuition less than $1,000 may qualify for an increase in the amount of the rebate, not to exceed a total rebate of $1,000, for any amount of undergraduate tuition the student paid to other Texas public institutions of higher education by providing the institution awarding the degree with proof of the total amount of that tuition paid to other institutions.

(c) Tuition rebates shall be reduced by the amount of any outstanding student loan, including an emergency loan, owed to or guaranteed by this state, including the Texas Guaranteed Student Loan Corporation. If a student has more than one outstanding student loan, the institution shall apply the amount of the rebate to the loans as directed by the student. If the student fails to provide timely instructions on the application of the amount, the institution shall apply the amount of the rebate to retire the loans with the highest interest rates first.

Source Note: The provisions of this §13.84 adopted to be effective May 21, 2001, 26 TexReg 3627.

§13.85 Responsibilities of Institutions

(a) Institutions of higher education shall include information regarding this program in the institution’s catalog.

(b) If requested by potentially eligible students, institutions of higher education shall provide these students opportunities to enroll during each fall and spring semester in the equivalent of at least 12 semester credit hours that apply toward their degrees. Institutions are not required to provide students with the opportunity to enroll in specific courses or specific sections. Public two-year colleges will comply to the extent that courses for the current semester are being offered that apply to the student’s baccalaureate degree program.
The requirement may be met by allowing substitutions for required courses or by allowing concurrent enrollment in courses from another institution, so long as the courses are taught on the students’ home campus and the students incur no financial penalty.

(c) General academic teaching institutions shall provide students with appropriate forms and instructions for requesting tuition reimbursement at the time that students apply for baccalaureate degrees.

(d) Institutions shall provide tuition rebates to students who apply within 60 days after graduation or provide the student with a statement explaining the reason the student is ineligible for the rebate.

(e) Institutions shall provide a dispute resolution process to resolve disputes related to local administration of the program.

(f) Disputes related to lower division credit transfer shall be resolved in accordance with Coordinating Board rules, §4.27 of this title (relating to Resolution of Transfer Disputes for Lower-Division Courses).

(g) Institutions shall establish policies and procedures for allowing otherwise eligible students to qualify for tuition rebates under this program, if the student receives a baccalaureate degree and demonstrates that the failure to comply with §13.82(4) of this title (relating to Eligible Students) was caused by a hardship condition. The policies and procedures shall include, but shall not be limited to, the following conditions:

1. a severe illness or other debilitating condition that may affect the student’s academic performance;

2. an indication that the student is responsible for the care of a sick, injured, or needy person and that the student’s provision of care may affect his or her academic performance; or

3. performance of active duty military service.

(h) Institutions may adopt policies and procedures for administering the program. For example, institutions may require students to declare their intent to qualify for a tuition rebate early in their careers or register prior to the beginning of the semester.

Source Note: The provisions of this §13.86 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective November 22, 2005, 30 TexReg 7729.

§13.87 Source of Funding

Tuition rebates shall be paid from institutional local funds. However, the enabling legislation provides that the Legislature shall account in the General Appropriations Act for the rebates in a way that provides a corresponding increase in the general revenue funds appropriated to the institution.

Source Note: The provisions of this §13.87 adopted to be effective May 21, 2001, 26 TexReg 3627.

Residency for Tuition

The determination of residency classification for tuition purposes is governed by statutes enacted by the Texas Legislature and rules and regulations promulgated by the Texas Higher Education Coordinating Board. A student is classified either as a resident of Texas or a non-resident of Texas, for tuition purposes. Residency classification, for tuition purposes, is based on the residency information an applicant provides on their application for admission. If an applicant or student is classified as a non-resident and wishes to be considered for reclassification as a resident, it is necessary to submit the Residency Reclassification Questionnaire available from the Testing Center or online at http://www.angelo.edu/services/registrars_office/residency.php. Documentation may be requested by the institution in order to resolve issues raised by the information provided in response to the Core Residency Questions.

The Texas Higher Education Coordinating Board rules include the following provisions covering some of the more common residency situations. The following information is neither exhaustive nor complete and should not be interpreted as such. Full regulations are available at the Office of the Secretary of State - Texas Administrative Code website and also on the College for All Texans website at: www.collegefortexans.com.

§13.86 Responsibilities of Students

(a) Students desiring to qualify for tuition rebates are responsible for complying with all rules and regulations related to administration of the program.

(b) Students desiring to qualify for tuition rebates are solely responsible for enrolling only in courses that will qualify them for the rebates.

(c) A student who has transferred from another public or independent institution of higher education is responsible for providing to the institution awarding the degree official transcripts from all institutions attended by the student.

(d) Students must apply for rebates prior to receiving their baccalaureate degrees on forms provided by the institution and must keep the institution apprized of their addresses for at least 60 days after their graduation date.

Source Note: The provisions of this §13.86 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective November 22, 2005, 30 TexReg 7729.
Determination of Residence Status

I. The following persons shall be classified as Texas residents and entitled to pay resident tuition:

A. a person who graduated from a public or accredited private high school in this state or received the equivalent of a high school diploma in this state, and maintained a residence continuously in this state for the thirty-six months immediately preceding the date of graduation or receipt of the diploma equivalent, as applicable; and the 12 months preceding the census date of the academic semester in which the person enrolls in an institution.

B. a person who established a domicile in this state not less than 12 months before the census date of the academic semester in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic semester in which the person enrolls in an institution.

C. a dependent whose parent established a domicile in this state not less than 12 months prior to the census date of the academic semester in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic semester in which the person enrolls in an institution.

II. The following non-U.S. citizens may establish a domicile in this state for the purposes of subsection (I) (A) or (B) of this section:

A. a Permanent Resident;

B. a person who is eligible for permanent resident status (a person who has filed an I-485 application for permanent residency and has been issued a fee/filing receipt or notice of action by USCIS showing that his or her I-485 has been reviewed and has not been rejected);

C. an eligible nonimmigrant that holds one of the approved types of visas. A complete list is available on the Coordinating Board website at http://www.thecb.state.tx.us/reports/.

D. a person classified by the USCIS as a Refugee, Asylee, Parolee, Conditional Permanent Resident, or Temporary Resident;

E. a person holding Temporary Protected Status, and Spouses and Children with approved petitions under the Violence Against Women Act (VAWA), an applicant with an approved USCIS I-360, Special Agricultural Worker, and a person granted deferred action status by USCIS;

F. a person who has filed an application for Cancellation of Removal and Adjustment of Status under Immigration Nationality Act 240A(b) or a Cancellation of Removal and Adjustment of Status under the Nicaraguan and Central American Relief Act (NACARA), Haitian Refugee Immigrant Fairness Act (HRIFA), or the Cuban Adjustment Act, and who has been issued a fee/filing receipt or Notice of Action by USCIS; or

G. a person who has filed for adjustment of status to that of a person admitted as a Permanent Resident under 8 United States Code 1255, or under the “registry” program (8 United States Code 1259), or the Special Immigrant Juvenile Program (8 USC 1101(a) (27)(J)) and has been issued a fee/filing receipt or Notice of Action by USCIS.

III. The domicile of a dependent’s parent is presumed to be the domicile of the dependent unless the dependent establishes eligibility for resident tuition under subsection (a)(1) of this section.

IV. A domicile in Texas is presumed if, at least 12 months prior to the census date of the semester in which he or she is to enroll, the person owns real property in Texas, owns a business in Texas, or is married to a person who has established a domicile in Texas. Gainful employment other than work-study and other such student employment can also be a basis for establishing a domicile.

V. The temporary absence of a person or a dependent’s parent from the state for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, U.S. Department of State, as a result of an employment assignment, or for educational purposes, shall not affect a person’s ability to continue to claim that he or she is a domiciliary of this state. The person or the dependent’s parent shall provide documentation of the reason for the temporary absence.

VI. The temporary presence of a person or a dependent’s parent in Texas for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense or service with the U.S. Department of State, or as a result of any other type of employment assignment does not preclude the person or parent from establishing a domicile in Texas.
Waivers

A person who is classified as a nonresident may qualify to pay resident tuition if:

- The student or student’s spouse or parent is a member of the Armed Forces or a commissioned officer of the Public Health Service and is stationed in Texas. (Military and Public Health Service personnel who maintain their official home of record as Texas or who meet the criteria for establishing a domicile in Texas are considered to be Texas residents.)
- The student is employed at least half-time as a teaching or research assistant in a position related to his/her degree program at a Texas public institution of higher education. The spouse and dependent his/her children of the student shall also pay resident tuition.
- The student or student’s spouse or parent is employed at least half-time on a regular monthly salaried basis as a teacher or professor at a Texas public institution of higher education.
- The student holds an approved competitive scholarship from Angelo State University of at least $1000 for the academic year or summer awarded by an official Angelo State University scholarship committee.
- The student or student’s spouse or parent has located in Texas as an employee of a business or organization that became established in this state as part of the state economic development and diversification program.

- The student is a New Mexico resident who resides in a county bordering Texas. Students must be residing in Texas while enrolled.
- The student is an Oklahoma resident who resides in a county bordering Texas. Students must be residing in Texas while enrolled.

For a complete listing of waiver programs, visit the THECB website at http://www.thecb.state.tx.us/ or http://www.collegeforalltexas.com/.

Procedures for Student Appeal on Matters of Residency for Tuition Purposes

- The original determination concerning the residency of a student shall be made by the Residency Determination Official, Office of the Registrar. The determination in every case shall be based upon the Rules and Regulations for Determining Residence Status as adopted by the Coordinating Board, Texas College and University System.
- Should the student not agree with the determination of his/her residency status, the student may appeal the decision to a committee consisting of the Director of Admissions, the Residency Determination Official, the Director of Financial Aid, and Bursar. This committee will review both sides of the matter in reaching a final decision. The student will be allowed to present the basis of his/her appeal of the decision.
- The decision of the committee shall be final.
Housing Information

Angelo State University recognizes an obligation to students to provide housing and dining facilities that are conducive to the students' academic and personal well-being. Housing is provided for both male and female, single students.

The residence hall program is an integral part of Angelo State University's overall educational objective of providing the best possible environment for the mental, physical, and emotional development of the students attending the institution. Residence hall living is an important part of University life.

In the residence halls, students associate with other students from various cities, states, and nations. Group study and discussions, academic support services, and special programs and activities all enhance the academic environment of the halls. University residence halls offer choices as to meal plans and payment plans. Recreational facilities are available.

Residence halls serve as a home away from home for many Angelo State University students. Efforts are made to create within each hall an atmosphere fostering a holistic learning environment through positive life experiences. In addition to each residence hall operating on a self-regulated hours system, allowing students to enter and leave the hall at any time they wish, visitation programs provide students the opportunity to have guests visit in their rooms during designated periods of time. This program encourages development of individual responsibilities, self-discipline, social graces, and interpersonal relationships. Each residence hall is provided with 24-hour security by University Police personnel.

Reservations
Prospective students wishing to make reservations for University housing must first apply for admission to Angelo State University and have Campus Identification (CID) and PIN numbers. Application for housing may be found on-line. Each reservation form must be accompanied by a $200 non-refundable application fee. More detailed information concerning the facilities and offerings of campus residence halls can be obtained on-line at http://www.angelo.edu/dept/residential_programs/ or by contacting the Housing and Residential Programs Office, ASU Station #11016, Angelo State University, San Angelo, Texas 76909, or by calling 325-942-2035 (email address: Housing@angelo.edu).

Students must fulfill all requirements for admission before a housing assignment will be issued.

Housing Policy
Single undergraduate students with less than sixty (60) semester credit hours of college level work who enroll at ASU and carry a total of 12 or more semester credit hours at ASU and who do not live at the full-time established residence of their parent(s) are required to reside in University-owned housing. Requests to commute from a parental residence from a distance of more than 100 miles must have approval from the Housing and Residential Programs office. The following categories are eligible for an exemption to this policy upon making a written request to the Housing and Residential Programs office:

- students who have at least six months of active duty military service.

Housing Policy
Note: Full-time established residence is defined as having proof of established full-time primary residence in San Angelo or within the approved 100 mile radius of the campus, for a minimum of one year prior to requesting exemption to the Housing Policy. Exceptions for employment or military transfer will be considered with supporting documentation.

If requesting exemption based on living with a sibling, in addition to meeting the requirements for full-time established residence, the sibling must meet at least ONE of the following exemption criteria:

- Be at least 21 years of age.
- Have earned 60 or more semester credit hours.

If residing in a rental property, siblings MUST be included on the same leasing contract.

Students not meeting any of the above exemption categories who desire to live off campus must submit a special circumstances exemption request to the Housing and Residential Programs office.

Requests for exemptions from the Housing Policy must be submitted along with all supporting documentation on or before August 1 for the fall semester or on or before December 15 for the spring semester.

The required forms for requesting exemptions from the Housing Policy may be obtained on-line at http://www.angelo.edu/dept/residential_programs/ or from the Housing and Residential Programs office. A University Housing Committee is available to review the decisions of the Housing and Residential Programs office when an appeal is made by a student whose request for an exemption has been denied.

A student who gives false information concerning housing will be subject to disciplinary action, including suspension from the University. A student found to be living off campus without approval from the Housing and Residential Programs office will be notified through United States mail and/or their ASU email account to move on campus. If this is not accomplished within ten (10) class days, then the Director of Housing and Residential Programs will initiate disciplinary action.

Exceptions to the Housing Policy
In the event the number of applications received for University housing indicates that spaces will not be available in the residence halls for all who apply, requests to live off campus from students not exempted by the above conditions will be authorized by the Director of Housing and Residential Programs based upon a priority system which gives consideration to academic classification, age, active military service, and length of time residing in a University residence hall. The priority system used by the Director of Housing and Residential Programs is one which, in the judgment of the University, will exempt those students who would benefit least from the living and learning experiences provided by the residence halls.
Room and Board Rates *
Please visit our website for current room and board rates:
http://www.angelo.edu/dept/residential_programs/.

Meal Plan
Cost and current information on meal plans is also available at:
http://www.angelo.edu/dept/residential_programs/.

Installment Program
In order to pay Room and Board charges in installments, you must select
the installment option at the time you register for classes.

Notice: Room and Board charges are subject to change by the Board of
Regents, The Texas Tech University System. Please contact the Housing
and Residential Programs Office at 325-942-2035 if you have any ques-
tions regarding Room and Board rates.

Refunds. Refunds are granted for room and board after the Director of
Housing and Residential Programs receives proper clearance from the ap-
propriate residence hall. All refunds are prorated on a daily basis. Students
should receive their refunds within thirty days from the University Student
Accounts Office. All requests for refunds must be submitted in writing by
the published deadlines. Refunds are subject to the terms and conditions of
the Student Housing Contractual Agreement.

Insurance. Angelo State University strongly recommends that all students
maintain hospitalization insurance to supplement the medical services pro-
vided by the University Health Clinic. Any student may enroll in the varsity
plan which is available at the University during fall, spring, and summer
registrations. Students are also encouraged to maintain personal property
insurance. Housing and Residential Programs is not responsible for damage
to personal property and renters insurance is strongly encouraged.

Schedule. The residence halls open for occupancy at 9 a.m. on the Friday
preceding the first day of class. Room keys may be obtained from the hall
offices. The first cafeteria meal will be served the day the residence halls
open. Food service is available between semesters and during Christmas.

* Room and Board charges are subject to change by the Board of Regents, Texas Tech
University System.

Roommates. The University reserves the right to assign roommates, al-
though consideration is given to student preferences where possible. Those
interested in rooming with particular students may indicate that via the on-
line system. Requests must be mutual. See the residential programs web-
site for more information.

Furnishings. Room furnishings in residence halls include beds, mattress-
es, chairs, desk, and closet or wardrobe. Students are expected to furnish
their own personal effects, including sheets, pillow cases, pillows, blankets,
bedspread, and towels. Card-operated automatic washers and dryers are
available in the residence halls. There is no charge for laundry for residential
students.

Electrical Appliances. With the exception of Vanderventer Apartments,
each room is furnished with a MicroFridge unit. The use in the residence
halls of electrical appliances not provided by the University is subject to au-
thorization. Students should contact the Housing and Residential Programs
Office for information regarding electrical appliances authorized in the resi-
dence halls. Students are normally allowed to use small appliances such
as audio-play devices, computers, lamps, hair dryers, and irons. However,
electrical appliances used for storage or preparation of food are prohibited
with the exception of University supplied refrigerator and microwave units.

Withdrawal. Fees will be forfeited by students who are asked to leave the
University for disciplinary reasons or who leave to evade disciplinary ac-
tion. Other fees may apply. Please consult the Student Housing Contractual
Agreement. Students must contact the Student Support Center to withdraw
from ASU.

Telephones. The majority of residential students use cell phone service as
their primary telecommunications device. As such, telephone service is not
provided in the residence halls. Courtesy and emergency phones are lo-
cated at designated locations in some common areas of the residence halls.
The philosophy of Angelo State University is based on the premise that deserving and capable students who wish to attend the University should not be deprived of this opportunity due to financial need. Angelo State University, through the Financial Aid Office, provides counseling and assistance to students experiencing financial difficulties. Assistance may be provided through scholarships, employment, loans, grants, or a combination of these programs, depending on the student’s needs. Scholarships (other than the Carr AFROTC Scholarships and departmental scholarships) are available through the Financial Aid Office.

Carr Blue and Gold Guarantee Program
The Carr Blue and Gold Guarantee Program will cover all tuition and mandatory fees over eight long semesters (summer terms not included). To maintain the financial support over the course of eight consecutive long semesters, individuals accepted into the program must meet and maintain published financial aid criteria and show satisfactory academic progress as an undergraduate student. Please contact the Scholarship Office or visit the Carr Scholarship page of the ASU website for specific information and eligibility requirements.

www.angelo.edu/services/financial_aid/scholarships/blue_and_gold.html

Carr Academic Scholarships
The Carr Academic Scholarship Program is one of the largest scholarship endowments at a regional university in the United States. During the 2012-2013 academic year, ASU students received over $5,000,000 in Carr Scholarships. Names for ASU benefactors Robert G. and Nona K. Carr, the scholarships are awarded based on high school GPA or class rank and ACT/SAT and can be renewed each year by students who maintain the academic criteria. Carr Academic Scholarships benefit one of every five ASU students. www.angelo.edu/services/financial_aid/scholarships/carr.html

Students Financial Aid

Types of Financial Aid

Scholarships
http://www.angelo.edu/services/financial_aid/scholarships/
Scholarships do not have to be repaid, and you can have more than one at a time. Generally, scholarships are awarded to students who meet special qualifications, often determined by academic or athletic success or artistic talent. Scholarships are also given to students who are part of an underrepresented group, while others are offered based on students’ academic area of study.

Grants
www.angelo.edu/services/financial_aid/grants.html
Grants are awarded based on need and do not have to be repaid. Federal, state, and institutional grants are available.

Veterans Affairs
New and transfer veteran and dependent students may apply for benefits in the Veterans Educational and Transitional Services (VETS) Center in room 113 of the Houston Harte University Center.

Please visit our website at: http://www.angelo.edu/dept/veterans/ for information on the following programs.

• Chapter 30: Montgomery GI Bill - Active Duty Educational Assistance Program
• Chapter 31: Vocational Rehabilitation
• Chapter 33: Post-9/11 Veterans Educational Assistance Act of 2008
• Chapter 34/30: Vietnam Era Veterans Educational Assistance Program (old)
• Chapter 35: Dependent’s Educational Assistance Program
• Chapter 1606: Montgomery GI Bill - Selected Reserve Educational Assistance Program
• Chapter 1607: Reserve Educational Assistance Program (REAP)

Employment
www.angelo.edu/services/financial_aid/employment.html
Federal and state work-study jobs are awarded to students with documented financial need. On-campus employment options are also available for students who are not eligible for work-study.

Loans
www.angelo.edu/services/financial_aid/long_term_loans/
Loans must be repaid with interest. The long-term types available include student loans, such as the Federal Stafford or Federal Perkins loans, parent loans, such as Federal PLUS loans, and private student loans, also known as alternative educational loans. Emergency short-term loans are also available.
Applying for Financial Aid

Information, instructions, and forms may be obtained by contacting the Financial Aid Office or by visiting the financial aid section of the ASU website at www.angelo.edu. Approval for admission or readmission to the university must be secured as a regular student and the evaluation of any transfer hours from the Admissions Office or the College of Graduate Studies to complete the application process.

Students requesting financial aid must have their eligibility determined each year. Aid can be awarded to students who continue to demonstrate a financial need for assistance and who remain in good standing and are making satisfactory progress in accordance with the Angelo State University Satisfactory Academic Progress Policy. www.angelo.edu/services/financial_aid/sap.php

Students are strongly encouraged to review the terms and conditions of financial aid and to direct questions to the Financial Aid Office concerning eligibility criteria, terms, rights, privileges, cost of attendance, refund policy for aid recipients, method of financial aid payment. Information handbooks are available upon request.

Satisfactory Academic Progress (SAP) Policy

The Higher Education Act of 1965, as amended, mandates institutions of higher education to establish policies to monitor the academic progress of students who apply for and/or receive federal financial aid. Angelo State University (ASU) makes its minimum standards applicable to all federal, state, and institutional financial aid programs for the purpose of maintaining a consistent policy for all financial aid applicants.

Though this policy establishes the minimum standards for all financial aid programs at ASU, individual aid programs may have unique qualitative and/or quantitative standards specific to the program as mandated by law or the program’s governing entity. Such programs include, but are not limited to, the TEXAS Grant Program, The Texas B-On-Time Loan Program, and the Carr Scholarship Program. Information concerning the minimum standards of such programs is available in the Financial Aid Office. www.angelo.edu/services/financial_aid/sap.php

President Lloyd D. Vincent was the longest serving president in the history of the institution. During his tenure as president starting in 1967, ASU’s enrollment had more than doubled from 2,556 in 1967 to more than 6,200 by 1994. By the time he had announced his impending retirement in 1995, he had served ASU as president for more than 26 years. But, while attending a board of regents meeting in Alpine in August of 1994, he suffered a stroke and died. Dr. Vincent had literally given his life to and for Angelo State University. His passing truly marked the end of an era.

To honor his memory, members of the ASU family and the community raised funds for a memorial that was dedicated adjacent to the University Mall at Johnson Street. The sculpture was the creation of San Angelo College graduate and renowned artist Lincoln Fox. “The Quest,” as Fox named the memorial, features an American Eagle swooping over a stack of books and lifting with his claw a partially opened book skyward.

Said the sculptor, “It is through education that man is able to soar beyond the shackles of ignorance and misconception, into a new life of freedom and accomplishment. It is the freeing of man’s imagination that allows his spirit to fly.”

The soaring eagle has a nine-foot wingspan and rests atop an obelisk that brings the monument’s height to 20 feet. The memorial with its bronze plaque bearing the likeness of Vincent honors not only the man but also the heights to which he took the university.
Graduate Studies

Overview

The College of Graduate Studies is a body of scholars designated as the graduate faculty and of students duly admitted to pursue studies beyond the baccalaureate degree. The members of the graduate faculty are expected to maintain active participation in their respective fields of scholarship. The administrative head of the College of Graduate Studies is the Dean of the College of Graduate Studies, who reports to the Provost and Vice President for Academic Affairs. In each graduate degree program, the Dean of the College of Graduate Studies, with the approval of the Provost and Vice President for Academic Affairs, appoints one member of the graduate faculty to be graduate advisor.

The Dean of the College of Graduate Studies supervises all graduate course offerings, the programs of individual graduate students, and the research projects (theses and reports) of the degree candidates. The graduate advisors assume immediate responsibility for the programs and counseling of graduate students in their various areas.

The College of Graduate Studies faculty and administration authorize all degrees beyond the baccalaureate degree awarded by the University.

The Nature and Purpose of Graduate Work

The purpose of graduate education is to provide advanced and specialized training beyond the baccalaureate program. Graduate study is intended to strengthen the academic and professional competence of the student, to develop the student’s capacity for independent study, to familiarize the student with past and current research, to train the student in the techniques of research, and to enable the student to relate his or her research to the investigations of other scholars and derive significant implications from the relationships.

Graduate study presupposes a broad background of knowledge, an adequate preparation in appropriate fields of study at the baccalaureate level, and a command of skills required to carry on intensive research and investigation with a high degree of resourcefulness and self-direction. Generally speaking, only students with superior undergraduate academic records are qualified to pursue study at the graduate level.

It should be noted that graduate studies differ from undergraduate studies in the following respects:

1. The graduate student is expected to assume greater responsibility and to exercise more individual initiative.
2. More extensive and intensive reading is required.
3. Greater emphasis is placed on productive research, with particular emphasis on the use of primary materials.
4. Seminar methods are employed with greater frequency, as greater class participation by the student is required.
5. Less instruction is provided in content, survey-type lecture courses.

Graduate study thus involves far more than the passing of a given number of courses and the fulfillment of certain minimum requirements. The student cannot be content solely with earning acceptable grades. The student must continually satisfy the Graduate Faculty in the major field by displaying superior intellectual powers and scholarly commitment in order to maintain graduate status and good standing in the school.

Admission Requirements

Student Responsibility

NOTICE: The regulations contained in this Catalog are based upon present conditions and are subject to change without notice. The University reserves the right to modify any statement in accordance with unforeseen conditions.

The student is held responsible for knowing degree requirements and enrolling for appropriate courses. The student is likewise held responsible for knowing the University deadlines and regulations in regard to the standard of work required for continuance in the College of Graduate Studies. If additional information is needed, the College of Graduate Studies should be consulted.

For a complete list of requirements for a particular degree, the student should combine the General Degree Requirements page 32 and the special requirements listed by departments under Departmental Information.

Admission to the College of Graduate Studies

I. General Requirements

A. Angelo State University strives to admit students to graduate study who show promise of succeeding in a rigorous academic environment. This promise is generally demonstrated through superior academic performance, as measured by undergraduate grade point average (GPA) and/or standardized test scores (i.e., GRE or GMAT) as determined by individual program requirements. Applicants who have distinguished themselves in curricular and extracurricular undertakings, have exhibited exceptional leadership abilities, or have demonstrated special skills or talents related to the area in which they intend to pursue their studies may also be worthy of consideration for admission.

Admission as either a degree-seeking or a non-degree seeking student is granted by the dean of the College of Graduate Studies upon the recommendation of the department of proposed study. Only students who have submitted completed applications will generally be considered for admission. A completed application consists of the following:

[Continued on next page]
II. Admission to the College of Graduate Studies as Degree-Seeking Student

The process for determining admission as a degree-seeking student is as follows:

A. The completed application is sent to the department of proposed study for an admission recommendation. The department looks at the following factors:

1. Completion of the undergraduate prerequisites for the intended program, as indicated below.
2. The applicant’s previous academic record, which may include overall GPA, last 60 hour GPA, GPA in the major or in the prerequisite courses, and/or GPA in any relevant graduate work. GPAs are computed on all course work taken, including all grades on repeated courses.
3. The applicant’s GRE/GMAT test score, if required for the program.
4. The essay, if required for the program.
5. Other criteria, as defined by the program.

B. Applicants who submit a satisfactory essay, if required for the program, have at least a 2.50 overall undergraduate GPA or 3.00 in the last 60 semester hours, and who meet the program’s formula, if applicable, (and in some programs, additional criteria) will generally be awarded regular admission, resources permitting. Applicants who fall slightly below the formula or GPA standards may be considered for provisional admission. If the department of proposed study deems the applicant shows promise of succeeding in the program, provisional admission, with conditions, may be granted.

C. Applicants who have not completed all prerequisites may be required to complete them before being considered for admission. In some programs, applicants may be admitted if they lack some prerequisites, but will be required to make up these undergraduate courses (leveling work) within the first year of their graduate enrollment.

D. Students who have not submitted GRE/GMAT scores to programs that require standardized tests, but who have an undergraduate GPA of 3.00 or better (4-point scale) in the total undergraduate record, including all grades on repeated courses, may be granted provisional admission to programs that require standardized tests, with the approval of the graduate faculty in the applicant’s major department and the graduate dean. These applicants must provide satisfactory GRE/GMAT scores before the end of their first semester of enrollment. Provisional admission does not guarantee regular admission. When the test score is received, the student’s application file will be reviewed by the applicant’s major department for an admission decision recommendation. Students who do not satisfy the grade point criteria listed above and have not submitted GRE/GMAT scores to programs that require standardized tests will not be considered for admission until the appropriate test scores are received by the College of Graduate Studies.

E. Applicants who are given provisional admission will be on academic probation, with the requirement that they maintain at least a 3.00 cumulative grade point average in all graduate-level work until they have completed at least nine semester hours of graduate-level work in a degree program at Angelo State University. Failure to maintain the requisite 3.00 may result in dismissal from the graduate program in which the student has been studying.

F. Offer of Admission. Only written notice from the dean of the College of Graduate Studies constitutes approval of admission.

G. Graduate students who do not attend classes for one year must re-apply for admission.

Students not meeting the TOEFL or IELTS requirements can apply to the English Language Learners Institute (ELLI) and may be provisionally admitted. After successful completion of ELLI requirements, student may begin their graduate program.

* Except Physical Therapy, Biology, Business Administration, and Professional Accountancy. GRE or GMAT scores must be submitted with the application to the College of Graduate Studies.
Special Graduate Admission Requirements and Procedures for International Students

Angelo State University is authorized under federal law to enroll nonimmigrant alien students.

A student from a foreign country will be eligible for admission to Angelo State University and a Form I-20, Certificate for Eligibility, will be issued when all admission requirements have been met and the following items are on file in the Office of the Dean of the College of Graduate Studies:

- Official transcripts of previous academic records with English translation, if original transcript is not in English.
- An evaluation of the transcript(s) by an official foreign transcript evaluator.
- Supplemental Information Form for foreign applicants.
- Statement from parent, guardian, or other sponsor guaranteeing the applicant’s financial support while in the United States.

An international applicant must have all of these items on file in the College of Graduate Studies no later than June 10 in order to register for the fall semester, November 1 to register for the spring semester, and March 15 to register for the summer session.

Insurance Requirement for International Students

All international students will be automatically billed by ASU for the Group Hospitalization, Medical U.S. Evacuation, and Repatriation Insurance plan provided through the University for each semester enrolled. Further information regarding insurance coverage and cost may be obtained from the Center for International Studies.

Program Prerequisite Requirements and Formulas

Accounting (M.P.Ac.)

Prerequisites:
- Principles of Accounting I and II or Independent Study in Financial Accounting and Independent Study in Managerial Accounting
- Intermediate Accounting I and II
- Cost Accounting
- Income Tax Accounting
- Business Calculus and Finite Mathematics II or Calculus I
- Business Law
- Accounting Information Systems
- Auditing
- Statistical Analysis for Business and Economics or Independent Study in Statistics
- Principles of Microeconomics or Independent Study in Economics or Economic Theory and Policy
- Financial Management or Independent Study in Finance
- Advanced Accounting II
- Have a 2.50 GPA in Intermediate Accounting I and II, with no grade lower than “C”.

Formula: See Graduate Studies web site for current formula.

Animal Science (M.S.)

Prerequisites:
- Completion of a minimum of 24 semester credit hours of undergraduate course work in animal science, agriculture, range management, wildlife management, or agronomy, including 12 semester credit hours of advanced course work.

Formula: See Graduate Studies web site for current formula.

Biology (M.S.)

Prerequisites:
- Completion of a minimum of 24 semester credit hours of undergraduate course work in biology, including 12 semester credit hours of advanced course work (to include cell biology, evolution, ecology, biostatistics).

A B.S. or B.A. in biology or a related discipline (e.g., zoology, botany, microbiology, wildlife ecology).

Formula: See Graduate Studies web site for current formula.

Business Administration (M.B.A.)

Prerequisites: **
- Accounting 2301 and 2302 or Accounting 5191 and 5192
- Economics 2301 and 2302, or Economics 5191 or Economics 6300
- Finance 3361 or Finance 5191
- Mathematics 1325
- Management 3300 or Management 5191
- Management Science 2331 (statistics) or Management Science 5191
- Marketing 3321 or Marketing 5191

No formula: A resume is required.

Coaching, Sport, Recreation, and Fitness Administration (M.Ed.)

Prerequisites:
- Sufficient background experiences in professional competency areas.

Communication (M.A.)

Prerequisites:
- Completion of a minimum of 24 semester credit hours of undergraduate course work in either communication or journalism, including 12 semester credit hours of advanced course work. Other majors will be considered on a case by case basis.

Criminal Justice (M.S.)

Prerequisites:
- All applicants for the Master of Science degree in Criminal Justice program must hold a bachelor’s degree from an accredited college or university. All potential graduate students are evaluated on an individual basis. All applicants must submit the following materials and meet the admission criteria as indicated:
  - Undergraduate academic record (transcripts of all undergraduate course work);
  - 2.75 undergraduate GPA or 3.00 in the last 60 hours of undergraduate course work;
  - At least two letters of recommendation;
  - An essay of no more than 750 words regarding your opinion of the single most important challenge to 21st Century Criminal Justice written in endnote or footnote format. Outside sources may be used.

Formula: See Graduate Studies web site for current formula.

** Credit for 5000 level business area courses may not be used for degree requirements.

* These forms are available on-line at www.angelo.edu/dept/grad_school/forms.html.
English (M.A.)
Prerequisites:
Completion of a minimum of 24 semester credit hours of undergraduate course work in English, including 12 semester credit hours of advanced course work.

Homeland Security (M.S.)
Prerequisites:
All applicants for the Master of Science in Homeland Security program must hold a bachelor’s degree from an accredited college or university. All potential graduate students are evaluated on an individual basis. All potential graduate students must submit all related materials requested in the evaluation criteria. The evaluation criteria include the following:
- Undergraduate academic record (transcripts of all undergraduate course work);
- 2.75 undergraduate GPA or 3.0 in the last 60 hours of undergraduate course work;
- At least two letters of recommendation;
- An essay of no more than 750 words regarding your opinion of the single most important challenge to U.S. homeland security written in endnote or footnote format. Outside sources may be used.

Intelligence, Security Studies and Analysis (M.S.S.)
Prerequisites:
All applicants for the Master of Security Studies in Intelligence, Security Studies and Analysis must hold a bachelor’s degree from an accredited college or university. All applicants must submit the following materials and meet the admission criteria as indicated:
- Hold a bachelor’s degree with a GPA of 2.75 or better, including all grades on repeated courses, or hold a bachelor’s degree with a GPA of 3.00 or better in the last 60 hours of undergraduate work. Required GPA may be waived on a case-by-case basis by the department chair;
- At least two letters of recommendation;
- An essay of no more than 750 words discussing an intelligence-related topic affecting our nation’s security.

Nursing (M.S.N.)
In addition to the general requirements for admission to the College of Graduate Studies, applicants for regular admission to the M.S.N. program must file a separate departmental application to the Department of Nursing and Rehabilitation Sciences and meet the criteria listed below:
- A baccalaureate degree in nursing from a program accredited by the Accreditation Commission for Education in Nursing, or the AACN Commission of Collegiate Nursing Education.
- A minimum grade point average (GPA) of 3.00 on a 4.00 scale.*
- An upper division (Junior or Senior level) statistics course completed with a grade of “C” or higher within 5 years.
- A basic pathophysiology course (equal to 3 SCH) completed with a grade of “C” or higher.**
- A current, unencumbered license to practice as a Registered Nurse in Texas.
- M.S.N. Core Curriculum and Advanced Practice Practicums are required to be completed in Texas.

- Evidence of inclusion of basic physical assessment content in an undergraduate nursing program or demonstrated proficiency in health assessment.
- A basic computer literacy course (equal to 3 SCH) or demonstrated proficiency.
- Acceptance to the College of Graduate Studies.
- Three professional letters of recommendation.
- A 500 word essay articulating educational and professional goals; services.

Prior to first clinical course, graduate students must have the following on file in the nursing office:
- Current CPR (professional level) certification.
- Evidence of meeting state-mandated immunization requirements.
- Proof of current health insurance.
- Drug screen.

Physical Therapy (D.P.T.) Each cohort is limited to a maximum of 26 students.
Physical Therapy applicants must pass through a two-stage process and have completed a baccalaureate degree. 50 hours of volunteer/observation in at least 2 physical therapy settings is required.

Prerequisites:
(A minimum cumulative prerequisite GPA of 3.00 on a 4.00 scale is required. If courses are repeated, the last grade attained is used.)
- Human Anatomy (with lab)
- Human Physiology (with lab)
- Upper division Anatomy (with lab) or upper division Physiology (with lab)
- General Chemistry I and II (with labs)
- General Physics I and II (with labs)
- General Psychology
- Developmental Psychology or Abnormal or Physiological Psychology
- Statistics
- Technical Writing
- Math [Algebra & Trigonometry, or better (i.e., precalculus, calculus, etc.)]
- Medical Terminology

Formula: See Graduate Studies web site for current formula.
Graduate Studies

Psychology (M.S.)
Prerequisites:
Complete either (a) a minimum of 18 semester credit hours of undergraduate psychology, or (b) the graduate leveling course in psychology: PSY 6302 Core Concepts in Psychological Science.

Security Studies (M.S.S.)
Prerequisites:
All applicants for the Master of Science degree in Security Studies must hold a bachelor’s degree from an accredited college or university. All potential graduate students are evaluated on an individual basis. All applicants must submit the following materials and meet the admission criteria as indicated:
- Undergraduate academic record (transcripts of all undergraduate course work);
- 2.75 undergraduate GPA or 3.00 in the last 60 hours of undergraduate course work;
- At least two letters of recommendation;
- An essay of no more than 750 words regarding your opinion of the single most important challenge to U.S. national security written in endnote or footnote format. Outside sources may be used.

Undergraduates Receiving Graduate Credit
A senior undergraduate student who has an overall 3.00 or better grade point average and who has completed at least 100 semester credit hours of academic work toward a baccalaureate degree may, with the approval of the Dean of the College of Graduate Studies, be granted senior-graduate status and register for a maximum of six semester credit hours of graduate-level work, provided that the total number of semester credit hours in a semester does not exceed 18 or a summer term exceed seven (7). The total number of graduate semester credit hours taken as a senior-graduate may not exceed six, and no course used on the degree plan toward a baccalaureate degree may be used also on a graduate degree plan. Senior-graduate students are eligible for integrated baccalaureate-master’s degree scheduling if their major departments offer such plans.

Transient Status
Transient status may be granted to applicants who want to take a maximum of nine semester credit hours of work in the College of Graduate Studies and transfer it to another institution where they are pursuing a graduate degree program. A letter from the dean of the other institution’s graduate school stating that the student has good standing there must be received by the Dean of the College of Graduate Studies at Angelo State University.

Non-Degree Status
Applicants, other than international ones, who hold baccalaureate degrees and who do not intend to pursue a master’s degree at Angelo State University, may apply for non-degree status. Entrance requirements for non-degree applicants are the same as for degree-seeking applicants. Continued registration as a non-degree graduate student is contingent each semester upon satisfactory academic performance.
Graduate credit normally will not be allowed for use on a master’s degree plan at Angelo State University unless the student has been granted regular or provisional admission to a degree program in the College of Graduate Studies and is registered therein when the course is taken. Students holding senior-graduate status are excepted from this provision. If a non-degree student subsequently is admitted to a degree program, a maximum of 9 semester credit hours (SCH) of graduate-level work taken prior to admission to the degree program may be used in the student’s degree program but only with the written approval of the major department’s graduate advisor, the chair of the student’s major department, and the Dean of the College of Graduate Studies. Teacher certification and other certificate plans are exempt from this policy.

Fresh Start
An applicant for admission to the College of Graduate Studies who is a Texas resident who has completed a baccalaureate degree under Sec 51.931 of the Texas Education Code (“Academic Fresh Start”) shall have only the grade point average established by the course work completed as an undergraduate student under the Sec 51.931 statute considered, along with any other criteria used to evaluate applicants for admission into the specific graduate degree program sought. An applicant who chooses to apply under this condition must inform the College of Graduate Studies of this choice at the time of application.

Senior Citizen Status
Individuals 65 years of age or older may audit courses offered by the institution without the payment of tuition or fees if space is available and the chair of the department approves. The individual does not have to apply to the College of Graduate Studies. Information may be obtained through the Registrar’s Office. No academic credit will be given for audited courses.

Enrollment in Graduate Courses
A student will not receive graduate credit for any course taken unless he or she has previously been formally admitted to the College of Graduate Studies in one of the above-described categories.

Procedures
All persons seeking admission to the College of Graduate Studies must complete and file with the College of Graduate Studies an application form, which is available on the Angelo State University Graduate Studies website http://www.angelo.edu/dept/grad_school/. To insure that proper consideration can be given to evaluating the applicant’s credentials, the applicant should request all transcripts and have entrance examination scores sent by the source to the College of Graduate Studies as early as possible. One official copy of transcripts of credits from all colleges and universities the applicant has attended must be received in a sealed envelope from the institution(s) involved. Applicants must pay the (non-refundable) application fee before consideration can be given to their application.

Admission to the College of Graduate Studies remains valid for one year unless he or she engages in active graduate work at Angelo State University. If the applicant does not enroll in graduate work for the semester which they applied, extensions of the one-semester limit may be granted if requested in writing by the applicant.
Graduate Scholarships and Assistantships

Carr Graduate Scholarships

Scholarships are awarded to qualified graduate students who enroll as degree-seeking students in any graduate program of the University. A student may be funded for only one master’s degree at Angelo State University. Scholarships are awarded to both full and part-time students, with the amount of the award dependent upon the number of semester credit hours taken. Please refer to the Angelo State University website for current Carr Graduate Scholarship funding levels.

Applicants for Carr Graduate Scholarships will be notified in writing regarding the status of their applications. The decisions on scholarship awards are final and are not subject to appeal.

Academic Carr Scholarships in excess of $1,000 for the academic year awarded to out-of-state and international students will normally qualify such students for the tuition and fees required of Texas residents.

Teaching, Research, and Graduate Assistantships

Angelo State University offers three types of appointments for graduate students: (1) fixed term appointments for a semester or summer session for teaching assistants who have responsibility for lecture classes, individual instruction, and/or laboratory sections for which academic credit is awarded, (2) student employment appointments without fixed term as graduate assistants who have responsibility for a wide range of duties designed to support the undergraduate instructional/co-curricular program, and (3) student employment appointments without fixed term as graduate research assistants employed to support the research mission. All graduate students who are awarded teaching assistantships, graduate assistantships, or graduate research assistantships must be regular graduate degree or graduate certification students and must be enrolled in graduate course work during the term of appointment.

The teaching assistant may have the responsibility for lecture classes, physical activity classes, individual instruction, or laboratory sections. In addition to pursuing full-time graduate studies, the teaching assistant will normally have responsibility equivalent to one-half or one-quarter of a full-time teaching load. The graduate assistant’s responsibilities include a wide range of duties designed to support the undergraduate instructional program, including grading, clerical functions, storekeeping, preparation of class or laboratory material, or other subordinate functions under a supervising faculty member. Graduate research assistants have the major function of assisting faculty with scholarly activities and research projects. The graduate or graduate research assistant’s work load will be on an hourly basis, and the number of hours which the graduate or graduate research assistant works each week must be approved by the department chair and reported on the monthly time record. The average work load assigned by the department chair shall not exceed 17.5 hours of work per week during any monthly pay period.

The teaching, graduate, or research assistant is required to enroll for six semester credit hours each long semester. With the approval of the supervising faculty or staff member and department chair, the teaching, graduate, or graduate research assistant may enroll in a maximum of nine semester credit hours each long semester. The teaching, graduate, or graduate research assistant holding an appointment in the summer is required to enroll for a minimum of three semester credit hours in either summer term.

Inquiries regarding Teaching Assistantships, Graduate Assistantships, or Research Assistantships including questions concerning application procedures, eligibility, or assignments, should be directed to the office of the Dean of the College of Graduate Studies, Room 109 of the Sol Mayer Administration Building, telephone number 325-942-2169.

Academic Guidelines and Graduate Studies Policies

The Graduate Degree Plan

All graduate students working toward master’s degrees must complete degree plans prior to their second registration.

For any degree plan, the student must confer with and receive approval from the program advisor of the major department and the Dean of the College of Graduate Studies. Senior graduate students developing an integrated plan for majoring in one department for the bachelor’s degree and another for the master’s must receive approval from the chairs of both departments and the Dean of the College of Graduate Studies.

After a student has had the degree plan approved, any changes must be approved by the relevant departmental graduate program advisor and the Dean of the College of Graduate Studies. Such approvals must be obtained before the student enrolls in any course for which a modification is sought.

Academic Status

I. Good Standing

A graduate student with regular status is academically in good standing if his or her grade point average for all graduate work completed at Angelo State University is at least 3.00.

II. Probation

When a regular status graduate student’s grade point average drops below 3.00, the student is placed on academic probation. A graduate student who is granted Provisional Admission is considered to be on academic probation until the provisions under which the student was admitted are satisfied. A thesis student who receives an "NP" grade is placed on probation.

III. Dismissal

A regular status student whose grade point average is 2.00 or lower may be dismissed from the College of Graduate Studies. A student on probation, as defined above, may be dismissed from the College of Graduate Studies if the student’s grade point average is below 3.00 during the probationary period, drops below a 3.00 in any subsequent semester, or if a second “NP" grade is received. A student whose performance is unsatisfactory on both the first and second administration of his or her Comprehensive Examination will be dismissed from the College of Graduate Studies. A student will be dismissed if so recommended by the appropriate department committee.
Graduate Studies

I. Maximum Course Loads
   A. Graduate students, except those in the Doctor of Physical Therapy program, may enroll for a maximum of 12 semester credit hours of graduate-level work in any long semester. Graduate students who are not on probation and who have at least a 3.50 grade point average on all graduate work they have attempted at Angelo State University may, with the written permission of the Dean of the College of Graduate Studies, register for a maximum of 15 semester credit hours of graduate-level work in the semester in which they are graduating.

   B. Graduate students may enroll for up to seven semester credit hours of graduate work each summer term, with the exception of Physical Therapy. The total load for the entire summer session shall not exceed 14 semester credit hours of graduate work except that 15 semester credit hours may, with the prior written approval of the Dean of the College of Graduate Studies, be allowed for the student who is graduating.

   C. A graduate, teaching, or research assistant who works one-half time or less for the University may, with the approval of the supervising faculty member and department chair, register for a maximum load of nine semester credit hours of graduate credit work per semester. An assistant who works one-quarter time or less may, with the approval of the supervising faculty member and department chair, enroll for a maximum of 12 semester credit hours of graduate courses. Assistants who work half-time are required to enroll for a minimum of six semester credit hours per semester except in their last semester prior to graduation; and those who work one-quarter time are required to enroll for a minimum of nine semester credit hours per semester except in their last semester prior to graduation. Both summer sessions are considered one semester.

   D. Penalty for Excessive Course Load. Any student who registers for more semester credit hours than are allowed by this policy during any semester or summer term shall be required to drop the excess course load at such time as the student course loads are audited by the University.

II. Full-Time Student
   A. A graduate student shall be considered on full-time status if:
      • the student is enrolled for a minimum of nine semester credit hours of graduate course work in a long semester or a minimum of six semester credit hours distributed in any way across the two summer terms; or
      • the student has a graduate, research, or teaching assistantship and is enrolled for a minimum of six semester credit hours of graduate course work in a long semester or a minimum of three semester credit hours distributed in any way across the two summer terms; or
      • the student is working full time on a thesis and is enrolled in either 6399 or 6699.

Dropping a Course
Registration for a course makes the student responsible for attending that course until the course is completed or until the student officially withdraws from the course. To drop a course, obtain a drop slip signed by the instructor of the course from the instructor. Turn in the completed drop slip to the Registrar’s office. The student who fails to officially drop a course will receive a grade of “F” in the course.

Residence Requirement
At least 24 semester credit hours of graduate-level work on a master’s degree plan that requires 30 semester credit hours must be done at Angelo State University. At least 27 semester credit hours of graduate-level work on a master’s degree plan that requires more than 30 semester credit hours must be done at Angelo State University.

Transfer Credit
A maximum of six semester credit hours of graduate course work may be transferred into a program that requires 30 semester hours, into any Master of Education (M.Ed.) program, into the Master of Arts (M.A.) in Curriculum and Instruction program, and into the M.A. in Communication program. For all other programs, no more than nine semester credit hours of graduate course work completed in a regionally accredited institution may be transferred. Official transcripts showing the successful completion of the courses petitioned to be transferred must be on file in the Graduate Office. No graduate work for which the student received a grade lower than “B” will be accepted for transfer credit. No graduate work which was part of a degree awarded at another institution will be accepted for transfer credit. All transferred course work must have been completed no more than six years prior to the awarding of the master’s degree at Angelo State University. Approved transfer credit will be awarded after the student has successfully completed one semester or term of graduate enrollment. No course may be transferred that satisfied a degree requirement at another university.

Students in the Master of Business Administration (M.B.A.) and Master of Professional Accountancy (M.P.Ac.) degree programs must adhere to the transfer policies of the College of Business that are in addition to the policies stated above.

Up to nine semester credit hours of graduate credit completed prior to the date of first admission to the M.B.A. or M.P.Ac. degree program at Angelo State University may be transferred into the program. After the date of first admission to the M.B.A. or M.P.Ac. program, six semester hours may be transferred into the program only to fulfill elective requirements. The maximum total transfer credit is nine semester credit hours.

All M.B.A. or M.P.Ac. students are required to take the Major Field Test (MFT) on the ASU campus as a graduation requirement. The MFT will normally be taken as part of the course requirements in Management 6313 Corporate Strategies and Policies.

It is the student’s responsibility to:
1. check with the Graduate Office that the official transcript of the course(s) requested for transfer is on file;
2. submit an Application for Approval of Graduate Transfer Credit to the academic advisor with a copy of each course syllabus attached and;
3. receive approval from the Graduate Dean.

Credit for Experience or for Correspondence and Extension Courses
Angelo State University does not allow the transfer or use of graduate credit earned by experience or by correspondence or extension courses to apply toward a master’s degree.
Graduate courses are numbered 5000-7999. The graduate student enrolled in a 5000-level course that meets concurrently with a senior level undergraduate course will be expected to complete additional requirements beyond those expected of undergraduates in the same course. A graduate student may take no more than two 5000-level courses to satisfy degree requirements.

### Time Limit

All work (including thesis if required or elected and any transfer credits) must be completed within a period of six years from the date of the earliest credit to be counted on the degree. Under certain circumstances, a time extension of up to four years may be granted on a course by course basis. Time extensions are never granted for transfer course work.

If a time extension for one or more courses is desired, a written application must be presented to the Dean of the College of Graduate Studies. It must explain (1) why the degree was not completed in a timely manner, (2) a schedule for completing the program, and (3) information indicating that the student’s knowledge of the subject matter in each course for which an extension is requested remains current.

Time extensions are not routine. Courses taken more than 10 years before graduation are almost never allowed to be used toward the master’s degree. Additional courses are frequently assigned to the student who has not completed the degree within the six-year time limit.

### Advisory Committee

Students who write a thesis or students whose programs require an oral comprehensive examination must have an Advisory Committee appointed. The Advisory Committee for thesis students should be constituted no later than the first semester in which the student registers for thesis credit.

The Advisory Committee for students who do not write a thesis but have a required oral exam must be constituted no later than the semester in which the oral exam is to be administered. The Advisory Committee will consist of at least four members; at least two members from the department in which the student is majoring; one member of the department, if there is one, in which the student is taking supporting electives; and one College of Graduate Studies representative appointed by the Dean of the College of Graduate Studies. A minimum of three members of the Advisory Committee must be members of the graduate faculty.

### The Thesis

Each student enrolling in a thesis course for the first time may download from the College of Graduate Studies website a copy of the “Thesis Manual”, which sets forth the general requirements of style and form of the thesis. Students must register for the thesis under the number 6399 (where it exists) or 6699 in the department in which the research is being conducted.

However, in the semester in which the student graduates, either the student must register for thesis under the 6699 number, or if registered under the 6399 number, the student must have registered in some previous semester for 6399.

Students must be enrolled in graduate course work during every regular semester from the beginning of the first thesis registration until graduation.

If the student utilizes any University personnel or facilities in working on the thesis during the summer session(s), he or she must also be registered at those times.

A grade of “PR” (satisfactory progress) or “NP” (unsatisfactory progress) will be given during each term in which the student is enrolled in thesis but does not complete the project. A student who receives an “NP” grade will be placed on probation and will not be eligible for financial aid. A final grade of “B” or better is required on the completed thesis; a lower grade indicates that the thesis is not acceptable. Credit for the thesis course work is limited to six semester hours regardless of repeated registrations.

When a Candidate and the Chairman of the Advisory Committee have agreed upon a subject of investigation, the student will prepare a thesis proposal which will specify the topic, state the purpose of the investigation, describe the method of investigation, and relate the study to relevant research.

After the Advisory Committee has approved the proposal, the candidate must submit it for final approval to the Dean of the College of Graduate Studies. The thesis proposal must be submitted no later than one year after the first enrollment in thesis or in the 12th credit hour of enrollment in thesis, whichever occurs first, or a grade of “NP” will be assigned in the thesis course. Data collection should not be started until the thesis proposal has received final approval. Any subsequent changes in the research project must be approved in writing by the Advisory Committee and the Dean of the College of Graduate Studies.

The thesis in final form, successfully defended and signed by each member of the Advisory Committee, must be submitted for approval to the Dean of the College of Graduate Studies no later than three weeks before the end of the semester of degree completion.

### Comprehensive Examination

Candidates for all master’s degrees must successfully complete a comprehensive experience covering work within the candidate’s program. The type of experience varies by program, but may take the form of required course work, portfolios, written and/or oral exams. The candidate’s Advisory Committee will administer any oral examination. Any written examination, written portion of the examination, or electronic portfolio will be administered by the major department which may request questions from any department(s) in which the candidate has taken supporting electives.

The policies and procedures for the comprehensive examination are available in the office of the department chair of the student’s major field of study. Students should review the requirements for the exam early in their degree program.

The major department may, at its discretion, decide before or after evaluating the student’s answers on the written portion to administer a follow-up oral portion of the examination during the same semester as the written examination. In this case, the written and oral portions will both be administered by the major department and will be deemed to be one examination.

The type of comprehensive experience must be predetermined and the candidate so notified. An oral examination will be open to members of the graduate faculty, but it will be conducted by the candidate’s advisory committee. All course work for the degree except those courses in progress in the semester when the degree is to be awarded must normally be completed prior to the comprehensive examination. All courses with a grade of “I” must normally be completed before the comprehensive examination is scheduled.
Graduate Studies

The oral or written comprehensive examination must be scheduled no later than four weeks before the candidate’s degree is to be conferred and passed no later than three weeks prior to that date. A student will not be permitted to take the comprehensive examination unless he or she is in good academic standing. A candidate who fails the comprehensive examination may, upon petition to the advisory committee in the case of an oral examination or to the departmental faculty in the case of a written examination, be allowed to take another examination no sooner than the next semester or summer session. (The two summer terms comprise one summer session.)

All of the above regulations also apply to the second examination. Any student who fails the second comprehensive examination will be dismissed from that graduate program.

Application for Graduation

In the term in which the student expects to complete all degree requirements, the student should apply for graduation during the registration process for that term. If the student is not enrolling for course work during the term he or she expects to graduate, the graduation application form can be obtained on-line. Students anticipating graduation in a given term should apply for graduation prior to a published date which is early in that semester. If the student is not able to complete degree requirements at the end of that period, the application form must be resubmitted in the term in which graduation is again anticipated. No degree will be conferred unless the Application for Graduation has been filed. www.angelo.edu/forms/cgi/graduate.html.

Graduation Exercises

Angelo State University has graduation exercises at the end of the fall semester (in December) and at the end of the spring semester (in May).

Each candidate for graduation must be present at the graduation ceremony unless the Office of the Registrar has approved the candidate’s written application for permission to be graduated in absentia. Information about commencement may be found at: www.angelo.edu/commencement/.

Graduation Under a Particular Catalog

The University reserves the right to modify the curricula or withdraw any courses when it appears wise to do so. The policies and procedures in this Catalog are currently in effect; however, the University reserves the right to make changes or modifications for good cause.

To receive a degree from Angelo State University, a student must fulfill all requirements for the degree as set forth in a particular University Catalog as amended. Several choices are allowed: (1) Graduation may be under the requirements of the current University Catalog. (2) Graduation may be under the Catalog of the year in force when the student first registered at Angelo State University or when the student registered at an accredited Texas community college prior to transferring to Angelo State University. (3) Graduation may be under the requirements of the Catalog for any subsequent year in which the student was registered at Angelo State University. (4) Graduation may be under the requirements of the Catalog selected. For example, a student who chooses to graduate under the requirements of the 2007-2009 University Catalog must complete all requirements for the degree under that Catalog prior to August 2013. Otherwise, a later Catalog must be selected. However, when a student is enrolled at Angelo State University during the second academic year included in a two-year Catalog, the six-year limit extends from the beginning of the second academic year of the Catalog.

Students may be able to graduate under a specific Catalog and degree plan but may not be able to meet certification requirements that have been mandated by the State Board for Educator Certification. Students should consult with Department Chairs and the College of Education to determine the latest certification requirements.

Second Master’s Degree

A student who holds one master’s degree from this University may receive a second master’s degree by fulfilling the following requirements:

- The student must receive regular status admission for the second degree program.
- The second degree must be different from the first degree and/or the second major field of study must be different from the first major field of study.
- All requirements for the second master’s degree must be completed, with no more than nine graduate (6000 level) semester credit hours from the first master’s degree allowed to apply toward a 30 semester hour second master’s degree, or 12 graduate (6000 level) semester hours allowed to apply toward a second master’s degree with more than 30 credits.

A student who holds a master’s degree from another university and desires to receive a master’s degree from this University must fulfill all degree requirements applicable to a student working toward a first master’s degree at this University. No semester credit hours from any degree earned from another university may be allowed to apply toward a master’s degree at Angelo State University.

General Master Degree Requirements

In partial fulfillment of the requirements for all master’s degrees, the graduate student must complete the following general requirements.

I. The student must complete a minimum of 30 to 48 semester credit hours of graduate work depending upon the degree being sought. In each degree program, the student must earn a 3.00, or better, grade point average overall and in the major field and in all course work taken at Angelo State University. In programs requiring course work outside the major field, the student must earn a 3.00, or better, grade point average in each of these areas. Grades lower than “C” will not apply toward any degree. The student may apply the following toward the degree:

A. A maximum of two 5000-level courses totaling no more than eight semester credit hours may be taken for graduate credit by graduate students and applied to the graduate degree plan.*
B. A maximum of six semester credit hours of transfer work in a 30-hour program with no grade lower than a “B”, and a maximum of nine semester credit hours of transfer work in a program of more than 30 hours with no grade lower than a “B”.**

* Students are permitted a maximum of 12 semester credit hours of 5000-level supporting electives if they are taken in chemistry.
** All M.Ed. programs, the M.A. in Curriculum and Instruction, and the M.A. in Communication may apply a maximum of six semester credit hours of transfer work.
C. No courses taken by correspondence or extension.
D. No more than nine semester credit hours taken while in non-degree status (except Curriculum and Instruction teacher certification certificate status).

II. Candidates for all degrees must successfully complete a comprehensive experience covering work within the candidate’s program. The type of experience varies by program, but may take the form of required course work, portfolios, and written and/or oral exams.

III. Angelo State University does not award graduate credit for non-academic experiences nor allow the use of experiential training toward a master’s degree.

Doctor of Physical Therapy
Degree Requirements

In partial fulfillment of the requirements for the doctor's degree, the graduate student must complete the following general requirements:

I. The student must complete a minimum of 99 semester credit hours (7000-level work) for the Doctor of Physical Therapy degree. No courses taken by correspondence or extension may be used to satisfy this requirement. The student must earn a 3.00, or better, grade point average overall and meet mastery in all course work.

II. Candidates for the Doctor of Physical Therapy degree must successfully complete a comprehensive experience covering work within the candidate’s program. The type of experience varies by program, but may take the form of required course work, portfolios, and written and/or oral exams.

III. Angelo State University does not award graduate credit for non-academic experiences nor allow the use of experiential training toward the Doctor of Physical Therapy degree.

In addition to the general degree requirements, the graduate student must complete additional requirements for the designated degree program.

B. Minors
Minors for degrees other than the B.B.A. may be chosen from the disciplines listed in the undergraduate academic major category with the exception of accounting, agribusiness, ecology and evolutionary biology, finance, food animal science and marketing, geoscience, interdisciplinary studies, international business, management, management information systems, marketing, natural resource management, and nursing. Minors for B.B.A. degrees may be chosen from all areas except minors offered in the Accounting, Economics, and Finance department or the Management and Marketing department. See page 321 for minor information.

1. The following may also be selected as a single area minor.
   - Agricultural Economics
   - Business Administration
   - Computational and Applied Mathematics
   - Creative Writing
   - Earth Science
   - Education
   - English Language Learning and Linguistics
   - Film Studies
   - Food Science
   - French
   - Gender Studies
   - German
   - Journalism
   - Leadership Studies
   - Linguistics
   - Mexican American Studies
   - Professional Education
   - Public Relations
   - Range and Wildlife Management
   - Reading
   - Technical and Business Writing

2. The following may be used as part of a multiple area minor only.
   - Aerospace Studies
   - Geography
   - Physical Science

VI. Non-Degree Programs
Graduate
   - Curriculum and Instruction - Teacher Certification only
   - Nurse Practitioner Joint Program with Texas Tech Health Sciences Center

Undergraduate

Department of Nursing and Rehabilitation Sciences (including Nursing and Physical Therapy Programs)
Department of Psychology, Sociology, and Social Work
The College of Arts and Sciences offers a range of degree programs and courses in fine arts, liberal arts, mathematics, computer science, agriculture, and natural sciences. The distinctive, learning-centered environment in the college places students in a community of scholars, where teaching, research, and creative endeavor combine to create a rich educational experience. In this spirit, although the college faculty demonstrate significant achievement in the areas of scholarship, creative endeavor, community engagement, and professional service, teaching is their highest calling.

The courses and programs in the college provide students with the knowledge, skills, and habits of mind to become responsible and productive citizens and leaders. They also provide a solid basis from which students may enter professional fields such as law and medicine.

## Departments and Programs

Students in the College of Arts and Sciences may pursue studies in the following departments.

### Department of Agriculture

Programs of Study in Agriculture
- B.S. Agribusiness
- B.S. Agricultural Science and Leadership, Teacher Certification
- B.S. Animal Science
- B.S. Food Animal Science and Marketing
- B.S. Natural Resource Management
- M.S. Animal Science
- B.S./M.B.A. Integrated Agribusiness/Business Administration *

### Department of Biology

Programs of Study in Biology
- B.S. Biology
- B.S. Ecology and Evolutionary Biology
- B.S. Life Science with Secondary teacher certification
- M.S. Biology
- M.S. Biology with emphasis in Science Education

### Department of Chemistry and Biochemistry

Program of Study in Chemistry
- B.S. Chemistry with Specialization Area Biochemistry Emphasis

### Department of Communication and Mass Media

Programs of Study in Communication
- B.A. Communication with Specialization Areas
  - Advertising/Public Relations
  - Applied Communication
  - Media and Cultural Studies
  - Performance Studies
  - Radio/TV
- B.A. Communication with Secondary teacher certification
- M.A. Communication

Programs of Study in Mass Media
- B.A. Mass Media with Specialization Areas
  - Advertising/Public Relations
  - Convergent Journalism
  - Electronic Media
  - Magazine
  - Visual Media
- B.A. Mass Media with Secondary teacher certification

### Department of Computer Science

Program of Study in Computer Science
- B.S. Computer Science

### Department of English and Modern Languages

Programs of Study in English
- B.A. English with Specialization Areas
  - Creative Writing
  - English Language Learning and Linguistics
  - Technical and Business Writing
- B.A. English with Secondary teacher certification
- M.A. English

Programs of Study in Spanish
- B.A. Spanish
- B.A. Spanish with All-level teacher certification

### Department of History

Programs of Study in History
- B.A. History
- B.A. History with Secondary teacher certification
- B.A. History with Secondary Social Studies Composite teacher certification

* Recipients receive both an undergraduate and graduate degree simultaneously.
Department of Mathematics
Programs of Study in Mathematics
B.A. Mathematics
B.A. Mathematics with Secondary teacher certification
B.S. Mathematics
B.S. Mathematics with Secondary teacher certification

Department of Physics and Geosciences

College of Business

Dean: Dr. Corbett F. Gaulden, Jr.
Office: Rassman 262
Telephone: 325-942-2337, Fax: 325-942-2718
E-Mail: college.business@angelo.edu

The College of Business at Angelo State University provides an array of majors and courses designed to meet the need of a fairly wide array of student needs. The College is fully prepared to accept students from all regions of the country and also serves the needs of students from several other nations. The degree programs of the College are accredited by ACBSP (the Accreditation Council for Business Schools and Programs).

Mission Statement
The College of Business provides a high-quality, student-focused learning environment through effective teaching. This effort is supported by faculty engaged in productive intellectual pursuits. Our efforts are intended to develop a diverse student body into successful and ethical professionals equipped to compete in a changing global economy. Our activities serve to enhance the quality of life and economic well-being for the citizens of West Texas.

The programs of the College are designed to accomplish our student-centered mission.

The College sponsors the Wells-Fargo Distinguished Lectureship in Business series and supports the International Business Symposium. These programs provide our students, the University community, and the regional business community with general exposure to prominent figures with significant business and economic insight.

Departments and Programs
Students in the College of Business may pursue undergraduate studies in the following departments:

Department of Accounting, Economics and Finance
Programs of Study in Accounting
- B.B.A. Accounting
- B.B.A./M.PAc. Integrated Professional Accountancy *
- M.PAc. Professional Accountancy

Programs of Study in Finance
- B.B.A. Finance with Specialization Areas
  - Corporate Finance
  - Personal Financial Planning
  - Real Estate

Department of Management and Marketing
Programs of Study
- B.B.A. International Business
- B.B.A./M.B.A. Integrated International Business/Business Administration *
- B.B.A. Management
- B.B.A./M.B.A. Integrated Management/Business Administration *
- B.B.A. Management Information Systems
- B.B.A./M.B.A. Integrated Management Information Systems/Business Administration *
- B.B.A. Marketing
- B.B.A./M.B.A. Integrated Marketing/Business Administration *
- M.B.A. Business Administration

The college does not offer a degree in “business” per se and advisors aid students in selecting an area of emphasis for the major.

For a complete list of minors see page 321.

* Recipients receive both an undergraduate and graduate degree simultaneously.
Majors in Business

Major Field Test  The undergraduate Major Field Test (MFT) in business is a graduation requirement for all undergraduate business students. The MFT is normally taken as a component of Business Administration 4303, except in integrated programs. Students in integrated programs should consult their specific programs to determine what the course requirement is for the MFT.

Students who desire to major in business will begin their major coursework at the junior level. Prior to beginning their major coursework business students will be considered “Pre” majors. Acceptance into junior- and senior-level courses is subject to the following conditions.

Pre-Major Requirements

All students declaring majors and/or applying for degree programs in the College of Business, starting Fall 2008, will be placed in a prebusiness classification (PREB) until they complete the lower-division courses listed below. Students in the prebusiness classification may not enroll in upper-division business courses. This includes students who are transferring or changing majors.

Students who have completed the lower-division courses in Group 1 and Group 2 may apply to be reclassified for B.B.A. degree majors if the following requirements are met:

- an overall grade point average (GPA) of 2.00,
- an official degree plan (ODP) for the intended major is on file,
- must be registered with Career Development with resume on file,
- an application on file for advanced standing with the departmental office of the student’s major.

Group 1:
In addition to the requirements specified above, the student will complete the following lower-level courses (27 credit hours) with no grade lower than a “C”, and a cumulative GPA in these courses of 2.00. Group 1 courses will be successfully completed prior to filing the application. (See above.)

- English 1301
- Mathematics 1324
- Mathematics 1325
- Business Computer Information Systems 1305 (Management Information System majors take Computer Science 1341)
- Accounting 2301 and 2302
- Economics 2301 and 2302
- Management Science 2331

Group 2:
These courses are required by the University as part of the student’s general education core. In this group of courses, the student is required to make no grade lower than a “D,” and a cumulative GPA in these courses of 2.00. (32 credit hours.)

- English 1302 and English (Sophomore Literature)
- History 1301 and 1302
- Political Science 2301 and 2302
- Communication 2301
- Science with lab - 8 hours
- Art, music, theatre - 3 hours
Dean: Dr. John J. Miazga  
Office: Carr Education-Fine Arts Building, Room 105  
Telephone: 325-942-2212, Fax: 325-942-2039  
E-Mail: college.education@angelo.edu

The College of Education houses two dynamic departments: the Department of Curriculum and Instruction, and the Department of Teacher Education. Taught by some of the finest teachers at Angelo State University, our programs are diverse and varied. The college offers courses online, weekends, nights, evenings, and the traditional Monday through Friday schedule. Faculty in the college are engaged in exemplary research and a variety of special grant programs.

The Departments of Teacher Education and Curriculum and Instruction offer programs leading to teacher certification at the elementary, middle-school, and high school levels. Professional programs at the Master’s Degree level help prepare school personnel for professional non-teaching positions throughout a public school system. Although students are assigned a faculty advisor, all of the faculty advise students and are willing to work with students all the time.

The College of Education has a center for teacher preparation information. The Educator Preparation Information (EPI) Center is located in Carr-EFA 287. The center staff advises all students who seek information about becoming a professional educator. Dedicated professionals can answer questions about becoming a teacher or other school professionals, routes to certification, how to obtain a certificate, how to test, field experience and student teaching placements, degree plans, and graduation requirements. Contact the center with questions about becoming a teacher or other school professional.

The faculty in the College of Education are dedicated professionals who prepare individuals for leadership positions in public school, college and university, and public sector positions.

College of Health and Human Services

Dean: Dr. Leslie M. Mayrand
Office: Vincent Building, Room 175
Telephone: 325-942-2630, Fax: 325-942-2631
E-Mail: CHHS@angelo.edu

The College of Health and Human Services offers professional education in the health and human service disciplines. The College consists of the following group of departments and professional programs: Department of Kinesiology; Department of Psychology, Sociology, and Social Work; and Department of Nursing and Rehabilitation Sciences with the component programs of Nursing and Doctor of Physical Therapy (DPT).

Through the integration of research, education, and evidenced-based practice, the College of Health and Human Services assists students in developing competence in professional practice as well as becoming leaders in their professions, organizations, and communities. The College values a sound general education that enables students to develop analytical, creative thinking and to make well-founded ethical decisions. We offer a variety of undergraduate and graduate degrees and certificate programs. Our graduates pursue advanced degrees, or enter a variety of practice, research, and administrative roles in the health and human services fields to preserve and promote the well-being of individuals, groups, and communities.

For more information about our outstanding programs, please stop by the dean’s office in the Vincent building or call 325-942-2630.

Students interested in the Integrated B.B.A./M.P.Ac. Program in Accounting will be required to complete a minimum of 154 semester credit hours of degree credit. Of this total, 118 semester credit hours will be at the undergraduate level and 36 hours will be at the graduate level. A unique feature of this five-year program will be the requirement that the student be admitted to the Graduate Program at the beginning of his or her senior year. This will enable the student to take graduate level courses during the fall and/or

* The Undergraduate Business Major Field test should be taken in conjunction with this course as a graduation requirement.

** The IVY MBA test must be taken in conjunction with this course as a graduation requirement.
or spring semester of the student’s senior year. Yet another unique feature of this program will be the awarding of the B.B.A. and M.P.Ac. degrees simultaneously at the completion of the program. Therefore, a student will not be awarded the B.B.A. in Accounting after completing 118 semester credit hours at the undergraduate level. The program of study will continue into the graduate hours, and the B.B.A. in Accounting and the M.P.Ac. in Accounting will be awarded upon the completion of the required 154 hours. The student must maintain a cumulative 3.00 in all undergraduate courses and a cumulative 3.00 in all graduate courses. Should a student decide not to finish the M.P.Ac. portion of the program, then this student would be required to complete all of the course requirements for the B.B.A. in Accounting as a separate degree as specified in the 2013-2014 Angelo State University Catalog.

**Course Descriptions**

**Accounting (ACC)**

**Undergraduate Courses**

**2301/ACC 2301 Principles of Accounting I (3-0).** Introduction to financial accounting including the accounting cycle and financial statements for service and merchandising firms operated as sole proprietorships or partnerships.

Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

**2302/ACC 2302 Principles of Accounting II (3-0).** Financial accounting for corporations and manufacturing firms. Introduction to management accounting methods.

Prerequisite: Accounting 2301.

**3301 Management Accounting (3-0).** Accounting information as an aid to management decision making, profit planning and control, budgeting, quantitative techniques, and internal accounting reports. May not be taken by accounting majors to satisfy degree requirements in accounting.

Prerequisite: Accounting 2302.

**3303 Intermediate Accounting I (3-0).** Financial reporting: conceptual framework and principles, determination of income, and classification and valuation of assets and liabilities.

Prerequisite: Accounting 2302.

**3304 Intermediate Accounting II (3-0).** Accounting for stockholders equity, earning per share, pensions, leases, income taxes, and other items. Preparation of the statement of cash flows.

Prerequisite: Accounting 3303.

**3305 Accounting Information Systems (3-0).** Analysis, design, and applications of accounting information systems with consideration of related internal control issues and management use of information.

Prerequisites: Accounting 2302 and Business Computer Information Systems 1305.

**3314 International Accounting (3-0).** A study of the international dimensions of accounting, including such topics as international financial reporting and harmonization, International Accounting Standards, and international financial statement analysis.

Prerequisite: Accounting 2302.

**3331 Cost Accounting (3-0).** Accounting principles and procedures for product costing, control, and decision making with emphasis on the use of costs by management.

Prerequisites: Accounting 2302 and Business Computer Information Systems 1305.

**3361 Income Tax Accounting (3-0).** Current income tax law and tax accounting procedures, preparation of income tax returns for individuals.

Prerequisite: Accounting 2302.

**4303 Auditing (3-0).** Theory, practice, and procedures of auditing for public accountants and internal auditors; auditing standards and ethics; development of audit programs; and preparation of working papers and audit reports.

Prerequisites: Accounting 3304, Business Computer Information Systems 1305, and Management Science 2331.

**4311 Advanced Accounting I (3-0).** Accounting for partnerships, branches, investments in equity securities, and business combinations. Preparation of consolidated financial statements.

Prerequisite: Accounting 3304.

**4312 Advanced Accounting II (3-0).** Accounting for state and local governments, colleges and universities, hospitals, voluntary health, and welfare organizations, other non-profit organizations, multinational enterprises, and insolvency.

Prerequisite: Accounting 3304.
### Graduate Program

#### Master of Professional Accountancy (M.P.Ac.)

**Accounting**

As an accounting professional, the bottom line among prospective employers and clients is your proven proficiency - in technical knowledge, critical thinking ability and communication skills. The Master of Professional Accountancy is a specialized degree focusing on accounting and finance. The degree satisfies CPA licensing requirements.

Angelo State University provides two avenues for earning an M.P.Ac. Students who have already received a bachelor’s degree enroll in the regular graduate programs, while outstanding undergraduate students may enroll in the B.B.A./M.P.Ac. program.

Student must have a 2.50 GPA in Intermediate Accounting I and II with no grade lower than “C.”

Applicants are required to take the Graduate Management Admission Test (GMAT), which is a computer-adaptive test administered at centers throughout the country and the world. You may take the standardized test as often as once per calendar month. GMAT scores must be reported to ASU (code 6644) directly from the testing agency and are valid for five years. To make arrangements for taking the test, go to the GMAT website: [www.mba.com](http://www.mba.com).

Admission is ordinarily granted to students who meet the College of Graduate Studies admission requirements and meet the formula (200 x undergraduate GPA + GMAT >= 1050), with a GMAT >= 430.

Students may take the above courses as leveling courses simultaneously with graduate courses for which they have the appropriate prerequisites. Accounting 6303, 6317, 6361, and 6362 cannot be taken until both intermediate accounting courses have been satisfactorily completed.

* The IVY MBA test must be taken in conjunction with this course as a graduation requirement.

** Business course taught by business graduate faculty in the study abroad program.

(continued on next page)
Up to nine semester credit hours of graduate credit completed prior to the date of first admission to the M.P.Ac. degree program at Angelo State University may be transferred into the program. After the date of first admission to the M.P.Ac. program, six semester hours may be transferred into the program only to fulfill elective requirements. The maximum total transfer credit is nine semester credit hours. The rest of the transfer policies of the College of Graduate Studies also apply.

All M.P.Ac. students are required to take the IVY MBA Test on the ASU campus as a graduation requirement. The IVY MBA Test will normally be taken as part of the course requirements in Management 6313 Corporate Strategies and Policies.

Marketing Requirement. Students in the Master of Professional Accountancy program who have not taken a marketing course must take either an undergraduate marketing course as leveling work or elect a marketing course at the graduate level.

Financial Aid. Merit scholarships are available to qualified students who demonstrate superior academic achievement and career potential. Both US and non-US citizens and residents are eligible for merit scholarships. Graduate students are eligible for Academic Excellence Graduate Scholarships. Texas students in the integrated program with 120 hours or more are also eligible for Fifth Year Accounting Scholarships funded by the Texas Higher Education Coordinating Board. The application deadline for Fifth Year Accounting Scholarships is June 30.

4362 Advanced Tax Accounting (3-0). Tax regulations applicable to partnerships, corporations, estates, gifts, and trusts.
Prerequisite: Accounting 3361.

4371 Accounting Internship. Participation in a part-time accounting position with a cooperating business or governmental accounting unit whose program has been approved by the Department of Accounting, Economics, and Finance. Written reports are required of both the student and the employing unit. The internship requires a minimum of 20 hours per week. May not be taken by accounting majors to satisfy accounting course degree requirements. Grading will be either pass or fail.
Prerequisites: Senior accounting major who has completed at least 21 semester hours in accounting and consent of both the supervising professor and the department chair.

4391 Research. A specialized course which may be directed reading or research for superior students in accounting.
Prerequisite: Senior standing.

Graduate Courses

*5191 Independent Study in Managerial Accounting (1-0). A specialized on-line course in Managerial Accounting which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

*5192 Independent Study in Financial Accounting (1-0). A specialized on-line course in Financial Accounting which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Advanced Management Accounting (3-0). A comprehensive study of the preparation of internal accounting reports for decision making, planning and control; cost determination and evaluation; budgeting and quantitative techniques. May not be taken by accounting majors to satisfy requirements in accounting.
Prerequisite: Accounting 2302.

6303 Applied Auditing (3-0). Interrelation of auditing concepts and professional standards and procedures for auditing computerized information systems, legal concerns, ethical dilemmas, and other contemporary issues in auditing practice.
Prerequisite: Accounting 4303.

6313 Accounting Information Systems (3-0). An advanced casework oriented course in computer-based information system theory and implementation. Topic coverage includes systems analysis, relational database theory, decision support systems, telecommunications, and networking.
Prerequisite: Accounting 3305.

6317 Advanced Accounting Problems (3-0). Review and elaboration of accounting principles as developed by a series of advanced problems. Corporation accounting and income determination.
Prerequisite: Accounting 3304.

6325 Financial Statement Analysis (3-0). Interpretation and analysis of financial statements and schedules for investors and other users.
Prerequisite: Accounting 3304.

6361 Advanced Tax Accounting (3-0). Tax regulations applicable to partnerships, corporations, estates, gifts, and trusts.
Prerequisite: Accounting 3361.

6362 Tax Research Methodology (3-0). Advanced research in federal taxation. Includes historical and current developments, sources of tax law, research methodology, case studies and reports.
Prerequisite: Accounting 3361 ("C" or better) or 6361.

6381 Special Topics (3-0). A study of selected topics in accounting. May be repeated once for credit when the topic varies.

6391 Research. A specialized course which may be directed reading or research for superior students.

* Credit for 5000 level business area courses may not be used for degree requirements.
Accounting

The following support courses are offered by the College of Business for accounting degrees. Degrees are not offered in fields with these prefixes.

Business Administration (BA)

Undergraduate Courses

1301/BUSI 1301 Introduction to Business (3-0). Fundamental principles of business organization, ownership, operation, and control. Helpful to beginning students in selecting a major program of study.

2345/BUSI 2301 Legal and Social Environment of Business (3-0). An overview of the legal and social environment of business. Topics include social responsibility, ethics, the judicial system and court procedure, business torts and crimes, contracts, bailments, forms of business structure, bankruptcy, securities regulation, antitrust, consumer protection, personnel and labor law, international law and other relevant legal and social topics.

3309 Entrepreneurship (3-0). A course designed to provide students with an understanding of the entrepreneurial process. To include models for creating a business; developing and using business, financing and marketing plans; and managing the new venture during early operation and expansion. Business plan software will be utilized to prepare a business plan for a new expanding business. (Formerly Management 4309.)
  Prerequisite: Junior standing.

4091 Research: 1 to 6. A specialized course providing research opportunities for superior students. Grading will be either pass or fail.
  Prerequisite: Permission of the instructor.

4303 Business Strategy and Policy Formulation (3-0). A senior business capstone course concerned with the study and development of strategy for the overall organization. The course is interdisciplinary in nature, requiring students to apply knowledge and skills learned in previous courses to solve problems of an organization operating in its social, political, legal, ethical, international, and economic environment. As part of course requirements, students will be required to submit a portfolio which provides evidence over their ASU career that the student has developed competencies, beyond subject matter knowledge, in areas such as leadership, communications, decision-making, and creativity. Students will also be required to take an examination covering the common body of knowledge of the B.B.A. degree.
  Prerequisites: Graduating semester, Permission of the Department, English 3352, Finance 3361, Management 3305, and Marketing 3321.

4371 Internship. Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input on student performance from the employment supervisor and using the required weekly journals prepared by students. Course may be repeated once for credit with permission of the instructor or department chair.
  Prerequisite: Permission of the instructor.

6302 Legal and Social Environment of Business (3-0). Analysis of the role of business in contemporary society with emphasis on the legal, social, political, and regulatory factors affecting business.

6303 Research Methods (3-0). Collection, analysis, and interpretation of both primary and secondary data for business decisions.
  Prerequisite: Management Science 6301.

Business Computer Information Systems (BCIS)

Undergraduate Courses

1305/BCIS 1305 Business Computer Applications (3-0). Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business utilization of the internet.

4366 Business Modeling and Decision Making (3-0). Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.
  Prerequisites: Business Computer Information Systems 1305 or equivalent, and Finance 3361.

Business (BUSI)

Undergraduate Courses

3345 Business Law I (3-0). Legal rights and social forces that shape government, business, and society. Regulatory law, contracts, sales, and commercial paper are covered.

3346 Business Law II (3-0). Legal issues related to the CPA. Includes the law of real and personal property, bailments, creditors rights, and secured transactions, agency and employment, insurance, partnerships, and corporations, bankruptcy, and securities regulations.
  Prerequisite: Junior standing.

Economics (ECO)

Undergraduate Courses

2300 Economic Analysis (3-0). A one-semester introduction to microeconomic and macroeconomic principles. The course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

2301/ECON 2301 Principles of Macroeconomics (3-0). Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.
  Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

2302/ECON 2302 Principles of Microeconomics (3-0). Product pricing, resource allocation, factor pricing, income distribution, and economic growth; contemporary problems such as foreign trade and agriculture.
  Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

3320 Economics for Managers (3-0). The application of economic theory to the management of firms. Includes topics of demand and consumer behavior, production and costs, theory of firms, and public policy towards business. This course is specifically designed for business majors.
  Prerequisite: Economics 2300, or Economics 2301 and 2302.
3311 Comparative Economic Systems (3-0). This course is a study of various types of economic systems ranging from a free market economy to a centrally planned economy. This includes capitalism, socialism, communism, and modifications to these basic models.
Prerequisite: Economics 2300, or Economics 2301 and 2302.

3360 Money and Banking (3-0). The role of money, financial markets, and institutions. Monetary theory, central bank monetary policy, and the international financial system. (Credit may not be earned for this course and Finance 3360).
Prerequisite: Economics 2301.

4307 International Economics (3-0). Introduction to international trade and finance. Centered on present day currency arrangements with consideration of recent and proposed reforms of the international financial system. Includes the principles that govern world trade and investments with discussion of the factors that determine the direction of trade, and policies that inhibit the free flow of trade.
Prerequisites: Economics 2301 and 2302.

Graduate Courses

*5191 Independent Study in Economics (1-0). A specialized on-line course in Economics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6300 Economic Theory and Policy (3-0). This course combines macroeconomics, including demand and supply, unemployment, inflation, gross domestic product, inflation, the U.S. banking system, and microeconomics, including consumer choice, rents, profits, the firm’s cost and output determination, competition, monopoly, and the labor market.

6311 Managerial Economics (3-0). A survey of microeconomic theories and analysis methods with applications in business problems for managerial decision making. Topics include demand analysis and estimation, costs, market structures and pricing.
Prerequisite: Economics 2302 and Management Science 6301.

Finance (FIN)

Graduate Courses

*5191 Independent Study in Finance (1-0). A specialized on-line course in Finance which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Financial Management (3-0). Corporate financial management decision-making techniques emphasized in areas of planning the financial structure, management of assets, capital budgeting, obtaining capital, and management of income.
Prerequisite: Finance 3361.

6347 Estate Planning (3-0). Various aspects of estate and gift tax planning. Emphasis is given to a basic understanding of the unified estate and gift tax system. This course covers transfers of property outright or with trusts, wills, and powers of appointment. It also covers federal estate and gift taxation, the marital deduction, and various estate planning devices used in estate planning process. Includes project in estate planning.
Prerequisite: Graduate standing.

6381 Special Topics (3-0). A study of selected topics in finance. May be repeated once for credit when topic varies.

Management Science (MSC)

Undergraduate Courses

2331 Statistical Analysis for Business and Economics (3-0). Introduction to statistical analysis including such topics as: descriptive statistics, probability distributions, sampling, statistical inference, correlation and regression analysis, and time series and index numbers. (Formerly Business Administration 4331.)
Prerequisite: Mathematics 1325 or equivalent.

3332 Applied Research Methods (3-0). This course is an overview of the qualitative and quantitative research methods used in the field of business. A special emphasis will be given on the use of computer packages such as SAS and SPSS. The course is intended to cover research design, implementation, analysis, and communication of results.
Prerequisite: Management Science 2331.

4319 Forecasting and Planning (3-0). The course serves as a general course in forecasting methods. Techniques covered include smoothing, decomposition, regression, judgmental techniques, and new product forecasting. Comparison and selection of the appropriate techniques is addressed. Emphasis is placed on the interface between forecasting and the managerial functions of implementation and control. A combination of lectures, analytical exercises, problems, and computer exercises are used. Implementation of a forecast system in a small business is also utilized.
Prerequisite: Management Science 2331 or consent of instructor.

Graduate Courses

*5191 Independent Study in Statistics (1-0). A specialized on-line course in Statistics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Decision Analysis (3-0). A study of statistical methodology and the application of statistics in business and economics. Includes descriptive and inferential techniques for decision analysis. Personal computers are used in analyzing decision data and presenting results.

6319 Forecasting Theory (3-0). The study of forecasting methods including exponential smoothing, decomposition, regression, and judgmental techniques. The use of forecasts in managerial planning and decision making.
Prerequisite: Management Science 6301 or consent of instructor.

* Credit for 5000 level business area courses may not be used for degree requirements.
Aerospace Studies

College of Business:
Department of Aerospace Studies

Department Chair: Lieutenant Colonel Pedro E. Matos

Faculty: Captain Frisinger, Lieutenant Colonel Matos, Captain Naaktgeboren.

Undergraduate Programs

Aerospace Studies

Air Force Reserve Officer Training Corps (AFROTC)

The Air Force ROTC program provides professional preparation for students desiring to serve as officers in the United States Air Force. The program offers information on Air Force career opportunities, role of the military in the American society, and training in leadership skills. Courses are normally taken for academic credit as part of a student’s electives. Entering freshmen may register for Aerospace Studies courses at the same time and in the same manner as they enroll in their other college courses. Students desiring entry after their freshman year must contact the department for approval prior to their planned entry into the program.

The General Military Course (GMC). (Aerospace Studies Leadership Laboratories 1111, 1113, 2111, 2113, and lectures 1112, 1114, 2112, 2114) is a two-year course taken during the freshman and sophomore years, with one credit hour of academic instruction and four hours of Leadership Laboratory a week which includes mandatory physical fitness training (dates and times announced during the semester). Membership in the GMC does not confer any military status or commitment upon the cadets, but affords them the opportunity to learn about the Air Force and its role in the American society.

The Profession Officer Course (POC). (Aerospace Studies Leadership Laboratories 3111, 3113, 4111, 4113, and lectures 3312, 3314, 4312, 4314) is a two-year course normally taken during the student’s junior and senior years. The class entails three credit hours of academic instruction and five hours of Leadership Laboratory a week which includes mandatory physical fitness training (dates and times announced during the semester). Entrance into the POC is limited to qualified students desiring to compete for Air Force commissions and who have had a four-week field training program. Each student selected for the POC is enlisted as a member of the Air Force Reserve and is provided a tax-free subsistence per month. The cadet who completes the POC is, upon graduation, commissioned a second lieutenant in the United States Air Force.

Other Activities. Many other activities, such as intramural sports, banquets, base visitations, drill meets, tours, and community projects are planned throughout the semester. Participation in some of these events will be required.

Special Students Aerospace Studies lecture courses (1112, 1114, 2112, 2114, 3312, 3314, 4312, 4314) are available to students who wish to learn about the Air Force but do not intend to join the Air Force.

Minor in Leadership Studies

Aerospace Studies 3312, 3314, Management 3300, 3 semester credit hours in History 4323, 4340, or 4361, 3 semester credit hours in Political Science 3314, 4301, or 4351, and 3 semester credit hours in Communications 3335, 3351, or 3355.

Air Force Scholarships for Reserve Officer Training Corps

Four-year Air Force ROTC scholarships are available on a nationwide basis for entering freshmen. Application for these highly competitive scholarships must be accomplished prior to December 1 of the senior year in high school. To apply for the four year Air Force scholarships go to www.afrotc.com.

These AFROTC scholarships are also available for three years for students in any major program already enrolled in the ROTC program. Students are encouraged to contact the department for additional information.

All of the following scholarships can be applied for by using the CARR Air Force ROTC Scholarship Application plus a current school transcript showing your most recent semesters’ work and two recommendations or evaluations. Other information such as a personal resume, pictures or letters can also be included and is highly recommended as these scholarships are based on a whole person concept.

Mr. and Mrs. Robert G. Carr
Air Force ROTC Scholarships

Approximately 60 AFROTC scholarships up to $1,500 per year are awarded annually to Angelo State University AFROTC students. These awards have been provided by the late Mr. and Mrs. Robert G. Carr of San Angelo to help attract highly qualified students into the AFROTC program and promote academic excellence. All students who are interested in enrolling in the ROTC program are invited to apply for a Carr Air Force ROTC Scholarship which carries no military commitment but allows a student the opportunity to participate in the Air Force officer candidate program.

J.C. Chuck and Lois Wright ROTC Scholarship

This scholarship fund was established by the late Mrs. Lois Wright in memory of her husband to provide financial aid to highly qualified students/cadets enrolled in the AFROTC program at Angelo State University. Cadets must be at least sophomores with a 2.75 GPA or higher to qualify. Several scholarships are awarded annually in the amount of $1,000 per year. This scholarship carries no military commitment, although it is typically awarded to cadets who have already expressed an intent to become an Air Force Officer.

Captain Jack Wood Memorial Scholarship

This scholarship fund was established in memory of Marine aviator Captain Jack Wood. Eligible cadets must be at least a sophomore, meet ROTC standards, maintain a minimum GPA of 2.50 and demonstrate a financial need. The amount of this scholarship varies and can pay up to $400 each year.

R.F. Durso ROTC Scholarship

This scholarship fund was established by the Nurre family to honor the bequest of the late Rocco F. Durso to provide financial aid to one highly qualified full time Angelo State ROTC student per year. This student must be deserving and have a strong desire to succeed. Preference will be given to students who graduated from Lakeview High School and participated in the Lakeview Junior ROTC program for a minimum of two years.
AFROTC Activities

Arnold Air Society Robert G. Carr Squadron (AAS): a nationwide professional honorary service organization of Air Force ROTC cadets dedicated toward promoting strong AFROTC-University relationships. The AAS participates in a variety of service functions for the University and the community.

The Ram Guard is comprised of AFROTC students dedicated to the art of precision drill who participate in honor guard formations on campus and in the community.

Silver Wings Organization is a community service organization comprised of students who are dedicated to supporting, as an auxiliary, the Robert G. Carr Squadron of Angelo State University. Membership is welcomed for all ASU students and is not dependent on any association with Air Force Reserve Officer Training Corps.

Course Descriptions

Aerospace Studies (AS)

Undergraduate Courses

1111, 1113 Leadership Laboratory (0-3). Laboratory experience to accompany Aerospace Studies 1112 and 1114. Students will gain a practical knowledge of customs and courtesies, drill and ceremonies, the environment of an Air Force base and career opportunities available to commissioned officers. Physical fitness activities are also an integral part of the lab experience (dates and times are announced during the semester).

1112 The Air Force Today (1-0). Introduction to the Air Force and Air Force ROTC. Customs and courtesies, dress and grooming standards, officership, officer opportunities and benefits will be discussed. Group leadership problem-solving and basic communicative skills will be demonstrated. (Offered in fall only.)

1114 The Air Force Today (1-0). Mission and organization of the Air Force. The transition from cadet to officer is discussed, along with a survey of Air Force leaders and key events in U.S. history. Group leadership problem-solving and basic communicative skills will be demonstrated. (Offered in spring only.)

1115 Military Physical Fitness (0-3). Develops the physical fitness required of an officer in the United States Military through emphasis of individual fitness programs and examination of the role of exercise/fitness.

1116 Military Physical Fitness (0-3). Develops the physical fitness required of an officer in the United States Military through emphasis of individual fitness programs and examination of the role of exercise/fitness.

2111, 2113 Leadership Laboratory (0-3). Laboratory experience to accompany Aerospace Studies 2112 and 2114. This experience can be classified as the initial leadership experience prior to Field Training. Activities include: emphasis on customs and courtesies, drill and ceremonies, and giving military commands. Instructing, correcting and evaluating the preceding skills are also part of the training. Physical fitness activities are also an integral part of the lab experience (dates and times are announced during the semester).

2112 Air Force Heritage (1-0). Discussion of Air Force leaders and leadership styles. Topics to be discussed include an overview of Air Force history, evolution of the Air Force and important air campaigns. Group leadership problem-solving and basic communicative skills will be demonstrated. (Offered in fall only.)

2114 Air Force Heritage (1-0). Discussion of basic Air Force leadership concepts and professional values. Students are exposed to Air Force ideas on total quality management and professional ethics and values. Group leadership problem-solving and basic communicative skills will be demonstrated. (Offered in spring only.)
Aerospace Studies

2115 Military Physical Fitness (0-3). Develops the physical fitness required of an officer in the United States Military through emphasis of individual fitness programs and examination of the role of exercise/fitness.

2116 Military Physical Fitness (0-3). Develops the physical fitness required of an officer in the United States Military through emphasis of individual fitness programs and examination of the role of exercise/fitness.

3111, 3113 Leadership Laboratory (0-3). Laboratory experience to supplement Aerospace Studies 3312 and 3314. This experience begins the leadership and management experience for Air Force officer candidates. Cadets are intimately involved in the planning, organizing, coordinating, directing and controlling of all cadet corps operations. Cadets prepare briefings and presentations to enhance the laboratory period and motivate other cadets to higher levels of performance. Physical fitness activities are also an integral part of the lab experience (dates and times are announced during the semester).

3312 Air Force Leadership Studies (3-0). Theory and application of leadership and management principles as applied to Air Force situations in the context of a junior officer. Professional knowledge and fundamentals are examined through the use of case studies to reinforce concepts. Students are introduced to Air Force total quality management concepts, individual briefings and written reports are expected. (Offered in fall only.)

3314 Air Force Leadership Studies (3-0). Practical application of principles and tools of total quality management too improving selected processes. Discussion of officer development in terms of the profession, subordinate leadership, ethical conduct, and core values, individual and group presentations and written reports are expected. (Offered in spring only.)

4111, 4113 Leadership Laboratory (0-3). Laboratory experience to supplement Aerospace Studies 4312 and 4314. This experience comprises the advanced leadership and management experience for Air Force officer candidates. Cadets are intimately involved in the planning, organizing, coordinating, directing, and controlling of all cadet corps operations. Cadets prepare briefings and presentations to enhance the laboratory period and motivate the performance of other cadets. Physical fitness activities are also an integral part of the lab experience (dates and times are announced during the semester).

4312 Air Force and National Security (3-0). Examination of the Air Force and the Armed Forces as an element of national security. Special topics of interest focus on national security processes, regional studies, advanced leadership ethics, Air Force doctrine and joint military doctrine. Individual and group presentations, written reports and student-led seminars are expected. (Offered in fall only.)

4314 Air Force Professional Topics (3-0). Examination of specific Air Force professional topics to prepare the individual for active duty. Special topics of interest include military justice, war fighting principles, transition to active duty, the military as a profession and current issues affecting the military profession. Individual and group presentations, written reports and student-led seminars are expected. (Offered in spring only.)

Field Training. Air Force ROTC Field Training is offered during the summer months at Maxwell Air Force Base, AL. Students participate in four weeks of Field Training between their sophomore and junior years before they can enter the Professional Officer Corps (POC). The major areas of study in the Field Training program include junior officer training, survival training, marksmanship, deployments, leadership, base functions, Air Force environment, and physical training. Successful completion of field training is mandatory for those wishing to commission as an Air Force Officer.
College of Arts and Sciences:

Undergraduate Programs

Bachelor of Science (B.S.)  
Agriculture
Animal Science  
(120 semester hours)

This degree is designed to meet the needs of individual students desiring a program of study in all aspects of the livestock industries including commercial production and management, animal feeding, health, nutrition, reproductive physiology, genetics, range and wildlife and live animal evaluation as well as other areas of the livestock, range, and wildlife industries. In addition, students are involved in ongoing faculty research and livestock production practices that prepare graduates for careers in animal science production and business areas. This program is designed to meet the needs of individual students desiring an animal science degree along with a choice of minor.

Academic Major  
Hours
Animal Science 1341, 2241 ................................................................. 5
Animal Science 3332, 3342, 3349, 3443, 4181, 4342, 4343, 4344, 4345................................. 26

Other Requirements
Agriculture, agricultural economics, animal science, food science, or range and wildlife management electives........3
Animal Science 1351, Business Computer Information Systems 1305, or Computer Science 1301, 1341, 1361 ....3
Biology 1410, 1480, 2401, 2402 ......................................................... 4
Chemistry 1301/1101 or 1411, and 2153/2353, 3331..............11
Communication 2301 ................................................................. 3

Visual and Performing Arts:  
Art 1301, 1302, 1305, 2301, 2302, Honors 2302, Music 1310, 1341, 1342, 1351, 1361, 1375, 1376, Theatre 1311, 1351, 1352 ................................................................. 3

Minor
Minor......................................................................................... 18

Electives
Electives ..................................................................................... 7

The natural science requirement for a Bachelor of Science in Animal Science will be met by completing four hours of Biology and Chemistry 1301/1101 or 1411, 2153, 2353, and 3331.

Minors for Students Majoring in Animal Science

Students may select a minor from any of those listed on page 321. Students must take 18 SCH in their minor with at least six of those hours at an advanced level and in residence. Students desiring a multiple area minor must have nine SCH in each area with at least six of those hours in each area at an advanced level and in residence. Students must be counseled by the Department of Agriculture on Minor requirements. Students of interest to Animal Science majors are as follows:

Students interested in careers in Production Agriculture and Animal Husbandry are encouraged to have a minor in one or more of the following areas:

- Agricultural Economics
- Biology
- Chemistry
- Food Science
- Range and Wildlife Management

Students interested in careers in Animal Research or Agricultural Research are encouraged to have a minor in one or more of the following areas:

- Biology
- Chemistry
- Food Science
- Range and Wildlife Management

Students interested in careers in Agricultural Business including sales of feed, pharmaceuticals, equipment, real estate, or any other business or commerce should have a minor in:

- Agricultural Economics

Students interested in careers in the area of Agricultural Communication or Journalism should have a minor in one or more of the following areas:

- Communication
- Journalism
- Mass Media

Students interested in a career in Law Enforcement should have a minor in one or more of the following areas:

- Criminal Justice
- Range and Wildlife Management
Agriculture Science 2300, 2302, 2303 ................................. 9
Agriculture Science 3303, 3313, 3331, 4304, 4308 .............. 15
Animal Science 2241, 3320, 3443 ......................................... 9
Food Science 3300 ................................................................ 3
Range and Wildlife Management 2322, 4333 ...................... 6

Chemistry 1301, 1101 and Animal Science 3332, 3443.
Cultural Science and Leadership will be met by completing Biology 1410,
Animal Science 1341, 4342, or 4343, and
Range and Wildlife Management 2322, 4333 ...................... 6

No. of required hours: 120

** Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 262 or visit: www.angelo.edu/dept/ceducation.

---

** The natural science requirement for a Bachelor of Science Degree in Agribusiness will be met by completing Animal Science 3349 and 4344 and 8 hours of Biology, Chemistry, or Geology.

- Minor (Business Administration) | 0 |

### Electives

- Electives (1 hour must be advanced) | 4 |

Students interested in the Integrated B.S. in Agribusiness/M.B.A. in Business Administration will be required to complete a minimum of 149 semester credit hours of degree credit. Of this total, 110 semester credit hours will be at the undergraduate level and 39 semester credit hours will be at the graduate level. A unique feature of the five-year program is that students will begin taking graduate course work in their senior year. All candidates for this program are required to take the GMAT and be admitted to the Graduate Program before taking any graduate credit hours. The student must maintain a cumulative 3.00 in all undergraduate courses and a cumulative 3.00 in all graduate courses. Another unique feature of this program will be the awarding of the B.S. in Agribusiness and M.B.A in Business Administration degrees simultaneously at the completion of the program. Therefore, a student will not be awarded the B.S. in Agribusiness after completing 110 semester credit hours at the undergraduate level until the completion of the 39 semester credit hours at the graduate level in the M.B.A. in Business Administration. Should a student decide not to finish the M.B.A. portion of the program, then this student would be required to complete all of the course requirements to finish the B.S. in Agribusiness as a separate degree.

### Bachelor of Science (B.S.)
#### Food Animal Science and Marketing

Interdisciplinary Studies

Agricultural Economics 1331 | 3 |
Animal Science 1351, Business Computer Information Systems 1305, or Computer Science 1301 | 3 |
Chemistry 1301/1101 or 1411 | 4 |
Communication 2301 | 3 |
English 1301, 1302 | 6 |
English 2323, 2324, 2325, 2328, 2329, or Honors 2305 | 3 |
History 1301, 1302 | 6 |
Mathematics 1302 | 3 |
Political Science 2301, 2302 | 6 |
Visual and Performing Arts:
Art 1301, 1302, 1305, 2301, 2302, Honors 2302, Music 1310, 1341, 1342, 1351, 1361, 1375, 1376, Theatre 1311, 1351, 1352 | 16 |

**Electives**

Electives * | 8-10 |

A minor is not required for an Interdisciplinary Studies degree. The natural science requirement for a Bachelor of Science Degree in Natural Resource Management will be met by 8 hours in Biology and 4 hours in Chemistry and Animal Science 3443.

---

**Pre-Veterinary Medicine Curriculum**

Angelo State University offers a series of courses designed to qualify students for entrance to schools of veterinary medicine. It is the responsibility of the student to make all applications for admittance and to check admission requirements of the school chosen. Before enrolling in the pre-veterinary medicine curriculum, the student should report to the Agriculture Department for advisement. If a student desires to earn a degree before entering a school of veterinary medicine, the student is advised to major in animal science and take a minor in biology and chemistry.

**Requirements**

- Animal Science 3342
- Biology 1480, 3301 or Animal Science 3443, 3411
- Chemistry 1411, 1412, 3151, 3351, 3152, 3352, 4331, 4332
- Communication 2301
- English 1301, sophomore literature, and 3351
- Mathematics 3321
- Physics 1421, 1422

**B.S. Animal Science (120 hours)**

### Agriculture (AG)

#### Undergraduate Courses

**4091 Internship Credit: 1 to 9.** A supervised course providing practical on-the-job experience in the student’s minor. Grading will be either pass or fail.

Prerequisites: Senior standing and approval of department chair; 2.50 or better GPA in major and overall.

### Agricultural Economics (AGEC)

#### Undergraduate Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1331</td>
<td>Introductory Agricultural Economics and Business (3-0).</td>
<td>Orientation to Agricultural supply businesses, farm and ranch management, food markets, capital markets, etc. Course will provide an overview of the role of agriculture in the U.S. and world economies.</td>
</tr>
<tr>
<td>1351</td>
<td>Fundamental Economic/Financial Analysis (3-0).</td>
<td>Use of computer spreadsheets in business management and statistical and financial analysis. Logical spreadsheet functions, applications and capabilities. Accounting, finance and management practices put into practice in spreadsheet format. (Credit may not be earned for this course and ASCI 1351.)</td>
</tr>
</tbody>
</table>

### Graduate Program

#### Master of Science (M.S.) Animal Science

The Master of Science degree with the thesis option is designed for persons intending to continue graduate work at the doctoral level. The non-thesis option is designed for persons wishing to pursue a career in industry, business, or governmental services or to teach at the junior college level. The specialized curricula are designed to give the student a thorough knowledge of the application of scientific principles to the production, processing, and marketing of livestock and livestock products. The Master of Science degree, thesis option, requires a minimum of 30 semester credit hours of graduate work, including 21-30 semester credit hours in agriculture department courses (including six semester credit hours for thesis) and 0-9 semester credit hours in supporting electives. The Master of Science degree, non-thesis option, requires a minimum of 36 semester credit hours of graduate work, including 27-36 semester credit hours in agriculture department courses (including three semester credit hours in Research) and 0-9 semester credit hours in supporting electives.

#### General Departmental Degree Requirements

The student’s Master of Science program must be initiated under the direction of a major professor and approved by the Chair of the Department of Agriculture and the Dean of the College of Graduate Studies. The specific courses required for Animal Science majors will be determined by the student’s advisory committee. The thesis project must be approved by the advisory committee and Graduate Dean. All graduate students are expected to successfully pass a comprehensive oral exam at the end of their graduate work. Graduate students completing a thesis option also must successfully defend their thesis.

#### Facilities

The Animal Sciences program at Angelo State University is supported by a wide range of physical facilities which provide students with unique opportunities to gain experience in every facet of management, instruction, and research related to careers in the field of animal science.

Angelo State University operates a comprehensive Management, Instruction, and Research (MIR) Center in conjunction with 6,000 acres of land at O.C. Fisher Lake near San Angelo which the University utilizes as a multiple purpose agricultural production and wildlife management area under a 25-year lease from the U.S. Corps of Engineers, Department of the Army.

A multi-million dollar complex at the Center includes instructional and research laboratories for animal science, animal reproduction, animal nutrition, wildlife management, wool and mohair technology, plant and range sciences, and meat and food science.

ASU’s Food Safety and Product Development (FSPD) Laboratory is about 8,000 square feet and is adjacent to the Management, Instruction and Research (MIR) Center, about six miles north of San Angelo. The facility maintains several laboratories for research and teaching. The FSPD Lab is able to fully process meat and food products from beginning to end with equipment capable of harvesting, processing, cooking/smoking and packaging.

An 80’ X 120’ multi-use arena provides facilities for livestock exhibitions and demonstrations, seminars, judging contests, and other activities. A maintenance complex includes shops for maintenance and repair of trucks, tractors, and other farm and ranch machinery, and for the construction of various types of equipment needed in animal, wildlife, and crop research.

The facilities of the Texas A&M University AgriLife Research and Extension Center at San Angelo are available for specialized instructional needs of Angelo State University students majoring in Animal Science. This Center, established adjacent to the University’s Management, Instruction, and Research Center with the support and assistance of Angelo State University, is a joint partner with Angelo State University in striving to meet the agricultural needs of the Edwards Plateau.

**3330 Agricultural Marketing (3-0).** Fundamentals of agricultural marketing management and planning (input and output). Study the institutional differences between agricultural and non-agricultural marketing environments. Outline essential marketing functions of buying, selling, transportation, storage, financing, standardization, pricing and risk bearing.

**3331 Agribusiness Management (3-0).** Non-farm, agriculture related business. Includes: tools and management decision making, legal forms of business organization, managerial accounting and key financial management techniques, personnel management and leadership skills.

**4331 Farm and Ranch Management (3-0).** Principles of farm and ranch organization and management. Development of a business plan to include executive summary of business, resource inventory, SWOT analysis, legal and liability assessment, goals, production plans, financial analysis and marketing plans.

**4332 Financial Management of an Agribusiness (3-0).** Study of major decisions made by agricultural firms. Analysis of investment in inventory, cash flows, receivables and repayment capacity. Review of capital markets.

**4341 Accounting (3-0).** Study of financial statements, financial planning, cost control and management control. Review of tax and income determination.

**4342 Agribusiness Statistics (2-2).** Statistical methods with applications in agribusiness and resource management.

**4351 Land and Natural Resource Economics (3-0).** Economic analysis of resource issues, policies and management. Issues could include: land fragmentation, mineral extraction issues, conservation easement and development rights, urbanization, renewable resources, carbon sequestration, property rights and water rights.

**4352 Farm Economics (3-0).** Analytical study of the development of farm income, production costs, and the determination of market prices for farm commodities. Organizational and marketing aspects of farm management.

**4353 Agribusiness Marketing (3-0).** Analytical study of the development of farm marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4354 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4355 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4356 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4357 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4358 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4359 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4360 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4361 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4362 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4363 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4364 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4365 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4366 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4367 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4368 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4369 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4370 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4371 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4372 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4373 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4374 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4375 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4376 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4377 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4378 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4379 Agribusiness Marketing (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4380 Agribusiness Management (3-0).** Analytical study of the development of marketing plans, marketing strategies, and pricing strategies. Marketing theoretical and applied concepts in agribusiness.

**4381 Special Topics (3-0).** A course dealing with selected topics in agricultural economics. (May be repeated once for credit when topic varies.)

**4391 Agricultural Economics Research.** Individual research problems. May be repeated to a total of six semester hours credit. Prerequisite: Junior standing.

**Graduate Courses**

*5331 Farm and Ranch Management (3-0).** Principles of farm and ranch organization and management. Development of a business plan to include executive summary of business, resource inventory, SWOT analysis, legal and liability assessment, goals, production plans, financial analysis and marketing plans. Course meets concurrently with AGEC 4331 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

*5332 Financial Management of an Agribusiness (3-0).** Study of major decisions made by agricultural firms. Analysis of investment in inventory, cash flows, receivables and repayment capacity. Review of capital markets. Course meets concurrently with AGEC 4332 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

* A maximum of two 5000-level courses totaling no more than eight semester credit hours may be taken for graduate credit by graduate students and applied to the graduate degree plan. Permission of the Graduate Advisor or Chair of the Department and the Graduate Dean is required.

* BIO 3333, 3461, 4301, 4315, 4401, 4402, 4404, or 4412.

2303 *Welding and Metal Work (2-2).* Basic principles of welding and metalwork, including an introduction to basic metallurgy, cutting and joining metals, use of oxyacetylene, electric arc welding, and plasma arc welding. Emphasis on understanding properties and theory of welding of various metals.

3303 *Mechanical Systems Management in Agriculture (2-2).* Basic principles of internal combustion engine theory and operations with emphasis on small gas power plants for agricultural and non-agricultural systems.

3313 *Management of Supervised Agricultural Experience Programs (3-0).* Provide students with the theory and application for working with youth in the selection, management and record keeping procedures used with supervised agricultural experience programs and youth projects.

3331 *Agricultural Youth Leadership Organizations (3-0).* Principles and application of leadership skills commonly taught in youth agricultural organizations. Emphasis on youth leadership development events and seamlessly integrating activities and curriculum.

4304 *Methods of Teaching Agriscience in the Secondary School (3-0).* Exploring methods of teaching agriculture science in the classroom.

4308 *Agricultural Buildings and Environmental Control (2-2).* Determination of agricultural building requirements, materials, design and construction. Includes construction, tools and equipment, framing, environmental control and utilities.
Agriculture

4391 Agricultural Science Problems (3-0). Individual investigation related to agricultural science or leadership. (May be repeated for credit.)
Prerequisite: Approval of department chairperson.

Animal Science (ASCI)

Undergraduate Courses

1341/AGRI 1319 Principles of Animal Science (2-2). An introduction to fundamental principles of animal science, including the economic impact of animal agriculture upon the United States and the world, animal genetics, anatomy and physiology, growth, reproduction, artificial insemination, lactation, egg laying, nutrition, animal disease, animal research; laboratory includes visits to animal industries in the area, livestock selection.

1351/AGRI 1309 Introduction to Applications of Microcomputers in the Sciences (3-0). An introduction to the basic operating principles of microcomputers and disk operating systems; the application of spreadsheet and word processing programs in the sciences. (Credit may not be earned for this course and AGEC 1351.)

2241 Live Animal-Carcass Evaluation (1-3). A study of evaluation methods relating live animal traits to carcass traits of meat animals.

2242 Livestock Practicum (0-4). Provides students an opportunity to learn skills required in handling and raising livestock. Students with little or no livestock background would gain general livestock knowledge that will be useful in future animal science classes.

3241 Livestock Meat and Wool Evaluation (1-3). A study of the factors involved in the visual evaluation of sheep, goats, beef cattle, swine, and their meat. (May be repeated once for credit.)

3320 Animal Nutrition and Feeding (2-2). Nutritional functions of nutrients and their digestion, absorption and use and forage feedstuff characteristics and procession; nutritional requirements, ration formulation and feeding methods for farm animal. General course for non-animal science majors.

3332 Principles of Animal Nutrition (3-0). Basic principles of animal nutrition, including digestion, absorption, and metabolism of food nutrients; characteristics and functions of the essential nutrients; the measurement of body needs and feed values.

3342 Applied Animal Nutrition (2-2). Defining feedstuffs; nutritional requirements of animals; nutritional characteristics of feeds; ration formulation.
Prerequisite: Animal Science 3332.

3349 Animal Anatomy and Physiology (2-2). A study of the structure and function of the cells, tissues, organs, and systems of the body of farm animals.

3443 Genetics of Livestock Improvement (3-2). Genetic principles and their application to the improvement of livestock through selection and mating.
Prerequisite: Junior standing.

4181 Seminar in Animal Science (1-0). A course designed to acquaint the student with basic literature of the discipline and to encourage an exchange among animal science majors and faculty members on selected topics. (May be repeated once for credit.)
Prerequisite: Senior standing.

4191, 4391 Research. Individual research problems. (May be repeated to a total of six semester hours credit.)
Prerequisite: Junior standing.

4242 Advanced Livestock, Meat, and Wool Selection (1-3). A study of the factors involved in the visual evaluation of sheep, goats, beef cattle, swine, and their meat and fiber. (May be repeated once for credit.)
Prerequisite: Animal Science 3241 or 3240.

4248 Reproductive Techniques (1-3). Techniques for increasing reproductive efficiency in farm animals; semen collection and evaluation, pregnancy diagnosis, and artificial insemination.
Prerequisite: Permission of instructor.

4342 Sheep and Goat Science (2-2). Methods of breeding, feeding, management, and marketing of commercial and purebred sheep and goats; production and marketing of animal fibers.
Prerequisite: Senior standing.

4343 Beef Cattle Science (3-0). Methods of breeding, feeding, management, and marketing of commercial and purebred cattle.
Prerequisite: Senior standing.

4344 Animal Reproduction (2-2). Anatomy and physiology of the reproductive systems of farm animals; methods for increasing reproductive efficiency in farm animals.

4345 Animal Behavior and Welfare (3-0). Basic Principles of animal behavior, physiology of behavior, stress, welfare and training of animals. Applications of behavior of livestock to their management and welfare.

4381 Special Topics (3-0). A course dealing with selected topics in animal science. (May be repeated once for credit when topic varies.)

Graduate Courses

*5248 Reproductive Techniques (1-3). Techniques for increasing reproductive efficiency in farm animals; semen collection and evaluation, pregnancy diagnosis, and artificial insemination. Course meets concurrently with Animal Science 4248 but requires additional readings, papers, discussions, and/or presentations for graduate students.
Prerequisite: Permission of Graduate Advisor and Graduate Dean.

*5342 Sheep and Goat Science (2-2). Methods of breeding, feeding, management, and marketing of commercial and purebred sheep and goats; production and marketing of animal fibers. Course meets concurrently with Animal Science 4342 but requires additional readings, papers, discussions, and/or presentations for graduate students.
Prerequisite: Permission of Graduate Advisor and Graduate Dean.

* A maximum of two 5000-level courses totaling no more than eight semester credit hours may be taken for graduate credit by graduate students and applied to the graduate degree plan. Permission of the Graduate Advisor or Chair of the Department and the Graduate Dean is required.
*5343 Beef Cattle Science (2-2). Methods of breeding, feeding, management, and marketing of commercial and purebred beef cattle. Course meets concurrently with Animal Science 4343 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Animal Science 3342, 3443, 4344. Permission of Graduate Advisor and Graduate Dean.

*5345 Animal Behavior and Welfare (3-0). Basic principles of animal behavior, physiology of behavior, stress, welfare and training of animals. Applications of behavior of livestock to their management and welfare. Course meets concurrently with Animal Science 4345 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

6181 Seminar (1-0). A survey of the literature and current research in various fields of animal science, range management, and wildlife management. May be repeated once for credit when topic varies.

6191, 6391 Research. Individual research problems. (May be repeated for a total of 6 semester credit hours.)

6321 Research Methods (2-2). Procedures used in agricultural research including experimental design, data collection, preparation, and analysis of results.

6335 Issues in Animal Agriculture (3-0). Lecture, discussion and seminar on current societal, economical and environmental issues facing animal agriculture. Emphasis on issues that will continue to impact animal agriculture production and management practices.

6339 Advanced Reproductive Physiology (3-0). Physiological mechanisms of reproductive processes in livestock and research methodology.

Prerequisite: Animal Science 4344 or equivalent.

6340 Advanced Sheep and Goat Production (3-0). The application of current research to sheep and Angora goat production, nutrition, reproduction, and production systems.

6341 Advanced Animal Nutrition (3-0). A study of nutrient requirements of various physiological functions and levels of animal performance; feed standards, comparative feeding studies, determination of digestibility and nutritional balances. Practical application of the above to energy systems for predicting animal performance and defining energy-nutrient relationships.

6342 Ruminant Nutrition (3-0). Current fundamental concepts in the physiology of digestion and metabolism in ruminants and their relationships to nutritional research and practice.

6344 Physiology of Farm Animals (3-0). Current fundamental concepts of the biomedical, physiological, and endocrinological mechanisms affecting reproduction, metabolism, and growth of farm animals.

6345 Advanced Beef Cattle Production (3-0). The application of current research to beef cattle production, nutrition, reproduction and production systems.

6346 Advanced Meat Science (2-2). A study of meat components, their development, and their effect on meat characteristics and processing properties.

Prerequisite: Food Science 4446.

6381 Special Topics (3-0). Selected topics in advanced animal science, range management, or wildlife management. (May be repeated once for credit when topic varies.)

6399 Thesis.

6699 Thesis.

Food Science (FSCI)

Undergraduate Courses

1329/AGRI 1329 Food Science (3-0). A fundamental knowledge of the food industry; food safety, sanitation, processing, classification and quality.

3300 Animal Products and Industry (2-2). Introduction and survey of the animal products industry intended to illustrate the diversity of animal products, animal product production practices and general food science principals. Emphasis is placed on student’s knowledge of general food science practices and animal derived products. This course is intended for students majoring in fields other than Animal Science and Marketing and will focus on a general knowledge necessary to convey an overview of the animal products industry.

4344 Food Safety and Sanitation (3-0). Principles of sanitation in food processing and food service. A study of the physical, chemical and microbiological importance of food spoilage, food preservation, and the methods for control of microbiological growth. The national food service exam will be given at the end of the course.

4345 Food Microbiology (2-2). The study of microorganisms important in food production, spoilage, preservation, and illness. Nutrient needs, growth characteristics, beneficial products, testing methods, and illnesses caused by microorganisms will be investigated.

4350 Issues in Meat and Food Sciences (3-0). Lecture, discussion and seminar on current technological, societal, economical and environmental issues facing the meat and food science industries. Emphasis on issues that will continue to impact food production and service management practices including Hazard Analysis and Critical Control Points (HACCP) and other government regulations.

4391 Food Science Research. Individual research problems. (May be repeated to a total of six semester hours credit.)

Prerequisite: Junior standing.

4446 Meats (3-2). Introduction and survey of the meat industry; live animal carcass comparisons; harvest techniques, processing, storage, preservation, food safety and identification of meats.

Prerequisite: Senior standing.

4447 Processed Meats (2-3). Introduction and survey of the processed meats industry. Principles of meat processing, portion control, restructuring meat technology, curing reactions and sausage processing, including the physical, sensory and biochemical properties of processed meat. Emphasis is placed on student’s knowledge of basic meat processing techniques.

Prerequisite: Senior standing.

* A maximum of two 5000-level courses totaling no more than eight semester credit hours may be taken for graduate credit by graduate students and applied to the graduate degree plan. Permission of the Graduate Advisor or Chair of the Department and the Graduate Dean is required.
### Graduate Courses

**5344 Food Safety and Sanitation (3-0)**. Principles of sanitation in food processing and food service. A study of the physical, chemical and microbiological importance of food spoilage, food preservation, and the methods for control of microbiological growth. The national food service exam will be given at the end of the course. Course meets concurrently with Food Science 4344, but requires additional readings, papers, discussions and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

**5345 Food Microbiology (2-2)**. The study of microorganisms important in food production, spoilage, preservation, and illness. Nutrient needs, growth characteristics, beneficial products, testing methods, and illnesses caused by microorganisms will be investigated. Course meets concurrently with Animal Science 4345 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

**5350 Issues in Meat and Food Sciences (3-0)**. Lecture, discussion and seminar on current technological, societal, economical and environmental issues facing the meat and food science industries. Emphasis on issues that will continue to impact food production and service management practices including Hazard Analysis and Critical Control Points (HACCP) and other government regulations. Course meets concurrently with Food Science 4350 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

**5446 Meats (3-2)**. Introduction and survey of the meat industry; live animal carcass comparisons; harvest techniques, processing, storage, preservation, food safety and identification of meats. Course meets concurrently with Animal Science 4446 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

**5447 Processed Meats (2-3)**. Introduction and survey of the processed meats industry; principles of meat processing; portion control, restructured meat technology, curing reactions and sausage processing, including the physical, sensory and biochemical properties of processed meat. Emphasis is placed on students’ knowledge of basic meat processing techniques. Course meets concurrently with Food Science 4447, but requires additional readings, papers, discussions and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

**6320 Research Techniques and Ethics (2-2)**. Technical and scientific methodology utilized in various animal and food product laboratory techniques will be examined. Additionally, research ethics in the areas of methods, manners, mandates, authorship, and animal research are central to the course.

**6329 Advanced Food Science (2-2)**. A study of the chemical and physical properties of food components and their modifications by processing techniques.

### Range and Wildlife Management (RWM)

**Undergraduate Courses**

**2321 Forage Production and Utilization (3-0)**. A study of the classification, distribution, production, and utilization of rangeland forages as related to wildlife and livestock production systems.

**2322 Rangeland Soil Science (3-0)**. An introduction to the nature and properties of soils. Application of science and technology to the use of this natural resource and the roles in the environment.

**3331 Principles of Range Management (2-2)**. Application of ecological principles in the management of rangelands for sustained production.

**3332 Range Improvement (2-2)**. Principles and practices of range improvements including weed and brush control, revegetation, fertilization, and grazing systems.

**3335 Range Plants (2-2)**. A study of the important range plants and range ecosystems of Texas and other western states. The identification, distribution, ecological and economic value of introduced and native species will be emphasized.

**4333 Range Wildlife Management (2-2)**. Introduction to the ecology and management of wildlife populations, integration of other resource demands with that of wildlife.

**4391 Range Research.** Individual research problems. (May be repeated to a total of six semester hours credit.)

Prerequisite: Junior standing.

**4435 Plant Taxonomy (3-3)**. Laboratory and field studies emphasize the use of a dichotomous key using flowering plants of the Concho Valley as topics of study and recognition of the major families of flowering plants. Lecture emphasis is on current problems in plant taxonomy and systematics. (Credit for both Range and Wildlife Management 4435 and Biology 4435 cannot be awarded.)

### Graduate Courses

**5333 Range Wildlife Management (2-2)**. Introduction to the ecology and management of wildlife populations, integration of other resource demands with that of wildlife. Course meets concurrently with Animal Science 4333 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisite: Permission of Graduate Advisor and Graduate Dean.

**6338 Range Animal Nutrition (3-0)**. Application of principles of animal nutrition and production to a range ecosystem. Study of plant/animal/environmental interactions as related to nutritive value of forages and nutrient intake requirements of range herbivores.

**6339 Grazing Management (3-0)**. Provides a synthesis of literature addressing the fundamental ecological concepts and managerial principles pertaining to management of grazing animals.

**6340 Ranch and Livestock Management (3-0)**. Investigation of current management, economic, and environmental considerations of range and livestock management of the ranching industry in Texas.
## College of Arts and Sciences:
### Department of Visual and Performing Arts

**Interim Department Chair:** Edward C. Surface

**Faculty:** Apodaca, Busby, Cuenco, Hall, Sum, Vinklarek.

**Professor Emeritus:** Prestano.

**Contact Information:** Carr Building, Room 138
Telephone: 325-942-2085, Fax: 325-942-2152
http://www.angelo.edu/dept/arts/art/

### Undergraduate Programs

#### Bachelor of Fine Arts (B.F.A.)

##### Art

**Studio Art**

(120 semester hours)

##### Other Requirements

- Communication 2301: 3
- Computer Literacy: 3
- Computational and Applied Math 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2513: 3
- English 1301, 1302, and one sophomore literature: 9
- History 1301, 1302: 6
- Humanities: English—an additional sophomore literature,
  History 2331, 2332, French 2372, German 2372,
  Philosophy 2301, 2311, 2321, Honors 2305: 3
- Mass Media 2321: 3
- Natural Science (two lab sciences):
  biology, chemistry, geology, physical science, physics: 8
- Political Science 2301, 2302: 6
- Social Science:
  Agricultural Economics 1331,
  Economics 2300, 2301, 2302,
  Geography 2301, 2305,
  Psychology 1303, 2301,
  Sociology 1303, 2301: 3

##### Electives

- Electives (3-6 elective hours must be advanced to meet the 42 advanced hour requirement): 13

Students wishing to pursue all level teacher certification should complete the B.F.A. with an Art Generalist specialization and contact the Educator Preparation Information Center for more information. Minimum course requirements for all level certification in art: ART 1302, ART 4381, ED 4315, ED 4321, ED 4322, ED 4974, EPSY 3303, RDG 4320. Completion of this course of study may require more than 120 hours.

### Specialization Areas

All Bachelor of Fine Arts students are required to select one of the following specialization areas:

#### Art Generalist

- Art 3312, 3332, 3362: 9
- Art 3323 or 4321: 3
- Art 3371 or 3372: 3
- Art 4341, 4372: 6
- Advanced Art History: 3

#### Ceramics

- Art 3312: 3
- Art 4371, 4380: 6
- Art 3332 (6 SCH with repeat): 6
- Art 3333 (6 SCH with repeat): 6
- Art 4372: 3

#### Graphic Design

- Art 2372: 3
- Art 3312, 3371, 3372, 4371: 12
- Art 4370 (6 SCH with repeat): 6
- Art 4372: 3

#### Painting/Drawing

- Art 3312, 3320: 6
- Art 3321 or 3322: 3
- Art 3323, 4321: 6
- Art 4324: 3
- Art 4372: 3
- Advanced Art History: 3

#### Printmaking

- Art 3312: 3
- Art 3362 (9 SCH with repeat): 9
- Art 4362 (6 SCH with repeat): 6
- Art 4372: 3
- Advanced Art History: 3

#### Sculpture

- Art 3311 or 3312: 3
- Art 4341 (9 SCH with repeat): 9
- Art 4342 (6 SCH with repeat): 6
- Art 4372: 3
- Advanced Art History: 3

*Course cannot be repeated if taken in Academic major requirements.*
Art (ART)

Course Descriptions

Undergraduate Courses

1301/ARTS 1301  Introduction to Art (3-0). A course designed to lead to a basic understanding and increased enjoyment of the visual arts. For non-art majors/minors only. Option for education majors with an art emphasis.

1302  Primary Art (3-0). A course designed to convey essential artistic concepts, design principles, and theoretical aspects as related to an understanding of the visual arts and how this understanding applies to the development of the child and his/her potential creativity.

1305  Art and Film (3-0). A survey of the use of the visual arts in film, from the earliest days to current trends. This course is intended for non-art majors.

1321/ARTS 1311  Design I (0-6). The study of the organization of visual elements and principles of design.

1322/ARTS 1312  Design II (0-6). Opportunities in experimentation and analysis of creative design problems.

2301/ARTS 1303  Art History I (3-0). A survey of architecture, painting, and sculpture from prehistoric times to the Romanesque period of the Middle Ages.

2302/ARTS 1304  Art History II (3-0). A survey of architecture, painting, and sculpture from the Gothic period of the 13th century through the modern era.

2311/ARTS 1316  Drawing I (0-6). Fundamentals of drawing in a variety of media.

2312/ARTS 1317  Drawing II (0-6). Exercises in drawing in various media and a study of techniques used by historical and contemporary artists.

2372  Graphic Illustration (0-6). Problems in illustration making use of various media, combined with a study of techniques used in the reproduction methods of the graphic arts industry. Formerly Art 1371.

2373  Digital Design (0-6). A foundation course centered on the manipulation of the elements of art with the use of the computer.

3311  Drawing III (0-6). Emphasis will be placed on contemporary drawing techniques, visual communication, and styles. (May be repeated for credit.)

3312  Figure Drawing (0-6). Focuses on the development of understanding the proportions and aspects of the human figure, while encouraging individual interpretation. (May be repeated once for a total of six credit hours with the consent of the instructor.)

** Portfolio Preparation should be taken the semester a student plans to graduate.
**B.F.A. Studio Art, Graphic Design (120 hours)**

* ART 3321 is highly recommended.
** ART 3311 is recommended.
*** Portfolio Preparation should be taken the semester a student plans to graduate.

3313 Modern Art (3-0). An examination of the development of modern painting and sculpture from the late eighteenth century to the present. Emphasis is placed on the evolution of style, philosophical content, and historical relevance.

3315 Italian Renaissance Art (3-0). The development of painting, sculpture, and architecture from the late thirteenth century to the end of the sixteenth century. Emphasis is placed on the context of philosophic, social, and theological concepts of the period.

3317 Modern Architecture (3-0). A study of the development of architectural structure, form, and style and of related historical influences. The course will cover the period from the mid-eighteenth century to the present.

3319 Greek and Roman Art (3-0). A study of the history of architecture, painting, and sculpture of the classical world.

3320 American Art (3-0). A study of the development of painting and sculpture in the United States with emphasis placed on artistic significance, stylistic interaction, and social, philosophical, and historic relevance.

3321 Painting I (0-6). A studio-laboratory study of procedures and purposes which develop basic painting techniques.  
Prerequisites: Art 1321, 2311.

3322 Watercolor I (0-6). A study of the fundamental methods and procedures which are required for working with water soluble paint, especially transparent watercolor.  
Prerequisites: Art 1321, 2311.

3323 Watercolor II (0-6). A continued study in basic watercolor techniques with added emphasis on extended and varied creative approaches. (May be repeated for credit with consent of instructor.)  
Prerequisite: Art 3322.

3324 Jewelry (0-6). A studio laboratory that introduces traditional as well as contemporary processes and materials used in the creation of jewelry. Techniques will include sawing, piercing, soldering, bezel setting stones, and development of design application using these skills.  
Prerequisites: Art 1321, 2311.

3325 Jewelry II (0-6). The development of a personal authentic and conceptual direction in metal work focusing on the relationship of surface to form. Casting is introduced and the fabrication process will be continued. (May be repeated for credit with consent of instructor.)  
Prerequisite: Art 3324.

3327 Fibers (0-6). Structural development of fibers in woven forms as a fine art medium. The use of the frame-loom and non-loom weaves, coiling, twining, and twillng. (May be repeated for credit with consent of instructor.)

* ART 3321 or 3322, 3331, 3341.

** Portfolio Preparation should be taken the semester a student plans to graduate.

### 3331 Ceramics I (0-6). Basic techniques of ceramic production; investigation into the artistic process of creating ceramic art forms. Emphasis on actual ceramic production.

### 3332 Ceramics II (0-6). A continuation of Art 3331. Emphasis on wheel production, glaze formulation, kiln construction, and firing techniques. (May be repeated for credit with consent of instructor.)

### 3333 Ceramics III (0-6). An advanced course designed for the exploration of ceramics as a sculptural vehicle. Emphasis is placed on students ability to perceive the relationship between the idea to the finished three dimensional sculpture. (May be repeated for credit with consent of instructor.)

### 3341 Sculpture I (0-6). A study of the fundamental concepts in form, using clay modeled over armatures and cast in plaster, carving, and assemblage techniques.

### 3361 Printmaking I (0-6). A study of the processes of printing using relief, intaglio, stencil, and planographic methods.

### 3362 Printmaking II (0-6). Opportunities for specialization and experimentation in printmaking processes. (May be repeated for credit with consent of instructor.)

### 3371 Typography (0-6). A course designed to explore typographical form in the graphic arts as a means of social and commercial communication. Application of typographical principles and analysis of design will be stressed.

### 3372 Layout Concepts (0-6). An introduction to the print industries involving a study of layout and paste-up design and the preparation of copy for various printing methods. (May be repeated for credit with consent of instructor.)

### 4321 Painting II (0-6). Advanced studio-laboratory study of procedures and purposes which develop painting techniques with emphasis on individual expression. (May be repeated for credit with consent of instructor.)

Prerequisite: Art 3321.

### 4324 Painting III (0-6). A continuation of the development of painting skills, including use of the human form as subject matter. (May be repeated for credit with consent of instructor.)

Prerequisites: Art 3321, 4321.

### 4341 Sculpture II (0-6). Studies in sculpture based on fundamental principles included in Art 3341 but with greater emphasis on individual expression. (May be repeated for credit with consent of instructor.)

### 4342 Sculpture III (0-6). Opportunities for specialization in experimental sculpture techniques, including mixed media and installation art. (May be repeated for credit with consent of instructor.)

### 4362 Printmaking III (0-6). Opportunities for specialization in etching and various photographic methods of printmaking.

### 4370 Advanced Computer Application in the Graphic Arts (0-6). Focuses on the individual creative solutions derived from the use of computer imaging. (May be repeated for credit with consent of instructor.)
4371 Internships. An in-service program with campus and/or local establishments as assigned on an individual basis. Arrangements for the art internship must be made with the instructor during the semester prior to participation in the internship.
Prerequisites: Completion of area of specialization and consent of instructor.

4372 Portfolio Preparation (0-6). Focuses on the development of the student’s individual portfolio. Presentation and marketing skills will be developed. (May be repeated for credit with consent of instructor.)

4378 New Concepts in Art (3-0 or 0-6). This course will allow students to explore new trends in the visual arts either in the context of a studio laboratory experience or within the form of a seminar in which contemporary thought in the visual arts are discussed and analyzed. (May be repeated for credit with consent of instructor.)

4380 Ceramic Chemistry (0-6). The composition, properties, and use of materials in glazes. Calculation of glaze formulas and batches. Laboratory exercises in development of color and texture. (May be repeated for credit with consent of instructor.)

4381 Special Topics (3-0 or 0-6). A course dealing with selected topics in art. (May be repeated once for credit when topic varies.)

4391 Research. A specialized course which may be directed reading or research for superior students majoring in art.
Prerequisite: Junior standing.

### Graduation Requirement for the Biology Major

Candidates for the Bachelor of Science in Biology are required to complete a Major Field Test (MFT) in Biology in order to be eligible for graduation. The Division of Extended Studies administers the MFT by appointment throughout the year. A student is eligible to take the MFT upon completion of all required biology credits or during the semester immediately prior to graduation (August graduates must take the examination during the spring semester immediately prior to graduation). With written permission from the Chair of the Department of Biology, another national or state examination (i.e., MCAT, DAT, OAT, TExES) may be taken in place of the MFT; however, the student is responsible for examination costs. The exam score has no bearing on GPA, but will be part of the student’s record.

### Bachelor of Science (B.S.)

**Biology Major with Life Science Grades 8-12, Teacher Certification ****

(120 semester hours)

#### Electives

Electives

---

****Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 292 or visit www.angelo.edu/dept/ceducation.

#### **Students may also be satisfied by Chemistry 1411, 1412, 3151, 3152, 3351, 3352, and 4331. These courses would also satisfy the requirement for a minor.***
Graduation Requirement for the Biology Major with Life-Science Certification

Candidates for the Bachelor of Science in Biology are required to complete a Major Field Test (MFT) in Biology in order to be eligible for graduation. The Division of Extended Studies administers the MFT by appointment throughout the year. A student is eligible to take the MFT upon completion of all required biology credits or during the semester immediately prior to graduation (August graduates must take the examination during the spring semester immediately prior to graduation). With written permission from the Chair of the Department of Biology, another national or state examination (i.e., MCAT, DAT, OAT, TExES) may be taken in place of the MFT; however, the student is responsible for examination costs. The exam score has no bearing on GPA, but will be part of the student’s record.

Courses required to be eligible for certification in 8-12 Life Science

Any student who wishes to be certified in 8-12 Life Science must complete the following courses:

Biology 1480, 2401, 2402, 2403 ................................................16
Biology 3301, 4303, 4451 .....................................................10
Biology advanced **..............................................................4

Biology Minor: A student who chooses biology as a minor must complete the following courses: Biology 1480, 2401 or 2402, 3301, 4303, and 4451. Students with a major in Chemistry with a Biochemistry Emphasis should follow biology minor requirements listed for that degree.

Bachelor of Science (B.S.) Ecology and Evolutionary Biology with a Multiple Discipline Minor

Electives

Electives (11 of these hours must be advanced) **** ........................................22-24

Pre-Medical and Pre-Dental Students

Students planning to apply to medical or dental school

A student interested in applying for admission to medical (including podiatry, optometry, chiropractic, occupational therapy, or physician’s assistant programs) or dental school may major in any undergraduate discipline. Health professional school admission committees do not prefer a particular undergraduate major field or degree, so the student should select a major and degree plan consistent with career interests should medical or dental school plans not materialize. Selecting such an academic major, rather than a major in “Pre-Medicine” or “Pre-Dentistry”, will provide the student with all course requirements for health professions school and with an alternative career choice as well.

Many health professions students major in Biology, but majors in all fields are given equal consideration for admission to medical and dental schools. For example, a student wishing to apply to either medical or dental school, may prepare for an alternative career in biology or pursue graduate work in biology by following the biology major/chemistry minor degree plan. Or if the alternative career is teaching at the public school level, then the student should follow any teacher certification degree. However, the student must contact the Chairperson of the Health Professions Advisory Committee as soon as possible to discuss major field selection, and the student must work closely with this advisor to develop an academic program which will satisfy the requirements of both the major field and the professional schools to which the student wants to apply. Information concerning majors and admission requirements of health professions schools is available from this advisor, and regular student conferences with this advisor are essential.

A student may qualify for the Bachelor of Science degree from Angelo State University by satisfactorily completing all of the specified course work for the Biology major with a Chemistry minor as listed in the degree plan of the University Catalog and at least one full year at an accredited American medical, dental, optometry, or podiatry school. That is, the only Angelo State courses for which the one year of health professions would substitute are general elective hours. Before considering this option, the student should consult with both the health professions advisor and with the Dean of Arts and Sciences. Final permission to pursue this option must be obtained from the Dean of Arts and Sciences.

Pre-Occupational Therapy Students

Students planning to apply for admission to Occupational Therapy school

Students interested in applying for admission to occupational therapy school can complete all required preadmission course work as well as participate in suggested professional experiences while attending Angelo State University. Students attending ASU with the intent to fulfill required academic prerequisites for admission may do so without declaring a specific academic major; however, because admission to professional training programs is highly competitive students are urged to select an academic major as early as possible to discuss major field selection, and the student must work closely with this advisor to develop an academic program which will satisfy the requirements of both the major field and the professional schools to which the student wants to apply. Information concerning majors and admission requirements of health professions schools is available from this advisor, and regular student conferences with this advisor are essential.

***Additional biology courses may be taken to fulfill general elective requirements; Biology 3403 is strongly recommended for students who plan to pursue a graduate degree in biology.

Angelo State University Undergraduate and Graduate Catalog 2013-2014 69
Biology major for an alternative career and work toward fulfillment of the degree requirements in conjunction with meeting the specific requirements of the Occupational Therapy schools. Many allied health professions students major in Biology or Biochemistry, but majors in all fields are given equal consideration for admission to Occupational Therapy schools. Students interested in these careers must meet with the pre-occupational therapy advisor in the Biology Department to receive information pertinent to current program requirements and advising for course selection during the enrollment period prior to each semester. Students must work closely with this advisor to develop an academic program which will satisfy both the requirements of the professional program to which they are seeking admission and those of the chosen academic major. Regular conferences with the advisor are essential.

### Pre-Physical Therapy

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy Program is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

* Advanced hours in Biology are highly recommended.
Graduate Program

Master of Science (M.S.) in Biology

Admission Requirements. The requirements for admission to the College of Graduate Studies and the Master of Science in Biology are listed beginning on page 26 of this Catalog. *

Degree Requirements

The student’s Master of Science program must be initiated under the direction of a major professor and approved by the Chair of the Department of Biology and the Dean of the College of Graduate Studies. The thesis option is offered for those students preparing for further graduate work in biology. For thesis admission, a student must select a research topic and be approved by the biology graduate faculty member who represents this discipline. The non-thesis option is offered for those students desiring to improve their positions and skills as secondary school or junior college teachers, laboratory technicians, consultants, or government employees.

I. Master of Science in Biology

A. Thesis Option: The student must complete a minimum of 30 semester credit hours of graduate work, including:
   1. 18-24 semester credit hours in biology courses, including Biology 6302,
   2. 0-6 semester credit hours in supporting electives,
   3. a thesis in biology (6 additional semester credit hours in biology will be awarded for successful completion of the thesis) including a defense.

B. Non-Thesis Option: The student must complete a minimum of 36 semester credit hours of graduate work, including:
   1. 21-30 semester credit hours in biology, including 3 semester credit hours of literature-based research (field or laboratory research may be available after completion of this requirement),
   2. Biology 6302,
   3. 3 semester credit hours in research,
   4. 0-9 semester credit hours in supporting electives.

II. Master of Science in Biology with Emphasis in Science Education **

This program is designed for students seeking a career as a two (2) or four (4) year college or university educator. Students will broaden their basic knowledge of the biological sciences, gain experience in investigative research methodology (particularly as it relates to the study of how science is taught), and develop their understanding of science pedagogy, curriculum development, and assessment as it relates to learning in institutions of higher education.

A. Thesis Option: The student must complete a minimum of 36 semester credit hours of graduate work, including:
   1. 4 semester credit hours of core pedagogical courses (Biology 6304 and Biology 6171),
   2. 3-6 semester credit hours of graduate Education courses (choose from Education 6331, 6310, 6322, 6351, or 6391),
   3. 20-23 semester credit hours in biology courses, including Biology 6302,
   4. a thesis in science education (6 additional semester credit hours in biology will be awarded for successful completion of the thesis) including a defense.

B. Non-Thesis Option: The student must complete a minimum of 36 semester credit hours of graduate work, including:
   1. 4 semester credit hours of core pedagogical courses (Biology 6304 and Biology 6171),
   2. 6 semester credit hours of graduate Education courses (choose from Education 6331, 6310, 6322, 6351, or 6391),
   3. 23 semester credit hours in biology courses, including Biology 6302,
   4. a research report in science education (Biology 6391), results of the research report must be presented orally to the biology department faculty during the last semester prior to graduation.

Comprehensive Examination. Each candidate for the Master of Science degree in Biology is required to successfully complete advanced biology (Biology 6302). This course covers a broad range of general topics in biology and serves as the comprehensive examination in the Department of Biology graduate program.

(continued on next page)

* A student who has not completed the listed courses as an undergraduate will be required to take these courses as leveling work. All leveling courses must be completed within one year of enrollment in the graduate program. Applicants for the thesis option who fall slightly short of this formula may be considered for provisional admission if there are strong additional indicators that the applicant will be successful in the graduate program.

** This program does NOT lead to teacher certification; however secondary biology teachers seeking to expand their background knowledge in the biological sciences and/or enhance their science education research skills would be eligible to apply. Leveling work is determined case-by-case.
### Biology Descriptions

**Course Descriptions**

**Biology (BIO)**

#### Undergraduate Courses

1410 Human Biology (3-2). An introductory owner’s manual to the human body for nonbiology majors. Includes fundamentals of human anatomy and the functions of the major systems of the body, contemporary health issues, human heredity, and human evolution.

1411 Man and the Environment (3-2). An introductory owner’s manual to Spaceship Earth for nonbiology majors. Includes a survey of contemporary ecological concepts that affect man’s life, values, and culture. Topics include the biosphere and ecosystems, adaptation, environmental pollution, waste management, conservation, population growth, and world food problems.

1480 Principles of Biology (3-3). An introduction to the unifying principles of biology, including the chemistry of life, cell structure and function, energy, inheritance, development, evolution, and ecology. Laboratory is designed to develop and improve critical thinking and problem solving skills related to the topics discussed in lectures. Intended for the biology major or minor.

2401/BIOL 1411 General Botany (3-3). A consideration of the structural adaptations and diversity of plants and their life cycles. Laboratory will emphasize classification and comparative anatomy of the Kingdoms Fungi and Plantae.

Prerequisite: Biology 1480 or equivalent.

2402/BIOL 1413 General Zoology (3-3). A consideration of the structural adaptations of animals. Laboratory will emphasize classification and comparative anatomy within the Kingdom Animalia.

Prerequisite: Biology 1480 or equivalent.

2403 Comparative Plant and Animal Physiology (3-3). A general introduction to how plants and animals function, comparative in approach and stressing the principles of physiology which govern the degree of environmental adaptation.

Prerequisites: Biology 2401 and 2402.

2423 Human Anatomy (3-3). The study of the structure of cells, tissues, organs, and systems of the human body.

2424 Human Physiology (3-3). The study of the normal functions of the cells, tissues, organs, and systems of the human body.

Prerequisite: Biology 2423.

3101 Genetics Laboratory (0-2). Computer based problem solving in genetics. Optional laboratory to accompany Biology 3301.

Prerequisite: Concurrent enrollment or credit in Biology 3301.

3301 Genetics (3-0). This is a course in general genetics. Topics are organized into three major areas: cytogenetics, molecular genetics and classical genetics.

Prerequisite: Two courses in biology or consent of instructor.

3302 Medical Genetics (3-0). A study of the role of genetics in human health with emphasis placed upon the mechanisms, methods of diagnosis and current treatment of genetic diseases. Course work will involve case studies and problem sets and will include learning to use a computer data base to retrieve information on human genetic diseases.

Prerequisite: Must have completed Biology 3301 with a grade of “A”.

3305 Medical Botany (3-0). An introduction to pharmacognosy and humanistic botany, including a discussion of the major food plants, special medicinal plants, plant hallucinogens, poisonous plants, and other economically important plants.

Prerequisite: One semester of freshman Biology (1480, 1410, or 1411) or consent of instructor.

3333 Natural History of the Concho Valley (3-0). A study of the relationship among geology, soils, climate, plants, animals, and recent human history in the Concho Valley region of Texas. Emphasis will be placed on understanding woody vegetation and vertebrate animals of the region.

3403 Cell Biology (3-3). Study of the morphology, function, biochemistry and molecular biology of cells and organelles. Laboratory work will involve the practice and application of techniques to cell biology.

Prerequisites: Credit for Biology 1480 and 3301.

3411 General Microbiology (3-3). The major areas in the field of microbiology are surveyed, with special emphasis given to the bacteria. Groups of microorganisms are characterized in sufficient detail to reveal their nature. Fundamental concepts of biology and basic biological processes common to all forms of life are emphasized. Laboratory methods are stressed, and detailed studies are made of pure cultures.

Prerequisites: Two semesters of chemistry and biology.

3412 Pathogenic Microbiology (3-3). The relationship of microorganisms to human disease with an emphasis on bacteria. Elements of immunity and diagnosis and treatment of infection will be covered. This course includes a heavy emphasis on the role and application of laboratory work.

Prerequisites: Two semesters of chemistry and two semesters of biology.

3413 Immunology (3-2). A study of the specific cellular and humoral responses of the animal body to microorganisms and certain other extrinsic and intrinsic agents.

Prerequisites: Credit for Biology 1480 and 2402, or 2423 and 2424.
3421 Histology (3-3). The microscopic study of normal cells, tissues, organs, and systems of the human body with emphasis on integration of microscopic structure with physiology, embryology, and other areas of biology. 
Prerequisites: Credit for Biology 1480 and 2402, or 2423 and 2424, Junior standing.

3461 Entomology (3-3). General entomology: a survey of the important orders and families of insects with emphasis on the natural history, systematics, taxonomy, and physiology of the group. Laboratory will include field trips with required collection and identification of local representative taxa.

4181 Seminar in Biology (1-0). A course designed to acquaint the student with the basic literature of the discipline and to encourage an exchange among biology majors and faculty members on selected topics.

4191, 4291, 4391 Research. Individual research problems for superior students majoring in biology. (May be repeated to a total of six semester hours credit.) 
Prerequisites: Junior standing. Approval from the Chair of the Department is required prior to enrollment.

4301 Conservation Biology (3-0). Theory and practice of conservation biology with emphasis on the maintenance of species diversity, factors affecting extinction, genetic impacts of rarity, and practical management considerations, including design of reserves and captive breeding and release programs. 
Prerequisites: Biology 1480, 3301.

4303 Evolution (3-0). A review of the history of evolutionary thought and discussion of the development of all living organisms from previously existing types under the control of evolutionary processes. Emphasis on the mechanisms of evolution and the different theories regarding the processes that have brought about evolutionary change. 
Prerequisite: Biology 3301.

4315 Biogeography (3-0). A study of the distribution of plants and animals over the earth and of the principles that govern this distribution. 
Prerequisites: Biology 2401 and 2402 or equivalent.

4381 Special Topics. Selected topics in biology. (May be repeated once for credit when the topic varies.) 
Prerequisite: Junior standing.

4401 Ornithology (3-3). A study of the biology of birds, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas birds. 
Prerequisite: Biology 2402 or equivalent.

4402 Mammalogy (3-3). A study of the biology of mammals, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas mammals. 
Prerequisite: Biology 2402 or equivalent.

4404 Herpetology (3-3). A study of the amphibians and reptiles, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas amphibians and reptiles. 
Prerequisite: Biology 2402 or equivalent.

4412 Biological Oceanography (3-3). A study of marine organisms and the environment in which they are found. Particular emphasis will be given to the Gulf of Mexico.

4421 Developmental Biology (3-3). A study of the molecular and genetic mechanisms regulating the development of animals. Specific topics include gametogenesis, embryogenesis, and tissue development. Laboratory explores the development of various invertebrate and vertebrate model organisms and emphasizes the application of techniques used with these model systems. 
Prerequisites: Biology 3301 and 3403.

4423 General Physiology (3-3). An advanced course in fundamentals of vertebrate physiology emphasizing functions of molecular levels of activity. Laboratory exercises combine animal surgery, biochemical techniques, and electronic instrumentation. 
Prerequisites: Must have completed Biology 1480 and 2402, or Biology 1480 and Biology 2423, with a grade of “B” or better.

4435 Plant Taxonomy (3-3). Laboratory and field studies emphasize the use of a dichotomous key using flowering plants of the Concho Valley as topics of study, and recognition of the major families of flowering plants. Lecture emphasis is on current problems in plant taxonomy and systematics. (Credit may not be earned for this course and Range and Wildlife Management 4435.)

4441 Parasitology (3-3). A study of the anatomy, life cycles, ecology, diseases, diagnosis and treatment of protozoa, helminths, and arthropods parasitic in man. (Credit may not be earned for this course and Biology 5441.) 
Prerequisites: Credit for Biology 1480 and 2402, or 2423 and 2424.

4443 Invertebrate Zoology (3-3). A survey of major invertebrate phyla, with emphasis on the classes of Cnidarians, Annelids, Mollusks, Arthropods, and Echinoderms. Particular attention will be given to phylogenetic relationships and natural history. 
Prerequisite: Biology 2402 or equivalent.

4444 Vertebrate Zoology (3-3). An intensive study of vertebrate anatomy among the living groups from agnathans through mammals. The emphasis is on functional anatomy within the framework of vertebrate phylogeny. 
Prerequisites: Must have completed Biology 1480 and Biology 2402 with a grade of “B” or better.

4450 Molecular Biology (3-4). A study of the synthesis, function, and regulation of biologically important macromolecules (DNA, RNA, and proteins). Laboratory exercises are designed to develop skills with standard techniques in molecular biology such as electrophoresis, PCR, recombinant DNA technology, DNA sequencing, and bioinformatics. 
Prerequisites: Biology 3301 and 3403.

4451 Principles of Ecology (3-3). Examination of basic ecological concepts and principles of the ecosystem and biogeochemical cycles, with particular emphasis on the organization and energetics of populations at the species, interspecies, and community levels in aquatic and terrestrial environments. 
Prerequisites: Credit for Biology 1480 or equivalent and Mathematics 1302 or equivalent.
4480  Introduction to Biometry (3-2). An introduction to the application of statistics to biological research. This course will include an introduction to probability, sampling theory, and hypothesis testing. Emphasis will be on common statistical techniques for biological research.

Prerequisite: Credit for Biology 1480 or equivalent and Mathematics 1302 or equivalent.

Graduate Courses

*5301  Conservation Biology (3-0). Theory and practice of conservation biology with emphasis on the maintenance of species diversity, factors affecting extinction, genetic impacts of rarity, and practical management considerations, including design of reserves and captive breeding and release programs. Course meets concurrently with Biology 4301 but requires additional readings, papers, discussion, and/or presentations for graduate students.

Prerequisites: Biology 1480, 3301, or consent of instructor.

*5401  Ornithology (3-3). A study of the biology of birds, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas birds. Course meets concurrently with Biology 4401 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 2402 or equivalent. Permission of Graduate Advisor and Graduate Dean.

*5402  Mammalogy (3-3). A study of the biology of mammals, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas mammals. Course meets concurrently with Biology 4402 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 2402 or equivalent. Permission of Graduate Advisor and Graduate Dean.

*5404  Herpetology (3-3). A study of the biology of amphibians and reptiles, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas amphibians and reptiles. Course meets concurrently with Biology 4404 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 2402 or equivalent. Permission of Graduate Advisor and Graduate Dean.

*5421  Developmental Biology (3-3). A study of the molecular and genetic mechanisms regulating the development of animals. Specific topics include gametogenesis, embryogenesis, and tissue development. Laboratory explores the development of various invertebrate and vertebrate model organisms and emphasizes the application of techniques used with these model systems. Course meets concurrently with Biology 4421 but requires additional readings, papers, discussion, and/or presentations for graduate students.

Prerequisites: Biology 3301 and 3403.

*5423  General Physiology (3-3). An advanced course in fundamentals of vertebrate physiology emphasizing functions of molecular levels of activity. Laboratory exercises combine animal surgery, biochemical techniques, and electronic instrumentation. Course meets concurrently with Biology 4423 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 2402 and 2423 or consent of instructor. Permission of Graduate Advisor and Graduate Dean.

*5435  Plant Taxonomy (3-3). Laboratory and field studies emphasize the use of a dichotomous key using flowering plants of the Concho Valley as topics of study and recognition of the major families of flowering plants. Lecture emphasis is on current problems in plant taxonomy and systematics. (Credit for both RWM 4435 and Biology 5435 cannot be awarded.) Course meets concurrently with Biology 4435 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 1480 and 2402, or 2423 and 2424. Permission of Graduate Advisor and Graduate Dean.

*5441  Parasitology (3-3). A study of the anatomy, life cycles, ecology, diseases, diagnosis, and treatment of protozoa, helminths, and arthropods parasitic in man. Course meets concurrently with Biology 4441 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 1480 and 2402, or 2423 and 2424. Permission of Graduate Advisor and Graduate Dean.

*5443  Invertebrate Zoology (3-3). A survey of major invertebrate phyla with emphasis on the classes of Cnidarians, Annelida, Mollusks, Arthropods, and Enchinoderms. Particular attention will be given to phylogenetic relationships and natural history. Course meets concurrently with Biology 4443 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 2402 or equivalent. Permission of Graduate Advisor and Graduate Dean.

*5444  Vertebrate Zoology (3-3). An intensive study of the living groups of vertebrates from agnathans through mammals with emphasis on functional anatomy, phylogeny, and natural history. Laboratory will emphasize comparative vertebrate anatomy. Course meets concurrently with Biology 4444 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 2402 or equivalent. Permission of Graduate Advisor and Graduate Dean.

*5450  Molecular Biology (3-4). A study of the synthesis, function, and regulation of biologically important macromolecules (DNA, RNA, and proteins). Laboratory exercises are designed to develop skills with standard techniques in molecular biology such as electrophoresis, PCR, recombinant DNA technology, DNA sequencing, and bioinformatics. Course meets concurrently with Biology 4450 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 3301 and 3403. Permission of Graduate Advisor and Graduate Dean.

6171  Seminar in Science Teaching (1-0). Weekly seminar will involve discussion of current methods of teaching in the life sciences. Students will also gain practical experience as group facilitators in one of the lecture sections of Biology 1480. Must have permission of instructor to enroll.

6181  Seminar (1-0). A review of the literature and current research in various biological fields. (May be repeated once for credit when topic varies.)
6191, 6291, 6391 Research. Individual research problems. (May be repeated to a total of six semester hours credit.) Approval from the Chair of the Department is required prior to enrollment.

6301 Biometrics and Experimental Design (3-0). An examination of statistical methods used in biological research. Emphasis will be on the application of statistical procedures and the design of experiments. This course will include an overview of more complex statistical procedures including multivariate methods, randomization tests, and resampling techniques. Prerequisite: Biology 4480 or equivalent.

6302 Advanced Biology (3-0). A study of the basic principles of biology and levels of organization from the molecule to the community.

6304 Advanced Instructional Methods in Science Education (3-0). Addresses current teaching strategies, curriculum design, evaluation, and trends/issues in science education. Participants will explore a variety of topics relevant to the teaching and learning of science in the secondary and post-secondary classroom.

6330 Scientific Writing (3-0). The study and practice of all aspects of scientific writing skills. This will include the preparation and critical review of manuscripts, notes, abstracts, grant applications, reports and research presentations.

6342 Advanced Genetics (3-0). The study of recent advances in genetics with an emphasis on modern methods of analysis and applications such as genetic testing, gene therapy, genetic engineering, and forensic genetics. Prerequisite: Biology 3301 or equivalent.

6351 Evolutionary Ecology (3-0). An examination of theoretical models and empirical studies of life history and foraging strategies, competition, predation, mate choice, parental care, community structure, and other topics in ecology.

6353 Limnology (2-3). An examination of the physical-biological interactions in aquatic ecosystems. Emphasis will be placed upon the composition, variation, and dynamics of fresh water communities.

6354 Physiological Ecology (3-0). A comparative study of the anatomical and physiological adaptations associated with thermoregulation, food, water, and oxygen deprivation. Problems related to adaptation and the maintenance of homeostasis will be stressed.

6381 Special Topics (3-0). Selected topics in advanced biology. (May be repeated once for credit when topic varies.)

6399 Thesis. A total of six hours is required for thesis. This course must be repeated once. Students have the option of enrolling in Biology 6699 for two separate semesters in order to fulfill the six hour thesis requirement.

6411 Microbial Ecology (3-3). A study of the interrelationships of microorganisms in nature and their impact on macroorganisms. Topics will include but not be limited to antibiosis, biofilm formation, co-evolution, normal microbial flora of macroorganisms, competition, commensalism, succession, extreme environments, and growth rate. The laboratory will emphasize the isolation and identification of microorganisms from various ecological niches.

6431 Principles of Molecular Systematics (3-3). A study of the basic principles of molecular systematics. This course will include the history and concepts of systematics as well as a review of selected current topics in the field. The laboratory will emphasize the understanding of methodologies used to address specific phylogenetic questions with molecular data.

6699 Thesis. A total of six hours is required for thesis credit. Students have the option of enrolling in Biology 6399 for two separate semesters in order to fulfill the six hour thesis requirement.

Clinical Laboratory Science (CLS)

Undergraduate Courses

4101 Laboratory Management. Fundamental concepts of management including principles of administration, organizational theory, goal-setting, leadership, decision-making, discipline, management styles, total quality management, and hospital and laboratory accrediting agencies.

4201 Body Fluids. The theory, practical application, and technical performance of routine urine examination. Collection, gross and microscopic examination, chemical analysis, and microbial testing required for other body fluids: cerebrospinal, synovial, pleural, pericardial, peritoneal, amniotic, seminal, and gastric. The correlation of test results to normal and abnormal physiology.

4303 Immunology. The theory, practical application, and technical performance of immunological and serological procedures used in diagnostic laboratory medicine. The correlation of test results to normal and abnormal physiology.

4601 Hematology. The theory, practical application, and technical performance of hematological and coagulation procedures. The correlation of hematological and coagulation testing results to normal and abnormal conditions of the blood.

4605 Clinical Chemistry. The theory, practical application, and technical performance of chemical procedures. Principles of instrumentation, quality control, and data processing. The correlation of chemical testing results to normal and abnormal physiology.

4607 Clinical Microbiology. The theory, practical application, and technical performance of microbiological procedures: proper cultivation, isolation, identification, antibiotic sensitivity patterns, and medical significance of pathogenic bacteria, parasites, fungi, and viruses. The correlation of test results with clinical conditions.

4609 Immunohematology. The theory, practical application and technical performance of blood bank procedures required for transfusion of blood and blood components and for handling and storage of blood components. The correlation of test results to normal and abnormal physiology.
Border and Homeland Security

College of Arts and Sciences:
Department of Security Studies and Criminal Justice

Bachelor of Border Security (B.B.S.)
Border Security
(124 semester hours)

The Bachelor in Border Security (B.B.S.) degree is meant to increase students’ awareness and understanding of current issues in Border Security within the wider realm of Homeland Security. The courses will increase the students’ critical thinking and analytic skills across the diverse fields of Criminal Justice, Criminology, Emergency Management, and associated legal issues.

Academic Major

AU-ABC Partnership

The B.B.S. degree has been approved by Air University to be included in the AU-ABC program. Degrees in the AU-ABC program allow students to transfer all 64 credit hours of their Associate of Applied Science Degree from CCAF into the course requirements. Since the B.B.S. requires 124 SCH and all 64 hours from the CCAF degree will be used, the student is only required to complete an additional 60 SCH to complete the B.B.S. degree.

The Office of Admissions, in conjunction with the Department of Security Studies and Criminal Justice, will make an exception to standard policy with regard to Community College of the Air Force (CCAF) credits for a CCAF degree-holder. All credits from CCAF associate’s degrees will be accepted and applied toward your degree plan. However, should you choose to change your degree plan to a degree other than those specified below, the transfer credits originally accepted and applied may be revoked. If a CCAF degree-holder has additional college credits beyond the basic CCAF A.A.S.
degree, ASU may accept those as well, over and above the stated maximum number of transfer credit hours (66) that may apply toward a degree plan. Again, exception to standard ASU policy will be retracted if you later choose a degree plan other than specified below.

- B.B.S. in Border Security
- B.C.C.S.S. in Cultural Competence and Security Studies
- B.C.F.S.S. in Cultural Fluency and Security Studies
- B.I.S.S.A. in Intelligence, Security Studies, and Analysis

*Course substitutions are not allowed in this certificate.*

**Undergraduate Certificates Available in Border Security**

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

**Certificate - Crime and Border Security Studies**

(12 SCH required)

- BOR 3304 Transnational Crime
- BOR 3306 International Drug Trafficking
- BOR 3308 International Human Trafficking
- BOR 4310 Maritime Security

**Certificate - Cybersecurity**

(12 SCH required)

- BOR 3307 Introduction to Cybersecurity
- BOR 3309 Information Security and Protection
- BOR 4301 Critical Communications Infrastructure
- BOR 4302 Space Imagery and Security

**Certificate - Emergency Management**

(12 SCH required) *

- BOR 3322 Weapons of Mass Destruction
- BOR 4301 Critical Communications Infrastructure
- BOR 4330 Disaster Preparedness and Emergency Planning
- BOR 4351 Critical Infrastructure Protection

**Certificate - Terrorism and Counter-Terrorism Studies**

(12 SCH required)

- BOR 3320 History of Terrorism
- BOR 3322 Weapons of Mass Destruction
- BOR 4321 Trends in Terrorism and Counter-Terrorism
- BOR 4330 Disaster Preparedness and Emergency Planning
Border and Homeland Security

Graduate Program

Master of Science (M.S.)
Homeland Security

The Master of Science in Homeland Security is a distinctive online degree addressing the growing needs of Homeland Security and Law Enforcement personnel who face an ever changing world of transnational crime and terrorism. It incorporates theoretical and practical studies of the key fields of critical infrastructure, intelligence, terrorism, counter-terrorism, law, and associated constitutional issues and emergency management as they are applicable to the field of Homeland Security and specifically those concerns associated with border issues. The Master of Science in Homeland Security degree is open to all those with Bachelor’s degrees, and is especially appropriate to those holding degrees in related subjects, such as criminal justice, law enforcement, emergency management, criminology, and related fields. The program consists of 15 semester hours of core courses, 18 hours of electives, and a 3 semester hour capstone course to tie together all aspects of a student’s program.

Admission Requirements

All applicants for the Master of Science in Homeland Security program must hold a bachelor’s degree from an accredited college or university. All potential graduate students are evaluated on an individual basis. All potential graduate students must submit all related materials requested in the evaluation criteria. The evaluation criteria include the following:

- Undergraduate academic record (transcripts of all undergraduate course work);
- 2.75 undergraduate GPA or 3.00 in the last 60 hours of undergraduate course work;
- At least two letters of recommendation;
- An essay of no more than 750 words regarding your opinion of the single most important challenge to U.S. homeland security written in endnote or footnote format. Outside sources may be used.

Course Descriptions

Border Security (BOR)

Undergraduate Courses

3101 Introduction to Homeland Security (1-0). Students focus on a comprehensive, up-to-date overview of homeland security from an all-hazards perspective. They examine threats to homeland security, including natural and technological disasters, as well as intentional threats of domestic and international terrorism, including weapons of mass destruction. The processes whereby strategic intelligence is gathered and disseminated are analyzed and accompanied with practical assignments where students gather and assess open-source and subscription open-source intelligence on one topic of their choice. This project is presented along with analysis and recommendations within a class portfolio context. Students review the roles and responsibilities of government agencies, non-government organizations, and individual citizens in homeland security. (Credit may not be earned for this course and Border Security 3301.)

3301 Studies in Homeland Security (3-0). This course introduces the student to the field of Border Security Studies. Students focus on a comprehensive, up-to-date overview of border security from an all-hazards perspective. Border security is viewed as a fundamental component of Homeland Security, and as such students examine a wide variety of threats to the homeland. This course incorporates the concepts of critical infrastructure, gathering and analysis of strategic intelligence, and develops the student’s technical writing skills. Students review the roles and responsibilities of government agencies, non-government organizations, and individual citizens in homeland security. (Credit may not be earned for this course and Border Security 3101 or Criminal Justice 3301.)

3304 Transnational Crime (3-0). This course differentiates the historical and contemporary patterns, modus operandi, capabilities, and vulnerabilities of transnational criminals and organizations. Course content includes a review of the contemporary literature of South American, Mexican, Asian, European, and African criminal enterprises, traditional organized crime, outlaw motorcycle gangs, and transnational criminal enterprises. In this seminar course the student will conduct directed research on a transnational crime topic and present the results of that research to the class. (Credit may not be earned for this course and Criminal Justice 3304.)

3305 Perspectives on Crime in America (3-0). An intensive examination of American crime problems in historical perspective. Through the lens of various perspectives regarding the cause and prevention of crime, the course explores the social and public factors affecting crime, the divergent trends in criminal behavior, and the social characteristics of specific types of criminal deviance. (Credit may not be earned for this course and Criminal Justice 3305.)

3306 International Drug Trafficking (3-0). This course is an in-depth study of the epidemic of drug abuse and its association with crime. The course encompasses all aspects of both legal and illegal drug abuse, pharmacology, gang activity, youth, violence, and behavioral pathology. It will also provide a robust examination of public policy issues associated with resolving the national drug control issue, drug trafficking, trends towards decriminalization/legalization, and law enforcement response. Students will have the opportunity to discuss contemporary drug-related issues of the day related to enforcement, medical treatment, harm reduction, or educational responses. Professor directed research in any of these drug policy issue areas will close out the course, enabling students to apply knowledge gained from the course to formulate intelligently their own opinions to develop possible societal solutions to this important national policy crisis. (Credit may not be earned for this course and Criminal Justice 3306.)

3307 Introduction to Cybersecurity (3-0). This course introduces students to the wide range of modern communications technologies. Use of these technologies by government and business entities for intelligence gathering, their limitations, and vulnerabilities are introduced to students. An overview of the history of computer hacking is covered. Additionally, a brief overview of law and policy concerning cyber communications are discussed beginning with the National Security Act of 1947.
Border and Homeland Security

3308 International Human Trafficking (3-0). This course distinguishes between various types of human trafficking; provides an overview of the history of human trafficking and counterstrategies; discusses the causes and consequences of human trafficking; and critically assesses the achievements of counterstrategies devised and implemented by governments, international organizations, and private actors. This is a writing intensive course in which the student will perform directed research on topics related to human trafficking. (Credit may not be earned for this course and Criminal Justice 3308.)

3309 Information Security and Protection (3-0). This course prepares students to assess the security needs of computer and network systems, recommend safeguard solutions, and manage the implementation and maintenance of security devices, systems, and procedures. Reviews of past hacking, criminal, and terrorist (state and non-state) attacks on information networks are a component of this course.

3312 Criminal Justice Administration (3-0). This course surveys the managerial and organizational philosophies and principles available to criminal justice administrations. It explores the strengths and weaknesses of various practices used to organize and manage personnel, define operational procedures, and determine essential functions within policing, judicial, and corrections agencies. (Credit may not be earned for this course and Criminal Justice 3312.)

3320 History of Terrorism (3-0). Students examine the phenomena of terrorism, counterterrorism, and the associated violence from a historical perspective with a focus on terrorism impacting America. Students describe the social context of terrorism as it relates to the actions of various terrorist groups, how terrorism appears to be a war fought on a different level by a set of different rules, and the emergence of leaderless terrorism (a loose network of groups with common goals apparently acting in isolation towards similar ends). Students conclude the course with discussions on fighting terrorism in the United States, including the potential problems of loss of civil liberties and other obstacles to counterterrorism. (Credit may not be earned for this course and Criminal Justice 3320.)

3322 Weapons of Mass Destruction (3-0). This course for the non-scientist is a study of chemical, biological, and radiological science involved in the different forms of weapons of mass destruction. Identification of critical infrastructure and the associated threats are analyzed. The course covers topics of basic science, treatment, and short- and long-term effects, among other issues central to understanding hostile WMD agents.

3340 Legal and Constitutional Issues in Homeland Security (3-0). Students receive an in-depth overview of laws, policy, strategy, organization, and plans for dealing with various natural, accidental and premeditated threats to homeland security. Students review the respective and relative roles and responsibilities of government agencies, non-government organizations, and individual citizens for U.S. national security. Students discuss various policy and strategy issues, including balancing security and civil liberties and information sharing and protection and the USA Patriot Act. (Credit may not be earned for this course and Criminal Justice 3340.)

3343 International Law (3-0). Introduces the student to the basic principles and practices of international law and legal regimes. Examines traditional and emerging topics in the field: human rights, the Law of the Sea, the Law of Armed Conflict, War Crimes Tribunals, and the International Criminal Court.

4071 Internship (1-6 SCH). This course is designed to familiarize students with the application of knowledge gained in course work and with operations and problems in the field of border and homeland security. Students must be pursuing a degree in Border Security. Approval of instructor is required.

4191, 4291, 4391 Research. Individual research problems for superior students majoring in homeland and border security. May be repeated for a total of six semester hours credit.

Prerequisites: Junior standing. Approval from the Chair of the Department is required prior to enrollment.

4301 Critical Communications Infrastructure (3-0). This course focuses on how cyber communication systems function, their interconnectivity, and vulnerabilities. The course materials focus on processes and policies associated with hardening and protecting critical communications infrastructure from natural hazards, potential terrorist threats, and attacks associated with modern warfare.

4302 Space Imagery and Security (3-0). This capstone course of the Cybersecurity Track discusses the use of space-based assets to support the Homeland Security effort. Included are the limitations of the technologies, available commercial technologies, and the discussion of the legal, moral, and political issues surrounding the use of these technologies in a democratic society. Students will design and present a project as part of this course.

4310 Maritime Security (3-0). This course provides students with a broad knowledge of port and coastal security issues and the efforts necessary to protect critical infrastructure. It examines the critical importance of ports of entry (ocean, land, and air) to trade and their vulnerability to disruption and attack. It also examines several contemporary issues, including the importance of sea borne trade to the North American and United State economies, the vulnerabilities of ports to disruption and asymmetric attacks, critical port security incidents, and defensive measures to protect ports from disruption or asymmetric attack. Topics also include immigration, an overview of the federal, state and local organizations involved in port and coastal security, and non-U.S. approaches to border and coastal security.

4321 Trends in Terrorism and Counterterrorism (3-0). This is a seminar course in which students examine new and growing threats including: narco-terrorism, environmental terrorism, terrorist recruitment methods, genomic terrorism, and threats to critical infrastructure. Students progress from analysis of past terrorism to present and future responses by national and international counterterrorism. Students consider historical defenses as well as new concepts and innovations for the prevention and mitigation of terrorist attacks. (Credit may not be earned for this course and Criminal Justice 4321.)

Prerequisite: Border Security 3320 or Criminal Justice 3320.

4330 Disaster Preparedness and Emergency Planning (3-0). Effective emergency planning is the key to surviving natural and man-made disasters. Risk analysis and the formulation of a comprehensive plan, followed by a vigorous and continuing testing program, are essential elements to surviving an emergency. Topics covered include threat assessment, risk analysis, formulating a response plan, staffing an emergency operations team, and planning responses to disaster scenarios provide by the professor.
4341 International Police Development (3-0). In this course, the student studies the historical development of police in countries outside of the U.S. Particularly, the emphasis will be on police development instituted by occupying and/or intervention forces assigned to a country for purposes of establishing post conflict peacekeeping and stability operations. Analysis of ongoing efforts to introduce Americanized concepts of effective policing in foreign countries concludes this study. (Credit may not be earned for this course and Criminal Justice 4341.)

4344 Terrorism Law (3-0). This survey course addresses the legal and policy lessons from the past regarding the War on Terrorism. The course examines definition of domestic and international conflict; its modalities (e.g., armed conflict, terrorism, economic coercion, and environmental degradation); types of threats (e.g., nuclear, biological, and chemical); the public law of conflict management; and the U.S. response to external conflict within the confines of domestic and international legal principles recognized by the United States (including constitutional issues.)

4345 Federal Immigration Law (3-0). In this seminar course the student is introduced to Federal Laws dealing with Border Security issues, in particular, U.S.C. Title 8, Title 18, Title 19, Title 21, and Title 31. Overviews of the laws, coupled with discussion of their implementation by the federal courts, are interactively discussed by the student and professor. (Credit may not be earned for this course and Criminal Justice 4345.)

4351 Critical Infrastructure Protection (3-0). The evolution and principles of critical infrastructure, in both the private and public sectors, vital to their community, state, or the nation are identified. Risk assessments are performed and students address risk mitigation plans and appropriate countermeasures to a variety of threats from an all-hazards perspective. Includes instruction in homeland security policy, critical infrastructure policy, threat assessment, physical security, personnel security, operational security, contingency planning, case analyses of specific industries and systems, redundancy planning, emergency and disaster planning, security systems, and intelligence operations.

4354 Professionalism and Ethics in Criminal Justice Agencies (3-0). The study of theories and practices in areas of legality, morality, values, and ethics as they pertain to criminal justice. Included will be such topics as police corruption, brutality, and methods of dealing with such practices, as well as the concept of profession and professional conduct. This course is for Border Security majors and minors only. (Credit may not be earned for this course and for Criminal Justice 4354.)

Prerequisite: Senior status.

4381 Special Topics (3-0). A seminar in selected homeland and border security topics. May be repeated once for credit when topic varies.

4389 Seminar in Homeland and Border Security (3-0). This capstone course ties together the wide-ranging issues associated in the discipline of Homeland Security, focusing students in conducting research into issues associated with securing the nation’s borders from a variety of transnational threats in a dynamic environment.

Prerequisite: Senior status.

Graduate Courses

6191, 6291, 6391 Research. Individual research problems for superior students in homeland security. May be repeated for a total of six semester hours credit.

Prerequisite: Approval from the Chair of the Department is required prior to enrollment.
Border and Homeland Security

6307 Applied Statistics (3-0). Statistical methods with application to intelligence, homeland security, criminal justice, and other security-related interests. The course formalizes key data that can be numerically represented in a way that permits useful analysis and application of the results. (Credit may not be earned for this course and ISSA 6306 or CRUJ 6307.)

6310 Seminar in Port Security and Maritime Defense (3-0). Maritime ports of entry and defense of the U.S. coastal waters are the primary focus of this seminar. Students evaluate the vulnerability of maritime ports to disruption and attack. Applying risk management theory, students critically analyze current efforts to identify the vulnerabilities of ports and their associated transportation infrastructure. Efforts to provide security along U.S. coasts are discussed from a historical perspective through the post-9/11 era.

6311 Transportation Security (3-0). This course examines current and future threats to U.S. and international transportation systems and discusses methods and technologies designed to confront these threats. Coverage of relevant security issues relating to transportation by sea, land, pipeline, and air will be included.

6320 Studies in Terrorism (3-0). This course discusses the politics of terrorism and counterterrorism in depth. Theoretical approaches to explain terrorism as a tactic are analyzed. Individual, group, and state terrorism are reviewed from a historical and political context. Students conduct an in-depth analysis of the U.S. response to the terrorist attacks of 9/11, the advent of the USA PATRIOT ACT and its impact on civil liberties, and the development of the Department of Homeland Security as a terrorist mitigation strategy. (Credit may not be earned for this course and Criminal Justice 6320.)

6321 Seminar in Terrorism and Counterterrorism (3-0). This seminar course applies the materials covered in CRUJ/BOR 6320 to a series of professor-directed discussions in which students examine new and growing terrorist threats worldwide. Subject matter varies based on current events and trends. Students use open source intelligence to conduct active analyses of terrorism events and develop potential responses by national and international counter-terrorism forces. (Credit may not be earned for this course and Criminal Justice 6321.)

Prerequisite: Criminal Justice 6320 or Border Security 6320.

6322 Studies in Weapons of Mass Destruction Hazards and Responses (3-0). This course for the non-scientist is a study of chemical, biological, radiological, and nuclear hazards associated with different forms of weapons of mass destruction as well as the routine manufacturing and transportation of these components to which we are exposed daily. The means by which disaster management specialists prepare for accidents and incidents involving these materials are covered in depth. Potential short and long-term impacts of incidents and accidents are evaluated.

6330 Studies in Disaster Preparedness (3-0). Risk management theory, disaster management theory, and FEMA strategies are applied to reconstructions of past natural and man-made disasters. Students are tasked with carrying out intensive reevaluation of past efforts and development of enhancements that would improve future responses.

6331 Seminar in Emergency Planning (3-0). Effective emergency planning is the key to surviving natural and man-made disasters. Topics covered include threat identification and assessment, risk analysis, identification and protection of critical infrastructure, gathering and dissemination of intelligence, evaluation of open source intelligence, and utilization/manipulation of public media to enhance citizen response. A thorough understanding of chemical, biological, radiological, and nuclear hazards is essential for this course. Knowledge of risk management theory, disaster management theory, and a familiarity with FEMA response scenarios are necessary for students taking this course.

Prerequisites: Border Security 6322 and Border Security 6330.

6334 Research Methods in Security Studies (3-0). Research methods with application to intelligence, homeland security, criminal justice, and other security-related interests. (Credit may not be earned for this course and ISSA 6305, SEC 6305, or CRUJ 6334.)

6335 Data Mining (3-0). A course in statistics particularly geared to pattern analysis, information continuity, and data recovery. Inferential and descriptive techniques for decision analysis are included. This course uses a variety of data bases associated with business, census, terrorism, and crime statistics from which students conduct research projects. Personal computers with fundamental software programs such as Excel, SPSS or SAS are necessary for students to complete this course.

6340 Constitutional Issues in Homeland Security (3-0). Taking Constitutional Law to the next level, students conduct in-depth analysis of court decisions that respond to ongoing efforts to address legislative efforts to secure the homeland in the face of a continued international terrorist threat. Additionally, students evaluate the legal basis for federal response to natural and man-made disasters and the impact of these responses to local sovereignty. Students taking this course are required to write extensive legal briefs. (Credit may not be earned for this course and Criminal Justice 6340.)

6341 Advanced Studies in International Police Development (3-0). Students use the comparative method to conduct critical analyses of ongoing efforts to develop police in other countries by the U.S., EU, UN, and other agencies. The role of military and non-military forces, coupled with their interaction with NGOs and local agencies, is evaluated. Developing measurement tools to use in conducting success evaluation is a key part of this course. (Credit may not be earned for this course and Criminal Justice 6341.)

6342 Cybersecurity and Constitutional Issues (3-0). This course discusses telecommunications law and policy as it applies to the rapidly evolving technologies and capabilities of the internet, telecommunications, satellite and imagery systems available for commercial and government exploitation. The legal implications of a global internet, resources available to law enforcement, treaties, etc. are reviewed from an international perspective including processes by which international cooperation is gained to deal with cyber threats.

6343 Seminar in International Law (3-0). Students discuss advanced principles and practices of international law and legal regimes. The course examines traditional and emerging topics in the field: human rights, the Law of the Sea, the Law of Armed Conflict, War Crimes Tribunals, and the International Criminal Court.

6344 Terrorism Law - Theory and Application (3-0). This survey course addresses the definition of domestic and international conflict; its modalities (e.g., armed conflict, terrorism, economic coercion, and environmental degradation); types of threats (e.g., nuclear, biological, and chemical); the public law of conflict management; and the U.S. response to external conflict within the confines of domestic and international legal principles recognized by the United States (including constitutional issues). The course has an interdisciplinary character but is ultimately guided by the international and domestic rule of law.
6345 Seminar in Federal Immigration Law (3-0). In this seminar course, the student analyzes Federal Immigration Laws dealing with border security issues, in particular U.S.C Title 8, Title 18, Title 19, Title 21, and Title 31. Students and the professor carry out active discussions of federal court and law enforcement agency implementation of immigration law (or lack thereof) and the associated domestic and international political ramifications of this implementation (or lack thereof). Students taking this course are expected to be able to produce properly formatted legal briefs and apply that knowledge to development of policy briefs concerning federal immigration law.

6350 Cyber Vulnerability (3-0). Students discuss at length the reliability and vulnerability of computer based technologies, biometrics, and security technologies. Included are case analyses of external (hacking) and internal (man-in-the-middle) attacks on government and private communications systems.

6351 Emerging Technologies in Homeland Security (3-0). In this course a variety of cutting edge technologies associated with Homeland Security are discussed. The technologies are analyzed and evaluated for functionality, usefulness, cost-effectiveness, and reliability. Depending upon the technologies analyzed, students may be required to participate in field research.

6355 National Security Policy (3-0). This course presents an overview of security policy issues as fundamental components of foreign policy. The course takes a narrow view of security policy and examines the topic from the direction of securing America’s borders. The course combines historical description of security policy development, comparative analysis, and theoretical examination.

6371 Internship. This course is designed to familiarize students with the application of knowledge gained in course work and with operations and problems in the field of border and homeland security. Students must be pursuing a master’s degree in Border Security. Approval of instructor is required.

6381 Special Topics (3-0). A seminar in selected homeland and border security topics. May be repeated once for credit when topic varies.

6387 Seminar in Criminal Justice Agency Ethics (3-0). The study of criminal justice without the concurrent study of justice is simply criminal. This course exposes students to the ethics (and lack thereof) of criminal justice agencies. Scenario evaluation, active discussion, and theoretically based argumentation and decision-making are all key components of this seminar. (Credit may not be earned for this course and Criminal Justice 6387.)

6389 Capstone Seminar in Border Security (3-0). This course is a research seminar in which students will develop skills in locating, extracting, evaluating, and synthesizing information acquired from their prior courses. Students write a publishable, article-length, paper based on independent research. Students may also be expected to supplement their research with other readings under the direction of the professor.
The College of Business at Angelo State University does not offer a degree in “business” per se. The following business-oriented majors are offered by the College and are found elsewhere in this catalog.

**Accounting**
- Integrated Accounting and Professional Accountancy B.B.A./M.PAc.

**Finance with Specialization Areas**
- Corporate Finance
- Personal Financial Planning
- Real Estate

**International Business**
- Integrated International Business and Business Administration B.B.A./M.B.A.

**Management**
- Integrated Management and Business Administration B.B.A./M.B.A.

**Management Information Systems**
- Integrated Management Information Systems and Business Administration B.B.A./M.B.A.

**Marketing**
- Integrated Marketing and Business Administration B.B.A./M.B.A.

Master of Business Administration (M.B.A.)

Business Administration

The Master of Business Administration offered by the Department of Management and Marketing is a broad degree program that has as its objective the development and enhancement of knowledge valuable to executives, administrators, and managers in both the profit and nonprofit sectors of the economy.

Graduates of the M.B.A. program from the Department of Management and Marketing do not have a major in any specific discipline in business. Students are expected to complete a series of courses at the graduate level in accounting, marketing, management, finance, economics, decision analysis, legal and social environment, research methods, operations management and information systems. International business and business ethics are integrated throughout the M.B.A. curriculum.

The educational emphasis of the M.B.A. program is on organizational decision making. The program is appropriate for those pursuing or seeking a career at the executive level in both public and private organizations.

Admission Requirements *

The M.B.A. program in the Department of Management and Marketing is open to all applicants who hold the baccalaureate degree regardless of the field of undergraduate study. The program seeks students with diverse undergraduate backgrounds including the sciences, liberal arts, humanities, business, engineering, and education.

Applicants to the M.B.A. program may submit either GMAT or GRE test scores. Faculty recommend a minimum GPA of 3.00 and a minimum GMAT score of 500 (or equivalent GRE) for regular admission.

Students admitted to the M.B.A. program in the Department of Management and Marketing must complete the following undergraduate courses or their equivalents if these courses have not previously been completed within the last seven years with a grade of “B” or better. These courses are for leveling purposes only. Credit for these courses will not count toward the 39 hour program requirement.

- Accounting 2301 and 2302 or Accounting 5191 and 5192
- Economics 2301 and 2302, or Economics 5191 or Economics 6300
- Finance 3361 or Finance 5191
- Mathematics 1325
- Management 3300 or Management 5191
- Management Science 2331 (statistics) or Management Science 5191
- Marketing 3321 or Marketing 5191

Graduate students must complete the accounting courses listed above before taking the graduate-level accounting course, the undergraduate statistics course before the graduate-level decision analysis course, and so on. Concurrent enrollment in both graduate-level and undergraduate-level courses is permitted, as long as prerequisites are satisfied.

*(continued on next page)*
The M.B.A. program in the Department of Management and Marketing consists of 39 semester credit hours of graduate courses normally taken in the order listed below. It is possible to pursue the degree on a full-time basis; however, almost all of the courses are offered during the evening hours only. Graduate courses must be at the 6000 level; undergraduate courses may not be used to satisfy the requirements for the M.B.A. program.

### Course sequencing:

#### Year I

**Fall**
- MIS 6313 Management of Information Systems ................................................................. 3
- MSC 6301 Decision Analysis .................................................................................................. 3

**Spring**
- BA 6303 Research Methods .................................................................................................. 3
- ECO 6311 Managerial Economics .......................................................................................... 3

**Summer**
- MGT 6311 Organizational Behavior .......................................................................................... 3
- Elective * ........................................................................................................................................ 3

#### Year 2

**Fall**
- ACC 6301 Advanced Management Accounting ........................................................................ 3
- MKT 6301 Marketing Management ........................................................................................... 3

**Spring**
- FIN 6301 Financial Management ............................................................................................... 3
- MGT 6312 Operations Management ............................................................................................ 3

**Summer**
- BA 6302 Legal and Social Environment of Business ................................................................... 3
- Elective * ........................................................................................................................................ 3

#### Year 3

**Fall or Spring**
- MGT 6313 ** Corporate Strategies and Policies ........................................................................ 3

### Course load.

Part-time students are expected to enroll in six hours (two courses) per semester. In addition, part-time students are expected to enroll in one course per summer term. Written permission from the M.B.A. advisor is required in order to exceed these totals. Because of the intensity and level of the course work required, such permission will rarely be granted.

Full-time students will follow these same guidelines except that the expected load for each semester (except the final semester) is four courses or 12 semester hours.

### Course waivers.

Students may waive any required course in the M.B.A. curriculum except Management 6313. A graduate-level elective must be substituted for each course waived. Criteria for course waiver(s) include:

- having already completed at least nine semester hours of course work in the subject area of the requested waiver, i.e., economics or accounting;
- a grade point average of at least 3.00 in the courses used for the waiver request;
- at least one of the courses used as the basis of the waiver request must be at the junior level or higher; and
- courses used as the basis for the waiver request must have been completed no more than ten years before enrollment in the M.B.A. program.

An elective must be substituted for each course waiver in order to complete the 39 semester-hour minimum requirement.

All waivers must be obtained in writing from the graduate advisor during the first semester of enrollment.

---

* Electives are to be taken from the Department of Management and Marketing; Department of Accounting, Economics and Finance; or courses from Political Science and Security Studies. Electives taken outside these areas must be given prior approval in writing by the graduate advisor. Courses with International Business related topics are highly recommended.

** The IVY MBA test must be taken in conjunction with this course as a graduation requirement.
### Course Descriptions

#### Business Administration (BA)

**Graduate Courses**

6302  **Legal and Social Environment of Business (3-0).** Analysis of the role of business in contemporary society with emphasis on the legal, social, political, and regulatory factors affecting business.

6303  **Research Methods (3-0).** Collection, analysis, and interpretation of both primary and secondary data for business decisions. 
**Prerequisite:** Management Science 6301.

#### International Business (IBUS)

**Graduate Courses**

6314  **Multinational Management Strategy (3-0).** An advanced study of global strategies and management practices as compared with those in the European Union. Special focus will be given to creating a single, seamless organization capable of operating in a dynamic international environment. This course is usually taught off-campus as part of the International Studies Program.

6321  **International Business (3-0).** International business environmental frameworks; trade and investment theories and institutions; multinational corporation policy, strategy, functional management, operations, and concerns.

#### Management (MGT)

**Graduate Courses**

*5191  **Independent Study in Organizational Behavior (1-0).** A specialized on-line course in Organizational Behavior which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail. 
**Prerequisite:** Permission of the Instructor.

6311  **Organizational Behavior (3-0).** A study of people in an organizational setting. Attention is given to behavioral theory, empirically derived knowledge, and application of this theory and knowledge. Students will participate in solving organizational problems through cases, experiential exercises, and/or simulations.

6312  **Operations Management (3-0).** A case-oriented examination of operations management. Topics include inventory management, MRP production planning and scheduling, plant layout, process analysis, material flows, quality, project management, and service operations. Consideration of Japanese manufacturing techniques. 
**Prerequisite:** Management Science 6301.

6313  **Corporate Strategies and Policies (3-0).** An advanced case course dealing with the wide range of management problems involving policy and strategy decisions faced by executives in both domestic and international markets. A capstone course that requires integration of all materials covered in the MBA curriculum in the policy formulation process. 
**Prerequisite:** 24 graduate hours or final long semester of enrollment in the MBA program.

6322  **Government and American Business (3-0).** An examination of the interplay between American national, state, and local governments and American business. Topics of consideration include the historical changes in the relationship of government and business, the role of private enterprise in the federal grant-in-aid process, and the effect of government spending on business. Special focus will be given to government regulation of business. (Credit may not be earned for this course and Political Science 6322.)

6332  **Technology Commercialization and Management (3-0).** The study of the management techniques relating to the practical economic development of scientific and technological knowledge.

6371  **Internship.** A structured assignment with a firm or agency. Grading will be either pass or fail. May be repeated once for credit with permission.

6381  **Special Topics (3-0).** A course dealing with selected topics in management. (May be repeated once for credit when topic varies.)

6391  **Research.** A specialized course which may be directed reading or research for superior students. (May be repeated for credit when topic varies.)

#### Management Information Systems (MIS)

**Graduate Courses**

6313  **Management of Information Systems (3-0).** Covers the use of information technology to achieve competitive advantage, information technology and the organization, managing information assets, outsourcing, information technology operations and management, and information technology as a business.

---

* Credit for 5000 level business area courses may not be used for degree requirements.
Management Science (MSC)

Graduate Courses

*5191 Independent Study in Statistics (1-0). A specialized on-line course in Statistics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Decision Analysis (3-0). A study of statistical methodology and the application of statistics in business and economics. Includes descriptive and inferential techniques for decision analysis. Personal computers are used in analyzing decision data and presenting results.

6319 Forecasting Theory (3-0). The study of forecasting methods including exponential smoothing, decomposition, regression, and judgmental techniques. The use of forecasts in managerial planning and decision making.
Prerequisite: Management Science 6301 or consent of instructor.

Marketing (MKT)

Graduate Courses

*5191 Independent Study in Marketing (1-0). A specialized on-line course in Marketing which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Marketing Management (3-0). An analysis of the marketing management process for all types of organizations. Included are the topics of (1) planning marketing activities, (2) directing the implementation of the plans, and (3) controlling marketing plans.

Course descriptions for Accounting 6301, Economics 6311, and Finance 6301 may be found in the Accounting Section.

* Credit for 5000 level business area courses may not be used for degree requirements.
Undergraduate Programs

Bachelor of Science (B.S.)
Chemistry
(120 semester hours)

A minor must be taken in another academic field: biology, computer science, mathematics, or physics is recommended.

* Students may choose a specialization area with Biochemistry Emphasis.
** The student is expected to have completed two years of high school algebra and one-half year of high school trigonometry. If not, Mathematics 1561 should be completed as applicable before enrollment in Mathematics 2513.

Graduation Requirement for the Chemistry Major

Candidates for the Bachelor of Science in Chemistry are required to complete a Major Field Test (MFT) in Chemistry in order to be eligible for graduation. The Division of Extended Studies administers the MFT by appointment throughout the year. A student is eligible to take the MFT upon completion of all required chemistry credits or during the semester immediately prior to graduation. The exam score will be part of the student’s record.

Graduation Requirement for the Chemistry Major with Certification in Chemistry or Physical Science

Candidates for the Bachelor of Science in Chemistry who are seeking secondary teacher certification in physical science are required to complete the TExES physical science certification exam for physics/chemistry certification in order to be eligible for graduation. A student is eligible to take this exam upon completion of all required chemistry and physics credits or during the semester immediately prior to graduation. This exam is administered through the College of Education.

Candidates for the Bachelor of Science in Chemistry who are seeking secondary teacher certification in chemistry are required to complete the TExES chemistry certification exam in order to be eligible for graduation. A student is eligible to take this exam upon completion of all required chemistry credits or during the semester immediately prior to graduation. This exam is administered through the College of Education.

Pre-Medical and Pre-Dental Students

(Students planning to apply to medical or dental school)

A student interested in applying for admission to medical or dental school may major in any undergraduate discipline. Health professional school admission committees do not have a preference about an undergraduate major field or degree, so the student should select a major and degree plan consistent with career interests should medical or dental school degree plans not materialize. Selecting such a major, rather than a major in "Pre-Medicine" or "Pre-Dentistry", will provide the student with all course requirements for health professions school with an optional or alternative career choice as well.

Many health professions students major in Chemistry but majors in all fields are given equal consideration for admission to medical and dental schools. Students may pursue career options of medical technology in nursing by following the nursing degree program. However, the student must contact the Chairperson of the Health Professions Advisory Committee as soon as possible to discuss major field selection, and the student must work closely...
with this advisor to develop an academic program which will satisfy the requirements of both the major field and the professional schools to which the student wants to apply. Information concerning majors and admission requirements of health professions schools is available from this advisor, and regular student conferences with this advisor are essential.

### Pre-Physical Therapy

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy Program is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

## Course Descriptions

### Chemistry (CHEM)

#### Undergraduate Courses

1101, 1102/CHEM 1105, CHEM 1107 Elements of Chemistry Laboratory (0-2). Laboratory experiences to supplement Chemistry 1301 and 1302, respectively. Credit to be validated by credit in Chemistry 1301 and 1302.

Prerequisites: Chemistry 1301, 1302 respectively, or concurrent registration.

1301, 1302/CHEM 1305, CHEM 1307 Elements of Chemistry (3-0). A survey of the fundamentals of chemistry. An introduction to organic and physiological chemistry and a survey of the chemistry of environmental systems.

Prerequisite: Chemistry 1301 is to be taken before Chemistry 1302. May not be taken after completion of Chemistry 1412. Credit may not be applied to a major or minor in chemistry or biochemistry.
1407 Chemistry for the Health Professions (3-3). An introduction to General, Organic and Biological Chemistry with emphasis on the role of chemistry in health and illness. Intended for nurses and allied health professionals; open to others with permission of instructor. Effective fall 2011 credit may not be applied to a major or minor in chemistry.

1411, 1412/CHEM 1411, CHEM 1412 General Chemistry (3-3). Study of the fundamental laws and theories of chemistry, chemical nomenclature, chemical equilibrium, metals and non-metals and their compounds, introduction to nuclear chemistry and the quantum theory of structure.
Prerequisites: Students must have received a score of 580+ on the SAT, received a score of 26+ on the ACT, completed college algebra or completed Chemistry 1301 and 1101 in order to enroll in Chemistry 1411. Chemistry 1411 is to be completed before Chemistry 1412.

2153 Fundamentals of Organic Chemistry Laboratory (0-3). Required laboratory experiences to supplement Chemistry 2353. Effective fall 2011 credit may not be applied to a major or minor in chemistry.
Prerequisite: Chemistry 2353 or concurrent enrollment.

2353 Fundamentals of Organic Chemistry (3-0). A brief survey of organic chemistry. Structural theory and the influence of structure on properties of organic compounds are emphasized. (Credit may not be received for both this course and Chemistry 3351.) Effective fall 2011 credit may not be applied to a major or minor in chemistry.
Prerequisite: Chemistry 1301/1101 or 1411. Credit to be validated by credit in Chemistry 2153.

3151 Organic Chemistry Laboratory (0-3). Required laboratory experiences to supplement Chemistry 3351.
Prerequisite: Chemistry 3351 or concurrent registration.

3152 Organic Chemistry Laboratory (0-3). Required laboratory experiences to supplement Chemistry 3352.
Prerequisites: Chemistry 3352 or concurrent registration and Chemistry 3151.

3201 Using Chemical Literature (2-0). An introduction to the use of Chemical Abstracts, scientific journals, monographs, reference material and standard spectra. Literature search techniques are illustrated using descriptive chemistry.
Prerequisite: 19 hours of chemistry.

3262 Physical Chemistry Laboratory (0-6). Laboratory experiences to supplement Chemistry 3361, 3362. Credit to be validated by credit in Chemistry 3362.
Prerequisites: Chemistry 3421, Chemistry 3361, and Chemistry 3362 or concurrent registration therein.

3331 Fundamentals of Biochemistry (3-0). A brief survey of biomolecules and their metabolism. Application to animal nutrition is made. Effective fall 2011 credit may not be applied to a major or minor in chemistry.
Prerequisite: Chemistry 2353.

3351, 3352 Organic Chemistry (3-0). Principles of organic chemistry, including a study of both aliphatic and aromatic compounds. Study of structural theory and reaction mechanisms.
Prerequisites: Chemistry 1412, Chemistry 3351 is to be completed before Chemistry 3352. Credit to be validated by credit in Chemistry 3151 and 3152 respectively.

3361, 3362 Physical Chemistry (3-0). Laws, theories, and concepts of physical chemistry.
Prerequisites: Mathematics 2513 and Physics 1441 for Chemistry 3361 and Chemistry 3361 and Physics 2441 for Chemistry 3362. Chemistry 3361 must be taken before Chemistry 3362.

Prerequisites: Chemistry 1411, 1412.

4181 Seminar in Chemistry (1-0). Designed to encourage an exchange among chemistry majors and faculty members on selected topics.
Prerequisite: Chemistry 3201 or concurrent registration.

4191, 4291, 4391 Research. Individual research problems for superior students majoring in chemistry. (May be repeated to a total of six semester hours credit.)
Prerequisite: Chemistry 3421.

4233 Biochemistry Laboratory (0-6). A survey of the techniques and applications of molecular biology and biochemistry. Emphasis on current techniques and structure/function relationships of biological macro-molecules.
Prerequisites: Biology 3403, Chemistry 3352, and Chemistry 3361.

4331 Biochemistry (3-0). The chemistry of living organisms. Carbohydrates, lipids, proteins, vitamins, and related cellular constituents are considered.
Prerequisite: Chemistry 3352.

4332 Intermediary Metabolism (3-0). Coordinated examination of enzymatic processes in the living cell.
Prerequisite: Chemistry 4331.

4333 Biophysical Chemistry (3-0). This course presents an introductory development of classical thermodynamics and dynamics as it applies to equilibrium, kinetics, and the transport properties of biological molecules. Biophysical methods for characterizing biological macromolecules, such as light scattering, sedimentation, electrophoresis, and structure determination methods will be presented and discussed.
Prerequisites: Chemistry 3361, Chemistry 4331, and Mathematics 2513.

4351 Advanced Organic Chemistry (3-0). Principles of reaction mechanisms, structure, and spectroscopic analysis as applied to theoretical, industrial, or biochemical studies.

4521 Instrumental Analysis (3-6). An introduction to the theoretical and practical aspects of physiochemical methods of analysis, including optical and chromatographic techniques.
Prerequisites: Chemistry 3421 and Chemistry 3352.
**Chemistry**

### Graduate Courses

**CHEM 5233 Biochemistry Laboratory (0-6).** A survey of the techniques and applications of molecular biology and biochemistry. Emphasis on current techniques and structure/function relationships of biological macromolecules. Course meets concurrently with Chemistry 4233 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Biology 3403, Chemistry 3352, and 4331. Permission of Graduate Advisor and Graduate Dean.

**CHEM 5331 Biochemistry (3-0).** The chemistry of living organisms, carbohydrates, lipids, proteins, vitamins, and related cellular constituents are considered. Course meets concurrently with Chemistry 4331 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Chemistry 3352. Permission of Graduate Advisor and Graduate Dean.

**CHEM 5332 Intermediary Metabolism (3-0).** Coordinated examination of enzymatic processes in the living cell. Course meets concurrently with Chemistry 4332 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Chemistry 3352. Permission of Graduate Advisor and Graduate Dean.

**CHEM 5333 Biophysical Chemistry (3-0).** This course presents an introductory development of classical thermodynamics and dynamics as it applies to equilibrium, kinetics, and the transport properties of biological molecules. Biophysical methods for characterizing biological macromolecules, such as light scattering, sedimentation, electrophoresis, and structure determination methods will be presented and discussed. Course meets concurrently with Chemistry 4333 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Chemistry 3352 and Mathematics 2513 or concurrent registration. Chemistry 4331 is recommended. Permission of Graduate Advisor and Graduate Dean.

**CHEM 5521 Instrumental Analysis (3-6).** An introduction to the theoretical and practical aspects of physiochemical methods of analysis, including optical and chromatographic techniques. Course meets concurrently with Chemistry 4521 but requires additional readings, papers, discussions, and/or presentations for graduate students.

Prerequisites: Chemistry 2421 and 3352. Permission of Graduate Advisor and Graduate Dean.

**CHEM 6383 Selected Topics in Biochemistry (3-0).** Topics are chosen from such areas as intermediary metabolism, proteins, enzymes, physical biochemistry, or vitamins and hormones. (May be repeated once for credit when topic varies.)

* Up to 12 SCH of approved 5000-level chemistry courses may be taken for graduate credit by graduate students, with the written permission of the Chair of the Department of the graduate student’s major and the Dean of the College of Graduate Studies.
College of Health and Human Services:

Coaching, Sport, Recreation, and Fitness Administration

The Master of Education degree in Coaching, Sport, Recreation, and Fitness Administration in the Department of Kinesiology is designed to fill the needs of a wide variety of students. These students may potentially come from across the array of undergraduate majors who choose to seek entry into coaching, sport recreation, and fitness administration career fields. The program is designed to:

• Increase the knowledge and competencies of each graduate student in his/her chosen area of specialization.
• Foster a spirit of inquiry by encouraging original and independent thought.
• Acquaint each graduate student with techniques of reading, understanding, and performing research.
• Foster intellectual, professional, and personal development through a wide range of applied courses, activities, opportunities, and experiences.
• Provide developmental experiences in program design, program implementation, program promotion, and organizational communication.
• Develop professional oral and written communication skills.
• Encourage graduate students to become actively involved in their communities and professional fields.

This is a 36 semester credit hour program. Students are required to take:

• Required core courses, 12 semester credit hours,
• Option 1 or Option 2, 12 semester credit hours,
• Open electives courses for either option, 12 semester credit hours.

Instructional Delivery
The M.Ed. in Coaching, Sport, Recreation, and Fitness Administration degree program is not a purely on-line or classroom based format, but rather a blended format. Many courses utilize Blackboard as the course management platform, thus requiring students to connect to the Internet to access various course materials and/or complete various course assignments. However, most relevant student learning outcomes will be addressed via face-to-face instructional sessions at the Angelo State University campus in San Angelo.

Admission Criteria

All applicants for the Master of Education degree must hold a bachelor’s degree from a regionally accredited college or university. All potential graduate students are evaluated on an individual basis. All potential graduate students must submit all related materials requested in the evaluation criteria. The evaluation criteria include the following:

• undergraduate academic record (transcripts of all undergraduate course work);
• a writing sample (which should include three paragraphs explaining (a) why you want to be accepted into the program, (b) what you will bring to the program, and (c) what you expect to get out of the program;
• three letters of recommendation (addressing character, abilities, and potential);
• a personal resume (used to evaluate pre-professional competencies); and
• a personal interview.

Background Preparation Admission Formula *
While interdisciplinary in nature, and accepting candidates with a variety of undergraduate academic degrees, the Master of Education program in Coaching, Sport, Recreation, and Fitness Administration is highly applied. Thus, entering graduate students need strong foundations in several competency areas. Students lacking all or part of these recommended prerequisite competencies may still enroll in the program under provisional admission status. Students will then master these competencies, within the program curriculum by completing appropriate course work in all deficient content areas. Admission requires adequate preparation in a minimum of 60% of the areas listed below. These prerequisites may be met in a number of ways such as: through academic coursework, listed experiences on a resume, and/or statements in letters of recommendation. They include:

• Fitness or Wellness related Certifications
• Human Anatomy
• Human Resources
• Communication Skills
• Management, Marketing and/or Business
• Technology and/or Design (art, photography, computer utilization)
• Leadership
• Programming
• Research and Evaluations
• Human Performance/Athletics

* NOTE: The Graduate Record Examination (GRE) is not required for admission to the Coaching, Sport, Recreation, and Fitness Administration master’s degree.

* Open electives may also include classes in each block not previously taken.
Departmental Endorsement

Requirements for the evaluation of all prospective students for admission into the Master of Education in Coaching, Sport, Recreation, and Fitness Administration includes: (a) submission of a resume, (b) three letters of recommendation, from professional sources qualified to evaluate the individual’s abilities and potential, (c) a written statement of purpose and goals, and (d) a personal interview with the program director, or designated program representative or committee. Subsequent to the personal interview and a review of previously completed academic work, prospective students may be recommended for admission. Positive recommendation by the program director or departmental graduate faculty committee is required for admission. Official notification of admission (or denial of admission) will be communicated by the Office of Graduate Studies. Subsequent to successful completion of any additional required coursework, related to competency development, the program director may consider recommending the student for complete admission. A maximum of nine hours toward the degree may be taken prior to completion of all competency development coursework.

Retention and Graduation

All Coaching, Sport, Recreation, and Fitness Administration graduate students will have their academic progress reviewed by a departmental faculty committee upon completion of each block of 6 semester hours of graduate coursework. At this time any student found to be lacking in communication skills, oral or written, or other basic professionally related competencies can be assisted by faculty to improve their limitations and achieve their career goals. This can include the addition of required specific coursework above the 36 hour degree plan requirement. Additionally, all graduate students are required to join and maintain membership, and participate, in an approved professional association during their tenure as a departmental graduate student. This will set a foundation for their total involvement in pre-professional development toward career goals by seeing professionals in action.

Comprehensive Exam

Oral exams and portfolio evaluation formats are developed and administered by the student’s comprehensive exam committee. The student’s comprehensive exam and evaluation committee is composed of a minimum of three Coaching, Sport, Recreation, and Fitness Administration faculty members. The student must complete the oral exam before the third week preceding the end of the desired semester of graduation. Any deficiencies identified through oral exam must be removed before the student will be recommended for graduation.

Course Information

Applied Research taken by second year graduate students, in their second fall semester of attendance, so their work may have the opportunity to be incorporated into the campus student research presentation program held yearly.

The Independent Research and Readings class may be offered in any semester when an opportunity or need arises for students to participate in an outside educational experience.

The Professional Project Renewal class can be offered any semester needed for students to complete their Applied Research project.

An appropriate Special Topics course may be designed and added in any semester.

Course Descriptions

Coaching, Sport, Recreation, and Fitness (CSRF)

Graduate Courses

6301 Instructional Strategies & Techniques (3-0). Pedagogical strategies appropriate for sport, fitness and recreational settings will be emphasized. Variables that influence learner behavior and approaches to optimize instructor effectiveness will be addressed.

6304 Coaching Psychology (3-0). An overview of the principles and foundations of psychological factors related to the coaching profession will be provided. Emphasis will be on the importance for coaches to apply sport psychology concepts in an effort to enhance athletic performance.

6310 Sociology for Sport, Fitness, and Recreation (3-0). This course provides a critical analysis of sociological trends related to sport, fitness and recreational programs.

6316 Sport, Fitness, and Recreation Administration (3-0). An overview and analysis of components related to the administration within the sports, fitness, and recreation fields will be provided.

6319 Outdoor Education and Summer Camp Administration (3-0). The focus of this course will be on acquiring administrative skills related to outdoor education programming. This course will require an off campus practical experience. (Additional lab fees are required.)

6322 Administration of Special Events (3-0). A course that addresses the competencies necessary to successfully plan, market and implement special activities related to sport, fitness, and recreation.

6324 Sport, Fitness, and Recreation for Special Populations (3-0). This course will address programming considerations for special populations who engage in sport, fitness, and recreational activities.

6325 Philosophy and Ethics in Sport, Fitness, and Recreation (3-0). A critical examination of philosophical perspectives and ethical issues pertinent to the administration, management, and development of sports, fitness, and recreational programs will be provided.

6326 Coaching Administration (3-0). This course provides an extensive overview of responsibilities, duties, and behaviors within the coaching profession.

6329 Athletic Academic Advising/Counseling (3-0). This course provides an extensive overview of the processes and systems utilized in advising and counseling student athletes in collegiate settings.

6331 Risk Management in Sport, Fitness, and Recreation (3-0). This course addresses the major legal issues, policies, and procedures confronting the fields of sport, fitness, and recreation.

6335 Leadership Applications (3-0). Emphasis will be placed on venture dynamics programs and activities used to develop leadership and work group cohesion. Course includes an additional 50 hours instructor endorsement training and workshops/lab with additional departmental lab fees.

</tr>
</thead>
<tbody>
<tr>
<td>6347</td>
<td>Strength and Conditioning for Coaching and Sport (3-0).</td>
<td>A course designed to provide graduate students with advanced knowledge and skills required to obtain various professional certifications related to coaching and sport. Emphasis will be specific to designing and implementing safe and effective strength training and conditioning programs.</td>
</tr>
<tr>
<td>6349</td>
<td>Behavioral Strategies for Health and Fitness (3-0).</td>
<td>An examination of theoretical issues and strategies related to understanding and influencing health behavior change.</td>
</tr>
<tr>
<td>6351</td>
<td>Statistics and Survey Research (3-0).</td>
<td>This course serves as an introduction to the design and interpretation of research. Emphasis will be on the construction, administration, and analyses of survey data culminating in the presentation of research findings.</td>
</tr>
<tr>
<td>6356</td>
<td>Nutrition for Sport and Fitness (3-0).</td>
<td>This course provides an overview of the essential components of nutrition in relation to health, fitness, and sport performance.</td>
</tr>
<tr>
<td>6357</td>
<td>Health and Wellness Promotion (3-0).</td>
<td>Emphasis will be on planning, developing, and evaluating a comprehensive health and wellness promotion program. Major health issues in the United States will be discussed.</td>
</tr>
<tr>
<td>6358</td>
<td>Exercise Assessment and Program Design (3-0).</td>
<td>A course designed to provide graduate students with advanced knowledge and skills required to design and implement safe and effective strength and conditioning programs. Emphasis is given to the application of the following: 1) benefits and risks associated with exercise testing, 2) health screening and risk stratification, 3) physical fitness testing and interpretation, 4) exercise prescription, and 5) legal issues. The course will also assist students preparing for various professional certifications related to coaching, sport, recreation, and fitness.</td>
</tr>
<tr>
<td>6365</td>
<td>Coaching Science in Strength and Conditioning (3-0).</td>
<td>This course is based on the National Strength and Conditioning Association (NSCA) Certified Strength and Conditioning Specialist (CSCS) standards. The course will cover topics and practical experiences that will prepare students to sit for the CSCS certification exam as well as provide insight into the duties and responsibilities of a collegiate strength and conditioning coach.</td>
</tr>
<tr>
<td>6366</td>
<td>Turf and Outdoor Resource Management (3-0).</td>
<td>This course provides an in-depth study of all components relating to proper turfgrass and outdoor resource management. Topics include: understanding plant parts, soils management, turfgrass selection and establishment, sports field construction, importance of mowing, cultivation practices, irrigation and nutrient management, turfgrass mathematics, calibrations and applications, budget concerns, park maintenance, tree issues, and pest management (weeds, diseases, and insects). Approximately 50 percent of this course will be at the field lab and other field trip locations for hands-on demonstrations of proper turfgrass and outdoor resource maintenance practices.</td>
</tr>
<tr>
<td>6381</td>
<td>Special Topics (3-0).</td>
<td>A study of selected topics in sport, fitness, or recreation will be provided. (May be repeated once for credit when topic varies.)</td>
</tr>
<tr>
<td>6392</td>
<td>Professional Communication (3-0).</td>
<td>A course that addresses the written, oral, and technology-enhanced forms of communication required for professionals in sport, fitness, and recreational settings.</td>
</tr>
<tr>
<td>6393</td>
<td>Independent Research and Readings (3-0).</td>
<td>Individual research or directed readings based on graduate students’ interests and career goals will be designed. (May be repeated once for credit.)</td>
</tr>
</tbody>
</table>

Prerequisite: Prior approval of instructor and program director required.

- COMM 3335 Public Relations Principles ......................................... 3
- COMM 3342 Advertising Principles ............................................... 3
- COMM 4335 Advertising/Public Relations Campaigns and Cases ....... 3

* Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 262 or visit: www.angelo.edu/dept/ceducation.

** Degree and teacher certification requirements often will exceed the normal 120 semester-credit-hour minimum for a baccalaureate degree.
Graduate Program

Master of Arts (M.A.)
Communication

The Master of Arts in Communication degree prepares students for various communication positions within organizations including media industries, careers in higher education, or continued study toward the Ph.D. degree. The department also offers courses which may be used as electives in other graduate programs.

General Degree Requirements

All students enter the program with non-thesis degree plans. After completing 9 semester credit hours of communication graduate coursework, students who wish to do so may petition the communication graduate faculty through the graduate advisor to change to a thesis degree plan.

The total number of hours required for the program leading to the Master of Arts in Communication is 36 for the thesis option and 36 for the non-thesis option. Students in the Master of Arts in Communication program may take only 6000-level course work for their degree plan.

All non-thesis degree candidates are required to pass a comprehensive examination. The comprehensive examination will include all the communication core courses required on the student’s degree plan (Communication 6302, 6303, 6304, 6312, and 6313) in addition to any graduate communication electives completed prior to the semester in which the comprehensive examination is administered. The comprehensive examination should be administered when the student is in the last semester of his/her program.

Thesis option students shall complete an oral thesis defense which may include questions regarding their course work.

All degree candidates must take a prescribed core requirement of 15 graduate hours in Communication consisting of:

- Communication 6302 Quantitative Research Methods
- Communication 6303 Communication Theory
- Communication 6304 Introduction to Graduate Studies in Communication
- Communication 6312 Qualitative Research Methods
- Communication 6313 Rhetorical Analysis

Thesis Option

The student must complete a minimum of 36 semester credit hours of graduate work, including:

- the 15 hour communication core,
- 9 additional graduate hours in communication,
- 6 graduate elective hours taken from communication or approved electives,
- 6 hours of thesis (Communication 6399 Thesis twice or Communication 6699 Thesis).

Non-Thesis Option

The student must complete a minimum of 36 semester credit hours of graduate work, including:

- the 15 hour communication core,
- 15 additional graduate hours in communication,
- 6 graduate elective hours taken from communication or approved electives.

Electives. Students may take up to six hours of electives outside the department in consultation with the Communication Graduate Advisor.

Transfer Credits. Transfer students will be admitted to the program, but no more than six hours of 6000-level graduate credit work toward the graduate degree may be transferred from another institution. All transferred work must be equivalent to either the communication graduate classes or approved elective classes for this program. Students may apply for transfer credit through the program advisor and Graduate Dean.
# Course Descriptions

## Communication (COMM)

### Undergraduate Courses

**1101/SPCH 1144 Speech Activities (0-3).** Opportunities are offered to those students who wish to participate extensively in forensic activities such as intercollegiate speech tournaments. May be repeated for a maximum of four semester credit hours but may not be used to meet communication major or minor requirements.

**1351/SPCH 1311 Fundamentals of Human Communication (3-0).** Introductory and survey course exploring theory and practice of interpersonal communication across various contexts.

**1361 Introduction to Radio/Television/Film (3-0).** A survey of the radio/TV cable industry in America including programming, regulations, technology and history. (Credit may not be earned for this course and Mass Media 1361.)

**2301/SPCH 1315 Public Speaking (3-0).** Planning, organizing, and delivering of general platform speeches and speeches for special occasions.

**2311/SPCH 2335 Argument and Debate (3-0).** Principles of argument and debate. Practice in preparing written and spoken arguments, with emphasis on principles of critical thinking.

**2331/SPCH 2341 Performance Studies (3-0).** Performance is used as a critical and reflexive medium to investigate the intricacies of human communication. Students explore various performance texts to bridge relationship between self and other cultural perspectives.

**2344 Visual Communication (3-0).** A course to develop applied and critical skills in visual communication. Special emphasis on print communication, design and information literacy using industry-standard software.

**2362/COMM 2303 Beginning Video Production (2-2).** Operation and use of television production equipment; fundamentals of digital video production and direction using single- and multi-camera formats. (Credit may not be earned for this course and Mass Media 2362.)

**2391 Introduction to Communication Research (3-0).** An introduction to research methods in communication. Course topics include qualitative, quantitative, and critical approaches to communication research.

**3311 Small Group Communication (3-0).** A course to develop skill in leading and participating in small group interaction. Special emphasis on the nature of small groups, factors influencing communication in groups, and small group decision making.

**3321 Principles of Persuasion (3-0).** An analysis and evaluation of various forms of attitudinal and behavioral control from propaganda to brainwashing. Emphasis on theories of attitude change as applied to modern institutions.
3325 **Digital Imaging (3-0).** Introduction to the digital imaging process in photography using the industry standard software. Course topics will include image capture, file formats, image correction, and manipulation, storage and output for a variety of visual and photographic media. (Credit may not be earned for this course and Mass Media 3325.)

Prerequisite: Mass Media 2321.

3331 **Advanced Performance Studies (3-0).** Advanced study related to issues in performance with special emphasis on production, scripting, social contexts, and performance practices. Students participate in a collaborative process of writing/adapting, staging, and producing original performance.

Prerequisite: Communication 2331.

3335 **Public Relations Principles (3-0).** Fundamentals of public relations including the history, terminology and various components of the profession. Some time will be spent preparing news releases and public relations campaigns. (Credit may not be earned for this course and Mass Media 3335.)

3342 **Advertising Principles (3-0).** A study of the principles and practices of advertising, with an emphasis on the strategic process and preparation of advertising for the mass media. (Credit may not be earned for this course and Mass Media 3342.)

3351 **Nonverbal Communication (3-0).** A lecture-discussion-activity course focusing on non-verbal processes in human interaction.

3352 **Communication in Professional Life (3-0).** A course designed to investigate the role of human communication in professional life. Attention to interviewing, workplace culture, interpersonal and team communication, technology, professional presentations, leadership, and work life balance.

3355 **Intercultural Communication (3-0).** Examines the influence of culture on communication from a human perspective. The course emphasizes increased awareness of one’s own culture in relation to cultures different than his/her own.

3356 **Negotiation and Conflict Management (3-0).**Examines the role that negotiation plays in the conflict management process with a focus on principled negotiation. The course will examine the differences between competitive and cooperative negotiation focusing on foundations of effective negotiation.

3361 **Electronic Media Programming (3-0).** Theories and strategies of program selection, scheduling and evaluation for electronic media. Theory and practice producing and scheduling prime time television programs. (Credit may not be earned for this course and Mass Media 3361.)

Prerequisite: Advanced standing.

3363 **Electronic News Gathering and Production (2-2).** Theory and practice of producing video newscasts on location and in a station environment. Focus on shooting and editing. Extensive hands-on experience equipment. Production of multiple packages and news pieces. (Credit may not be earned for this course and Mass Media 3363.)

Prerequisite: Advanced standing.
3366 Film as Message (3-0). Students will examine selected contemporary films. Interpersonal communication theories, nonverbal communication theories, and rhetorical theories will be used to see how the film creates its message through camera angles, color, gender and cultural assumptions, language choices, and proxemics.

3367 Media and Cultural Studies (3-0). This class focuses on the ways citizens and consumers use media and other cultural objects in order to communicate. The class explores various elements of subcultures and popular culture such as rock music, television programming, sports, and shopping, with an emphasis on how different audiences encode and decode various cultural artifacts, how these practices reinforce or challenge dominant world views, and how they affect the exercise of power.

3368 Digital Media and Convergence (3-0). Message transmission and analysis through multiple channels. Students will examine the impact of channel changes upon public discourse, small group discussions, and interpersonal messages. Students will examine new media channels and gain practice in using emerging communication technologies.

4301 Senior Seminar (3-0). Capstone course for all areas of communication, emphasizing portfolio development and other preparation for entry into the communication profession. Course topics also include: professional communication excellence, job reviewing, team communication, cultural sensitivity, and work-life balance. (Credit may not be earned for this and Mass Media 4301 or Theatre 4301.)

4311 Interpersonal Communication (3-0). Study of communication in dyadic and small-group settings with particular emphasis placed on self-concept theory, interpersonal perception, and communication barriers.

4312 Gender and Communication (3-0). A course designed to investigate the role of gender in human communication. Attention to oral histories, alternative narratives, and gender theory including: systematic, cultural, cognitive, and behavioral approaches to studying gender and communication will be investigated. Special attention to gender in the workplace will be addressed.

4335 Advertising/Public Relations Campaigns and Cases (3-0). Case-method and campaign planning as they pertain to advertising and public relations administration. Emphasis on development of creative strategy and media selection. (Credit may not be earned for this course and Mass Media 4335.)

Prerequisite: Communication 3335 or 3342.

4336 Integrated Marketing Communication (3-0). A course focused on the design and execution of communication and advertising campaigns. Topic varies. This course can be repeated for additional credit with departmental approval.

4338 Communication Technologies (3-0). A survey of a wide variety of communication media including books, magazines, newspapers, radio, television, cinema, the telephone, recorded music and the Internet. The class covers the history of these communication technologies, the structure of their industries, and the social implications of their spread and use for communication and culture.
4351 Communication Theory (3-0). A critical examination of theories and research in communication. The course will focus on rhetorical, interpersonal, group, mass, and organizational communication theories.

4352 Communication Analysis (3-0). Analysis of different types of messages using several rhetorical strategies. Students will analyze the communicator’s intended audience, message channel, types of appeals, and persuasive techniques.

4355 Mass Media Effects and Ethics (3-0). A study of social science research methodology as applied to mass media research. The course will examine current theories of the effects of mass media on audiences. The study of reasoning and ethical decision making as they relate to the mass media. (Credit may not be earned for this course and Mass Media 4355.)

4361 Directing Speech Activities (3-0). Planning, organizing, and evaluating speech activities, including public speaking, oral interpretation, debate, readers theatre, and discussion groups. This course is intended for students pursuing a communication major with teacher certification, although it may be used as an advanced elective for any communication specialization area.

4364 Media Management (3-0). Management functions, advertising, sales, and internal organizational structure of media. (Credit may not be earned for this course and Mass Media 4364.)

4365 Advanced Video Production (2-2). Theories and techniques for producing, directing, and editing single and multiple-camera productions; to include script writing, shooting, and post production for video field and studio work. (Credit may not be earned for this course and Mass Media 4365.)

4367 Alternative Electronic Discourse (3-0). Advanced study of the creative use of digital media in performance-based contexts to explore communication at the nexus of material and virtual environments.

4371 Organizational Communication (3-0). The theoretical investigation and practical application of organizational communication principles. Studies will focus on information processing and problem solving within organizations.

4379 Communication Internship. Students gain on-the-job experience by working in industry. Limited to advanced students majoring in Communication. Participants are selected on the basis of written applications submitted to the department chair one semester in advance.

4381 Special Topics (3-0). Selected topics in communication. May be repeated once for credit when topic varies.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in communication.

Graduate Courses

6301 Teaching Communication in Higher Education (3-0). A course designed to prepare students to teach communication courses in higher education and other professional environments. This course is required for Graduate Teaching Assistants but all students are welcome. It can be taken concurrently with a teaching assignment.

6302 Quantitative Research Methods (3-0). A course to familiarize the student with the types of research and related statistical tools for the communication professional.

6303 Communication Theory (3-0). An overview of interpersonal, organizational, and mass communication theories impacting the design and maintenance of communication systems.

6304 Introduction to Graduate Studies in Communication (3-0). A review of core literature in communication studies.

6305 Organizational Communication (3-0). Cultural, organizational, and interpersonal issues in communication.

6306 Legal and Ethical Issues in Communication (3-0). Issues and concerns of the communication professional including: communication law, copyright law, technological innovations, instructional/educational paradigms, organizational policies, and application of ethics in communication.

6308 Small Group Communication (3-0). The concepts, theories, and decision making techniques involved in small group communication.

6312 Qualitative Research Methods (3-0). An introduction to qualitative research methods. The course will cover historical and critical analysis, discourse and conversation analysis, ethnography, and analysis of narrative and myth.

6313 Rhetorical Analysis (3-0). An introduction to rhetorical analysis. Persuasive texts along with persuasive tools will be covered. Fundamental theories of persuasion, influence, and social movements will be introduced along with implications for communication studies.

6314 Intercultural Communication (3-0). An examination of communication dynamics in diverse societies and between different cultural communities. The interactions among communication, culture, and identity are explored within historical and contemporary perspectives.

6315 Race, Gender and the Media (3-0). This course investigates the role of race, ethnicity, gender and culture in a variety of media contexts.

6316 Interpersonal Communication (3-0). The study of human dyadic interaction, including topics such as perception processes, verbal/nonverbal communication, theoretical models of communication, conflict, and interpersonal communication in various relationships.

6371 Internship. Students gain on-the-job experience working in a business or industrial setting.

6381 Special Topics (Current Issues) (3-0). Selected readings in communication. (May be repeated once for credit when topic varies.)

6391 Research. Directed readings or individual research projects. (May be repeated once.)

6399 Thesis.

6699 Thesis.
Undergraduate Certificate Available in Computer Game Development

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a "C" in each required class. All coursework for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

This certificate is open to any student who completes the required courses:

Certificate - Computer Game Development

Course Descriptions

Computer Science (CS)

Undergraduate Courses

1301 Computer Literacy (3-0). Overview of concepts, terminologies, hardware and software used in computing and networking.

1341 Fundamentals of Programming (3-0). Introductory computer programming techniques using a modern, object-oriented programming language.
1351  **Java Programming (3-0).** Programming concepts and development in the Java language.

1361  **Computer Science I (3-0).** The concepts and properties of algorithms for solving numerical and non-numerical problems. Introduction to computer and programming systems, including the development, debugging, and verification of programs, representation of data, computer characteristics and organization. (Credit may not be earned for both this course and Computational and Applied Mathematics 1361.)

1362  **Computer Science II (3-0).** Continuation of Computer Science 1361/Computational and Applied Mathematics 1361. Problem solving and program development techniques emphasizing modular design. Includes advanced programming topics such as class design, records, strings, pointers, and bit manipulation. (Credit may not be earned for both this course and Computational and Applied Mathematics 1361.)

Prerequisite: Computer Science 1361 or Computational and Applied Mathematics 1361.

1371  **Introduction to Computer Game Development (3-0).** An introduction to computer game development. Topics include the history of game development, player motivation, game elements, storytelling, characters, game play, level design, interface design, audio, project management, production, marketing and maintenance.

2305  **Data Structures and Algorithms (3-0).** Study of basic data structures and their applications such as: linear structures (arrays, lists, stacks, queues) and non-linear structures (trees, graphs); sequential and linked storage representation methods; sorting and searching algorithms; and techniques of algorithmic analysis.

Prerequisite: Computer Science 1362.

2324  **3D Modeling and Animation I (3-0).** Introduction to three-dimensional (3D) modeling and animation utilizing industry standard software. The course includes the modeling and modification of 3D geometric shapes, as well as introduction to camera techniques, light sources, textures, rigging, weight-mapping models and rendering for animation.

2325  **3D Modeling and Animation II (3-0).** Intermediate methods for three-dimensional (3D) modeling and animation, including spline drawing, dynamic object emitters, surface mapping, skeletons, inverse kinematics, and extended lighting, texturing, and camera techniques.

Prerequisite: Computer Science 2324.

3304  **Computer Organization and Programming (3-0).** Basic computer organization with emphasis on machine representation of data and instructions; programming in assembly and machine-oriented languages for real and simulated computers.

Prerequisite: Computer Science 1362.

3311  **Data Base Management (3-0).** Basic data base concepts, organization, and definitions; data description languages; relational data base concepts and examples; comparison of data base systems.

Prerequisite: Computer Science 1362.

3331  **Programming Languages (3-0).** An introduction to the syntax and semantics of programming languages. Actual programming languages may be used to illustrate the language concepts.

Prerequisite: Computer Science 2305.

3344  **Computer Architecture (3-0).** Study of the hardware components of a computer system and survey of various computer architectures. Topics may include instruction set design, computer arithmetic, and microprogramming.

Prerequisite: Computer Science 3304.

3352  **Theory of Algorithms (3-0).** An in-depth study of computer algorithms, including those for hash tables, trees and graphs; analysis of time and space requirements of algorithms; NP-completeness and undecidability of problems.

Prerequisite: Computer Science 2305.

3371  **Computer Game Development I (3-0).** Introduction to the design and implementation of computer games, including real-time graphics, audio and interactive multimedia programming techniques.

Prerequisite: Computer Science 2305.

3372  **Handheld Game Development (3-0).** Computer game development for one or more handheld computing devices. Programming topics include graphics, audio, user interfaces and development tools. Other topics may include content creation, developer workflow, hardware acceleration, and power management.

Prerequisite: Computer Science 2305.

4091  **Research: 1 to 6.** A specialized course providing research opportunities for superior students majoring in computer science.

Prerequisites: Senior standing and consent of the department chair is required.

4171  **Internship.** The student will participate in a part-time computing position with a cooperating business or government agency whose program has been approved by the Computer Science Department. The internship requires a minimum of ten hours per week. The course may be repeated once for credit. Grading will be either pass or fail.

Prerequisites: Junior or senior Computer Science major with at least 18 semester hours in Computer Science, 12 of which must be in residence. Additionally, consent of the department chair is required.

4301  **Algorithmic Languages and Compilers (3-0).** Formal description of algorithmic languages, compilation techniques, syntactic analysis, code generation, storage allocation, syntax-directed compilers, compiler-building systems.

Prerequisites: Computer Science 2305, 3304.

4302  **Operating Systems (3-0).** A study of the design and implementation of operating systems; analysis of system resource management, including the memory, processor, device, and information management functions.

Prerequisites: Computer Science 2305, 3304.

4306  **Software Engineering (3-0).** Introduction to the fundamental concepts of computer software development; programming methodology; software reliability; performance and design evaluations, software project management; program development languages, tools and standards.

Prerequisites: Senior standing and Computer Science 2305.
**Computer Science**

4307 Ethical Issues in Computing (3-0). Seminar style with discussion of the concern for the way in which computers pose new ethical questions or pose new versions of standard moral problems and dilemmas; study of ethical concepts to guide the computer professional; and computer professional codes of ethics. Case studies will be used to relate to ethical theory. Discussion will include ethical and legal use of software and conflicts of interest.
Prerequisite: Junior standing.

4308 Computer Graphics (3-0). Study of hardware and software found in graphics systems. Topics such as line and curve drawing, text generation, transformation methods for two and three dimensional systems, fill algorithms, fractal curves and hiddenline algorithms.
Prerequisites: Computer Science 2305, Mathematics 1561.

4312 Internet Technologies (3-0). Technologies that make up the Internet including servers, clients, protocols, browsers and mechanisms for executable content.
Prerequisite: Computer Science 2305.

4314 Computer Networking (3-0). Introduction to the principles and basic concepts of computer networking, including the Internet. Networking concepts, protocols and technologies are broken down into layers.
Prerequisite: Computer Science 2305.

4316 Visual Programming (3-0). Programming in and for a visual or GUI environment. Event-driven objects including mouse and window events.
Prerequisite: Computer Science 1341.

4318 Artificial Intelligence (3-0). Fundamental concepts and techniques of intelligent systems; representation and interpretation of knowledge on a computer; search strategies and control.
Prerequisites: Senior standing and Computer Science 2305.

4371 Computer Game Development II (3-0). Continuation of Computer Science 3371. Advanced game programming techniques, including designing game mechanics, concepts of emergence and progression, and the use of visual design tools.
Prerequisite: Computer Science 3371.

4381 Special Topics in Computer Science (3-0). Contemporary applications and theory in computer science. (May be repeated once for credit when the topics vary.)
Prerequisite: Computer Science 2305.

**Other Requirements**

**Electives**

(12 SCH must be advanced to meet the 42 advanced hour requirement.)

The Criminal Justice Major Field Test (MFT) is a requirement for graduation.

---

*The student must earn six semester hours of the same language at the sophomore level (Modern Language 2311, 2312). Most students will begin language study with 1301 unless they earn credit by exam (CLEP, AP). Students who have some previous language experience in Spanish, and who do not earn credit by exam, may instead choose Spanish 1301/1302 to receive 6 semester credit hours.

**If a student chooses a minor that does not allow at least 12 hours of advanced courses, this degree may exceed 120 semester credit hours.

***Can include more than one discipline. Does not require a lab. If the student takes a lab, the elective requirement is decreased.

Angelo State University Undergraduate and Graduate Catalog 2013-2014
**Undergraduate Certificates Available in Criminal Justice**

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

**Certificate - Correctional Systems Studies**
(12 SCH required. Choose 4 of the following courses.)

- CRJ 2314 Criminal Investigation ........................................... 3
- CRJ 3303 Theory and Practice in the Juvenile Justice System ........ 3
- CRJ 3312 Criminal Justice Administration .................................. 3
- CRJ 4310 Community Corrections .................................................. 3
- CRJ 4330 Seminar on Correctional Problems .................................. 3

**Certificate - Criminal Justice Law**
(12 SCH required.)

- CRU 2323 Legal Aspects of Law Enforcement .................................. 3
- CRJ 3310 Criminal Justice Process .................................................. 3
- CRJ 3340 Legal and Constitutional Issues in Homeland Security ........ 3
- CRJ 4345 Federal Immigration Law .................................................. 3

**Certificate - Law Enforcement Studies**
(12 SCH required. Choose 4 of the following courses.)

- CRJ 2314 Criminal Investigation or CRJ 2323 Legal Aspects of Law Enforcement .......... 3
- CRJ 3303 Theory and Practice in the Juvenile Justice System ............... 3
- CRJ 3312 Criminal Justice Administration ........................................... 3
- CRJ 4350 Seminar on Police Problems ................................................ 3
- CRJ 4360 Police Personnel Management .............................................. 3

**Certificate - Police Administration**
(12 SCH required. Choose 4 of the following courses.)

- CRJ 2328 Police Systems and Practices .......................................... 3
- CRJ 3312 Criminal Justice Administration ........................................ 3
- CRJ 4341 International Police Development ......................................... 3
- CRJ 4354 Professionalism and Ethics in Criminal Justice ...................... 3

Graduate Program

Master of Science (M.S.)
Criminal Justice

The Department of Security Studies and Criminal Justice offers graduate course work leading to the Master of Science degree in Criminal Justice. The M.S. program is designed for persons interested in pursuing deeper knowledge of U.S. Criminal Justice policies and practices beyond the baccalaureate level. The M.S. in Criminal Justice degree is open to all those with Bachelor’s degrees and is especially appropriate for practitioners pursuing promotional opportunities. Anyone preparing for federal, state, and local agency employment, or currently working in the field, should find this program accommodating to their schedules as, initially, the program will be completely online. The Master of Science in Criminal Justice program is supported by a comprehensive collection of journals, books, and government documents relating to the numerous facets of criminal justice policy, leadership, and research.

Admission Requirements

All applicants for the Master of Science degree in Criminal Justice program must hold a bachelor’s degree from an accredited college or university. All potential graduate students are evaluated on an individual basis. All applicants must submit the following materials and meet the admission criteria as indicated:

- Undergraduate academic record (transcripts of all undergraduate course work);
- 2.75 undergraduate GPA or 3.00 in the last 60 hours of undergraduate course work;
- At least two letters of recommendation;
- An essay of no more than 750 words regarding your opinion of the single most important challenge to 21st Century Criminal Justice written in endnote or footnote format. Outside sources may be used.

Degree Requirements

Students must confer with the graduate advisor before registering for any courses. The 36-semester-hour curriculum includes the following two categories:

Required Core Courses:  
CRU 6330 Critical Analysis of Justice Administration .............................................................. 3  
CRU 6332 Criminal Justice Theory .......................................................................................... 3  
CRU 6334 Research Methods in Security Studies ................................................................... 3  
CRU 6339 Police in Society ..................................................................................................... 3  
CRU 6372 Seminar in Corrections ......................................................................................... 3  
CRU 6387 Seminar in Criminal Justice Agency Ethics ........................................................... 3  
CRU 6389 Capstone Seminar in Criminal Justice ................................................................ 3  
CRU 6393 Legal Aspects of the Criminal Justice System ....................................................... 3  

Electives:  
Twelve semester credit hours (four courses) of criminal justice electives ............................. 12

Course Descriptions

Criminal Justice (CRIJ)

Undergraduate Courses

1301 Introduction to Criminal Justice (3-0). Topics for this course include history and philosophy of criminal justice and ethical considerations, crime defined, its nature and impact, overview of criminal justice system, prosecution and defense, trial process, corrections.

1306 The Courts and Criminal Procedures (3-0). Topics for this course include the judiciary in the criminal justice system, right to counsel, pre-trial releases, grand juries, adjudication process, types and rules of evidence and sentencing.

1310 Fundamentals of Criminal Law (3-0). Topics for this course include a study of the nature of criminal law, philosophical and historical development, major definitions and concepts, classification of crime, elements of crimes and penalties using Texas statutes as illustrations, criminal responsibility.

2313 Correctional System and Practices (3-0). Correction in the criminal justice system; organization of correctional system; correctional role; institutional operations: alternatives to institutionalization; treatment and rehabilitation; current and future issues.  
Prerequisite: Criminal Justice 1301.

2314 Criminal Investigation (3-0). Topics for the course include instruction on investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; uses of forensic sciences; case and trial preparation.

2323 Legal Aspects of Law Enforcement (3-0). Topics for the course include instruction on police authority, responsibilities, constitutional restraints: Law of Arrest; Search and Seizure; Police Liability.

2328 Police Systems and Practices (3-0). Topics for the course include instruction on the police profession, organization of law enforcement systems: The police role; police discretion; ethics; police-community interaction; current and future issues.  
Prerequisite: Criminal Justice 1301.
Criminal Justice

3301 Studies in Homeland Security (3-0). This course introduces the student to the field of Border Security studies. Students focus on a comprehensive, up-to-date overview of border security from an all-hazards perspective. Border security is viewed as a fundamental component of Homeland Security, and as such, students examine a wide variety of threats to the homeland. This course incorporates the concepts of critical infrastructure, gathering and analysis of strategic intelligence, and develops the student’s technical writing skills. Students review the roles and responsibilities of government agencies, non-government organizations, and individual citizens in homeland security. (Credit may not be earned for this course and Border Security 3101 or 3301.)

3302 Research Methods (3-0). An introduction and overview of the methods used to conduct research in the field of Criminal Justice and social sciences in general.

3303 Theory and Practice in the Juvenile Justice System (3-0). An intensive examination of the juvenile justice process. Topics focus on the specialized nature of the juvenile system, including juvenile law, the varied roles of juvenile courts, the police and correctional agencies, and an analysis of contemporary American juvenile justice philosophy and practice.

3304 Transnational Crime (3-0). This course differentiates the historical and contemporary patterns, modus operandi, capabilities, and vulnerabilities of transnational criminals and organizations. Course content includes a review of the contemporary literature of South American, Mexican, Asian, European, and African criminal enterprises, traditional organized crime, outlaw motorcycle gangs, and transnational criminal enterprises. In this seminar course the student will conduct directed research on a transnational crime topic and present the results of that research to the class. (Credit may not be earned for this course and Border Security 3304.)

3305 Perspectives on Crime in America (3-0). An intensive examination of American crime problems in historical perspective. Through the lens of various perspectives regarding the cause and prevention of crime, the course explores the social and public factors affecting crime, the divergent trends in criminal behavior, and the social characteristics of specific types of criminal deviance. (Credit may not be earned for this course and Border Security 3305.)

3306 International Drug Trafficking (3-0). This course is an in-depth study of the epidemic of drug abuse and its association with crime. The course encompasses all aspects of both legal and illegal drug abuse, pharmacology, gang activity, youth, violence, and behavioral pathology. It will also provide a robust examination of public policy issues associated with resolving the national drug control issue, drug trafficking, trends towards decriminalization/legalization, and law enforcement response. Students will have the opportunity to discuss contemporary drug-related issues of the day related to enforcement, medical treatment, harm reduction, or educational responses. Professor directed research in any of these drug policy issue areas will close out the course, enabling students to apply knowledge gained from the course to formulate intelligently their own opinions to develop possible societal solutions to this important national policy crisis. (Credit may not be earned for this course and Border Security 3306.)

3308 International Human Trafficking (3-0). This course distinguishes between various types of human trafficking; provides an overview of the history of human trafficking and counterstrategies; discusses the causes and consequences of human trafficking; and critically assesses the achievements of counterstrategies devised and implemented by governments, international organizations, and private actors. This is a writing intensive course in which the student will perform directed research on topics related to human trafficking. (Credit may not be earned for this course and Border Security 3308.)

3310 Criminal Justice Process (3-0). An in-depth examination of the various components of the criminal justice system as a process. Topics include legislation and crime, the police, constitutional limits on investigation and apprehension, the role of prosecuting and defense attorneys, bail and preventive detention, processes relating to the guilty plea, and the function of the criminal trial and the correctional process. Requires junior standing and the completion of the law enforcement transfer curriculum.

3312 Criminal Justice Administration (3-0). This course surveys the managerial and organizational philosophies and principles available to criminal justice administrators. It explores the strengths and weaknesses of various practices used to organize and manage personnel, define operational procedures, and determine essential functions within policing, judicial, and corrections agencies. (Credit may not be earned for this course and Border Security 3312.)

3320 History of Terrorism (3-0). Students examine the phenomena of terrorism, counterterrorism, and the associated violence from a historical perspective with a focus on terrorism impacting America. Students describe the social context of terrorism as it relates to the actions of various terrorist groups, how terrorism appears to be a war fought on a different level by a set of different rules, and the emergence of leaderless terrorism (a loose network of groups with common goals apparently acting in isolation towards similar ends). Students conclude the course with discussions on fighting terrorism in the United States, including the potential problems of loss of civil liberties and other obstacles to counterterrorism. (Credit may not be earned for this course and Border Security 3320.)

3340 Legal and Constitutional Issues in Homeland Security (3-0). Students receive an in-depth overview of laws, policy, strategy, organization, and plans for dealing with various natural, accidental and premeditated threats to homeland security. Students review the respective and relative roles and responsibilities of government agencies, non-government organizations, and individual citizens for U.S. national security. Students discuss various policy and strategy issues, including balancing security and civil liberties and information sharing and protection and the USA PATRIOT Act. (Credit may not be earned for this course and Border Security 3340.)

4071 Internship in Criminal Justice (1-6 SCH). A participant-observation course designed to familiarize students with the application of knowledge gained in course work and with operations and issues in the areas of local law enforcement or criminal justice agencies. Students must be officially pursuing the criminal justice degree and have senior standing. Instructor approval is required.

4091 Independent Research: 1 to 6. A specialized course that may be directed reading or research for superior students majoring in Criminal Justice. Department approval required.

4310 Community Corrections (3-0). Focuses on the analysis and evaluation of programs and processes in community settings such as diversion, probation, parole, and other community-reintegration procedures. Programs are discussed in terms of definition, history, purpose, possibilities, administration and process, problems, cost, and effectiveness.
4321 Trends in Terrorism and Counterterrorism (3-0). This is a seminar course in which students examine new and growing threats including: narco-terrorism, environmental terrorism, terrorist recruitment methods, genomic terrorism, and threats to critical infrastructure. Students progress from analysis of past terrorism to present, and future responses by national and international counterterrorism. Students consider historical defenses as well as new concepts and innovations for the prevention and mitigation of terrorist attacks. (Credit may not be earned for this course and Border Security 4321.)

Prerequisite: Border Security 3320 or Criminal Justice 3320.

4330 Seminar on Correctional Problems (3-0). Examination of the most important obstacles faced by corrections in America. Emphasis on professional shortcomings, system deficiencies, and public inadequacies.

4341 International Police Development (3-0). In this course, the student studies the historical development of police in countries outside of the U.S. Particularly, the emphasis will be on police development instituted by occupying and/or intervention forces assigned to a country for the purposes of establishing post conflict peacekeeping and stability operations. Analysis of ongoing efforts to introduce Americanized concepts of effective policing in foreign countries concludes this study. (Credit may not be earned for this course and Border Security 4341.)

4345 Federal Immigration Law (3-0). In this seminar course, the student is introduced to Federal Laws dealing with Border Security issues, in particular, U.S.C. Title 8, Title 18, Title 19, Title 21, and Title 31. Overviews of the laws, coupled with discussion of their implementation by the federal courts, are interactively discussed by the students and professor. (Credit may not be earned for this course and Border Security 4345.)

4350 Seminar on Police Problems (3-0). An examination of the most important obstacles encountered by American law enforcement with emphasis upon professional shortcomings. Relies heavily upon guided independent student problem identification, research, analysis, and the formulation of recommendations. Requires completion of the law enforcement transfer curriculum and senior standing.

Prerequisite: Criminal Justice 2328.

4354 Professionalism and Ethics in Criminal Justice Agencies (3-0). The study of theories and practices in areas of legality, morality, values, and ethics as they pertain to criminal justice. Included will be such topics as police corruption, brutality, and methods of dealing with such practices, as well as the concept of professional and professional conduct. This course is for Criminal Justice majors and minors only. (Credit may not be earned for this course and Border Security 4354.)

Prerequisite: Senior standing.

4360 Police Personnel Management (3-0). An examination of the present dimensions and future trends of police personnel management with special emphasis on employee development programs, performance appraisal, discipline, and labor relations, including collective bargaining and police unions.

4381 Special Topics (3-0). A course dealing with selected topics in the criminal justice field. (May be repeated once for credit when topic varies.)

Prerequisite: Junior standing.

Graduate Courses

6091 Independent Research: 1-6. A specialized course that may be directed reading or research for superior students majoring in Criminal Justice. Department approval required.

6301 Seminar in Homeland Security (3-0). In conjunction with an analysis of current Homeland Security topics, students apply theoretical concepts of target identification and risk evaluation to develop risk mitigation plans, which are jointly critiqued by their classmates. Students consider various natural and man-made disasters and potential disasters, from an all-hazards perspective. Practical application of open source intelligence to risk analysis and mitigation is a key component of this course. (Credit may not be earned for this course and Border Security 6301.)

6302 Introduction to Geographic Information Systems (3-0). Geographic Information Systems (GIS) contain a powerful set of tools for data acquisition, management, query, and display. This course provides students with a substantial foundation in the history of cartography and mapmaking. A second major emphasis of this course will merge both theoretical and historical information with hands-on practical training utilizing the basic tools provided with GIS software. Students will become familiar with the importance of metadata, as well as editing and updating metadata and how this is important to the success or failure of the dataset as a whole. (Credit may not be earned for this course and Border Security 6302.)

6304 Advanced Studies in Transnational Crime (3-0). Globalization touches all aspects of an ever more interconnected world - never more so than in criminal organizations. The study of the morphology of transnational criminal organizations of all types is key to understanding the future of organized and international crime and the associated legal and practical efforts to counter future trends. Through differentiation of historical and contemporary patterns, modus operandi, capabilities, and vulnerabilities of transnational criminals and organizations, students develop crime interdiction proposals and critique the proposals of other students, through a Socratic process. (Credit may not be earned for this course and Border Security 6304.)

6305 Advanced Studies in Human Trafficking (3-0). This advanced course looks at the origins and current trends in trafficking of humans for profit. Whether it be to supply workers for the international sex trade, or the delivery of babies for adoption, the trafficking of humans destroys lives, families, and the very social fabric upon which societies are built. This course delves into the theoretical basis of the psychopathology behind human trafficking and the intense process of recovery that victims and their families need to recover from these crimes, help that is often lacking in even the most civilized societies. Students evaluate current events and develop theoretically and legally based responses to these crimes. (Credit may not be earned for this course and Border Security 6305.)

6306 Advanced Studies in International Drug Trafficking (3-0). The international trafficking of illegal narcotics and other pharmaceuticals has been a global problem for over a century. From the Opium Wars of the 1800s to the current battles among drug cartels in Mexico, this course offers an in-depth analysis of the epidemic of drug abuse and its association with crime. Using open source intelligence, students evaluate the impact of current drug interdiction efforts by federal agencies. Students conduct online research, statistical analysis, development of viable programs and policies to reduce the current demand for illegal substances worldwide. They then argue in support of their positions to convince the remainder of the class of their program’s viability. (Credit may not be earned for this course and Border Security 6306.)
6307 Applied Statistics (3-0). Statistical methods with application to intelligence, homeland security, criminal justice, and other security-related interests. The course formalizes key data that can be numerically represented in a way that permits useful analysis and application of the results. (Credit may not be earned for this course and ISSA 6306 or BOR 6307.)

6320 Studies in Terrorism (3-0). This course discusses the politics of terrorism and counterterrorism in depth. Theoretical approaches to explain terrorism as a tactic are analyzed. Individual, group, and state terrorism are reviewed from a historical and political context. Students conduct an in-depth analysis of the U.S. response to the terrorist attacks of 9/11, the advent of the USA PATRIOT ACT and its impact on civil liberties, and the development of the Department of Homeland Security as a terrorist mitigation strategy. (Credit may not be earned for this course and Border Security 6340.)

6332 Criminal Justice Theory (3-0). Overview of the major paradigms focusing on the causes of crime and deviant behavior with special attention given to the social, political, and intellectual philosophies within which each perspective arose. Students discuss criminological theories from a philosophy of science perspective, focusing upon such issues as theory construction, theoretical integration, and the formal evaluation of theory.

6334 Research Methods in Security Studies (3-0). Research methods with application to intelligence, homeland security, criminal justice, and other security-related interests. (Credit may not be earned for this course and ISSA 6305, SEC 6305, or BOR 6334.)

6339 Police in Society (3-0). An examination of the evolution of police in modern society with a special emphasis given to the role police play in contemporary society. Current research examining the function of the police and trends and techniques in policing are examined.

6340 Constitutional Issues in Homeland Security (3-0). Taking Constitutional Law to the next level, students conduct in-depth analysis of court decisions that respond to ongoing efforts to address legislative efforts to secure the homeland in the face of a continued international terrorist threat. Additionally, students evaluate the legal basis for federal response to natural and man-made disasters and the impact of these responses to local sovereignty. Students taking this course are required to write extensive legal briefs. (Credit may not be earned for this course and Border Security 6340.)

6341 Advanced Studies in International Police Development (3-0). Students use the comparative method to conduct critical analyses of ongoing efforts to develop police in other countries by the U.S., EU, UN, and other agencies. The role of military and non-military forces, coupled with their interaction with NGOs and local agencies, is evaluated. Developing measurement tools to use in conducting success evaluation is a key part of this course. (Credit may not be earned for this course and Border Security 6341.)

6371 Internship. This course is designed to familiarize students with the application of knowledge gained in course work and with operations and problems in the field of criminal justice. Students must be pursuing a degree in Criminal Justice. Approval of instructor is required.

6372 Seminar in Corrections (3-0). A variety of problems in American Corrections are explored, including the philosophy of prisons, sentencing, community corrections, rehabilitation, and correctional reform. The efficacy of the death penalty is evaluated. Students also investigate the sources of professional shortcomings, system deficiencies, and public inadequacies to develop theoretically based proposals to address these issues.

6381 Special Topics (3-0). A course dealing with selected topics in the criminal justice field. May be repeated once for credit when topics vary.

6384 Seminar in Criminal Justice Agency Ethics (3-0). The study of criminal justice without the concurrent study of justice is simply criminal. This course exposes students to the ethics (and lack thereof) of criminal justice agencies. Scenario evaluation, active discussion, and theoretically based argumentation and decision-making are all key components of this seminar. (Credit may not be earned for this course and Border Security 6387.)

6389 Capstone Seminar in Criminal Justice (3-0). This course is a research seminar in which students will develop skills in locating, extracting, evaluating, and synthesizing information acquired from their prior courses. Students write a publishable, article-length, paper based on independent research. Students may also be expected to supplement their research with other readings under the direction of the professor.

6393 Legal Aspects of the Criminal Justice System (3-0). In this overview of various aspects of law that are relevant to and essential for a better understanding of the criminal justice system and its related processes, students analyze and brief critical court decisions that have shaped the PCC system.

### Bachelor of Cultural Competence and Security Studies (B.C.C.S.S.)

**Cultural Competence and Security Studies**  
(124 semester hours)

The Bachelor of Cultural Competence and Security Studies (B.C.C.S.S.) degree is meant to increase students’ security studies and cultural competencies across a wide operational spectrum. The courses will increase the students’ critical thinking and analytic skills in political culture and comparative security policy. This degree is offered completely online.

#### Academic Major

| Cultural Competence 3310, 3312                           | 6     |

Undergraduate Certificates Available in Cultural Competence and Security Studies

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

Certificate - Cultural Competence and Security Studies - Africa
   (12 SCH required)

Bachelor of Cultural Fluency and Security Studies (B.C.F.S.S.)

Cultural Fluency and Security Studies
   (124 semester hours)

The Bachelor of Cultural Fluency and Security Studies (B.C.F.S.S.) degree is meant to increase students’ security studies and cultural competencies across a wide operational spectrum. The courses will increase the students’ critical thinking and analytic skills in political culture and comparative security policy. Students must demonstrate language proficiency in a language other than English by scoring a 2+ on the Interagency Language Roundtable (ILF) scale, on the Foreign Service Institute (FSI), or on the Defense Language Proficiency Test (DPLT) exam. Students may satisfy language proficiency in other ways as approved by the ASU department of Modern Languages.

* Students must take a minimum of 16 semester hours in any combination of regional studies courses and functional security courses.
AU-ABC Partnership

The B.C.C.S.S. and the B.C.F.S.S. degree has been approved by Air University to be included in the AU-ABC program. Degrees in the AU-ABC program allow students to transfer all 64 credit hours of their Associate of Applied Science Degree from CCAF into the course requirements. Since the B.C.C.S.S. and the B.C.F.S.S. degree require 124 SCH and all 64 hours from the CCAF degree will be used, the student is only required to complete an additional 60 SCH to complete the degree.

The Office of Admissions, in conjunction with the Department of Security Studies and Criminal Justice, will make an exception to standard policy with regard to Community College of the Air Force (CCAF) credits for a CCAF degree-holder. All credits from CCAF associate’s degrees will be accepted and applied toward your degree plan. However, should you choose to change your degree plan to a degree other than those specified below, the transfer credits originally accepted and applied may be revoked. If a CCAF degree-holder has additional college credits beyond the basic CCAF A.A.S. degree, ASU may accept those as well. Over and above the stated maximum number of transfer credit hours (66) that may apply toward a degree plan. Again, exception to standard ASU policy will be retracted if you later choose a degree plan other than specified below.

- B.B.S. in Border Security
- B.C.C.S.S. in Cultural Competence and Security Studies
- B.C.F.S.S. in Cultural Fluency and Security Studies
- B.I.S.S.A. in Intelligence, Security Studies, and Analysis

Description of Courses

Cultural Competence and Security Studies (CCSS)

Undergraduate Courses

3315  Contemporary Security Issues in World Politics (3-0). This course focuses on current, major issues with an international dimension and/or global impact and with salience for the emerging pattern of world politics. While engaging in critical analysis of current issues, it examines the broader conceptual context and analytic framework that explain interactions among nation states and other actors on the international stage.

3317  American Government Politics and National Security (3-0). This course introduces students to the study of politics and government and examines the basic ideological, structural, and procedural choices faced by any political system. Students will understand the foundations and traditions of American democracy and the structure, decision processes and policy outcomes, especially defense policy outputs, of the American political system. Students will also examine current policy issues affecting the military.

3321  The Politics and Culture of Europe (3-0). This course examines the historic, cultural, economic, social, and geographic traits that distinguish this region and shape its domestic political processes and interstate relations. Students will critically compare the politics, governments and orientations of European states and important regional powers. The course will also cover contemporary regional issues such as democratization, arms control, and regional integration, with a particular emphasis on security concerns.

3323  The Politics and Culture of Asia (3-0). This course examines the historic, cultural, economic, processes, and interstate relations shaping part of the world. The course will also cover contemporary regional issues such as the influence of Japan and China on regional and global affairs with a particular focus on regional security concerns.

3325  The Politics and Culture of Latin America (3-0). This course examines the historic, cultural, economic, social, and geographic traits that distinguish this region and shape its domestic political processes and interstate relations. Students will explore selected Latin American political systems in detail, analyzing issues such as political stability, civil-military relations, and democratization along with politico-economic concerns such as developmental strategies, debt relief, and trade relations. The course will also cover contemporary regional issues such as democratization, arms control, and regional integration, with a particular emphasis on security concerns.

3327  The Politics and Culture of the Middle East (3-0). This course will examine the historic, cultural, economic, social, religious, and geographic traits that distinguish this region and shape its domestic political processes and interstate relations. The course will examine the governments of select countries while considering factors such as legitimacy and political development. The course will also cover contemporary regional issues such as democratization, arms control, and regional integration, with a particular emphasis on security concerns.

3329  The Politics and Culture of Africa (3-0). This course will examine the historic, cultural, economic, social, religious, and geographic traits that distinguish the states of Africa and their domestic political processes and interstate relations. The course will compare critically the politics, governments, and orientations of selected African states. It will also cover contemporary regional issues such as democratization, arms control, and regional integration, with a particular emphasis on security concerns.

4071  Internship. This course is designed to familiarize students with the application of knowledge gained in course work and with operations and problems in the field of cultural competence and security studies. Students must be pursuing a degree in Cultural Competence and Security Studies. Approval of instructor is required.

4150  Comparative Security Policy and Political Culture (1-0). Students will study the security policies and policy-making processes of various world regions as well as the national and regional implications of both traditional and nontraditional security issues. The course will examine the relationship between civilian authorities and the military establishment and the implications for governance. Grading will be either pass or fail. (Credit may not be earned for this course and Cultural Competence and Security Studies 4350.)

4191, 4291, 4391  Research. Individual research problems for superior students majoring in cultural competence and security studies. May be repeated for a total of six semester hours credit.

Prerequisites: Junior standing. Approval from the Chair of the Department is required prior to enrollment.
4310 The Political Economy of Europe (3-0). This course is an introduction to the political economy of Europe. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Europe. This course reviews and explores the key themes of Europe’s contemporary political economy. In doing so, it concentrates on Europe’s relationship with the global political economy and raises questions about the nature of state action in European countries.

4319 The Political Economy of the Middle East (3-0). This course is an introduction to the political economy of the Middle East. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in the Middle East. This course reviews and explores the key themes of the Middle East’s contemporary political economy. In doing so, it concentrates on the Middle East’s relationship with the global political economy and raises questions about the nature of state action in Middle Eastern countries.

4311 Terrorism and International Security (3-0). The course introduces the student to terrorism in the contemporary world and the strategic challenges it poses for global and U.S. security. Among some of the key issues explored are terrorism’s causes, terrorist ideology, types of terror groups and their strategic goals and practices. The course looks at the rise of the Al Qaeda terror organization, explores the emergence of home grown or domestic terrorists, analyzes regional terrorist groups and examines the development of U.S. and international counter terror policy. It will conclude by examining how different states have responded to terror organizations and how successful these strategies have been.

4315 The Political Economy of Asia (3-0). This course is an introduction to the political economy of Asia. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Asia. This course reviews and explores the key themes of Asia’s contemporary political economy. In doing so, it concentrates on Asia’s relationship with the global political economy and raises questions about the nature of state action in Asian countries.

4316 Energy and Resource Security (3-0). The class introduces the student to global resource security challenges in the 21st Century. Broadly interdisciplinary, the course uses business and international relations theories and analysis to examine resource security issues. Among the topics explored are the impact of resources on international trade, financial flows, the environment, nation-state competition, business practices and global security. The course examines the development of a national energy strategy and analyzes regional resource security issues. It concludes with an analysis of new technologies and resources that could dramatically alter the balance of power in the international system and the business world.

4317 The Political Economy of Latin America (3-0). This course is an introduction to the political economy of Latin America. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Latin America. This course reviews and explores the key themes of Latin America’s contemporary political economy. In doing so, it concentrates on Latin America’s relationship with the global political economy and raises questions about the nature of state action in Latin American countries.

4318 Rogue Nations and International Security (3-0). The end of the Cold War brought in a new era of world politics and security issues for the United States. But, with the new era came new paradigms and Washington is now faced with the issue of rogue nation-states. Iran, North Korea, Syria, and Cuba are examples (among others) of governments that conduct policies hostile to the United States and its allies. This course will examine paradigms of rogue state behavior; explore the issues that make rogue states dangerous to the United States and its allies, and analyze ways that policy makers can counter these hostile policies. The course will make use of case studies by examining the nation-states that have created challenges for America’s foreign policy.

4320 Human Rights and International Security (3-0). This is an introductory course in the field of Human Rights. The students will study the evolution of the notion of human rights from ancient time till the present day. The students will closely examine the nexus between the human rights and the national security by studying human security as a relatively new concept. The course includes the study of such major players in the field of human rights and human security as governments, inter-governmental organizations, NGO’s and other non-state actors. Of particular importance to this course is conducting an analysis of the role of civil society (human rights NGO’s, church groups, and grassroots groups). The course will feature important writings by practitioners and experts in the field.

4321 The Political Economy of Africa (3-0). This course is an introduction to the political economy of Africa. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Africa. This course reviews and explores the key themes of Africa’s contemporary political economy. In doing so, it concentrates on Africa’s relationship with the global political economy and raises questions about the nature of state action in African countries.

4322 WMD, Proliferation, and International Security (3-0). This course examines control of weapons of mass destruction (WMD), the proliferation of these weapons, and the implications of both for international security. Students will analyze both the capabilities and the intentions of various nations as well as U.S. nuclear policy regarding both allies and adversaries. In addition, the course will explore the role of international organizations such as the UN and the IAEA in countering WMD and proliferation as well as important treaties such as the Nuclear Non-proliferation Treaty (NPT). Students will examine the role of both state and non-state actors in pursuing WMD capabilities and will assess possible policy responses to ensure international security.

4323 Cultural Competency and Contemporary Security Issues in Europe (3-0). This course focuses on current, major issues within the European region. While engaging in critical analysis of current issues, the course examines the broader conceptual context and analytic framework that explain interactions within the region and the international arena.

4325 Cultural Competency and Contemporary Security Issues in Asia (3-0). This course focuses on current, major issues within the Asian region. While engaging in critical analysis of current issues, the course examines the broader conceptual context and analytic framework that explain interactions within the region and the international arena.

4327 Cultural Competency and Contemporary Security Issues in Latin America (3-0). This course focuses on current, major issues within the Latin American region. While engaging in critical analysis of current issues, the course examines the broader conceptual context and analytic framework that explain interactions within the region and the international arena.
4329 Cultural Competency and Contemporary Security Issues in the Middle East (3-0). This course focuses on current, major issues within the Middle Eastern region. While engaging in critical analysis of current issues, the course examines the broader conceptual context and analytic framework that explain interactions within the region and the international arena.

4331 Cultural Competency and Contemporary Security Issues in Africa (3-0). This course focuses on current, major issues within the African region. While engaging in critical analysis of current issues, the course examines the broader conceptual context and analytic framework that explain interactions within the region and the international arena.

4350 Globalization and International Security (3-0). Since the end of World War II, globalization has had a profound impact on the policies, economics, societies and militaries of both state and non-state actors on the regional and world stages. Globalization has brought improved conditions to some nation-states, but for others, it has created an environment of “haves and have nots.” Globalization has also led to ethnic, economic, and religious conflict in regions affecting the national security of the developed world. This course will analyze the way our interconnected world creates differing realities for different nation-states and regions, and what the likely scenarios are for the future of the 21st century. (Credit may not be earned for this course and Cultural Competence and Security Studies 4150.)

4381 Special Topics (3-0). A seminar in selected cultural competence and security studies topics. May be repeated once for credit when topic varies.

**Chinese (CHIN)**

**Undergraduate Courses**

1301 Chinese Mandarin (3-0). In this course, students will be introduced to basic structures and usage of Chinese Mandarin. This emphasis is on familiarization of the Chinese Mandarin vocabulary and grammar, accuracy of pronunciation, acquisition of speaking and listening skills, and introduction of cultural elements.

2323 Chinese Cultures (3-0). In this course, students will be introduced to the Chinese culture by exploring the vast geography and ancient history of China. Additionally, students will study the government, politics, economy, and culture of China.

**Cultural Competence (CUL)**

**Undergraduate Courses**

2323 World Cultures (3-0). In this course, students will analyze the importance of culture around the world. Students will be introduced to cultures while exploring the historical, contextual, and cultural differences of various regions. Basic concepts related to culture will be introduced and their relevance illustrated through case studies on how culture has impacted the world.

3310 Introduction to Cultural Competence: Making Sense of the World I (3-0). This course serves as an introduction to various analytical approaches for understanding the dynamics of cross-cultural interaction. Students will explore the variety of “worlds” made visible through the lens of theory. The course aims to foster critical thinking about how cultural constructs shape our understanding of the world and attempted solutions to global problems.

3312 Cultural Competence: Making Sense of the World II (3-0). This course is a continuation of Cultural Competence 3310 that extends its analysis of cultural constructs to include specific issues related to international relations, solutions to global problems, and national security.
Curriculum and Instruction

College of Education:

Department of Curriculum and Instruction

Department Chair: James A. Summerlin

Faculty: Hightower, Livengood, McGLamery, Miazga, Summerlin, Williams, Williamson.

Contact Information: Carr Education-Fine Arts Building, Room 126
Program Advisor: Amy M. Williamson
E-mail: amy.williamson@angelo.edu
Telephone: 325-486-6776, Fax: 325-942-2039
http://www.angelo.edu/dept/ci/

Curriculum and Instruction

The graduate faculty in the Department of Curriculum and Instruction are actively involved in research, development of new teacher education models, and in-service education programs throughout the region served by Angelo State University.

The Master of Arts in Curriculum and Instruction offers two options: Advanced Instructor (36 SCH program) or Teacher Certification (42 SCH). These programs provide the student with critical knowledge to connect scholarship, research and professional practice to teach a diverse student population. To be eligible for the Teacher Certification option, a student with a non-teaching bachelor’s degree must have met current state requirements and been admitted to the Educator Preparation Program; and must pass the TExES certification examination in the content area prior to enrolling in EDG 5360.

TExES Eligibility And Registration Procedures

All certification candidates must pass two certification examinations - one in the content area and one in pedagogy and professional responsibilities. Candidates with a foreign language as a content area will be required to take the Texas Oral Proficiency Test (TOPT).

In order for candidates at Angelo State University to be approved to take the Texas Examinations of Educator Standards (TExES) they must have completed the certification program requirements for each examination.

TExES Approval Procedure

- Candidates must have met current state requirements and been admitted to the Educator Preparation Program.
- Candidates will be approved to take the grade-level appropriate Pedagogy and Professional Responsibilities examination after their internship.

TExES Registration Procedures

Registration for the TExES examination is online. Instructions for the online registration process are located on the College of Education website www.angelo.edu/dept/ceducation. Candidates needing special testing arrangements should notify the director of certification in the College of Education for registration assistance.

Recommendation for Certification

In order for Angelo State University to recommend a candidate for certification, the candidate must have earned a 2.50 overall undergraduate grade point average, must have completed all required courses in the teacher certification areas with a grade point average of 3.00 and with no grade lower than a B. All other university requirements must be completed. The candidate must also continue to demonstrate sound physical health, sound mental health, and acceptable moral character.

It is the candidate’s responsibility to inform the College of Education that all certification requirements have been completed and to ensure that all appropriate forms and fees have been submitted.

The candidate must also present satisfactory scores on all required Texas certification tests, i.e., the TExES, and the Language Other Than English (LOTE) for Spanish or French certification. Individuals must apply for certifications online at the State Board for Educator Certification’s website.

Required Fingerprinting of Applicants for Certification

Applicants for educator credentials must submit fingerprints to the State Board for Educator Certification (SBEC) so the FBI can conduct a national criminal background check. The Department of Public Safety (DPS) has a contract with a private vendor (L-1 Identity Solutions) to provide a digital fingerprinting service to those individuals that require fingerprinting for state licensing purposes in Texas. This includes applicants for educator credentials. The program is known as Fingerprint Applicant Services of Texas (FAST).

- SBEC cannot require that applicants use the digital fingerprinting vendor, but strongly encourages them to do so.
- Applicants will be required to pay their SBEC fingerprint fees (online) prior to being able to use the vendor’s digital services.
- Applicants will receive an e-mail from SBEC that will contain a document (FAST pass) that will allow them to use the vendor’s digital services.
- Applicants will be required to make an appointment with the vendor and present the document (FAST pass) at their fingerprint appointment.
- Applicants will be required to pay the vendor a fee for the fingerprinting service.

Troops to Teachers

Troops to Teachers (TTT) is a federally funded program to assist military personnel and veterans transition to a new career as public school teachers in “high-needs” schools and districts. Counseling, referral, and placement assistance is provided through a network of state offices. In some cases TTT provides financial assistance to eligible veterans. For more information, please visit the TTT website at http://www.texastroopstoteachers.org/.

##### Teacher Certification Option (42 SCH)

Same as the Advanced Instructor Option, with the addition of:

| EDG 5360 Teaching Internship (twice) | 6     |

EDG 5360 must be taken twice for credit. To be eligible to take EDG 5360, the student must have a passing score on the appropriate TExES subject area test.

As a summative requirement for the degree, the candidate must successfully complete a comprehensive program review with a committee of Graduate Faculty.

Courses in this program are offered through an online format.

##### Teacher Certification Only (Non-degree Program)

Students desiring a teaching certificate only (24 graduate semester credit hours) must meet the requirements of the Educator Preparation Program and have a bachelor’s degree and meet current state requirements. Prior to enrolling in EDG 5360 or EDG 5660, the student must pass the TExES certification examination in the content area and have earned no grade lower than a “B” in the 12 SCH cohort courses.

Curriculum and Instruction

Course Descriptions

Education - Graduate (EDG) *

Graduate Courses

**5360 Teaching Internship (0-0-3).** Supervised practice in applying instructional skills in organized settings. (May be repeated once for credit.) Grading will be either pass or fail.

**5660 Clinical Teaching (0-0-6).** Observation of and participation in supervised teaching in appropriate approved school settings for students seeking teacher certification. Grading will be either pass or fail.

6300 Curriculum Development (3-0). Learn to analyze and design curriculum appropriate for all students using feedback from continuous and appropriate assessment. Curriculum will be based on valid learning theories, have clear goals and objectives, consider student diversity, and account for external influences.

6301 Social and Cultural Influences (3-0). Designed to present a broad base of knowledge about culture and learning. Approaches, materials, and research will be investigated. Specific skills for identifying learning problems and solving them through classroom instruction will be studied.

6302 Tests and Measurements (3-0). A study of typical methods of measuring intelligence, achievement, special aptitudes, and personality. Emphasis is placed on the interpretation and use of tests. Elementary statistical terms and processes are studied.

6303 Lifespan Development (3-0). A study of human development through the life span, including social, emotional, cognitive, language, and cultural influences.

6304 Applied Research (3-0). This course will focus on collecting and interpreting data to achieve a stated educational goal for each individual student. Concepts of tests and measurements will be emphasized for interpreting research results and gathering data for applied research. Students will develop a project based upon their research. Student will apply concepts learned within their own classroom under the guidance of the professor.

6305 Legal and Ethical Principles (3-0). Explores the field of knowledge of federal, state, and local school laws pertinent to educational administration. Includes a study of ethics and codes of ethics used to facilitate effective decision making.

6310 Behavior Management (3-0). Learn to organize a positive and productive learning environment. Integrate the study of the physical and emotional environment to develop effective classroom management techniques and student behavior modification theory.

6311 Instructional Supervision (3-0). Designed to acquaint students with current literature regarding instructional supervision including such topics as theories of leadership, communication, change, organization, and decision making.

6312 Learning Theories (3-0). Learn to apply evidence-based instructional methods through the study of incidence and etiology of different learning styles.

6313 Foundations of the Public School System (3-0). Develop an understanding of the organization and structure of the school system. Learn to fulfill the professional role and responsibilities of the instructor, adhering to the legal and ethical requirements of the profession.

6314 Effective Instruction and Assessment (3-0). Learn effective and practical instructional methods that utilize appropriate technology and engage students in a variety of formats. Study responsive instruction practices that incorporate continuous assessment into the delivery.

6315 Content Area Instruction (3-0). A course designed to study higher level thinking skill development in the content areas for diverse classrooms. Includes unit preparation, evaluation of curriculum materials, adapting learning experiences, theories and techniques of literacy, internet applications and assessments.

6316 Instructional Issues: Theory and Practice (3-0). Designed to explore the theory and practice of effective instructional practices in diverse classrooms. Focus on research relevant to factors influencing instructional effectiveness and the interaction among instructional and learning variables. Includes current issues in instruction such as instructional technology and others.

6391 Individual Research. A specialized course which may be directed reading or research for superior students under the direction of a graduate faculty member. (Course may be repeated only with departmental approval.)

6399 Professional Practice (0-0-3). Practical application of acquired knowledge in an appropriate environment under the supervision of a qualified professional. Meets the practicum or internship requirements for a professional certificate. Grading will be either pass or fail. (May be repeated for credit.)

Prerequisite: Permission of graduate advisor.

* Other College of Education courses may be found in the Guidance and Counseling, Educational Administration, and Student Development and Leadership in Higher Education sections.

** A maximum of two 5000-level courses totaling no more than eight semester credit hours may be taken for graduate credit by graduate students and applied to the graduate degree plan. Department approval is required.
The College of Business at Angelo State University does not offer a degree in Economics. The following economics courses support majors in the College of Business.

### Course Descriptions

#### Economics (ECO)

**Undergraduate Courses**

- **2300 Economic Analysis (3-0).** A one-semester introduction to microeconomic and macroeconomic principles. The course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

- **2301/ECON 2301 Principles of Macroeconomics (3-0).** Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.
  
  Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

- **2302/ECON 2302 Principles of Microeconomics (3-0).** Product pricing, resource allocation, factor pricing, income distribution, and economic growth; contemporary problems such as foreign trade and agriculture.
  
  Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

- **3320 Economics for Managers (3-0).** The application of economic theory to the management of firms. Includes topics of demand and consumer behavior, production and costs, theory of firms, and public policy towards business. This course is specifically designed for business majors.
  
  Prerequisite: Economics 2300, or Economics 2301 and 2302.

- **3331 Comparative Economic Systems (3-0).** This course is a study of various types of economic systems ranging from a free market economy to a centrally planned economy. This includes capitalism, socialism, communism, and modifications to these basic models.
  
  Prerequisite: Economics 2300, or Economics 2301 and 2302.

- **3360 Money and Banking (3-0).** The role of money, financial markets and institutions. Monetary theory, central bank monetary policy and the international financial system. (Credit may not be earned for this course and Finance 3360).
  
  Prerequisite: Economics 2301.

**Graduate Courses**

- **4307 International Economics (3-0).** Introduction to international trade and finance. Centered on present day currency arrangements with consideration of recent and proposed reforms of the international financial system. Includes the principles that govern world trade and investments with discussion of the factors that determine the direction of trade, and policies that inhibit the free flow of trade.
  
  Prerequisites: Economics 2301 and 2302.

- **5191 Independent Study in Economics (1-0).** A specialized on-line course in Economics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
  
  Prerequisite: Permission of the Instructor.

- **6300 Economic Theory and Policy (3-0).** This course combines macroeconomics, including demand and supply, unemployment, inflation, gross domestic product, the U.S. banking system, and microeconomics, including consumer choice, rents, profits, the firm’s cost and output determination, competition, monopoly, and the labor market.

- **6311 Managerial Economics (3-0).** A survey of microeconomic theories and analysis methods with applications in business problems for managerial decision making. Topics include demand analysis and estimation, costs, market structures and pricing.
  
  Prerequisite: Economics 2302 and Management Science 6301.

* Credit for 5000 level business area courses may not be used for degree requirements.
Graduate Programs

Master of Education (M.Ed.)
Educational Administration (Principal)

The graduate faculty in the Department of Curriculum and Instruction are actively involved in research, development of new teacher education models, and in-service education programs throughout the region served by Angelo State University.

Applicants must hold a valid Texas teaching certificate or its equivalent. The Master of Education (M.Ed.) in Educational Administration prepares the student to apply to the State Board for Educator Certification (SBEC) for certification as a principal. It is the responsibility of the student to apply for that certificate. As part of the certification requirements, two years teaching experience in an accredited public school is required prior to application. A copy of the public school teacher’s service record serves as documentation.

As a summative requirement for the degree, the candidate must successfully complete a comprehensive program review with a committee of Graduate Faculty.

Courses in this program are offered through an online format.

Post Master’s Certification Program Requirements

Students pursuing a professional certificate on a certification plan may use previous graduate course work to fulfill certification requirements. All work must be completed within a period of six years from the earliest credit to be counted on the certification plan. Under certain circumstances, a time extension of up to four years may be granted on a course by course basis.
If a time extension for one or more courses is desired, a written application must be presented to the program advisor appropriate to the certification plan. It must explain (1) why the certification plan was not completed in a timely manner, (2) a schedule for completing the certification plan, and (3) information indicating that the student’s knowledge of the subject matter in each course for which an extension is requested remains current.

Time extensions are not routine. Courses taken more than 10 years before the completion of the certification plan are never allowed to be used toward the plan. Additional courses are frequently assigned to the student who has not completed the certification plan requirements within the six-year time limit.

**Principal Certification Program**

Individuals with an appropriate master’s degree from an accredited institution may seek principal certification only. All work on this certificate must be done in residence, i.e. no transfer work is accepted. To be recommended for certification, the applicant must hold a Texas teaching certificate and have at least two years teaching experience in the Texas public school system or equivalent. Additionally, students must receive a passing score on the TExES Principal exam. During their first semester, students in the program must contact the Program Coordinator for advice on starting the Principal’s Internship.

Other courses may be required as determined by the Educational Administration advisor.

**Superintendent Certification Program**

In addition to graduate school entrance requirements, the individual seeking admission to the Superintendent Certificate Program must hold a valid Texas Principal’s Certificate or its equivalent. All work on this certificate must be done in residence, i.e. no transfer work is accepted. An interview with the program advisor is required to enter the program. Admission to the program is based upon available space. This is an on-line program. After completing the required course work listed below, candidates must receive a passing score on the Superintendent TExES. Approval to take the TExES must be obtained from the program advisor.

### Course Descriptions

**Education - Graduate (EDG)** *

**Graduate Courses**

**6300 Curriculum Development (3-0).** Learn to analyze and design curriculum appropriate for all students using feedback from continuous and appropriate assessment. Curriculum will be based on valid learning theories, have clear goals and objectives, consider student diversity, and account for external influences.

**6301 Social and Cultural Influences (3-0).** Designed to present a broad base of knowledge about culture and learning. Approaches, materials, and research will be investigated. Specific skills for identifying learning problems and solving them through classroom instruction will be featured.

**6302 Tests and Measurements (3-0).** A study of typical methods of measuring intelligence, achievement, special aptitudes, and personality. Emphasis is placed on the interpretation and use of tests. Elementary statistical terms and processes are studied.

**6303 Lifespan Development (3-0).** A study of human development through the life span, including social, emotional, cognitive, language, and cultural influences.

**6304 Applied Research (3-0).** This course will focus on collecting and interpreting data to achieve a stated educational goal for each individual student. Concepts of tests and measurements will be emphasized for interpreting research results and gathering data for applied research. Students will develop a project based upon their research. Student will apply concepts learned within their own classroom under the guidance of the professor.

* Other College of Education courses may be found in the Curriculum and Instruction, Guidance and Counseling, and Student Development and Leadership in Higher Education sections.
6305 Legal and Ethical Principles (3-0). Explores the field of knowledge of federal, state, and local school laws pertinent to educational administration. Includes a study of ethics and codes of ethics used to facilitate effective decision making.

6311 Instructional Supervision (3-0). Designed to acquaint students with current literature regarding instructional supervision including such topics as theories of leadership, communication, change, organization, and decision making.

6326 Education of Exceptional Children (3-0). The nature, needs and problems of exceptional children and how these relate to educational provisions are studies. The status of individuals with disabilities in society will be emphasized. Federal laws ensuring the rights of individuals with disabilities in society will be stressed.

6340 Structure and Organization of the School System (3-0). A study of the organization and the administrative structure of the public school system. An introduction to organizational theory.

6341 Role of the Principal (3-0). Designed to acquaint the student with the organization, program, curriculum, plant supervision, and education procedures for the elementary, middle, and senior high school.

6342 Personnel and Fiscal Management (3-0). This course is designed to develop knowledge and skills related to public school campus budgets, accountability procedures and human relations issues arising from fiscal decisions.

6343 School-Community Relationships (3-0). Designed to cover the principles, philosophy, and techniques for improving the educational program through building good relationships. Special attention is given to the different roles people play and the superintendent's experiences with school board relations and community relations. Readings and resources include the area of leadership.

Prerequisites: Principal certificate and permission of the professor.

6344 School District Resource Management (3-0). Designed to develop knowledge and skills related to district budget procedures, revenues, state, county and school district finance. Other problems related to the history of public school financing, legislative actions and financing public education will be included.

Prerequisites: Principal certificate and permission of the professor.

6345 Human Relationships in Educational Administration (3-0). Designed to explore the administrator's professional relationships with teachers, parents, students, principals, other educational employees in the district, and the School board. Personnel and Human Resources areas as well as Staff Development are included in the course. Leadership opportunities abound in these areas and will be included in activities.

Prerequisites: Principal certificate and permission of the professor.

6346 School Plant Planning and Maintenance (3-0). A study of the issues facing the school administrator and the School Board in determining school building needs, planning for facilities, responsibilities of architects and contractors, equipping and furnishing school buildings, and maintaining and redesigning existing buildings. Other relevant topics include asbestos, bond issues and ethics.

Prerequisites: Principal certificate and permission of the professor.

6347 Practicum in School Administration (0-0-3). Designed to provide a field experience in school administration with emphasis on instructional leadership at different grade levels, public relations, personnel administration, and business management. Special seminars on selected topics, co-operatively designed by graduate advisor and public school administration, will be required. Grading will be either pass or fail. (May be repeated for credit.)

Prerequisite: Permission of the program advisor.

6348 Superintendent Internship in Education (0-0-3). Online course and field experience. Guided experiences in central office and superintendent administration under the supervision and direction of a central office administrator and a university professor. The internship is taken as the final course in the superintendent certification program. Grading will be either pass or fail.

Prerequisites: Principal certificate and permission of the professor.

6363 Leadership (3-0). An examination of organization theory, models, and policies; governance and management process; and leadership perspectives and leadership theory. A review of research and new conceptual perspectives will be included.

6391 Individual Research. A specialized course which may be directed reading or research for superior students under the direction of a graduate faculty member. (Course may be repeated only with departmental approval.)

6399 Professional Practice (0-0-3). Practical application of acquired knowledge in an appropriate environment under the supervision of a qualified professional. Meets the practicum or internship requirements for a professional certificate. Grading will be either pass or fail. (May be repeated for credit.)

Prerequisite: Permission of graduate advisor.
College of Arts and Sciences:
Department of English and Modern Languages

Department Chair: Laurence E. Musgrove

Faculty: Allen, Arreola, Ashworth-King, Dalrymple, Dilts, Ellery, Erickson, Evans, Garrison, Gates, Hama, Hartje, Jackson, Kornasky, Ryan, Schonberg, Scott, Serrano, Wegner.

Professor Emerita: Duarte.
Professor Emeritus: Reeves.

</tr>
<tr>
<td>English 4358, 4360, 4361, 4365, 4373</td>
<td>15</td>
</tr>
</tbody>
</table>

***The number of advanced hours in electives is determined by the specialization area chosen.

* Students may choose a specialization area in Creative Writing, English Language Learning and Linguistics, or Technical and Business Writing.
** Students may take either 3351 or 3352 for advanced credit - not both.
English

Minors

Minor in English with a specialization in Creative Writing: Non-English majors who choose to minor in English may specialize in creative writing by selecting the following courses: English 1301, 1302, 2328, one additional sophomore literature, 3355 or 3356, and 4376 or 4377.

Minor in English with a specialization in English Language Learning and Linguistics: Designed for students interested in teaching English as a second language abroad or in TESOL English language training in the United States. The minor does not lead to ESL Certification K-12. This minor requires 18 hours: Linguistics 2340, 3320, 3323, 3326, 3328, and 4323. Courses in the minor are cross-listed in the disciplines of English and Linguistics. Students majoring in English with a specialization in English Language Learning and Linguistics may not choose a minor in English Language Learning and Linguistics or a minor in Linguistics.

Minor in English with a specialization in Technical and Business Writing for Non-Business Major: Non-English majors without a Business major who choose a minor in English may specialize in technical and business writing by selecting the following courses: English 1301, 1302, 3 hours of 2000-level literature, 3351 or 3352, and 2 upper-level technical and business writing courses: 3353, 3354, 4360, or 4365.

Minor in English with a specialization in Technical and Business Writing for Business Major: Business majors who choose a minor in English may specialize in technical and business writing by selecting the following courses: English 1301, 1302, 3 hours of 2000-level literature, 3352, and 2 upper-level technical and business writing courses: 3353, 3354, 4360, or 4365.

Bachelor of Arts (B.A.)

English Major with Teacher Certification

Grades 8-12 *

(120 semester hours **)

A major in English with teacher certification (Grades 8-12) requires a total of 36 semester hours, of which 24 must be advanced. The 24 advanced hours must include 3 hours of American literature, 3 hours of British literature before 1800 (3301, 3311, 3312, or 3333), 3350, 4320, 4358, and 4361, but may not include 3336, 3351, or 3352 for certification credit.

Electives

Electives (at least one additional hour) .......................... 1

Teacher Certification Grades 8-12 for Non-majors: A student who is not an English major but chooses English Language Arts and Reading for a certification area must complete 30 SCH from the following English courses: 1301, 1302, 6 hours of sophomore literature, 3 advanced hours in American literature, 3 advanced hours in British literature, 3350, 4320, 4358, and 4361. Students may not take 3336, 3351, or 3352 for certification credit.

See the Teacher Certification section of this Catalog page 262 for additional requirements.

TExES Eligibility: To be eligible for approval to take the Texas Examination of Educator Standards (TExES) in English Language Arts and Reading, Grades 8-12, students must satisfy the applicable State and University minimum requirements as well as the following departmental requirements. Students must have completed English 4320 with a grade of “C” or better, must have satisfactorily completed the TExES Online preparation session provided by the department, and must receive departmental approval.

Graduation Requirement for the English Major

Candidates for the Bachelor of Arts in English must complete a portfolio to be eligible for graduation. Students should submit this portfolio after completing all major requirements or in the semester immediately prior to graduation. The portfolio grade will not affect GPA, but will be part of the student’s record.
## Undergraduate Certificates

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

### Certificate - Creative Writing: Fiction Concentration
This certificate is designed for students seeking a short sequence of study in fiction writing.

**(9 SCH required)**
- ENG 2328 Introduction to Literature and Creative Writing........3
- ENG 3355 Fiction and Fiction Writing........................................3
- ENG 4376 Fiction Writing Workshop...........................................3

### Certificate - Creative Writing: Poetry Concentration
This certificate is designed for students seeking a short sequence of study in poetry writing.

**(9 SCH required)**
- ENG 2328 Introduction to Literature and Creative Writing........3
- ENG 3356 Poetry and Poetry Writing...........................................3
- ENG 4377 Poetry Writing Workshop............................................3

### Certificate - Technical and Business Writing
This certificate is designed for students and professionals who wish a sequence of courses leading to a certificate or for undergraduate majors (including English majors) seeking to focus their upper-division electives on a certificate program in technical and business writing.

**(12 SCH required)**
- ENG 3351 Technical Writing........................................................3
- ENG 3352 Business Communications.............................................3
- ENG 3353 Web Publishing..............................................................3
- ENG 4360 Professional Editing......................................................3

Graduate Program

Master of Arts (M.A.) in English

The graduate program in English emphasizes competence in analysis of literature and development of skills in language use. The department offers graduate course work leading to a major for the degree of Master of Arts.

A program in English should be initiated under the direction of the departmental graduate advisor and approved by the Dean of the College of Graduate Studies.

Master of Arts Degree

The Master of Arts program is designed to enhance skills in literature, language, research, and critical thinking. It is offered for students who desire to teach, for those who want to pursue an advanced degree, and for those who wish a degree in liberal arts with English specialization.

Applicants for the degree must complete 36 semester credit hours of course work beyond the bachelor’s degree. Thirty six hours of English are required including English 6391: Bibliography and Research Methods; 6 SCH of American literature; 6 SCH of British literature; and 3 SCH of language studies; up to 6 SCH may be in approved supporting electives.

A written examination over a prescribed reading list is required of all students who have completed 24 semester credit hours of course work. Offered once on a specified date each long semester, the five-hour examination consists of three essay questions. Satisfactory responses to all three questions are required for graduation.

Facilities

The graduate student majoring in English relies heavily on the University library for study and research. Good collections in all areas of literature, especially American and British literature, provide important source materials for research. Primary sources are complemented by significant journal holdings. Graduate faculty research interests range from studies in popular American culture to Medieval literature.

The department operates a Writing Center that provides experience for graduate assistants in teaching writing and reading skills. Within a comfortable working environment, tutors provide one-to-one tutorials, computer-based instruction, and group writing workshops to undergraduate and graduate students. The department also offers students the opportunity to serve as Teaching Assistants. Interested students should see the Program Advisor for more information.

Developmental Program

Texas Success Initiative (TSI) Requirements. A student who fails to meet the minimum passing standard on the reading and/or writing section of the State-approved TSI Assessment test must enroll in an appropriate developmental option determined by the Department of English and Modern Languages.* The student must be continuously enrolled in such developmental education until the program is successfully completed. A student may not enroll in a designated college-level course for reading and/or writing while participating in a developmental program required for TSI purposes. TSI requirements may be satisfied by one of the options specified under Developmental Education page 287.

Developmental Course

Non-course-based Option. Certain students as determined by the Department of English and Modern Languages may be eligible to participate in non-course-based activities to complete TSI requirements. Contact the department for information about this option.

Course-based Option. A grade of “C” or better is required for successful completion of English 130C.

A student enrolled in English 130C is also subject to the special provisions regarding class attendance and withdrawals for developmental courses page 296.

State regulations prohibit the use of credit in English 130C to fulfill degree requirements; however, the grade earned in this course is included in the computation of a student’s grade point average.

130C Fundamentals of English (3-2). An intense study of the fundamentals of reading and writing that emphasizes concepts basic to both verbal skills. Students receive abundant practice in composition as well as in comprehension and analysis of selected readings. Satisfactory completion of this course shall be a condition for enrolling in English 1301. (Laboratory activities will supplement classroom instruction. The amount of time required of students in the laboratory will depend on the level of deficiency.)

College-Level Courses

The freshman college-level English program is designed to enable the student to achieve proficiency in composition. Proficiency at the college level may be demonstrated by satisfactorily completing English 1301 and 1302 or by achieving credit through examination and passing the writing and reading sections of a State-approved TSI Assessment test.

Completion of the proficiency requirement in composition is prerequisite to sophomore-level courses, and completion of six semester hours of sophomore English is prerequisite to advanced courses.

Course Descriptions

English (ENG)

Undergraduate Courses

1301/ENGL 1301 English Composition (3-0). Emphasizing the writing process, the course offers abundant practice in producing effective prose essays as well as in analyzing and discussing selected readings.

Prerequisites: Completion of English Texas Success Initiative (TSI) requirements.
English

1302/ENGL 1302 Writing Across the Curriculum (3-0). A course in critical reading and writing across the curriculum, including the research process and the research paper.

Prerequisite: English 1301 or equivalent credit.

The sophomore literature requirement for all degree plans may be met by taking any of the five sophomore literature courses offered (2323, 2324, 2325, 2328, 2329). The courses may be taken in any sequence or any combination.

Satisfactory completion of English 1301 and 1302 or achieving credit through examination is prerequisite for any sophomore-level course.

2323 Readings in British Literature (3-0). A study of diverse works by British writers. Emphasis on reading, comprehending, appreciating, and thinking critically about the selected works within the context of British culture and literary history.

2324 Readings in American Literature (3-0). A study of diverse works by American writers. Emphasis on reading, comprehending, appreciating, and thinking critically about the selected works within the context of American culture and literary history.

2325 Readings in World Literature (3-0). A study of diverse works by writers from various countries. Emphasis on reading, comprehending, appreciating, and thinking critically about the selected works within the context of the culture and literary history of the works’ origins.

2328 Introduction to Literature and Creative Writing (3-0). A sophomore literature course also serving as an introduction to creative writing with structured practice in the reading, analyzing, and responding to literature, as well as the production of short fiction and poetry.

2340 Introduction to the Study of Language (3-0). An introduction to linguistics, the scientific study of language: the nature of human language; language and the brain; language and society; formal linguistics includes phonetics (the properties of speech sounds), phonology (the systematic sound patterns of language), Morphology (the grammatical structure of words), syntax (the structure of sentences), and semantics/pragmatics (the meaning and use of words and sentences). Credit may not be earned for this course and Linguistics 2340.

Prerequisite: English 1302

Satisfactory completion of six semester hours of sophomore English literature is prerequisite to advanced courses (3000- and 4000-level courses). EXCEPTION: Satisfactory completion of three semester hours of sophomore English literature is prerequisite to English 3351, 3352, 3353, 3354, 4360, and 4365.

3301 Medieval English Literature (3-0). English literature of the Middle Ages from the Anglo-Saxon period to the fifteenth century.

3309 Victorian Literature (3-0). Major English works of the Victorian period exclusive of the novel.

3311 English Renaissance Literature (3-0). English literature of the sixteenth and seventeenth centuries, excluding Shakespeare. Typical studies include drama, lyric poetry, dramatic poetry, and prose.

3312 English Literature of the Restoration and Enlightenment (3-0). Major English authors from 1660 to 1785, with analysis of representative works.

3320 Descriptive Linguistics (3-0). An examination of the science of human language: concentration on formal linguistics (phonetics, phonology, morphology, syntax, semantics/pragmatics) and survey of psycholinguistics, sociolinguistics, historical linguistics, applied linguistics. Credit may not be earned for this course and Linguistics 3320.

Prerequisite: English 1302.

3323 English Phonology and Morphology (3-0). Study of the speech sound system and the study of the structure of words. Credit may not be earned for this course and Linguistics 3323.

Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

3325 English Syntax and Semantics (3-0). Study of the rules of phrase and sentence formation and the study of linguistic meaning of morphemes, words, phrases, and sentences. Credit may not be earned for this course and Linguistics 3326.

Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

3326 English Syntax and Semantics (3-0). Study of the rules of phrase and sentence formation and the study of linguistic meaning of morphemes, words, phrases, and sentences. Credit may not be earned for this course and Linguistics 3326.

Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

3328 Psycholinguistics (3-0). Study of language and the brain, particularly child language acquisition and adult language learning, but also linguistic performance and speech comprehension and production. Credit may not be earned for this course and Linguistics 3328.

Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

3331 American Literature to 1870 (3-0). A survey of authors, genres, themes, and movements in American literature before 1870.

3332 American Literature after 1870 (3-0). A survey of authors, genres, themes, and movements in American literature after 1870.

3333 British Literature to 1800 (3-0). A survey of authors, genres, themes, and movements in British Literature to 1800.

3334 British Literature After 1800 (3-0). A survey of authors, genres, themes, and movements in British Literature after 1800.

3336 Folklore (3-0). A study of folk motifs of various cultures throughout the world.

3339 Ethnic American Literature (3-0). A study of the contributions of one or more ethnic groups, excluding works covered in English 4336: Mexican American Literature.

3341 Contemporary Literature (3-0). A study of selected works of literature written within the past half century. Will include a variety of authors, genres, and national literary traditions.
3350 Young Adult Literature (3-0). A survey of literature for young adults with attention to literary history, aesthetic qualities, and critical approaches. Recommended only for students seeking secondary certification.

3351 Technical Writing (3-0). Study and practice in document development for majors in agriculture, engineering, mathematics, nursing, science, and other technical fields. The course includes intensive use of computer skills, especially word processing and graphics.
Prerequisites: One sophomore literature course; 60 semester credit hours.

3352 Business Communications (3-0). Study of and practice in the skills and knowledge needed to communicate effectively in today's business environment.
Prerequisite: One sophomore literature course.

3353 Web Publishing (3-0). Comprehensive overview of analyzing and designing functional websites for the workplace. Focuses on theoretical aspects and practical applications of web design, as well as principles and practices of multimedia design and implementation.
Prerequisite: One sophomore literature course.

3354 Intercultural and International Technical and Business Writing (3-0). Comprehensive overview of the role of culture in technical and business writing practices with a focus on designing professional documents for intercultural and international audiences.
Prerequisite: One sophomore literature course.

3355 Fiction and Fiction Writing (3-0). A study of the theory and accepted practices of fiction and fiction writing. Writing assignments may include both critical essays and original fiction.

3356 Poetry and Poetry Writing (3-0). A study of the theory and accepted practices of poetry and poetry writing. Writing assignments may include both critical essays and original poetry.

4309 Shakespeare (3-0). A study of Shakespeare's dramatic and nondramatic works.

4310 Studies in the British Novel (3-0). The study of a variety of topics and authors in the British novel.

4311 Topics in British Literature (3-0). A study of one or more topics in British literature.

4320 The Discipline of English (3-0). The course focuses on the theoretical considerations of literacy in the 21st century, specifically literature, composition, and language. The class also engages students in exploring and developing instructional practices appropriate for the secondary English classroom.
Prerequisites: 90 semester credit hours, including 21 hours of English; 2.50 GPA cumulative and in residence, with no grade lower than "C" in all completed required English courses.

4323 Methods of Teaching Foreign/Second Language (3-0). Study and application of perspectives, theories, pedagogies, and methods of language teaching and learning. Credit may not be earned for this course and Linguistics 4323.
Prerequisites: English/Linguistics 2340 or English/Linguistics 3320 and English/Linguistics 3328.

4328 Studies in a Single Author (3-0). A study of one author's creative development and production. (May be repeated once when author varies.)

4329 Studies in Short Fiction (3-0). A study of major works, authors, periods, and/or theories of short fiction. Specific topics may vary.

4330 Studies in the American Novel (3-0). The study of a variety of topics and authors in the American novel.

4335 Comparative Literature (3-0). Non-English literature in translation. Emphasis may vary from semester to semester upon theme, genre, or national literature.

4336 Mexican American Literature (3-0). The literature of Mexican American authors in various genres.

4337 Women's Literature (3-0). A study of literary texts, in various genres, by women.

4344 Topics in American Literature (3-0). A study of one or more topics in American literature.

4353 Literary Criticism (3-0). A study of critical theories and/or methods of literary interpretation.

4355 Film Criticism (3-0). A study of the cinema as an art form and an index to popular culture.

4358 Advanced Composition (3-0). Advanced technique and practice in writing processes as well as in rhetorical, literary, and stylistic analysis.

4360 Professional Editing (3-0). Study and practice in editing methods for business, technical, scientific, and other professional documents, both electronic and paper. Practical experience includes editing documents produced by the business community and university.
Prerequisite: One sophomore literature course.

4361 English Grammar (3-0). A study of grammar, including grammatical forms and functions, sentence structure, and diagramming.

4363 History of the English Language (3-0). A study of the structures of Old, Middle, Modern, and Present Day English, including readings from the various periods.

4365 Usability Testing in Technical and Business Writing (3-0). Overview of usability testing (testing of products, product documentation, and web sites) procedures in technical and business writing, including the construction of a usability testing lab, practice at conducting usability tests through a service-learning project, and methods for reporting usability findings to clients.
Prerequisite: One sophomore literature course.

4373 Professional Writing (3-0). Strong emphasis on building writing skills and developing student identity as a professional. Culminates in the assembly of a professional portfolio that the student can use in the search for internships and post-graduation employment.
Prerequisite: 90 semester credit hours, including a 2.00 cumulative GPA in 12 advanced hours in English (3351 or 3352, 3353, 4358, 4360 strongly recommended) or department approval.
## Graduate Courses

### 4376 Fiction Writing Workshop (3-0).
Intensive practice in writing and evaluating fiction. May be repeated once for credit.
Prerequisite: English 3355.

### 4377 Poetry Writing Workshop (3-0).
Intensive practice in writing and evaluating poetry. May be repeated once for credit.
Prerequisite: English 3356.

### 4381 Special Topics (3-0).
Selected topics in English. (May be repeated once for credit when topic varies.)

### 4391 Research.
A specialized course which may be directed reading or research for superior students majoring in English.

### 5360 Professional Editing (3-0).
Study and practice in editing methods for business, technical, scientific, and other professional documents, both electronic and paper. Practical experience includes editing documents produced by the business community and university. Course meets concurrently with ENG 4360 but requires additional readings, papers, discussions, and/or presentations for graduate students.
Prerequisite: Permission of Graduate Advisor and Graduate Dean.

### 5361 English Grammar (3-0).
A study of grammar, including grammatical forms and functions, sentence structure, and diagramming. Course meets concurrently with English 4361 but requires additional readings, papers, discussions, and/or presentations for graduate students.
Prerequisite: Permission of Graduate Advisor and Graduate Dean.

### 6301 British Literary History (3-0).
A study of specific periods of British literature through a careful examination of related works. (May be repeated once for credit when topic varies.)

### 6306 British Fiction (3-0).
A study of one or more major British fiction writers or of a related group of works. (May be repeated once for credit when topic varies.)

### 6307 British Poetry (3-0).
A study of the techniques and significance of one or more British poets. (May be repeated once for credit when topic varies.)

### 6310 Themes and Genres in Literature (3-0).
A study of literary types or of significant themes. (May be repeated once for credit when topic varies.)

### 6331 American Literary History (3-0).
A study of specific periods of American literature through a careful examination of related works. (May be repeated once for credit when topic varies.)

### 6333 American Poetry (3-0).
A study of the techniques and significance of one or more American poets. (May be repeated once for credit when topic varies.)

### 6335 American Fiction (3-0).
A study of one or more major American fiction writers or of a related group of works. (May be repeated once for credit when topic varies.)

### 6339 British Drama (3-0).
A study of one or more British dramatists or of a related group of works. (May be repeated once for credit when topic varies.)

### 6341 American Drama (3-0).
A study of one or more American dramatists or of a related group of works. (May be repeated once for credit when topic varies.)

### 6345 Studies of Writing and Technology (3-0).
A study of the intersections between studies of technology and studies of writing. (May be repeated once for credit when topic varies.)

### 6346 Foundations in Technical and Business Writing (3-0).
A study of the theories, workplace practices, and genres of technical and business writers.

### 6361 Language Studies (3-0).
A study of the structure and history of the English Language. (May be repeated once for credit when topic varies.)

### 6363 Composition Studies (3-0).
A study of one or more topics in composition. (May be repeated once for credit when topic varies.)

### 6364 Theory and Practice of Fiction Writing (3-0).
A study of the theory and accepted practices of fiction and fiction writing. Writing assignments may include both critical essays and original fiction.

### 6365 Theory and Practice of Poetry Writing (3-0).
A study of the theory and accepted practices of poetry and poetry writing. Writing assignments may include both critical essays and original poetry.

### 6366 Creative Writing Workshop (3-0).
An intensive series of critique sessions for students’ original creative work. Includes reading and discussion of modern and contemporary published works. Emphasis on fiction or poetry will be announced prior to registration period. May be repeated for credit.
Prerequisite: 6364 for fiction writing workshop; 6365 for poetry writing workshop.

### 6367 A Study of Literary Publishing and Editing (3-0).
A concentrated study of the history and editorial practices of literary publications. Readings will include past and present samples from literary publications, and students will participate in hands-on editing projects throughout the semester.

### 6368 Practicum in College Composition Pedagogy (3-0).
Introduction to composition pedagogy with emphasis on practices essential to teaching college-level English composition. Required of Teaching Assistants. Grading will be either pass or fail.

### 6381 Special Topics (3-0).
A study of selected topics in English. (May be repeated once for credit when topic varies.)

### 6391 Bibliography and Research Methods (3-0).
A study of bibliographical guides, research methods, critical theory, and textual criticism.

### 6393 Research.
A specialized course of individual research or directed reading. (May be repeated once for credit. Prior approval of instructor and department chair required.)

---

* A maximum of two 5000-level courses totaling no more than eight semester credit hours may be taken for graduate credit by graduate students and applied to the graduate degree plan. Permission of the Graduate Advisor or Chair of the Department and the Graduate Dean is required.

* Advanced electives in Department of Accounting, Economics and Finance or International Studies in Business. Prior approval required.

### 3348 Retirement Planning (3-0)
This course focuses on retirement planning for the business, the business owner, and the individual. It consists of two major parts. The first covers qualified plans, nonqualified plans, and IRAs; the second part deals with the retirement needs of individual clients. This course emphasizes the practical knowledge needed for choosing the best retirement plan and designing a plan that will meet a client's needs from a tax and retirement standpoint.

**Prerequisite:** Junior standing.

### 3360 Money and Banking (3-0)
The role of money, financial markets, and institutions. Monetary theory, central bank monetary policy, and the international financial system. (Credit may not be earned for this course and Economics 3360.)

**Prerequisite:** Economics 2301.

### 3361 Financial Management (3-0)
Financial management of the firm; valuation of the firm; working capital policy; capital budgeting; cost of capital; and long-term financing.

**Prerequisites:** Accounting 2302, and Economics 2301 and 2302.

### 3362 Personal Finance (3-0)
Income and expenditure patterns; consumer protection and financial analysis of consumer problems; and personal money management.

**Prerequisite:** Junior standing.

### 3364 General Insurance (3-0)
Theory of insurance and risk; types of insurance companies; contract terms and clauses; basic features of life, property, liability, and health insurance from a consumer's viewpoint.

**Prerequisite:** Junior standing.

* Advanced electives in Department of Accounting, Economics and Finance or International Studies in Business. Prior approval required.

### 3365 Corporate Financial Practices (3-0)
Capital markets and valuation of the firm; capital budgeting; cost of capital; and leverage.

**Prerequisite:** Finance 3361.

### 4308 Senior Seminar in Business Administration (3-0)
A senior seminar for superior students majoring in any business discipline. Topics and projects vary by semester.

**Prerequisite:** Departmental permission required.

### 4310 Residential Appraisal (3-0)
A study of real estate appraisal as it relates to estimating the current market value of residential real property including the following appraisal topics: the appraisal profession, including Uniform Standards of Professional Appraisal Practice, the real estate marketplace, steps in the appraisal process, data collection, residential construction, the market, cost and income approaches to valuation, and a residential appraisal project.

### 4311 Real Estate Feasibility Analysis (3-0)
Provides basic knowledge, techniques, and tools to analyze and determine the most probable rate of return from real estate investments. To demonstrate all benefits of real estate ownership, as well as disadvantages. Includes depreciation, tax aspects, income-expense analysis and control, effects of national economic changes on the value of real estate, modes of ownership, present value concepts, risk analysis, computer analysis programs in current use.
4347 Estate Planning (3-0). Various aspects of estate and gift tax planning—including the nature, valuation, transfer, administration, and taxation of property are discussed. Particular emphasis is given to a basic understanding of the unified estate and gift tax system. This course covers gratuitous transfers of property outright or with trusts, wills, and powers of appointment. It also covers federal estate and gift taxation, the marital deduction, and various estate planning devices used in the estate planning process. In addition, the client interview, fact-finding, ethical standards, and the development of appropriate personal estate plans are discussed.

Prerequisite: Junior standing.

4361 Financial Institution Administration (3-0). The role of financial institutions in the economy; depository and non-depository financial institutions; legal environment; organizational structure; asset/liability management; and international aspects.

Prerequisite: Finance 3360 or Accounting 2302.

4363 Investments (3-0). Basic principles of investment; types of investment media; sources of information; characteristics of stocks and bonds; selection of securities; construction of an investment portfolio; and investment companies.

Prerequisite: Junior standing.

4364 Security Analysis and Portfolio Management (3-0). Investment objectives; risk and return; analysis and selection of investment securities, timing; portfolio theory, and applications; and evaluation of portfolio performance.

Prerequisites: Finance 4363, Business Computer Information Systems 1305.

4366 Business Modeling and Decision Making (3-0). Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.

Prerequisites: Business Computer Information Systems 1305 or equivalent, Finance 3361.

4367 International Finance (3-0). An examination of the international monetary system from World War II to the present, transition from fixed to floating exchange rates. Emphasis given to interest arbitrage, spot and forward exchange rates, foreign exchange exposure and risk, and risk management; and real estate investment analysis.

Prerequisite: Finance 3361.

4370 Applied Case Studies in Personal Financial Planning (3-0). Integrates the financial planning content areas into the development of comprehensive financial plans.

Prerequisite: Senior standing.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in finance.

Prerequisite: Junior standing.

Graduate Courses

*5191 Independent Study in Finance (1-0). A specialized on-line course in Finance which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.

Prerequisite: Permission of the Instructor.

6301 Financial Management (3-0). Corporate financial management decision-making techniques emphasized in areas of planning the financial structure, management of assets, capital budgeting, obtaining capital, and management of income.

Prerequisite: Finance 3361.

6347 Estate Planning (3-0). Various aspects of estate and gift tax planning. Emphasis is given to a basic understanding of the unified estate and gift tax system. This course covers gratuitous transfers of property outright or with trusts, wills, and powers of appointment. It also covers federal estate and gift taxation, the marital deduction, and various estate planning devices used in estate planning process. Includes project in estate planning.

Prerequisite: Graduate standing.

6381 Special Topics (3-0). A study of selected topics in finance. May be repeated once for credit when topic varies.
The following support courses are offered by the College of Business for finance degrees. Degrees are not offered in fields with these prefixes.

**Business Administration (BA)**

### Undergraduate Courses

**1301/BUSI 1301 Introduction to Business (3-0).** Fundamental principles of business organization, ownership, operation, and control. Helpful to beginning students in selecting a major program of study.

**2345/BUSI 2301 Legal and Social Environment of Business (3-0).** An overview of the legal and social environment of business. Topics include legal responsibility, ethics, the judicial system and court procedure, business torts and crimes, contracts, bailments, forms of business structure, bankruptcy, securities regulation, antitrust, consumer protection, personnel and labor law, international law and other relevant legal and social topics.

**3309 Entrepreneurship (3-0).** A course designed to provide students with an understanding of the entrepreneurial process. To include models for creating a business; developing and using business, financing and marketing plans; and managing the new venture during early operation and expansion. Business plan software will be utilized to prepare a business plan for a new expanding business. (Formerly Management 4309.)

Prerequisite: Junior standing

**4091 Research: 1 to 6.** A specialized course providing research opportunities for superior students. Grading will be either pass or fail.

Prerequisite: Permission of the instructor.

**4303 Business Strategy and Policy Formulation (3-0).** A senior business capstone course concerned with the study and development of strategy for the overall organization. The course is interdisciplinary in nature, requiring students to apply knowledge and skills learned in previous courses to solve problems of an organization operating in its social, political, legal, ethical, international, and economic environment. As part of course requirements, students will be required to submit a portfolio which provides evidence over their ASU career that the student has developed competencies, beyond subject matter knowledge, in areas such as leadership, communications, decision-making, and creativity. Students will also be required to take an examination covering the common body of knowledge of the B.B.A. degree.

Prerequisites: Graduating semester, Permission of the Department, English 3352, Finance 3361, Management 3305, and Marketing 3321.

**4371 Internship.** Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input on student performance from the employment supervisor and using the required weekly journals prepared by students. Course may be repeated once for credit with permission of the instructor or department chair.

Prerequisite: Permission of the instructor.

### Graduate Courses

**6302 Legal and Social Environment of Business (3-0).** Analysis of the role of business in contemporary society with emphasis on the legal, social, political, and regulatory factors affecting business.

**6303 Research Methods (3-0).** Collection, analysis, and interpretation of both primary and secondary data for business decisions.

Prerequisite: Management Science 6301.

**Business Computer Information Systems (BCIS)**

### Undergraduate Courses

**1305/BCIS 1305 Business Computer Applications (3-0).** Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business utilization of the internet.

**3366 Business Modeling and Decision Making (3-0).** Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.

Prerequisites: Business Computer Information Systems 1305 or equivalent, Finance 3361.

**Business (BUSI)**

### Undergraduate Courses

**3345 Business Law I (3-0).** Legal rights and social forces that shape government, business, and society. Regulatory law, contracts, sales, and commercial paper are covered.

**3346 Business Law II (3-0).** Legal issues related to the CPA. Includes the law of real and personal property, bailments, creditors rights, and secured transactions, agency and employment, insurance, partnerships, and corporations, bankruptcy, and securities regulations.

Prerequisite: Junior standing.

**Economics (ECO)**

### Undergraduate Courses

**2300 Economic Analysis (3-0).** A one-semester introduction to microeconomic and macroeconomic principles. The course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

**2301/ECON 2301 Principles of Macroeconomics (3-0).** Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.

Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

**2302/ECON 2302 Principles of Microeconomics (3-0).** Product pricing, resource allocation, factor pricing, income distribution, and economic growth; contemporary problems such as foreign trade and agriculture.

Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.
3320 Economics for Managers (3-0). The application of economic theory to the management of firms. Includes topics of demand and consumer behavior, production and costs, theory of firms, and public policy towards business. This course is specifically designed for business majors.
Prerequisites: Economics 2300, or Economics 2301 and 2302.

3331 Comparative Economic Systems (3-0). This course is a study of various types of economic systems ranging from a free market economy to a centrally planned economy. This includes capitalism, socialism, communism, and modifications to these basic models.
Prerequisites: Economics 2300, or Economics 2301 and 2302.

3360 Money and Banking (3-0). The role of money, financial markets, and institutions. Monetary theory, central bank monetary policy, and the international financial system. (Credit may not be earned for this course and Finance 3360).
Prerequisite: Economics 2301.

4307 International Economics (3-0). Introduction to international trade and finance. Centered on present day currency arrangements with consideration of recent and proposed reforms of the international financial system. Includes the principles that govern world trade and investments with discussion of the factors that determine the direction of trade, and policies that inhibit the free flow of trade.
Prerequisite: Economics 2301.

Graduate Courses

*5191 Independent Study in Economics (1-0). A specialized on-line course in Economics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6300 Economic Theory and Policy (3-0). This course combines macroeconomics, including demand and supply, unemployment, inflation, gross domestic product, inflation, the U.S. banking system, and microeconomics, including consumer choice, rents, profits, the firm’s cost and output determination, competition, monopoly, and the labor market.

6311 Managerial Economics (3-0). A survey of microeconomic theories and analysis methods with applications in business problems for managerial decision making. Topics include demand analysis and estimation, costs, market structures and pricing.
Prerequisite: Economics 2302 and Management Science 6301.

Management Science (MSC)

Undergraduate Courses

2331 Statistical Analysis for Business and Economics (3-0). Introduction to statistical analysis including such topics as: descriptive statistics, probability distributions, sampling, statistical inference, correlation and regression analysis, and time series and index numbers. (Formerly Business Administration 4331.)
Prerequisite: Mathematics 1325 or equivalent.

3332 Applied Research Methods (3-0). This course is an overview of the qualitative and quantitative research methods used in the field of business. A special emphasis will be given on the use of computer packages such as SAS and SPSS. The course is intended to cover research design, implementation, analysis, and communication of results.
Prerequisite: Management Science 2331.

4319 Forecasting and Planning (3-0). The course serves as a general course in forecasting methods. Techniques covered include smoothing, decomposition, regression, judgmental techniques, and new product forecasting. Comparison and selection of the appropriate techniques is addressed. Emphasis is placed on the interface between forecasting and the managerial functions of implementation and control. A combination of lectures, analytical exercises, problems, and computer exercises are used. Implementation of a forecast system in a small business is also utilized.
Prerequisite: Management Science 2331 or consent of instructor.

Graduate Courses

*5191 Independent Study in Statistics (1-0). A specialized on-line course in Statistics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Decision Analysis (3-0). A study of statistical methodology and the application of statistics in business and economics. Includes descriptive and inferential techniques for decision analysis. Personal computers are used in analyzing decision data and presenting results.

6319 Forecasting Theory (3-0). The study of forecasting methods including exponential smoothing, decomposition, regression, and judgmental techniques. The use of forecasts in managerial planning and decision making.
Prerequisite: Management Science 6301 or consent of instructor.

* Credit for 5000 level business area courses may not be used for degree requirements.

* Recommended minors: Biology, Chemistry, Computer Science, Mathematics, or Physics. If a student chooses a different minor, this degree may require more than 120 hours. Electives vary depending on minor chosen.

** Geology (advanced) as defined on the degree program.

Course Descriptions

Geology (GEOL)

Undergraduate Courses

1401/GEOL 1403 Physical Geology (3-2). Earth materials, structure, landforms, mineral resources, and the processes that form them. Includes plate tectonics and how humans are affected by Earth processes.

1402/GEOL 1404 Historical Geology (3-2). Application of geological principles to interpret four billion years of Earth history recorded in rocks. Includes evolutionary changes and the use of fossils in time and space.

3102 Field Methods in Geology and Hydrogeology (0-3). An introduction to techniques used by geologists and hydrogeologists in the field. Tools used include Brunton compass, aerial photographs, and hydrology equipment. Techniques will be applied to construct a geologic map during a required field trip.

Prerequisite: Geology 1401 or 1402.
3302 Hydrology (3-0). A quantitative overview of the hydrologic cycle including both surface and groundwater hydrology. Topics to include surface water, aquifer properties, groundwater modeling, human use and abuse of water resources, contamination, and extraction.

Prerequisites: Geology 1401 or 1402 and Mathematics 1302.

3303 Environmental Geology (3-0). This course emphasizes the complex physical relations between land, sea, atmosphere, and human activity. Topics include geologic hazards, land management, water resources, hazardous waste disposal, energy resources, mineral resources, conservation of resources, and ocean science.

Prerequisites: Geology 1401 or 1402 and Mathematics 1302.

3304 Geomorphology (3-0). Geomorphology is the study of physical, chemical, and biological processes that occur on the surface of a planetary body. This course focuses on the origin, development and relationship of landforms created by fluvial, glacial, aeolian, and karst processes.

Prerequisite: Geology 1401 or 1402.

3310 Geochemistry (3-0). An introduction to the field of Geochemistry including topics of traditional rock Geochemistry, Aqueous Geochemistry, and Isotope Geochemistry using data collection and modeling techniques and scientific software.

Prerequisites: Geology 1401 and Chemistry 1411.

3371 Geomapping Fundamentals (3-0). An overview of geomapping concepts and terminology. Application of geomapping (GIS: Geographic Information Systems) software to analyze geological information. Topics include relational databases, spatial data analysis, and digital mapping.

(Credit may not be earned for this course and Management Information Systems 3371).

Prerequisite: Junior standing or permission of the instructor.

3400 Mineralogy and Petrology (3-3). Description, classification, and interpretation of igneous, sedimentary, and metamorphic rocks. Descriptions include tectonic setting, sedimentary environment, and pressure-temperature conditions. Laboratory work consists of hand sample description, examination of thin sections under a petrographic microscope, and field trips.

Prerequisite: Geology 1401 or 1402.

3411 Structural Geology (3-2). A study of ways rocks and continents deform by faulting and folding, methods of picturing geologic structures in three dimensions, and causes of deformation. Includes a weekend field trip project and an introduction to geographic information systems (GIS).

Prerequisite: Geology 1401 or 1402.

3600 Field Geology (0-12). A five or six week summer field course on geologic mapping techniques. Techniques emphasized: measuring stratigraphic sections, collecting and plotting fold and fault data, drafting geologic maps and cross-sections, and preparing reports.

Prerequisites: Geology 3411 and Geology 3400.

4191, 4291, 4391 Research. Individual research problems for students seeking a minor in geology. May be repeated for a total of six semester credit hours.

4300 Introduction to Geophysics (3-0). This course is an introduction to the geophysical methods used to explore the Earth’s subsurface with an emphasis on application. Topics include seismicity, ground penetrating radar, magnetics, gravity, and resistivity. Credit may not be earned for this course and Physics 4300.

Prerequisites: Geology 1401 and Mathematics 2513.

4303 Planetary Geology (3-0). A capstone study of terrestrial objects including planets, moons, and asteroids to describe and understand the past evolution and current dynamic state of planetary surfaces. Major topics include planetary evolution and differentiation, and surface morphology as an expression of internal dynamics, atmospheres, volcanic activity, and impact cratering.

Prerequisite: Geology 1401 or 1402.

4304 Introduction to Volcanology (3-0). Introduction to the physical and chemical properties of magma, including magma generation, rise, storage, and eruptive mechanisms. Types of volcanoes, volcanic hazards, volcano monitoring, and the effect of volcanoes on climate change will also be discussed.

Prerequisites: Geology 1401 and Mathematics 2513.

4320 Geostatistical Modeling (3-0). Exploration of multiple applications of Global Information Systems (GIS) used within the Geosciences. Topics will include an introduction to geostatistics, modeling, database development, and database management.

Prerequisites: Geology 1401 and Geology 3371.

4330 Advanced Hydrogeology (3-0). In-depth introduction to various types of groundwater systems including clastic/alluvial, karst, and fracture zone aquifers. Topics include confined and unconfined systems and various types of contaminants (organic and inorganic) found within these groundwater systems.

Prerequisites: Geology 1401 and Mathematics 3514.

4402 Stratigraphy and Sedimentation (3-3). This course focuses on sedimentary rocks and the stratigraphic record. Topics covered include the origin and classification of sediments and sedimentary rocks, sedimentary structures, diagenesis, and basin analysis. Students are introduced to the principles and practice of stratigraphy.

Prerequisite: Geology 1401 or Geology 1402.
Graduate Programs

Master of Education (M.Ed.)
Guidance and Counseling

The graduate faculty in the Department of Curriculum and Instruction are actively involved in research, development of new teacher education models, and in-service education programs throughout the region served by Angelo State University.

The M.Ed. in Guidance and Counseling prepares the student to apply to the State Board for Educator Certification (SBEC) for certification as a school counselor. It is the responsibility of the student to apply for that certificate. As part of the certification requirements, applicants must hold a valid Texas teaching certificate or its equivalent and have completed two years teaching experience in an accredited public school. A copy of the public school teacher’s service record serves as documentation.

(continued on next page)
Students pursuing a professional certificate on a certification plan may use previous graduate course work to fulfill certification requirements. All work must be completed within a period of six years from the earliest credit to be counted on the certification plan. Under certain circumstances, a time extension of up to four years may be granted on a course by course basis.

If a time extension for one or more courses is desired, a written application must be presented to the program advisor appropriate to the certification plan. It must explain (1) why the certification plan was not completed in a timely manner, (2) a schedule for completing the certification plan, and (3) information indicating that the student’s knowledge of the subject matter in each course for which an extension is requested remains current.

Time extensions are not routine. Courses taken more than 10 years before the completion of the post master’s certification plan are never allowed to be used toward the plan. Additional courses are frequently assigned to the student who has not completed the certification plan requirements within the six-year time limit.

**Graduate Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>6300</td>
<td>Curriculum Development (3-0)</td>
<td>Learn to analyze and design curriculum appropriate for all students using feedback from continuous and appropriate assessment. Curriculum will be based on valid learning theories, have clear goals and objectives, consider student diversity, and account for external influences.</td>
</tr>
<tr>
<td>6301</td>
<td>Social and Cultural Influences (3-0)</td>
<td>Designed to present a broad base of knowledge about culture and learning. Approaches, materials, and research will be investigated. Specific skills for identifying learning problems and solving them through classroom instruction will be featured.</td>
</tr>
<tr>
<td>6302</td>
<td>Tests and Measurements (3-0)</td>
<td>A study of typical methods of measuring intelligence, achievement, special aptitudes, and personality. Emphasis is placed on the interpretation and use of tests. Elementary statistical terms and processes are studied.</td>
</tr>
<tr>
<td>6303</td>
<td>Lifespan Development (3-0)</td>
<td>A study of human development through the life span, including social, emotional, cognitive, language, and cultural influences.</td>
</tr>
<tr>
<td>6304</td>
<td>Applied Research (3-0)</td>
<td>This course will focus on collecting and interpreting data to achieve a stated educational goal for each individual student. Concepts of tests and measurements will be emphasized for interpreting research results and gathering data for applied research. Students will develop a project based upon their research. Students will apply concepts learned within their own classroom under the guidance of the professor.</td>
</tr>
<tr>
<td>6305</td>
<td>Legal and Ethical Principles (3-0)</td>
<td>Explores the field of knowledge of federal, state, and local school laws pertinent to educational administration. Includes a study of ethics and codes of ethics used to facilitate effective decision making.</td>
</tr>
<tr>
<td>6320</td>
<td>Individual Counseling Skills (3-0)</td>
<td>An introduction and orientation to basic counseling skills, emphasizing the methods or techniques used to provide counseling treatment intervention to individuals.</td>
</tr>
<tr>
<td>6321</td>
<td>Group Counseling Skills (3-0)</td>
<td>The theory and types of groups, including dynamics and the methods of practice with groups.</td>
</tr>
<tr>
<td>6322</td>
<td>Introduction to School and Community Counseling (3-0)</td>
<td>A study of techniques and methods used by counseling personnel to help students/clients individually and in groups with educational planning, vocational choice, and interpersonal relations.</td>
</tr>
<tr>
<td>6323</td>
<td>Theories of Counseling (3-0)</td>
<td>An introduction to the fundamental counseling theories with emphasis on application of theories to counseling practice.</td>
</tr>
<tr>
<td>6324</td>
<td>Career and Occupational Counseling (3-0)</td>
<td>A study of the basic principles related to educational-vocational planning, including practical experiences in administering, reviewing, and evaluating occupational and career standardized data profiles.</td>
</tr>
<tr>
<td>6325</td>
<td>Practicum in Counseling (0-0-3)</td>
<td>Three semester hours of supervised practical experience under the supervision of a certified school counselor. Education 6365 (160 clock hours) meets the requirements for the professional certificate in school counseling required by the State Board for Educator Certification. Grading will be either pass or fail. Prerequisite: Permission of graduate advisor.</td>
</tr>
<tr>
<td>6326</td>
<td>Education of Exceptional Children (3-0)</td>
<td>The nature, needs and problems of exceptional children and how these relate to educational provisions are studies. The status of individuals with disabilities in society will be emphasized. Federal laws ensuring the rights of individuals with disabilities in society will be stressed.</td>
</tr>
<tr>
<td>6327</td>
<td>Dysfunctional Behavior (3-0)</td>
<td>The principles of understanding dysfunction in human behavior or social disorganization, including an overview of dysfunctional behavior and exceptionalities, analysis of dysfunctional behavior in educational and counseling settings, and an introduction to the Diagnostic and Statistical Manual of Mental Disorders classification system.</td>
</tr>
<tr>
<td>6328</td>
<td>Professional Orientation (3-0)</td>
<td>The objectives of professional organizations, codes of ethics, legal aspects of practice, standards of preparation, and the role identity of persons providing direct counseling treatment intervention.</td>
</tr>
<tr>
<td>6329</td>
<td>Therapy with Children and Adolescents (3-0)</td>
<td>A study of clinical interventions which integrates multicultural and relational approaches in therapy with children and adolescents. Emphasis is placed on translating conceptualizations of client’s problems into specific treatment plans and interventions. The course examines various disorders including depression, anxiety, attention-deficit-hyperactivity, pervasive developmental disorders, eating disorders, and conduct disorders.</td>
</tr>
</tbody>
</table>

* Other College of Education courses may be found in the Curriculum and Instruction, Educational Administration, and Student Development and Leadership in Higher Education sections.
6330 Consultation for Counseling Professionals (3-0). This course provides an overview of psychological consultation, theory, and practice. Various psychological consultation and collaboration theoretical models and their application in various settings (i.e., community, clinical, academic) are reviewed. Models (i.e., expert and collaborative) reviewed during this course include mental health, cognitive-behavioral, solution focused, and patient centered. Skills and characteristics of consultants as well as ethical and legal consideration and issues are discussed.

6391 Individual Research. A specialized course which may be directed reading or research for superior students under the direction of a graduate faculty member. (Course may be repeated only with departmental approval.)

6399 Professional Practice (0-0-3). Practical application of acquired knowledge in an appropriate environment under the supervision of a qualified professional. Meets the practicum or internship requirements for a professional certificate. Grading will be either pass or fail. (May be repeated for credit.)

Prerequisite: Permission of graduate advisor.

Teacher Certification. A student who chooses to be certified in history must complete the following courses: History 1301, 1302, 2331, 2332, 3301 or 4302, 9 additional hours of advanced U.S. History (excluding 3301 and 4302), 9 additional hours of advanced non-U.S. History, and 3 hours of Geography 3302 or 3303.

* Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 262 or visit: www.angelo.edu/dept/ceducation.

** Degree and certification requirements will exceed the 120-semester-credit-hour minimum for a baccalaureate degree.
History

Social Studies as a Composite Teaching Field. A student who chooses Social Studies as a composite secondary teaching must complete the following: Economics 2301, 2302, 6 semester hours Geography, Political Science 2301, 2302, and 12 advanced semester hours of Political Science, History 1301, 1302, 2331, 2332, 3301 or 4302, 9 semester hours of advanced U.S. History (excluding 3301 and 4302), and 9 advanced semester hours of non-U.S. History.

Graduation Requirement for History Majors
Candidates for the Bachelor of Arts in History are required to complete a Major Field Test (MFT) in History in order to be eligible for graduation. Students may take this examination after completing all history requirements or in the semester immediately prior to graduation. The exam score will not affect GPA, but will be part of the student’s record.

Undergraduate Certificates Available in History
All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

* Student must have 9 semester credit hours advanced U.S. History and 9 semester credit hours advanced non-U.S. History.

---

**3302 American Colonial History, 1690-1789 (3-0).** American history from the Glorious Revolution in England to the Articles of Confederation, stressing increasing maturity of the colonies, the conquests within the British Empire leading to the American Revolution, and the foundations of the nation during the Confederation period.

**3303 The Young Republic, 1789-1837 (3-0).** American history from the formation of the Federal Constitution through the presidency of Andrew Jackson. Emphasis will be placed on the establishment of the federal government, the appearance and development of political parties, the War of 1812, the emergency of nationalism and sectionalism after 1815, and the dominant personalities of the era.

**3305 The Era of the Civil War and Reconstruction, 1837-1877 (3-0).** The history of the United States from 1837 to 1877, emphasizing the sectional controversies culminating in the Civil War; the causes of the war; and the issues and developments which follow in Reconstruction.

**3307 U.S. in the Industrial Age, 1877-1939 (3-0).** American social and political history from the Gilded Age to the Great Depression, with detailed emphasis on the evolution of modern capitalism and such related topics as labor, agriculture, immigration, and the emergence of the U.S. as a global military and political actor.

**3308 U.S. Urban History (3-0).** U.S. Urban History will examine the influence of cities, suburbs, and exurbs on American economics, politics, and society from 1600 to the present.

**3309 U.S. in War and Upheaval, 1939-1989 (3-0).** American social, political, and foreign policy history from World War II to the end of the Cold War, with detailed emphasis on anti-communism, de-industrialization, protest movements, and the culture wars.

**3310 U.S. Constitutional History (3-0).** Everything has a history, and that includes the U.S. Constitution. This class focuses on the development of the Constitution, the critical ideologies and court decisions that shaped the Constitution up to our time, and how those ideologies and decisions were conditioned by their historical moments.

**3335 Renaissance and Reformation (3-0).** Major developments in European history from about 1450 to 1648, focusing on the humanist Renaissance, Protestant Reformation, the Catholic reform movement, and the conflict of Protestants and Catholics through the Thirty Years War of 1618-1648.

**3336 Absolutism and Enlightenment: Europe, 1648-1788 (3-0).** Major themes are political conflict in England, absolute monarch in France under Louis XIV, the Scientific Revolution, conflict for world empire between France and Britain, and the revolutionary thought of the Enlightenment.

**3337 Comparative History of Ancient East and West (3-0).** A comparative history of Ancient China and Rome, examining the rise of their respective empires, economic evolution, and their political and military expansion and contraction.

**3344 U.S. Environmental History and Politics (3-0).** Examines the historical development of American politics and policies related to the conservation, preservation, and economic development of American natural resources.

**3347 Culture, Gender, and Reform in 19th Century America (3-0).** This course will examine the development of American masculinity, femininity, and gender from the early 19th Century to World War I. Students will study the role of gender in politics, the culture of honor in the South, family relationships and romance, and the challenging of gender, racial, and sexual boundaries in the Civil War and afterward.

**3348 Rights and Reform in 20th Century America (3-0).** This course examines conservative and progressive political reform movements and their relationship to competing ideas of rights. Students will consider the various ways Americans in the 20th Century engaged in politics and sought to influence policy.

**3350 U.S. Policy History (3-0).** Analyzes domestic policies from an historical perspective. One or more domestic policies may be examined from an historical perspective, including, but not limited to, immigration, social welfare, entitlements, labor, economics, and de-industrialization.

**3354 Historical Writing on Politics and Policy (3-0).** This course teaches students historical research and writing skills, with a focus on politics and policy in American History.

**3355 Latin America to 1800 (3-0).** A survey of Latin American History from the 15th Century to 1800. Topics include the influence of Spain and Portugal, Indian heritage, and colonial history, with a particular emphasis on political, social, and cultural developments.

**3356 Latin America Since 1800 (3-0).** A survey of Latin American History since 1800. Topics include the development of Latin American Republics and revolutionary movements, with particular emphasis on political, social and cultural developments.

3371 Asia in the Age of Imperialism, 1800 to 1945 (3-0). A study of Asia in the age of Japanese and European colonialism; with an emphasis on economic, political, and diplomatic relations, culminating in independence movements and World War II.

3372 China and the U.S. Since 1800 (3-0). Examination of Chinese and United States diplomatic and economic relations since 1800.

3379 U.S. Military History (3-0). The evolution of the American Military from colonial militias to late 19th century professional fighting forces. Military organizational trends and combat experiences between 1700 and 1900 are connected to the social, cultural, and political issues of the day.

4302 The American West (3-0). A cultural history of America’s frontier experience, with special emphasis on the Trans-Mississippi West in the nineteenth century.

4313 U.S. – Mexico Borderlands (3-0). This course will examine the historical interaction of the U.S. and Mexico at the Border, focusing on cultural exchange, economic relations, politics of immigration and labor, as well tensions and accommodations.

4314 Historical Preservation, Research, and Writing (3-0). This course will provide students with training in the economics, cultural-political issues, and techniques of preservation, archival research and advanced historical writing. Students will receive preparation for possible employment in such fields as tourism, marketing, archives, museums, and research for corporations and non-profits.

4323 History of U.S. Foreign Relations (3-0). An examination of key events in U.S. diplomatic history as well as significant trends from colonial-revolutionary times to the present.

4324 Sports in American History (3-0). The role of sports in American history, including the economic, big business, social, cultural, racial, gender, ethnic and higher education aspects of sports in American history.

4325 Indians of North America (3-0). A general survey of the pre-history, culture, and historical experience of American Indians living north of Mexico.

4330 The Middle Ages (3-0). Europe from the collapse of the Roman Empire to the eve of the Renaissance with particular focus on feudalism, the empire of Charlemagne, the high and late medieval church, the construction of high medieval monarchy, and the Hundred Years War.

4333 Modern Europe from 1871 to 1945 (3-0). Examines European imperial and colonial rivalries, militarism, anti-Semitism, and provides the social and political context of World War I and World War II which all but extinguished Europe as a global locus of power.

4335 Revolutionary Europe, 1789-1871 (3-0). Studies the evolution and impact of the French Revolution, including the emergence of such ideologies of nationalism, communism, liberalism, Romanticism. This course will also examine the rise of European Industrialization, urbanization, and colonialism.

4340 Globalization Since 1945 (3-0). An examination of global economics since World War II. Topics of study will include the dynamics of modernization, international trade, regional conflicts, and the evolution of an integrated global economy.

4342 Dictatorship and Democracy in the 20th Century (3-0). This comparative European and U.S. 20th century history course will examine the rise of Nazi Germany and the Soviet Union and how they affected Far Left and Far Right politics and society in the U.S.

4351 Mexico Since Independence (3-0). Mexican national history from 1823 to the present, detailing the political, economic, and cultural trends since independence and emphasizing United States-Mexican relations.

4360 Latin American Slavery (3-0). Latin American Slavery examines the evolution of slavery in Latin America, offering a comparative framework to understand differences among countries colonized by the Portuguese and the Spanish. This course will look closely at the cultural interactions among Africans, Indians, and European colonizers to understand the basis of caste society in Latin America.

4361 Topics in Military History (3-0). A study of war in different historical epochs. The course will analyze combat and the evolution of military technique within the broad cultural context of political, economic, social, and intellectual factors. (May be repeated once for credit when topic varies.)

4371 Internship in History. The student will participate in work and on-the-job training at a historic site, museum, or other appropriate organization. A research paper dealing with the internship experience, written under the direction of a faculty member, will be required. The internship is limited to history majors. Registration allowed only after selection by the History Department made upon written application in the semester prior to placement. See department chair for details.

4381 Special Topics (3-0). A course dealing with selected topics in history. (May be repeated once for credit when topic varies.)

6301 Texas History (3-0). A research seminar in selected topics in Texas history.

6322 United States Diplomatic History Since 1898 (3-0). A seminar in diplomatic history and U.S. foreign policy in the twentieth century with particular emphasis on the emergence of the United States as a world power.

6323 America in the Civil War Era (3-0). A readings seminar in selected topics in American antebellum, Civil War, and Reconstruction history.

6327 Social Roots of 20th Century American Politics (3-0). A readings seminar in the changing social roots of American political coalitions and parties from the New Deal to the New Right.
History

6328 20th Century American Economic History (3-0). A readings seminar in the economic history of the United States from the age of industrialism to the post-industrial society.

6329 Local and Community History (3-0). A seminar in the research and writing of local history.

6330 Historical Record and Site Preservation (3-0). A readings seminar where skills are taught and applied to the preservation of historical records and historic sites for both profit and non-profit organizations.

6331 Internship. Internship with a non-profit or profit organization where the application of historical preservation, research, and writing skills may be applied to the benefit of the student and host organization. (May be repeated once for credit.)
Prerequisites: Prior approval of the instructor and department chair required.

6342 American Social Movements (3-0). A readings or research seminar in selected 19th and 20th Century American social movements. Revolving topics may include, but are not limited to, women’s rights, temperance, ecology, law and order, civil rights, abortion, and anti-war movements. (Topics and requirements vary with instructor and may be repeated once for credit if the topic is different.)

6350 Mexican Revolution (3-0). A research seminar in the era of the Mexican Revolution and its economic, political, and social impact of the U.S. Borderlands.

6364 Global Cold War and Terrorism (3-0). A readings seminar in the global struggle between democracy and communism and the rise of international terrorism.

6373 Historiography (3-0). A readings seminar concerned with the study of history as an intellectual discipline and with the analysis of historical problems. Emphasis will be placed on the development of historical consciousness and technique.

6381 Special Topics (3-0). A seminar in selected historical topics. (May be repeated once for credit when topic varies.)

6391 Independent Research. Directed research in United States or Mexican History under the supervision of a graduate faculty member. (May be repeated once for credit.)
Prerequisites: Prior approval of instructor and department chair required.

6392 Independent Study. Directed readings in specialized topics under the supervision of a graduate faculty member. (May be repeated once for credit.)
Prerequisites: Prior approval of the instructor and the departmental graduate advisor required.

6399 Thesis. A total of six hours is required for thesis. The student may repeat this course to obtain the necessary six hours credit. Students have the option of enrolling in History 6699 to fulfill the thesis requirement.

6699 Thesis. A total of six hours is required for thesis. Students have the option of enrolling in History 6399 for two separate semester/terms in order to fulfill the six hour thesis requirement.

Geography (GEOG)

Undergraduate Courses

2301/GEOG 1301 Physical Geography (3-0). A geography of the earth with a survey of its atmosphere, oceans, landforms, and environmental regions.

2305 Fundamentals of Geography (3-0). Designed to meet the needs of those planning to teach geography in all grades. The course introduces physical, human, and world geography, as well as basic geographical terms and concepts.

3302 Human Geography (3-0). A study of human interaction with the earth’s natural environments considering the earth as the setting for human physical and cultural evolution.

3303 World Regional Geography (3-0). A survey of major world regions focusing on their distinctive physical and cultural characteristics and the role of each region in the world.

3304 Regional Geography of North America (3-0). A survey, within a regional framework, of the physical and human geography of the United States and Canada.

4381 Special Topics (3-0). A course dealing with selected topics in geography. (May be repeated once for credit when topic varies.)

Bachelor of Intelligence, Security Studies, and Analysis (B.I.S.S.A.)  
Intelligence, Security Studies, and Analysis  
(124 semester hours *)

The Bachelor of Intelligence, Security Studies, and Analysis (B.I.S.S.A.) degree focuses on the interrelationships among intelligence, policy making, and national security and develops students with the competencies critical to accomplishing the missions of the United States intelligence community and national security enterprises. This program has similar requirements to the B.S.S. in Intelligence, Security Studies, and Analysis; however, this program is designed for active duty members of the United States Air Force.

AU-ABC Partnership  

The B.I.S.S.A. degree has been approved by Air University to be included in the AU-ABC program. Degrees in the AU-ABC program allow students to transfer all 64 credit hours of their Associate of Applied Science Degree from CCAF into the course requirements. Since the B.I.S.S.A. requires 124 SCH and all 64 hours from the CCAF degree will be used, the student is only required to complete an additional 60 SCH to complete the B.I.S.S.A. degree.

The Office of Admissions, in conjunction with the Department of Security Studies and Criminal Justice, will make an exception to standard policy with regard to Community College of the Air Force (CCAF) credits for a CCAF degree-holder. All credits from CCAF associate’s degrees will be ac-
Intelligence, Security Studies, and Analysis

cepted and applied toward your degree plan. However, should you choose to change your degree plan to a degree other than those specified below, the transfer credits originally accepted and applied may be revoked. If a CCAF degree-holder has additional college credits beyond the basic CCAF A.A.S. degree, ASU may accept those as well, over and above the stated maximum number of transfer credit hours (66) that may apply toward a degree plan. Again, exception to standard ASU policy will be retracted if you later choose a degree plan other than specified below.

- B.B.S. in Border Security
- B.C.C.S.S. in Cultural Competence and Security Studies
- B.C.F.S.S. in Cultural Fluency and Security Studies
- B.I.S.S.A. in Intelligence, Security, Studies, and Analysis

### Course Descriptions

#### Intelligence, Security Studies, and Analysis (ISSA)

##### Undergraduate Courses

3300 U.S. Intelligence and Global Security Challenges (3-0). This course’s ultimate objective is to place the student in the role of a senior leader and have him/her face the global security challenges facing our decision makers. 9/11 and the global war on terror has placed the world in a position where friends and allies must work together to defeat terrorism at home and abroad. To be effective our national leaders must reach out and partner with foreign allies. Students will be placed in these roles to help determine and form national security policy. Students will assume the roles of the national security advisor, SECSTATE, Chairman of the Joint Chiefs of Staff (CJCS), and Director for the CIA and of DNI, among others, and will attempt to advise and influence head of a foreign nation, international organization, or internationally-active NGO, with the tasks of (1) explaining the role of the United States in the international system (from a non-US perspective), and (2) designing a national security strategy for your nation or organization that could either affect, neutralize, or capitalize on the hegemonic position of the U.S., (3) and form intelligence partnerships and sharing agreements.

3301 Context, Culture, and Intelligence: The International Dimension (3-0). The intelligence profession is particularly complex because it focuses by definition on foreign threats. Unfortunately for intelligence analysts, this requires that they understand not just other cultures and how their norms and values affect their approach to resolving policy issues or conflicts, but also how historical and other kinds of contextual factors influence how they might respond to American engagement and pressure in a given situation. This course gets at the heart of these complexities through the use of historical case studies and a careful focus on the ways in which context and culture drive the intelligence analysis process and make it a very complex and uncertain endeavor.

3302 Fundamentals of Intelligence Analysis (3-0). This course is designed for students with no experience with the intelligence discipline. It presents the organization and fundamentals of intelligence, defining the discipline, providing an overview of basic intelligence sources, and tracing the history of intelligence organization in the U.S. from the revolution through the modern day. This course introduces students who are interested in pursuing the profession of intelligence to the business of intelligence analysis. Students will develop a broad understanding of strategic intelligence and all phases of the intelligence cycle from requirements to reporting with an emphasis on supporting leadership decision making. It presents material describing the process of intelligence analysis; the role of the analyst; and analysis tools for preparation of assessments based on the collection, correlation, and analysis of intelligence data. The course concludes with a discussion of ethical dilemmas posed by the ongoing war on terrorism and resulting from modern high-tech collection capabilities.

3303 Critical Thinking and Intelligence Analytical Methods (3-0). Thinking critically, analyzing and synthesizing effectively, and solving difficult problems are crucial skills in the intelligence arena. Additionally, rapid changes in technology, information sourcing, and information availability, coupled with fundamental changes in the Intelligence Community and its customers’ expectations, have had a significant impact on the intelligence process and the way in which analysis is conducted and disseminated. This course provides methodology and techniques in critical thinking and
Graduate Program

Master of Security Studies (M.S.S.)
Intelligence, Security Studies, and Analysis

The Master of Security Studies (M.S.S.) in Intelligence, Security Studies, and Analysis is a distinctive degree addressing the growing need for graduate-level study of the intelligence discipline and its relationships to national security issues such as policy making; military strategy, planning, and operations; and Constitutional issues and the rule of law in a democracy. The degree is ideal for those with bachelor’s degrees in security issues or related fields who want to improve their cognitive, analytical, decision-making, advising, and leadership skills within the intelligence profession. To increase flexibility, the program has both a thesis and non-thesis option.

Admission Requirements

- Hold a bachelor’s degree with a GPA of 2.75 or better, including all grades on repeated courses, or hold a bachelor’s degree with a GPA of 3.00 or better in the last 60 hours of undergraduate work. Required GPA may be waived on a case-by-case basis by the department chair;
- At least two letters of recommendation;
- An essay of no more than 750 words discussing an intelligence-related topic affecting our nation’s security.

The GRE test is not required for admittance to the program.

‡ Thesis Option

Students wishing to take the thesis option will be required to take the 21 hours of required ISSA courses, 6 hours of prescribed electives (ISSA 6399 or 6699), and an additional 9 semester credit hours of electives.

‡ Non-Thesis Option

Students wishing to take the non-thesis option will be required to take the 21 hours of required ISSA courses, 3 hours of prescribed electives (ISSA 6390), and an additional 12 semester credit hours of electives.

* Graduate ISSA students may take SEC or BOR graduate courses as advanced electives with the Department Chair’s permission.

analysis skills meant to overcome cultural and self-imposed biases that can impact the objectivity of intelligence analysis and decision-making. Critical thinking and analysis skills are covered, to include analysis of competing hypotheses, matrix analyses, decision/event trees, weighted rankings, and utility analysis, which are designed to improve the objectivity of intelligence analysis and decision making. The course ends with a review of the National Intelligence Estimate (NIE) and analyst-policymaker relationships.

3304 The Intelligence Process: Consumers-Producer Relationships (3-0)

This course examines the policymaker and intelligence relationships and how they function to serve national security demands. Policymakers receive their support from a variety of sources. There is an established intelligence process designed to provide intelligence judgments and assessments. Students will learn how that process works and how it can be influenced. The CIA’s Directorate of Intelligence (DI) and the National Intelligence Officers who comprise the National Intelligence Council are responsible for providing all-source intelligence analysis to the Government as a whole, with the President, the National Security Advisor, and the Secretaries of Defense and State being the foremost customers. Students will comprehend customers’ intelligence requirements and how those requirements are serviced to contribute to national security needs. Students will also examine intelligence failures through case studies, evaluate why these failures occurred, and how such failures can be eliminated in the future.

3305 Intelligence Collection: Sources and Challenges (3-0)

This course provides a multidisciplinary survey of Imagery Intelligence (IMINT), Signals Intelligence (SIGINT), Human Intelligence (HUMINT), and Measurement and Signature Intelligence (MASINT). The background, capabilities, and limitations of each intelligence collection method are covered. The course focuses on the intelligence process, specific intelligence challenges of the global war on terrorism and specific collection challenges facing planning activities which enable an integrated approach to intelligence analysis and collection.
3310 Introduction to the Discipline of Intelligence (3-0). This course focuses on the theory and practice of the disciplines of intelligence to include the intelligence process, the key functions of the intelligence cycle, intelligence technology, analysis, collection capabilities, covert action, and policy support. Students will examine the role of intelligence in national security, policy formation, diplomacy, homeland security, and other national priorities. Students will do a comparative review of the Cold War intelligence community and post-9/11 period of the emergence of the current national Intelligence Community (IC). Students will examine partnerships between the IC and the military services, academic, and scientific communities in developing intelligence practices and Intelligence, Surveillance, and Re-connaissance (ISR) systems and capabilities to address the intelligence challenges of the past 60 years. Finally, the course emphasizes the importance of preparing and providing intelligence to both policy makers and our nation’s warfighters in a manner that result in information sharing and underscores a post-9/11 commitment to conduct intelligence activities in a manner that fully respects and protects American civil liberties and privacy.

3320 Intelligence and Democracy: Issues and Conflicts (3-0). This course examines the conduct of intelligence activities by democratic states, focusing on the inherent conflict between the secret nature of intelligence and “open society.” Using a case study approach, students will review the intelligence organizations in the U.S. and other democracies as well as cases where there has been a clash between democratic values and intelligence activities. The course analyzes the requirements for effective intelligence operations and the impact of oversight and control of those operations. Students will examine Government “control” of intelligence operations; Judicial and Congressional oversight, management, and intervention; and the role and influence of media and public opinion on intelligence activities. Moreover, as a result of 9/11 and the war on terror, students will explore the conundrum of determining whether and to what degree a necessary balance exists between secrecy of intelligence operations at home and abroad and democracy.

4071 Internship (1-6 SCH). This course is designed to familiarize students with the application of knowledge gained in course work and with operations and problems in the field of intelligence, security studies, and analysis. Students must be pursing a degree in Intelligence, Security Studies, and Analysis. Approval of instructor is required.

4103 Case Studies in Intelligence, Security Studies, and Analysis (1-0). This course is a seminar and takes a case study approach to highlighting challenges and lessons learned for successes and failures on intelligence policy, operations, organization, and reform. Topics covered include WWII, Korea, Cold War, Algeria, Vietnam, Cuba, Desert Storm I & II, Post 911, Iraq, Iran, Afghanistan, WMD Proliferation, Terrorism. Includes practical exercise. (Credit may not be earned for this course and Intelligence, Security Studies, and Analysis 4303.)

4191, 4291, 4391 Research. Individual research problems for superior students majoring in intelligence, security studies, and analysis. (May be repeated for a total of six semester hours credit.) Prerequisites: Junior standing. Approval from the Chair of the Department is required prior to enrollment.

4300 Advanced Problems in National Security and Intelligence Policy (3-0). This course provides a strategic overview of the complex challenges surrounding the creation, application, and administration of national security and intelligence policy. Students will examine the most compelling national security and intelligence issues of our time and their interrelationships with U.S., foreign, military, economic, diplomatic, and domestic policy. Students will learn the formal/informal structure of the national security establishment and the intelligence community and the processes involved in how policy makers and analysts integrate national security policy and intelligence to form national strategy. Students will examine the changing nature of external threats in a multi-polar world and identify U.S. defense and intelligence policy issues for the remainder of this century and into the next. The course gives students awareness of the U.S. position in the international military, diplomatic, economic, and intelligence community and the effects of the current U.S. and global economic situation on U.S. national security and how the roles and organizations within the Intelligence Community support the national security process.

4301 Advanced Intelligence Analysis: How to Think In Complex Operating Environments (3-0). This course focuses the analyst on how to think, not what to think, in order to foster critical thoughts and enhance the student’s cognitive performance. It is modeled on the Socratic method of instruction and offers concepts on advanced thinking that are applicable to all work environments, but particularly to the intelligence analysis enterprise. Students discover how to decompose an analytical problem into its fundamental elements. The output of this process includes five principal kinds of observables for collection and analysis: technical, functional, cultural, situational, and biometric. Students also learn how to write effective requirements and observables. They further learn how to re-aggregate data into information and to synthesize information into knowledge, thereby creating actionable intelligence.

4303 Case Studies in Intelligence (3-0). Case Studies in WWII, Korea, Cold War, Algeria, Vietnam, Cuba, Desert Storm I & II, Post 911, Iraq, Iran, Afghanistan, WMD Proliferation, and Terrorism. Includes practical exercise. This course is a seminar and takes a case study approach to highlighting challenges and lessons learned for successes and failures on intelligence policy, operations, organization, and reform. (Credit may not be earned for this course and Intelligence, Security Studies, and Analysis 4103.)

4381 Special Topics (3-0). A course in selected intelligence topics. May be repeated once for credit when topics vary.

Graduate Courses

6191, 6291, 6391 Research. Individual research problems for superior students in intelligence, security studies, and analysis. May be repeated for a total of six semester hours credit. Prerequisite: Approval from the Chair of the Department is required prior to enrollment.

6300 Intelligence and National Security (3-0). The intelligence reform mandated following the attacks on 9/11 created the most fundamental structural change in the National Intelligence Community in its history. The National Intelligence Strategy (NIS), as updated, will provide the framework of analysis for this course. The integration of the National Intelligence Community, and the complexities this integration brings, will be analyzed. This course covers the intelligence cycle (Planning and direction, collection, processing, analysis, and dissemination). It also covers key aspects of intelligence such as warning and surprise; denial and deception; covert action; oversight and civil liberties; role of policymakers; and intelligence reform. Students will evaluate how changes in the national intelligence community are meeting the objectives of the war on terrorism and contributing to more effective intelligence. Credit may not be earned for this course and SEC 6313.
6301  Grand Strategy, Intelligence Analysis, and Rationality (3-0). This course employs a Clausewitzian approach to explore the interactions between intelligence analysis, context, culture, and rationality (the ways in which different individuals and groups think), and the ways in which understanding those interactions can help intelligence professionals determine and counter an enemy’s grand strategy. While the focus is on the grand-strategic level, students will also see how these interrelationships influence intelligence analysis and its effectiveness at the military-strategic, operational, and tactical levels.

6302  The Transformational Imperative: Reorienting in a Multi-polar World (3-0). This course examines American intelligence and national security policies and planning from World War II to the present. Students examine how ideas and interests shape and transform national security decision making from the white house to the war fighter and how the complexities of a multi-polar world have affected the traditional policy formulation process. The course will address theory, practice, and processes as they relate to the most important national security topics of the day. Students will debate and explore how ideas and interests work together or in opposition to shape national security policies and priorities. Students will learn how the “war of ideas” has evolved from the Cold War to the global war on terrorism; the influence of the media, social media, and think tanks on intelligence; and how the definition of intelligence and national security has changed.

6303  Advanced Intelligence Analysis: Operating in Complex Environments (3-0). This course is about critical thinking and will examine successes and failures in intelligence, and organizational and operations practices of U.S. and foreign intelligence, using a case-study approach. The course will examine flawed approaches to intelligence analysis and how we might draw from these cases to improve the Intelligence Community. The objective of the course is to apply these “lessons learned” to the challenges facing the U.S. Intelligence Community today. Case studies include Pearl Harbor, 9/11, the Cuban Missile Crisis, the Yom Kippur War, proliferation issues, and Cold War Counterintelligence.

6304  The Practice of U.S. Intelligence and National Security (3-0). This course explores the organization and functions of the U.S. Intelligence Community, the nexus between national security and intelligence policy makers, key issues about its workings, challenges it faces in defining its future role, and the debates regarding intelligence reform. It will also look at some of the key intelligence missions, such as strategic warning, counterterrorism, counter proliferation, and counterinsurgency. The events of 9/11 and the invasion of Iraq have focused new attention on national intelligence and driven the most significant reorganization of the community since the National Security Act of 1947. The course will highlight some of the major debates about the role, practices, and problems of national intelligence.

6305  Research Methods in Security Studies (3-0). Research methods with application to intelligence, homeland security, criminal justice, and other security-related interests. Credit may not be earned for this course and SEC 6305, BOR 6334, or CRIJ 6334.

6306  Applied Statistics (3-0). Statistical methods with application to intelligence, homeland security, criminal justice, and other security-related interests. This course formalizes key data that can be numerically represented in a way that permits useful analysis and application of the results. Credit may not be earned for this course and BOR 6307 or CRIJ 6307.

6309  Intelligence Support to Policy Making: The Impact of 9/11 (3-0). This course examines the principal roles of intelligence in a post 9/11 environment and in national policy formulation, in the provision of strategic and tactical warning, in providing support for military operations, and in covert action. The focus is on problems inherent in conducting intelligence in a democracy and on the ethical considerations associated with providing high quality intelligence analysis. The course examines national security policy formulation, the factors that influence and constrain policy choices, and the role of intelligence in this process. The changing nature of intelligence vis-a-vis policy formulation, with illustrations from the global war on terror and the Iraq war, serve as examples of the relationship between intelligence and policy. Students will analyze and evaluate the future political, cultural, and institutional challenges facing the National Intelligence Community as it supports national security policy.

6310  Military Intelligence: Strategic, Operational, and Tactical (3-0). If war is in fact the extension of politics by other means, this course aims to understand how and why states use force in pursuit of their national interests. Class studies classical theories of warfare, including Clausewitz and Sun Tzu. Case studies in warfare from 19th and 20th centuries develop a model of how states have traditionally used war and supporting intelligence to accomplish policy aims at strategic, operational, and tactical levels. Technological and political shifts of the last decade are explored to determine what they imply about how states can and will use force in the future as part of their national security policies. Course reviews how intelligence supports each level of warfare and how intelligence failures affect strategic outcomes.

6311  Special Operations and Intelligence: Creating Strategic Effects (3-0). Over the last ten years, special operations forces have become a core element in America’s response to trans-national terrorism. These units have trained and advised foreign military and paramilitary forces; captured or killed thousands of Al Qaeda and Taliban commanders and foot soldiers; and conducted a variety of operations around the globe. This course will focus on the ways in which special operations forces have been incorporated into national security strategy and policy. Through the use of a series of case studies, students will investigate the differences between special operations forces and other elite units; scrutinize the roles and missions of these organizations; understand their unique intelligence support requirements at tactical, operational, and strategic levels; consider the influence of popular culture; and probe the impact of bureaucratic politics and organizational culture between the special operations community and international allies, Congress, the interagency community, and conventional military forces.

6312  Cyber Arms Race and the Intelligence Policy Nexus (3-0). When is a cyber attack an act of war? What is the role of the U.S. military in defending the United States from cyber attacks? Who forms cyber policy for the U.S.? Is cyber an intelligence problem? How does cyber fit the traditional national security-intelligence policy construct? Cyber conflict is a new and complicated strategic problem that will engage not only the United States but the international community at many different levels. The cyber environment challenges traditional strategic thinking, and work on national security and intelligence policies and strategies to manage and benefit from cyber conflict is at an early stage. Traditional security concepts need to be re-examined and adjusted for the cyber environment. This course will look at various dimensions of cyber conflict in the larger international security context.
6313 Intelligence and Counter-Terrorism (3-0). This course explores a wide range of questions in order to provide students with a deeper understanding of the origins and evolution of modern terrorism, and the intelligence challenges posed by terrorist groups to states with an emphasis on the United States. The course is divided into three parts. Part 1 examines the nature, objectives, strategies, and organization of terrorism and terrorist groups. It also addresses the political, psychological, socioeconomic, and religious causes of terrorist violence. Part 2 consists of student presentations on active terrorist organizations. Part 3 focuses on counterterrorism and the challenges of collecting intelligence against terrorist organizations. Based on recent American experience in combating terrorism, the course will introduce students to the strengths and weaknesses of counterterrorist tools, domestic and international intelligence requirements and collection strategies, and the need to balance civil liberties and security.

6380 Capstone in Intelligence, Security Studies, and Analysis (3-0). This course is designed for students in the non-thesis option. Students will take this course in their last semester. The course brings elements of previous courses together in order for students to think critically across the broad spectrum of intelligence, security studies, and analysis.

6381 Special Topics (3-0). A course in selected intelligence topics. May be repeated once for credit when topics vary.

6399 Thesis. A total of six hours is required for thesis. The student may repeat this course to obtain the necessary six hours credit. Students have the option of enrolling is ISSA 6699 for one semester or ISSA 6399 for two separate semester/terms in order to fulfill the six-hour thesis requirement.

6699 Thesis. A total of six hours is required for thesis. Students have the option of enrolling is ISSA 6699 for one semester or ISSA 6399 for two separate semester/terms in order to fulfill the six-hour thesis requirement.

Roscoe and Bella

Roscoe is the crown-some might say clown-prince of Angelo State University while Bella is the princess of the Mall. Seen at most athletic events and many community activities, Roscoe and Bella let their actions do their talking, whether it is leading cheers, handing out candy to children or greeting freshmen when they arrive on campus.

Dominic

A purebred Rambouillet ram, Dominic stands as a proud symbol of Angelo State University and the institution’s ties to the region and its people.
# Interdisciplinary Studies

The purpose of the Bachelor of Interdisciplinary Studies (B.I.S.) degree is to provide students the opportunity to apply coursework in multiple fields towards an undergraduate degree. It is well suited for students whose career goals call for training in more than one discipline or who want a breadth of knowledge in several fields rather than a depth of knowledge in a single discipline. Students seeking the B.I.S. degree must declare it as their major in the same manner and at the same time as other students declare a major. For information about the B.I.S. degree contact the College of Arts and Sciences.

The B.I.S. degree consists of a multiple discipline academic major, other requirements, and electives totaling at least 120 credit hours. For the B.I.S. degree, the multiple discipline academic major is comprised of three minors. Any single area minor offered at Angelo State University may be used providing it has no less than eighteen credit hours with at least six of them at the advanced level and in residence. However, no more than 27 hours in any one discipline may count towards the degree.

For more information, please refer to the Requirements for the Bachelor of Interdisciplinary Studies Degree on page 311 of this Catalog.

### B.I.S. Interdisciplinary Studies (120 hours *)

Electives
Electives .................................................................................................................................................... 7

*** The Graduate IVY MBA Test should be taken in conjunction with this course as a graduation requirement.

****Electives are to be taken from the Department of Management and Marketing; Department of Accounting, Economics, and Finance; or courses from Political Science and Security Studies. Electives taken outside these areas must be given prior approval in writing by the graduate advisor. Courses with International Business related topics are highly recommended.
Students interested in the Integrated B.B.A. in International Business/M.B.A. will be required to complete a minimum of 150 semester credit hours of degree credit. Of this total, 114 semester credit hours will be at the undergraduate level and 36 semester credit hours will be at the graduate level. A unique feature of the five-year program is that students will begin taking graduate course work in their senior year. All candidates for this program are required to take the GMAT or GRE and be admitted to the Graduate Program before taking any graduate credit hours. The student must maintain a cumulative 3.00 in all undergraduate courses and a cumulative 3.00 in all graduate courses. Another unique feature of this program will be the awarding of the B.B.A. in International Business and M.B.A in Business Administration degrees simultaneously at the completion of the program. Therefore, a student will not be awarded the B.B.A. in International Business after completing 114 semester credit hours at the undergraduate level. The program of study will continue into the graduate hours, and the B.B.A. in International Business and the M.B.A. in Business Administration will be awarded upon the completion of the required 150 hours. Should a student decide not to finish the M.B.A. portion of the program, then this student would be required to complete all of the course requirements to finish the B.B.A. in International Business as a separate degree.

### Course Descriptions

#### International Business (IBUS)

**Undergraduate Courses**

**3311 International Business (3-0)**. This course will survey international business frameworks, trade and investment theories and institutions, multinational corporations, strategy, functional management, operations and concerns. 
Prerequisite: Junior standing.

**3312 International Management (3-0)**. This course is designed to develop the knowledge and skills needed to manage effectively in different cultures to ensure sustained competitive advantage.
Prerequisite: International Business 3311.

**3313 Current Issues in International Business (3-0)**. A study of the important issues and key up-to-date developments in both the theory and practice of international business. The course will discuss relevant current issues and intellectual debates to identify new directions and future areas of research. Topics may vary to include such issues as the present globalization of the economy, the strategies of multinationals, the increasingly “borderless” world, competition, cross-cultural leadership, outsourcing, and social responsibility of multinational organizations.
Prerequisite: Management 3300.

**3381 International Study Abroad in Business (3-0)**. This course is designed for classes offered through the study abroad program. Course topics vary by program. The course may be repeated for up to 6 hours to meet major requirements.

**4091 Research: 1 to 6.** A specialized course providing research opportunities for superior students. Grading will be either pass or fail.
Prerequisite: Permission of the instructor.

**4303 International Strategic Management (3-0)**. A senior level business capstone course concerned with the study and development of strategy for businesses engaged in both domestic and international operations. The course is interdisciplinary in nature, requiring students to apply knowledge and skills learned in previous courses to solve problems of an organization. As part of this course, students are required to submit a portfolio which provides evidence over their ASU career that they have developed competencies, beyond subject matter knowledge in areas such as leadership, communications, decision-making, and creativity. Students are also required to take an examination covering the common body of knowledge of the B.B.A. degree. Non-International Business majors can substitute this course for Business Administration 4303.
Prerequisites: Graduating semester, Permission of the Department, English 3352, Finance 3361, Management 3305, and Marketing 3321.

**4321 International Marketing (3-0)**. A study of the fundamental concepts, principles, and theories of marketing in an international setting. Particular attention is given to foreign environmental variables including political, legal, geographic and culture affecting marketing strategies. Global issues that challenge today’s marketer, techniques for successfully entering international markets and the basic elements of an international marketing mix are studied. (Credit may not be earned for this course and Marketing 4321.)
Prerequisite: Junior standing.
4331 Global Supply Chain Management (3-0). The course explores key issues involved with design and management of global supply chains. Specifically, the course will focus on the integration of suppliers, logistics, production facilities, and distribution centers in order for customers to receive the right product at the right quantity and the right time. Also, emphasis will be given to issues of contract administration, location, and evaluation of foreign suppliers, exchange fluctuations, and customs procedures. Key concepts of supply chain management (SCM) and opportunities involving SCM strategy will be studied. In addition to conceptual topics, quantitative tools will also be presented in class.

Prerequisites: International Business 3311 and Management 3305.

4371 Internship (0-3). Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input on student performance from the employment supervisor and using the required weekly journals prepared by students.

Prerequisites: Senior standing and permission of the instructor.

4381 International Special Topics (3-0). Selected topics in international business. May be repeated once for credit when topic varies.

Prerequisite: Junior standing.

Graduate Courses

6314 Multinational Management Strategy (3-0). An advanced study of global strategies and management practices as compared with those in the European Union. Special focus will be given to creating a single, seamless organization capable of operating in a dynamic international environment. This course is usually taught off-campus as part of the International Studies Program.

6321 International Business (3-0). International business environmental frameworks; trade and investment theories and institutions; multinational corporation policy, strategy, functional management, operations, and concerns.
The following support courses are offered by the College of Business for international business degrees. Degrees are not offered in fields with these prefixes.

**Business Administration (BA)**

**Undergraduate Courses**

1301/BUSI 1301  **Introduction to Business (3-0).** Fundamental principles of business organization, ownership, operation, and control. Helpful to beginning students in selecting a major program of study.

2345/BUSI 2301  **Legal and Social Environment of Business (3-0).** An overview of the legal and social environment of business. Topics include social responsibility, ethics, the judicial system and court procedure, business torts and crimes, contracts, bailments, forms of business structure, bankruptcy, securities regulation, antitrust, consumer protection, personnel and labor law, international law and other relevant legal and social topics.

3309  **Entrepreneurship (3-0).** A course designed to provide students with an understanding of the entrepreneurial process. To include models for creating a business; developing and using business, financing and marketing plans; and managing the new venture during early operation and expansion. Business plan software will be utilized to prepare a business plan for a new expanding business. (Formerly Management 4309.)

Prerequisite: Junior standing.

4091  **Research: 1 to 6.** A specialized course providing research opportunities for superior students. Grading will be either pass or fail.

Prerequisite: Permission of the instructor.

4303  **Business Strategy and Policy Formulation (3-0).** A senior business capstone course concerned with the study and development of strategy for the overall organization. The course is interdisciplinary in nature, requiring students to apply knowledge and skills learned in previous courses to solve problems of an organization operating in its social, political, legal, ethical, international, and economic environment. As part of course requirements, students will be required to submit a portfolio which provides evidence over their ASU career that the student has developed competencies, beyond subject matter knowledge, in areas such as leadership, communications, decision-making, and creativity. Students will also be required to take an examination covering the common body of knowledge of the B.B.A. degree.

Prerequisites: Graduating semester, Permission of the Department, English 3352, Finance 3361, Management 3305, and Marketing 3321.

4371  **Internship.** Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input on student performance from the employment supervisor and using the required weekly journals prepared by students. Course may be repeated once for credit with permission of the instructor or department chair.

Prerequisite: Permission of the instructor.

**Graduate Courses**

6302  **Legal and Social Environment of Business (3-0).** Analysis of the role of business in contemporary society with emphasis on the legal, social, political, and regulatory factors affecting business.

6303  **Research Methods (3-0).** Collection, analysis, and interpretation of both primary and secondary data for business decisions.

Prerequisite: Management Science 6301.

**Business Computer Information Systems (BCIS)**

**Undergraduate Courses**

1305/BCIS 1305  **Business Computer Applications (3-0).** Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business utilization of the internet.

4366  **Business Modeling and Decision Making (3-0).** Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.

Prerequisites: Business Computer Information Systems 1305 or equivalent, Finance 3361.

**Business (BUSI)**

**Undergraduate Courses**

3345  **Business Law I (3-0).** Legal rights and social forces that shape government, business, and society. Regulatory law, contracts, sales, and commercial paper are covered.

3346  **Business Law II (3-0).** Legal issues related to the CPA. Includes the law of real and personal property, bailments, creditors rights, and secured transactions, agency and employment, insurance, partnerships, and corporations, bankruptcy, and securities regulations.

Prerequisite: Junior standing.

**Management Science (MSC)**

**Undergraduate Courses**

2331  **Statistical Analysis for Business and Economics (3-0).** Introduction to statistical analysis including such topics as: descriptive statistics, probability distributions, sampling, statistical inference, correlation and regression analysis, and time series and index numbers. (Formerly Business Administration 4331.)

Prerequisite: Mathematics 1325 or equivalent.

3332  **Applied Research Methods (3-0).** This course is an overview of the qualitative and quantitative research methods used in the field of business. A special emphasis will be given on the use of computer packages such as SAS and SPSS. The course is intended to cover research design, implementation, analysis, and communication of results.

Prerequisite: Management Science 2331.
International Business

4319 Forecasting and Planning (3-0). The course serves as a general course in forecasting methods. Techniques covered include smoothing, decomposition, regression, judgmental techniques, and new product forecasting. Comparison and selection of the appropriate techniques is addressed. Emphasis is placed on the interface between forecasting and the managerial functions of implementation and control. A combination of lectures, analytical exercises, problems, and computer exercises are used. Implementation of a forecast system in a small business is also utilized.

Prerequisite: Management Science 2331 or consent of instructor.

Graduate Courses

*5191 Independent Study in Statistics (1-0). A specialized on-line course in Statistics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.

Prerequisite: Permission of the Instructor.

6301 Decision Analysis (3-0). A study of statistical methodology and the application of statistics in business and economics. Includes descriptive and inferential techniques for decision analysis. Personal computers are used in analyzing decision data and presenting results.

6319 Forecasting Theory (3-0). The study of forecasting methods including exponential smoothing, decomposition, regression, and judgmental techniques. The use of forecasts in managerial planning and decision making.

Prerequisite: Management Science 6301 or consent of instructor.

Economics (ECO)

Undergraduate Courses

2300 Economic Analysis (3-0). A one-semester introduction to microeconomic and macroeconomic principles. The course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

2301/ECON 2301 Principles of Macroeconomics (3-0). Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.

Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

2302/ECON 2302 Principles of Microeconomics (3-0). Product pricing, resource allocation, factor pricing, income distribution, and economic growth; contemporary problems such as foreign trade and agriculture.

Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

3320 Economics for Managers (3-0). The application of economic theory to the management of firms. Includes topics of demand and consumer behavior, production and costs, theory of firms, and public policy towards business. This course is specifically designed for business majors.

Prerequisites: Economics 2300, or Economics 2301 and 2302.

3331 Comparative Economic Systems (3-0). This course is a study of various types of economic systems ranging from a free market economy to a centrally planned economy. This includes capitalism, socialism, communism, and modifications to these basic models.

Prerequisites: Economics 2300, or Economics 2301 and 2302.

3360 Money and Banking (3-0). The role of money, financial markets, and institutions. Monetary theory, central bank monetary policy, and the international financial system. (Credit may not be earned for this course and Finance 3360).

Prerequisite: Economics 2301.

4307 International Economics (3-0). Introduction to international trade and finance. Centered on present day currency arrangements with consideration of recent and proposed reforms of the international financial system. Includes the principles that govern world trade and investments with discussion of the factors that determine the direction of trade, and policies that inhibit the free flow of trade.

Prerequisites: Economics 2301 and 2302.

Graduate Courses

*5191 Independent Study in Economics (1-0). A specialized on-line course in Economics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.

Prerequisite: Permission of the Instructor.

6300 Economic Theory and Policy (3-0). This course combines macroeconomics, including demand and supply, unemployment, inflation, gross domestic product, inflation, the U.S. banking system, and microeconomics, including consumer choice, rents, profits, the firm’s cost and output determination, competition, monopoly, and the labor market.

6311 Managerial Economics (3-0). A survey of microeconomic theories and analysis methods with applications in business problems for managerial decision making. Topics include demand analysis and estimation, costs, market structures and pricing.

Prerequisite: Economics 2302 and Management Science 6301.

* Credit for 5000 level business area courses may not be used for degree requirements.

Specialization Area

Athletic Training

The Bachelor of Science degree in Exercise Science with AT Specialization (hereafter referred to as AT specialization) is dedicated to the academic and clinical preparation of the athletic training student for an entry-level position in the field of athletic training. An athletic trainer is a qualified allied health care professional with knowledge and experience in health related problems associated with athletic participation.

Mission Statement

The AT specialization provides the academic and clinical education requirements for athletic training students to meet guidelines for state licensure by the Advisory Board of Athletic Trainers and the Texas Department of State Health Services. We strive to provide the best opportunities for all athletic training students to succeed by providing quality instruction, supervision, and a variety of clinical experiences. The AT specialization will strive to provide the most efficient and effective treatments available to help prevent and

### Sample Four-Year Curriculum

- **Fall:** 6
- **Spring:** 7
- **Total:** 13

### Specialization Design

The Department of Kinesiology will offer a 4 year program of study leading to a Bachelor of Science in Exercise Science with a specialization in Athletic Training. Courses in the specialization of athletic training will be taken in a specific sequence with advising from the Department of Kinesiology. Clinical rotations include, but are not limited to, sport assignments with ASU athletic teams, high schools, sports medicine clinics, and team physicians.

The Bachelor of Science in Exercise Science with AT specialization is set to meet the requirements to be able to sit for the Texas Department of State Health Services Athletic Training Licensure Examination. These requirements include:

1. A person shall hold a baccalaureate or post-baccalaureate degree which includes at least 24 hours of combined academic credit from each of the following course areas:
   - Human Anatomy
   - Health, disease, nutrition, fitness, wellness, emergency care, first aid, or drug and alcohol education
   - Kinesiology or Biomechanics
   - Physiology of Exercise
   - Physical Education, Sports Medicine, or Care and Prevention of Injuries
   - Advanced Athletic Training, Advanced Sports Medicine, or Assessment of Injury
   - Therapeutic Exercise or Rehabilitation or Therapeutic Modalities

2. A person must have completed an apprenticeship program in athletic training that:
   - Consists of 1800 clock hours completed in college or university intercollegiate sports programs
   - Is based on the academic calendar
   - Is completed during at least five fall and/or spring semesters
   - Is completed while enrolled as a student at a college or university for at least 1500 of the 1800 clock hours

3. All applicants must hold current certification in adult cardiopulmonary resuscitation (CPR) or current certification for emergency medical services (EMS) with the Department of State Health Services.

4. Applicants must successfully complete the Texas Athletic Trainer Written Examination and Texas Athletic Trainer Practical Examination.

### Technical Standards

Angelo State University is committed to the principle that no qualified student with a disability, shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments Act of 2008 (ADAAA), and subsequent legislation.
Candidates for selection to the AT specialization must demonstrate the following standards:

1. The mental capacity to assimilate, analyze, synthesize, integrate concepts and engage in problem solving so as to formulate assessment and therapeutic judgements and to be able to distinguish deviations from the norm.

2. Have sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely and efficiently use equipment and materials during the assessment and treatment of patients.

3. Have the ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgements and treatment information effectively. Students must be able to understand and speak the English language at a level and consistent with competent professional practice.

4. Have the ability to record the physical examination results and a treatment plan clearly and accurately.

5. Have the capacity to maintain composure and continue to function well during periods of high stress.

6. Have the perseverance, diligence, and commitment to complete the athletic training program as outlined and sequenced.

7. Have the flexibility to adjust to changing situations and uncertainty in clinical situations.

8. Have affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Admission Policies and Procedures

A prospective student interested in pursuing an athletic training specialization must fill out an application on-line (www.angelosports.com). The applicant must meet all regular ASU admission requirements prior to submitting an application for athletic training specialization.

I. Admission Requirements for Athletic Training

A. High school graduate: a graduate from an accredited high school will be eligible for admission to ASU Athletic Training specialization when all admission requirements have been met.
   - Admission to Angelo State University
   - Application to AT specialization

B. Transfer student: a transfer student from an accredited college and/or university will be eligible for admission to ASU Athletic Training specialization when all admission requirements have been met.
   - Admission to Angelo State University
   - Application to AT specialization
   - Official transcripts of all college and/or university courses
   - Cumulative 2.00 GPA on all college and/or university course work

II. Requirements for Application Selection

A. Application: a program application can be completed by visiting the Athletic Training tab on the ASU Athletics website (www.angelosports.com). The prospective student’s file must contain the following:
   - Completed application
   - List of three references
   - Immunization records (verification or declination of Hepatitis B vaccine)
   - Volunteer/Observation hour verification

B. Selection Process: a student is eligible for selection to the program after having completed the application file. Candidates will be selected on a basis of transcript evaluation, volunteer/observational hours, ACT/SAT test scores, and overall GPA. All transfer students must possess a cumulative 2.00 GPA on all prior college and/or university course work. The program will accept no more than 20 students per year.

Unsafe Clinical Practice

The nature of athletic training is such that students are involved in the direct delivery of student-athlete health care. The primary purpose of any program is to provide educational opportunities for students. However, when direct student-athlete health care is involved in the learning experience, the safety and well-being of patients, clients, and student-athletes is of paramount concern. Athletic training experiences are structured so that as a student progresses through the program they will demonstrate increasing independence and competence in providing athletic training services.

A student whose performance in a clinical internship is judged to be unsafe by the Athletic Training Staff, based upon established standards for student-athlete and patient care, may be dismissed from the program at any time.

Students will be allowed due process as established by the University policies and procedures following course failure or program dismissal. Pending a final determination of the case, the status of the student may be restricted both didactically and clinically for reasons of the safety or well-being of persons or property as determined by the President of the University.

Facilities

Students in the AT specialization rely on the Angelo State University library as well as various medical and non-medical health care facilities for study and research. A variety of books, journals, and other materials specific to the AT specialization may be found in the ASU library, in addition, many reference materials are available for use in the athletic training room. The athletic training room, classrooms, and laboratories are located in the Junell Kinesiology facilities.
Kinesiology

Center, Center for Human Performance, and Vincent Building, room 146. The AT specialization has the faculty, equipment and laboratories necessary to create a variety of instructional experiences to aid the students during the process of learning in the field of athletic training.

### Kinesiology Minor

Athletic Training 3360, Kinesiology 2361, 3333, and nine additional hours of kinesiology.

### Pre-Physical Therapy

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy Program is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

### Course Descriptions

**Physical Activity (PA)***

*A student with a physical disability which would prevent taking physical activity courses should obtain written certification of the disability from a physician. The Dean of the student’s major College may grant permission for other college level work to be substituted for physical activity courses upon petition by the student.*

### Undergraduate Courses

**1111 Adaptive Activities (0-2).** A program of activities modified to meet the needs of students who are not qualified for full participation in the physical activity program. The activities offered will be those recommended by the examining physician for each individual student. This course may be repeated for a maximum of four semester hours of credit or until such time as the physician recommends entry into the unrestricted program.

Prerequisite: A written statement by a physician in which a specific modified program of activities is recommended for the student.

The following physical activity courses are designed to provide the student with knowledge and application of fundamental techniques required to participate in each activity at the recreational level. (These courses may not be repeated for credit.)

- **1103 Wally/Volleyball (0-2).**
- **1110 Fitness Walking (0-2).**
- **1112 Swimming (0-2).**
- **1113 Racquetball (0-2).**
- **1114 Tennis (0-2).**
- **1115 Bowling (0-2).**

* Only 8 SCH of physical activity courses may be used to meet degree requirements.

- **1116 Conditioning (0-2).**
- **1117 Team Sports (0-2).**
- **1118 Golf (0-2).**
- **1119 Jogging (0-2).**
- **1120 Weight Training (0-2).**
- **1125 Special Activities (0-2).** Includes a variety of non-traditional activities and sports. (May be repeated once for credit when activities differ.) Activities may include but are not limited to archery, wallyball, mountain biking, in-line skating and rugby.
- **1126 Strength and Conditioning (0-2).**
- **1133 Handball (0-2),**
- **1134 Intermediate Handball (0-2).**
- **2101 Intercollegiate Activities (0-8).** Participation as a member of an intercollegiate athletic squad. Upon dismissal or voluntary withdrawal from the intercollegiate program, the student must report to the Chair of the Kinesiology Department for assignment to the regular physical activity program or to the adaptive program. (May be repeated for credit.)
  Prerequisite: Membership on an intercollegiate athletic team.
- **2102 Precision Drill and Dance (0-5).** Participation as a member of the University dance and drill team, the Angelettes. Upon dismissal or voluntary withdrawal from the program the student must report to the Chair of the Kinesiology Department for assignment to the regular physical activity program or the adaptive program. (May be repeated for credit.)
  Prerequisite: Instructor’s approval.
- **2111 Fitness and Aquatic Activities (0-2).** For Kinesiology majors only.

**Kinesiology (KIN)**

### Undergraduate Courses

**1311 Foundations of Kinesiology (3-0).** Survey of the historical and philosophical foundations, scope, objectives, and future of kinesiology-related careers. In addition, scientific foundations, programs, professional considerations, and leadership requirements for employment within this profession will be emphasized.

- **1341 Introduction to Athletic Training (3-0).** The clinical education of skills and techniques relating to upper extremity, cervical and thoracic spine, head, face and thorax assessment involving health history, visual inspection, physical inspection, and functional testing.
- **2361 Principles of Wellness (3-0).** The study of the aspects that make up total wellness. Subject areas will include the health-related aspects of physical fitness, proper nutrition, heart disease, substance abuse, and the influence of mental, emotional, and psychological factors on these aspects.
- **3321 Essentials of Coaching (3-0).** A study of the concepts and competencies essential to coaching children and adolescents in the various sport settings. Topics such as coaching theory, coaching philosophies, the coach-athlete relationships, the coach-parent relationships, designing practice/training schedules, and administrative duties will be emphasized.
3333 Motor Development (3-0). A study of psychomotor development. The focus is on the growth years, though developmental considerations for all age groups are considered. Implications for sport, exercise, and physical activity will be discussed.
- Prerequisite: Junior standing or consent of instructor.

3345 Assessment of the Lower Extremity (3-0). The study of clinical assessment specifically related to the lower extremity (i.e. toes, foot, ankle, lower leg, knee, pelvis, and thigh).

3346 Assessment of the Upper Extremity (3-0). The study of clinical assessment specifically related to the upper extremity, head, cervical spine, and thorax.

3351 Measurement and Evaluation in Exercise and Sport (3-0). Measurement techniques unique to the evaluation of physical performance objectives, including physical fitness and acquisition of basic motor and sport skills. Practical experiences will be provided in test administration, scoring, and interpretation of results.

3352 Motor Skill Acquisition (3-0). Designed to provide students with an opportunity to acquire and demonstrate proficiency in a variety of basic motor skills in selected team and individual activities.
- Prerequisite: Junior standing or consent of instructor.

3370 Physiology of Exercise (3-0). Physiological responses of the system of the human body to acute and chronic exercise. Emphasis is on the processes and mechanisms for such responses.
- Prerequisites: Biology 2423 and 2424 or consent of instructor.

3372 Kinesiology: Biomechanical Analysis of Movement (3-0). Principles of human movement emphasizing an understanding of the relationship of structure and movement with respect to anatomy and mechanical analysis.
- Prerequisite: Biology 2423.

4091 Research: 1 to 3. Individual research problems for superior students majoring in kinesiology. 3.00 GPA and department chair approval required.

4301 Sport Management (3-0). Designed to provide an overview of the organization, administration, and management of sport and recreation programs. Emphasis on leadership, critical thinking and problem solving skills, and creativity processes related to success in the multidimensional, multidiscipline fields of sport and recreation. Areas covered include: program development and implementation, marketing and promotions, staff development and management, and strategic planning.
- Prerequisite: Senior classification or approval of instructor.

4331 Sports Law (3-0). A course that focuses on the legal elements and responsibilities found in sports and the entire realm of physical activities. The legal environment, legal duties and responsibilities, risk management, and participant rights will be addressed. Emphasis will be placed on developing proficiency in recognizing and solving problems and issues in sports and physical activities.

4333 Health Promotion in the Workplace (3-0). This course will provide students with an opportunity to learn about planning and implementing a comprehensive health promotion program in the workplace setting. Emphasis will be on developing environmental and social support for healthy behaviors within the business community. Additional topics that will be addressed include: building awareness, knowledge, skills, and interpersonal support for personal behavior change.

4343 Adapted Physical Activities (3-0). A survey of various disabling conditions: physical, mental, and emotional, and the implications that these disabilities impose on physical activities, fitness, and sport. A field experience is required.

4345 Therapeutic Modalities (3-0). The study of theories, applications, and methods of various modalities consisting of cryotherapy, electrotherapy, and thermotherapy in addition to principles of traction, intermittent compression, and massage.

4346 Therapeutic Exercise (3-0). The study of a comprehensive rehabilitation/reconditioning program involving techniques of flexibility, muscular strength, muscular endurance, and cardiorespiratory training involving anaerobic and aerobic principles.

4356 Methods of Teaching Physical Activities (3-0). Development of competencies for delivering instruction in community, school and other physical activity settings.

4361 Psychological Aspects of Sport and Exercise (3-0). The purpose of this course is to introduce the student to the fields of sport and exercise psychology. An emphasis will be placed on the application of psychological theories and training techniques specifically to coaching athletes. The expanding field of exercise psychology will also be studied with emphasis on the psychological effects of sustained exercise on health well-being.

4363 Motor Learning (3-0). Learning in the psychomotor domain; motor learning theories, psychological and physiological basis of skill behavior, motor and skill learning, state of performer and application of instructional techniques in motor learning and skill performance.
- Prerequisite: Junior or Senior classification or approval of instructor.

4373 Internship. Supervised internship with selected wellness and recreational organizations. Recommended for students not seeking teaching certification.
- Prerequisites: Senior standing, minimum GPA of 3.00, and approval by department. Apply by March 1 for the following fall semester and by November 1 for the following spring semester.

4380 Sport and Exercise Nutrition (3-0). The metabolism of food by various systems of the body and its relation to exercise. The role of diet along with the application of nutritional principles to enhance human performance.

4381 Special Topics (3-0). Selected topics in kinesiology. (May be repeated once for credit when topic varies.)

4382 Exercise Testing (3-0). Introduction to a variety of laboratory and field tests utilized in the evaluation of functional work capacity in specific areas of human performance. Emphasis is given to the application of the following: 1) benefits and risks associated with exercise testing, 2) health screening and risk stratification, 3) physical fitness testing and interpretation, 4) exercise testing for children, the elderly, and pregnant women, and 5) legal issues.
- Prerequisite: Kinesiology 3370 or consent of instructor.
Kinesiology

4383 Exercise Prescription (3-0). Introduction to basic theory and application relative to exercise prescription for healthy individuals and individuals with specific clinically diagnosed diseases. Emphasis is given to an application of the following: 1) benefits and risks associated with exercise, 2) health screening and risk stratification, 3) general principles of exercise prescription, 4) exercise prescription for diseased individuals, 5) exercise prescription for children, the elderly, and pregnant women, 6) methods for changing exercise behavior.

Prerequisite: Kinesiology 4382 or consent of instructor.

4390 Theory of Strength and Conditioning (3-0). A course designed to provide students with the knowledge and skills to design and implement safe and effective strength and conditioning programs.

Prerequisites: Kinesiology 3370 and Kinesiology 3372, or consent of instructor.

Athletic Training (AT)

Undergraduate Courses

1141 Special Skills in Athletic Training (0-2). A laboratory course to practice skills needed in the field of athletic training including: taping, bandaging, wound care, splinting, and emergency care of the sick/injured.

2101 Athletic Training Practicum I (0-8). The clinical education of skills and techniques relating to equipment intensive environments.

2102 Athletic Training Practicum II (0-8). The clinical education of skills and techniques relating to upper extremity, cervical and thoracic spine, head, face and thorax assessment involving health history, visual inspection, physical inspection and functional testing.

3101 Athletic Training Practicum III (0-8). The clinical education of skills and techniques relating to lower extremity, abdomen, lumbar and sacral spine assessment involving health history, visual inspection, physical inspection and functional testing.

3102 Athletic Training Practicum IV (0-8). The clinical education of skills and techniques relating to therapeutic modalities involving cryotherapy, thermotherapy, electrotherapy, massage and traction.

3131 Care and Prevention of Athletic Injuries Laboratory (0-3). Laboratory course to help identify concepts of: risk management factors, clinical evaluation and diagnosis, immediate care of injury and illness, organization and administration, professional responsibilities, and treatment, rehabilitation, and reconditioning of in athletic/clinical settings. Requires concurrent enrollment in Athletic Training 3331 or consent of the Athletic Training Program Director.

3142 Clinical Experience I - Athletic Training (0-0-15). General medical clinical experiences which provide for psychomotor, cognitive, and affective skill acquisition. The field experience also provides informal learning, practice, and application of clinical proficiencies in a clinical environment under the supervision of an approved instructor.

3331 Care and Prevention of Athletic Injuries (3-0). The purpose of this course is to identify injury risk factors associated with participation in competitive athletics and to plan all components of a prevention program.

3360 Prevention and Care of Activity Related Injuries (2-2). This course presents key concepts pertaining to the field of athletic training to assist future professionals in making correct decisions and taking appropriate actions when dealing with an activity-related injury or illness within their scope of practice.

4101 Athletic Training Practicum V (0-8). The clinical education of skills and techniques relating to therapeutic exercise involving flexibility, muscular strength, physical conditioning, aquatic therapy, and functional progressions.

4102 Athletic Training Practicum VI (0-8). The clinical education of general medical conditions and disabilities relating to illnesses, diseases, syndromes, and disorders of the human body systems.

4142 Clinical Experience II - Athletic Training (0-0-15). Clinical experiences with other allied health care providers which provide for psychomotor, cognitive, and affective skill acquisition. The field experience also provides informal learning, practice, and application of clinical proficiencies in a clinical environment under the supervision of an approved instructor.

4145 Instructional Experience (0-2). A course designed to offer athletic training students with supervised instructional experiences. May be repeated for credit.

4353 Administration of Athletic Training Programs (3-0). The principles of administrative components within the athletic training program. The student will plan, coordinate, and supervise areas of health care services, financial management, training room management, personnel management, and public relations.

4354 Pharmacology and General Medical Conditions in Athletic Setting (3-0). A study of the pharmacologic and pharmacokinetic principles of drug categories used in athletic training and general medical conditions found in athletic populations.

4434 Assessment of the Upper Extremity (3-3). The study of clinical assessment specifically related to the upper extremity, head, cervical spine, and thorax.

4435 Assessment of the Lower Extremity (3-3). The study of clinical assessment specifically related to the lower extremity (i.e. toes, foot, ankle, lower leg, knee, pelvis, and thigh).

4441 Therapeutic Modalities (3-3). The study of theories, applications, and methods of various modalities consisting of cryotherapy, electrotherapy, hydrotherapy, and thermotherapy in addition to principles of traction, intermittent compression, and massage.

4442 Therapeutic Exercise (3-3). The study of a comprehensive rehabilitation/reconditioning program involving techniques of flexibility, muscular strength, muscular endurance, and cardiorespiratory training involving anaerobic and aerobic principles.

---

* The Undergraduate Business Major Field test should be taken in conjunction with this course as a graduation requirement.

** The Graduate IVY MBA Test should be taken in conjunction with this course as a graduation requirement.

**** Electives are to be taken from the Department of Management and Marketing, Department of Accounting, Economics, and Finance, or courses from Political Science and Security Studies. Electives taken outside these areas must be given prior approval in writing by the graduate advisor. Courses with International Business related topics are highly recommended.
Students interested in the Integrated B.B.A. in Management/M.B.A. will be required to complete a minimum of 150 semester credit hours of degree credit. Of this total, 114 semester credit hours will be at the undergraduate level and 36 semester credit hours will be at the graduate level. A unique feature of the five-year program is that students will begin taking graduate course work in their senior year. All candidates for this program are required to take the GMAT or GRE and be admitted to the Graduate Program before taking any graduate credit hours. The student must maintain a cumulative 3.00 in all undergraduate courses and a cumulative 3.00 in all graduate courses. Another unique feature of this program will be the awarding of the B.B.A. in Management and M.B.A in Business Administration degrees simultaneously at the completion of the program. Therefore, a student will not be awarded the B.B.A. in Management after completing 114 semester credit hours at the undergraduate level. The program of study will continue into the graduate hours, and the B.B.A. in Management and the M.B.A. in Business Administration will be awarded upon the completion of the required 150 hours. Should a student decide not to finish the M.B.A. portion of the program, then this student would be required to complete all of the course requirements to finish the B.B.A. in Management as a separate degree.

### B.B.A. Management (120 hours)

#### Course Descriptions

**Management (MGT)**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3300</td>
<td>Organization Behavior (3-0)</td>
<td>An experiential and theoretical approach to human behavior in an organizational setting, by analysis of individual, group, and organizational processes, with a goal of understanding, predicting, and improving the performance of organizational elements.</td>
</tr>
<tr>
<td>3302</td>
<td>The History of Management Thought (3-0)</td>
<td>A course designed to assist the student in understanding how the conscious application of the management process has evolved. The approach is primarily chronological and will progress from management in the early civilizations through the industrial revolution, the scientific management era, and the human relations era to the modern management era. Much of the emphasis in the course will be on the influence of the external environment on the development of management thought. Prerequisite: Management 3300.</td>
</tr>
<tr>
<td>3303</td>
<td>Human Resource Management (3-0)</td>
<td>Techniques and procedures of general personnel management; employer-employee relationships; recruitment, selection, placement, and training of employees; job analysis; wage plans and policies; transfer and promotion; employee health and safety; and employment services and fringe benefits. Prerequisite: Management 3300.</td>
</tr>
<tr>
<td>3305</td>
<td>Operations and Production Management (3-0)</td>
<td>A survey of operations management concepts, theory, and decision techniques. Topics include forecasting, linear programming, site selection, layout, project management, control of production, standards, materials management, scheduling, and quality control. Analysis and application of decision models to real-world problems. Prerequisite: Management 3300.</td>
</tr>
<tr>
<td>3313</td>
<td>Current Issues in Management (3-0)</td>
<td>A study of selected current problems which affect and are affected by management in American business. Problems will include change in worker values, relations with governmental jurisdictions, efficiency, quality, and international competitiveness. Prerequisite: Management 3300.</td>
</tr>
<tr>
<td>3361</td>
<td>Project Management (3-0)</td>
<td>This course provides the student with an introduction to the project management process. The course focuses on both the common body of knowledge associated with project management as well as the art of managing projects. Students will be introduced to current project management software and will complete a series of project exercises and a major project. Some assignments will be in teams. This course provides students with a foundation to facilitate a career and professional certification in project management. Prerequisites: Management Science 2331 and Management 3305.</td>
</tr>
<tr>
<td>4091</td>
<td>Research: 1 to 6.</td>
<td>A specialized course providing research opportunities for superior students. Grading will be either pass or fail. Prerequisite: Permission of the instructor.</td>
</tr>
</tbody>
</table>
**Management**

**Graduate Courses**

4302 Ethics in Organizations (3-0). A course designed to: assist the student in the recognition of unresolved ethical issues likely to confront decision makers in business and other organizations; help the student become aware of some of the complexities involved in the application of moral reasoning to organizational decisions; and encourage the student to search for structural changes in business and other organizations in order to benefit society. This is a seminar and case study course, and substantial oral and written communication ability is required. The student would benefit if Philosophy 2311 were first completed.

Prerequisite: Junior standing.

4305 Organization Theory (3-0). Study of the antecedents and consequences of organization design and structure. This course will focus on structure, technology, environmental adaptation and managerial control systems of organizations operating within rapidly changing, global environments. An introduction to strategic analysis, planning, and decision-making.

Prerequisite: Management 3300.

4306 Applied Leadership (3-0). This course is designed to place students in real situations where they may practice leadership while studying and applying management theories involving leadership, motivation, group dynamics, and decision-making skills.

Prerequisite: Management 3300.

4308 Senior Seminar in Business Administration (3-0). A senior seminar for superior students majoring in any business discipline. Topics and projects vary by semester.

Prerequisite: Departmental permission required.

4309 Organizational Training and Development (3-0). This course provides students with the foundational knowledge and applied skills to design and implement training and development in organizational settings, including assessing training needs, active learning strategies, evaluating training effectiveness, and incorporating technology to train organizational members.

4311 Organizational Behavior (3-0). A study of people in an organizational setting. Attention is given to behavioral theory, empirically derived knowledge, and application of this theory and knowledge. Students will participate in solving organizational problems through cases, experiential exercises, and/or simulations.

4312 Operations Management (3-0). A case-oriented examination of operations management. Topics include inventory management, MRP, production planning and scheduling, plant layout, process analysis, material flows, quality, project management, and service operations. Consideration of Japanese manufacturing techniques.

Prerequisite: Management Science 6301.

4313 Corporate Strategies and Policies (3-0). An advanced case course dealing with the wide range of management problems involving policy and strategy decisions faced by executives in both domestic and international markets. A capstone course that requires integration of all materials covered in the MBA curriculum in the policy formulation process.

Prerequisite: 24 graduate hours or final long semester of enrollment in the MBA program.

6311 Organizational Behavior (3-0). A study of people in an organizational setting. Attention is given to behavioral theory, empirically derived knowledge, and application of this theory and knowledge. Students will participate in solving organizational problems through cases, experiential exercises, and/or simulations.

4313 Corporate Strategies and Policies (3-0). An advanced case course dealing with the wide range of management problems involving policy and strategy decisions faced by executives in both domestic and international markets. A capstone course that requires integration of all materials covered in the MBA curriculum in the policy formulation process.

Prerequisite: 24 graduate hours or final long semester of enrollment in the MBA program.

6322 Government and American Business (3-0). An examination of the interplay between American national, state, and local governments and American business. Topics of consideration include the historical changes in the relationship of government and business, the role of private enterprise in the federal grant-in-aid process, and the effect of government spending on business. Special focus will be given to government regulation of business. (Credit may not be earned for this course and Political Science 6322.)

6332 Technology Commercialization and Management (3-0). The study of the management techniques relating to the practical economic development of scientific and technological knowledge.

6371 Internship. A structured assignment with a firm or agency. Grading will be either pass or fail. May be repeated once for credit with permission.

6381 Special Topics (3-0). A course dealing with selected topics in management. (May be repeated once for credit when topic varies.)

6391 Research. A specialized course which may be directed reading or research for superior students. (May be repeated for credit when topic varies.)

The following support courses are offered by the College of Business for management degrees. Degrees are not offered in fields with these prefixes.

**Business Administration (BA)**

**Undergraduate Courses**

1301/BUSI 1301 Introduction to Business (3-0). Fundamental principles of business organization, ownership, operation, and control. Helpful to beginning students in selecting a major program of study.

2345/BUSI 2301 Legal and Social Environment of Business (3-0). An overview of the legal and social environment of business. Topics include social responsibility, ethics, the judicial system and court procedure, business torts and crimes, contracts, bailments, forms of business structure, bankruptcy, securities regulation, antitrust, consumer protection, personnel and labor law, international law and other relevant legal and social topics.

3309 Entrepreneurship (3-0). A course designed to provide students with an understanding of the entrepreneurial process. To include models for creating a business; developing and using business, financing and marketing plans; and managing the new venture during early operation and expansion. Business plan software will be utilized to prepare a business plan for a new expanding business. (Formerly Management 4309.)

Prerequisite: Junior standing.

4091 Research: 1 to 6. A specialized course providing research opportunities for superior students. Grading will be either pass or fail.

Prerequisite: Permission of the instructor.

*Credit for 5000 level business area courses may not be used for degree requirements.*
Management

4303 Business Strategy and Policy Formulation (3-0). A senior business capstone course concerned with the study and development of strategy for the overall organization. The course is interdisciplinary in nature, requiring students to apply knowledge and skills learned in previous courses to solve problems of an organization operating in its social, political, legal, ethical, international, and economic environment. As part of course requirements, students will be required to submit a portfolio which provides evidence over their ASU career that the student has developed competencies, beyond subject matter knowledge, in areas such as leadership, communications, decision-making, and creativity. Students will also be required to take an examination covering the common body of knowledge of the B.B.A. degree.

Prerequisites: Graduating semester, Permission of the Department, English 3352, Finance 3361, Management 3305, and Marketing 3321.

4371 Internship. Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input on student performance from the employment supervisor and using the required weekly journals prepared by students. Course may be repeated once for credit with permission of the instructor or department chair.

Prerequisite: Permission of the instructor.

Graduate Courses

6302 Legal and Social Environment of Business (3-0). Analysis of the role of business in contemporary society with emphasis on the legal, social, political, and regulatory factors affecting business.

6303 Research Methods (3-0). Collection, analysis, and interpretation of both primary and secondary data for business decisions.

Prerequisite: Management Science 6301.

Business Computer Information Systems (BCIS)

Undergraduate Courses

1305/BCIS 1305 Business Computer Applications (3-0). Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business utilization of the internet.

4366 Business Modeling and Decision Making (3-0). Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.

Prerequisites: Business Computer Information Systems 1305 or equivalent, Finance 3361.

Business (BUSI)

Undergraduate Courses

3345 Business Law I (3-0). Legal rights and social forces that shape government, business, and society. Regulatory law, contracts, sales, and commercial paper are covered.

Prerequisite: Junior standing.

3346 Business Law II (3-0). Legal issues related to the CPA. Includes the law of real and personal property, bailments, creditors rights, and secured transactions, agency and employment, insurance, partnerships, and corporations, bankruptcy, and securities regulations.

Prerequisite: Management Science 6301.

Economics (ECO)

Undergraduate Courses

2300 Economic Analysis (3-0). A one-semester introduction to microeconomic and macroeconomic principles. The course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

2301/ECON 2301 Principles of Macroeconomics (3-0). Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.

Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

2302/ECON 2302 Principles of Microeconomics (3-0). Product pricing, resource allocation, factor pricing, income distribution, and economic growth; contemporary problems such as foreign trade and agriculture.

Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

3320 Economics for Managers (3-0). The application of economic theory to the management of firms. Includes topics of demand and consumer behavior, production and costs, theory of firms, and public policy towards business. This course is specifically designed for business majors.

Prerequisite: Economics 2300, or 2301 and 2302.

3331 Comparative Economic Systems (3-0). This course is a study of various types of economic systems ranging from a free market economy to a centrally planned economy. This includes capitalism, socialism, communism, and modifications to these basic models.

Prerequisite: Economics 2300, or Economics 2301 and 2302.

3360 Money and Banking (3-0). The role of money, financial markets, and institutions. Monetary theory, central bank monetary policy, and the international financial system. (Credit may not be earned for this course and Finance 3360.)

Prerequisite: Economics 2301.

4307 International Economics (3-0). Introduction to international trade and finance. Centered on present day currency arrangements with consideration of recent and proposed reforms of the international financial system. Includes the principles that govern world trade and investments with discussion of the factors that determine the direction of trade, and policies that inhibit the free flow of trade.

Prerequisites: Economics 2301 and 2302.
Graduate Courses

*5191 Independent Study in Economics (1-0). A specialized on-line course in Economics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6300 Economic Theory and Policy (3-0). This course combines macroeconomics, including demand and supply, unemployment, inflation, gross domestic product, inflation, the U.S. banking system, and microeconomics, including consumer choice, rents, profits, the firm’s cost and output determination, competition, monopoly, and the labor market.

6311 Managerial Economics (3-0). A survey of microeconomic theories and analysis methods with applications in business problems for managerial decision making. Topics include demand analysis and estimation, costs, market structures and pricing.
Prerequisite: Economics 2302 and Management Science 6301.

Management Science (MSC)

Undergraduate Courses

2331 Statistical Analysis for Business and Economics (3-0). Introduction to statistical analysis including such topics as: descriptive statistics, probability distributions, sampling, statistical inference, correlation and regression analysis, and time series and index numbers. (Formerly Business Administration 4331.)
Prerequisite: Mathematics 1325 or equivalent.

3332 Applied Research Methods (3-0). This course is an overview of the qualitative and quantitative research methods used in the field of business. A special emphasis will be given on the use of computer packages such as SAS and SPSS. The course is intended to cover research design, implementation, analysis, and communication of results.
Prerequisite: Management Science 2331.

4319 Forecasting and Planning (3-0). The course serves as a general course in forecasting methods. Techniques covered include smoothing, decomposition, regression, judgmental techniques, and new product forecasting. Comparison and selection of the appropriate techniques is addressed. Emphasis is placed on the interface between forecasting and the managerial functions of implementation and control. A combination of lectures, analytical exercises, problems, and computer exercises are used. Implementation of a forecast system in a small business is also utilized.
Prerequisite: Management Science 2331 or consent of instructor.

Graduate Courses

*5191 Independent Study in Statistics (1-0). A specialized on-line course in Statistics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Decision Analysis (3-0). A study of statistical methodology and the application of statistics in business and economics. Includes descriptive and inferential techniques for decision analysis. Personal computers are used in analyzing decision data and presenting results.

6319 Forecasting Theory (3-0). The study of forecasting methods including exponential smoothing, decomposition, regression, and judgmental techniques. The use of forecasts in managerial planning and decision making.
Prerequisite: Management Science 6301 or consent of instructor.

* Credit for 5000 level business area courses may not be used for degree requirements.

**Electives**

Undergraduate Electives

---

**Notes:**

* The Undergraduate Business Major Field test should be taken in conjunction with this course as a graduation requirement.

** The Graduate IVY MBA Test should be taken in conjunction with this course as a graduation requirement.

*** The Undergraduate Business Major Field test should be taken in conjunction with this course as a graduation requirement.

****Electives are to be taken from the Department of Management and Marketing; Department of Accounting, Economics, and Finance; or courses from Political Science and Security Studies. Electives taken outside these areas must be given prior approval in writing by the graduate advisor. Courses with International Business related topics are highly recommended.

---

* The Undergraduate Business Major Field test should be taken in conjunction with this course as a graduation requirement.
the Graduate Program before taking any graduate credit hours. The student must maintain a cumulative 3.00 in all undergraduate courses and a cumulative 3.00 in all graduate courses. Another unique feature of this program will be the awarding of the B.B.A. in Management Information Systems and M.B.A in Business Administration degrees simultaneously at the completion of the program. Therefore, a student will not be awarded the B.B.A. in Management Information Systems after completing 114 semester credit hours at the undergraduate level. The program of study will continue into the graduate hours, and the B.B.A. in Management Information Systems and the M.B.A. in Business Administration will be awarded upon the completion of the required 150 hours. Should a student decide not to finish the M.B.A. portion of the program, then this student would be required to complete all of the course requirements to finish the B.B.A. in Management Information Systems as a separate degree.

### B.B.A. Management Information Systems (120 hours)

### Course Descriptions

#### Management Information Systems (MIS)

#### Undergraduate Courses

**3343 Management Information Systems (3-0).** The course provides a foundation in the theory and practical application of information systems within an organization. Managing, analyzing, designing, and implementing an MIS will be the focus of the course. Strategic value, methodologies, quality, decision making, modeling, re-engineering, software, hardware, and ethics will all be included.

Prerequisite: Junior standing.

**3371 Geographical Information Systems (3-0).** An overview of business GIS concepts and terminology. Application of GIS software to analyze business information. Topics include relational databases, spatial data analysis, and digital mapping. (Credit may not be earned for this course and Geology 3371).

Prerequisite: Junior standing or permission of instructor.

**3393 Web Systems Development (3-0).** The course covers hypertext markup language and other Web-centered software. Students will learn how to plan, design, create and maintain Web sites using hypertext markup code and other scripting languages.

Prerequisite: Junior standing.

**4091 Research: 1 to 6.** A specialized course providing research opportunities for superior students. Grading will be either pass or fail.

Prerequisite: Permission of the instructor.

**4301 Practicum in Management Information Systems (3-0).** Instruction providing detailed education, training, and work-based experience in the design and administration of management information systems, generally at a work or organizational site. The practicum is an unpaid learning experience involving actual information systems under the supervision of a faculty member. Student teams will evaluate the design and implementation of a significant information system or will develop such a system where none exists. Project management, management of the information systems function, and systems integration will be components of the project experience.

Prerequisites: Management Information Systems 3343 and senior standing.

**4336 Networks and Data Communication (3-0).** Provides an in-depth knowledge of data communications and networking requirements including networking and telecommunications technologies, hardware, and software. Management of telecommunications networks, cost-benefit analysis, and evaluation of connectivity options are also covered.

Prerequisites: Management Information Systems 3343 and senior standing.

**4343 System Analysis and Design (3-0).** Provides an understanding of the system development and modification process. Emphasizes the factors for effective communication and integration with users and user systems. Encourages interpersonal skill development with clients, users, team members, and others associated with development, operation, and maintenance of the management information system. Use of data modeling and analysis tools.

Prerequisites: Computer Science 1341 and junior standing.
Management Information Systems

4344 Database Management Systems (3-0). Extension of the analysis and design concepts of Management Information Systems 4343 to management information systems involving design and construction of databases under a database management system (DBMS).
   Prerequisite: Management Information Systems 4343.

   Prerequisite: Junior standing.

4361 Seminar in Management Information Systems (3-0). Designed to acquaint the student with current literature and to evaluate new technological developments in the field of management information systems.
   Prerequisite: Management Information Systems 3343.

4381 Special Topics (3-0). Selected topics in management information systems. May be repeated once for credit when topic varies.

**Graduate Courses**

6313 Management of Information Systems (3-0). Addresses the management of the information resources from a senior management viewpoint. Covers the use of information technology to achieve competitive advantage, information technology and the organization, managing information assets, outsourcing, information technology operations and management, and information technology as a business.

The following support courses are offered by the College of Business for management information systems degrees. Degrees are not offered in fields with these prefixes.

**Business Administration (BA)**

**Undergraduate Courses**

1301/BUSI 1301 Introduction to Business (3-0). Fundamental principles of business organization, ownership, operation, and control. Helpful to beginning students in selecting a major program of study.

2345/BUSI 2301 Legal and Social Environment of Business (3-0). An overview of the legal and social environment of business. Topics include social responsibility, ethics, the judicial system and court procedure, business torts and crimes, contracts, bailments, forms of business structure, bankruptcy, securities regulation, antitrust, consumer protection, personnel and labor law, international law and other relevant legal and social topics.

3309 Entrepreneurship (3-0). A course designed to provide students with an understanding of the entrepreneurial process. To include models for creating a business; developing and using business, financing and marketing plans; and managing the new venture during early operation and expansion. Business plan software will be utilized to prepare a business plan for a new expanding business. (Formerly Management 4309.)
   Prerequisite: Junior standing.

**Business Computer Information Systems (BCIS)**

**Undergraduate Courses**

1305/BCIS 1305 Business Computer Applications (3-0). Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business utilization of the internet.

4366 Business Modeling and Decision Making (3-0). Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.
   Prerequisites: Business Computer Information Systems 1305 or equivalent, Finance 3361.

**Business (BUSI)**

**Undergraduate Courses**

3345 Business Law I (3-0). Legal rights and social forces that shape government, business, and society. Regulatory law, contracts, sales, and commercial paper are covered.
3346 Business Law II (3-0). Legal issues related to the CPA. Includes the law of real and personal property, bailments, creditors rights, and secured transactions, agency and employment, insurance, partnerships, and corporations, bankruptcy, and securities regulations.
Prerequisite: Junior standing.

Economics (ECO)

Undergraduate Courses

2300 Economic Analysis (3-0). A one-semester introduction to microeconomic and macroeconomic principles. The course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

2301/ECON 2301 Principles of Macroeconomics (3-0). Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.
Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

2302/ECON 2302 Principles of Microeconomics (3-0). Product pricing, resource allocation, factor pricing, income distribution, and economic growth; contemporary problems such as foreign trade and agriculture.
Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

3320 Economics for Managers (3-0). The application of economic theory to the management of firms. Includes topics of demand and consumer behavior, production and costs, theory of firms, and public policy towards business. This course is specifically designed for business majors.
Prerequisite: Economics 2300, or 2301 and 2302.

3331 Comparative Economic Systems (3-0). This course is a study of various types of economic systems ranging from a free market economy to a centrally planned economy. This includes capitalism, socialism, communism, and modifications to these basic models.
Prerequisite: Economics 2300, or 2301 and 2302.

3360 Money and Banking (3-0). The role of money, financial markets, and institutions. Monetary theory, central bank monetary policy, and the international financial system. (Credit may not be earned for this course and Finance 3360).
Prerequisite: Economics 2301.

4307 International Economics (3-0). Introduction to international trade and finance. Centered on present day currency arrangements with consideration of recent and proposed reforms of the international financial system. Includes the principles that govern world trade and investments with discussion of the factors that determine the direction of trade, and policies that inhibit the free flow of trade.
Prerequisites: Economics 2301 and 2302.

Graduate Courses

*5191 Independent Study in Economics (1-0). A specialized on-line course in Economics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6300 Economic Theory and Policy (3-0). This course combines macroeconomics, including demand and supply, unemployment, inflation, gross domestic product, production, the U.S. banking system, and microeconomics, including consumer choice, rents, profits, the firm’s cost and output determination, competition, monopoly, and the labor market.

6311 Managerial Economics (3-0). A survey of microeconomic theories and analysis methods with applications in business problems for management decision making. Topics include demand analysis and estimation, costs, market structures and pricing.
Prerequisite: Economics 2302 and Management Science 6301.

Management Science (MSC)

Undergraduate Courses

2331 Statistical Analysis for Business and Economics (3-0). Introduction to statistical analysis including such topics as: descriptive statistics, probability distributions, sampling, statistical inference, correlation and regression analysis, and time series and index numbers. (Formerly Business Administration 4331.)
Prerequisite: Mathematics 1325 or equivalent.

3332 Applied Research Methods (3-0). This course is an overview of the qualitative and quantitative research methods used in the field of business. A special emphasis will be given on the use of computer packages such as SAS and SPSS. The course is intended to cover research design, implementation, analysis, and communication of results.
Prerequisite: Management Science 2331.

4319 Forecasting and Planning (3-0). The course serves as a general course in forecasting methods. Techniques covered include smoothing, decomposition, regression, judgmental techniques, and new product forecasting. Comparison and selection of the appropriate techniques is addressed. Emphasis is placed on the interface between forecasting and the managerial functions of implementation and control. A combination of lectures, analytical exercises, problems, and computer exercises are used. Implementation of a forecast system in a small business is also utilized.
Prerequisite: Management Science 2331 or consent of instructor.

Graduate Courses

*5191 Independent Study in Statistics (1-0). A specialized on-line course in Statistics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Decision Analysis (3-0). A study of statistical methodology and the application of statistics in business and economics. Includes descriptive and inferential techniques for decision analysis. Personal computers are used in analyzing decision data and presenting results.

6319 Forecasting Theory (3-0). The study of forecasting methods including exponential smoothing, decomposition, regression, and judgmental techniques. The use of forecasts in managerial planning and decision making.
Prerequisite: Management Science 6301 or consent of instructor.

* Credit for 5000 level business area courses may not be used for degree requirements.
College of Business:

Undergraduate Electives (3 hours must be advanced) ...........7

Students interested in the Integrated B.B.A. in Marketing/M.B.A. will be required to complete a minimum of 150 semester credit hours of degree credit. Of this total, 114 semester credit hours will be at the undergraduate level and 36 semester credit hours will be at the graduate level. A unique feature of the five-year program is that students will begin taking graduate coursework in their senior year. All candidates for this program are required to take the GMAT or GRE and be admitted to the Graduate Program before taking courses.

** The Graduate IVY MBA Test should be taken in conjunction with this course as a graduation requirement.

*** The Undergraduate Business Major Field test should be taken in conjunction with this course as a graduation requirement.

**** Electives are to be taken from the Department of Management and Marketing; Department of Accounting, Economics, and Finance; or courses from Political Science and Security Studies. Electives taken outside these areas must be given prior approval in writing by the graduate advisor. Courses with International Business related topics are highly recommended.
Marketing (3-0). Fundamentals of marketing in the modern economic system. This course is a prerequisite for all other marketing courses except Marketing 3322 which may be taken concurrently.
Prerequisite: Junior standing.

3322 Consumer Behavior (3-0). An integration of behavioral concepts in the analysis of consumer behavior and in marketing strategy formulation.
Prerequisite: Junior standing.

3323 Sales Management (3-0). Management of the personal selling function of firms; selection and training of sales personnel; performance evaluation; establishment of realistic sales goals; motivation of the sales force; coordination of personal selling with non-personal organization communications.
Prerequisite: Junior standing.

3325 Advertising Management (3-0). Communications theory related to market audience and group behavior; relationships of communications in the marketing mix and of advertising in the firm’s communication mix; establishing advertising appropriations and budgets; campaign strategy; media analysis; and the evaluation of the communication effort of the firm.
Prerequisite: Junior standing.

4091 Research: 1 to 6. A specialized course providing research opportunities for superior students. Grading will be either pass or fail.
Prerequisite: Permission of the instructor.

4321 International Marketing (3-0). A study of the fundamental concepts, principles, and theories of marketing in an international setting. Particular attention is given to foreign environmental variables including political, legal, geographic and culture affecting marketing strategies. Global issues that challenge today’s marketer techniques for successfully entering international markets and the basic elements of an international marketing mix are studied. (Credit may not be earned for this course and International Business 4321.)
Prerequisite: Junior standing.

4324 Business Logistics (3-0). An examination of the concepts of physical distribution and supply. Topics include facility location, transportation, warehousing, inventory management and control, and logistics strategy.
Prerequisite: Marketing 3321.

4325 Marketing Management (3-0). Case analysis involving strategy and tactics for the solution of marketing problems; decision theory stressing the interdisciplinary nature of marketing management.
Prerequisite: Marketing 3321.

4326 Marketing Research (3-0). A study of the procedures to develop and analyze new information to help marketing managers make decisions. The steps of the marketing research process (from problem definition to problem solution are covered.) Students are expected to complete a marketing research project using empirical or simulated data.
Prerequisites: Management Science 2331 and Marketing 3321.

4328 Salesmanship (3-0). The components needed in order to effectively close a sale. Emphasis on buyer behavior, personal motivation, need for product knowledge, the art of persuasion, prospecting, handling objections and closing techniques. Oral participation is required.
Prerequisite: Junior standing.

4381 Special Topics (3-0). Special topics in marketing. (May be repeated once for credit when topic varies.)
Prerequisite: Marketing 3321.
Marketing

Graduate Courses

*5191 Independent Study in Marketing (1-0). A specialized on-line course in Marketing which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Marketing Management (3-0). An analysis of the marketing management process for all types of organizations. Included are the topics of (1) planning marketing activities, (2) directing the implementation of the plans, and (3) controlling marketing plans.

The following support courses are offered by the College of Business for marketing degrees. Degrees are not offered in fields with these prefixes.

Business Administration (BA)

Undergraduate Courses

1301/BUSI 1301 Introduction to Business (3-0). Fundamental principles of business organization, ownership, operation, and control. Helpful to beginning students in selecting a major program of study.

2345/BUSI 2301 Legal and Social Environment of Business (3-0). An overview of the legal and social environment of business. Topics include social responsibility, ethics, the judicial system and court procedure, business torts and crimes, contracts, bailments, forms of business structure, bankruptcy, securities regulation, antitrust, consumer protection, personnel and labor law, international law and other relevant legal and social topics.

3309 Entrepreneurship (3-0). A course designed to provide students with an understanding of the entrepreneurial process. To include models for creating a business; developing and using business, financing and marketing plans; and managing the new venture during early operation and expansion. Business plan software will be utilized to prepare a business plan for a new expanding business. (Formerly Management 4309.)
Prerequisite: Junior standing.

4091 Research: 1 to 6. A specialized course providing research opportunities for superior students. Grading will be either pass or fail.
Prerequisite: Permission of the instructor.

4303 Business Strategy and Policy Formulation (3-0). A senior business capstone course concerned with the study and development of strategy for the overall organization. The course is interdisciplinary in nature, requiring students to apply knowledge and skills learned in previous courses to solve problems of an organization operating in its social, political, legal, ethical, international, and economic environment. As part of course requirements, students will be required to submit a portfolio which provides evidence over their ASU career that the student has developed competencies, beyond subject matter knowledge, in areas such as leadership, communications, decision-making, and creativity. Students will also be required to take an examination covering the common body of knowledge of the B.B.A. degree.
Prerequisites: Graduating semester, Permission of the Department, English 3352, Finance 3361, Management 3305, and Marketing 3321.

4371 Internship. Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input on student performance from the employment supervisor and using the required weekly journals prepared by students. Course may be repeated once for credit with permission of the instructor or department chair.
Prerequisite: Permission of the instructor.

Graduate Courses

6302 Legal and Social Environment of Business (3-0). Analysis of the role of business in contemporary society with emphasis on the legal, social, political, and regulatory factors affecting business.

6303 Research Methods (3-0). Collection, analysis, and interpretation of both primary and secondary data for business decisions.
Prerequisite: Management Science 6301.

Business Computer Information Systems (BCIS)

Undergraduate Courses

1305/BCIS 1305 Business Computer Applications (3-0). Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business utilization of the internet.

4366 Business Modeling and Decision Making (3-0). Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.
Prerequisites: Business Computer Information Systems 1305 or equivalent, Finance 3361.

Business (BUSI)

Undergraduate Courses

3345 Business Law I (3-0). Legal rights and social forces that shape government, business, and society. Regulatory law, contracts, sales, and commercial paper are covered.

3346 Business Law II (3-0). Legal issues related to the CPA. Includes the law of real and personal property, bailments, creditors rights, and secured transactions, agency and employment, insurance, partnerships, and corporations, bankruptcy, and securities regulations.
Prerequisite: Junior standing.

Economics (ECO)

Undergraduate Courses

2300 Economic Analysis (3-0). A one-semester introduction to microeconomic and macroeconomic principles. The course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

* Credit for 5000 level business area courses may not be used for degree requirements.
2301/ECON 2301 Principles of Macroeconomics (3-0). Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.
Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

2302/ECON 2302 Principles of Microeconomics (3-0). Product pricing, resource allocation, factor pricing, income distribution, and economic growth; contemporary problems such as foreign trade and agriculture.
Prerequisite: Mathematics 1302, 1332, 1324 or equivalent.

3320 Economics for Managers (3-0). The application of economic theory to the management of firms. Includes topics of demand and consumer behavior, production and costs, theory of firms, and public policy towards business. This course is specifically designed for business majors.
Prerequisite: Economics 2300, or 2301 and 2302.

3330 Comparative Economic Systems (3-0). This course is a study of various types of economic systems ranging from a free market economy to a centrally planned economy. This includes capitalism, socialism, communism, and modifications to these basic models.
Prerequisites: Economics 2300, or 2301 and 2302.

3360 Money and Banking (3-0). The role of money, financial markets and institutions. Monetary theory, central bank monetary policy and the international financial system. (Credit may not be earned for this course and Finance 3360.)
Prerequisite: Economics 2301.

4307 International Economics (3-0). Introduction to international trade and finance. Centered on present day currency arrangements with consideration of recent and proposed reforms of the international financial system. Includes the principles that govern world trade and investments with discussion of the factors that determine the direction of trade, and policies that inhibit the free flow of trade.
Prerequisites: Economics 2301 and 2302.

Graduate Courses

*5191 Independent Study in Economics (1-0). A specialized on-line course in Economics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6300 Economic Theory and Policy (3-0). This course combines macroeconomics, including demand and supply, unemployment, inflation, gross domestic product, inflation, the U.S. banking system, and microeconomics, including consumer choice, rents, profits, the firm’s cost and output determination, competition, monopoly, and the labor market.

6311 Managerial Economics (3-0). A survey of microeconomic theories and analysis methods with applications in business problems for managerial decision making. Topics include demand analysis and estimation, costs, market structures and pricing.
Prerequisite: Economics 2302 and Management Science 6301.

Management Science (MSC)

Undergraduate Courses

2311 Statistical Analysis for Business and Economics (3-0). Introduction to statistical analysis including such topics as: descriptive statistics, probability distributions, sampling, statistical inference, correlation and regression analysis, and time series and index numbers. (Formerly Business Administration 4331.)
Prerequisite: Mathematics 1325 or equivalent.

3332 Applied Research Methods (3-0). This course is an overview of the qualitative and quantitative research methods used in the field of business. A special emphasis will be given on the use of computer packages such as SAS and SPSS. The course is intended to cover research design, implementation, analysis, and communication of results.
Prerequisite: Management Science 2331.

4319 Forecasting and Planning (3-0). The course serves as a general course in forecasting methods. Techniques covered include smoothing, decomposition, regression, judgmental techniques, and new product forecasting. Comparison and selection of the appropriate techniques is addressed. Emphasis is placed on the interface between forecasting and the managerial functions of implementation and control. A combination of lectures, analytical exercises, problems, and computer exercises are used. Implementation of a forecast system in a small business is also utilized.
Prerequisite: Management Science 2331 or consent of instructor.

Graduate Courses

*5191 Independent Study in Statistics (1-0). A specialized on-line course in Statistics which is required for students who need additional background study in the area. Credit may not apply towards MBA degree requirements. Grading will be either pass or fail.
Prerequisite: Permission of the Instructor.

6301 Decision Analysis (3-0). A study of statistical methodology and the application of statistics in business and economics. Includes descriptive and inferential techniques for decision analysis. Personal computers are used in analyzing decision data and presenting results.

6319 Forecasting Theory (3-0). The study of forecasting methods including exponential smoothing, decomposition, regression, and judgmental techniques. The use of forecasts in managerial planning and decision making.
Prerequisite: Management Science 6301 or consent of instructor.
Mass Media

College of Arts and Sciences:
Department of Communication and Mass Media

**Course Descriptions**

**Mass Media (MM)**

**Undergraduate Courses**

**1311 Writing for Mass Media (3-0).** The fundamentals of purpose, context, voice, technique, and structure for effective writing for various forms of mass media.

**1361/COMM 1335 Introduction to Radio/Television/Film (3-0).** A survey of the radio/TV cable industry in America including programming, regulations, technology and history. (Credit may not be earned for this course and Communication 1361.)

**2305/COMM 1307 Media Literacy (3-0).** An analysis of media and its impact on society. Emphasis is on understanding the cultural, political, economic and social impact of media in the United States and the world.

**2311 News Reporting and Writing (3-0).** Methods of gathering and writing news including audience analysis, news evaluation, fact gathering, interviewing, and information dissemination. 
Prerequisite: Mass Media 1311.

**2321/COMM 1318 Photography (2-2).** An introductory course in operating a 35 mm camera and developing and printing black and white film.

2345 Multimedia Development and Design (3-0). Principles and practice of visual communication using a variety of industry-standard software. Projects range from publication design to web development with a focus on the application of graphic design principles.

2362 Beginning Video Production (2-2). Operation and use of television production equipment; fundamentals of digital video production and direction using single- and multi-camera formats. (Credit may not be earned for this course and Communication 2362.)

3311 Media Law (3-0). A study of statutory, administrative, and case law relevant to the First Amendment and U.S. print and broadcast media. Attention given to applicable Texas state law.

3313 Magazine and Feature Writing (3-0). Techniques of feature writing, with a practical approach to researching, writing, targeting niche audiences, and marketing feature stories to the mass media.

3314 Copy Editing (3-0). Principles and practices in copy editing, photograph selection and editing, headline writing, use of the language, and news judgment.

3325 Digital Imaging (3-0). Introduction to the digital imaging process in photography using the industry standard software. Course topics will include image capture, file formats, image correction, and manipulation, storage and output for a variety of visual and photographic media. (Credit may not be earned for this course and Communication 3325.)

3335 Public Relations Principles (3-0). Fundamentals of public relations including the history, terminology and various components of the profession. Some time will be spent preparing news releases and a public relations campaign. (Credit may not be earned for this course and Communication 3335.)

3342 Advertising Principles (3-0). A study of the principles and practices of advertising, with an emphasis on the strategic process and preparation of advertising for the mass media. (Credit may not be earned for this course and Communication 3342.)

3361 Electronic Media Programming (3-0). Theories and strategies of program selection, scheduling and evaluation for electronic media. Theory and practice of producing and scheduling prime time television programs. (Credit may not be earned for this course and Communication 3361.)

3363 Electronic News Gathering and Production (2-2). Theory and practice of producing video newscasts on location and in a station environment. Focus on shooting and editing. Extensive hands-on experience equipment. Production of multiple packages and news pieces. (Credit may not be earned for this course and Communication 3363.)

4301 Senior Seminar (3-0). Capstone course for all areas of mass media, emphasizing portfolio development and other preparation for entry into the mass media profession. Course topics also include: professional communication excellence, job interviewing, team communication, cultural sensitivity, and work-life balance. (Credit may not be earned for this course and Communication 4301 or Theatre 4301.)

4314 Magazine Development and Design (3-0). The publishing, production, and management of magazines. Focus on creation, development, budgeting, content, layout, sales, and technical procedures. Students will participate in a project developing and producing a magazine.
Prerequisite: Mass Media 2345.

4321 Digital Photography (3-0). Application of traditional photographic principles using a digital SLR. Emphasis on the use of color, light, and composition in photography. Topics will include working with RAW formats and printing digital images.
Prerequisites: Mass Media 2321 and Mass Media 3325, or permission of the instructor.

4335 Advertising/Public Relations Campaigns and Cases (3-0). Case-method and campaign planning as they pertain to advertising and public relations administration. Emphasis on development of creative strategy and media selection. (Credit may not be earned for this course and Communication 4335.)
Prerequisite: Mass Media 3335 or 3342.

4355 Mass Media Effects and Ethics (3-0). A study of social science research methodology as applied to mass media research. The course will examine current theories of the effects of mass media on audiences. The study of reasoning and ethical decision making as they relate to the mass media. (Credit may not be earned for this course and Communication 4355.)

4364 Media Management (3-0). Management functions, advertising, sales, and internal organizational structure of media. (Credit may not be earned for this course and Communication 4364.)
Prerequisite: Advanced standing.
4365 Advanced Video Production (2-2). Theories and techniques for producing, directing, and editing single and multiple-camera productions; to include script writing, shooting, and post production for video field and studio work. (Credit may not be earned for this course and Communication 4365.)
Prerequisite: Communication 2362 or Mass Media 2362.

4379 Mass Media Internship. Students gain on-the-job experience by working in the industry. Limited to students majoring in Mass Media. Upper-level students are selected on the basis of a written application submitted to the department chair one semester in advance. (May be repeated once for credit for a maximum of 6 semester hours credit.)
Prerequisite: Department permission required.

4381 Special Topics (3-0). Selected topics in mass media and mass communication. (May be repeated once for credit when topic varies.)
Prerequisites: Senior standing and department chair approval.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in mass media.
Prerequisites: Senior standing and department chair approval.
**College of Arts and Sciences:**

**Department of Mathematics**

**Department Chair:** Karl J. Havlak

**Faculty:** D. Bailey, Barnard, Barrientos, Bishop, Campbell, Fuchs, Havlak, Hoover, Huckaby, Johnson, Kloboucnik, Koca, Montemayor, Moreland, Sieker, E. Smith, T. Smith, Wolfe.

**Distinguished Professor Emeritus:** J. Bailey.
**Coordinator of Developmental Mathematics:** Kloboucnik.

## Developmental Program in Mathematics

### Texas Success Initiative (TSI) Requirements.
A student who fails to meet the minimum passing test must enroll in an appropriate developmental option determined by the Department of Mathematics. The student must be continuously enrolled in the developmental mathematics program until TSI requirements are satisfied. A student may not enroll in a designated college-level course for mathematics while participating in a developmental program required for TSI purposes. TSI requirements may be satisfied by one of the options specified under Developmental Education page 287.

### Non-course-based Option.
Certain students as determined by the Department of Mathematics may be eligible to participate in non-course-based activities to complete TSI requirements. Contact the department for information about this option.

### Course-based Option.
A grade of “C” or better is required for successful completion of Mathematics 130C.

A student enrolled in Mathematics 130C is subject to the special provisions regarding class attendance and withdrawal for developmental courses page 296.

State regulations prohibit the use of credit in Mathematics 130C to fulfill degree requirements; however, grades earned in this course is included in the computation of a student’s grade point average.

### 130C Developmental Mathematics (3-0).
An introductory course designed to remediate identified deficiencies and provide a review of fundamental operations in mathematics based on the student’s mastery of the College and Career Readiness Standards. Topics may include elementary algebra and functions; intermediate algebra and functions; geometry and measurement; and data analysis, statistics, and probability. Software will be used to customize the course to fit individual students’ needs.

## Course Descriptions

### Mathematics (MATH)

## Undergraduate Courses

1302/MATH 1314 College Algebra (3-0).
Exponents and radicals, logarithms, factoring, algebraic quotients, systems of equations, inequalities, absolute value, complex numbers, quadratic equations, binomial theorem, progressions, theory of equations, and determinants.

Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.
### B.S. Mathematics (121 hours)

### 1303 Trigonometry with Analytic Geometry (3-0)

Trigonometric functions, rectangular coordinates and graphs, polar and spherical functions, solving right triangles, circular functions, trigonometric identities, the laws of sines and cosines, conic sections.

**Prerequisite:** Completion of Mathematics Texas Success Initiative (TSI) requirements.

### 1324/MATH 1324 Finite Mathematics I (3-0)

Topics include basic algebra, linear equations, quadratic equations, functions and graphs, inequalities, logarithms and exponential functions, mathematics of finance, linear programming, matrices, systems of linear equations, and applications to management, economics, and business.

**Prerequisite:** Completion of Mathematics Texas Success Initiative (TSI) requirements.

### 1325/MATH 1325 Business Calculus and Finite Mathematics II (3-0)

Topics include set operations, counting techniques and probability, random variables and distribution functions, limits and continuity, derivatives, graphing and optimization, exponential and logarithmic functions, antiderivatives, integration, and applications to management, economics, and business.

**Prerequisite:** Mathematics 1324 or an acceptable score on the departmental placement examination.

### 1332/MATH 1332 Introduction to Contemporary Mathematics (3-0)

A course designed for liberal arts and other non-mathematics and non-science majors who wish to satisfy the three-hour core curriculum mathematics requirement. Topics include graphs and networks, theory of elections and apportionment, statistics, mathematical models.

**Prerequisite:** Completion of Mathematics Texas Success Initiative (TSI) requirements.

### 1333/MATH 1342 Elementary Statistics (3-0)

A survey of basic statistical methods from an elementary standpoint. Topics include distributions, central tendency, variability, inferential procedures for one population; brief introduction to sampling techniques and nonparametric methods.

**Prerequisite:** Completion of Mathematics Texas Success Initiative (TSI) requirements.

### 1341/MATH 1350 Mathematics for Elementary/Middle School Teachers I (2-2)

Sets and relations, the system of whole numbers, numeral systems, the system of integers, elementary number theory, fractions and rational numbers, decimals and real numbers. Lab activities will include making and using math manipulatives, comparing different problem solving techniques, making interdisciplinary connections, and experiencing math concepts through auditory, visual, and kinesthetic approaches to inquiry-based activities.

**Prerequisite:** Mathematics 1302 or 1333, or equivalent.
Mathematics

1342/MATH 1351 Mathematics for Elementary/Middle School Teachers II (2-2). Decimals and real numbers, nonmetric geometry, metric geometry, measurement, graphs, probability and statistics. Lab activities will include making and using math manipulatives, comparing different problem solving techniques, making interdisciplinary connections, and experiencing math concepts through auditory, visual, and kinesthetic approaches to inquiry-based activities.

Prerequisite: Mathematics 1341.

1351 Mathematical Technology (3-0). Mathematical software applications, including both computer algebra systems and mathematical typesetting software. (Credit may not be earned for both this course and Computational and Applied Mathematics 1351.)

Prerequisite: Mathematics 1302 or 1324, or a score of 26 or higher on the mathematics section of the ACT, or a score of 580 or higher on the mathematics section of the SAT.

1561 Precalculus (5-0). An intensive overview of topics from algebra, trigonometry, and analytic geometry that are needed for calculus, including equations and inequalities, functions and inverse functions, sequences and series, trigonometric functions and equations, powers and roots of complex numbers, conic sections, parametric equations, polar coordinates, and applications.

Prerequisite: Mathematics 1302 with a grade of “C” or better, or a score of 26 or higher on the mathematics section of the ACT, or a score of 580 or higher on the mathematics section of SAT, or a satisfactory score on departmental placement exam.

2305 Discrete Mathematics I (3-0). An introduction to discrete mathematics including counting principles, combinatorics, discrete probability, sequences, series, and binomial theorem. (Credit may not be earned for both this course and Computational and Applied Mathematics 2305.)

Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.

2331/MATH 2313 Calculus I (3-0). Differential calculus for functions of one variable including a study of limits, continuity, derivatives of different classes of functions, maxima and minima, concavity, related rates, and optimization problems.

Prerequisite: Mathematics 1561, or equivalent.

2332/MATH 2314 Calculus II (3-0). Introduction to the (Riemann) integral and the relationship between the derivative and integral; techniques for evaluating integrals using the fundamental theorem of calculus; applications of the integral to physical and geometrical problems.

Prerequisite: Mathematics 2331.

2513 Calculus I (5-0). Differential calculus for functions of one variable including a study of limits, continuity, derivatives of different classes of functions, maxima and minima, concavity, related rates, and optimization problems. Introduction to the integral and the relationship between the derivative and integral, the Fundamental Theorem of Calculus, and integration techniques.

Prerequisite: Honors 1363 or Mathematics 1561.

3300 Introduction to Abstract Mathematics (3-0). Logic, set operations, equivalence relations, properties of the real number system, cardinality of sets, and related topics, with an emphasis throughout on developing the necessary skills to read and construct formal mathematical arguments.

Prerequisite: Mathematics 2513.

3301 Linear Algebra (3-0). The algebra and geometry of finite dimensional vector spaces; determinants; linear transformations and matrices; characteristic values and vectors of linear transformations. (Credit may not be earned for both this course and Computational and Applied Mathematics 3301.)

Prerequisite: Mathematics 2513.

3305 Discrete Mathematics II (3-0). Graphs, matrices, computational methods, and other discrete structures. (Credit may not be earned for both this course and Computational and Applied Mathematics 3305.)

Prerequisite: Mathematics 2305 or Computational and Applied Mathematics 2305.

3307 Probability and Statistics (3-0). Mathematical models of random processes; probability spaces; random variables; dependence and independence; mean values and moments of random variables; density and distribution functions; laws of large numbers. (Credit may not be earned for both this course and Computational and Applied Mathematics 3307.)

Prerequisites: Mathematics 2305 or Computational and Applied Mathematics 2305; and Mathematics 3514.

3310 Introduction to Problem Solving (3-0). Designed to help the student develop analytical skills through exposure to a variety of problem solving techniques utilizing algebra, geometry, trigonometry, and other areas of precalculus mathematics. Includes graphing calculator and instructional software applications. For students pursuing secondary or middle school teacher certification in mathematics. (To ensure timely progress toward the degree, this course should be taken as soon as the prerequisites have been completed.)

Prerequisites: Mathematics 1302 and 1303; or Honors 1363; or Mathematics 1561.

3311 Elementary Number Theory (3-0). Tests for divisibility, unique factorization, integer representations, greatest common divisors, least common multiples, congruences, and the distribution of primes.

Prerequisites: Mathematics 1302, 1341, and 1342.

3313 The Evolution of Mathematics (3-0). Historical development of selected mathematical concepts, terminology and algorithms; impact of mathematics on the development of our culture.

Prerequisites: Mathematics 1302, 1341, and 1342.

3315 Vector Calculus (3-0). Calculus of vector-valued functions including differentiation, integration; line, surface, and volume integrals; gradient, divergence, and curl; integral theorems; applications. (Credit may not be earned for both this course and Computational and Applied Mathematics 3315.)

Prerequisite: Mathematics 3514.

3321 Statistics (3-0). A survey of statistical methods, including distributions, central tendency, variability, inferential procedures for two or more populations; one-way ANOVA, inferential methods for regression and correlation. (Credit may not be earned for both this course and Computational and Applied Mathematics 3321.)

Prerequisite: Mathematics 1302, 1324, 1333, or 1561.

3335 Differential Equations (3-0). Solution of differential equations, with geometric and physical applications. (Credit may not be earned for both this course and Computational and Applied Mathematics 3335.)

Prerequisite: Mathematics 3514.
Mathematics

3514 Calculus II (5-0). Integration of functions of one variable and applications of the integral to physical and geometrical problems. Differentiation and integration of polar curves and parametric equations. Differentiation and integration of functions of several variables. Infinite series and approximation techniques.
Prerequisite: Mathematics 2513.

4171, 4271, 4371 Internship. Supervised internship with an approved cooperating business or government agency encompassing duties directly related to the mathematical sciences. Grading will be either pass or fail. (May be repeated for credit.)

4181 Seminar in Mathematics (1-0). Presentations and discussions on selected topics to encourage an exchange among mathematics majors and faculty members. (May be taken at most twice for credit.)
Prerequisite: Departmental approval.

4301 Abstract Algebra (3-0). Elementary number theory including integer congruences and modular arithmetic, equivalence relations, basic topics in ring and group theory including the fundamental homomorphism theorems, structure and basic properties of fields.
Prerequisites: Mathematics 3300 or 3310; Mathematics 2513.

4311 Numerical Analysis (3-0). Number representations, error analysis; roots of equations; numerical integration, approximation, and differentiation; systems of equations; approximation by spline functions; ordinary differential equations; Monte Carlo methods and simulation. (Credit may not be earned for both this course and Computational and Applied Mathematics 4311.)
Prerequisites: Mathematics 3514; Computer Science 1361 or Computational and Applied Mathematics 1361, or equivalent.

4321 College Geometry (3-0). A study of Euclidean, non-Euclidean, and transformational geometry. For students seeking middle school or secondary school teacher certification in mathematics.
Prerequisites: Mathematics 1302 and 1303; or Honors 1363; or Mathematics 1561.

4322 A Survey of Mathematics with Applications (3-0). Logic and set theory, algebraic and transcendental functions, inverse functions, limits, the derivative and integral, sequences and series, linear systems, vectors, geometry, probability and statistics. Emphasis on applications utilizing the graphics calculator.
Prerequisites: Honors 1363 or Mathematics 1561; Mathematics 2305, 2513, 3301, 3307, 3310, 3514, 4321; Mathematics 4301, 4331, or 4551; 2.50 GPA, with no grade lower than "C" in all required mathematics courses attempted, cumulative and in residence; admission to the Educator Preparation Program.

4331 Analysis (3-0). The real number system, functions, limits, continuity, differentiation, Riemann integration, sequences.
Prerequisites: Mathematics 3300 or 3310; Mathematics 2513.

4335 Partial Differential Equations (3-0). A survey of partial differential equations, including classification, qualitative features, methods of solution, and applications. (Credit may not be earned for both this course and Computational and Applied Mathematics 4335.)
Prerequisites: Mathematics 3514, Mathematics 3335 or Computational and Applied Mathematics 3335.

4345 Topics in Applied Mathematics (3-0). Selected topics in applied mathematics. May be repeated for credit when the topic varies. (Credit may not be earned for both this course and Computational and Applied Mathematics 4345.)
Prerequisite: Consent of the instructor.

4351 Topology (3-0). Sets and functions, metric spaces, topological spaces, compactness, separation, connectedness, approximation.
Prerequisites: Mathematics 3300 or 3310; Mathematics 2513.

4355 Topics in Abstract Mathematics (3-0). Selected topics from number theory, field theory, or other areas of higher mathematics, with an emphasis on understanding and constructing proofs of theorems. (May be repeated for credit when the topic varies.)
Prerequisite: Consent of the instructor.

4361 Complex Variables (3-0). Complex numbers, analytic functions, complex integration, power series, residues, conformal mapping, and applications. (Credit may not be earned for both this course and Computational and Applied Mathematics 4361.)
Prerequisite: Mathematics 3514.

4391 Research. Individual research problems. (May be repeated to a total of six semester hours credit.)
Prerequisite: Junior standing.

Computational and Applied Mathematics (CAM)

Undergraduate Courses

1351 Mathematical Technology (3-0). Mathematical software applications, including both computer algebra systems and mathematical typesetting software. (Credit may not be earned for both this course and Mathematics 1302.)
Prerequisite: Mathematics 1302 or 1324, or a score of 26 or higher on the mathematics section of the ACT, or a score of 580 or higher on the mathematics section of the SAT.

1361 Computer Science I (3-0). The concepts and properties of algorithms for solving numerical and non-numerical problems. Introduction to computer and programming systems, including the development, debugging, and verification of programs, representation of data, computer characteristics and organization. (Credit may not be earned for both this course and Computer Science 1361.)
Prerequisite: Computer Science 1361 or Computational and Applied Mathematics 1361.

1362 Computer Science II (3-0). Continuation of Computer Science 1361/Computational and Applied Mathematics 1361. Problem solving and program development techniques emphasizing modular design. Includes advanced programming topics such as class design, records, strings, pointers, and bit manipulation. (Credit may not be earned for both this course and Computer Science 1362.)
Prerequisite: Computer Science 1361 or Computational and Applied Mathematics 1361.

2305 Discrete Mathematics I (3-0). An introduction to discrete mathematics including counting principles, combinatorics, discrete probability, sequences, series, and binomial theorem. (Credit may not be earned for both this course and Mathematics 2305.)
Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.
3301 Linear Algebra (3-0). The algebra and geometry of finite dimensional vector spaces; determinants; linear transformations and matrices; characteristic values and vectors of linear transformations; applications. (Credit may not be earned for both this course and Mathematics 3301.)
   Prerequisite: Mathematics 2513.

3305 Discrete Mathematics II (3-0). Graphs, matrices, computational methods, and other discrete structures. (Credit may not be earned for both this course and Mathematics 3305.)
   Prerequisite: Mathematics 2305 or Computational and Applied Mathematics 2305.

3307 Probability and Statistics (3-0). Mathematical models of random processes; probability spaces; random variables; dependence and independence; mean values and moments of random variables; density and distribution functions; laws of large numbers. (Credit may not be earned for both this course and Mathematics 3307.)
   Prerequisites: Mathematics 2305 or Computational and Applied Mathematics 2305; Mathematics 3514.

3315 Vector Calculus (3-0). Calculus of vector-valued functions including differentiation, integration; line, surface, and volume integrals; gradient, divergence, and curl; integral theorems; applications. (Credit may not be earned for both this course and Mathematics 3315.)
   Prerequisite: Mathematics 3514.

3321 Statistics (3-0). A survey of statistical methods including distribution, central tendency, variability, inferential procedures for two or more populations; one-way ANOVA, inferential methods for regression and correlation. (Credit may not be earned for both this course and Mathematics 3321.)
   Prerequisites: Mathematics 1302, 1324, 1333, or 1561.

3335 Differential Equations (3-0). Solution of differential equations, with geometric and physical applications. (Credit may not be earned for both this course and Mathematics 3335.)
   Prerequisite: Mathematics 3514.

4311 Numerical Analysis (3-0). Number representations, error analysis; roots of equations; numerical integration, approximation, and differentiation; systems of equations; approximating by spline functions; ordinary differential equations; Monte Carlo methods and simulation. (Credit may not be earned for both this course and Mathematics 4311.)
   Prerequisites: Mathematics 3514, Computer Science 1361 or Computational and Applied Mathematics 1361.

4335 Partial Differential Equations (3-0). A survey of partial differential equations, including classification, qualitative features, methods of solution, and applications. (Credit may not be earned for both this course and Mathematics 4335.)
   Prerequisites: Mathematics 3514, Mathematics 3335 or Computational and Applied Mathematics 3335.

4345 Topics in Applied Mathematics (3-0). Selected topics in applied mathematics. May be repeated for credit when the topic varies. (Credit may not be earned for both this course and Mathematics 4345.)
   Prerequisites: Consent of the instructor.

4361 Complex Variables (3-0). Complex numbers, analytic functions, complex integration, power series, residues, conformal mapping and applications. (Credit may not be earned for both this course and Mathematics 4361.)
   Prerequisite: Mathematics 3514.
Modern Languages

College of Arts and Sciences:
Department of English and Modern Languages

Department Chair: Laurence E. Musgrove
Faculty: Cody, Davis, Faught, Muelsch, O’Dell, Onofre-Madrid, Peters, Schmidt.
Distinguished Professor Emeritus: Tetzlaff.
Contact Information: Academic Building, Room 010
Telephone: 325-942-2245, Fax: 325-942-2251
http://www.angelo.edu/dept/english_modern_languages/

Undergraduate Programs

Modern Languages
French, German, Linguistics, Russian and Spanish
A student who is initiating the study of a modern language at the University will normally begin with French, German, Russian, or Spanish 1301. Students with previous language experience in any of these languages may wish to attempt to earn credit by examination by taking a national test such as the CLEP.

Credit for French, German, Russian, or Spanish will be allowed if the student has not previously earned semester credit hours for any course in the same language. Should credit by examination be awarded for any one of these courses, the student would then want to continue study in the next appropriate course. Only the first four courses are offered in the Russian language, and no advanced level courses in Russian are offered.

Completion of 1301, 1302, 2311, and 2312 is required, unless proficiency is demonstrated by examination or otherwise, before registering for advanced level courses in any of the foreign languages.

Graduation Requirement for Spanish Majors
(With or Without Teacher Certification)
Candidates for the Bachelor of Arts in Spanish (with or without teacher certification) are required to complete and successfully pass all sections of the departmental EXIT EXAM, written and oral, in order to be eligible for graduation. Students may take this examination during the semester immediately prior to graduation, or after having completed all foreign language requirements for a major.

The oral exam will be a proficiency exam that does not test knowledge of facts, but rather the ability to communicate in the target language. The written examination will consist of a multiple choice test on language, literature and culture, and a composition in the target language.

Students interested in studying English as a Second Language (ESL) should consult with the Chair of the Department of English and Modern Languages.

Students seeking teacher certification will work closely with faculty in their preparation for the LOTE (Languages other than English) exam in Spanish.

Bilingual Supplemental
Early Childhood to Grade 4 and Grades 4 to 8
To qualify for Bilingual Supplemental endorsement, the individual may add to a teaching certificate the Bilingual Supplemental requirements.

<table>

* Department approval required to take SPAN 1301/1302 and 2311/2312.
** A minor in either Linguistics or Education is recommended.
***Literature and Civilization courses may not be in the same area (Spanish Literature and Spanish American Civilization or Spanish American Literature and Spanish Civilization).

Course Descriptions

Spanish (SPAN)

Undergraduate Courses

1301/SPAN 1311 Spanish I (3-O). Introduction to basic structures and usage of modern Spanish. The emphasis is on development of basic Spanish vocabulary and grammar, accuracy of pronunciation, the acquisition of listening, speaking, reading and writing skills, and the introduction of cultural elements.

1302/SPAN 1312 Spanish II (3-O). A sequel to Spanish 1301.
Prerequisite: Spanish 1301 or equivalent.

2311/SPAN 2311 Spanish III (3-O). An expansion of the language skills acquired in Spanish 1301 and 1302. Strengthening of basic structures and introduction of more complex structures. The course will increase accuracy in listening, speaking, reading and writing Spanish, and promote knowledge of cultural background.
Prerequisite: Spanish 1302 or equivalent.

2312/SPAN 2312 Spanish IV (3-O). Fourth-semester capstone course organized around grammatical topics and cultural issues. Review and expansion of structural aspects, reading and discussion of selected Spanish texts, and continued practice in composition and conversation.
Prerequisite: Spanish 2311 or equivalent.

3301 Advanced Spanish Grammar for Conversation (3-O). Spanish grammar as related to conversation.
Prerequisite: Spanish 2312 or consent of department chair. (Spanish 2312 has prerequisites of 1301, 1302, and 2311.)

3302 Advanced Spanish Grammar for Composition (3-O). Spanish grammar as related to composition.
Prerequisite: Spanish 2312 or consent of department chair.

3310 Advanced Spanish Composition (3-O). An intensive course designed to develop an appreciation of style in written Spanish. Students should gain an awareness of the difference between oral and written Spanish. Students will review key areas of grammar, expand their vocabulary, and examine their writing, practicing both formal and informal expression.
Prerequisite: Spanish 2312 or consent of department chair.

3314 Advanced Spanish Conversation (3-O). A course designed to improve the student’s conversation skills and fluency. This course is primarily directed toward meeting the needs of future language teachers.
Prerequisite: Spanish 2312 or consent of department chair.

Prerequisite: Spanish 2312 or equivalent, or consent of department chair.

3334 Film and Culture of the Spanish-Speaking World (3-O). An analysis of Spanish and Latin American culture through film. Students will explore Spanish and Latin American representations of nationality, ethnicity, politics, and gender. This course will be taught in English. Knowledge of Spanish is desirable but not required. Lectures and class discussions will be in English. Spanish majors and minors are required to complete all written assignments in Spanish.

3342 Spanish Civilization (3-O). A survey of the history and culture of Spain from prehistoric times to the present.
Prerequisite: Spanish 2312 or department consent.

3343 Spanish-American Civilization (3-O). A survey of the history and culture of Spanish America from pre-Columbian times to the present.
Prerequisite: Spanish 2312 or department consent.

4320 Survey of Spanish Literature (3-O). A survey of Spanish literature from the Middle Ages to the present. Students assumed to have completed Spanish 3301 and 3302.

4324 Survey of Spanish-American Literature (3-O). A survey of Spanish-American literature from pre-colonial to the present. Students assumed to have completed Spanish 3301 and 3302.

4381 Special Topics (3-O). Selected topics in Spanish. May be repeated once for credit when topic varies.
Prerequisite: Spanish 2312 or equivalent, or consent of department chair.
Modern Languages

4391 Research. A specialized course which may be directed reading or research for superior students majoring in Spanish.

French (FREN)

Undergraduate Courses

1301/FREN 1311 French I (3-0). Introduction to basic structures and usage of modern French. The emphasis is on development of basic French vocabulary and grammar, accuracy of pronunciation, the acquisition of listening, speaking, reading and writing skills, and the introduction of cultural elements.

1302/FREN 1312 French II (3-0). A sequel to French 1301. Prerequisite: French 1301 or equivalent.

2311/FREN 2311 French III (3-0). An expansion of the language skills acquired in French 1301 and 1302. Strengthening of basic structures and introduction of more complex structures. The course will increase accuracy in listening, speaking, reading and writing French, and promote knowledge of cultural background. Prerequisite: French 1302 or equivalent.

2312/FREN 2312 French IV (3-0). Fourth-semester capstone course organized around grammatical topics and cultural issues. Review and expansion of structural aspects, reading and discussion of selected French texts, and continued practice in composition and conversation. Prerequisite: French 2311 or equivalent.

2372 French and Francophone Literature in Translation (3-0). Survey of major trends in French and Francophone literature since 1600. Emphasis on comprehension and appreciation of important intellectual achievements. Readings and discussions in English. Course can be used to fulfill the Humanities requirement. Course does not fulfill the sophomore literature requirement of the core curriculum. Course does not fulfill the sophomore language requirement in French. Not applicable to the French major.

3311 Advanced French Grammar for Conversation (3-0). Grammar as related to conversation. Prerequisite: French 2312.

3312 Advanced French Grammar for Composition (3-0). Grammar as related to composition. Prerequisite: French 2312.

3328 French Cinema (3-0). Focusing on the history of French cinema, the course begins with films of the first filmmakers, the Lumière brothers, and ends with those of contemporary film directors. Students will be familiarized with film terminology and will learn how to analyze film critically. Students will be able to explore the role French film has played in shaping the discourse on national and cultural identity. Lectures and class discussions will be in English. French majors and minors are required to complete all written assignments in French.

3381 Special Topics (3-0). Selected topics in French. (May be repeated once for credit when topic varies.) Prerequisite: French 2312 or equivalent, or consent of department chair.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in Spanish.
Modern Languages

German (GER)

Undergraduate Courses

1301/GERM 1311 German I (3-0). Introduction to basic structures and usage of modern German. The emphasis is on development of basic German vocabulary and grammar, accuracy of pronunciation, the acquisition of listening, speaking, reading and writing skills, and the introduction of cultural elements.

1302/GERM 1312 German II (3-0). A sequel to German 1301.
Prerequisite: German 1301 or equivalent.

2311/GERM 2311 German III (3-0). An expansion of the language skills acquired in German 1301 and 1302. Strengthening of basic structures and introduction of more complex structures. The course will increase accuracy in listening, speaking, reading and writing German, and promote knowledge of cultural background.
Prerequisite: German 1302 or equivalent.

2312/GERM 2312 German IV (3-0). Fourth semester capstone organized around grammatical topics and cultural issues. Review and expansion of structural aspects, reading and discussion of selected German texts, and continued practice in composition and conversation.
Prerequisite: German 2311 or equivalent.

2372 German Literature in Translation (3-0). Survey of major trends in German literature since 1600. Emphasis on comprehension and appreciation of important intellectual achievements. Readings and discussions in English. Course can be used to fulfill the Humanities requirement. Course does not fulfill the sophomore literature requirement of the core curriculum. Course does not fulfill the sophomore language requirement in German. Not applicable to the German major.

2391 Studies in German (3-0). Individual instruction for the student whose language needs cannot be met in an organized sophomore level (2311/2312) language course. Reading materials and exercises will be selected from areas of the student’s specialization.

3311, 3312 Advanced German Grammar, Conversation and Composition. (3-0). Designed to develop the student’s comprehension of oral and written German. Course includes extensive reading and discussion of German literary and cultural texts.
Prerequisite: German 2312 or equivalent, or consent of department chair.

3331 German Civilization (3-0). A survey of the cultural institutions of Germany designed to provide a background for a better understanding of the German people and their literature.
Prerequisite: German 2312 or equivalent, or consent of department chair.

3342 German Literature from 1750 to the Present (3-0). A survey of literary tradition, authors, and major literary works.
Prerequisite: German 2312 or equivalent, or consent of department chair.

4341 Modern German Novel and Short Story (3-0). Intensive study of the novel and the short story: works of fiction that serve as exponents of new literary developments and are representative of life and thought in the German speaking countries.
Prerequisite: German 2312 or equivalent, or consent of department chair.

4381 Special Topics (3-0). Selected topics in German. May be repeated once for credit when topic varies.
Prerequisite: German 2312 or equivalent, or consent of department chair.

4391 Research. A specialized course which may be directed reading or research for superior students in German.

Linguistics (LING)

Undergraduate Courses

2340 Introduction to the Study of Language (3-0). An introduction to linguistics, the scientific study of language: the nature of human language; language and the brain; language and society; formal linguistics includes phonetics (the properties of speech sounds), phonology (the systematic sound patterns of language), morphology (the grammatical structure of words), syntax (the structure of sentences), and semantics/pragmatics (the meaning and use of words and sentences). Credit may not be earned for this course and English 2340.
Prerequisite: English 1302.

3320 Descriptive Linguistics (3-0). An examination of the science of language: concentration on formal linguistics (phonetics, phonology, morphology, syntax, semantics/pragmatics) and survey of psycholinguistics, sociolinguistics, historical linguistics, applied linguistics. Credit may not be earned for this course and English 3320.
Prerequisite: English 1302.

3323 English Phonology and Morphology (3-0). Study of the speech sound system and the study of the structure of words. Credit may not be earned for this course and English 3323.
Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

3326 English Syntax and Semantics (3-0). Study of the rules of phrase and sentence formation and the study of linguistic meaning of morphemes, words, phrases, and sentences. Credit may not be earned for this course and English 3326.
Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

3328 Psycholinguistics (3-0). Study of language and the brain, particularly child language acquisition and adult language learning, but also linguistic performance and speech comprehension and production. Credit may not be earned for this course and English 3328.
Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.
4323  **Methods of Teaching Foreign/Second Language (3-0).** Study and application of perspectives, theories, pedagogies, and methods of language teaching and learning. Credit may not be earned for this course and English 4323.
Prerequisites: English/Linguistics 2340 or English/Linguistics 3320 and English/Linguistics 3328.

4381  **Special Topics (3-0).** Selected topics in Linguistics. May be repeated once for credit when topic varies.
Prerequisite: Linguistics 3320 or 4310 or consent of department chair.

4391  **Research.** A specialized course which may be directed reading or research for advanced students or those seeking professional certification.

**Graduate Course**

LING 6301  **Linguistics for Public School Teachers (3-0).** A survey of the phonological, morphological, syntactic, and semantic components of the English language. Linguistic principles and techniques as applied to the teaching of reading and language arts and a contrastive study of grammatical structures.

**Russian (RUSS)**

**Undergraduate Courses**

1301  **Russian I (3-0).** Introduction to basic structures and usage of modern Russian. The emphasis is on development of basic Russian vocabulary and grammar, accuracy of pronunciation, the acquisition of listening, speaking, reading and writing skills, and the introduction of cultural elements.
Prerequisite: Russian 1301 or equivalent.

1302  **Russian II (3-0).** A sequel to Russian 1301.
Prerequisite: Russian 1301 or equivalent.

2311  **Russian III (3-0).** An expansion of the language skills acquired in Russian 1301 and 1302. Strengthening of basic structures and introduction of more complex structures. The course will increase accuracy in listening, speaking, reading and writing Russian, and promote knowledge of cultural background.
Prerequisite: Russian 1302 or equivalent.

2312  **Russian IV (3-0).** Fourth-semester capstone course organized around grammatical topics and cultural issues. Review and expansion of structural aspects, reading and discussion of selected Russian texts, and continued practice in composition and conversation.
Prerequisite: Russian 2311 or equivalent.
Music

College of Arts and Sciences:  
Department of  
Visual and Performing Arts

Interim Department Chair:  Edward C. Surface

Faculty:  Bonenfant, Emmons, Irish, Kelley, Lambert, Lee, Raines, Surface, Womack.

Director of Bands Emeritus:  Brinson.

* Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 262 or visit: http://www.angelo.edu/dept/education.
B.A. Music (120 hours)
Sample Four-Year Curriculum

Departmental Requirements: Piano proficiency certification, successful completion of sophomore upper-level exam and senior-level recital in the major instrument, concert/recital attendance, participation in a large ensemble during all semesters enrolled (except student teaching), and participation in a small ensemble for two semesters, are required by the Department of Visual and Performing Arts.

The student must pass a piano proficiency examination prior to admittance to the Teacher Education Program and perform a senior-level recital in the major instrument prior to student teaching. In addition, the student must meet the department concert/recital attendance requirement (see music student handbook) in order to graduate with a music degree.

Music (MUS) (Ensemble)

Undergraduate Courses

For the baccalaureate degree the student may present no more than 12 semester credit hours in ensemble and no more than eight semester credit hours in any one course. The student must utilize the first 12 semester credit hours earned in ensemble toward the baccalaureate degree.

B.M. Music, All-level Teacher Certification (125 hours)
Sample Four-Year Curriculum

1111 Band (0-5). Performance experience in concert band ensemble; open to all students by audition.

1112 Concert Chorale (0-3). Performance experience in choral ensemble; open to all students. Non-music majors meet three days a week; music majors meet five days a week.

1113 Orchestra (0-3). Performance experience in orchestra ensemble; open to all students.

1114 Small Ensembles (0-2). Performance experience in a small choral or instrumental ensemble. Students selected by audition.

1115 Chamber Choir (0-5). Performance experience in a chamber choral ensemble. Students selected by audition.

Course Descriptions

Departmental Requirements: Piano proficiency certification, successful completion of sophomore upper-level exam and senior-level recital in the major instrument, concert/recital attendance, participation in a large ensemble during all semesters enrolled except student teaching, and participation in a small ensemble for two semesters, are required by the Department of Visual and Performing Arts.

The student must pass a piano proficiency examination prior to admittance to the Teacher Education Program and perform a senior-level recital in the major instrument prior to student teaching. In addition, the student must meet the department concert/recital attendance requirement (see music student handbook) in order to graduate with a music degree.

Music (MUS) (Ensemble)

Undergraduate Courses

For the baccalaureate degree the student may present no more than 12 semester credit hours in ensemble and no more than eight semester credit hours in any one course. The student must utilize the first 12 semester credit hours earned in ensemble toward the baccalaureate degree.
Music

1116 Jazz Ensemble (0-3). Performance experience in a jazz band ensemble. Students selected by audition.

1117 Opera/Music Theatre Workshop (0-3). A study of singing-acting techniques with experimental learning through the use of scene work taken from opera and music theatre literature. This group will work on ensembles, quartets, trios, and duets as well as solo material. Students are selected by audition.

1118 Athletic Band (0-3/5). Performance experience in Athletic Band including Marching Band; open to all students by audition.

1139 Marching Percussion (0-2). Performance and pedagogical techniques of Marching Percussion ensembles. (Must be taken concurrently with Music 1111 Ram Band).

Music (MUS) (Applied)

Undergraduate Courses

For the baccalaureate degree the student may present no more than 14 semester credit hours in applied music, and no more than 12 of these semester credit hours may be lower division, with one (B.A.) to two (B.M.) semester credit hours of upper division credit in the major instrument.

Non-music majors: A limited number of non-music majors will be accommodated each semester, and enrollment is not guaranteed.

The numbers in parentheses following applied music course titles indicate actual clock hours of instruction and practice (or rehearsal) required for course credit. (1/2-6) indicates one-half hour of private instruction and six hours of practice for one semester credit hour. (1-9) indicates two one-half hours of private instruction and nine hours of practice for two semester credit hours. Music Majors: 1200 level; non-music majors: 1100 level. Class piano meetings are scheduled three hours each week for one semester credit hour, and scheduled practice assignments are variable in accordance with student needs.

1121, 1221 Brass (1/2-6 or 1-9). Private study of principles and techniques of instrumental performance, open to all students. (May be repeated for credit.)

1122 Piano (1/2-6). Private study of principles and techniques of piano performance. For non-music majors or non-piano majors who successfully complete Music 1134 or piano majors in the B.A. in music degree program. Piano faculty approval required. (May be repeated for credit.)

1124, 1224 Voice (1/2-6 or 1-9). Private study of principles and techniques of voice performance, open to all students. (May be repeated for credit.)

1125, 1225 Woodwinds (1/2-6 or 1-9). Private study of principles and techniques of instrumental performance, open to all students. (May be repeated for credit.)

1126, 1226 Percussion (1/2-6 or 1-9). Private study of principles and techniques of percussion performance, open to all students. (May be repeated for credit.)

1127, 1227 Organ (1/2-6 or 1-9). Private study of principles and techniques of instrumental performance, open to all students. (May be repeated for credit.)

1128, 1228 Strings (1/2-6 or 1-9). Private study of principles and techniques of instrumental performance, open to all students. (May be repeated for credit.)

1130 Class Piano Level 0 (0-3). Class designed to prepare music majors with no previous piano training for 1131. Does not count toward minor instrument.

1131 Class Piano Level I (0-3). Class designed to prepare music majors to pass the first level piano proficiency examinations. The satisfactory performance of major and minor chords, random chords, and America fulfill the requirements of this course.

Prerequisite: Satisfactory completion of piano entry-level examination.

1132 Class Piano Level 2 (0-3). Class designed to prepare music majors to pass the second level of piano proficiency examinations. The satisfactory performance of two free choice pieces (instrumentalists only), one accompaniment (vocal majors only), harmonization/transposition, and sight-reading fulfills the requirements of this course.

1134 Class Piano Level 3 (0-3). Class designed to prepare music majors to pass the third level of piano proficiency examinations. The satisfactory performance of two free choice pieces (instrumentalists only), one accompaniment (vocal majors only), harmonization/transposition, and sight-reading fulfills the requirements of this course.

1135, 1136 Class Voice for Non-Music Majors (0-2). The class study of proper vocal techniques and repertoire in the development of the singing voice. (May be repeated once for credit.)

1137, 1138 Non-Music Major Class Piano (0-2). Class piano for non-music majors who have little or no background in music. Students should develop basic keyboard skills to enable them to play piano for self enjoyment.

1222 Piano (1-9). Private study of principles and techniques of piano performance. For piano majors in B.M. degree program only. (May be repeated for credit.) Piano faculty approval required.

2221 Brass (1-9). Continuing study of principles and techniques of instrumental performance. Open to music majors only. (May be repeated for credit.)

Prerequisites: Successful completion of 1221 and proficiency exam.

2222 Piano (1-9). Continuing study of principles and techniques of instrumental performance. Open to music majors only. (May be repeated for credit.)

Prerequisites: Successful completion of 1222 and proficiency exam.

2224 Voice (1-9). Continuing study of principles and techniques of vocal performance. Open to music majors only. (May be repeated for credit.)

Prerequisites: Successful completion of 1224 and proficiency exam.

2225 Woodwinds (1-9). Continuing study of principles and techniques of instrumental performance. Open to music majors only. (May be repeated for credit.)

Prerequisites: Successful completion of 1225 and proficiency exam.

2226 Percussion (1-9). Continuing study of principles and techniques of instrumental performance. Open to music majors only. (May be repeated for credit.)

Prerequisites: Successful completion of 1226 and proficiency exam.
2227 Organ (1-9). Continuing study of principles and techniques of instrumental performance. Open to music majors only. (May be repeated for credit.)
Prerequisites: Successful completion of 1227 and proficiency exam.

2228 Strings (1-9). Continuing study of principles and techniques of instrumental performance. Open to music majors only. (May be repeated for credit.)
Prerequisites: Successful completion of 1228 and proficiency exam.

3121, 3221 Brass (1/2-6 or 1-9). Private study of advanced principles and techniques of brass performance. (May be repeated for credit.)
Prerequisites: Music 1121 or 1221, Junior standing, and upper division approval by faculty committee.

3122, 3222 Piano (1/2-6 or 1-9). Private study of advanced principles and techniques of piano performance. (May be repeated for credit.)
Prerequisites: Music 1122 or 1222, Junior standing, and upper division approval by faculty committee.

3124, 3224 Voice (1/2-6 or 1-9). Private study of advanced principles and techniques of vocal performance. (May be repeated for credit.)
Prerequisites: Music 1124 or 1224, Junior standing, and upper division approval by faculty committee.

3125, 3225 Woodwinds (1/2-6 or 1-9). Private study of advanced principles and techniques of woodwind performance. (May be repeated for credit.)
Prerequisites: Music 1125 or 1225, Junior standing, and upper division approval by faculty committee.

3126, 3226 Percussion (1/2-6 or 1-9). Private study of advanced principles and techniques of percussion performance. (May be repeated for credit.)
Prerequisites: Music 1126 or 1226, Junior standing, and upper division approval by faculty committee.

3127 Organ (1/2-6). Private study of advanced principles and techniques of organ performance. (May be repeated for credit.)
Prerequisites: Music 1127 or 1227, Junior standing, and upper division approval by faculty committee.

3228 Strings (1-9). Private study of advanced principles and techniques of string performance. (May be repeated for credit.)
Prerequisites: Music 1128 or 1228, Junior standing, and upper division approval by faculty committee.

Music (MUS) (Class Instruments and Diction)

Undergraduate Courses

2134/MUSI 1186 Percussion Class (0-2). Nomenclature of percussion instruments and fundamentals of performance. (Credit only)

2133/MUSI 1190 Strings Class (0-2). Nomenclature of string instruments and fundamentals of performance.

2134/MUSI 1166 Woodwinds Class (0-2). Nomenclature of woodwind instruments and fundamentals of performance.

2141 Diction 1 (0-2). A study of English and Italian diction and vocal repertory. Emphasis will be upon vocal techniques rather than knowledge of grammar or vocabulary. Designed primarily for vocal music majors.

2142 Diction 2 (0-2). A study of French and German diction and vocal repertory. Emphasis will be upon vocal techniques rather than knowledge of grammar or vocabulary. Designed primarily for vocal music majors.

Music (MUS) Undergraduate Courses

1151/MUSI 1116 Aural Skills I (0-2). Sight-singing and ear-training of rhythms, intervals, scales, melodies and harmony. To be taken concurrently with Theory of Music.

1152/MUSI 1117 Aural Skills II (0-2). A continuation of Music 1151. To be taken concurrently with Theory of Music.

1310 The History of Jazz (3-0). A survey of the genesis and development of this uniquely American art form encompassing the rich multicultural heritage of the early jazz pioneers to today’s avant-garde. This course is designed for non-music majors.

1341/MUSI 1306 Introduction to Music (3-0). A course designed to lead to a basic understanding and increased enjoyment of music for students not majoring or minoring in music, with emphasis on classical music.

1342 Survey of Rock and Roll (3-0). A study of the beginnings of rock music in the early 50’s and the developments in this style up to the present. The course is designed for non-music majors.

1350/MUSI 1301 Introduction to Music Theory (3-0). Introduction to the elements of Music Theory: scales, intervals, keys, triads, elementary ear training, keyboard harmony, notation, meter, and rhythm. Intended for entry-level music majors needing to develop an understanding of the rudimentary aspects of music.

1351/MUSI 1311 Theory of Music I (3-0). A study of music fundamentals followed by a stylistic approach to the diatonic harmony of the 17th and 18th centuries. The course, designed primarily for music majors and minors, includes partwriting and analysis as well as keyboard harmony.

1352/MUSI 1312 Theory of Music II (3-0). A continuation of Music 1351.
Prerequisite: Successful completion of Music 1351.

1361 Fundamentals of Music (3-0). This course is concerned with elementary musical materials and is designed for non-music majors. However, entry-level music majors may take the course to gain a working knowledge of music fundamentals, but it does not meet requirements for the music major.

1375 American Musical Theatre (3-0). A study of the history and development of the Broadway musical and related art forms. This course is designed for non-music majors.
1376 American Popular Music (3-0). A study of the history and development of popular music in the United States, including jazz, blues, country, and rock and roll. This course is designed for non-music majors.

2151/MUSI 2116 Aural Skills III (0-2). The further development of sight-singing and ear-training associated with sophomore level music theory. To be taken concurrently with Theory of Music.
Prerequisite: Successful completion of Music 1152.

2152/MUSI 2117 Aural Skills IV (0-2). A continuation of Music 2151. To be taken concurrently with Theory of Music.

2243 Music History I (2-0). The history and styling of music from antiquity to 1600.
Prerequisite: Successful completion of Music 1351.

2244 Music History II (2-0). The history and styling of music from 1600 to 1816 (middle Beethoven).
Prerequisite: Successful completion of Music 2351.

2271 Introduction to Music Instruction (2-0). An introduction to the philosophy, practices and procedures related to music instruction. Class field experiences are included.
Prerequisite: Sophomore standing.

2351/MUSI 2311 Theory of Music III (3-0). A study of the harmonic and melodic techniques of the 19th and 20th centuries with an emphasis on the changes in musical style from romanticism to the present time. Stylistic writing and analysis is included as well as keyboard harmony.
Prerequisite: Successful completion of Music 1352.

Prerequisite: Successful completion of Music 2351.

2353 Electronic Music (3-0). The study of computer technology and its applications to music theory, composition, and data management.

3143 World Musics (0-2). A study of music from various world cultures and the impact it has on musical practices in America.
Prerequisite: Junior standing.

3153 Improvisation (0-2). A study of the techniques, practices and styles of improvisation in music through the use of practical experiences.
Prerequisite: Successful completion of Music 2352.

3163 Choral/Instrumental Seminar I (1-0). Choral majors will receive introductory instrumental training, and instrumental majors will receive introductory choral training. Must be taken concurrently with 3263.

3164 Choral/Instrumental Seminar II (1-0). Choral majors will receive introductory instrumental training and instrumental majors will receive introductory choral training as it relates to advanced students. Must be taken concurrently with 3264.

3251 Analytic Techniques (0-3). A study of methods of analysis currently being applied to music of all periods. Students will learn to approach a piece of music with tools for understanding the work as a whole and the relationship of its parts.
Prerequisite: Successful completion of sophomore evaluation.

3263 Survey of Choral and Instrumental Literature I (2-0). A comprehensive survey of choral or instrumental theories, practices, and literature suitable for elementary/middle school ages.
Prerequisite: Satisfactory completion of 2352 or consent of instructor.

3264 Survey of Choral and Instrumental Literature II (2-0). A continuation of 3263 with application to secondary grades.
Prerequisite: Successful completion of 3163 and 3263 or consent of the instructor.

3341 Music History III (3-0). The history and style of music from middle Beethoven through Mahler.
Prerequisite: Successful completion of sophomore evaluation.

3342 Music History IV (3-0). The history and style of music from Debussy to present.
Prerequisite: Successful completion of sophomore evaluation.

3385 The High School Marching Band (3-0). A study of the organization, administration, current practices, and appropriate literature for the high school marching band.

4151 Composition (0-1). Individual instruction in the techniques of composing for both small and large ensembles in various forms. (May be repeated for a maximum of three semester credit hours.)
Prerequisite: Permission of instructor.

4183 Advanced Conducting (1-1). A study of advanced physical, rehearsal and analytical techniques used in the art of conducting.
Prerequisites: Successful completion of Music 4281 and 4282.

4253 Orchestration (0-3). A study of the capabilities of voices and all orchestral and wind ensemble instruments, including arranging and transcribing music for vocal and instrumental ensembles. This course includes a lab portion with hands-on experience.
Prerequisite: Successful completion of sophomore evaluation.

4281 Conducting I (1-2). A study of the basic techniques and fundamentals of conducting and score reading.
Prerequisite: Successful completion of sophomore evaluation.

4282 Conducting II (1-2). A continuation of 4281.
Prerequisite: Successful completion of 4281.

4381 Special Topics (3-0). Selected topics in music. (May be repeated once for credit when topic varies.)
Prerequisite: Junior standing.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in music.
Prerequisite: Junior standing.
College of Health and Human Services:
Department of Nursing and Rehabilitation Sciences

Nursing
Program Director: Wrennah L. Gabbert

Department Chair: Shelly D. Weise

Specialist Graduate Faculty: Braziel, Hester, Ramirez, Rich.

Undergraduate Programs

Angelo State University offers the Bachelor of Science in Nursing (B.S.N.) degree, and the Master of Science in Nursing (M.S.N.) degree.

The Department of Nursing and Rehabilitation Sciences at Angelo State University offers unique career mobility in its programs. A Bachelor of Science in Nursing is awarded upon satisfactorily completion of the generic bachelors program. Graduates of the generic B.S.N. program are eligible to take the National Council Licensure Examination-Registered Nurse (NCLEX-RN) for licensure to practice as a Registered Nurse (RN).

Graduates of an accredited associate program in nursing may be eligible for admission to the Bachelor of Science in Nursing for Registered Nurses program (RN-B.S.N.), refer to page 209 for eligibility requirements. Upon successful completion of the program, the Registered Nurse student receives the Bachelor of Science in Nursing degree. Registered Nurses holding the Bachelor of Science in Nursing degree may be eligible for admission to the Master of Science program, refer to "Master of Science in Nursing (M.S.N.)" on page 211 for eligibility requirements. Upon successful completion of the program, the student is awarded the Master of Science in Nursing degree.

Highly qualified graduates of an accredited associate program in nursing may be eligible for admission to an accelerated graduate study mobility track (RN-M.S.N.), refer to "RN-M.S.N. Track" on page 215. This accelerated track allows students to complete the degree requirements for the Master of Science in Nursing without completing all Bachelor of Science in Nursing degree courses.

Mission

The nursing program supports the overall mission of Angelo State University by offering graduate and undergraduate nursing programs that produce professionals committed to improving the health of individuals, groups, and communities both locally and globally. As practitioners and educators, our graduates effectively lead and advocate for safe, high-quality health care that respects diversity and is responsive to a dynamic and technologically complex society.

Vision

We will be recognized as visionary leaders committed to delivering innovative nursing education that promotes optimal patient outcomes.

Philosophy

We believe nursing is a unique, caring, scientific, and practice discipline built upon a solid foundation of knowledge in the liberal arts and sciences. Each level of nursing education expands upon prior knowledge and competency through the integration of research-based evidence. Our programs produce compassionate and skilled nurses prepared to meet the healthcare needs of a global society.

We believe the nurse delivers person-centered care as a member of the interprofessional team utilizing therapeutic partnerships and patient advocacy that emphasizes health promotion, health restoration, and disease prevention.

We believe in student-centered, adult learning principles and provide a supportive, engaging educational environment facilitating personal and professional growth for leadership and lifelong learning.

We believe lifelong learning is nurtured in an environment of mutual respect and shared responsibility for the development of clinical reasoning, ethical conduct, and personal accountability.

Initial Licensure Nursing Programs

The Bachelor of Science in Nursing (B.S.N.) Generic Option is accredited by the Accreditation Commission for Education in Nursing (ACEN) and has full approval status from the Texas Board of Nursing.

Texas Board of Nursing
333 Guadalupe, Ste. 3-460
Austin, TX 78701-3944
Telephone: 512-305-7400
Fax: 512-305-7401
www.bon.state.tx.us

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, GA 30326
Telephone: 404-975-5000
www.acenursing.org

The Department of Nursing and Rehabilitation Sciences strictly adheres to the Texas Board of Nursing Rules and Regulations Relating to Professional Nurse Education, Licensure and Practice. Because of the dynamic nature of the profession of nursing, and consequently nursing education, the Texas Board of Nursing may make changes to these rules and regulations as the need arises. In order to remain in compliance with these rules and regulations, the Department of Nursing and Rehabilitation Sciences reserves the right to make changes to information presented in the current ASU Catalog.
Nursing

as necessary, and communicate these changes on the departmental website. Currently enrolled and prospective students are responsible for checking the ASU nursing website for the most current information. In addition, all students enrolled in nursing courses must have a working ASU e-mail address. The Angelo State University e-mail address is the only recognized e-mail address used by the Department of Nursing and Rehabilitation Sciences. Notification of changes to the catalog will be communicated via e-mail.

The most current Nursing Student Handbooks are available, and may be downloaded, from the departmental website. These handbooks are reviewed and updated annually. However, the Department of Nursing and Rehabilitation Sciences reserves the right to make (upload) changes to these documents when necessary. Students will be notified of any changes by e-mail.

A student who meets university graduation requirements, successfully completes the prescribed nursing curriculum, and satisfies nursing exit exam requirements, will receive the Bachelor of Science in Nursing degree. Upon approval by the Texas Board of Nursing, the student will be eligible to take the National Council Licensing Examination for Registered Nurses (NCLEX-RN). Upon successful completion of this licensing exam, the graduate will receive the designation of “Registered Nurse (RN)”. Bachelor of Science in Nursing graduates could be eligible to pursue graduate study leading to the Master of Science in Nursing degree.

Bachelor of Science in Nursing Degree (B.S.N.) Generic Option
(120 semester hours)

The Bachelor of Science in Nursing (B.S.N.) Generic Option degree for Registered Nurses is fully accredited by the Accreditation Commission for Education in Nursing (ACEN) and has full approval status from the Texas Board of Nursing.

Academic Major

Junior Year

Nursing 3106, 3206, 3301, 3304, 3305, 3307, 3314, 3320, 3410, 4305 ................................................................. 28

Nursing or other upper-division elective ............................................. 3

Senior Year

Theatre 1311, 1351, 1352 ....................................................... 3

Admission to the Initial Licensure Programs

Initial Licensure Programs

(Generic B.S.N. Degree)

The student pursuing the Bachelor of Science (generic option) in Nursing degree must apply to the Department of Nursing and Rehabilitation Sciences for admission to the Nursing Program. This is a separate application process from application to the university. Admission to the university does not guarantee admission to the B.S.N. program.

Physical/Mental Performance/Admission/Progression Policy

In order to accomplish the objectives of the program, students must be able to meet and maintain the following performance requirements:

- Visual acuity with corrective lenses to identify cyanosis, absence of respiratory movement in patients, and to read small print on medication containers, physician’s orders, monitors, and equipment calibrations.
- Hearing ability with auditory aids to understand the normal speaking voice without viewing the speaker’s face and to hear monitor alarms, emergency signals, call bells from patients, and stethoscope sounds originating from a patient’s blood vessels, heart, lungs, and abdomen.
- Physical ability to stand for prolonged periods of time, perform cardiopulmonary resuscitation, lift patients, and move from room to room or maneuver in limited spaces.
- Ability to communicate effectively in verbal and written form. Ability to speak clearly and succinctly when explaining treatment procedures, describing patient conditions, and implementing health teaching. Ability to write legibly and correctly in patient’s chart for legal documentation.
- Manual dexterity to use sterile techniques and insert catheters. Prepare and administer medications such as IVs, POs, and IMs.
- Ability to function safely under stressful conditions, adapting to ever-changing clinical situations involving patient care.

Eligibility for RN Licensure

The Texas Board of Nursing (BON) licenses Registered Nurses in accordance with very strict guidelines. The BON requires that a person complete a nursing education program at an accredited college. Also, the BON has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. A person may petition the BON for a declaratory order as to the person’s eligibility for license if the person is enrolled or planning to enroll in an educational program that prepares a person for an initial license as a registered nurse. Answering “yes” to any of the following questions will necessitate a person to petition for a Declaratory Order. More information may be found on the BON’s website at www.bon.state.tx.us.
Admission Criteria and Selection

Admission to the Generic B.S.N. program is highly competitive. For a candidate to be considered in the selection process for admission, a fully completed application packet is due to the Department of Nursing and Rehabilitation Sciences on or before February 15 for fall admission and October 1 for spring admission. Applications will not be considered complete, and will not be evaluated, until all the following required information has been submitted. Submission of documents to the Department of Nursing and Rehabilitation Sciences is the responsibility of the applicant. Incomplete applications will not be considered in the selection process.

Meeting pre-acceptance requirements does not guarantee admission to the Generic B.S.N. program.

B.S.N. Pre-Acceptance Requirements:

I. You must apply to the university before applying to the B.S.N. in Nursing program. All requirements for regular admission to Angelo State University must be met.

II. Completion, or enrollment in, the following prerequisite courses:

A. Biology 2423 - Anatomy and Biology 2424 - Physiology (or A&P I and A&P II)
B. Chemistry 1407 - Chemistry for Health Professionals
C. Communication 2301 - Public Speaking
D. Nursing 2338 - Computer Applications for Healthcare Professionals
E. English 1301 - English Composition, 1302 - Writing Across the Curriculum, and English sophomore literature (2000 level)
F. History 1301 - History of the United States to 1865 and 1302 - History of the United States, 1865 to Present
G. Mathematics 1302 - College Algebra or 1324 - Finite Mathematics I or 1332 - Contemporary Mathematics or 1333 - Elementary Statistics
H. Nursing 2324 - Pathophysiology
I. Nursing 2330 - Health Promotion and Cultural Aspects of Healthcare
J. Nursing 2411 - Microbiology for Health Professionals
K. Political Science 2301 - Federal and State Government and 2302 - Federal and State Government
L. Psychology 1303 - Psychology of Adjustment or 2301 - General Psychology
M. Statistics: Mathematics 3321 - Statistics or Nursing 2337 - Basic Statistics for Healthcare Professionals or Nursing 4337 - Statistical Techniques for Health Professionals or Psychology 2321 - Research Methods and Statistical Analysis
N. 3 semester credit hours of Visual and Performing Arts

III. Minimum grade of “C” in all required math, nursing, and science courses.

IV. A composite score of 20 or above on the ACT or a combined verbal and math score of 950 or above on the SAT or a combined verbal, math and writing score of 1410 on the SAT.

V. A minimum cumulative grade point average (GPA) of 2.50 on all previous college work.

VI. Submit ASU Department of Nursing and Rehabilitation Sciences Student Immunization Record form. (Form can be found on the website www.angelo.edu/dept/nursing/student_resources/backgrund_check.html.)

VII. Complete Criminal Background Check and drug screen through agency contracted with the Nursing and Rehabilitation Sciences Department, print and include with application. (Instructions are on the website www.angelo.edu/dept/nursing/student_resources/backgrund_check.html.)

VIII. Submit proof of current health insurance.

IX. TEAVS nursing entrance assessment.

X. Copy of permanent resident card for non-citizens.

XI. Official TOEFL scores for international applicants.
## Selection Process

A number of factors, including regulatory agencies’ requirements, availability of clinical sites, and university resources dictate the number of candidates who can be accepted into the B.S.N. program. Because the number of applications exceeds the number of candidates that can be accepted into the program, each complete application submitted by the deadline of February 15 for fall and October 1 for spring, meeting the above pre-acceptance requirements, will be evaluated by a faculty committee utilizing an objective scoring system. Points are awarded in a number of areas including:

- non-nursing curriculum course work grade point average (GPA),
- number of non-nursing semester credit hours completed with a "C" or better,
- scores on ACT/SAT and TEASV nursing entrance assessment,
- grades in pre-requisite science courses,
- number of withdrawals and failures on transcripts.

Top scoring candidates will be accepted into the B.S.N. program and will receive written notification by March 15 for fall and October 30 for spring. These candidates must complete and return the acceptance form by the stated deadline date or their position will be forfeited. After this date, all applicants not accepted will need to submit a new application form to be considered for the next required nursing course sequence.

## Criminal Background Check

Students will be required to submit to a criminal background check through an agency selected by the Nursing and Rehabilitation Sciences department. The criminal background check is to be done before student’s application can be considered complete and eligible for review, and within the calendar year of admission. The student is responsible for completing the background check and all fees involved with this process. If the results of the background check are deemed unacceptable to any of the clinical agencies with which the university has contracts, the student would not be able to complete the clinical requirements of the program necessary for progression and graduation, and therefore would not qualify for acceptance into the nursing program. The student is responsible for all costs associated with such screenings. The following histories will disqualify an individual from consideration for clinical rotations:

- felony convictions,
- misdemeanor convictions or felony deferred adjudications involving crimes against persons (personal or sexual),
- felony deferred adjudications for the sale, possession, distribution, or transfer of narcotics or controlled substances,
- registered sex offenders.

Students must also submit to any additional screenings that may be requested by the clinical agency in which they are participating in clinical experiences, (e.g. drug screens).

## Technical Requirements

The Department of Nursing and Rehabilitation Sciences at Angelo State University recommends students have high-speed, broadband (cable modem or Digital Subscriber Line) Internet connection. While not required, subscription to a broadband service will improve the speed of delivery. Students taking online courses should have access to a computer that meets the minimum requirements listed in the Undergraduate Nursing Student Handbook.

## Standards for Progression in the Generic Bachelor Degree Program

The following standards must be maintained by each nursing student in order to progress in the Generic Bachelor Degree Nursing Program:

- Proof of current health insurance.
- Compliance with all rules and regulations outlined in the Undergraduate Nursing Student Handbook and the current Angelo State University Catalog.
- Successful completion of each required nursing course with a grade of “C” or higher.
- An overall grade point average of 2.00 or better on the 4.00 scale.
- Current CPR certification.
- Validation of Texas Department of Health immunization requirements for students enrolled in health related courses must be on file in the departmental office prior to clinical assignments.
- Ability to meet requirements of area health agencies related to criminal background checks, and other screenings (e.g. drug) that may be required of specific agencies.
- Demonstration of safe performance in the clinical laboratory at all times.
- Adherence to the Code of Ethics of the American Nurses Association.
- Compliance with all rules and regulations of the current Nurse Practice Act of the State of Texas when in the performance of duties in the Nursing Program.
- Compliance with the Angelo State University Honor Code.

Should a nursing student be dismissed for failure to maintain any of these standards, the student may appeal the dismissal to the Dean of the College of Health and Human Services through the Chair of the Department of Nursing and Rehabilitation Sciences.

## Unsatisfactory Clinical Practice

A student will be considered unsatisfactory if clinical experiences reflect negative performances, lack of preparation or absence.

- A student with unsatisfactory clinical preparation/performance may be removed from the clinical site and sent to the department’s learning resource lab for further study and preparation.
- Inability to calculate medication dosages can result in remediation and a possible clinical unsatisfactory.
- A pattern of three or more clinical “unsatisfactories” may result in the student failing the clinical portion of the course, and as a result, receive a failing grade for the course.
- A student with excessive clinical absences (as determined by the faculty team) will be considered unsatisfactory, resulting in failure of the clinical portion of the course.
Unsafe Clinical Practice

The nature of clinical nursing practice is such that students are involved in the direct delivery of patient care services. The primary purpose of any course is to provide education for students. However, when direct patient care is involved in the learning experience, the safety and well-being of patients are of paramount concern. Nursing clinical experiences are structured so that as students progress through the program, they are expected to demonstrate increasing independence and competence in providing nursing care.

Students are expected to demonstrate achievement of clinical objectives by the end of a clinical course. In the unusual circumstance that, in the instructor’s professional judgment, a student is unable to provide safe nursing care to patients as delineated in Standards of Professional Nursing Practice (BON, latest edition) and, if this deficit is such that the nursing faculty agree it cannot be remedied in the given clinical time within the limits of available faculty supervision, the student will be removed from the clinical setting and will receive a grade of “F” in the course.

Uniform Policies and Additional Nursing Program Requirements

Each student is expected to conform to the ASU Dress Code for the Department of Nursing and Rehabilitation Sciences as outlined in the Undergraduate Nursing Student Handbook. The Angelo State University nursing uniform and name tag may be worn only in the classroom, the clinical laboratory, or for activities associated with the Nursing and Rehabilitation Sciences Department.

Additional costs above tuition and fees are involved in nursing programs. Uniforms, equipment, instruments, health insurance, special testing costs and transportation to clinical facilities are the student’s responsibility. Nursing education requirements must take precedence over student’s outside employment. Students may be assigned to clinical experiences during day, evening or weekend hours. The Nursing and Rehabilitation Sciences Department reserves the right to change assigned days and times of clinical sections as required by clinical agencies. Clinical agencies may require additional health examinations, drug screening, dress codes or conformity with other policies. Student will be informed in advance of such requirements.

Standards for Readmission to the Generic B.S.N. in Nursing Program

Students who have an interruption in the normal progression of their nursing studies as a result of withdrawal from a nursing course, earning a grade lower than “C” in a required nursing or science course, or not being in compliance with other progression standards outlined on page 206 will no longer be enrolled in the Nursing Program. The B.S.N. Admission, Progression, and Graduation Committee consider grievances and appeals for readmission on an individual basis utilizing the following standards:

- All applicants must have a minimum grade point average (GPA) of 2.50 or better on a 4.00 scale to be considered for readmission.
- Readmission to the Nursing program will be allowed only upon the recommendation of the nursing faculty. Recommendation of the faculty will be based upon potential success for program completion and on the National Council Licensing Examination for RN. Refer to the Undergraduate Nursing Student Handbook for more detailed information about this procedure.
- The nursing faculty may stipulate that the applicant repeat a specified course or courses as a condition for readmission to the nursing program.
- Readmission is on a “space available” basis.
- Readmission applicants will be required to perform skills and successfully complete a readmission assessment at the program level of readmission at the semester level preceding course failure.
- Deadline for readmission application to fall term is June 15, and December 15 for spring readmission.
- A student is allowed only one readmission to the nursing program. This one readmission negates future readmissions, except in EXTREME circumstances warranting approval of the Department Chair and the Dean of the College of Health and Human Services.
- A student seeking readmission within two academic years after being withdrawn from the program, will be required to audit the last nursing lecture and lab courses he/she successfully completed prior to enrolling in subsequent nursing courses. If it has been more than two academic years when the student is readmitted, the student will be required to re-enter Nursing program and successfully complete the entire required nursing course sequence.

Bachelor of Science in Nursing Degree for Registered Nurses (RN-B.S.N.)

(120 semester hours)

The Bachelor of Science in Nursing (B.S.N.) program for Registered Nurses is fully accredited the Accreditation Commission for Education in Nursing (ACEN) and has full approval status from the Texas Board of Nursing.

Texas Board of Nursing
333 Guadalupe, Ste. 3-460
Austin, TX 78701-3944

Telephone: 404-975-5000
www.acenursing.org

The Department of Nursing and Rehabilitation Sciences strictly adheres to the Texas Board of Nursing Rules and Regulations Relating to Professional Nurse Education, Licensure and Practice. Because of the dynamic nature of the profession of nursing, and consequently nursing education, the Texas Board of Nursing may make changes to these rules and regulations as the need arises. In order to remain in compliance with these rules and regulations, the Department of Nursing and Rehabilitation Sciences reserves the right to make changes to information presented in the current ASU Catalog as necessary, and communicate these changes on the departmental website. Currently enrolled and prospective students are responsible for checking the website for the most current information. In addition, all students enrolled in the RN-B.S.N. program are required to use their ASU e-mail address for the purpose of communicating with the program. Notification of changes to the catalog will be communicated via e-mail.
Students enrolled in the RN-B.S.N. program must also be in compliance with the Undergraduate Nursing Student Handbook. The most current Undergraduate Nursing Student Handbook is available, and may be downloaded, from the departmental website. This handbook is reviewed and updated annually. However, the Department of Nursing and Rehabilitation Sciences reserves the right to make (upload) changes to these web documents as necessary. Students will be notified of any changes by e-mail.

A student who meets university graduation requirements, successfully completes the prescribed B.S.N. curriculum, and satisfies nursing exit exam requirements, will receive the Bachelor of Science in Nursing degree and could be eligible to pursue the Master of Science in Nursing degree.

The Bachelor of Science in Nursing degree program at Angelo State University provides a unique mobility option for the registered nurse who has earned an associate degree in nursing. Building on this basic foundation of the provision and coordination of evidence-based care to individuals, the RN-B.S.N. student gains additional knowledge and skills necessary to provide evidence-based care to not only individuals, but also families, groups, communities, and populations in traditional and community-based settings. Baccalaureate education builds and enhances clinical scholarship, preparing graduates to advance to an area of specialized nursing practice. The RN-B.S.N. student also gains additional knowledge and skills in order to provide leadership in an increasingly complex and changing health care delivery system. The RN-B.S.N. student develops an understanding and appreciation for the research process as a basis for evidence-based care. Finally, the curriculum provides a basis for advanced study as well as continued personal and professional growth.

Recognizing the multiple responsibilities and roles of the RN student, including work, school, and family, all required nursing courses have been converted to an online format. This allows the RN-B.S.N. student to complete course work when and where it is most convenient.

### Online Learning

Online Learning is an educational process that takes place when student and instructor are not physically in the same place. Using a computer and an Internet Service Provider (ISP) a student can work on course work where it is most convenient. Even though the online class may be more accessible to a student’s schedule, the content and workload are the same in the online class as in a face-to-face course.

In an online class the instructor provides instruction and facilitates the learning environment. Students can review course materials online; interact with other students and the instructor via E-mail, chat rooms and threaded discussions; and participate in virtual classroom meetings. In the online classroom, students initiate their own learning, so they need to possess a high degree of self-motivation and self-discipline.

Online courses are similar in structure to classroom courses. The courses have a syllabus, weekly assignments, projects, papers, and tests. The student will do exercises and solve problems either alone or in small groups. Students will interact with classmates and instructors through online communication tools instead of face-to-face interaction.

For online course work, students should possess basic computer skills. They should be able to send and receive e-mail; attach, send and open documents from e-mail or internet sites; participate in online chats; research topics using Web resources; and use Internet library databases.

The educational technology tool used is the Learning Management System (LMS) called Blackboard. An LMS is a web-based “frame” through which instructors can communicate with students, distribute information, and facilitate the exchange of ideas, information, and resources. An LMS offers students easy and immediate access to discussion forums and chats, course materials, assignments and resources, announcements and course calendar.

Most online courses are asynchronous, or designed so that students can conveniently complete their work anywhere via Internet access.

### Technical Requirements

The Department of Nursing and Rehabilitation Sciences at Angelo State University strongly recommends students have high-speed, broadband (cable modem or Digital Subscriber Line) Internet connection. While not required, subscription to a broadband service will improve the speed of delivery. Students taking online courses should have access to a computer that meets the minimum requirements listed in the Undergraduate Nursing Student Handbook.

### Orientation to Online Learning

Although not required, it is highly recommended that RN-B.S.N. students review the B.S.N. Program online learning orientation, especially students who have not had previous experience with online learning.

### Admission to the Baccalaureate Degree Nursing Program

The student pursuing the Bachelor of Science in Nursing degree must apply to the Department of Nursing and Rehabilitation Sciences for admission to the Nursing Program. This is a separate application process from application to the university. Admission to the university does not guarantee admission to the B.S.N. program.

### Physical/Mental Performance/Admission/Progression Policy

In order to accomplish the objectives of the program, students must be able to meet and maintain following performance requirements:

- Visual acuity with corrective lenses to identify cyanosis, absence of respiratory movement in patients, and to read small print on medication containers, physician’s orders, monitors, and equipment calibrations.
- Hearing ability with auditory aids to understand the normal speaking voice without viewing the speaker’s face and to hear monitor alarms, emergency signals, call bells from patients, and stethoscope sounds originating from a patient’s blood vessels, heart, lungs, and abdomen.
- Physical ability to stand for prolonged periods of time, perform cardiopulmonary resuscitation, lift patients, and move from room to room or maneuver in limited spaces.
- Ability to communicate effectively in verbal and written form. Ability to speak clearly and succinctly when explaining treatment procedures, describing patient conditions, and implementing health teaching. Ability to write legibly and correctly in patient’s chart for legal documentation.
Nursing

Admission Criteria and Selection: RN-B.S.N. Program

Pre-Acceptance Requirements (B.S.N.)
I. Entrance into the Bachelor of Science in Nursing degree program requires admission to both the University and the Department of Nursing and Rehabilitation Sciences. The educational experience of each registered nurse will be evaluated on an individual basis.
II. The applicant must have a current, unencumbered license to practice as a registered nurse in the State of Texas or the state where the applicant will do clinical practice.
III. The applicant must have completed an accredited associate degree in nursing program.
IV. Official transcripts from all colleges attended, nursing schools, etc., must be on file in Admissions.
V. The applicant must have a cumulative grade point average (GPA) of 2.50 (based on a 4.00 grading scale) on all college work. Petitions for provisional admission will be considered on an individual basis by the B.S.N. faculty and Chair of the Nursing and Rehabilitation Sciences Department. Applicants who are given provisional admission will be on probation, with the requirement that they achieve at least a 2.50 cumulative grade point average on all work until they have completed 10 semester credit hours of work in the B.S.N. program at ASU. Provisional admission will only be granted on a "space available" basis. No applicant who has a cumulative grade point average below 2.25 will be granted provisional admission.
VI. A basic pathophysiology course (equal to 3 semester hours of credit) completed with a grade of "C" or higher.
VII. An ASU Department of Nursing and Rehabilitation Sciences Student Immunization Record form must be completely filled out by a physician or healthcare facility official and submitted with application. Form can be found on the website.
VIII. The applicant must complete a Criminal Background Check and drug screen through agency contracted with the Nursing and Rehabilitation Sciences Department. Instructions are on the website.
IX. Submit a copy of current CPR certification.
X. Two professional letters of reference and a photograph are required. See admission application for details.
XI. Submit proof of current health insurance coverage.

Meeting pre-acceptance requirements does not guarantee admission to the B.S.N. program.

Selection Process

- A student must be accepted into the RN-B.S.N. program before enrolling in required nursing course work. A number of factors, including regulatory agencies’ requirements and university resources, dictate the number of candidates who can be accepted into the B.S.N. program for each semester. As a result, meeting preadmission requirements does not guarantee admission to the RN-B.S.N. program. In addition, acceptance to the B.S.N. program does not guarantee enrollment in required nursing courses for any specific semester.
- Application materials for the current academic year are available on the departmental website.
- Applications are not considered complete until all pre-acceptance requirements have been met.
- Deadlines for final review of completed applications are as follows:
  - Summer: March 15
  - Fall: June 15
  - Spring: October 15

  - Candidates meeting all preadmission requirements, but who are not accepted after the final review for a specific semester, will have their applications automatically reviewed (using the same process) during the initial review period for subsequent semesters. Candidates are responsible for insuring their applications are current.
  - If a candidate does not gain admission within one academic year, they will need to complete a new application form.

Standards for Progression in the RN-B.S.N. Program

The following standards must be maintained by each student in order to progress in the B.S.N. program to graduation:

- Compliance with all rules and regulations outlined in the Undergraduate Nursing Student Handbook and the current Angelo State University Catalog.
- A minimum 2.25 overall grade point average (GPA) at the completion of each semester in order to register for the next nursing course.
- Each student must have a minimum 2.25 overall grade point average in order to graduate.
- Successful completion of each nursing course with a grade of "C" or above.
- Demonstration of safe performance in the clinical laboratory at all times.
- Adherence to the rules and regulations as defined in the current Nurse Practice Act for the State of Texas, and the Code of Ethics of the American Nurses Association while in the performance of duties in the B.S.N. program.
- Current CPR certification.
- Validation of Texas Department of Health immunization requirements for students enrolled in health related courses.
- Compliance with all requirements of the clinical facility while engaged in student clinical experiences. These include, but are not limited to, criminal background checks and drug screenings. The student is responsible for all costs associated with these requirements.
- Compliance with the Angelo State University Honor Code.
- Proof of current health insurance.

* A student meeting all other preacceptance requirements, may be admitted, but must complete a basic pathophysiology course (equal to 3 semester hours of credit) with a grade of “C” or higher in order to graduate.
Nursing

Policies

Departmental Website: Students should access the departmental website www.angelo.edu/dept/nursing for updates, information on courses, books, course schedules, preceptor/clinical facilities, degree plan applications, and other important items.

Readmission: Students who have an interruption in the normal progression of their nursing studies as a result of withdrawal from a nursing course(s) in more than one semester, earning a grade lower than "C" in a required nursing or science course, or not being in compliance with other progression standards, as stated above, will no longer be enrolled in the B.S.N. Degree Nursing Program. Individuals who apply and are approved for readmission to the B.S.N. program may be reinstated only once. Recommendation from the nursing faculty and an overall grade point average of 2.50 or better are required for readmission. Readmission is on a "space available" basis.

Uniform: Each student is required to purchase approved ASU nursing student identification to be worn in the clinical areas or for activities associated with the Department of Nursing and Rehabilitation Sciences.

Code of Honor: A strong Code of Honor is hallmark to the success of a nursing online program. Without this Code it would be impossible to have an online program. The professional nurse learner is expected to abide by the Angelo State University Code of Honor at all times, with special emphasis in regard to exams, quizzes, and other graded materials.

* The RN-B.S.N. program meets all core curriculum and general requirements for the B.S.N. Nursing degree.
Graduate Programs

Master of Science in Nursing (M.S.N.)

The Department of Nursing and Rehabilitation Sciences offers a program leading to the Master of Science in Nursing (M.S.N.) degree with two options: Nurse Educator or Family Nurse Practitioner.

The B.S.N. and M.S.N. programs at ASU are fully accredited by the Accreditation Commission for Education in Nursing (ACEN). In addition, all nursing programs have full approval status by the Texas Board of Nursing.

Texas Board of Nursing
333 Guadalupe #3-460
Austin, TX 78701
Office: 512-305-7400
Fax: 512-305-7401
Website: www.bon.state.tx.us

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, GA 30326
Telephone: 404-975-5000
Website: www.acenursing.org

The Department of Nursing and Rehabilitation Sciences strictly adheres to the Texas Board of Nursing Rules and Regulations Relating to Professional Nurse Education, Licensure and Practice. Because of the dynamic nature of the profession of nursing, and consequently nursing education, the Texas Board of Nursing may make changes to these rules and regulations as the need arises. In order to remain in compliance with these rules and regulations, the Department of Nursing and Rehabilitation Sciences reserves the right to make changes to information presented in the current Catalog as necessary, and communicate these changes on the departmental website. Currently enrolled and prospective students are responsible for checking the website for the most current information. In addition, all students enrolled in nursing courses must have a valid university e-mail address on file in the nursing office. Notification of changes to the catalog will be communicated via e-mail, and will only be communicated to a student’s university-issued e-mail address.

Graduate nursing students must also be in compliance with the M.S.N. Student Handbook. The most current Nursing Student Handbook is available online and may be downloaded from the departmental website. This handbook is reviewed and updated annually. However, the Department of Nursing and Rehabilitation Sciences reserves the right to make (upload) changes to this web document as necessary. Students will be notified of any changes via students university issued e-mail address.

A student who meets university graduation requirements, successfully completes the prescribed graduate nursing curriculum, and satisfies comprehensive exit exam requirements, will receive the Master of Science in Nursing degree.

M.S.N. Admission Requirements

In addition to the general requirements for admission to the College of Graduate Studies, applicants for regular admission to the M.S.N. program must file a separate departmental application to the Department of Nursing and Rehabilitation Sciences and meet the criteria listed below:

- A baccalaureate degree in nursing from a program accredited by the Accreditation Commission for Education in Nursing (ACEN), or the AACN Commission of Collegiate Nursing Education.
- A minimum overall grade point average (GPA) of 3.00 on a 4.00 scale.*
- An upper division (Junior or Senior level) statistics course completed with a grade of “C” or higher within 5 years is recommended but not required.
- A basic pathophysiology course (equal to 3 SCH) completed with a grade of “C” or higher.**
- A current, unencumbered license to practice as a Registered Nurse in Texas.
- M.S.N. Core Curriculum and Advanced Practice Practicums are required to be completed in Texas.
- Evidence of inclusion of basic physical assessment content in an undergraduate nursing program.
- A basic computer literacy course (equal to 3 SCH).
- Acceptance to the College of Graduate Studies.
- Three letters of recommendation that address ability to succeed in graduate school (leadership, time management, initiative).
- An essay describing your goal and plan for completing a graduate nursing degree (500 word maximum).

Prior to first clinical course, graduate students must have the following on file in the nursing office:

- Current CPR (professional level) certification.
- Evidence of meeting state-mandated immunization requirements.
- Proof of current health insurance.
- Drug screen.

(continued on next page)

* When the GPA is between 2.75 and 2.99, the applicant may qualify with a GRE score equivalent to 1,000 (combined analytical and verbal scores).

** Evidence that pathophysiology was integrated into curriculum may be accepted.
Physical/Mental Performance/Admission/Progression Policy

In order to accomplish the objectives of the program, students must be able to meet and maintain the following performance requirements:

- Visual acuity with corrective lenses to identify cyanosis, absence of respiratory movement in patients, and to read small print on medication containers, physician’s orders, monitors, and equipment calibrations.
- Hearing ability with auditory aids to understand the normal speaking voice without viewing the speaker’s face and to hear monitor alarms, emergency signals, call bells from patients, and stethoscope sounds originating from a patient’s blood vessels, heart, lungs, and abdomen.
- Physical ability to stand for prolonged periods of time, perform cardiopulmonary resuscitation, lift patients, and move from room to room or maneuver in limited spaces.
- Ability to communicate effectively in verbal and written form. Ability to speak clearly and succinctly when explaining treatment procedures, describing patient conditions, and implementing health teaching. Ability to write legibly and correctly in patient’s chart for legal documentation.
- Ability to use computer based technology at a reasonable level of proficiency for safe patient care.
- Manual dexterity to use sterile techniques and insert catheters. Prepare and administer medications such as IVs, POs, and IMs.
- Ability to function safely under stressful conditions, adapting to ever-changing clinical situations involving patient care.

Selection Process

- A student planning to earn the M.S.N. degree at Angelo State University, must be accepted into the M.S.N. program before enrolling in required nursing course work. A number of factors, including regulatory agencies’ requirements and university resources, may dictate the number of candidates who can be accepted into the M.S.N. program. As a result, meeting pre-admission requirements does not guarantee admission to the M.S.N. program. In the event that applications for admission for a specific semester outnumber available openings, the most qualified candidates [based on an evaluation of factors including overall grade point average (GPA), and last 60 hours (GPA)] will be admitted.
- Students who have been accepted to the College of Graduate Studies, and meet admission criteria for the M.S.N. program, but have a non-degree seeking status, may be given permission to enroll in graduate nursing courses on a “space available” basis.
- Application materials for the M.S.N. program are available on the departmental website, and in the Nursing and Rehabilitation Sciences Department office.
- Applications are not considered complete until all admission requirements have been met. Only completed applications will be evaluated for admission to the program.
- There will be an initial review of all complete applications for admission to a specific semester. Depending on the number of available seats and number of complete applications, a candidate could be admitted, or their application could be deferred to the final evaluation round for a particular semester. Candidates are highly encouraged to submit applications by the initial review deadline. Deadlines for final review of completed applications are as follows:
  - Fall: April 1 (Family Nurse Practitioner and Nurse Educator).
  - Spring: September 1 (Nurse Educator and Post Master’s Certificate Programs).
  - Summer: April 1 (Nurse Educator and Post Master’s Certificate Programs).

Standards for Progression in the M.S.N. Program

The following standards must be maintained by each student in order to progress in the M.S.N. program to graduation:

- Compliance with all rules and regulations outlined in the M.S.N. Student Handbook and the current Angelo State University Catalog.
- A minimum 3.00 overall grade point average (GPA) at the completion of each semester in order to register for the next nursing course. Students with a cumulative or semester GPA below 3.00 will be placed on academic probation.
- Each student must have a minimum 3.00 overall grade point average in order to graduate.
- Successful completion of each nursing course with a grade of “C” or above. *
- Students receiving less than a “C” in a graduate nursing course are eligible to repeat that course one time only pursuant to recommendation of course faculty.
- Demonstration of safe performance in the clinical laboratory at all times.
- Adherence to the rules and regulations as defined in the current Nurse Practice Act for the State of Texas, and the Code of Ethics of the American Nurses Association while in the performance of duties in the M.S.N. program.
- Proof of current health insurance.
- Current CPR certification.
- Validation of Texas Department of Health immunization requirements for students enrolled in health related courses.

* Any student earning an “F” in a graduate nursing course, who maintains a graduate GPA of 3.00 or more, may re-take the failed course one time pursuant to faculty recommendation.
Compliance with all requirements of the clinical facility while engaged in student clinical experiences. These include, but are not limited to, criminal background checks and drug screenings. The student is responsible for all costs associated with these requirements.

Compliance with the Angelo State University Honor Code.

**Policies**

**Departmental Website** [www.angelo.edu/dept/nursing/](http://www.angelo.edu/dept/nursing/)

Students should access the departmental website for updates, information on courses, books, course schedules, preceptor/clinical facilities, degree plan applications, and other important items.

Dismissal from the M.S.N. Program will result from the following circumstances:

- Students earning an “F” in two or more graduate courses in one semester.
- Students earning an “F” in the same nursing course twice.

Failing to meet expected standards in any nursing program may result in dismissal at any time.

**Precepted Clinical Experiences.**

A number of M.S.N. courses include clinical practicums in traditional and community-based settings. These clinical experiences can usually be completed in the student’s city of residence, under the supervision of a qualified preceptor. The student, with faculty guidance, will identify a qualified preceptor, provide the preceptor with the departmental Preceptor Handbook, and return the signed Preceptor Agreement Form to the Department before beginning clinical experiences. In addition, the student is responsible for determining if a clinical contract with the preceptor’s clinical facility is on file in the department office. M.S.N. core curriculum and advanced practice practicums are required to be completed in Texas. Refer to the M.S.N. Student Handbook for complete information.

**Online Learning**

While M.S.N. courses are offered in an online format, there may be instances when the student will be required to come to campus (e.g., orientation, skills lab, comprehensive exams).

Online Learning is an educational process that takes place when student and instructor are not physically in the same place. Using a computer and an Internet Service Provider (ISP) a student can work on course work where it is most convenient. Even though the online class may be more accommodating of a student’s schedule, the content and workload are the same in the online class as in a face-to-face course.

In an online class the instructor provides instruction and facilitates the learning environment. Students can review course materials online; interact with other students and the instructor via e-mail, chat rooms and threaded discussions; and participate in virtual classroom meetings. In the online classroom, students initiate their own learning, so they need to possess a high degree of self-motivation.

Online courses are similar in structure to classroom courses. The courses have a syllabus, weekly assignments, projects, papers, and tests. The student will do exercises and solve problems either alone or in small groups. Students will interact with classmates and instructors through online communication tools instead of face-to-face interaction.

For online course work, students should possess basic computer skills. They should be able to: send and receive e-mail; attach, send and open documents from e-mail or internet sites; participate in online chats; research topics using the Web resources; and use Internet library databases.

Online courses are similar in structure to classroom courses. The courses have a syllabus, weekly assignments, projects, papers, and tests. The student will do exercises and solve problems either alone or in small groups. Students will interact with classmates and instructors through online communication tools instead of face-to-face interaction.

Technical Requirements

Current recommendations for technical support in online education can be found at: [http://www.angelo.edu/dept/nursing/online_learning.php](http://www.angelo.edu/dept/nursing/online_learning.php)

Current Requirements can be found at: [http://www.angelo.edu/dept/nursing/student_resources/computer_requirements.php](http://www.angelo.edu/dept/nursing/student_resources/computer_requirements.php)

**Information Technology Services (IT)**

Assistance with problems associated with Blackboard course management system may be obtained by calling the ASU IT Help Desk at 325-942-2911 or helpdesk@angelo.edu.

(continued on next page)
Orientation to Online Learning
Orientation to Online Learning: It is mandatory that M.S.N. students attend an on-campus M.S.N. orientation held prior to fall and spring semesters.

Family Nurse Practitioner (FNP)
Advanced Practice Registered Nurse (APRN)
Angelo State University Department of Nursing and Rehabilitation Sciences offers the advanced practice registered nurse option: Family Nurse Practitioner (FNP). Graduates of the APRN tract FNP will apply to the Texas State Board of Nurse Examiners or the student’s respective state board of nursing for advanced practice status after the successful completion of a national certification exam. It is the responsibility of the individual student to apply for the certification exam and advanced practice status.

Students must also pass a comprehensive written exam in order to complete the degree.
RN-M.S.N. Track
The RN-M.S.N. track is an accelerated mobility track which allows highly qualified Registered Nurses who are graduates of an accredited associate or diploma program, to pursue a Master of Science in Nursing without completing all baccalaureate degree nursing courses. Students in this track complete all required B.S.N. academic courses (27 credits) and six (6) prescribed B.S.N. nursing courses (18 credits). Students also complete the required courses for the Master of Science in Nursing program, selecting the APRN option or Nurse Educator option. There is a point at which a student enrolled in the RN-M.S.N. track could decide to pursue the B.S.N. degree only and would not lose any credits toward this degree. Students currently enrolled in an associate degree program who plan on applying for the RN-M.S.N. track are strongly encouraged to contact the graduate advisor as early as possible in their associate degree program.

Admission requirements for the RN-M.S.N. track
• The student must apply and be accepted into the College of Graduate Studies. A separate departmental application for the RN-M.S.N. track must also be completed. This application is available on the departmental website or in the departmental office.
• An associate degree or diploma from an accredited nursing program. Graduates from non-accredited institutions may request special consideration.
• A minimum Grade Point Average (GPA) of 3.40 on a 4.00 scale.
• The student must have completed all academics toward their B.S.N.
• Current unencumbered licensure or eligibility for unencumbered licensure as a registered professional nurse in Texas. Proof of current licensure must be demonstrated by the beginning of the fall term in which nursing courses will be taken.
• M.S.N. Core Curriculum and Advanced Practice Practicums are required to be completed in Texas.
• An upper division (Junior or Senior level) statistics course completed with a grade of “C” or higher within 5 years.
• A basic computer literacy course (equivalent to 3 SCHs).
• A basic pathophysiology course (equal to 3 SCHs) completed with a grade of “C” or higher.
• Two professional references regarding aptitude for graduate study.*
• One faculty reference regarding aptitude for accelerated RN-M.S.N. track.
• Prior to taking first graduate level nursing course, student must have completed a minimum of 90 undergraduate hours.
• All other admission requirements for the RN-B.S.N. program, page 209, and the M.S.N. program, page 211, must also be met.
• The number of openings in the RN-M.S.N. track is limited. Graduate faculty will evaluate each application and admit the most qualified applicants until all positions are filled.
• A 500 word essay to include educational and professional goals; services; experiences.

The student enrolled in the RN-M.S.N. track must satisfy Angelo State University’s undergraduate and graduate residency rules. The student must complete all prescribed B.S.N. courses (18 SCH) at Angelo State University. A maximum of nine (9) SCH of M.S.N. course work may be transferred to Angelo State University. Students must also meet Texas Core Curriculum requirements for the B.S.N. degree. Should a student decide not to finish the M.S.N. portion of the program, the student will be required to complete all of the course requirements for the B.S.N. as a separate degree as specified in the 2013-2014 Angelo State University Catalog.

Certificate Program Admission and Progression Requirements
• Student must apply and be accepted to the College of Graduate Studies (non-degree seeking status).
• To receive the Certificate, the student must successfully complete the required courses and have a cumulative grade point average (GPA) for these courses of at least a 3.00.
• Students in the certificate program must comply with the same rules, standards, and requirements as degree-seeking graduate students enrolled in the same courses as part of the required curriculum leading to the Master of Science in Nursing degree.
• A 500 word essay articulating educational and professional goals; services.

* Faculty references may be substituted for professional references if graduation date is less than 3 years.
(continued from previous page)

Certificate - Family Nurse Practitioner (FNP) Post Master’s Certificate Program
The Family Nurse Practitioner (FNP) Certificate is available to master’s or doctorally prepared nurses as a post-master’s certificate program. To enter the program and be eligible for national certification, individuals must hold a master’s degree with a major in nursing.
Prerequisites: Nursing 6318, 6324, 6331 and 6338.

The Department of Nursing and Rehabilitation Sciences offers a four course (12 SCH) Education Certificate Program designed to develop expertise in the teaching of nursing students enrolled in a variety of educational programs. All courses in the Education Certificate Program are offered in a convenient online format. The program will benefit M.S.N. graduates wanting to develop expertise in curriculum development, teaching strategies including online strategies, and evaluation. Students enrolled in the certificate program will also have the opportunity to partner with a faculty member in a variety of practical experiences, including clinical and lab instruction as well as didactic instruction. To enter the program, individuals must hold a master’s degree with a major in nursing.
Prerequisites: Nursing 6318, 6324, and 6331.

Certificate - Registered Nursing First Assistant (RNFA) Post Master’s Certificate Program
This is a post-master’s certificate program designed for certified advanced practice nurse with little or no perioperative nursing experience who wish to become an RN First Assistant during operative and other invasive procedures. This program is based on the Association of Perioperative Registered Nurses (AORN) educational guidelines and core curriculum. The program consists of a two course sequence that must be taken in order or concurrently. Students will complete a three (3) semester credit hour didactic portion and a four (4) semester credit hour (180 clock hours) precepted clinical internship. The didactic class will be conducted online with a two-day onsite lab component. The clinical internship will be at a site selected by the student. The internship will be supervised by a surgeon mentor/preceptor and will consist of supervised clinical activities, cast studies, surgical intervention log and independent learning activities.
Prerequisites for the program include Certification as an Advanced Practice Nurse, BCLS (ACLS Preferred), and basic computer skills.

(continued on next page)
1212 Introduction to the Nursing Profession (2-0-0). Designed to introduce the freshman level pre-nursing student to the role of the nurse in the health care system, the language of nursing, the critical thinking process, and interpersonal skills required for success in nursing school and the nursing profession.

2324 Pathophysiology (3-0-0). Study of pathologic phenomena that influence disease processes, injuries and health impairments. Students learn disease and injury causes, manifestations, diagnoses and treatments.

Prerequisites: Biology 2423 Anatomy and Biology 2424 Physiology.

2330 Health Promotion and Cultural Aspects of Healthcare (3-0-0). This course analyzes how biologic, environmental, cultural and social factors influence health and illness. Students evaluate strategies of health promotion and disease prevention for individuals, families, and communities in a culturally diverse society.

2337 Basic Statistics for Healthcare Professionals (3-0-0). Examines basic statistics used and interpreted in healthcare settings. Topics include: measurement scales, probability, principles of testing and error, sampling, correlation, and nonparametrics. Focus is on application, interpretation, and presentation of statistics from peer-reviewed journals, reports, and other healthcare documents. Satisfies statistics requirement for B.S.N. program.

2338 Computer Applications for Healthcare Professionals (3-0-0). This course provides students with an introduction to the basics of personal computing and the application of information systems and technology in healthcare settings. Instruction in the use of operating systems and software packages (word processing, spreadsheets, e-mail, and presentations) is presented in a Microsoft environment. Students become familiar with using local area networks, the Internet, and accessing the University library from remote terminals. Satisfies core computer literacy requirement.

2411 Microbiology for Health Professionals (3-2-0). The study of infectious disease processes using an organ systems approach. A thorough analysis of infectious disease processes including host-microbe interactions and medical intervention is central to the curriculum. Laboratory focus includes basic microbiological methodology and case studies.

Prerequisites: Biology 2423 Anatomy, Biology 2424 Physiology - recommended.

3106 Geriatric Nursing (1-0-0). Variations in the aging process are presented along with their impact on health, wellness, mobility, communication, and cognition.

3206 Geriatric Nursing Practicum (0-0-6). Using simulation and clinical experiences, students apply research-based strategies to provide safe and quality care to culturally diverse adult and aging patients in hospitals and skilled care facilities. Grading will be either pass or fail.

3301 Health Policy and Professional Issues (3-0-0). This course addresses pertinent political, social, ethical, economic and education forces that influence trends and issues impacting professional nursing and health care delivery systems in general.

3304 Health Assessment (3-0-0). Students learn to (a) perform thorough and accurate interviews, history-taking and physical assessments of culturally diverse individuals with health problems, (b) identifying and applying pathophysiologic principles across the lifespan, (c) relating findings to prevention and early detection of disease, and (d) documenting and communicating findings effectively and accurately.

Prerequisites: RN Licensure.

3305 Clinical Nursing Skills (0-6-0). Study of advanced skills, emphasizing patient safety and quality. Didactic theory and concepts underpin frame hands-on lab practice, clinical simulations, documentation and professional communication. Competencies are validated by performance tests. Simulations involve critical-thinking applications for ethical issues and conflict scenarios.

Prerequisite: Nursing 2324 Pathophysiology.

3307 Pharmacology (3-0-0). Study of pharmacologic principles, including pharmacokinetics and drug metabolism. Students learn therapeutic uses of drugs, mechanisms of action, and adverse effects for major classes of drugs, as well as commonly used drugs in each category.

Prerequisites: Chemistry 1407 Chemistry for the Health Professions and Nursing 2324 Pathophysiology.
Nursing

3314 Fundamentals of Nursing (3-0-0). Presents foundational principles of ethics, laws, regulations, professionalism, documentation, communication, quality, safety, and evidence-based care in nursing practice. Using standards of care, students learn strategies to optimize health outcomes, including therapeutic interventions and interpersonal and interdisciplinary communication.

3320 Adult Health Nursing I Practicum (0-0-9). Students provide research-based, safe, and appropriate care to culturally diverse adult patients with common medical, surgical, or psychiatric conditions. Students use standards of care, informatics/technology, interdisciplinary communication, and error prevention techniques in a variety of settings. Grading will be either pass or fail.

Prerequisites: Nursing 3304 Health Assessment, Nursing 3305 Clinical Nursing Skills, and Nursing 3307 Pharmacology.

3410 Adult Health Nursing I (4-0-0). This course examines nursing care of patients with common medical, surgical, and psychiatric conditions. Students learn theories, research, and standards of care that are related to common disease processes and conditions.

4205 Nursing Concept Synthesis (2-0-0). Forum for peer and faculty interaction to explore and synthesize ethical and practice issues in the senior capstone residency related to previously learned nursing concepts. The course will also include structured preparation for the professional nursing role and the NCLEX licensure exam.

4212 Obstetric and Pediatric Nursing Practicum (0-0-6). Students provide research-based, safe, and appropriate care to culturally diverse childbearing and childrearing families and their children. Grading will be either pass or fail.

4305 Research: An Evidence-Based Approach to Care (3-0-0). An evidence-based analytical approach to decision making and problem solving incorporating principles of leadership, collaboration, theory, research and professional practice. Students are provided the opportunity to evaluate research studies and apply the basic steps of the research process.

4306 Informatics, Quality Management and Health Care Technology (3-0-0). This course examines computer communication and information sciences, introducing students to an overview of information management in various health care settings. Students will learn strategies to manage information using technology in order to support decision making for improvement of patient care.

Prerequisite: RN Licensure.

4307 Community-Based Health Promotion and Disease Prevention (3-0-0). This course explores health promotion and disease prevention in diverse and multi-cultural communities and vulnerable populations. Students create an evidence-based project to improve health in a community setting.

4308 Nursing Management and Leadership (3-0-0). Current theories of management, leadership, change, and quality improvement are explored and related to the nursing process in delivering health care to individuals, families, groups, community, and society. The student will apply concepts of leadership, management, and quality improvement to nursing practice. An application-based practice experience is required.

Prerequisite: RN Licensure.

4309 Population Focused Community Health (3-0-0). This course focuses on evidence-based population-focused nursing for vulnerable populations across the lifespan in a global, multicultural society. The RN student explores public health science and the nursing process as they are used to plan for the health of populations and communities. An application-based practice experience is required.

Prerequisite: RN Licensure.

4310 Nursing Research: An Evidence-Based Approach (3-0-0). This course provides an evidence-based analytical approach to decision-making and problem solving incorporating principles of leadership, collaboration, theory, research and professional practice. Students are provided the opportunity to evaluate research studies and apply the basic steps of the research process in the evaluation of evidence to advance the practice of nursing.

Prerequisite: RN Licensure.

4312 Nursing Role Transition (3-0-0). This course provides a transition for professional nurses as they begin their studies to achieve a baccalaureate of science in nursing degree. Students will analyze principles of professional practice, the critical role that nurses play in health care delivery and explore strategies to model the professional practice role in clinical situations.

Prerequisite: RN Licensure.

4314 Genetics and Genomics in Health Care (3-0-0). This course provides students with a sound knowledge of genetics and genomics essential for health care providers in evaluating needs of patients and delivering of care to patients and families. The course focuses on the relationship of genetics and genomics to health, prevention, screening, diagnostics, prognostics, selection of treatment, and monitoring of treatment effectiveness.

Prerequisite: RN Licensure.

4315 Policy and Ethics in Health Care (3-0-0). This course addresses pertinent political, social, ethical, economic, and educational forces that influence professional nursing and health care delivery systems. Value formation and ethical theories as they relate to nursing practice are reviewed.

Prerequisite: RN Licensure.
4316 Health Assessment for the Experienced Nurse (3-0-0). This course provides the RN-BSN student with the opportunity to build on knowledge and skills of performing and documenting a comprehensive health assessment of diverse individuals across the lifespan. Critical analysis and synthesis of assessment findings will be emphasized to aid in clinical judgement and decision making for patient care. Prerequisite: RN Licensure.

4321 Adult Health Nursing II Practicum (0-0-9). Students provide research-based, safe, and appropriate care to culturally diverse adult patients with chronic complex medical and psychiatric conditions. Students use standards of care, advanced informatics/technology, interdisciplinary communication, and error prevention techniques in a variety of settings. Grading will be either pass or fail. Prerequisite: Nursing 3320 Adult Health Nursing I Practicum.

4344 Cultural Aspects of Nursing Practice (3-0-0). This course is designed to raise awareness, to inspire action, and to open discussion of cultural issues affecting professional nursing practice. Students explore different cultural groups and have an opportunity to apply their knowledge in an immersion experience. An application-based practice experience is required. Prerequisite: RN Licensure.

4347 Population Health and Disaster Intervention (3-0-0). This course focuses on assessment of and intervention with vulnerable populations. Evidence-based research, simulation, and local and international case scenarios will be used to introduce the student to community, national, and international-level assessment and intervention. Processes covered will include the ACTIVE and REVISIT processes, differing leadership strategies, careful communication, inter-cultural competence, epidemiology, and prevention and control of epidemics. Community level disaster intervention will be the content manipulated using these processes. Eight community volunteer hours are required.

4349 Baccalaureate Nursing Practice (3-0-0). This capstone course synthesizes contemporary nursing knowledge introduced in previous courses. Students apply this knowledge to a professional practice area of their choice. Focus is on applying knowledge to an evidence-based project that is related to an area of interest in nursing and designed to improve health care outcomes. An application-based practice experience is required. Prerequisite: RN Licensure.

4404 Senior Capstone Residency (0-0-12). A clinical immersion to strengthen and broaden baccalaureate nursing skills, judgments and decision making. Supervised by a preceptor, students synthesize and apply evidence based skills and knowledge to nursing practice. The residency may focus on one specific setting or be an experience in which a variety of settings are merged. Prerequisite: Nursing 4321 Adult Health Nursing II Practicum.

4411 Adult Health Nursing II (4-0-0). Examines chronic and complex medical and psychiatric conditions requiring acute nursing care. Students learn theories, research, and standards of care related to complex multi-system disorders, as well as strategies affecting health behavior to improve health outcomes.

4412 Obstetric and Pediatric Nursing (4-0-0). This course focuses on research-based care of childbirth and childrearing families. Students learn processes, concepts, and standards of care related to pregnancy, labor, childbirth, newborns, infants, children, adolescents, and their families. Students review common acute and chronic and behavioral pediatric and obstetric conditions and complications.

Nursing Electives (NUR)

4333 Critical Care Nursing (2-0-3). Explores the interrelationship of human biopsychosocial dimensions of critical care nursing and examines the theoretical basis and nursing process for alterations in human functioning as consequences of critical illness and care.

4334 Cardiopulmonary Rehabilitation (3-0-0). Provides a basic understanding of exercise physiology of the cardiorespiratory system and in-depth study of diagnostic assessments, clinical care, and post-event rehabilitation methodology of the coronary patient. The student will develop skills to assess and monitor rehabilitative therapy for various levels of function. Psychological needs and support systems for the families of coronary patients are also discussed.

4336 Pain and Therapeutic Interventions (3-0-0). Pain, perceived and diagnosed, is explored from a patient’s perspective. Anxiety’s effect on pain, the difference between pain and suffering, and therapeutic approaches will be discussed.

4337 Statistical Techniques for Health Professionals (3-0-0). Examines statistical techniques required to analyze data with specific applications for health professionals. Emphasis placed upon developing SPSS computer databases, data analysis, and interpretation of findings. Techniques include measures of central tendency and variability, correlation, regression, t-tests, ANOVA, chi square, and multivariate analysis.

4338 Women’s Health Care (3-0-0). Presents an analysis of selected issues and trends in women’s health care. Students will evaluate past and present trends in the delivery and financing of health care for women, appraise positive and negative practices affecting physical and mental health, and examine major health deviations of women throughout the life cycle.

4339 Nursing Aspects of Aging (3-0-0). Explores the current knowledge base concerning the process of aging incorporating the impact of societal values toward the elderly.

4341 Basic Concepts in Identifying the Health Needs of Adolescents (3-0-0). Addresses the range of normal growth and development and its relationship to behavior in adolescence. The student will develop skills to improve assessment, communication and understanding of adolescents and their families.

4342 Introduction to Grantwriting for Health Professionals (3-0-0). Provides the student with the opportunity to study the grantwriting process in detail. Students will become familiar with sources and requirements for various types of grants including federal and state and private foundations. In addition, students will work with a faculty member to develop an actual grant proposal for submission.
Nursing

4343 Role of the Clinical Preceptor (3-0-0). Introduces the RN student to the role of the clinical preceptor in the clinical supervision of nursing students or staff in a health care facility. Principles of the teaching/learning process, clinical teaching strategies, effective evaluation methods, and legal implications are discussed.

4345 Care of the Child with Diabetes (0-0-9). Enables the student to understand the different types of diabetes, pathophysiology, and treatment modalities for children with diabetes. In addition, the students will be required to participate in one-week “immersion” experience with children participating in a diabetic summer camp. Permission from Department of Nursing and Rehabilitation Sciences required. Grading will be either pass or fail.

4346 Communicating with the Spanish-Speaking Patient (3-0-0). This course is designed to develop basic conversational skills necessary to communicate with Spanish-speaking patients and their families. Students will acquire a basic linguistic and cultural foundation enabling them to interview and manage patients of all ages in a variety of clinical settings using Spanish; to take a history and perform a physical exam using Spanish-speaking populations.

4347 Population Health and Disaster Intervention (3-0-0). This course focuses on assessment of and intervention with vulnerable populations. Evidence-based research, simulation, and local and international case scenarios will be used to introduce the student to community, national, and international-level assessment and intervention. Processes covered will include the ACTIVE and REVISIT processes, differing leadership strategies, careful communication, inter-cultural competence, epidemiology, and prevention and control of epidemics. Community level disaster intervention will be the content manipulated using these processes. Eight community volunteer hours are required.

4381 Special Topics (3-0). Selected topics in nursing. (May be repeated once for credit when the topic varies.)

4391 Research. A specialized course providing research opportunities for superior students enrolled in the nursing program. Prerequisites: Junior standing.

Nursing (NUR)

Graduate Courses

6312 Evidence-Based Practice and Theory for Advanced Nursing (3-0-0). This course focuses on nursing knowledge synthesis and application of research evidence into best practice. Theoretical constructs that guide nursing research and inform nursing practice are explored. Critical appraisal and evidence synthesis provide the basis for research utilization/scholarship project designed to change policy, improve patient/educational outcomes, or implement best-practice guidelines. Prerequisite: Nursing 6323.

6316 Informatics and Health Care Technology for Advanced Nursing (3-0-0). This course integrates computer, information, and nursing sciences in tandem with health care and communication technologies to deliver, integrate, and coordinate nursing care. Students demonstrate meaningful use of technology by analyzing and ethically managing aggregate data to guide decisions and improve outcomes. Using information systems, emerging technologies, and electronic health records, students will develop an evidence-based informatics project to inform or influence care.

6317 Health Policy and Ethics (3-0-0). This course prepares students as effective agents of change by building leadership skills in health care policy development, implementation and evaluation. Ethics content promotes self-care and active advocacy. Student understanding of local, national, and global factors is expanded to facilitate clinical reasoning and collaborative engagement with all healthcare professionals in redesigning systems to achieve equity, safety, and quality for better healthcare outcomes. Prerequisite: Graduate standing.

6318 Pharmacotherapeutics (3-0-0). This course focuses on the study of advanced pharmacologic principles of drug therapy used by nurses in advanced practice.

6323 Research Foundations for Advanced Nursing (3-0-0). This course develops an understanding of quantitative and qualitative nursing research methodologies, frameworks, and relationships between research questions and design. Application and evaluation of statistical methods is emphasized. Students use critical appraisal skills to critique relevant research.

6324 Advanced Pathophysiology (3-0-0). A study of the function of the human body as it is altered by and responds to disease, including disease manifestations, mechanisms of disease production and response, and the physiological basis of diagnostic and therapeutic procedures. This course provides coverage of human diseases organized by the body system which they affect. Prerequisite: Biology 3324 or equivalent.

6331 Advanced Health Assessment (2-0-50). This course presents the theoretical and clinical principles of advanced health assessment supported by related clinical experiences for the advanced practice nursing student to gain the knowledge and skills needed to perform comprehensive assessments to acquire data, make diagnoses of health status and formulate effective clinical management plans for patients with common, acute, and chronic health issues. A 50 clock hour practicum provides opportunities to practice advanced health assessment skills. Prerequisites: Graduate standing and Nursing 6324 or corequisite with departmental approval.

6333 Internship in Advanced Nursing Practice (0-0-9). This course focuses on the integration and synthesis of the Adult Health Clinical Nurse Specialist (CNS) role. Students work with preceptors to implement and evaluate advanced practice in a clinical setting. Focus is on theoretical and practical knowledge needed to contribute to the management of common acute and chronic health deviation in adults. Further development of clinical decision making skills incorporating nursing and medical diagnoses, disease management and treatment including prescriptive practice is emphasized. Students complete 200 clock hours of practicum. Prerequisites: Nursing 6318, 6324, 6331, 6343, 6344, 6345, 6346.

6338 Leadership and Roles in Advanced Nursing (3-0-0). This course prepares students to assume responsibility and accountability for advanced practice roles. In addition, application of leadership and practice principles at both the patient and system levels is used to promote high quality and safe patient care, reduce overall health care delivery costs, improve access to care, and influence political factors that affect interdisciplinary care. Analysis of aggregate systems data to make decision forms the basis for leadership and practice project.
Nursing

**6339 Population Health and Epidemiology for Advanced Nursing (3-0-0)**. This course explores the distribution and determinants of health and disease that affect human populations using health information and technology. Principles of genetics, genomics, and epidemiological data are considered for design and delivery of evidence-based, culturally relevant clinical prevention and health promotion strategies and interventions. Evidence-based clinical prevention and population indices form the basis of a health promotion project.

**6343 Adult Health I: Foundations of Advanced Nursing Care of the Adult (3-0-0)**. This course addresses the role of the Adult Health Clinical Nurse Specialist as an Advanced Practice Nurse. The content includes analysis of the theoretical and empirical knowledge of illness and wellness phenomena that can be caused or contributed to by disease or nondisease etiologies. Focus is on health promotion and maintenance, risk reduction and evidence-based management of symptoms and functional problems for adult nursing clients. Nursing’s unique contribution to patient care and collaboration with other health care professionals is emphasized.

Grading will be either pass or fail.

**Corequisite**: Nursing 6324, 6331.

**Prerequisites**: Nursing 6318, 6324, 6331.

**6344 Adult Health I: Practicum in Advanced Nursing Care of the Adult (0-0-9)**. Guided clinical experience providing the opportunity to apply an individual advanced nursing practice model related to health promotion, maintenance and restoration in a selected area of emphasis. Students have the opportunity to apply pathophysiological and psychosocial theories and concepts in the care of adult patients. Focus is also on the acquisition of skills in the roles of the clinical nurse specialist. Students complete 130 clock hours of practicum.

Grading will be either pass or fail.

**Corequisite**: Nursing 6324, 6331.

**Prerequisites**: Nursing 6318, 6324, 6331.

**6345 Adult Health II: Diagnosis and Management (3-0-0)**. This course discusses the role of the advanced practice nurse as a member of an interdisciplinary team managing common acute and chronic health deviation in adults. Assimilating knowledge from advanced assessment, advanced pathophysiology, and advanced pharmacotherapeutics, emphasis is placed on developing diagnoses, treatment plans, referral criteria and the implementation of protocols within the scope of advanced practice. Grading will be either pass or fail.

**Corequisite**: Nursing 6343, 6344.

**Prerequisites**: Nursing 6343, 6344.

**6346 Adult Health II: Practicum in Diagnosis and Management (0-0-9)**. Guided clinical experience to acquire skills to diagnose and manage common acute and chronic health deviations in adults and the development of protocols within the scope of advanced practice. Students complete 130 clock hours of practicum.

Grading will be either pass or fail.

**Corequisite**: Nursing 6343, 6344.

**Prerequisites**: Nursing 6343, 6344.

**Nursing (NUR) - Family Nurse Practitioner (Advanced Practice Registered Nurse) Courses**

**Graduate Courses**

**6201 Advanced Skills for Advanced Practice Nurses (1-0-50)**. This course focuses on the development of essential advanced practice nursing skills to perform procedures in primary care practice. Diagnostic methods and procedures for patients of all ages will be included in an on campus lab and 50 clock hour practicum.

**Corequisite**: Nursing 6318, 6324, 6331.

**Prerequisites**: Nursing 6312, 6325, 6327.

**6325 Family Primary Care I (3-0-0)**. Focus on the transition from RN to Family Nurse Practitioner in the diagnosis and management of common acute and chronic conditions across the lifespan in a primary care setting. As a provider of family-centered care emphasis is placed on health promotion, risk reduction and evidence-based management of common symptoms and problems. Nursing’s unique contribution to patient care and collaboration with other health care professionals is emphasized.

Grading will be either pass or fail.

**Corequisite**: Nursing 6201, 6318, 6323, 6324, 6331.

**Prerequisites**: Nursing 6312, 6325, 6327.

**6326 Family Primary Care II (3-0-0)**. Focus is on the progression in the role of the Family Nurse Practitioner in the diagnosis and management of common acute and chronic conditions across the lifespan in a primary care setting. As a provider of family-centered care emphasis is placed on health promotion, risk reduction, and evidence-based management of more complex symptoms and problems. Nursing’s unique contribution to patient care and collaboration with other health care professionals is emphasized.

**Corequisite**: Nursing 6327.

Grading will be either pass or fail.

**6327 Family Primary Care I Practicum (0-0-150)**. A guided clinical experience providing the opportunity to apply family centered primary care related to health promotion and evidence-based diagnosis and management of common acute and chronic conditions across the lifespan. Students complete a minimum of 150 clock hours of practicum. Grading will be either pass or fail.

**Corequisite**: Nursing 6325.

**6336 Family Primary Care II Practicum (0-0-150)**. A guided clinical experience in the progression of the role of providing family centered primary care related to health promotion and evidence-based diagnosis and management of common and complex acute and chronic conditions across the lifespan. Students complete a minimum of 150 clock hours of practicum. Grading will be either pass or fail.

**Corequisite**: Nursing 6326.

Grading will be either pass or fail.

**6351 Mental Health Concepts for Advanced Practice Nurses (3-0-0)**. This course focuses on the development of advanced practice nursing skills in mental health. Specifically, the application of evidence-based knowledge and critical thinking skills in providing clinical management of individuals with common psychiatric-mental health problems across all age groups. Development assessment, crisis intervention, pharmacological management, and therapies are discussed as well as consultation and referral to other mental health professionals. Opportunity to gain clinical experience in the area of mental health will be provided in the final practicum of the program.

Grading will be either pass or fail.

**Corequisite**: Nursing 6324, 6331.
**Nursing**

6537 Integrated Clinical Practice: FNP (0-0-250). A guided clinical experience to synthesize skills acquired and to refine abilities in primary family centered care related to health promotion and the diagnosis and management of common acute and chronic conditions across the lifespan. Students have the opportunity to refine evidence-based pathophysiological and psychosocial interventions, theories, and concepts of care. Students complete a minimum of 250 clock hours of practicum. Grading will be either pass or fail.

Prerequisites: Nursing 6326, 6336, 6351.

**Nursing (NUR) - Nurse Educator Courses**

**Graduate Courses**

6306 Teaching Strategies in Nursing Education (3-0-0). This course is designed to explore the knowledge and competencies needed to develop and apply innovative strategies and technologies in classroom, laboratory, and clinical settings. Strategies for distance and web-based learning are also addressed.

Prerequisites: Nursing 6319.

6307 Evaluation in Nursing Education (3-0-0). This course focuses on knowledge and skills needed to design and evaluate tests and scales constructed to measure academic achievement. Practical components of test item construction, essay evaluation, and clinical/laboratory performance evaluation is incorporated. This course also focuses on the essential components of academic program evaluation, including outcomes assessment and accreditation processes and procedures.

Prerequisites: Nursing 6306, 6319.

6308 Leadership and Practicum in Nursing Education (0-0-150). This course provides a faculty guided experience for nurse educator students. This course will focus on nurse educator leadership roles, classroom and clinical teaching, as well as supervised evaluation of student work and performance. The student will complete a 150 clock-hour precepted practicum designed for comprehensive leadership and teaching experiences in an approved setting providing student, patient and/or staff education. Grading will be either pass or fail.

Prerequisites: Nursing 6306, 6307, 6319.

6319 Curriculum in Nursing Education (3-0-0). This course explores the nature of curriculum development in higher education based on educational theories and principles. It focuses on the development of curricula for a variety of academic programs in nursing education and the design of teaching and learning strategies for their implementation and evaluation. Factors influencing curriculum, student, faculty, and administrator roles are explored.

**Nursing (NUR) - Registered Nurse First Assistant Courses**

**Graduate Courses**

6309 Role of the RNFA (3-0-0). This course focuses on the role of the advanced practice nurse as a Registered Nurse First Assistant (RNFA). The content utilizes the RNFA Core Curriculum to introduce the advanced practice nurse to the operating room environment and to the RNFA role. Emphasis is placed on surgical anatomy and physiology, principles of asepsis, surgical hazards, first assisting techniques, and scope of practice.

6401 RNFA Practicum (0-0-12). A surgeon-supervised clinical experience to acquire skills to function as a first assistant in surgery. Students will engage in supervised clinical activities and complete a surgical first assisting log. Case studies and independent learning activities will be required. Four semester credit hours will be received for validated documentation of 180 clock hours of internship in a clinical setting. Grading will be either pass or fail.

**Nursing (NUR) - Additional Offerings**

**Graduate Courses**

6381 Special Topics (3-0). A seminar in selected topics in nursing. (May be repeated once for credit when topic varies.)

6391 Research. Individual research in nursing. (May be repeated once for credit. Prior approval of instructor and department chair required.)
Angelo State University offers a major and minor in philosophy. Some of the courses may be used to fulfill the humanities requirement. Philosophy can also be used as an elective in any program.

Why is philosophy good for you? Philosophy is an activity - an effort to ask and attempt to answer all the great questions of life: Does God exist? What kind of person should I be? What makes anything right or wrong? What is the meaning of life? As one philosopher put it, “Philosophy is primarily concerned with what there is in the world, and with what we ought to do about it.” Philosophical training will improve your ability to think clearly and to analyze and evaluate arguments. Philosophy fosters personal and intellectual growth.

Philosophy (PHIL)

Undergraduate Courses

2301/PHIL 1301  Introduction to Philosophy (3-0). Problems in interpretation of the nature of knowledge, reality, and value.

2311/PHIL 2306  Ethics (3-0). A study of the way in which past and present philosophers have dealt specifically with the question of value.

2321 Critical Reasoning and Logic (3-0). Analysis of the nature and the functions of language, the kinds of meaning and definition, the recognition of arguments, the fundamental tools of critical reasoning, the basic concepts of logic such as deduction, induction, validity, the informal fallacies, and formal syllogistic logic.

3310 History of Ancient and Medieval Philosophy (3-0). A study of some of the most significant contributions to philosophical thought from the pre-Socratics to Aquinas. This course covers from the 6th century B.C. to the 14th century.

3311 History of Modern Philosophy (3-0). A study of key philosophical figures whose thoughts contributed to the development of philosophy from the 15th century to the 19th century.

3312 Introduction to Metaphysics (3-0). This introductory course will consider the traditional problems of metaphysics: personal identity, time, space, causation, freewill, universals and particulars, as well as more recent philosophical concerns such as “vagueness.” The course will look at some of the most important of the philosophers who contributed to this literature, including the Empiricists Locke, Berkeley, and Hume, as well as the rationalists Descartes, Leibniz and Spinoza, up to and including more recent contemporary literature on these problems.

3313 Philosophy of Religion (3-0). This course examines some fundamental issues concerning the nature of religious belief, the relation between faith and reason, the arguments for and against the existence of God, and the problem of evil.

3314 World Religions from a Philosophical Perspective (3-0). This course offers a philosophical and comparative analysis of some of the major Western and Eastern religions, such as Buddhism, Christianity, Confucianism, Hinduism, Jainism, Judaism, Sikhism, and Taoism.

4311 Philosophy of Science and Technology (3-0). This course reflects on the nature of the scientific enterprise and its technological ramifications. It covers topics in the philosophy of science, including the difference between science and non-science, the nature of the scientific method, the ontological status of theoretical entities or the role of values in science. It also addresses the relation between science and technology and some fundamental topics in the philosophy of technology.

4312 Philosophy of Mind (3-0). This course explores traditional and contemporary views on the nature of mind. It covers topics such as the mind-body problem, causation of mental entities, the fitting of consciousness in a physical world, intentionality, and computational approaches to mind. Thought experiments involving robots, zombies, Martians, or brains in vats will help us reflect on our nature as beings with mental lives.

4330 Great Philosophical Figures (3-0). This course covers in depth the works of one or two prominent figures in the history of philosophy. This is a variable topic course. May be repeated once for credit when topic varies.

4331 Classical Political Philosophy (3-0). A study of Greek, Roman, and medieval thinkers from Socrates to Machiavelli. (Credit may not be earned for this course and Political Science 4331.)

4332 Modern Political Philosophy (3-0). A study of modern political thought from Hobbs to Nietzsche. (Credit may not be earned for this course and Political Science 4332.)

4333 Contemporary Political Philosophy (3-0). A study contemporary political thinkers from the beginning of the 20th Century to the present. (Credit may not be earned for this course and Political Science 4333.)

4334 Existentialist Approaches to Political Violence: Kierkegaard to Sartre (3-0). A survey of debate concerning political violence from the middle of the nineteenth century to the present. (Credit may not be earned for this course and Political Science 4334.)

4360 Topics in Contemporary Philosophy (3-0). A study of key philosophical figures whose thoughts contributed to the development of philosophy from the beginning of the 20th century.

4391 Research. Students may take this course as Directed Readings in Philosophy or as a Research Senior Thesis. This second option is strongly recommended for students intending to apply for Graduate Studies in Philosophy. May be repeated for a total of 6 semester hours credit.

4395 Capstone Seminar (3-0). Students will develop a portfolio from papers and writing samples that best represent their achievements in the discipline. The portfolio should include an introduction justifying the selection of the content material and a critical analysis of the progress made in the degree program.
College of Health and Human Services:
Department of Nursing and Rehabilitation Sciences

Physical Therapy
Program Director: Carolyn R. Mason

Department Chair: Shelly D. Weise
Graduate Faculty: Braden, Huang, Hung, Ko, Mason, Moore, Weise.
Clinical Graduate Faculty: Lewis, Nicks.
Academic Coordinator of Clinical Education: Villers

Contact Information: Vincent Building, Room 237
Program Advisor: Carolyn R. Mason
E-mail: carolyn.mason@angelo.edu
Telephone: 325-942-2545, Fax: 325-942-2548
http://www.angelo.edu/dept/physical_therapy/

The Department of Nursing and Rehabilitation Sciences offers a 36-month entry-level, graduate professional program leading to the Doctor of Physical Therapy degree. Students begin their lock-step, sequenced professional course of study first summer term, with a total combination of nine (9) terms to complete the full-time curricular course of study. Clinical science courses cannot be taken out of sequence. No part-time options are available. Each cohort is limited to a maximum of 26 students.

This program offers several unique opportunities rarely found elsewhere in other Texas physical therapy programs. The unparalleled Carr Graduate Scholarship program offers a unique scholarship opportunity to highly qualified students to earn the Doctor of Physical Therapy degree with most tuition paid.

Our commitment is to develop the ability of student physical therapists to think independently through facilitated learning, small group activities, tutorials, and evidence-based practice; to weigh values; to understand fundamental physical therapy theory; and to develop skills for clinical practice through multiple exposures to clinical experiences in a variety of unique in- and out-of-state settings. ASU’s distinctive high faculty-to-student ratio provides greater opportunities for interactive learning in our problem-oriented, competency-based, contemporary curriculum based on primary body systems (cardiopulmonary, integumentary, musculoskeletal and neurosensory). The Department of Nursing and Rehabilitation Sciences houses state-of-the-science facilities. This includes six skills laboratories available for manual therapy, orthopedic and wound care instruction, electrotherapy, gait analysis and neuroscience. Three dedicated faculty/student research labs, a fine motor motion analysis lab, a gross motor motion analysis lab, a cardiopulmonary lab, and a gait and balance lab are designed to support student experiences and faculty/student research. Two multi-purpose classrooms and a human anatomy lab have also been dedicated to our program.

Program Mission
The mission of the Physical Therapy Program, consistent with Angelo State University, is to provide quality education, research and service and to ultimately improve the functional outcome of clients who receive physical therapy services. Faculty members engage in service, contribute to the body of knowledge through advanced clinical research and prepare graduates to be competent clinicians in general practice. Through this mission, graduates of the physical therapy program are prepared to:

- Provide the highest level of service with professionalism and sensitivity for the uniqueness of all individuals.
- Apply the principles of logic and the scientific method.
- Engage in clinical decision making and problem solving based on examination and intervention choices that are defensible and reflect evidenced base practice.
- Provide coordination, communication and documentation consistent with a collaborative team approach.
- Serve as advocates and educators for clients and the profession.
- Uphold a high level of legal and ethical practice.
- Become active participants in organizations that promote the values of the profession and/or endeavor.

Program Philosophy
The profession of physical therapy is an integral and essential part of the health care delivery system. The quality of care provided by physical therapists, to a broad spectrum of citizens of all ages and backgrounds in a variety of practice environments, has been a catalyst for the profession’s expanding role. The primary purpose of physical therapy is to promote, restore and maintain optimal human function. Physical therapists, as autonomous health care providers, will collaborate with other providers in the system to examine, intervene and prevent human movement dysfunction.

The Physical Therapy Program at Angelo State University recognizes its responsibilities as part of a research, teaching and service institution. The challenge of discovering new knowledge complements the opportunity faculty have to prepare students who will provide compassionate and efficacious and defensible examinations, interventions and referrals to the residents of the region, state and nation. Collectively and individually, the faculty will make contributions to the scholarship, teaching and service roles that professional education at the graduate level requires.
**Physical Therapy**

### Admission Requirements

Admission into the physical therapy degree program will be limited to 26 students per year. Applicants interested in pursuing the degree must successfully pass through a two-stage process.

Admission Requirements:

- Bachelor’s degree with a minimum GPA of 3.00 on 4.00 scale.
- Score minimum of 2500 points using the formula: (300 X overall undergraduate GPA or last 60 hours) + GRE Verbal + GRE Quantitative + GRE Analytical Writing Conversion (AWC). Please call the Graduate Studies Office for the GRE Verbal, Quantitative, and Analytical Writing conversion.
- Minimum overall grade point average (GPA) of 3.00 on a 4.00 scale on prerequisites below. Your last grade attained will be used for repeat prerequisite courses to calculate the prerequisite GPA.
- Minimum of 50 volunteer/employment observation hours (at least two different settings). The 50 hour total may be completed at the SAME clinical site, if a variety of patient/client mix is available. Documentation of hours, days, time and type of clients observed must be provided and signed by a licensed physical therapist (include physical therapist’s license number in the documentation). A volunteer hour recording form is available from the Physical Therapy Program, but is not required.
- Three recommendations (health related, academic and personal) using the recommendation form available online.
- Essay (500 words or less).
- Self-report transcript form online.
- Minimum GRE of 1000 (verbal and quantitative).

Students may prepare for admission to the ASU Physical Therapy program by completing a U.S. baccalaureate degree (or equivalent) from any undergraduate degree plan and include the prerequisite courses listed above. Majors in all fields are given equal consideration.

---

* 8 total hours in anatomy and physiology required and 4 hour upper level biology; prefer General Physiology, but other ASU courses listed accepted.
** Both algebra and trigonometry are needed if applicants do not have 3 hours of pre-calculus or better.
***Or evidence of intensive writing course or a score of 4.5 or better on the GRE Analytical Writing. Freshman level composition courses are not accepted as substitute.
Admission Stage I: Submission of Application Materials to the Graduate Studies Office.

1. Complete College of Graduate Studies Application.
2. Compose essay.
   An essay of no more than 500 words (typed in 12-point type with one inch margins) that describes your educational plans, career objectives, commitment to your particular field of study, any research experience, your view of research and possible research interests, and personal goals. The essay may also address any of the following factors which are qualities that will be acknowledged in the admission process:
   - Socioeconomic history
   - Family background (including level of educational attainment)
   - Personal talents, leadership capabilities, community service.
3. Pay application fee.
   Pay an application fee of $40 with check payable to “Angelo State University.” International student’s application fee is $50 and should be paid by international postal money orders only.
4. Order academic transcripts.
   Have one official transcript from each college/university you have attended (except Angelo State University) sent directly from each college/university to the ASU College of Graduate Studies. All college/university transcripts that arrive in a sealed envelope will be considered “official” even if hand-carried in by the student. Although it must be emphasized that you have to send official transcripts, we encourage you to provide us with unofficial (personal) copies of your transcripts as soon as possible so we can calculate your GPA. Please be aware that the GPA is calculated using all grades, even those on repeated courses.
5. Request that an official copy of your General GRE Test Scores be sent directly to ASU from the Educational Testing Service. GRE scores cannot be more than five years old.

**GRE information:**
Educational Testing Service
Princeton, NJ 08540
800-473-2255
website: http://www.ats.org/gre *
ASU Institution Code: 6644

7. Complete a Proof of Volunteer Hours form.
   Applicants must complete a total of 50 hours in 2 different areas of clinical practice.
8. Send three Letters of Reference to the College of Graduate Studies using the Recommendation Form.

International Applicants must submit official TOEFL or IELTS Scores. TOEFL or IELTS scores cannot be more than two years old.

**TOEFL information:**
Educational Testing Service
Princeton, NJ 08540
800-468-6335
website: www.toefl.org/ *
ASU Institution Code: 6644

If the applicant clears the Admission Stage I process, written notification of advancement to Stage II from the College of Graduate Studies will be sent to the applicant. Then, the applicant must submit a $25 physical therapy processing fee to the Physical Therapy Program before Stage II can begin.

**Criteria for Stage II:**
Once the $25 Physical Therapy processing fee has been received from the applicant by the Physical Therapy Program, the Physical Therapy Admissions Committee will review the applicant’s file. Qualified applicants will be called regarding an interview. Up to 26 individuals will be recommended to the Dean of the College of Graduate Studies for admission into the DPT program. Only written notice from the Dean of the College of Graduate Studies constitutes approval of admission.

Applicants who meet the stated criteria for program admission and were placed on the alternate list because of class size limitations will be reconsidered should a vacancy occur.

Prior to program admission, the student must provide documentation of the following:
- Health insurance,
- Physical examination and up-to-date shot record,
- Criminal background check,
- Meningitis vaccination for any new student to ASU.

**Transfer Policy**
Students from another physical therapy professional education program desiring to pursue a DPT degree from Angelo State University (as a transfer student) will be advised to follow the ASU DPT standard admissions process. Advanced placement or transfer credits may be considered in this lock-step program, and will be evaluated on a case-by-case basis.

**Standards for Continuation in the Physical Therapy Program**
- Successful completion at mastery level of each physical therapy course.
- An overall grade point average of 3.00 or better on the 4.00 scale must be maintained.
- Students may not progress to any of the full-time clinical rotations without successful completion at mastery level of each previously sequenced foundational and clinical science course.
- Each student physical therapist must demonstrate safe performance in the classroom, laboratory, and clinical setting at all times.
- Student physical therapists must accept responsibility for demonstrating physical and emotional health, adhere to the Code of Ethics and Standards of Practice of the American Physical Therapy Association, and adhere to the rules and regulations as defined in the current Physical Therapy Practice Act of the State of Texas.
- Progress to and maintain generic ability levels established by the program prior to progressing to each full-time clinical internship.

Should a student physical therapist be dismissed from the program for failure to maintain any of these standards, the student may appeal dismissal to the Dean of the College of Graduate Studies through the Chair of the Department of Nursing and Rehabilitation Sciences.

* International students should visit the College of Graduate Studies website for more information requirements. www.angelo.edu/dept/grad_school/admission_info/international.html
Unsafe Clinical Practice

The nature of clinical physical therapist courses is such that student physical therapists are involved in the direct delivery of patient care services. The primary purpose of any course is to provide education for students. However, when direct patient care is involved in the learning experience, the safety and well-being of patients and clients are also of paramount concern. Physical therapist supervised clinical experiences are structured so that as students progress through the program, they are expected to demonstrate increasing independence and competence in providing physical therapist care.

Students are expected to demonstrate achievement of clinical objectives by the end of each full time clinical course. If, in the Academic Coordinator of Clinical Education or Clinical Instructor’s professional judgment, a student is unable to provide competent care to patients and clients as delineated in the Clinical Education Handbook and the APTA Standards of Practice (current edition) and if this deficit is such that the faculty agree it cannot be remedied in the given clinical time within the limits of available faculty supervision, the student will be removed from the clinical setting and will be referred to the PT Program Academic Committee.

The student may be dismissed from the DPT program at any time upon recommendation of the PT Program Academic Committee to the Chair of the Nursing and Rehabilitation Sciences Department. A student removed from a clinical course under these provisions may be given a failing grade at the time the decision is made or an incomplete with remediation.

Students will be allowed due process as established by University policy and procedures following course failure or program dismissal. Pending a final determination of the case, the status of the student may be restricted both didactically and clinically for reasons of the safety or well-being of persons or property.

Policies

Each student physical therapist is required to purchase applicable attire per the clinical setting, accessories, supplies, and submit proof of health insurance, health exam, required immunizations, and criminal background checks prior to program matriculation. In addition, students must maintain current CPR certification and submit a tuberculosis reading annually. The Angelo State University name tag must be worn for clinical experiences, field experiences and for activities associated with the Physical Therapy Program.

Disciplinary Action

Any student who demonstrates behavior inconsistent with established physical therapy standards (APTA Code of Ethics, Guide to Professional Conduct, Standards of Practice) and/or the Texas Physical Therapy Practice Act (Rule 322.4, Practicing in a Manner Detrimental to the Public Health and Welfare) and/or personal good cause including, but not limited to medical, physical, or mental incapacity (outside of previous reasonable ADA accommodations), and/or commits a criminal offense (Texas Penal Code 42.10, Abuse of a corpse), and/or violates the Texas State Administrative Code (Title 25 Part 4, Anatomical Board of the State of Texas) constitutes grounds for course failure and immediate removal from the classroom, lab, or clinical experience. In addition, the student who breaches these policies, rules, regulations, laws and/or codes is subject to immediate dismissal from the physical therapy program.

Facilities

Students in the Doctor of Physical Therapy program are provided with state of the science clinical equipment and laboratory facilities reflective of contemporary physical therapist practice. In addition, student physical therapists rely heavily on the University library, as well as regional medical and non-traditional health care facilities for study and research. A variety of clinical facilities and services are available nationally for full-time clinical internships. Student physical therapists will be offered exposure in such diverse settings as the military, sports care, rural health care, head trauma, research facilities, state and national professional organizations such as the American Physical Therapy Association and the Texas Physical Therapy Association, pediatrics, geriatrics, and alternative medicine settings, depending on the educational needs of the student, the available sites and type of clinical internship, research, and management project path(s) the student chooses to take.

Housed in the Vincent Nursing-Physical Science building, Center for Human Performance building, Cavness building and Science building, the Physical Therapy Program has state of the art equipment and laboratories for examination and intervention learning as well as a cardiopulmonary testing lab and a Gross Motor Motion Analysis lab and Fine Motor Motion Analysis lab. In addition, physical therapy students have access to a TV production room for creating a variety of instructional materials through Information Technology and the Nursing Program. The Lloyd D. and Johnell S. Vincent Nursing-Physical Science Building houses an outstanding simulation lab.

Course Descriptions

Physical Therapy (PT)

Graduate Courses

7152 Introduction to Therapeutic Exercise (0-3-0). Students will explore the principles of exercise prescription and develop competency in the selection, implementation and progression of therapeutic exercise.

7212 Introduction to Neuroscience Concepts (1-3-0). Students will acquire the basic neurologic concepts providing a foundation for future neuroscience courses as well as enhancing their understanding of neurologic diagnoses frequently observed in the acute care practice setting. The concepts addressed in this course will include gross structures of the central nervous system, blood supply, and the sensory and motor systems. Lab includes the dissection of human brain material, brain sections, and anatomical models.

Prerequisite: Physical Therapy 7710.

7221 Cardiopulmonary Pathology (2-0-0). A comprehensive presentation of cardiopulmonary diseases. Emphasis is placed on the mechanisms underlying disease and their management as a basis for therapeutic rehabilitative program planning in physical therapy.

7224 Neuropathology I (2-0-0). Students will extend their knowledge of the structure and function of the central and peripheral nervous systems and apply the knowledge within the context of altered structures and function of the nervous system in various neuropathologies common to physical therapy practice. Medical management of neuropathologies will be discussed.

Prerequisite: Physical Therapy 7212.

7232 Foundation for Systems Review (2-0-0). An introductory course in differential diagnosis focusing on identifying signs and symptoms of common medical conditions that mimic the musculoskeletal conditions that are frequently seen for physical therapist intervention. A broad spectrum of clinical sciences will be explored as related to the screening of culturally diverse patient/client population across the life span. Skills necessary to identify and manage patient/client problems that require referral to another health professional will be emphasized.

7233 Health Care Issues for Physical Therapists (2-0-0). This course will explore the current regional, state, national, and global issues and trends in health care and their effects on the delivery of physical therapy services. The course will promote awareness of health care delivery systems, role and function of professional organizations, cultural competency, and other contemporary health care issues. Students will have a better understanding of health and wellness and the role of the physical therapist. Information will be provided to allow the student to develop skills to influence health and wellness at multiple levels (individual, family, institution, community, etc).

7234 Education and Communication for Physical Therapy (2-0-0). A foundation course for Physical Therapy students with a focus on learning theory and communication strategies. Content areas would include: Role of the Physical Therapist as a teacher; communicating with patient populations and professional groups and individuals.

7235 Disability Studies (2-0-0). This course will introduce the student to the field of disability studies. Disability and chronic illness (CI) are often a major factor influencing an individual and/or family during one’s lifetime. People with a disability or CI may be considered a subculture of our society. Physical, cognitive, emotional, social, and cultural factors related to the presence of disability and CI throughout the life span will be explored. Emphasis is placed on those aspects of disability that affect the practice of physical therapy examination and intervention.

7240 Evidence Based Practice in Physical Therapy (2-0-0). A foundations course in evidence-based clinical-decision making designed to provide Physical Therapy students with content areas in forming clinical questions, literature search, and critical appraisal of selected literature. Applications will fall within the Physical Therapy Profession Patient/Client Management Model.

7241 Clinical Research for Physical Therapy (2-0-0). A foundations course for Physical Therapy students with a focus on clinical research. Content areas would include: patient consent; common clinical research designs; and application of research within the clinical setting.

7242 Evidence Based Practice Seminar I (2-0-0). A course for Physical Therapy students to focus on evidence based practice and clinical research following the acute care practicum. Content areas would include: case reporting; critical pathways; and clinical practice guidelines within the acute care clinical setting.
7243 Evidence Based Practice Seminar II (2-0-0). A course for Physical Therapy students to focus on evidence based practice and clinical research following the musculoskeletal practicum. Content areas would include: case reporting; clinical practice guidelines; qualitative research; clinical surveys; sequential clinical trials; and single subject designs within the musculoskeletal clinical setting.

7260 Introduction to Clinical Education and Professionalism (2-0-0). This course will provide students with a foundation for the full-time practical courses. Students will learn how evaluation methods and tools will be implemented during the practicums. Students will also learn policies and procedures for clinical education, delegation and supervision of assistants and aides, aspects of documentation, reporting patient progress, and stress and time management. Roles and responsibilities of persons associated with clinical experience courses will be explored. Students will also develop an understanding of the importance of professional behaviors, self-evaluation and personal reflection. The course will include discussion of current issues, laws, rules, regulations, guidelines and ethical codes governing the practice of physical therapy. Emphasis is placed on the importance of ethical and legal practice and on reimbursement.

7261 Acute Care Practicum (0-0-6). An eight-week, full-time clinical (320 clock hours) experience at assigned clinical facilities. This initial full-time clinical experience provides student physical therapists with the opportunity to develop competency in the physical therapy management of individuals in the acute and sub-acute setting under close supervision by an experienced, licensed Physical Therapist. Each student is assigned one or two clinical instructors to direct and supervise all patient/client management performed by the student. Grading will be either pass or fail.

7281 Special Topics (2-0). A seminar in selected topics in physical therapy. (This elective course may be repeated once for credit when topic varies.)

7311 Clinical Exercise Physiology (2-2-0). An integrated approach to the study of human physiology as it pertains to physical fitness, activity, performance, and wellness. A scientific basis for connecting physical therapy to physical activity, performance, and health is presented. The course includes presentation of metabolic, nutritional, cellular, physiological and structural systems of the body related to functional activity and performance. The course provides an opportunity for the student physical therapist to develop the skills necessary for implementing activity programs and exercise prescription for the apparently healthy individual.

7320 Foundation in Clinical Pathology (3-0-0). A comprehensive presentation of the general principles of disease with an emphasis on general pathology. Focus is on the mechanisms underlying disease and their management as a basis for therapeutic program planning in physical therapy.

7322 Musculoskeletal Pathology (3-0-0). Mechanical properties of musculoskeletal tissues will be described. Growth and maintenance mechanisms of the different tissues will be detailed. Diseases and disorders of the musculoskeletal system will be covered. The underlying tissue pathology and clinical symptoms will be addressed from the orthopedic and physical therapy perspective. Therapeutic interventions will be presented.

7323 Neuromuscular Pathology (3-0-0). Neuropathologies common to physical therapy practice will be discussed in the context of altered structure and function of the nervous system and the neurologic examination and tests. A focus of the course will be the medical management including surgeries and other interventions of the persons with neurologic pathology.

7325 Neuropathology II (3-0-0). Students will extend their knowledge of the structure and function of the central and peripheral nervous systems and apply the knowledge within the context of altered structures and function of the nervous system in various neuropathologies common to physical therapy practice. Medical management of neuropathologies will be discussed.

Prerequisites: Physical Therapy 7212, 7224.

7330 Functional Biomechanical Relationships (3-1-0). An in-depth analysis of natural and pathological mechanisms related to human movement with an emphasis on the primary principles of biomechanics, natural gait and patterns of motion. Incorporated within the course is a study of the pathological mechanisms affecting human movement dysfunction. The course will focus on understanding the mechanical analysis with emphasis on patient rehabilitation.

7331 Motor Control and Clinical Applications (3-1-0). Introduction to theories of motor control and motor learning, current methods in human movement science, and their implications for evidence-based practice.

7336 Management of Physical Therapy (3-0-0). The goal of this course is to provide comprehensive exposure to management principles and concepts with a focus on their applications and impact in physical therapy practice, management of personnel, and laws and regulations pertaining to physical therapy practice. Students will be provided the opportunity to gain cognition and skills in physical therapy practice management which prepares them as practitioners and future administrators.

7337 Operational Management for Physical Therapy (3-0-0). The goal of this course is designed to build upon concepts introduced in Physical Therapy 7336. An integrated approach will be utilized to focus on skills that impact the management of physical therapists. Students will be provided the opportunity to utilize skills in a simulation practice setting and related community based program development, which will prepare them for private practice and potential future administrators.

7344 Evidence Based Practice Seminar III (3-0-0). A course for Physical Therapy students to focus on evidence based practice and clinical research following the neuromuscular rehabilitation practicum. The initial focus is to develop competency in critical thinking, problem solving and best practice recommendations for the neuromuscular patient through integration of their own clinical experiences and presentation of peer experiences. The second focus is on completing and presenting the research project—professional paper in this culminating course of evidence based practice.

7352 Therapeutic Exercise and Physical Agents (2-2-0). This course will explore the interventions of therapeutic exercise and physical agents that are commonly used by physical therapists. Students will develop competency in selection and implementation of therapeutic exercise and physical agents with emphasis on safety, effectiveness, and evidence-based practice.

7353 Musculoskeletal Examination and Management I (1-6-0). This course provides the DPT entry-level physical therapist with the knowledge and skill sets to effectively manage patients/clients with musculoskeletal dysfunctions. Elements of patient management include examination, evaluation and diagnosis with special attention to differential diagnosis and screening strategies, identification of patient/client problems, prioritization of goals, treatment selection and provision including manual therapy techniques, therapeutic exercise, and physical agents. Critical appraisal of musculoskeletal test characteristics, critical thinking, and evidence-based practice are emphasized.
Physical Therapy

7354 Essentials of Rehabilitation Practice (2-3-0). An exploration of the practice of physical therapists in the areas of diabetes, advanced cardiac, pulmonary and neuromuscular diseases, spinal cord injury, orthotics and prosthetics. Students will develop competency in clinical assessment of functional limitations, identification of appropriate treatment options and implementation of interventions. Students will also develop skills in the management of patients with chronic multi-system problems for comprehensive practice settings. This course integrates clinical reasoning for the complex patient through case scenarios, patient observations and laboratory simulations.

7462 Musculoskeletal Practicum (0-0-12). A ten-week, full-time (400 clock hours) clinical experience in an out-patient, orthopaedic setting. This clinical experience provides student physical therapists with the opportunity to develop competency in the physical therapy management of individuals with all levels of musculoskeletal system dysfunction under close supervision by an experienced, licensed Physical Therapist. Each student is assigned one or two clinical instructors to direct and supervise all patient/client management performed by the student. Grading will be either pass or fail.

7550 Fundamentals of Physical Therapist Examination (4-3-0). An introductory course in the basic categories of clinical tests and measures utilized in the examination of patients/clients seen for physical therapy services as described in the Guide to Physical Therapy Practice. Indications for test selection, administration, data collection and interpretation and documentation of data are emphasized.

7556 Musculoskeletal Examination and Management II (3-6-0). This course builds upon knowledge and concepts learned in Physical Therapy 7353 as the student physical therapist gains the knowledge and skill sets to effectively manage patients/clients with musculoskeletal dysfunctions in different regions of the body. Elements of patient management include examination, evaluation and diagnosis with special attention to differential diagnosis and screening strategies, identification of patient/client problems, prioritization of goals, treatment selection and provision including manual therapy techniques, therapeutic exercise and physical agents. Critical appraisal of musculoskeletal test characteristics, critical thinking, and evidence-based practice are emphasized.

Prerequisite: Physical Therapy 7353.

7561 Acute Care Management (3-9-0). An exploration of the practice of licensed physical therapists in the acute care setting. Students will develop competency in clinical examination and evaluation of impairments and functional limitations, identification of appropriate intervention options, and implementation of a plan of care to improve performance of functional activities for patients commonly encountered in acute care practice settings. In addition, this course integrates curricular content in acute care with clinical practice through critical thinking, problem solving, and clinical experiences.

7563 Musculoskeletal Examination and Management (4-6-0). This course provides the DPT entry-level physical therapist with the knowledge and skill sets to effectively manage patients/clients with musculoskeletal dysfunctions. Elements of patient management include examination, evaluation and diagnosis with special attention to differential diagnosis and screening strategies, identification of patient/client problems, prioritization of goals, treatment selection and provision including manual therapy techniques. Critical appraisal of musculoskeletal test characteristics, critical thinking, and evidence-based practice are emphasized.

7555 Neuromuscular Examination and Management (4-6-0). Using the Guide to Physical Therapy Practice and current evidence, student physical therapist will utilize neurologic examination, tests, and measures to diagnose and implement interventions designed to address neuromotor dysfunction in a culturally competent manner. Interventions will be grounded in the foundational movement science and evidence-based practice.

7663 Neuromuscular Practicum (0-0-18). A twelve-week, full-time (480 clock hours) clinical experience in a long-term rehabilitation setting. This clinical experience provides student physical therapists with the opportunity to develop competency in the physical therapy management of individuals with cardiopulmonary, neuromuscular and/or multisystem dysfunction under close supervision by an experienced, licensed Physical Therapist. Each student is assigned one or two clinical instructors to direct and supervise all patient/client management performed by the student. Grading will be either pass or fail.

7710 Clinical Anatomy (4-6-0). Laboratory intensive course designed to reflect depth and breadth of foundational medical and clinical science knowledge of gross anatomical structures. Development of advanced understanding of functional, clinical, and kinesiological significance of integumentary, cardiopulmonary, musculoskeletal, and neurosensory systems is emphasized.
College of Arts and Sciences:
Department of Physics and Geosciences

Department Chair: David L. Bixler

Faculty: Allen, Bixler, Sauney, Sonntag, Wallace, Williams.
Distinguished Professors Emeritus: Dawson, Loyd.
Professor Emeritus: Parker.

Undergraduate Programs

Bachelor of Science (B.S.)
Physics
(120 semester hours)

The American Association of Physics Teachers recommends students planning to do physics graduate work take Physics 3301, 3331, and Physics 4363. Those students who contemplate graduate study in other disciplines will want to choose appropriate minors. For students who plan to work in industry or do graduate work in engineering, the Applied Physics/Pre-engineering specialization area is recommended.

Academic Major with specialization area in Physics  Hours
Physics 1441, 2442 .............................................. 8
Physics 3301, 3331, 3332, 3431, 3461, 4362, 4363 .................. 22
Physics 3443, 3444, 4452, or 4462 (choose 3 courses) ........... 12

Other Requirements
Biology 1410, 1411, or Geology 1401, 1402 ....................... 8
Chemistry 1411, 1412 .............................................. 8
Communication 2301 .............................................. 3
Computer Science 1361 ............................................. 3
English 1301, 1302 .................................................. 6
English Sophomore Literature:
   English 2323, 2324, 2325, 2328, 2329, Honors 2305 ....... 3
History 1301, 1302 .................................................. 6
Mathematics 2513 *, 3514, 3335 ................................. 13
Political Science 2301, 2302 ...................................... 6
Social Science:
   Agricultural Economics 1331, Economics 2300, 2301,
   2302, Geography 2301, 2305, Psychology 1303, 2301,
   Sociology 1303, 2301 ......................................... 3
Visual and Performing Arts:
   Art 1301, 1302, 1305, 2301, 2302, Honors 2302,
   Music 1310, 1341, 1342, 1351, 1361, 1375, 1376,
   Theatre 1311, 1351, 1352 .................................... 3

Minor
Minor ................................................................. 18

* The student is expected to have completed two years of high school algebra, one year of high school geometry, and a precalculus course. If not, the student will be advised whether Mathematics 1302 and 1561 should be completed before enrollment in Mathematics 2513. The student must complete Mathematics 2513 and 3514 prior to the second year of study and must complete Mathematics 3335 prior to the third year of study.

** Students may select single or multiple area minors from any of those listed for a Bachelor of Science degree at Angelo State University. Students must complete 18 SCH in a single area minor with six advanced hours in residence. Each discipline in a multiple area minor requires a minimum of nine hours with six advanced hours in residence. The Department of Physics and Geosciences must advise students on minor requirements. The following minor areas for the Physics degree are recommended: Biology, Chemistry, Computer Science, Earth Science, or Mathematics. If a student chooses a different minor, this degree may require more than 120 hours.

** Physics (advanced) as specified on the degree program.

Physics

4+1 Bachelor and Master of Science in Physics Program
This agreement between the Physics and Geosciences Departments at Angelo State University (ASU) and Texas Tech University (TTU) allows ASU graduates with a bachelor’s degree in physics to transfer credit to a TTU Master of Science program. Ten undergraduate credits from ASU transfer to the TTU master’s program, leaving 20 hours to be completed at TTU.

Requirements
- A bachelor’s degree in physics from ASU
- A Grade Point Average (GPA) of 3.00 with no grade lower than a “C” in these courses:
  - Electricity and Magnetism
  - Mechanics
  - Thermal and Statistical Physics
  - Quantum Mechanics

Courses for Transfer
To be eligible for credit transfer, students must earn at least a 3.00 GPA with no grade lower than a “B” in these courses:
- Advanced Physics or Physics Research (3 credit hours)
- Solid State Physics (3 credit hours)
- Applied Nuclear Physics (4 credit hours)

Course Descriptions

Physics (PHYS)

Undergraduate Courses

1101/PHYS 1111 Stellar Astronomy Laboratory (0-2). Laboratory experiences to supplement Physics 1301. Topics included are stellar magnitudes and distances, spectroscopy and spectral classification, stellar evolution, stellar motions, galaxies, and cosmology. Some night observing sessions are required.

1102/PHYS 1112 Solar System Astronomy Laboratory (0-2). Laboratory experiences to supplement Physics 1302. Topics included are planetary orbits, telescopic observations of Saturn and Jupiter, lunar features, comets, celestial coordinates, celestial sphere concepts. Some night observing sessions are required.

1281 Freshman Seminar (2-0). A course designed to introduce the student to the basic principles of physics and physics related fields, career opportunities, and research. Strongly recommended for students of physics or physics related fields.

1301/PHYS 1311 Fundamentals of Astronomy (3-0). An introductory study of the current knowledge and techniques of astronomy. Stellar astronomy and cosmology will be emphasized.

1302/PHYS 1312 Astronomy of the Solar System (3-0). A study of the current knowledge and techniques of astronomy as applied to our solar system. Information obtained from recent planetary probes and lunar exploration will be emphasized.

1421/PHYS 1401 General Physics I (3-3). Study of mechanics, thermodynamics, and waves. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.)
Prerequisite: Mathematics 1302 or equivalent.

1422/PHYS 1402 General Physics II (3-3). Study of electricity, magnetism, light, and atomic physics. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.)
Prerequisite: Physics 1421.

1441/PHYS 2425 Fundamentals of Physics I (3-3). A comprehensive course with emphasis placed on the capacity to utilize the fundamental concepts of mechanics and thermodynamics in the solution of problems.
Prerequisite: Credit for or parallel registration in Mathematics 1561.

2302 Statics (3-0). Analyses of particles, rigid bodies, trusses, frames and machines in static equilibrium with applied forces and couples.
Prerequisites: Mathematics 2513, Physics 1441.

2442/PHYS 2426 Fundamentals of Physics II (3-3). A comprehensive course with emphasis placed on the capacity to utilize fundamental concepts of electricity, magnetism, and optics in the solution of problems.
Prerequisites: Physics 1441 and credit for or parallel registration in Mathematics 2513.

3301 Introduction to Mathematical Physics (3-0). An introduction to specific mathematical topics as applied to standard problems in physics.
Prerequisite: Credit for or parallel registration in Mathematics 3514.

3303 Engineering Dynamics (3-0). A study of the kinematics and dynamics of particles and rigid bodies using the concepts of force, mass, and acceleration; work and energy; impulse and momentum.
Prerequisites: Mathematics 2513.

3331 Mechanics (3-0). Vectors, Newtonian mechanics, noninertial reference frames, central forces, systems of particles, rigid bodies, Lagrange’s equations, and oscillating systems.
Prerequisites: Physics 3301 and 3461.

3332 Thermal and Statistical Physics (3-0). A study of thermodynamics and statistical methods in physics with applications from classical and quantum physics.
Prerequisites: Physics 3301 and 3461.

3341 Electricity and Magnetism (3-0). Maxwell’s equations, electrostatics, magnetostatics, and electromagnetic waves.
Prerequisites: Physics 3301 and 3461.

3443 Electronic Instruments (3-3). A study of the basic electronic instruments and their uses in science. Laboratory emphasis on the applications of these instruments and their operation and maintenance.
Prerequisite: Physics 2442

3444 Digital Electronics (3-3). A study of the behavior of digital logic circuit elements, with an emphasis on applications in research instrumentation, industrial controls, and computer design.
Prerequisite: Computer Science 2305 or 3304 or Physics 2442.

3461 Modern Physics (3-3). An introduction to atomic physics, nuclear physics, and solid state physics.
Prerequisite: Physics 2442 and credit for or parallel registration in Mathematics 3514.

4191, 4291, 4391 Research. Individual research problems for superior students majoring in physics. (May be repeated for a total of six semester credit hours.)
Prerequisite: Junior standing.

1441/PHYS 2425 Fundamentals of Physics I (3-3). A comprehensive course with emphasis placed on the capacity to utilize the fundamental concepts of mechanics and thermodynamics in the solution of problems.
Prerequisite: Credit for or parallel registration in Mathematics 1561.
4300 Introduction to Geophysics (3-0). This course is an introduction to the geophysical methods used to explore the Earth’s subsurface with an emphasis on application. Topics include seismicity, ground penetrating radar, magnetics, gravity, and resistivity. (Credit may not be earned for this course and Geology 4300.)
Prerequisites: Geology 1401 and Mathematics 2513.

4362 Solid State Physics (3-0). Crystallography, x-ray diffraction, metals, insulators, electrical, and optical properties of semiconductors and low temperature techniques.
Prerequisites: Physics 3301 and 3461.

4363 Quantum Mechanics (3-0). A study of the fundamental principles of quantum theory with emphasis on both the Schroedinger and matrix formulations.
Prerequisites: Physics 3301 and 3461.

4452 Applied Optics (3-3). An experimental study of geometrical and physical optics with emphasis on current applications to physics and related fields of study.
Prerequisites: Physics 3301 and 3461.

4462 Applied Nuclear Physics (3-3). A study of the production and detection of radiation and its interaction with matter. Emphasis will be placed on nuclear radiation.
Prerequisites: Physics 3301 and 3461.

**Physical Science (PS)**

42 advanced hour requirement.)...........................................19

Graduation Requirement for Political Science Majors
Candidates for the Bachelor of Arts in Political Science are required to complete a Major Field Test (MFT) in Political Science in order to be eligible for graduation. Students may take this examination after completing all government requirements or in the semester immediately prior to graduation. The exam score will not affect GPA, but will be part of the student’s record.

Undergraduate Certificates Available in Political Science

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

Certificate – Law and the Constitution
(9 SCH required)
POLS 3309 The Supreme Court and the Judicial Process........3
POLS 4301 The Constitution and Constitutional Law............3
POLS 4302 Constitutional Rights and Liberties....................3

Political Science Internship
Political Science internships are available to qualified junior and senior students who are majoring in political science and have a minimum GPA of 2.00. If the student is accepted as an intern, an appropriate advanced course designed to prepare the student for intern duties will be taken the semester preceding the internship. During the semester of the internship, duties will be performed in an approved government or political agency, for which six semester hours of credit (Political Science 4671) will be received. The student will intern under the supervision of a member of the government faculty, and the work will involve a combination of practical work and research. The six semester hours of credit received for the internship will be in addition to the regular requirement of 36 semester hours for a major in political science. Application for the internship program must be made the semester before the advanced preparation course is taken. The applications can be obtained in the office of the Department of Political Science and Philosophy.

* Students who are interested in public administration careers should use the electives in the political science degree program to take the following courses: Communication 1351, Economics 2301, 2302, Psychology 2301, Sociology 1303, Accounting 2301, 2302, 3301. Also refer to the Political Science Internship section which follows.

* Political Science advanced courses as specified on the degree program.

Pre-Law

A student preparing for law school should complete a baccalaureate degree. A major in political science provides excellent pre-law preparation though numerous other majors are acceptable to most law schools. A pre-law student wishing to major in political science should consult the Political Science and Philosophy Department’s pre-law advisor, Dr. Tony Bartl, to be advised on the selection of a minor and electives.

Course Descriptions

Political Science (POLS)

Undergraduate Courses

2301/GOVT 2301 Federal and State Government (3-0). A study of the constitution and organization of agencies in the United States and Texas governments integrating the study of comparable agencies on both levels. Designed to fulfill certification requirements for prospective teachers as required by Texas law.

2302/GOVT 2302 Federal and State Government (3-0). A study of the functions of the various agencies in federal, state, and local governments. Court systems, foreign affairs, taxation, finance, city and county governmental functions, and other subjects are covered.

Satisfactory completion of Political Science 2301 and 2302 or equivalent credit is prerequisite to advanced political science courses (3000- and 4000-level courses).

3301 Scope and Methods (3-0). An overview of the major questions in the various social sciences that includes a principal focus on the fields of political theory, American, comparative and international politics. The course will also survey the major sources of social science information as well as the methods used to evaluate this information. (Required for all political science majors except those in the criminal justice program.)

3302 American Political Parties and Interest Groups (3-0). This course studies the development of the American political party system and organized interest groups with a focus on national and state-level organization, and their roles in campaigns, elections, public opinion, and voter mobilization. Additionally, this course will examine the influence of political parties and interest groups within our political institutions and on the policy-making process.

3303 State and Local Government (3-0). A general study of various principles and elements involved in state and local governments, with special consideration shown to federal-state relations, state constitutions, municipal charters, and administrative problems.

3305 Public Administration (3-0). A study of the fourth branch of government; its organization, personnel, finance, and methods of policy formation, with an analysis of problems accompanying an expanding bureaucracy.

3306 Non-profit Management (3-0). Public policy continues to expand beyond the public sector with non-profit organizations increasingly administering public funds and supervising programs that impact the community and society. The course will provide students with an overview of the challenges facing non-profit management from a public policy perspective. Students will learn all aspects of the non-profit management process.

3307 The U.S. Congress (3-0). This course is an analysis of the politics and legislative process of the U.S. Congress. Topics include policy-making, recruitment, party leadership, structure and influence of the committee system, and the legislative branch’s relationship with the presidency, Supreme Court, mass media, and voters.

3308 The American Presidency (3-0). An in-depth examination of the American presidency and the Chief Executive’s formal and informal roles within the American political system. Emphasis will be given to the evolution of the presidency, its power and constraints, organization of the White House, and the dynamics of the office including presidential character, governing style, and public conceptions of the office. This course will also address the effect the mass media and public opinion has had on the presidency and how the Oval Office has responded.

3309 The Supreme Court and the Judicial Process (3-0). This course will study of the United States Supreme Court as a political and legal institution and as the third branch of the federal government as established by the U.S. Constitution. It will also cover the federal and state court systems, the processes by which they operate, and the influence they have on public policy.

3311 American Political Culture (3-0). A study of the cultural context of American politics, the development and transmission of political attitudes and values, and the role of public opinion in the political process. (Credit may not be earned for this course and Sociology 3310.)
Political Science

3312 Understanding Asian Politics through Cinema (3-0). This course is designed to provide students with a greater understanding of Asian society and politics through film. By examining a series of social, cultural, and political events such as the Chinese revolution, Korean War, Meiji Restoration, Pacific War through cinema, students will gain a better understanding of the complexities of the political contours that have molded contemporary Asian societies. To facilitate this process of understanding, analysis, and discussion, this course incorporates readings, movies, and documentaries.

3313 American Campaigns, Elections, and Voting Behavior (3-0). An in-depth examination of the electoral process in the United States including analysis of the theoretical and practical importance of elections in the policy-making process, the techniques of professional campaign management and American voting behavior.

3315 Political Economy of Latin America (3-0). A study of the political economy of Latin America, especially with regard to the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Latin America. This course reviews and explores the key themes of Latin America’s relationship with the global political economy and raises questions about the nature of state action in Latin American countries.

3316 American Politics and Mass Media (3-0). This course is an overview of the influence of the mass media on the American political system. Specifically, it examines how the press defines what is newsworthy, shapes public opinion, affects the political behavior and decision-making of elected officials, and has become the “fourth branch” of government.

3317 Politics and Administrative Strategies (3-0). This course focuses on topics such as political rhetoric, strategic communications, agenda-setting, framing, priming, and selective exposure. Attention will also be given to the role of traditional and digital media in conveying political information to the public, political advertising, campaign strategies, and the management of political information during times of crisis or political scandals.

3318 Political Psychology and Behavior (3-0). This course examines the psychological aspects of American political phenomena. Topics include factors that influence political decision making, public opinion, voting behavior, and political participation and socialization.

3331 American Political Thought I (3-0). This course is a study of the thought and rhetoric of American political figures during critical moments in American history from the colonial period through the Civil War. Students will examine the relationship between the political actions they initiated.

3332 American Political Thought II (3-0). This course is a study of the thought and rhetoric of American political figures during critical moments in American history from the Civil War to the present. Students will examine the relationship between the political actions they initiated.

3335 Introduction to Political Concepts (3-0). This course will provide students with an introductory survey of the most basic and enduring concepts used throughout virtually every other area of political science, from comparative politics, through international relations to American political institutions. Concepts covered will include: Justice, Liberty, Power, Equality, Human Nature, Democracy, the Nation, the State, Ideology, Civil Society, and Globalization.
3341 Comparative Political Systems (3-0). A comparative study of modern post-industrial societies and the third world. The course content will alternate between the analysis of the major political systems in Europe and the study of developing areas such as Africa, Asia, and Latin America. (The course may be repeated once for credit when the topic varies.)

3343 Political Economy of Globalization (3-0). This course is an introduction to the politics of globalization. It provides students with analytical tools to better understand the multi-dimensions and its impact on contemporary world politics. The course also discusses the controversy surrounding the consequences of globalization.

3347 Politics of China (3-0). China is the world’s most rapidly growing economy and it has already become the second largest economy in the world. It is also the largest and most powerful communist nation in the world. China’s extraordinary success in economic reform and the potential political challenges it faces, make exploration of the world’s most populous country essential for today’s students. This course is an introduction to the politics of China. Topics include Chinese communist ideology, the institutions and processes of the Chinese political system, and the significant issues of recent political history.

3351 International Relations (3-0). A study of international relations since World War II, which examines changing global economic and political systems and important contemporary international issues.

4301 The Constitution and Constitutional Law (3-0). This course looks at the U.S. Constitution and how it has structured political life in America for more than 225 years. Students examine the principles of separation of powers and federalism, exploring the claims of the authority of each of the three “departments of power”—legislative, executive, and judicial—as well as the division of power between the national and state governments. In addition to reading the Constitution itself, students will study the relevant opinions of the Supreme Court and other insightful or authoritative commentaries on the Constitution.

4302 Constitutional Rights and Liberties (3-0). This course studies the specific limits placed on governmental power in the “bill of rights” and other sections of the Constitution, as well as the limits derived from less specific phrases in the 14th Amendment. These rights and liberties include the freedoms of religion and conscience, speech and press, the right to keep and bear arms, the rights of property, the procedural rights of the criminally accused, as well as the rights and liberties found in the ideas of “due process” and “equal protection” of the laws. The Supreme Court and its opinions are the focus of this course, but additional commentary will also be consulted.

4310 Current Issues in Public Policy (3-0). This course focuses on relevant areas of public policy in the American political system. It will examine the social, political, cultural, and economic underpinnings of public policy and how it is developed and implemented. (This course may be repeated for credit when the topic varies.)

4311 Urban Problems and Public Policy (3-0). A study of issues and research areas in selected urban problems and the development of public policy in response to these problems.

4321 Comparative Political Economy (3-0). This course is an introduction to comparative political economy with an eye to the influence of political and institutional factors on economic performance. The course will examine, among others, the following questions. (1) Why do countries differ so much in their level of economic development? and (2) Why do countries adopt distinctive economic policies?

4331 Classical Political Philosophy (3-0). A study of Greek, Roman and medieval thinkers from Socrates to Machiavelli. (Credit may not be earned for this course and Philosophy 4331.)

4332 Modern Political Philosophy (3-0). A study of modern political thought from Hobbes to Nietzsche. (Credit may not be earned for this course and Philosophy 4332.)

4333 Contemporary Political Philosophy (3-0). A study of contemporary political thinkers from the beginning of the 20th Century to the present. (Credit may not be earned for this course and Philosophy 4333.)

4334 Existentialist Approaches to Political Violence: Kierkegaard to Sartre (3-0). A survey of debate concerning political violence from the middle of the nineteenth century to the present. (Credit may not be earned for this course and Philosophy 4334.)

4341 Political Economy of East Asia (3-0). Throughout the last half century, East Asia has attracted great scholarly attention with its extraordinary economic growth, political transformation, and the consequent security challenges. This course is designed to provide a comprehensive understanding of politics in the region, paying special attention to the interplay between politics and the economy.

4351 United States Foreign Policy (3-0). An examination of the processes of formulating and conducting United States foreign policy, the factors that influence foreign policy, and the objectives and instruments of such policy.

4353 International Relations of the Western Hemisphere (3-0). A study of the evolving international relations in the Western Hemisphere, especially with regard to political, economic, and security issues pertinent to U.S. foreign policy and foreign relations in the region.

4354 International Relations of Europe (3-0). A study of the evolving international relations of Europe in the post-World War II era with particular attention given to contemporary political, economic, and security issues of the region.

4381 Special Topics (3-0). A course dealing with selected topics in political science. (May be repeated once for credit when topic varies.) Prerequisite: Junior standing.

4391 Research. A specialized course which may be directed reading or research for exceptional students majoring in political science.

4671 Internship in Political Science. The student will be assigned to work in a unit of government. A research paper dealing with the internship experience written under the direction of a faculty member will be required. Prerequisites: Political Science major, junior/senior status, and departmental approval.

Graduation Requirement for the Major

Candidates for the Bachelor of Arts or the Bachelor of Science degree in Psychology or Sociology are required to successfully complete an exit exam in Psychology or Sociology in order to be eligible for graduation. Students may take this examination after completing all major requirements or in the semester immediately prior to graduation. The exam score will not affect GPA, but will be part of the student’s record.
Internships are available during the fall and spring semesters to qualified students who have (a) completed at least 15 credit hours in psychology and (b) have a cumulative GPA of at least 2.50. Upon acceptance as an intern, a faculty coordinator from the Department of Psychology, Sociology, and Social Work will consult with an appropriate representative of a human service agency or entity in the San Angelo area to arrange an internship assignment for the following fall or spring semester. Duties will be performed for the agency or entity under the supervision of the faculty coordinator and an appropriate representative from the field setting. The intern will be evaluated by the faculty coordinator and the field-setting supervisor. Three semester hours of credit will be received for successful completion of 150 clock hours of internship experience, and six semester hours of credit will be received for successful completion of 300 clock hours. A maximum of three of these semester credit hours may be counted toward a major in Psychology. To receive credit toward the major, psychology majors should register for Psychology 4371 or 4671. Students cannot receive credit for both internships. Admission to the internship requires approval by the internship coordinator and the Chair of the Department of Psychology, Sociology and Social Work. Applications may be obtained in the main office of the Department.

Pre-Physical Therapy

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy Program is available for periodic (one per year is sufficient) counseling during a student's undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

Undergraduate Certificates Available in Psychology

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a "C" in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

Certificate - Human Development

(12 SCH required)

PSY 2304 Developmental Psychology 3
PSY 3315 Child Psychology 3
PSY 3319 Adolescent Psychology 3
PSY 4331 Psychology of Aging 3

Certificate - Human Diversity

(12 SCH required)

COMM 3355 Intercultural Communication 3
PSY 3323 Cultural Psychology 3
PSY 3325 Psychology of Stereotypes, Prejudice, and Discrimination 3
SOC 3327 Human Diversity and Social Inequality 3

Certificate - Mental Health: Problems and Prevention

(12 SCH required)

PSY 3313 Introduction to Counseling Psychology 3
PSY 4305 Abnormal Psychology 3
PSY 4313 Behavioral Neuroscience 3
PSY 4335 Health Psychology 3

Certificate - Organizational Psychology

(12 SCH required)

PSY 2305 Social Psychology 3
PSY 3307 Motivation 3
PSY 3309 Industrial-Organizational Psychology 3
PSY 3311 Psychological Testing 3

Internship in Psychology

Internships are available during the fall and spring semesters to qualified students who have (a) completed at least 15 credit hours in psychology and (b) have a cumulative GPA of at least 2.50. Upon acceptance as an intern, a faculty coordinator from the Department of Psychology, Sociology, and Social Work will consult with an appropriate representative of a human service agency or entity in the San Angelo area to arrange an internship assignment for the following fall or spring semester. Duties will be performed for the agency or entity under the supervision of the faculty coordinator and an appropriate representative from the field setting. The intern will be evaluated by the faculty coordinator and the field-setting supervisor. Three semester hours of credit will be received for successful completion of 150 clock hours of internship experience, and six semester hours of credit will be received for successful completion of 300 clock hours. A maximum of three of these semester credit hours may be counted toward a major in Psychology. To receive credit toward the major, psychology majors should register for Psychology 4371 or 4671. Students cannot receive credit for both internships. Admission to the internship requires approval by the internship coordinator and the Chair of the Department of Psychology, Sociology and Social Work. Applications may be obtained in the main office of the Department.

Course Descriptions

Psychology (PSY)

Undergraduate Courses

1303/PSYC 2315 Psychology of Adjustment (3-0). A study of the dynamics of human behavior from a life adjustment approach. Representative topics include stress management, understanding personality, love, marriage, human sexuality, and death and bereavement. Credit may not be applied to a major or minor in psychology.

2301/PSYC 2301 General Psychology (3-0). Introduction to the scientific study of factors underlying behavior. In addition to the physiological bases of behavior, other factors such as intelligence, learning, motivation, emotion, and perception are covered.

2304 Developmental Psychology (3-0). A study of psychological, social, cultural, physical and emotional factors in personality development and behavior. Emphasis will be given to developmental changes from conception through death.

Prerequisite: Psychology 1303 or 2301.

2305/PSYC 2319 Social Psychology (3-0). A survey of environmental forces as they affect individual and group behavior. Topics to be studied include subcultural influences, group dynamics, attitude change, interpersonal attraction, prosocial behavior and health. (Credit may not be earned for this course and Sociology 2305.)

Prerequisite: Psychology 2301 or Sociology 2301.

2321 Research Methods and Statistical Analysis (3-0). A survey of experimental and non-experimental methods of gathering data as well as the statistics required to analyze this data. Analyses include measures of central tendency and variability, correlation, regression, standard scores, t-tests, analysis of variance, and chi square.

3301 Experimental Psychology (3-0). This course seeks to provide an integrated blend of content and methodology in representative areas of experimental psychology, with methods discussed in the context of actual research. Some representative areas include psychophysics, perception, learning, memory, problem solving, and human factors.

Prerequisite: Psychology 2301.

3303 Learning and Memory (3-0). A study of the principles of learning and memory and how they relate to understanding behavior. The course will review theories of classical and instrumental conditional conditioning, biological constraints on learning and memory, memory formation, thinking and language.

Prerequisite: Psychology 2301.

* Students must choose 15 hours from the following: PSY 2304, 2305, 3301, 3303, 3307, 4301, 4303, 4305, 4309, or 4313.
** Must be advanced course work if needed to meet advanced hour requirement.

### 3307 Motivation (3-0)
A study of theories and research on biological and acquired motives in humans. Topics include emotions, hunger, sex, aggression, achievement, affiliation, and power.
Prerequisite: Psychology 2301.

### 3309 Industrial-Organizational Psychology (3-0)
A study of the methods and principles of psychology applied to work situations. Emphasis will be placed on leadership, communication, job satisfaction, performance evaluation, consumer problems, and productivity.
Prerequisite: Psychology 2301.

### 3311 Psychological Testing (3-0)
A survey of a wide variety of both group and individual psychological tests. Students will be introduced to personality, intelligence/aptitude, vocational interest, and achievement instruments that are frequently used. Technical considerations associated with test validity, reliability, objectivity, and standardization will be considered.
Prerequisites: Psychology 2301 and 2321 (or equivalent).

### 3313 Introduction to Counseling Psychology (3-0)
An introduction to the history and profession of counseling and a survey of the major counseling theories.
Prerequisite: Psychology 2301.

### 3315 Child Psychology (3-0)
A study of physical, cognitive and social development from birth through childhood. Topics include child development, bonding, parenting styles, abuse, divorce, day care, and the role of genetic and environmental factors in the development of individual differences and similarities.
Prerequisite: Psychology 2301.

### 3317 Applied Psychology (3-0)
This course provides a survey of the career fields in psychology and the skills needed to select and pursue them. Career options will be considered at the bachelor’s, master’s and doctoral levels. Also, the steps involved in applying to graduate school will be addressed.
Prerequisite: Psychology 2301.

### 3319 Adolescent Psychology (3-0)
An examination of the physical, cognitive, and social development of adolescents, as well as the influence of contextual factors. Includes critical thinking about developmental processes, theories, concepts, and research.

### 3321 Intermediate Statistics and Research Methods (3-0)
Further experience with research design and the analysis, interpretation, and presentation of data. Students will gain experience with statistical software for data analysis.
Prerequisites: Psychology 2301 and 2321.
Graduate Program

Master of Science (M.S.)
Psychology

The Department of Psychology, Sociology and Social Work offers graduate course work leading to the Master of Science degree in psychology with programs in applied psychology, counseling psychology, or industrial-organizational psychology. A thesis or non-thesis option is available in all programs.

The programs in psychology must be initiated under the direction of a departmental graduate advisor and approved by the Chair of the Department and the Dean of the College of Graduate Studies.

The graduate programs in psychology are designed to meet the needs of:

- Students preparing for professional careers in applied psychology, counseling psychology, or industrial-organizational psychology.
- Students preparing for careers in professional counseling as licensed professional counselors or as licensed psychological associates.
- Students preparing for advanced graduate studies in psychology.
- Students preparing for a teaching career in higher education.

The Master of Science degree is offered in three program areas.

I. Master of Science in Applied Psychology

Thesis or Non-Thesis Option (36 SCH): The student must complete a minimum of 30 SCH of graduate-level work in psychology and six additional SCH of graduate-level work in psychology or supporting electives. The psychology courses must include 6314; three courses from 6303, 6311, 6330, 6332, 6334, 6336, 6341, 6342, 6347; and for Thesis students 6699 (Thesis) or 6399 (Thesis) twice. Courses for the remaining 18 (Thesis) or 24 (Non-Thesis) hours in psychology or supporting electives are unspecified but must be approved by the student’s graduate advisor.

II. Master of Science in Counseling Psychology

A. Thesis Option (48 SCH): The student must complete a minimum of 48 SCHs of graduate-level work in psychology and courses must include 6307, 6309, 6314, 6322, 6323, 6325, 6329, 6347, 6351, 6315 or 6326, 6371 twice or 6671, 6399 (Thesis) twice or 6699 (Thesis), and six credit hours of electives.

B. Non-Thesis Option (48 SCH): The student must complete a minimum of 48 SCHs of graduate level work in psychology and courses must include 6307, 6309, 6314, 6322, 6323, 6325, 6329, 6347, 6351, 6315 or 6326, 6371 twice or 6671, and twelve credit hours of electives (six of which must be in psychology.)

Completion of the degree requirements satisfies the academic requirements for the Texas State Board of Examiners of Licensed Professional Counselors (LPC) and the Texas State Board of Examiners of Psychologists for Licensed Psychological Associate (LPA). However, those seeking the LPA should complete nine credit hours of practicum rather than the required six credit hours. For additional information about other requirements for LPC or LPA licensure, students should contact the state boards.

III. Master of Science in Industrial-Organizational Psychology

Thesis or Non-Thesis (42 SCH): The student must complete a minimum of 36 SCHs of psychology course work and 6 additional SCH of graduate-level work in supportive electives. The psychology courses must include 6313; at least one course from the following list (6303, 6311, 6341), all seven of the following courses (6350, 6352, 6356, 6358, 6360, 6362, 6363), and either six credit hours of thesis (6399 twice or 6699) for students in the thesis option, or six credit hours of practicum (6372 twice or 6672) for students in the non-thesis option. The remaining 9 credit hours, at least 3 of which must be in psychology, are unspecified but must be approved by the graduate advisor.

Facilities

The Department of Psychology, Sociology and Social Work offers the opportunity for students to earn the Master of Science degree in psychology with emphasis in applied psychology, counseling psychology, and industrial-organizational, or psychology. Angelo State University and the surrounding San Angelo community provide a range of facilities that make graduate study in psychology a significant experience. Graduate programs in psychology are supported by an expanding collection of library books and research journals, and modern computer facilities and individual or classroom research projects.

The Department makes a variety of specialized measurement and research instruments available for independent study and for students who choose to do thesis research.

Practicum experience is required for students in the counseling psychology program. A variety of agencies in the community of San Angelo provide excellent opportunities for students to fulfill this requirement in a professionally rewarding way.

Psychology

(continued from previous page)

Graduate Certificates Available in Psychology

All graduate certificate programs require an overall 3.00 grade point average and a grade of at least a “B” in each required class. All coursework for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

Certificate - Mental Health Interventions
(15 SCH required)
The following 12 SCH are required.

<table>
<thead>
<tr>

Completion of the certificate alone DOES NOT satisfy the academic requirements for the Texas State Board of Examiners of Licensed Professional Counselors (LPC) or the Texas State Board of Examiners of Psychologists for Licensed Psychological Associate (LPA). For information about requirements for LPC or LPA licensure, students should contact the state boards.

3323 Cultural Psychology (3-0). A study of the role of cultural norms in psychological and behavioral diversity. Topics include immigration, globalization, and the influence of socio-cultural forces on similarities and differences in human thought, emotion, personality, and behavior.
Prerequisite: Psychology 2301.

3325 Psychology of Stereotypes, Prejudice, and Discrimination (3-0). An introduction to theories and empirical research concerning stereotypes, prejudice, and discrimination. This course explores a variety of perspectives regarding stigmatized groups.
Prerequisite: Psychology 2301.

3327 Psychology of Leadership (3-0). An examination of classic and contemporary theories of leadership, including their evolution and an analysis of strengths and weaknesses. Applications are made to real-world leaders and a critique of their effectiveness. Topics include leadership styles, personality, self-analysis, and perspectives of leadership across diverse individuals, groups.
Prerequisite: Psychology 2301.

3329 Educational Psychology (3-0). An introduction to the field of educational psychology, including the theoretical and applied aspects of learning, motivation, human development, personality, and evaluation. Information from different branches of psychology is integrated to fit a variety of contexts, such as human services, education, occupational, legal, medical, and recreational.
Prerequisite: Psychology 2301.

4191 Research. Practice in planning, conducting, and/or reporting laboratory, field, or library research. (May be taken three times for credit.)
Prerequisite: Psychology 2301.

4301 Personality (3-0). A study of the theories of personality formation and development. Considers the individual as a social and biological organism and relates both sets of factors to the development of personality.
Prerequisite: Psychology 2301.

4303 History of Psychology (3-0). A study of the historical origins of psychology, the effect of science, contributing schools of psychology, and psychological theories.
Prerequisite: Psychology 2301.

4305 Abnormal Psychology (3-0). This course is designed to provide an understanding of normal versus abnormal behavior. In addition, the characteristics, etiology, and treatment of psychological disorders affecting adults will be reviewed.
Prerequisite: Psychology 2301.

4309 Cognition (3-0). A study of higher level intellectual processes, including attention, knowledge representation, problem solving, decision making, expertise, and language.
Prerequisite: Psychology 2301.

4313 Behavioral Neuroscience (3-0). A study of the interaction between the nervous systems and behavior. Representative topics include the structure and function of the nervous system, learning and memory, neurological/neuropsychiatric and language disorders, sleep and waking, aggression and effects of abused drugs.
Prerequisite: Psychology 2301.

4315 Child and Adolescent Psychopathology (3-0). This course is designed to provide an understanding of the characteristics, etiology, and treatment of psychological disorders affecting children and adolescents.
Prerequisites: Psychology 2301 and 4305.

4317 Current Issues in Applied Psychology (3-0). Topics of recent interest in the applied fields of psychology will be discussed, including stress and its management, human spiritually, death and dying, and ramifications of special circumstances such as divorce, loss of love, and developmental disabilities.
Prerequisite: Psychology 2301.

4319 Drugs and Behavior (3-0). A study of the various drugs of abuse, both legal and illegal. Consideration of drug use and misuse, the political and social ramifications, and drug abuse prevention and treatment.
Prerequisite: Psychology 2301.

4321 Seminar in Psychological Research (3-0). A step-by-step guide to conducting research on contemporary topics in Psychology. Students will develop hypotheses, design a study, collect data, statistically analyze the data, interpret the results, and write and present a research report.
Prerequisites: Psychology 2301, 2321, and 3321
4323 **Advanced Social Psychology (3-0).** An in-depth study of selected topics in social psychology, emphasizing classic and contemporary readings.
   Prerequisite: Psychology 2305 or Sociology 2305.

4325 **Professional Ethics (3-0).** A study of values, standards, and ethical ideas that guide professional applications of psychology in teaching, research, and practice, including an in-depth exploration of ethical principles and professional codes of conduct.

4327 **Human Sexuality (3-0).** Provides a biopsychosocial perspective on human sexuality across the lifespan. Topics include the male and female sexual anatomy/physiology, multicultural perspective of sexuality, sexual behavior, sexual orientations, sexuality across the life cycle, the prevention and treatment of sexuality problems, and social problems related to human sexuality.

4331 **Psychology of Aging (3-0).** A study of psychological perspectives of aging and applications. Topics include cognitive and biological changes, psychopathologies and physiological maladies that are unique to this population, healthy ways to manage this developmental stage, and intervention strategies.
   Prerequisite: Psychology 2301.

4335 **Health Psychology (3-0).** A study and application of contemporary theories and research in health psychology. Emphasis is on the interplay of biological, psychological, and social factors in relation to illness and wellness. Topics include pain and its management, behavioral factors in cardiovascular disease, weight management, alternative methods of healing, and connections between stress and disease.
   Prerequisite: Psychology 2301.

4371, 4671 **Internship in Psychology.** The student will be assigned to work in a human service agency. (Psychology 4371 may be repeated once.)
   Prerequisite: Completion of 15 semester credit hours in undergraduate psychology, department selection.

4381 **Special Topics (3-0).** Selected topics in psychology. (May be repeated once for credit when topic varies.)
   Prerequisite: Junior standing.

4391 **Research.** A specialized course which may be directed reading or research for superior students majoring in psychology. (May be repeated once for credit.)
   Prerequisite: Junior standing.

### Graduate Courses

**A maximum of two 5000-level courses totaling no more than eight semester credit hours may be taken for graduate credit by graduate students and applied to the graduate degree plan. Permission of the Graduate Advisor or Chair of the Department and the Graduate Dean is required.**

4391 **Research.** A specialized course which may be directed reading or research for superior students majoring in psychology. (May be repeated once for credit.)
   Prerequisite: Junior standing.

---

* **5325 Professional Ethics (3-0).** A study of values, standards, and ethical ideas that guide professional applications of psychology in teaching, research, and practice, including an in-depth exploration of ethical principles and professional codes of conduct. Course meets concurrently with Psychology 4325 but requires additional readings, papers, discussions, and/or presentations for graduate students.
   Prerequisite: Permission of graduate advisor and dean.

**5331 Psychology of Aging (3-0).** A study of psychological perspectives of aging and applications. Topics include cognitive and biological changes, psychopathologies and physiological maladies that are unique to this population, healthy ways to manage this developmental stage, and intervention strategies. Course meets concurrently with Psychology 4331 but requires additional readings, papers, discussions, and/or presentations for graduate students.
   Prerequisites: Psychology 2301. Permission of graduate advisor and dean.

**5335 Health Psychology (3-0).** A study and application of contemporary theories and research in health psychology. Emphasis is on the interplay of biological, psychological, and social factors in relation to illness and wellness. Topics include pain and its management, behavioral factors in cardiovascular disease, weight management, alternative methods of healing, and connections between stress and disease. Course meets concurrently with Psychology 4335 but requires additional readings, papers, discussions, and/or presentations for graduate students.
   Prerequisite: Permission of graduate advisor and dean.

**5381 Special Topics (3-0).** Selected topics in psychology. (May be repeated once for credit when topic varies.) Course meets concurrently with Psychology 4381 but requires additional readings, papers, discussions, and/or presentations for graduate students.
   Prerequisite: Permission of graduate advisor and dean.

6302 **Core Concepts in Psychological Science.** (3-0). A survey of the major areas of psychological science. Core topics include human social behavior, personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, decision-making, language, motivation, emotion, stress and health, cross-cultural psychology, animal behavior, and applied psychology.

6303 **Social Psychology (3-0).** A study of the development and modification of human interaction, including topics such as social motives, social influence, aggression, attraction, attitudes, and group processes.

6307 **Psychopathology (3-0).** Survey of biological, psychological, and sociocultural factors associated with selected behavior pathologies of childhood, adolescence, and adulthood.

6309 **Cognitive-Behavioral Therapy (3-0).** A study of clinical application of cognitive-behavioral therapies, techniques and interventions to a wide range of mental and emotional problems. The course will also examine some brief therapy approaches and techniques.

6311 **Theories of Personality (3-0).** An in-depth review of the major contemporary theories of human personality and the empirical research related to each. Applications are made about the role of personality in a variety of contexts.

6313 **Research Design and Analysis (3-0).** An investigation of and practice in research methods and analysis. The focus is on the statistical analysis of various research designs including univariate analysis of variance, multiple means tests, complex comparisons, regression, analysis of covariance and computer applications. A research paper incorporating the above material is required.
6314 Research Methods (3-0). An in-depth treatment of non-experimental, quasi-experimental, and true experimental (or randomized) designs focusing on advantages and disadvantages of each. Special emphasis is placed on how the various research designs are related to generalized causal inference and the common misinterpretations connected with these inferences and associated statistical analyses.

6315 Marriage and Family Counseling (3-0). Examination of current issues, theories, and therapeutic techniques in the field of marriage and family counseling.

6321 Individual Intellectual Assessment (3-0). A study of standardized individual measures of intelligence. While primary emphasis is placed on the administration, scoring and interpretation of the Wechsler scales of intelligence, students will be exposed to several other measures of intelligence and related abilities in adults, adolescents and children. Clinical interviewing and report writing are also emphasized.

6322 Psychological Assessment (3-0). A study of widely-used measures of personality and intelligence. Students will gain experience in conducting interviews and behavioral observations, and they will learn how to administer, score and interpret a variety of psychological tests. Students will also gain experience in writing professional reports.

6323 Counseling Theories (3-0). Exploration of the major theories of individual and group counseling and psychotherapy. The empirical support for common therapeutic factors will also be examined. The focus will be on gaining an understanding of the principles of each theory and evaluating empirical support for each perspective.

6324 Group Counseling (3-0). Review of the major theories and techniques of group counseling. Pre-practicum application of selected group counseling methods.

6325 Counseling Methods and Techniques (3-0). Knowledge and application of conceptual and practical skills needed for individual and group counseling. Emphasis is placed on working within an evidence-based treatment model of selecting and applying interventions. Designed to prepare students for practicum.

6326 Counseling with Minorities (3-0). A descriptive and comparative analysis of classical counseling theories as they apply to ethnic and cultural diversity. An exploration of nontraditional counseling techniques for individuals of different racial, cultural, or socioeconomic status.

6327 Therapy With Children and Adolescents (3-0). A study of clinical interventions which integrates multicultural and relational approaches in therapy with children and adolescents. Emphasis is placed on translating conceptualizations of client’s problems into specific treatment plans and interventions. The course examines various disorders including depression, anxiety, attention deficit/hyperactivity, eating disorders, and conduct disorders.

6329 Professional Orientation to Counseling (3-0). An introduction to the counseling profession including specialty areas. This course introduces students to the role and function of counselors and related professions in various areas of practice. The history of counseling, professional goals and objectives, ethical standards, legal issues, professional trends, professional associations, credentialing, and the academic preparation of counselors are covered.

6330 Applied Economic Psychology (3-0). A study of how psychological principles, knowledge, and research methods are used to address a wide range of economic behavior, solve practical economic problems and inform public policy.

6332 Social Perception (3-0). Using the social psychological perspective, this course is a study of how people perceive, relate, and interact with others in their social environment.

6334 Environmental Psychology (3-0). A review of research and theory on transactions between people and physical environments emphasizing adaptation, opportunities for goal-directed action, and sociocultural processes. Topics include human territoriality, personal space, crowding, environmental stressors, and person-environment perspectives of social interaction and group processes.

6335 Health and Wellness Psychology (3-0). The application of psychology to the prevention and treatment of illness using a biopsychosocial perspective. Topics include stress and its management, pain and its management, epidemiology of cardiovascular disease and cancer, alternative methods of healing, exercise and applied clinical nutrition.

6336 Psychology of Chemical Dependency (3-0). A study of substances of abuse, their biological and psychological effects, and intervention strategies for chemical dependency.

6337 Forensic Psychology (3-0). A study of the interface between psychology and the legal system, including the contribution of psychology to legal topics and legal standards. Selected topics include psychological assessment, psychopathology, competency to stand trial, insanity, civil commitment, and the impact of legal standards and ethical considerations on psychological practice.

6338 Educational Psychology (3-0). An overview of the field of educational psychology, focusing on cognitive, social, and motivational aspects of efficient learning in a variety of settings, such as the workplace and the classroom. Special emphasis is given to interventions that enhance cognition, effortful task engagement, and the environmental contexts in which learning takes place.

6341 Advanced Learning (3-0). A detailed study of current perspectives of classical conditioning, instrumental conditioning, social learning, and biological constraints on learning. Emphasis is on theoretical approaches to these types of learning.

6342 Cognitive and Behavioral Neuroscience (3-0). An in-depth investigation of the principles of neuroscience and how they relate to cognition and behavior. Emphasis will be placed on the cellular and chemical bases of neural activity and how this activity is reflected in both normal and abnormal behavior.

6343 Employee Assistance Counseling (3-0). A study of counseling techniques within the context of Employee Assistance (EA) programs. Topics include EA careers and professional affiliations, the range of EA services in the workplace, intervention techniques, and ethics and codes of conduct. Issues in mental health counseling include substance abuse, emotional distress, health care concerns, financial and legal concerns, interpersonal conflict resolution, workplace safety concerns, and adjustment to major life events such as births, accidents, and deaths.
6345 Advanced Psychological Assessment (3-0). Involves the practical application of a variety of psychological assessment techniques. Students will be required to administer, score, and interpret psychological test batteries, and they will also provide appropriate feedback of the test results. In addition, treatment planning will be emphasized.
   Prerequisite: Psychology 6322.

6347 Developmental Psychology (3-0). A course that will study the various levels of life span in human beings. An integrated approach involving genetics and environmental factors will be used to assess each stage of development.

6350 Organizational Psychology (3-0). The study of human behavior in organizations, primarily at the group level. Topics include values and attitudes such as job satisfaction, personality at work, group behavior, teams, leadership, organizational structure and theory, organizational culture and climate, and conflict.

6351 A Survey of Vocational Counseling Methods (3-0). A course designed to analyze vocational theory and career development and explore principles related to vocational decision making. Selected vocational assessment batteries will be used to help students gain familiarity with vocational tests.

6352 Personnel Selection (3-0). A review of techniques and strategies for effectively matching individuals with organizations. Topics include job analysis, the measurement of individual differences, strategies for making selection decisions, legal issues related to selection, and an evaluation of common selection tools such as interviews and ability tests.

6353 Theory and Techniques of Consultation (3-0). An examination of the consultation process, including the role of the consultant, stages in consultation, the development of consulting skills, and political/ethical issues.

6354 Seminar in Industrial-Organizational Psychology (3-0). An overview of the professional psychologist at work in organizations. Topics include research issues, personnel issues, organizational issues, and ethical and legal issues.

6356 Training and Performance Evaluation (3-0). A focused exploration of training and performance evaluation in organizations. Emphasis will be placed on needs assessments, training theory, training planning and design, training evaluation, and performance evaluation techniques.

6357 Motivation, Emotion, and Stress (3-0). A detailed analysis of current theory in motivation, emotion, and stress as they relate to the modern workplace. Emphasis will be placed on theoretical knowledge, measurement, and applications of these topics using current literature in the field.

6358 Applied Research Methods (3-0). An examination of the methods and statistics commonly used when conducting research in applied settings. Topics will include qualitative data collection and analysis, quasi-experimental designs, organizational survey research, longitudinal designs and program evaluation.

6359 Attitude Theory in Organizations (3-0). A survey of important work-related attitudes in organizations. Emphasis will be given to the development, maintenance, and effects of these attitudes with respect to critical organizational outcomes. Examples of such attitudes are job satisfaction, organizational citizenship, and counterproductivity.

6360 Leadership (3-0). This course will familiarize the student with the content domain of leadership including theories, research, problems, and controversies. Fundamental issues of description, identification, conceptualization, and measurement will be addressed. Both historical and contemporary views of leadership in organizations will be investigated.

6361 Seminar in Teaching of Psychology (3-0). A course designed for students who have a strong interest in pursuing careers involving the teaching of psychology. Emphasis will be placed on the preparation and presentation of course content and the evaluation of student achievement. Students receive supervised experience in teaching an introductory course in psychology.

6362 Basic Experimental Methodology (3-0). This course will involve a focused treatment of basic methodological skills and knowledge pertaining to I-O psychology, including internal/external validity, sampling theory, scale construction and validation, and basic consultation skills regarding these issues.

6363 Advanced Experimental Methodology (3-0). This course will involve a focused treatment of advanced methodological skills and knowledge pertaining to I-O psychology, including complex research designs, quasi-experimental designs, time-series designs, and other uncommon approaches.

6371, 6671 Practicum in Counseling Psychology. Students may complete up to nine credit hours of supervised practical experience in applying the techniques of psychological appraisal and counseling. Each three credit hours requires 150 clock hours in a supervised practicum setting. (Psychology 6371 may be repeated twice, but the total practicum credits may not exceed nine.)
   Prerequisites: Psychology 6307, 6323, 6325, 6329.

6372, 6672 Practicum in Industrial-Organizational Psychology. Six semester hours of supervised practice in applying psychological skills in organized settings. (Psychology 6372 may be repeated once).

6381 Special Topics (3-0). A course dealing with selected topics in psychology. (May be repeated once for credit when topic varies.)
   Prerequisite: Permission of instructor.

6391 Research. A specialized course of individual research or directed reading. (May be repeated once for credit.)
   Prerequisite: Permission of instructor.

6399 Thesis.
   Prerequisite: Psychology 6313 or 6314.

6699 Thesis.
   Prerequisite: Psychology 6313 or 6314.
Graduate Programs

Master of Security Studies (M.S.S.)

Security Studies

The Master of Security Studies degree is designed to increase students knowledge of important issues critical for an understanding of today’s complex international environment in which state and non-state actors interact. The courses will increase the students’ critical thinking and analytic skills in political culture and comparative security policy. The degree is offered solely online.

Admission Requirements

All applicants for the M.S.S. program must hold a bachelor’s degree from an accredited college or university. All potential graduate students are evaluated on an individual basis. All potential graduate students must submit all related materials requested in the evaluation criteria. The evaluation criteria include the following:

- Undergraduate academic record (transcripts of all undergraduate course work);
- 2.75 undergraduate GPA or 3.00 in the last 60 hours of undergraduate course work;
- At least two letters of recommendation;
- An essay of no more than 750 words regarding your opinion of the single most important challenge to U.S. national security written in endnote or footnote format. Outside sources may be used.

Specialization Area

Prescribed Electives

Students must choose nine semester credit hours from the national security or nine semester credit hours from the regional security specialization area.

Electives *

Elective hours may be taken from the national security or regional security specialization area, or in some combination of each.

* Thesis Option

Students wishing to take the thesis option will be required to take the 12 hours of required courses, 9 hours of prescribed electives, a course for writing the thesis (SEC 6699), and an additional 9 semester credit hours of electives. The additional 9 semester credit hours must be taken in either the national security or regional security or in some combination of each.

* Non-Thesis Option

Students wishing to take the non-thesis option will be required to take the 12 hours of required courses, 9 hours of prescribed electives, and an additional 15 semester credit hours of electives. The additional 15 semester credit hours must be taken in either the national security or regional security or in some combination of each.

(continued on next page)
Specialization Areas

Students will evaluate how changes in the national intelligence community oversight and civil liberties; role of policymakers; and intelligence reform. Such as warning and surprise; denial and deception; covert action; processing, analysis, and dissemination. It also covers key aspects of intelligence for this course. The integration of the National Intelligence Community in its history. The mandated following the attacks on 9/11 created the most fundamental shift in the National Intelligence Community in its history. The course deals with many of the theoretical approaches and debates relating to world politics. The studies will include the origination and causes of conflict, deterrence and coercion (in both theory and practice), diplomacy and international dynamics, and an examination of the growing list of transnational issues. The course deals with many of the theoretical works in the field as well as numerous case studies that deal with the national security issues impacting current world politics and international security.

This basic introduction to the field of security studies. This course will help the student examine the recent history of security studies. The student will learn about many of the key issues addressed in detail include: 1) The national security decision making process, particularly as it relates to issues of international and homeland security; 2) Civil-military relations as applicable in the development of strategy and statecraft; 3) An analysis of how nation-states develop military operational capabilities and readiness; and 4) The differing strategies for international conflict, including both conventional and unconventional warfare.

This course gives students key insights into the basic elements of grand strategy and how these tie into Security Studies. The course gives students a unique baseline of knowledge that will be important as students move into the other aspects of the Security Studies program. Key issues addressed in detail include: 1) The national security decision making process, particularly as it relates to issues of international and homeland security; 2) Civil-military relations as applicable in the development of strategy and statecraft; 3) An analysis of how nation-states develop military operational capabilities and readiness; and 4) The differing strategies for international conflict, including both conventional and unconventional warfare.

This course examines how globalization affects the policies, economics, societies, and militaries of both state and non-state actors on the regional and world stage. While globalization has had many benefits since the end of World War II, it has also created “haves and have nots,” radical religious and political ideologies, and ethnic conflict in regions affecting the national security of the developed world. This course will conduct studies examining how the interconnected world creates differing realities for different nation-states and regions and what the potential is for the future.

The intelligence reform mandated following the attacks on 9/11 created the most fundamental structural change in the National Intelligence Community in its history. The National Intelligence Strategy (NIS), as updated, will provide the framework for this course. The integration of the National Intelligence Community, and the complexities this integration brings, will be analyzed. This course covers the intelligence cycle (planning and direction, collection, processing, analysis, and dissemination). It also covers key aspects of intelligence such as warning and surprise; denial and deception; covert action; oversight and civil liberties; role of policymakers; and intelligence reform. Students will evaluate how changes in the national intelligence community are meeting the objectives of the war on terrorism and contributing to more effective intelligence. (Credit may not be earned for this course and ISSA 6300.)

This course examines the impact of terrorism on national security policy. The course profiles terrorists and terrorist groups, and also analyzes potential future forms of violent action that could be taken by non-state actors. The course also examines and outlines the past practices of counterterrorism in other countries. Finally, students focus on United States policies and the roles and missions of both military and interagency commanders who are currently dealing with or have in the past dealt with terrorism as part of their assigned tasks.

The end of the Cold War brought in a new era of world politics and security issues for the United States. But with the fall of the Berlin Wall and the end of the Soviet Union also came a new phenomenon—Rogue States. Countries such as Iran, North Korea, Syria, Cuba, and others have refused to change their governments in modern times and continue to conduct policies that are hostile to the United States and its allies. This course examines exactly what it is that makes up a rogue state, why the politics of rogue states are dangerous to the United States and its allies, and how these hostile policies can be countered. The course also examines several important recent case studies.

Stability and peace operations have become an integral part of United States foreign and military policy. This course analyzes several concepts, including nation building, stabilization, and reconstruction. The course also examines the roles of various groups that have become important to these types of operations in the 21st century, including nongovernmental organizations, intergovernmental organizations, and governmental organizations. The course examines the roles and missions of the many new players who have become integral to stability and peacekeeping operations.

As the United States looks to an uncertain future in the 21st century, control of weapons of mass destruction and their proliferation have become two of our most important national security issues. Because many nations are not transparent about either their capabilities or intentions, this is also a very difficult issue to analyze for American policy makers and their staffs. This class examines important case studies such as the Nuclear Non-proliferation Treaty (NPT), the role of the IAEA and other elements of the UN in countering WMD and proliferation, and key state actors that pose the greatest threat to American security because of their pursuit of WMD capabilities and/or proliferation.

For many years following the end of the Cold War, weak states, failing states, and failed states, received little or no attention from the United States. With the exception of the Somalia case study (a failed state), the United States tended to ignore states that were either weak or on the brink of being failed states. The events of 9/11 ended this for the most part. Because Afghanistan was essentially a failing state and supported terrorism, this issue has now become one that is ripe for examination. What constitutes a weak state? A failing state? A failed state? Are failed states a threat to U.S. security? If so, why is this the case? Which states are these, and what can be done to remedy the ominous (and often unique) threats they pose? All these issues are examined in this course, which will provide current and recent case studies as a method for conducting analysis of an issue that has only recently come to the forefront of Washington’s foreign policy.
6319 Homeland Security Studies (3-0). This course examines the key issues that the U.S. faces in protecting itself from terrorist attacks and will also analyze how policy has been formulated and implemented since 2001. While homeland security involves many issues, the main focus for this class will be on the key challenges to American society and government at home that have ensued because of the long war against terrorism in the 21st century. In this class, we will define homeland security, conduct an examination of the homeland security threats facing the United States, and discuss how the interagency and interstate aspects of government at various levels of jurisdiction (federal, state, local, and private) interact to protect the United States.

6320 Human Rights and National Security (3-0). This course gives students a clear understanding of what constitutes human rights. The course also explores why human rights and human security have become such major players in policy, as well as important aspects of the work that NGO’s and other non-state actors conduct. Of particular importance to this course is conducting an analysis of the role of civil society (human rights NGO’s, church groups, and grassroots groups). The course features important writings by practitioners and experts in the field.

6321 Energy Security Studies (3-0). This course examines the relatively new concept of the importance of the relationship between energy and security in the 21st century. Students conduct analyses of important policy challenges including, but not limited to, economic, geopolitical, and environmental issues. The United States and its key allies (not to mention its competitors—such as China) have huge concerns about vulnerability to disruptions in supply, price volatility, and environmental degradation. U.S. national security interests also can potentially be in peril if such issues as unequal access to energy sources and instability in key energy-producing regions arise.

6322 Transnational Issues and National Security (3-0). With the advent of more societies around the world and more open trade, a variety of transnational issues have become important for American national security. The role of NGO’s in dealing with a variety of issues, the role of the many powerful transnational corporations, and the interesting aspect of transnational crime have changed the role of nation-states (somewhat) in how they deal with both state and non-state actors. This course examines the key transnational issues that are important for U.S. policy and also analyzes a series of case studies dealing with important issues such as transnational crime, transnational corporations, and other issues that cross borders between states and regions.

6323 Security Issues in Europe I (3-0). This course examines the historic, cultural, economic, social and geographic traits that distinguish this region and shape its domestic political processes and interstate relations. Students will engage in critical comparisons of the politics, governments, and orientations of European states and important regional powers. The course also covers contemporary regional issues such as democratization, arms control and regional integration, with a particular emphasis on security concerns. This class also examines the development of the Atlantic Alliance of 1949—known as NATO—into a military organization under United States leadership, and how that organization has affected security on both the regional and world stages. The course concludes with an evaluation of NATO’s status in contemporary times and the role that it may play in the future.

6325 Security Issues in Europe II (3-0). This course focuses on current, major issues within the European region. While engaging in critical analysis of current issues, the course examines the broader European cultural context as an analytic framework explaining interaction within the region and the international arena. While the first European course focuses on many of the issues that led to the formulation and continued existence of NATO, this course discusses the formulation and issues related to the European Union (EU). Because the EU is such an economic powerhouse, students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Europe. This course reviews and explores the key themes of Europe’s contemporary political economy.

6327 Security Issues in Asia I (3-0). This course covers contemporary regional issues such as the influence of Japan, India, Korea, and China on regional and global affairs, with a particular focus on regional security concerns. The focus of this course is on the changing dynamics of contemporary international security in Asia. This course includes several important case studies that are central to understanding regional security in Asia. These include, but are not limited to, the ongoing and hotly debated military rise of China and the implications for the region and the world; the nuclear stand-off on the Korean peninsula; contemporary security issues in Southeast Asia; the India-Pakistan conflict; and transnational security issues in Asia.

6329 Security Issues in Asia II (3-0). While Security Issues in Asia I focuses on issues of conflict and tension, this course is an introduction to the political economy of Asia. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Asia. This course reviews and explores the key themes of Asia’s contemporary political economy. In doing so, it concentrates on Asia’s relationship with the global political economy and raises questions about the nature of state action in Asian countries.

6331 Security Issues in Latin America I (3-0). This course examines the dynamics of international security in Latin America. Key security issues to be examined include, but will not be limited to, conflict between states, insurgency and counterinsurgency, transnational crime, and terrorism. Students will also examine how the security environment in Latin America is seen in Washington and what influences that perspective. The course also examines closely the use of international organizations in addressing key security issues within the region.

6333 Security Issues in Latin America II (3-0). While Security Issues in Latin America I focuses on issues of conflict and tension, this course is an introduction to the region’s political economy. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Latin America. This course reviews and explores the key themes of Latin America’s contemporary political economy. In doing so, the course concentrates on Latin America’s relationship with the global political economy and raises questions about the nature of state action in Latin American countries. While engaging in critical analysis of current issues, the course examines the broader Latin American economic context as an analytic framework for explaining interaction within the region and the international arena.
Security Studies

6335 Security Issues in the Middle East I (3-0). This course examines the implications of key security issues affecting U.S. national interests in the Middle East. The course gives insights into the history, cultures, religions, geography, and demographics of the region. The course also examines the dynamics of interaction between the Middle East and the West. Key security issues for discussion include, but are not limited to, the Middle East peace process, Persian Gulf security, access to Middle East petroleum reserves, and the promotion of democracy. The course also explores the nature of jihad in the Middle East, the relationship between religion and state governments, and human rights issues.

6337 Security Issues in the Middle East II (3-0). While Security Issues in the Middle East I focuses on issues of conflict and tension, this course is an introduction to the political economy of the Middle East. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in the Middle East. This course reviews and explores the key themes of the Middle East’s contemporary political economy. In doing so, the course concentrates on the Middle East’s relationship with the global political economy and raises questions about the nature of state action in Middle Eastern countries.

6341 Security Issues in Africa I (3-0). This course examines political, military, and social issues of the states of Sub-Saharan Africa. The focus of the course is on the impact these issues have on world politics and particularly United States national security interests in that region. The course addresses issues of the colonial legacy, the rise of African nationalism, and the emergence of independent Africa. It also addresses many of the difficulties of the post-colonial legacy. Finally, the course turns to the place of Sub-Saharan Africa in Washington’s national security policy, and potential outcomes for the future.

6343 Security Issues in Africa II (3-0). While Security Issues in Africa I focuses on issues of conflict and tension, this course is an introduction to the political economy of Sub-Saharan Africa. Students will explore the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Africa. This course reviews and explores the key themes of Africa’s contemporary political economy and its deep historical bases. In doing so, the course concentrates on Africa’s relationship with the global political economy and raises questions about the nature of state action in African countries.

6381 Special Topics. A seminar in selected security studies topics. May be repeated once for credit when topic varies.

6399 Thesis. A total of six semester hours required for thesis credit. This course must be repeated once. Students have the option of enrolling in SEC 6699 to fulfill the thesis requirement in one semester.

6699 Thesis. A total of six semester hours required for thesis credit.
The Bachelor of Social Work (B.S.W.) at ASU is designed to prepare students to work as a generalist social worker. The B.S.W. program at ASU emphasizes the biopsychosocial approach when encountering clients. Students are offered courses that will expose them to biopsychosocial theories of human behavior; assessment and evaluation methods; policy; communication skills, and micro and macro level intervention skills essential in today’s outcome based social service environment. Upon graduation, students with an understanding of people who may require social services. Students are offered courses that will expose them to biopsychosocial theories of human behavior; assessment and evaluation methods; policy; communication skills, and micro and macro level intervention skills essential in today’s outcome based social service environment. This minor is highly applied, structured, and provides exposure to the social work profession.

The Social Work Minor consists of Social Work 2307, 2317, 3307, and 9 semester credit hours from Social Work 4303, 4305, 4307, 4309, 4313, 4317, 4325, 4327; and includes a total of 18 semester credit hours of course work. Of those 18 semester credit hours, at least six semester credit hours from the upper level course options listed above, are required in residence. Minimum grade of "C" is required in all social work courses counted toward the major or minor.

**Undergraduate Courses**

**Social Work (SWK)**

**2307 Introduction to Social Work (3-0).** An overview of the history and development of social work as a profession. The course is designed to foster a philosophical, historical, and critical understanding of the social work profession, social work values and ethics, and fields of practice.

**2317 Social Welfare Policy and Practice I (3-0).** Provides knowledge and values of the history and philosophy of social welfare programs and the skills to understand major social welfare policies. The impact of policy on human functioning is also emphasized.

**3307 Human Behavior in the Social Environment I (3-0).** The biopsychosocial science base of social work practice. Includes theories of biological, social, cultural, psychological, and spiritual development within the context of the social environment through the life course. Focuses on the critical evaluation and application of theories and knowledge to person-environment transactions.

**Prerequisites:** Social Work 2307, Social Work 2317, and admission into the Social Work degree program or a declared Social Work minor.

Undergraduate Program

The Bachelor of Social Work (B.S.W.) at ASU is designed to prepare students to work as a generalist social worker. The B.S.W. program at ASU emphasizes the biopsychosocial approach when encountering clients. Students are offered courses that will expose them to biopsychosocial theories of human behavior; assessment and evaluation methods; policy; communication skills, and micro and macro level intervention skills essential in today’s outcome based social service environment. Upon graduation, students with an understanding of people who may require social services. Students are offered courses that will expose them to biopsychosocial theories of human behavior; assessment and evaluation methods; policy; communication skills, and micro and macro level intervention skills essential in today’s outcome based social service environment. This minor is highly applied, structured, and provides exposure to the social work profession.

The Social Work Minor consists of Social Work 2307, 2317, 3307, and 9 semester credit hours from Social Work 4303, 4305, 4307, 4309, 4313, 4317, 4325, 4327; and includes a total of 18 semester credit hours of course work. Of those 18 semester credit hours, at least six semester credit hours from the upper level course options listed above, are required in residence. Minimum grade of “C” is required in all social work courses counted toward the minor.

* Freshman Year: Pre-Social Work; Students take core education curriculum courses.  
** Sophomore Year: Pre-Social Work; Students take core education curriculum courses, Introduction to Social Work, and Social Welfare Policy and Practice I.  
*** Junior Year: Students who meet admission criteria are admitted to the B.S.W. major. All Freshman and Sophomore courses are completed.  
**** Senior Year: General electives, Social Work internship, advanced Social Work electives, and Social Work Practice III.

### 3309 Social Work Practice I (3-0)

The introduction to social work practice with individuals, couples, families and small groups, including the use of communication skills, supervision, and consultation. Focuses on engagement, assessment and evaluation, planning for service delivery, implementing empirically based interventions, and evaluating outcomes.

**Prerequisites:** Social Work 2307, Social Work 2317, and admission into the Social Work degree program.

**Prerequisite or Corequisite:** Social Work 3307.

### 3311 Human Behavior in the Social Environment II (3-0)

The biopsychosocial science base of social work practice. Includes a critical analysis of the interactions between the person and the dynamic nature of groups, organizations, communities, society, and economic systems. Focuses on multiple dimensions of the person and the range of social systems in which they live.

**Prerequisites:** Social Work 3307 and Social Work 3309.

### 3313 Social Work Practice II (3-0)

The introduction to social work practice with large groups, organizations, and communities, including the use of communication skills, supervision, and consultation. Focuses on engagement, assessment and evaluation, planning for service delivery, implementing empirically based interventions, and evaluating outcomes.

**Prerequisites:** Social Work 3307 and Social Work 3309.

### 3315 Social Welfare Policy and Practice II (3-0)

Provides the knowledge, skills, and values to apply social welfare policy and practice. Focuses on policy analysis, implementation of policy to achieve social and economic justice, and the impact of social policy on the social work profession.

**Prerequisites:** Social Work 2307, Social Work 2317, and admission into the Social Work degree program.

### 3355 Social Work Research Methods I (3-0)

Presentation of the methods used in scientific inquiry and program evaluation; knowledge of how scientific evidence informs social work practice and how social work practice informs scientific inquiry is of primary concern. Focuses on the skills related to conducting research and practice evaluation. Ethical, cultural, and professional value considerations in the research process are emphasized.

**Prerequisites:** Social Work 2307, Social Work 2317, and admission into the Social Work degree program.

### 3357 Social Work Research Methods II (3-0)

Presentation of selected statistical methods used in scientific inquiry, program evaluation, and knowledge of how statistical analysis informs social work practice. Focuses on the skills related to statistical analysis, interpretation, and application. Ethical, cultural, and professional value considerations in statistical analysis are emphasized.

**Prerequisite:** Social Work 3355.

### 4303 Social Work and Children/Families (3-0)

Provides knowledge and skills necessary for generalist social work practice relating to children and families among diverse populations. Topics include the changing dynamics of families, social problems faced by children and families, counseling and intervention programs for children and families, child abuse and neglect, child and family advocacy, and the role of the social worker in foster care adoption, and the courts.

**Prerequisites:** Social Work 2307 and Social Work 2317.

### 4305 Social Work and Mental Health (3-0)

Provides knowledge and skills necessary for generalist social work practice relating to people with mental illness. The role and function of the social worker in mental health settings is of primary concern. Promotes the application of social work values, ethics, and standards in work with mentally ill people from diverse backgrounds.

**Prerequisites:** Social Work 2307 and Social Work 2317.

### 4307 Social Work and Aging (3-0)

Provides a biopsychosocial perspective on the functioning of older adults. Topics cover the various aspects of geriatric social work including biopsychosocial changes associated with aging, assessment and intervention with the elderly, substance abuse and the elderly, group work with the elderly, issues surrounding spirituality, abuse and neglect, family and social support, and issues relating to death and dying.

**Prerequisites:** Social Work 2307 and Social Work 2317.

### 4309 Social Work and Health Care (3-0)

Provides knowledge and skills necessary for generalist social work practice in a hospital and other health care settings with people from diverse backgrounds. Topics include an introduction to evidence-based practice in health care environments, medical terminology, and biopsychosocial factors relating to physical illness and disease. Promotes the application of social work values, ethics, and standards in physical health care.

**Prerequisites:** Social Work 2307 and Social Work 2317.
4313 Social Work and Groups (3-0). An introduction to group theory and practice. Topics include group formation and development, stages of the group process, ethics and legal issues relating to group practice, and group work with diverse populations.
Prerequisites: Social Work 2307 and Social Work 2317.

4317 Social Work and Case Management (3-0). An in-depth analysis of the case management process from a generalist perspective. Focuses on evidence-based practices in contemporary case management, clarification of practitioner attitudes, cultural competence, effective communication skills, client assessment, service plan development, case documentation, the monitoring of services and treatment, and case termination.
Prerequisites: Social Work 2307 and Social Work 2317.

4325 Social Work and Criminal Justice (3-0). A study of the various treatment and rehabilitation methods used in correctional settings with diverse populations. Topics include the roles of correctional personnel, the assessment and treatment of juveniles and adults, casework in correctional settings, crisis intervention, the assessment and treatment of special populations in correctional settings, and the evaluation of treatment and rehabilitation programs.
Prerequisites: Social Work 2307 and Social Work 2317.

4327 Social Work and Human Sexuality (3-0). Provides a biopsychosocial perspective on human sexuality across the lifespan. Topics include the male and female sexual anatomy/physiology, multicultural perspective of sexuality, sexual behavior, sexual orientations, sexuality across the life cycle, the prevention and treatment of sexuality problems, and social problems related to human sexuality.

4371 Social Work Field Education I. A supervised internship of at least 250 hours in an approved agency appropriate to social work; fosters the integration of classroom knowledge, values, and ethics with practice-based knowledge that seeks to increase practice skills and promotes professional competence. Restricted to Bachelor of Social Work majors.
Prerequisites: A grade of “C” or higher in all required Social Work courses, good academic standing as a senior in the social work program, and permission from the Social Work Program Director and the Social Work Field Education Director.

4372 Social Work Field Education II. A supervised internship of at least 250 hours in an approved agency appropriate to social work; fosters the integration of classroom knowledge, values, and ethics with practice-based knowledge that seeks to increase practice skills and promotes professional competence. Restricted to Bachelor of Social Work majors.
Prerequisite: Social Work 4371.

4373 Social Work Practice III (3-0). The integrative seminar in social work. This capstone course facilitates the integration and application of the generalist social work curriculum in diverse, evolving, and emerging practice contexts. Student career development, use of technology, and professional leadership are emphasized. As a part of this course, students must take and pass a comprehensive examination.
Prerequisite: Social Work 4371.

4381 Special Topics in Social Work (3-0). Selected topics in social work. (May be repeated once for credit when topic varies.)

4391 Independent Research in Social Work (3-0). A specialized course which may be directed reading or research for superior students. (May be repeated once for credit when topic varies.)
Prerequisite: Approval from the Social Work Program Director.

Graduate Courses

6324 Research and Evaluation II (3-0). In this course quantitative and qualitative research methods and commonly used statistical procedures and approaches are applied to the evaluation of social work practice interventions and the evaluation of human service programs. These research skills and knowledge are presented from the perspective of promoting diversity and social and economic justice in the evaluation of social work intervention and the delivery of human service programs.

6325 Advanced Micro Practice (3-0). Builds on the generalist perspective and the basic familiarity with social work processes (such as problem identification, assessment, contracting, plan implementation, and outcome evaluation) in the context of 1) existing psychotherapeutic modalities, and 2) the particular client characteristics that lend themselves to specific change modalities.

### Undergraduate Certificate Available in Sociology

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All course work for certificates must be taken in-residence; transfer credits from other institutions will not apply towards certificate programs.

#### Certificate - Gerontology

(12 SCH required)

- PSY 4331 Psychology of Aging................................................3
- SOC 3325 Social Research and Data Analysis.............................3
- SOC 4331 Sociology of Aging..................................................3
- SOC 4332 Death and Dying......................................................3
## Internship In Sociology
Internships are available during the fall and spring semesters to qualified students who have (a) completed at least 15 credit hours in Sociology and (b) have a cumulative GPA of at least 2.50. Upon acceptance as an intern, a faculty coordinator from the Department of Psychology, Sociology, and Social Work will consult with an appropriate representative of a human service agency or entity in the San Angelo area to arrange an internship assignment for the following fall or spring semester. Duties will be performed for the agency or entity under the supervision of the faculty coordinator and an appropriate representative from the field setting. The intern will be evaluated by the faculty coordinator and the field-setting supervisor. Three semester hours of credit will be received for successful completion of 150 clock hours of internship experience, and six semester hours of credit will be received for successful completion of 300 clock hours. A maximum of three of these semester credit hours may be counted toward a major in Sociology. To receive credit toward the major, sociology majors should register for Sociology 4371 or 4671. Students cannot receive credit for both internships. Admission to the internship requires approval by the internship coordinator and the Chair of the Department of Psychology, Sociology, and Social Work. Applications may be obtained in the main office of the department.

## Course Descriptions

### Sociology (SOC)

#### Undergraduate Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>1303/SOCI 1306</td>
<td>Social Problems (3-0)</td>
<td>Study of social problems and issues facing the United States. Major problems and issues are analyzed and alternative solutions are evaluated. The course is designed for non-majors as well as majors.</td>
</tr>
<tr>
<td>2301/SOCI 1301</td>
<td>Introduction to Sociology (3-0)</td>
<td>Outline of the sociological perspective and a survey of topical studies in sociology. Representative topics may include family, politics, economy, religion, education, crime, population, environment, and others.</td>
</tr>
<tr>
<td>2305/SOCI 2326</td>
<td>Social Psychology (3-0)</td>
<td>A survey of environmental forces as they affect individual and group behavior. Topics to be studied include subcultural influences, group dynamics, attitude change, interpersonal attraction, prosocial behavior and health. (Credit may not be earned for this course and Psychology 2305.) Prerequisite: Psychology 2301 or Sociology 2301.</td>
</tr>
<tr>
<td>3310</td>
<td>American Political Culture (3-0)</td>
<td>A study of the cultural context of American politics, the development and transmission of political attitudes and values, and the role of public opinion in the political process. (Credit may not be earned for this course and Political Science 3311.)</td>
</tr>
</tbody>

Angelo State University Undergraduate and Graduate Catalog 2013-2014 257
Sociology

3312 Social Change and Development (3-0). Topics of current interest concerning social changes related to the global processes of industrial development and modernization.

3315 The Family (3-0). The family as a social institution and its relationships to other institutions, with special emphasis on the American family in a time of rapid social change.

3319 Population and Ecology (3-0). Topics of current interest concerning human population dynamics and relationships between man and the environment.

3325 Social Research and Data Analysis (3-0). A review of the methods of social research with a brief introduction to elementary statistics, data analysis, and practice in computer applications.

3327 Human Diversity and Social Inequality (3-0). A study of social values that promotes the understanding, affirmation, and respect for people from diverse backgrounds; integrates knowledge on at-risk populations and covers the effects of inequality, discrimination, stigma, and prejudice on human functioning. Promotes the understanding of economic and social justice.

3341 Juvenile Delinquency (3-0). A study of the nature, extent, and varieties of delinquency in the United States relative to social institutions and peer groups. The course will survey historical and current theory as well as research pertaining to delinquent behavior, treatment, and prevention.

3343 Criminology (3-0). A survey of the nature and extent of crime in America. The course will examine classical and contemporary theory as well as research pertaining to criminal behavior, treatment, and prevention.

4161 Integrative Seminar in Sociology (1-0). Senior capstone course for sociology majors that facilitates a synthesis of the sociology curriculum. This course focuses on the application of sociology across a variety of settings. An exit examination is required.

Prerequisite: Senior standing.

4301 Sociological Theory (3-0). Analysis of the main traditions of sociological thought.

Prerequisite: Sociology 2301.

4323 Community Development (3-0). A service learning course focusing on community development. Students will have assigned readings and engage in applied social research while being assigned to work in the San Angelo community on one of the department’s priority service learning projects.

Prerequisite: Junior or Senior standing.

4331 Sociology of Aging (3-0). A study of the social dimensions and significance of the aging experience: the individual experience of aging, description of the aging population and the social status of the aged, and the consequences of aging and the aged on society.

4332 Death and Dying (3-0). An extension of social gerontology into the last stage of the life course, examining such topics as the social and personal meaning of death and dying, grief and bereavement, and the interrelationships between the dying person and family, friends, and professionals.

4341 Social Deviance and Social Control (3-0). Provides a conceptual and theoretical overview of deviance in society and analysis of specific types of deviance with emphasis on a sociological understanding of the meanings, processes, and control of deviant behavior.

4371, 4671 Internship in Sociology. The student will be assigned to work in a social service agency. (4371 may be repeated once.)

Prerequisites: Completion of 15 credit hours of sociology, departmental selection.

4381 Special Topics (3-0). Selected topics in sociology. (May be repeated once for credit when topic varies.)

4391 Research. A specialized course which may be directed reading or research for superior students majoring in sociology. (May be repeated once for credit.)

Prerequisites: Junior standing.
College of Education:  
Department of  
Curriculum and Instruction

Department Chair: James A. Summerlin

Graduate Faculty: Hightower, Livengood, McGlamery, Miazga, Summerlin, Williams, Wiliamson.

Graduate Programs

Master of Education (M.Ed.)  
Student Development and Leadership in Higher Education

The graduate faculty in the Department of Curriculum and Instruction are actively involved in research, development of new teacher education models, and in-service education programs throughout the region served by Angelo State University.

As a summative requirement for the degree, the candidate must successfully complete a comprehensive program review with a committee of Graduate Faculty.

This program prepares the student for higher education leadership positions in the nonacademic arena of college campuses, such as career services, enrollment management, residence life, or financial aid.

Courses in this program are offered through an online format.

Academic Advising Certificate

The Academic Advising Certificate program is designed for graduate students and first year or experienced academic advisors in both two-year and four-year institutions. This program is also designed for individuals whose desire is to seek more advising knowledge beyond their disciplines and for individuals who anticipate academic advising roles. The program plan will list the courses students need to complete the certificate process. The Advising Certificate Program uses an online format. Students will receive certification after successfully completing coursework. With regular admission to the graduate program, these courses can be applied to the Master of Education in Student Development and Leadership in Higher Education degree. Form more information contact the program advisor.

### Course Descriptions

**Education - Graduate (EDG) *

#### Graduate Courses

**6300 Curriculum Development (3-0).** Learn to analyze and design curriculum appropriate for all students using feedback from continuous and appropriate assessment. Curriculum will be based on valid learning theories, have clear goals and objectives, consider student diversity, and account for external influences.

**6301 Social and Cultural Influences (3-0).** Designed to present a broad base of knowledge about culture and learning. Approaches, materials, and research will be investigated. Specific skills for identifying learning problems and solving them through classroom instruction will be featured.

**6302 Tests and Measurements (3-0).** A study of typical methods of measuring intelligence, achievement, special aptitudes, and personality. Emphasis is placed on the interpretation and use of tests. Elementary statistical terms and processes are studied.

**6303 Lifespan Development (3-0).** A study of human development through the life span, including social, emotional, cognitive, language, and cultural influences.

**6304 Applied Research (3-0).** This course will focus on collecting and interpreting data to achieve a stated educational goal for each individual student. Concepts of tests and measurements will be emphasized for interpreting research results and gathering data for applied research. Students will develop a project based upon their research. Students will apply concepts learned within their own classroom under the guidance of the professor.

**6305 Legal and Ethical Principles (3-0).** Explores the field of knowledge of federal, state, and local school laws pertinent to educational administration. Includes a study of ethics and codes of ethics used to facilitate effective decision making.

**6324 Career and Occupational Counseling (3-0).** A study of the basic principles related to educational-vocational planning, including practical experiences in administering, reviewing, and evaluating occupational and career standardized data profiles.

**6360 The History of Higher Education (3-0).** An examination of the development of the American system of higher education—its origin, major characteristics, trends, and distinctive features.

**6361 American Higher Education (3-0).** A comprehensive introduction to the basic philosophical principles of American higher education including facts and fundamental theoretical concepts on which to build future understandings and research.

**6362 College Student Development (3-0).** An in-depth study of development theories that are unique to college-aged students. Examines issues facing college students including, but not limited to, sources of motivation, learning styles, development of values, relationship development, mental/physical and psychological development.

**6363 Leadership (3-0).** An examination of organization theory, models, and policies; governance, and management process; and leadership perspectives and leadership theory. A review of research and new conceptual perspectives will be included.

**6364 Issues in Higher Education (3-0).** Current issues in the administration of student development programs and activities on college and university campuses in the United States. Provides an in-depth analysis of prevalent issues unique to both community colleges and senior universities.

**6365 Internship in Higher Education (0-0-3).** Designed to provide a supervised internship experience specializing in three areas of student development positions commonly found in institutions of higher education. Grading will be either pass or fail.

Prerequisite: Permission of the Graduate Advisor.

**6366 Student Affairs and Administrative Services (3-0).** An examination of the institutional need for student affairs programs and the many different units that make up student affairs. Students will become familiar with the structure and function of the student affairs office and its context in higher education.

**6367 Foundations of Academic Advising (3-0).** This course examines the foundations of academic advising as an essential component of student success and retention in higher education. Topics include developmental advising, literature and research on academic advising, models and delivery systems, skills for effective advising, advising diverse populations, assessment, evaluation and reward systems for advisor and advising programs.

**6368 Communication Skills in Student Development (3-0).** Theories and techniques of verbal and non-verbal communication in student development and higher education are examined. Students learn communication and interpersonal skills related to individual and group processes.

**6369 Assessment of Student Outcomes (3-0).** An examination of the philosophy and practice of assessment and evaluation of student outcomes in higher education.

---

* Other College of Education courses may be found in the Curriculum and Instruction, Guidance and Counseling, and Educational Administration sections.
6381 Special Topics (3-0). A study of selected topics in education. (May be repeated once for credit when topic varies.)

6391 Individual Research. A specialized course which may be directed reading or research for superior students under the direction of a graduate faculty member. (Course may be repeated only with departmental approval.)

6399 Professional Practice (0-0-3). Practical application of acquired knowledge in an appropriate environment under the supervision of a qualified professional. Meets the practicum or internship requirements for a professional certificate. Grading will be either pass or fail. (May be repeated for credit.)

Prerequisite: Permission of graduate advisor.

**Traditions**

**Gum Tree**

ASU’s “gum tree” stands as one of the stickiest traditions among all collegiate rituals anywhere. The gum tree is actually a mesquite speckled with thousands of pieces of used chewing gum.

Located at the southwest corner of the Porter Henderson Library, the tree elicits reactions that range from “yuck” to “cool.” Legend has it that a gum-chewing suitor placed his chaw there prior to asking his girlfriend to marry him. When she said yes, the happy young man attributed his good luck to his gum deposit. Since then, hundreds of students have left their chewing gum on the mesquite to bring them good luck on tests and in life.

As a result of drought conditions in the summer of 2011, the gum tree uprooted and toppled over under the weight of the gum. Maintenance crews secured the stump in its original location, and the power of the tree is once again at work – it has shown signs of new growth.

**Ram’s Head**

Just as other universities have their own spirit hand signs, so does Angelo State University with the Ram’s Head.

The sign is made by bending the middle and ring fingers down over the palm and covering them with the thumb. The extended index and pinky fingers are then bent halfway to represent the curve of the horns.

You will see the sign used at various times during athletic events and always during the playing of the Alma Mater in acknowledgement of the mighty and majestic ram.
Teacher Certification

College of Education:

Teacher Certification

Professor and Dean, College of Education, and Certification Officer:
John J. Miazga, Jr.
Director of Educational Support Services: Wendy Storms
Field Experience Advisor: Tia Agan
Certification Advisor: Christine Pruitt
Undergraduate Academic Advisor: Meagan Word
Graduate Programs Advisor: Lesley Casarez
Office: Carr Education-Fine Arts Building, Room 287
Telephone: 325-942-2209, Fax: 325-942-2039

Teacher Certification Procedure

Candidates desiring Early Childhood to Grade 6, Grades 4 to 8, Grades 8 to 12, or all-level teacher certification are required to complete the following procedures toward teacher certification: (1) admission to and completion of the Educator Preparation Program, (2) approval to take and passing the appropriate TExES tests, and (3) recommendation for certification. The State Board of Educator Certification will also require candidates to submit fingerprints for a national background check in order to issue a certificate.

Post-Baccalaureate Certification

Students seeking teacher certification who hold a baccalaureate degree should consult with the Certification Advisor in the Educator Preparation Information Center in Carr-EFA 287 or call 325-942-2209. Candidates will receive a customized plan to meet state certification requirements.

Procedures for Admission to the Educator Preparation Program

Candidates apply for admission to the Educator Preparation Program (EPP) when they have completed at least 60 semester credit hours. Instructions for applying to the EPP are available on the College of Education website www.angelo.edu/dept/ceducation/onlineapplications.html.

At the time of application to the Educator Preparation Program, all applicants must demonstrate that they have:

- Completed EPP interview in EPI Center
- Completed 60 SCH with a minimum cumulative grade point average of 2.50 at the time of application to the Educator Preparation Program.
- Completed at least 12 SCH in the major/teaching field coursework with no grade lower than a “C” and a GPA greater than 2.50.
- Completed the coursework to demonstrate proficiency in reading, writing, mathematics, and communication. To demonstrate proficiency, the candidate must complete the following with a grade of “C” or better:
  - Reading - History 1301 and 1302, and Political Science 2301 and 2302.
  - Writing - English 1301 and 1302.
  - Mathematics - Mathematics 1302 or equivalent.
  - Oral Communication - Communication 2301.
- Have met the requirements of the Texas Success Initiative (TSI). The TSI skill requirements are normally met at the time of admission to the university or through required coursework. For more information about the TSI, visit the Angelo State University TSI website http://www.angelo.edu/dept/advising/texas_success_initiative.php.
- Angelo State University’s candidates demonstrate acceptable teacher behavior. Candidates will be evaluated on these behaviors through the assessment of teacher dispositions. At the point of admission to the Educator Preparation Program, students are required to review and accept the unit’s dispositions. To view the dispositions visit: www.angelo.edu/dept/ceducation.

Procedures for Admission to the Student Teaching Program

Candidates applying for the Student Teaching Program must:

- Attend a student teaching application meeting in the long semester prior to student teaching. Dates and times will be announced and posted at the beginning of each long semester in the University Calendar, as well as in the dates of Importance on The College of Education website.
- Submit an application for student teaching. (See University Calendar for deadlines.) Application forms are available on the College of Education website www.angelo.edu/dept/ceducation.
- A degree plan or post-baccalaureate certification plan must be on file in the College of Education office prior to applying to student teaching.

At the time of application, all applicants must have completed:

- All of the criteria for admission to the Educator Preparation Program,
- A minimum of 95 SCH with a cumulative grade point average of 2.50, and
- All applicable requirements listed below.

All applicants must possess sound physical health, sound mental health, and acceptable moral character. The Admission, Retention, and Dismissal Committee may require the candidate to undergo physical and/or psychiatric evaluation.

Student Teaching Eligibility Requirements

Note: Candidates should consult their degree plans for reference to required courses in their major. Any deficiencies or requirement listed below must be corrected:

- By the end of the second summer term for fall student teaching, or
- By the end of the fall semester for spring student teaching.
Certification: Grades 8 to 12 and All-Level

Candidates pursuing grades 8 to 12 or all-level certification in an area where the semester hour requirement for the major is:

- If the degree major has 30-42 semester hours must have grade point averages in the major of 2.50 (cumulative) with no grade lower than a "C" in all required courses completed and must have completed a minimum 24 semester hours (including 9 advanced hours) in order to be eligible to student teach.
- If the degree major has more than 42 semester hours must have grade point averages in the major of 2.50 (cumulative) with no grade lower than a "C" in all required courses completed and must have completed a minimum of 48 semester hours (including 18 advanced) in order to be eligible to student teach. Music majors must also satisfy music proficiency requirements.
- Candidates must have completed all required advanced Pedagogy and Professional Responsibilities courses (Education 4321, Education 4322, Educational Psychology 3303 and Reading 4320) with grade point averages of 2.50 (cumulative) with no grade lower than a "C" in order to be eligible to student teach.

Candidates seeking additional certification areas must meet the same requirements as listed above.

Certification: Early Childhood Education to Grade 6 and Grades 4 to 8

Candidates pursuing Early Childhood Education to Grade 6 and Grades 4 to 8 certification must complete the following to be eligible to student teach.

- Except for courses used as electives, a grade of "C" or better is required on all course work.
- Candidates pursuing Early Childhood to Grade 6 certification must complete all courses in the interdisciplinary major in order to be eligible to student teach with a cumulative GPA of at least 2.50 with no grade lower than a "C". All candidates are required to complete Practicum courses as a block prior to student teaching, with a GPA of at least 2.50 with no grade lower than a "C".
- Candidates pursuing grades 4 to 8 certification in English Language Arts and Reading and 4-8 Generalist, must complete all courses in the interdisciplinary major with a cumulative GPA of at least 2.50 with no grade lower than a "C" in order to be eligible to student teach. Candidates are required to complete Practicum I courses as a block prior to student teaching.

The Admission, Retention, and Dismissal Committee of the Teacher Education Council must approve all applications for student teaching. Candidates who wish to appeal any of the admission requirements must petition the Chair.

TExES Approval Procedure

- The College of Education Certification Advisor must receive approval from the candidate’s major department before he or she will be allowed to register for a content area examination.
- Candidates must have met the requirements and been admitted to the Educator Preparation Program.
- Candidates will be approved to take the grade-level appropriate Pedagogy and Professional Responsibilities examination during the student teaching semester.

TExES Registration Procedure

Registration for the TExES examination is online. Instructions for the online registration process are located on the College of Education website at www.angelo.edu/dept/ceducation. Candidates needing special testing arrangements should notify the Certification Advisor for registration assistance.

Recommendation For Certification

In order for Angelo State University to recommend a candidate for certification, the candidate must have earned a 2.50 overall grade point average, must have completed all required courses in the teacher certification areas with a grade point average of 2.50 and with no grade lower than a “C”. In addition, the candidate must have earned a 2.50 grade point average in all advanced Education and Reading courses. All other university requirements must be completed and the candidate must possess a degree. All required state certification tests must be passed. The candidate must also continue to demonstrate sound physical health, sound mental health, and acceptable moral character.

It is the candidate’s responsibility to inform the College of Education that all certification requirements have been completed, and to ensure that all appropriate forms and fees have been submitted. Individuals must apply for certifications online at the State Board for Educator Certification’s website http://www.texas.state.tx.us/.

TExES Eligibility And Registration Procedures

All candidates must pass two certification examinations—one in the content area and one in pedagogy and professional responsibilities. In order for candidates at Angelo State University to be approved to take the Texas Examinations of Educator Standards (TExES) they must have completed the certification program requirements for each examination.
Teacher Education

Teacher Certification Content Areas

Elementary Certifications - Early Childhood - Grade 6

- EC-6 Generalist
- EC-6 Generalist with EC-12 Special Education

Middle School Certifications - Grades 4 - 8

- 4-8 English Language Arts and Reading
- 4-8 Generalist
- 4-8 Mathematics *
- 4-8 Mathematics-Science *
- 4-8 Science *
- 4-8 Social Studies *

Secondary Certifications

- 6-12 Agriculture Science and Technology
- 8-12 Chemistry *
- 8-12 Computer Science *
- 8-12 English Language Arts and Reading
- 8-12 History
- 8-12 Journalism (Mass Media)
- 8-12 Life Science (Biology)
- 8-12 Mathematics
- 8-12 Mathematics-Physics *
- 8-12 Physical Science *
- 8-12 Social Studies
- 7-12 Speech (Communication)
- EC-12 Technology Applications *
- 8-12 Technology Applications *

All-Level Teacher Certifications - Grades EC-12

- Art *
- French *
- German *
- Music
- Physical Education *
- Spanish
- Theatre

Supplemental Certifications

- Bilingual Supplemental Certification
- English as a Second Language *
- Special Education Supplemental Certification

Students are to consult with an Advisor in the Educator Preparation Information Center (EPI), CARR-EFA Bldg, 287

Except for courses used as electives, a grade of “C” or better is required on all course work. This change is effective for new degree plans beginning Fall 2009.

Minors

Education Minor. The Education minor is eighteen (18) semester credit hours (SCH) selected from the following list. Nine hours must be advanced hours. All prerequisites apply to the courses. An individual completing this minor will not be eligible for Texas teacher certification. Select from Early Childhood 2305, Education 2302, Education 2323, Education 3314, Educational Psychology 3303, Reading 2306, Reading 3332, Reading 3335, Reading 3336, Reading 3339, and Special Education 2361.

Professional Education Minor: All prerequisites will apply to the courses. Individuals choosing this minor will have to successfully meet all requirements required for admission to the Educator Preparation Program (EPP) regardless of their degree. These courses, with additional coursework related to Student Teaching, prepare the individual for Texas secondary teacher certification. To become fully certified additional requirements by the state of Texas must be met. Contact the Educator Preparation Information Center Advisor for information about Texas Teacher Certification requirements. Professional Education minor: Education 2323, Educational Psychology 3303, Education 4321, Education 4322, Education 4323, and Reading 4320.

* Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4602. For more information see page 292 or visit: www.angelo.edu/dept/ceducation.

Special Education Supplemental Certification

To qualify for the Special Education Supplemental certification, the individual may add the following course work to a degree plan that includes certification. The Special Education Supplemental certification requires a minimum 2.50 GPA and a grade of “C” or better for all courses.

Special Education 2361, 3360, 3364, 3365, 4362, 4363.

Completion of the above course work, passing the SPED Supplemental TExES examination, and having a teaching certificate will enable the individual to teach Special Education in his or her certification area.

Course Descriptions

Early Childhood (ECH)

Undergraduate Courses

2305 Socio-Cultural Influences on Child Development (3-0). This course explores the influences of society, culture, political issues, family, and experiences on personal identity and learning success with special emphasis on the development of social competence and self-discipline, as well as the culture of schools and classrooms. A field component is required.

3335 Play Dynamics Research (3-0). A study of classical and contemporary theories of play. Focus of the study includes empirical basis of play as a component of cognitive, social, perceptual-motor, and developmental processes. Trends and issues of changes in play related to socio-dynamic influences and their effects on play quality, imaginative play, passive-aggressive play, and play therapy are considered. A field experience component is required.

Prerequisite: Early Childhood 2305.

3350 Developmentally Appropriate Environments (3-0). This course links cognitive, physical, social, and affective developmental domains to children’s experience and environment. The focus is on connecting developmental sequence and theory to real world experience and practice. The role of adult influence on children’s development is emphasized.

Prerequisites: Early Childhood 2305 and Education 2302.

4350 Applied Child Development (3-0). This course focuses on understanding and analyzing relationships between developmental sequences and children’s styles and processes of thinking, problem solving, cooperative interaction, and self-direction. The role of adults in mediating children’s accomplishments is emphasized including supervised experiences with young children. A field component is required.

Prerequisites: Early Childhood 3320 or Early Childhood 3350, and Educational Psychology 3303, and Special Education 2361.

### Education (ED)

#### Undergraduate Courses

**2302 Teacher Education and Practice (3-0).** Designed to provide an overview of the practice of teaching in today's society and the skills and tools required by the classroom teacher.

**2323 Introduction to Computer Technology (3-0).** A survey of computer technology systems supporting the instructional process with emphasis on technology foundations, acquisition of information, communications, problem solving, productivity, and evaluation tools. The course will introduce the student to technology concepts and terminology and to a wide range of microcomputer applications including presentation software, desktop publishing, authoring systems, telecommunications, multimedia, graphics, and integrated packages.

**3313 Bilingual Education (3-0).** A study of bilingual education in the United States and Texas with emphasis on state and federal legislation, assessment, curriculum, and teaching in a bilingual setting will be emphasized.

**3314 Linguistically Diverse Learners (3-0).** Designed to enhance awareness, respect, understanding, and appreciation of the strengths of linguistically and culturally diverse learners through an examination of the research, study of theory, curriculum, assessment methodology, and classroom environments that foster a climate of respect, learning, equity, and excellence.

**4309 Mathematics: Instructional Strategies for the Elementary and Middle School Teacher (3-0).** This field-based course emphasizes the integration of research and theories about the process of learning mathematics. The development of logical reasoning in students, stages of intellectual development, appropriate questioning and problem solving strategies and techniques will be used with students in field settings. Addresses instructional strategies and materials for teaching mathematics. Field practicum is required. (Must be taken concurrently with Education 4311 and Education 4314.)

Prerequisites: Mathematics 1302, Mathematics 1341, Mathematics 1342. Must be admitted into the Educator Preparation Program.

**4311 Social Studies: Instructional Strategies for the Elementary and Middle School Teacher (3-0).** This field-based course emphasizes the integration of research and theories about the processes of learning social studies in the elementary and middle schools. Problem solving, critical thinking, and citizenship will be stressed. Addresses instructional strategies and materials for teaching social studies. Field practicum is required. (Must be taken concurrently with Education 4309 and Education 4314.)

Prerequisites: History 1301, 1302, Political Science 2301, and 2302. Must be admitted into the Educator Preparation Program.

* GEOG 2305 is recommended.

---

**4314 Science: Instructional Strategies for the Elementary and Middle School Teacher (3-0).** This field-based course emphasizes the integration of research and theories about the processes of learning science. The major science processes such as observing, experimenting, measuring, classifying, analyzing, interpreting, sequencing, recognizing properties and patterns, and inferring will be used with student in field experience settings. Addresses instructional strategies and materials for teaching science. Field practicum is required. (Must be taken concurrently with Education 4309 and Education 4311.)

Prerequisites: Biology 1410, 1411, Physical Science 3311, and 3312. Must be admitted into the Educator Preparation Program.

---

**4315 The Elementary School: Organization and Management (3-0).** Focus is on the organization and management of classroom environments, curriculum, time management, planning, and student behavior. Legal and ethical issues related to schools and public education are addressed. Teacher candidates acquire knowledge, skills, and ability by observing and working with experienced public school teachers in elementary classrooms. To be taken concurrently with student teaching placement. A seminar format conducted by teams of university and/or public school teachers is utilized.

Prerequisites: Education 4311 and/or 4314, and/or 4309 and admission to the Student Teacher Program.

---

**4321 Secondary School Organization and Curriculum (3-0).** A study of the structure, organization, and management of the secondary school system emphasizing state and local structures in Texas. Includes an examination of special student populations, the legal and ethical aspects of teaching, and career development. A field experience component is required.

Prerequisite: Admission to the Educator Preparation Program.

---

**4322 Teaching Techniques in the Secondary School (3-0).** A study of the teaching process in the secondary school, including measurement and evaluation of student achievement, instructional media and technology, and planning. A field experience in a secondary school is required.

Prerequisite: Admission to the Educator Preparation Program.

---

**4323 Teaching Techniques in the Secondary School (3-0).** A study of the teaching process in the secondary school, including planning, classroom management, and questioning strategies. This course must be taken concurrently with student teaching.

Prerequisites: Education 4321, 4322, Reading 4320 all with a “C” or better, and admission into the Student Teaching Program.

---

**4381 Special Topics (3-0).** Selected topics in education. May be repeated once for credit when topic varies.

---

**4391 Research.** A specialized course which may be directed reading or research for superior students in education.
**Student Teaching**

4630 Supervised Teaching in the Secondary School. Observation of and participation in supervised teaching in the secondary school. Grading will be either pass or fail.

4699 Internship. This course provides supervision during a probationary period of employment in a school district. This course may be repeated until completion of the probationary period. Grading will be either pass or fail.

4972 Student Teaching in Grade 4 to Grade 8. Participation in supervised teaching Grade 4 to Grade 8. Grading will be either pass or fail.

4973 Supervised Teaching in the High School. Observation of and participation in supervised teaching in appropriate public school settings for students seeking Grades 8-12 teacher certification. Grading will be either pass or fail.

4974 Supervised Teaching All Levels. Observation of and participation in supervised teaching in appropriate public school settings for students seeking all level teacher certification. Grading will be either pass or fail.

4975 Student Teaching in Early Childhood to Grade 6. Participation in supervised teaching in early childhood to Grade 6 in an elementary and/or middle school. Must be admitted to the Student Teaching Program. Grading will be either pass or fail.

**Educational Psychology (EPSY)**

**Undergraduate Courses**

3303 Child and Adolescent Development (3-0). A study of human development processes from childhood to adolescence including physical, cognitive, social, emotional, and personality development. Aspects of learning, motivation, classroom management, behavior management, diverse learners, and socio-cultural elements are examined. A case study report is required.
Teacher Education

Reading (RDG)

<table>
<thead>
<tr>
<th>Undergraduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>3332 Reading in the Content Areas (3-0). An examination of reading and writing processes across the content areas with an emphasis on planning instruction, implementing strategies, and selecting materials for the elementary classroom.</td>
</tr>
<tr>
<td>3335 Reading Development in the Elementary School (3-0). An understanding from birth through the elementary grades of reading development, methods of reading instruction, and instructional sequence. (Credit may not be earned for this course and Reading 3339.)</td>
</tr>
<tr>
<td>3336 Teaching Reading in the Language Arts Classroom (3-0). A study of the integrated language arts process in the elementary classroom. Focus on effective teaching of the language arts modes of listening, speaking, reading, writing, viewing, and representing.</td>
</tr>
<tr>
<td>3339 Reading in the Middle School Classroom (3-0). Examines reading and writing processes, the development of reading and writing abilities and skills, theories and models of reading, assessment, remedial strategies, planning, and materials for the 4-8 literacy learning environment. (Credit may not be earned for this course and Reading 3335.)</td>
</tr>
<tr>
<td>4301 Assessment and Evaluation of Reading and Writing (3-0). An examination of appropriate assessment and evaluation strategies for the classroom teacher to utilize. Both formal and informal assessment measures are introduced for evaluation of student performance and planning instruction. A field experience component is required.</td>
</tr>
<tr>
<td>4303 Reading and Language Arts: Instructional Strategies for the Elementary and Middle School Teacher (3-0). This field-based course emphasizes the integration of research and theories concerning the processes of learning reading and language arts knowledge and skills. This course is the capstone field-based experience in reading/language arts prior to the student teaching experience. A field component is required.</td>
</tr>
<tr>
<td>4320 Reading in the Secondary School Content Areas (3-0). A study of reading skills, learning and study and higher level thinking skills development in the content areas. Includes determining the readability of curriculum materials, adapting learning experiences, planning curriculum to accommodate student diversity in reading ability, and assessing student learning. A field experience component is required.</td>
</tr>
<tr>
<td>4602 Reading and Language Arts in the Elementary and Middle School. Students will apply integrated language arts knowledge and skills in a variety of settings in the elementary and middle school. This course is the capstone field-based experience in reading/language arts prior to the student teaching experience.</td>

Teacher Certification. The student who chooses theatre as a teaching field must complete: Theatre 1351 or 1352, 2331, 2334, 3331, 3334, 4311, 4312, 4321, 4341, plus 6 advanced semester hours.

B.A. Theatre, Design and Technology (120 hours)

Undergraduate Courses

1101 Theatre Practicum (0-3). Supervised laboratory assignments in areas of specialization. (May be repeated for a maximum of four semester credit hours but may not be used to meet theatre major or minor requirements.)

1104/DRAM 1120 Rehearsal and Performance (0-3). A program of activities to include participation in the cast and/or production staff of at least one dramatic production each semester. (May be repeated for a maximum of four semester credit hours but may not be used to meet theatre major or minor requirements.)

1311/DRAM 1310 Introduction to Dramatic Art (3-0). A historical survey of the development of dramatic art; introduction to contemporary theatre practice.

1351/DRAM 1351 Acting I (3-0). Study of acting techniques; vocal and physical training.

1352 Acting II (3-0). Study of acting techniques, vocal, and physical training with a focus on scene structure and character development.

2331/DRAM 1330 Technical Production (3-0). Basic techniques in scene construction; technical drafting for the stage; survey of technical areas of concentration. Theatre 1101 must be taken in conjunction with this course.

2334 Stage Lighting (3-0). Study of design principles and techniques of lighting for the stage. Theatre 1101 must be taken in conjunction with this course.

2345 Computer Applications for the Theatre (3-0). The use of computers in designing for theatrical production, with study of basic computer software for scenic, lighting, costume, sound, promotions and projections design.

3311 Dramatic Literature (3-0). A critical study of representative 20th-21st Century drama with emphasis on script analysis, dramatic theory, and stage production.

3320 Vocal Production (3-0). Development of clear articulation and enunciation, correct pronunciation, proper vowel placement and control of the speaking voice through study and exercise specifically for the actor.

3331 Theatre Production Management (3-0). Management of the physical stage; production schedules; box office; public relations. Theatre 1101 must be taken in conjunction with this course. Prerequisite: Theatre 1351 or 1352.

3334 Scene Design (3-0). Basic techniques of scenery design; ground plans, renderings, elevations; perspective drawing. Prerequisites: Theatre 2331 and 2345, or consent of instructor.

3341 Costume Design and Construction (3-0). Study of historical costume with emphasis on major cultures and historical periods. The nature and use of costume fabrics and sewing implements; cutting, with and without patterns; pattern-making and alteration; wardrobe management. Theatre 1101 must be taken in conjunction with this course.

3353 Acting III - Styles (3-0). An exploration of special problems the actor encounters with dramatic texts from various periods. Plays, manners, customs, and movement characteristics of Greek, Elizabethan, French Neo-classical, and Restoration periods will be studied through monologue work.

4301 Senior Seminar (3-0). Capstone course for all areas of theatre, emphasizing portfolio development and other preparation for entry into the theatre profession. Course topics also include: professional communication excellence, job interviewing, team communication, cultural sensitivity, and work-life balance. (Credit may not be earned for this course and Communication 4301 or Mass Media 4301.)

4311 History of Dramatic Art I (3-0). A historical study of the theatre from primitive times to the Eighteenth Century. Course includes an examination of the physical theatre, acting styles, costumes and scenery, representative plays, and theories of drama applicable to the various periods under consideration.

4312 History of Dramatic Art II (3-0). A historical study of the theatre from the Eighteenth Century to the present. Includes a study of the physical theatre, development of modern drama, acting styles, and theories of drama applicable to the various periods under consideration.

4314 Playwriting (3-0). Analysis of play structure. Each student will write a one-act play to demonstrate comprehension of the processes involved.

4321 Directing (3-0). Basic techniques of directing for the stage; scene interpretation; pictorial composition. Students direct and supervise production of short scenes. Prerequisites: Theatre 1351 or 1352, 2331, 2334.

4331 Stage Make-up (3-0). Basic techniques in the application of theatrical make-up, corrective, character, and nonrealistic types.

4351 Acting IV - Advanced Acting (3-0). Focus on acting for the camera, alternative approaches to acting and preparation of career development pro-
cess - development of resume, headshots, portfolio, auditioning, markets, etc. A study of the essential elements of theatre production. Criteria for
evaluating and selecting plays and the philosophy of performance theories.
Prerequisite: Theatre 1351 or 1352, or permission of instructor.

4381 Special Topics (3-0). A course dealing with selected topics in the-
atre. May be repeated once for credit when topic varies.
Prerequisites: Senior standing and department chair approval.

4391 Research. A specialized course which may be directed reading or
research for superior students majoring in theatre.
Prerequisites: Senior standing and department chair approval.
Center for International Studies

Director: Sharynn M. Tomlin, Ph.D.
Office: East Office Annex
Telephone: 325-942-2083, Fax: 325-942-2084

Angelo State University (ASU) is committed to providing its students a globalized education in an effort to prepare them for an ever-changing world. The Center for International Studies (CIS) provides international and educational opportunities for students and faculty and emphasizes the importance of international connections and partnerships as a catalyst for change. The CIS encompasses four inter-related services: Study Abroad, International Students and Scholars Services, English Language Learners Institute, and K-12 programs. Additionally, the CIS sponsors the Student Scholars program to provide scholarships for students involved in international research and internships, the Faculty International Advancement Program, the Summer Institute for visiting programs from exchange institutions and is the campus Peace Corp advocate office. The CIS is an official U.S. passport acceptance agency providing passport services to ASU and the San Angelo community.

International Students and Scholars Services (ISSS)
Angelo State University welcomes students from countries around the world. Our office serves both prospective and current international students. Listed below are the admissions requirements for international students to attend Angelo State University.

International Undergraduate Student Admissions

Angelo State University is authorized under Federal law to enroll nonimmigrant alien students. International applicants for graduate admissions must meet requirements for graduate programs. A student from a foreign country will be eligible for admission to Angelo State University and a Form I-20, Certificate for Eligibility, will be issued when all admission requirements have been met and the following items are on file in the Center for International Studies:

I. Graduates of foreign secondary schools who have completed the equivalent of at least an American high school diploma (12th grade) may apply for admission to Angelo State University by writing to the Center for International Studies and submitting the online application at https://www.applytexas.org. The mailing address for the Center for International Studies is ASU Station #11035, San Angelo, TX 76909-1035, and the website address is http://www.angelo.edu/dept/cis/.

II. Applicants with foreign academic credentials must provide academic records in the original language with a certified English translation. Applicants who have attended school outside the United States must provide official results of secondary external examinations (e.g., GCE “Ordinary” level exams) on examination board letterhead, certificates of completion of a state secondary school examination, and official transcripts from any university-level studies already completed in the United States or elsewhere. Failure to provide complete information regarding post-secondary level study could result in cancellation of admission. Students who have completed secondary school in the United States also must take and submit scores from the SAT or ACT.

III. Students whose native language is not English also must present a score of at least 550 (paper-based exam), 213 (computer-based exam), or 79 (internet-based exam) on the Test of English as a Foreign Language (TOEFL). Or students may present a score of at least 6.5 on the International English Language Testing System (IELTS). The TOEFL/IELTS requirement may be waived if the student has attended a U.S. high school or college for at least two consecutive years or if the student is a citizen in a country where English is the native language. Angelo State University will make the final decision regarding approved English speaking countries. A list of approved English speaking countries is on file in the Center for International Studies. Information concerning the TOEFL may be obtained from Educational Testing Service, P.O. Box 899, Princeton, New Jersey 08540, U.S.A. Information concerning the IELTS may be obtained from IELTS International, 825 Colorado Boulevard, Suite 112, Los Angeles, California 90041, U.S.A.

Students not meeting the TOEFL or IELTS requirements can apply to the English Language Learners Institute (ELLI) and may be provisionally admitted. After successful completion of ELLI requirements, students may begin their undergraduate program.

IV. International students not living in the United States are encouraged to apply a year in advance. International students are required to verify their ability to support themselves financially. Please visit the Center for International Studies website for more information on the cost to attend. The website address is: http://www.angelo.edu/dept/cis/admission_requirements.php

V. A nonrefundable application fee is required. An International Money Order or U.S. Postal Money Order for the current application fee must accompany the international student application. Students who apply on-line through the Texas Common Application may pay the current application fee with a credit card at the time of application.

An international applicant must have all of these items on file in the Center for International Studies no later than June 10 in order to register for the fall semester, November 1 to register for the spring semester, and March 15 to register for the summer session.

International students are subject to the same special requirements regarding satisfactory writing, reading, and mathematics skills as imposed on high school graduates or transfer students based upon their scores on their ACT or SAT exams and the requirements established by the Texas Success Initiative (TSI). *

Other Provisions and Conditions of Admission. All other provisions and conditions of admission not covered by the above admission requirements shall be established by the President of the University.

* See page 287 regarding TSI requirements.
Center for International Studies

International Graduate Student Admissions

Angelo State University is authorized under Federal law to enroll nonimmigrant alien students. International applicants for graduate admissions must meet requirements for graduate programs. A student from a foreign country will be eligible for admission to Angelo State University and a Form I-20, Certificate for Eligibility, will be issued when all admission requirements have been met and the following items are on file in the Center for International Studies:

- Application for Admission * with mandatory non-refundable $50 application fee (international money order payable in U.S. dollars).
- Official transcript of previous academic records.
- All graduate admission requirements (beginning on page 24)
- ASU Official Financial Statement completed by sponsor and original bank statement or letter (with amounts in U.S. dollars) guaranteeing the applicant’s financial support while in the United States.

An international applicant must have all of these items on file in the Center for International Studies no later than June 10 in order to register for the fall semester, November 1 to register for the spring semester, and March 15 to register for the summer session.

Other Provisions and Conditions of Admission. All other provisions and conditions of admission not covered by the above admission requirements shall be established by the President of the University.

Insurance Requirement for International Students

All international students will be automatically billed by ASU for the Group Hospitalization, Medical U.S. Evacuation, and Repatriation Insurance plan provided through the University for each semester enrolled. Further information regarding insurance coverage and cost may be obtained from the University’s Center for International Studies.

Study Abroad

Each year the University offers a variety of summer study abroad programs which are developed and directed by ASU faculty. In recent years, students from Angelo State University have spent their summer sessions in locations such as Australia, China, Costa Rica, France, Germany, Italy, Greece, Mexico, New Zealand, Russia, and United Kingdom. Additionally, opportunities for international internship and research experiences are provided to ASU students in certain specialized programs. Students typically earn six hours of credit in the summer programs. Courses vary each year.

Angelo State University has also entered into exchange agreements with institutes and universities from Costa Rica, Mexico, Germany, France, Italy, the Netherlands, South Korea, United Kingdom, and Poland, which enable ASU students to study abroad for a semester or an academic year. These agreements also provide opportunities for international students to study at Angelo State University where they contribute to the learning environment for ASU students through their participation in class and extracurricular activities. In addition, the University provides information and advising for the student who is interested in studying independently at an overseas university. Students who are selected to participate in a study abroad experience are eligible to apply for the International Studies scholarships.

English Language Learners Institute

If you are interested in improving your English language skills, the intensive English Language Learners Institute (ELLI) program at Angelo State University (ASU) will provide you with the opportunity to study and practice the language in an outstanding academic environment. The English Language Learners Institute is located in the Center for International Studies on the campus of ASU in San Angelo, Texas.

ELLI is a non-credit program for non-native English speakers who want to learn English for academic and professional purposes. The classes are designed for people who have an interest in studying at universities and colleges in the United States. Additionally, people who would like a short-term American study experience in order to improve their English are also encouraged to attend. Prospective students take a placement test before starting the program and are assigned to the appropriate level of class. Students who successfully complete the highest level are given a TOEFL waiver for ASU undergraduate and select graduate programs. For further information contact: ELLI@angelo.edu or visit the Center for International Studies.

Course Descriptions

International Studies (ISTD)

Undergraduate Course

ISTD 3381 Special Topics In International Studies (3-0). These courses are designed for classes offered through the study abroad program and are often interdisciplinary in nature. (Course topics vary by program and each course may be repeated when the topic varies.)

Graduate Courses

ISTD 6314 Multinational Management Strategy (3-0). This course is designed as a class offered through the study abroad program. An advanced study of global strategies and management practices as compared with those in the European Union. Special focus will be given to creating a single, seamless organization capable of operating in a dynamic international environment.

ISTD 6381 Special Topics in International Studies (3-0). These courses are designed for classes offered through the study abroad program and are often interdisciplinary in nature. (Course topics vary by program and each course may be repeated when the topic varies.)

*An Application for Admission form may be obtained by accessing the online application at www.applytexas.org.
Testing Center

Coordinator: Lorri Morris
Office: Vincent Nursing-Physical Science, Room 291
Telephone: 325-942-2624, Fax: 325-942-2215
Email: testingcenter@angelo.edu

The mission of the Testing Center is to meet the needs of the ASU community and the Greater Concho Valley by providing national standardized testing, both paper-based and online. The Testing Center is also here to support the needs of the university’s academic departments by providing secure course-related testing using the Blackboard course management system.

A variety of college entrance (undergraduate and graduate), vocational, guidance, state-mandated, distance learning, and/or placement exams are available at Angelo State University. The Testing Center is an open testing facility (testing ASU students as well as the general public), has limited seating, and reservations are made on a first come-first served basis.

The Testing Center is located in the Vincent Nursing-Physical Science Building, Room 291 (2333 Vanderventer Avenue). For available tests, testing policies, fees and/or scheduling an exam, contact the Testing Center at 325-942-2624, or email testingcenter@angelo.edu. For the most current information you may also visit the web at http://www.angelo.edu/services/testing_center/.
The Angelo State University Honors Program is designed to provide an enriched learning experience that will enhance the education of academically talented and motivated ASU students. At the heart of the program is a learning community of capable and intellectually curious students who seek breadth and depth in their education and commit to becoming well rounded students and citizens. The program challenges students to delve deeply into their academic studies, to develop their critical thinking and analytical skills, and to actively engage in university and community life. The Honors Program offers a variety of courses, cultural events, and community engagement activities designed to foster community and help individual students maximize their intellectual and personal talents.

**Mission Statement**

The Honors Program at Angelo State University will provide students with the opportunity to:

- partner with other students and faculty in a unique learning community;
- achieve a deeper understanding of course materials;
- participate in undergraduate research opportunities;
- develop leadership qualities that enhance career prospects and personal lives;
- engage in service activities that nurture an understanding of the diverse needs of society and foster responsible citizenship; and
- participate in cultural and intellectual events that enhance understanding and appreciation of the broader world.

**Honors Curriculum**

This curricular option is available only to students entering the program beginning Fall 2011.

The Honors Program curriculum requires a minimum of 18 semester hours as specified below to receive High University Honors. Students wishing to achieve Highest University Honors complete the same curriculum plus an additional 3 semester hours honors thesis requirement. Students are encouraged to take additional honors credits as their degree plans allow. The curriculum is designed to be a viable option for most majors.

**Honors Core Curriculum Courses**

**Honors Courses**

- Honors 2302 - Great Works in the Arts
- Honors 2305 - Honors Seminar in the Humanities

**Course Descriptions**

**Honors Curriculum (HONR)**

**Undergraduate Courses**

2302 Great Works in the Arts (3-0). The course introduces students to the aesthetic, compositional, motivational, and cultural elements of the visual and performing arts. This course satisfies the core performing arts requirement for Honors students.

Prerequisite: English 1302

2305 Honors Seminar in the Humanities (3-0). A seminar-style course for first year Honors students. Students explore fundamental questions and issues in the humanities from a variety of perspectives, including the historical, cultural, philosophical, and scientific perspectives. This course satisfies the core humanities requirement for Honors students.

Prerequisite: English 1302

3191 Honors Exploration of Physical Therapy Pathologies (1-0). This seminar-style course will focus on pathologies in a topic selected by the instructor (orthopedic, neurologic, or cardiopulmonary disorders). Students will have the opportunity to learn about the disorders, medical diagnosing and treatment of the disorders, and to read research papers related to the diagnosis, treatment and prognosis of the disorders.

Prerequisites: Biology 1480, Biology 2423, and Biology 2424.

3291 Honors Research with Physical Therapy Focus (0-6). This course provides the Honors Program student with the opportunity to implement the research proposal developed in Honors 3281 in conjunction with ongoing research endeavors of Physical Therapy faculty members. The course may be repeated up to 3 times as research progresses. Permission of instructor required.

Prerequisites: Biology 1480, Biology 2423, and Biology 2424.

3381 Honors Senior Seminar (3-0). Readings and research on selected topics taught from a multidisciplinary perspective. May be repeated once for credit when the topic varies.

Prerequisites: Junior or senior classification and good standing in the Honors Program.
4191, 4291, 4391 Honors Research. Individual research problems for Honors Program students. May be repeated to a total of six semester hours of credit. This course is open only to current Honors Program students.
Prerequisites: Six hours of honors courses. Student must be in good standing with the Honors Program and should be a junior or senior. Permission of instructor required.

4373 Internship. This course is intended to provide Honors Program students the opportunity to perform an internship with an organization through the Honors Program. Internships through the Honors Program typically satisfy one or more of the major goals within the Honors Program. This course is only open to current students in the Honors Program. May be repeated for a total of six hours of credit.
Prerequisites: Six hours of honors courses. Student must be in good standing with the Honors Program and should be a junior or senior.

4381 Honors Research Seminar (3-0). Research seminar for Honors Program students focused on designing, implementing, and presenting original projects suited to the individual student’s discipline.
Prerequisites: Junior or senior classification.

4399 Honors Thesis. Faculty-directed independent research leading to the completion of the Honors Thesis project.
Prerequisites: Senior standing and permission of the Honors Program Director.
Numerous areas of study and research do not fit into a single disciplinary sphere, and in recent years the American academic community has given increasing attention to the interrelated nature of knowledge. It has become apparent that many significant topics of contemporary relevance are studied most appropriately through the use of data, theories, and methodologies from various academic disciplines. Program areas such as urban studies, environmental quality, and foreign area studies necessitate the use of insights from a variety of academic fields.

The University Studies Program at Angelo State University consists of courses which utilize an interdisciplinary or multidisciplinary approach. These courses will be designed and taught by members of the University faculty who have special interest in and qualifications for the utilization of the interdisciplinary approach.

With the approval of the appropriate academic dean, interdisciplinary courses may be used to fulfill general education and academic major requirements for baccalaureate degree programs. These courses also may be selected as electives in any of the baccalaureate degree programs offered by the University.

Course Descriptions

**University Studies (USTD)**

**Undergraduate Courses**

1101 Strategies for Learning (0-0). Explores strategies for academic success and personal management and techniques for implementation of those strategies. Grading will be either pass or fail.

1201 Critical Thinking (2-0). This course will introduce theories of learning, cognition, and motivation. Students will apply these theories to decision-making and problem-solving while making educational program and career choices.

2381 Special Topics in Interdisciplinary Studies (3-0).

3381 Special Topics in Interdisciplinary Studies (3-0). These courses are designed to consider selected topics which lend themselves to the use of an interdisciplinary approach. Guest lecturers, team-teaching, and field study often will be included. Courses in various fields of study may be offered through the medium of newspaper or television as they are made available. Each course may be repeated once for credit when topic varies.

**Gender Studies (GST)**

**Undergraduate Courses**

2301 Introduction to Gender Studies (3-0). Introductory survey of concepts and theories central to the study of gender and sexuality.

**Mexican American Studies (MAS)**

**Undergraduate Courses**

2301 Introduction to Mexican American Studies (3-0). The objective of this interdisciplinary course is to provide an introductory level survey of Mexican-origin people in the United States. The course examines the various political, social, cultural, and economic currents and influence that have shaped the Mexican American experience.
As a learning community, ASU is committed to providing a setting that encourages scholarship, intellectual growth and personal development. Students are expected to meet academic challenges, prepare for future endeavors and become productive members of the larger community.

Student Affairs and Enrollment Management focuses on a developmental co-curricular program for students that provides opportunities for engaged participation and learning to broaden their skills and perspectives. Students use support services for personal development and academic growth so that they can maximize their potential leadership experience and enhance their community development and personal values. Residential and physical environments are used to contribute to the students’ education, health and safety.

These collaborative learning opportunities reinforce the intention that all individuals have the opportunity to develop their personal identity and have the potential to become contributing citizens in the global community.

**Student Life Office**

The Student Life Office is concerned with the general welfare of all students. They work closely with students and faculty in the development of student life policies and programs. They offer direction in lifeskills and student development programs and services. Referrals for students with personal problems are also provided. The Student Life Office is located in the lower level of the University Center.

**Orientation Programs**

All freshman and transfer students attending the University for the first time should participate in the orientation programs for new students. These programs help the new students adjust to college life. During the orientation period, students meet with their academic advisors, prepare their class schedules, and register for their first semester classes. Orientation activities also serve in a personal and informal way to introduce the new students to the campus and acquaint them with the various programs and services which are available.

**Rambunctious Weekend**

Rambunctious Weekend is conducted the weekend prior to the beginning of fall classes. It is a time for new ASU students to come together with current students, to participate in wide ranging activities, and get to know each other and the campus community. Information on Rambunctious Weekend is available in the Student Life Office or on the web site at: www.angelo.edu/services/student_life/rambunctious.html.

**Dining Services**

Dining Services are provided on campus by Chartwells, a division of Compass Group NAD. There are two primary “all you can eat” dining locations—the Food Service Center and Roscoe’s Bistro in the University Center. In addition, there are two snack bar locations on campus—Crossroads Cafe in the University Center, which offers a full meal schedule 363 days per year (closed only on Thanksgiving Day and Christmas Day) and our newest location, Roscoe’s Den, located at the Super Slab. Chartwells also offers two Coffee Bar locations on campus—R&B’s in the University Center and Common Grounds in the Library. For more information about Chartwells, please contact Richard Gonzalez, Director of Dining Service, at 325-944-1888, or visit www.dineoncampus.com/angelo.

**Residence Halls**

Housing in the University residence halls provides a physical environment which is conducive to successful academic and student life. In addition to the excellent living and dining facilities provided at the residence halls, residence hall staffs offer a wide range of programs and activities to supplement the classroom experience as well as personal support.

**Students Health Services**

The University Health Clinic is available to all students who are currently enrolled in the University and have paid the Medical Services Fee for that semester in which semester credit hours are awarded. Distance learners may also pay the Medical Services Fee for access to Health Services. Without payment of the Medical Services Fee, distance learners do not have access to the services of the university clinic. The Clinic provides non-emergency, outpatient care Monday through Friday from 8:00 a.m. to 5:00 p.m. throughout the year and is closed on weekends (Saturday/Sunday) and all university observed holidays (when campus business offices are closed). However, medical care is still provided at a nearby medical clinic on the days that the clinic is closed from 7:00 a.m. to 10:00 p.m. (except Thanksgiving and Christmas days). Please contact your Residence Hall staff or University Police (non-residential students) for access to medical care when the clinic is closed. Clinic services include medical care by two Board Certified Advanced Practice Registered Nurses (APRN), nursing care, and health education. The Clinic provides many diagnostic services and treatments appropriate on an episodic, outpatient basis. It is not intended to substitute for the health maintenance care provided by the student’s primary care provider. However, it can provide invaluable service for the student who can’t see his/her private physician because of time restraints or distance. Any problem which can’t be treated in the Clinic may be referred off-campus for further evaluation/treatment as deemed necessary by the Clinic staff.

Once the Medical Service Fee is paid, there is no charge for examination, diagnosis, or consultation services provided by the Clinic staff. However, there may be charges for injections. Students referred by Clinic staff for health care services to an off-campus health care provider will be responsible for all related costs.
Currently enrolled students requiring emergency medical services while the Clinic is closed should contact University Police or their Area Coordinator.

All registered, domestic, undergraduate students enrolled in: six (6) or more credit hours during the long semester, three (3) or more credit hours during the summer are eligible to purchase a plan of accident and sickness insurance which supplements the University Health Clinic Services in major surgical, medical, accident, and prescription drug benefits during both the school term and vacation periods.

All registered international students on non-immigrant visas enrolled in one (1) or more credit hours are required to purchase the Student Health Insurance Plan, and are automatically enrolled in the Plan. Students must contact the Center for International Studies, to fulfill this requirement. All Health Professional Students enrolled in one (1) or more credit hours must be enrolled in the Plan, unless proof of comparable coverage is furnished to the Nursing and Rehabilitation Sciences Department.

Students who do not carry other comprehensive health insurance are strongly urged to enroll in a health care insurance plan, as the Clinic cannot provide hospitalization or comprehensive health care coverage. Insurance information is available in the Business Services Office.

**Counseling**

The university counselors are located in the Health Clinic. All of the counselors are LPCs (Licensed Professional Counselors) that provide limited individual and group counseling and crisis intervention on social, cultural, behavioral, developmental and other matters for students experiencing mental or behavioral problems. In consultation with mental health and medical personnel, the counselors assist students to overcome personal or other problems and assist students and others to develop and maintain high levels of personal and academic performance. In addition to providing outreach programs and services on educational, wellness, and life skills issues, counselors refer students to outside mental health or medical professionals as indicated by a preliminary assessment and scope of student problems.

**Career Development**

The Career Development office offers a variety of career-related services and resources to ASU students and alumni. These have been grouped into the following broad categories.

**Career Exploration.** Many students are undecided about a career direction or even a specific academic major. In addition, some who are satisfied with their academic plans may be uncertain how their academic interests relate specifically to employment opportunities after graduation. Career Development provides several services to address the needs of these individuals, including: career counseling, the administration and interpretation of various career inventories, occupation information, assistance researching career fields, and academic planning for employment.

**Part-Time Employment.** Part-time employment can be an important part of the total education experience. A part-time job listing service is maintained in Career Development as a means to assist students in securing employment on campus or within businesses in the area. A variety of jobs are available to Angelo State University students and can be accessed through the Career Development website: [www.angelo.edu/services/career/](http://www.angelo.edu/services/career/). But please be aware studies indicate that grades begin to suffer when students don’t limit the number of hours worked to less than 20 per week.

**Job Search.** Career Development offers assistance with the various components of a successful job search, including resume writing, interviewing skills, networking, dining etiquette, salary negotiation, and more. Many helpful resources can be accessed through the Career Development website at [www.angelo.edu/services/career/](http://www.angelo.edu/services/career/).

For more information or to schedule an appointment, contact Career Development at 325-942-2255 or come by the office located in the Houston Harte University Center, Room 107.

**VETS Center**

The Veterans Educational and Transitional Services (VETS) Center is here to help veterans and their dependent spouses be successful in their pursuit of higher education. To that end, the university works in cooperation with the U.S. Department of Veterans Affairs (VA) and the Texas Veterans Commission.

In addition to helping veterans secure financial aid, our office helps veterans obtain tutoring assistance. Angelo State University was designated as one of the nation’s “Military Friendly Schools” by G.I. Jobs magazine for 2013 (the fourth consecutive year).

Angelo State University is committed to the principle that no qualified student with a disability, shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments Act of 2008 (ADAAA), and subsequent legislation. All students at Angelo State University must have the capacity and ambition to undertake, with reasonable accommodation from the faculty and administration, the academic challenges necessary to fulfill the academic requirements for the degree or certification programs which they are pursuing.

All programs, services, and activities on the campus of Angelo State University are accessible to students with disabilities. Students with disabilities who desire to live on campus will find housing and dining facilities available and accessible.

The Office of Student Affairs is the designated campus department charged with the responsibility of reviewing and authorizing requests for reasonable accommodations based on a disability, and it is the student’s responsibility to initiate such a request by contacting the Office of Student Affairs, University Center, Room 112, at 325-942-2047 or 325-942-2211 (TDD/FAX) or by e-mail at studentservices@angelo.edu to begin the process. The Office of Student Affairs will establish the particular documentation requirements necessary for the various types of disabilities. Requests for reasonable accommodations for non-academic settings will also be reviewed and handled by the Office of Student Affairs in coordination with other campus departments.

Requests for reasonable academic accommodations will be reviewed on a case-by-case basis, taking into account the essential elements of the academic course and/or the degree being sought. To the extent practical, the Office of Student Affairs, working in collaboration with the appropriate academic and/or administrative department, will authorize reasonable accommodations to assist qualified individuals with disabilities to have full and equal access to the programs and services of the university and a full and equal opportunity to meet the academic requirements of their courses.
and/or their degree requirements, consistent with published academic requirements and the applicable provisions of federal and state legislation.

**Houston Harte University Center**

The facilities, services, and programs of the Houston Harte University Center provide for a wide variety of out-of-class student activities on an individual or organized basis. In addition to recreational and dining facilities, the Center contains several lounges, offices for the University Center Program Council, offices for student government, the Business Services Offices (where building management, reservations services, and vending services reside) and the Campus Information Desk. The Division of SAEM is headquartered there along with Student Life, the Center for Student Involvement (student organization headquarters), the Multicultural Center, Career Development, Veterans Educational and Transitional Services Center, the ASU bookstore, a bank, the campus post office, meeting rooms, a spacious conference center, and the West Texas Collection.

**Student Government Association (SGA)**

All students regularly enrolled at Angelo State University are members of the Student Body. Each student in the Student Body is represented by the Student Senate and its elected officers. A faculty/staff sponsor and the Director of Student Life provide assistance and maintain liaison between students, faculty, and administration. The SGA office is located in the Center for Student Involvement in the lower level of the University Center.

**Student Records**

**Notification of Rights under Federal Family Educational Rights and Privacy Act (FERPA) for Postsecondary Institutions**

The Family Educational Rights and Privacy Act of 1974 (20 U.S.C.A. Section 1232g) protects certain rights of students who are enrolled in a postsecondary institution relative to their educational records. The Act grants students:

1. The right to inspect and review their education records within 45 days of the day Angelo State University receives a request for access. Students should submit to the registrar, dean, chair of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask Angelo State University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If Angelo State University decides not to amend the record as requested by the student, Angelo State University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Angelo State University to comply with the requirements of FERPA.

Prior to disclosure of any personally identifiable information other than directory information, except as allowed by the regulations, the University must obtain the written consent of the student and then must maintain a record of the disclosure. The categories included as directory information at Angelo State University which routinely will be made public upon request or published in appropriate University publications are:

The student’s name, local and permanent mailing address, photograph, major and minor fields of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, team photographs, dates of attendance, classification, enrollment status, degree candidate, degrees, awards and honors received, and type of award/honor, previous educational agency or institutions, and hometown.

Students who desire that their directory information not be released must submit a written request to the Registrar’s Office during the first twelve class days of the fall or spring semester or the first four class days of the summer terms. Forms for submitting the written request to withhold directory information are available in the Registrar’s Office.

**Access to Student Records**

The Family Educational Rights and Privacy Act of 1974 provides that students be apprised of the location of their educational records and the administrator responsible for their maintenance. Student records are filed in a variety of offices as listed in the Student Handbook. The administrative officers are responsible for the records under their control and for the appropriate release of information contained in these records. Angelo State University forwards educational records to other educational institutions in which a student seeks or intends to enroll without providing any further notice to the individual regarding the transfer of the records.

**Alcohol and Controlled Substance Violations: Parental Notification Policy (FERPA)**

The Director of Student Services is responsible for determining if and by what means parents or legal guardians will be notified when students under the age of 21 are found to have committed serious or repeated violations of federal, state, or local law, or University policies related to the possession, use, or distribution of alcohol or a controlled substance.
Student Affairs and Enrollment Management

Notification of parents or legal guardians for a violation of federal, state, or local law or institutional policy regarding alcohol or a controlled substance is indicated in any of the following circumstances:

- The violation involved harm or threat of harm to self, other persons, or property.
- The violation involved an arrest in which the student was taken into custody.
- The violation suggests a pattern of alcohol or controlled substance abuse.
- The student who committed the violation required medical intervention or transport as a result of consumption of alcohol or a controlled substance.
- The violation resulted in or could result in the student being disciplined by the University including but not limited to: housing contract probation, housing contract cancellation, disciplinary probation, deferred suspension, suspension, or expulsion.

The University supports students assuming personal responsibility and accountability for their actions as they learn to establish their own independence. The University also recognizes that the process of establishing personal independence requires support and, at times, assistance or intervention from others. In the appropriate circumstances, notification of parents or legal guardians can be a means of support in that transition for students. Consistent with this approach, the Director of Student Services or his/her designee — whenever possible — will involve the student in a discussion about the decision to notify his/her parents or legal guardian and will inform the student that notification will take place.

Nothing in these guidelines shall prevent University officials from notifying parents or legal guardians of health or safety emergencies, regardless of the judicial status of the student.

Student Organizations

Angelo State University has over 100 registered student organizations to enhance students’ learning and leadership opportunities. Participating in student organizations enhances educational experience, allows development of valuable interpersonal skills, and encourages the establishment of lifelong friendships.

For more information on student organizations visit our website at:
http://www.angelo.edu/services/csi/studentorganizations.html

Athletics

Intercollegiate athletics is an integral part of student life at Angelo State. Intercollegiate teams for men include football, basketball, baseball, outdoor track and field, and cross country. Intercollegiate teams for women include volleyball, soccer, basketball, softball, outdoor track and field, cross country, indoor track and field, and golf.

Angelo State is a member of the National Collegiate Athletic Association (NCAA) Division II and the Lone Star Conference. The Lone Star Conference is composed of teams from Texas, Oklahoma, and New Mexico.

Intercollegiate Athletic Offices are located in the Junell Center Stephens Arena and volleyball compete in the Junell Center Stephens Arena which seats 5500.

The LeGrand Sports Complex features a 400 meter, all-weather track and has hosted the NCAA Division II Outdoor Track and Field National Championships five times, most recently in spring 2009. The Rambelle softball team plays at the ASU Softball Complex, a 750 seat facility that has hosted several NCAA South Central Regional and Super Regional Championships. The baseball team plays at Foster Field, a 4200 seat facility located on the ASU campus that is also home to the San Angelo Colts, a professional team.

University Recreation and Intramurals

University Recreation (UREC) engages the campus community by stimulating growth and development of healthy lifestyles through participation opportunities and educational experiences in the areas of aquatics, fitness, intramural sports, open recreation, outdoor adventures, wellness, and youth programs. Activities range from popular team and individual/dual sports, Ram-X fitness classes, personalized fitness training, outdoor trips and workshops, and educational classes such as lifeguarding, water safety, and first aid/CPR training.

The newly constructed 20,000 square foot recreation addition includes a 40’ climbing tower and bouldering area, a weight room of 60 cardio pieces with free weight and pin select strength training equipment, and a three lane indoor track. This new addition complements the existing 80,000 square foot Center for Human Performance facility, which contains a 25-yard natatorium, gymnasium, two multipurpose rooms, locker rooms, and four racquetball courts.

The University maintains a large, attractive lakehouse and recreational facilities at nearby Lake Nasworthy. These facilities provide students with excellent opportunities for social events and for recreational activities such as swimming, boating, kayaking, sand volleyball, picnicking, outdoor basketball, and water skiing.
As per SB 263 of the 77th Texas Legislature, Angelo State University main-

General Statement Concerning Student Life
Attendance at a tax-supported educational institution of higher learning is optional and voluntary. By such voluntary entrance into the academic community of Angelo State University, students voluntarily assume the obligations of performance and behavior imposed by the University relevant to its lawful missions, processes, and functions. These obligations are in addition to those imposed on all citizens by the civil and criminal law.

When students enter Angelo State University, it is assumed they have serious purpose and a sincere interest in their own social and intellectual development. They are expected to learn to cope with problems with intelligence, reasonableness, and consideration for the rights of others; to obey laws and ordinances of the nation, the State of Texas, and community of which they, as well as their University, are a part; and to conduct themselves peaceably in espousing changes they may consider necessary. As they prize rights and freedoms for themselves, they are expected to respect the rights and freedoms of others.

Students are subject to federal, state, and local laws as well as University regulations and policies. A student is not entitled to greater immunities or privileges before a law than those enjoyed by other citizens generally. Students are subject to such reasonable disciplinary action as the administration of the University may consider appropriate, including suspension, dismissal, and expulsion in appropriate cases, for breach of federal, state, or local laws, or University regulations or policies. This principle extends to conduct off campus which is likely to have adverse effect on the University or on the educational process.

University Policies, Rules, and Regulations
University policies, rules, and regulations relating to Angelo State University students are made with the view of protecting the best interests of the individual, the general welfare of the entire student body, and the educational objectives of the University. Specific University policies, rules, and regulations governing student conduct adopted by the Board of Regents and the Administration of Angelo State University are provided in the Code of Conduct published in the Student Handbook. It is the responsibility of each student to become informed regarding these policies, rules, and regulations and to abide by them at all times.

Travel Management Policy and Procedures
As per SB 263 of the 77th Texas Legislature, Angelo State University maintains a policy that regulates student travel.

Angelo State University
Student/Group Travel Management Policy and Procedures

1. General
These procedures apply to anyone who engages in transporting students on any university business or related travel activities. On a case-by-case basis, the vice president for finance and administration or designated representative may authorize exceptions to these procedures.

The following procedures are minimum standards; departments may mandate additional procedures. These procedures pertain to students who travel more than 25 miles from campus to an activity or event that is organized and sponsored by the institution and that is (a) funded by the institution and the travel is undertaken using a vehicle owned or leased by the institution, or (b) required by a student organization officially registered at the institution. These procedures also apply to commercial transportation and privately owned vehicles.

State appropriated funds cannot be used to pay for student travel.

2. Board Authorization
The university president is authorized by the Board of Regents of The Texas Tech University System to establish and administer regulations and procedures for the efficient management of the university. The enabling legislation of this policy is SB 263 of the 77th Texas Legislature. (Refer to Texas Education Code, Chapter 51, Section 51.950.) Said legislation and the university president represent the controlling authority of this policy and procedures.

3. Travel Requirements and Planning
A. Student Travel Requirements
(1) Student Travel (departmental or organization)
An employee (faculty, staff, teaching assistant or graduate assistant) must be accountable for out-of-town trips involving departmental student groups or sponsored student organizations and ensure that all travel documents are completed prior to travel. An accountable employee must accompany the students unless prior approval to travel without accompaniment is granted by the appropriate vice president on the Student/Group Travel Form.

(2) Students Traveling to Present Research Papers
Students traveling to professional conferences to present their research are not required to have an employee accompany them. The steps outlined in 3.B. below are applicable, and an employee (faculty member or academic administrator) must be accountable for the student’s travel.

B. The accountable employee must complete the following steps:
(1) Complete one (1) Travel Authorization Request (TAR) form for the employee accountable for the trip, including the name(s) of the student(s).
   a. Any prepaid services (airfare, hotel, rental car) should be indicated on the TAR by checking the appropriate box.
   b. When SOLF (Student Organizational Leadership Funds) are being used for student travel, the advisor must also complete the required SOLF forms and documentation required by Student Involvement.

(2) Complete Student/Group Travel Form.
(3) Complete the “Student/Group Travel List.”
(4) Have each trip participant complete a “Student Activity Release Form” and/or “Student Activity Release Form Private Vehicle” and return it to the department administrator who is responsible for retaining the releases. For athletics and other team travel, blanket releases may be completed and submitted at the beginning of each year.
(5) Have each trip participant sign and date the “Travel Allowance Form” if students are provided the allowed city rate per diem for meals. Attach the Travel Allowance Form to the expense report. Meal receipts are not required if this form is used.
(6) Send a duplicate copy of the Student/Group Travel Form and Student/Group Travel List to the University Police Department ten (10) days prior to the trip.
4. Student Travel Advances
A. Travel Advances
   (1) Cash advances will be given only to the employee accountable for the student travel and expenses. An approved TAR requesting an advance must be received by the Travel Office at least five (5) working days prior to the trip.
   (2) Travel Advance Cards (TAC) are available as an alternative to cash advances when an employee travels with the students. An approved TAR requesting an advance must be received by the Travel Office at least fifteen (15) working days prior to the trip to allow time for delivery of TAC.
B. After the trip, the accountable employee must complete a “Student Travel Expense Report” within fifteen (15) days after the trip and attach all required documentation. Only the expenses for the employee accountable for the trip can be included with the students’ expenses on the expense report; however, employees can include their travel on the student expense report if the student travel is for the following:
   (1) Coaches or directors for band, choir, or athletics.
   (2) Faculty or other full-time employees accompanying student group travel for academic conferences, competitions, or presentations of papers.
Any additional employees who accompany the students must complete an individual Travel Authorization Request and Travel Expense Log with accompanying documents.
C. Any unused funds should be returned to the Student Accounts Office with the Student Travel Expense Report. If the Student Travel Expense Report exceeds the amount of the advance, a reimbursement check will be issued to the accountable employee for the difference.
D. The accountable employee who fails to submit the Student Travel Expense Report and unused funds within the allotted time for two trips will be denied any future advances. Exceptions to this policy will be handled on an individual basis. The employee must contact the Travel Office and explain the need for an extension.

In addition to following these procedures, employees and students are required to comply with all operating policies for university travel.

5. Reserving Vehicles through State-Contracted Rental Companies
A. Drivers must be approved to drive prior to reserving a rental vehicle.
B. Reservations for rental vehicles must be made by an accountable employee in the department or by the Travel Office (when requesting prepayment of services). Students and temporary/casual employees cannot reserve rental vehicles.
C. Employees can use a state corporate travel card, a personal credit card, or request to use the Business Travel Account (BTA) to reserve rental vehicles. The rental company cannot accept purchase orders to reserve vehicles.
D. The rental company will not charge Texas state taxes for trips that are business related and are reserved and paid for by the Travel Office. If travelers use any type of personal charge card, including a state of Texas Travel card, taxes will be assessed and later reimbursed by submitting charge on an expense log.
E. Personal Accident Insurance (PAI) must be purchased through the rental company for students traveling in rental vehicles who are not university employees.

6. Driver Eligibility and Vehicle Safety Requirements
For information on driver eligibility and vehicle safety requirements, please refer to Operating Policy 36.03. In the event of a vehicle accident or breakdown, the employee or sponsor accompanying the students should contact his/her department and provide an update on the travel itinerary.

7. Commercial Transportation
Students traveling by commercial transportation must comply with all federal laws regulating travel and the rules of the specific carrier, including laws and rules regarding carry-on baggage and baggage weight restrictions.

8. Trip Insurance
Angelo State University does not provide trip accident insurance for individuals not employed by the university. Contact the Office of Environmental Health, Safety and Risk Management regarding optional trip insurance which is available at a reasonable cost.
Undergraduate Academic Regulations

Notice: The regulations are based upon present conditions and are subject to change without notice.

**Student Responsibility**

Each student is responsible for knowing the academic regulations in the University Catalog. Unfamiliarity with these regulations does not constitute a valid reason for failure to fulfill them. Eligibility to register at each registration period must be determined by the student. A student has the responsibility to register only in courses for which he or she is eligible. If a student registers in a course for which he or she is ineligible, the student may be administratively dropped without receiving any credit for work done.

**General Information**

The Academic Year. The college year consists of a long session and a summer session. The long session is divided into the fall semester and the spring semester, each approximately fifteen weeks long, including registration, holidays, and final examinations. The summer session is divided into two terms.

Semester Credit Hour. The semester credit hour (SCH) is the basic unit of credit. As a rule, one semester credit hour of academic credit is given for each lecture class hour per week for a fifteen week semester. In laboratory or studio situations, one semester credit hour normally is given for two to five contact hours per week for a fifteen week semester. During eight-week terms and summer sessions, the student earns semester credit hours for class contact hours which are essentially equivalent in number to those provided in the long semesters. Where semester hour is used in this Catalog, it is synonymous with semester credit hour (SCH).

**Classification of an Undergraduate Student**

A student is classified according to the number of semester hours successfully completed:

- 00-29 Freshman
- 30-59 Sophomore
- 60-89 Junior
- 90 or more Senior

On the basis of semester credit hour load, a student is classified as part-time or full-time during the academic year. A full-time student is one who is enrolled for at least twelve semester credit hours during a semester. A part-time student is one who is enrolled for fewer than twelve semester credit hours during a semester. A full-time student during the Summer I term is one who is enrolled for six or more semester credit hours for that term. A full-time student during the Summer II term is one who is enrolled for six or more semester credit hours for that term. The part-time student is subject to the same academic regulations as the full-time student.

**Student Participation in Testing and/or Evaluation and Assessment**

The State of Texas mandates various testing programs for students attending public universities; and the Southern Association of Colleges and Schools Commission on Colleges, the collegiate accrediting body for post-secondary degree-granting institutions in Texas, requires that accredited institutions establish adequate procedures for evaluating the effectiveness of their instructional programs and the achievement of their educational goals.

In carrying out these responsibilities, Angelo State University will require such testing of its students or conduct such other programs of evaluation as required by law or deemed necessary or appropriate at the sole discretion of the faculty and administration. Such tests or programs of evaluation will be initiated, implemented, or administered at any time without prior notice to or the approval of any student who is enrolled or who is planning to enroll in Angelo State University.

Many departments require that students complete a comprehensive examination of learning outcomes within their major prior to graduation. The results of this examination will become part of each student’s record.

**Texas Success Initiative (TSI)**

Purpose. The Texas Success Initiative (TSI) was established by the State Legislature to assess the readiness of entering college students to enroll in college-level academic course work and to assist students who are not yet ready to enroll in that course work by providing advising and educational support necessary for college success. [http://www.angelo.edu/dept/advising/texas_success_initiative.php](http://www.angelo.edu/dept/advising/texas_success_initiative.php)

Testing Requirements. Each undergraduate student, unless otherwise exempt, who enters a public institution of higher education will be tested for reading, writing, and mathematics skills prior to enrolling in any college-level academic course work. To satisfy this requirement, the student will be required to take one of the state approved assessment tests (THEA, ASSET, ACCUPLACER, COMPASS). High school students who are not exempt should take one of the TSI assessment tests as soon as they become eligible, preferably before they graduate from high school. A student who transfers to Angelo State University from a private or out-of-state institution must meet TSI requirements prior to enrolling in any college-level academic course work by 1) passing all sections of a TSI approved assessment exam; or 2) having earned a grade of “C” or better in a college-level academic course approved by Angelo State University.

Angelo State University will administer the Accuplacer test as the TSI approved assessment test. However, scores from any of the other TSI approved assessment tests (ASSET, THEA, and COMPASS) will be accepted. Angelo State University will administer the Accuplacer on designated dates. Students who need to take the Accuplacer in order to become eligible to enroll in college-level academic courses must make arrangements for testing through the Testing Center.

Effective August 26, 2013, the student, unless otherwise exempt, must take the new State TSI test.

A student who has not been tested for reading, writing, and mathematics skills prior to enrolling at Angelo State University may enroll in course work only under exceptional circumstances. The Office of the Registrar will determine a TSI assessment waiver on a case-by-case basis.
Academic Regulations

TSI Exemptions. Exemption from TSI requirements will be granted to any student who:

I. Has achieved the minimum score on the ACT, or SAT, or tests specified below:
   A. ACT - a composite score of at least 23 with a minimum score of 19 in the mathematics and/or the English sections;
   B. SAT - a recentered composite score of at least 1070 with a minimum score of 500 on the mathematics and/or the verbal section;
   C. TAKS - a minimum score on the exit level test of 2200 in Mathematics and/or 2200 in English/Language Arts (ELA) with a writing subscore of at least 3.

For exemption purposes, ACT and SAT scores may be no more than five years old, and exit-level TAKS scores may be no more than three years old. The exemption scores must be achieved at a single administration of the ACT or SAT or the first attempt of the TAKS.

II. Has graduated with an associate or baccalaureate degree from a Texas public institution of higher education.

III. Military exemptions and waivers:
   A. TSI is waived if the student is serving on active duty as a member of the armed forces of the United States or the Texas National Guard.
   B. TSI is waived if the student is currently serving and, for at least the three-year period preceding enrollment, has served as a member of a reserve component of the armed forces of the United States.
   C. A student is exempt if he/she was, on or after August 1, 1990, honorably discharged, retired, or released from active duty as a member of the armed forces of the United States or the Texas National Guard or service as a member of a reserve component of the armed forces of the United States.

An exemption is granted permanently. A waiver is granted temporarily and is subject to the student maintaining the status upon which the waiver is granted.

Other individuals who may be exempt from TSI assessment include certain non-degree seeking, temporary students. A student’s exempt status will be determined by the Office of Predeclared Advising.

Passing Standards. The minimum passing standards for the three skill areas on the Accuplacer have been set by the Texas Higher Education Coordinating Board as follows: reading — 78, mathematics (elementary algebra) — 63, and writing — 6 on essay or 5 on essay and 80 on sentence skills. The Board has also set passing standards for the other approved TSI assessment tests.

Effective August 26, 2013, the minimum passing standards for the three skill areas on the new State TSI test have been set by the Texas Higher Education Coordinating Board as follows: reading — 351, mathematics — 350, and writing — 5 on essay or 4 on essay and 363 on multiple choice section.

Developmental Education. A student who scores less than the minimum passing standard in any skill area must enroll in a prescribed developmental program for that area during the initial period of enrollment. The student may satisfy TSI requirements in four ways:

- pass the Accuplacer or other approved assessment test associated with that skill area. Effective August 26, 2013, the only approved assessment is the new State TSI test;
- earn a grade of “C” or better in the appropriate developmental course(s);
- successfully complete non-course-based developmental activities as prescribed by the appropriate department;
- take an approved course in that skill area and earn a grade of “C” or better. This option requires departmental approval.

Refer to the department sections of English and Modern Languages page 129 and/or Mathematics page 187 for a more detailed description of developmental programs for the various skill areas.

Designated College-Level Courses. The following courses, identified by Common Course Numbers, have been approved by Angelo State University to satisfy the indicated skill area on a TSI-approved test. The student who is not TSI complete in any skill area may not enroll in the courses identified below without department approval.

Learning Disabilities. Angelo State University considers all federal laws pertaining to individuals with disabilities when assessing and advising students who fail to meet the minimum passing standards of the TSI approved assessment test.

Performance on the Accuplacer test or any of the other state approved assessment tests shall not be used as a condition for admission to the university. The same rule applies effective August 26, 2013, to the new State TSI test.

All testing fees shall be paid by the student.

* Sophomore Literature courses will be evaluated by the Office of Admissions for application of the “C” or better option.
Name Change

Only a valid social security card will substantiate a legal name change for a student. A name change form and social security card must be submitted to the Office of the Registrar prior to the student’s next registration. Registration under a name different from that used in the student’s last enrollment cannot be accomplished without the above certification, which becomes a part of the student’s permanent file. All grade reports and transcripts are issued under the student’s legal name as recorded in the Office of the Registrar.

Numbering of Courses

The four-digit numbering system is based upon the following criteria: The level of the course is identified by the first number as follows: freshman, 1; sophomore, 2; junior, 3; senior, 4; and graduate, 5 and 6, with the exception of graduate Physical Therapy which uses 7. The semester credit hour value is identified by the second digit. The University and/or departmental codes are identified by the last two digits.

For an Angelo State University academic course which is equivalent to an academic course offered at a Texas state two-year college, the common course number assigned to the two-year colleges will be listed also. The Angelo State course number will be listed first followed by a slash, then the common course number. For example: History 1301 would be listed as 1301/1301.

In the portion of this Catalog dealing with curriculum and courses, descriptive titles of courses may be followed by two numbers in parentheses. The first number gives the number of lecture hours each week; the second gives the number of laboratory hours each week. For example, (3-2) indicates three hours of lecture and two hours of laboratory each week. Where three numbers appear, the last number refers to clinical supervision as in Nursing 3206 (1-0-3).

Courses which have an alpha character (i.e., English 130C and Mathematics 130C) are developmental (precollegiate) courses and may not be used to satisfy degree requirements at Angelo State University.

Maximum Course Loads

One Long Semester. A normal full course load for undergraduate students in a long semester is fifteen to eighteen semester credit hours. An undergraduate student with good academic standing (2.00 or better) may enroll for a maximum of eighteen semester credit hours. Students with a grade point average of 3.00 or better may be approved for a maximum of twenty semester credit hours by the chair of their academic major department or by the appropriate college dean. Approval for course loads larger than the stated maximums may be given by the appropriate college dean in exceptional circumstances and when the student has a grade point average of 3.50 or higher.

Summer Session. A student may enroll for six to seven semester credit hours for each summer term. The total load for the entire summer session shall not exceed fourteen semester credit hours, except that fifteen semester credit hours may be allowed for the graduating senior. Approval for course loads larger than the stated maximums for the summer session may be given by the appropriate college dean in exceptional circumstances only when the student has a grade point average of 3.50 or higher.

Excess Undergraduate Credit Hours Rule

Texas Education Code, Section 61.0595 and 54.014 (45-Hour Rule)

Purpose

This subchapter provides financial incentives for institutions to facilitate the progress of undergraduate students through their academic programs and incentives for students to complete their degree programs expeditiously.

Authority

Section 54.014 specifies the tuition that may be charged to students with excess hours. Section 61.0595 specifies the fundability of undergraduate credit hours.

Affected Students

- The limitation on funding of excess undergraduate credit hours applies only to hours generated by students who initially enroll as undergraduates in an institution of higher education in the 1999 fall semester or in a subsequent term. If a student has been enrolled as an undergraduate student in any public or private institution of higher education during any term prior to the 1999 fall semester, the student’s credit hours are exempt.
- Hours generated by non-resident students paying tuition at the rate provided for Texas residents are subject to the same limitations as hours generated by resident students.

Limitation on Formula Funding

Funding of excess undergraduate credit hours is limited as follows:

I. Universities and health-related institutions may not submit for formula funding hours attempted by an undergraduate student who has previously attempted 45 or more semester credit hours or its quarter-hour equivalent beyond the minimum number of hours required for completion of the degree program in which the student is enrolled.

II. An undergraduate student at a four-year institution who is not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours.

III. Students who enroll on a temporary basis in a university or health-related institution and are also enrolled in a private or independent institution of higher education or an out-of-state institution of higher education are considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours.

IV. For the purposes of the undergraduate limit, an undergraduate student who has entered into a master’s or professional degree program without first completing an undergraduate degree is considered no longer to be an undergraduate student after having completed the
equivalent of a bachelor’s degree or all of the course work normally taken during the first four years of undergraduate course work in the student’s degree program.

V. For the purposes of the undergraduate limit, students are treated for funding purposes as having whatever major they had on the official census day of the term in question. If a student changes majors during a term, that act does not retroactively change his/her eligibility under the limit.

VI. The following types of credit hours are exempt and do not count toward the limit:

A. hours earned by the student before receiving a baccalaureate degree that has been previously awarded to the student;
B. hours earned through examination or similar method without registering for a course;
C. hours from remedial and developmental courses, technical courses, workforce education courses, or other courses that would not generate academic credit that could be applied to a degree at the institution;
D. hours earned by the student at a private institution or an out-of-state institution; and
E. any hours not eligible for formula funding.

Tuition Charged to Affected Students

An institution of higher education may charge a higher tuition rate, not to exceed the rate charged to nonresident undergraduate students, to an undergraduate student whose hours can no longer be submitted for formula funding because of the funding limit defined in section 13.114 of this title (relating to Limitation on Formula Funding).

For further information, contact the Registrar’s Office.

Credit by Examination

Undergraduate students seeking their first baccalaureate degree may earn credit by examination at Angelo State University in a variety of fields. Selected College Level Examination Program (CLEP) General Examinations and Subject Examinations as well as local examinations are administered regularly in the University Credit by Examination Program.

Students who submit ACT or SAT scores to the University for admission purposes are eligible for credit in selected courses if 1) their test scores are high enough to qualify for credit, 2) they enroll at Angelo State University, 3) they satisfactorily complete a fall or spring semester and pass the applicable section of a Texas Success Initiative (TSI) assessment test.

Credit by examination may also be earned through the Defense Activity for Non-Traditional Education Support (DANTES) Subject Standardized Tests (DSST exams). Score reports submitted for DSST exams that have not been approved will be sent to the dean for evaluation by the appropriate departments.

All examinations in the Credit by Examination Program are available throughout the year with the exception of the ACT, SAT, and some local examinations which have separate established schedules. CLEP examinations are given by appointment.

Advanced registration is required for CLEP examinations. Candidates must register through the Testing Center at least four weeks prior to the administration date.

Fees are charged for all examinations to cover costs of administration, test materials, scoring, and program development. Information on local examination fees, CLEP examination fees, and registration fees may be found online at: http://www.angelo.edu/services/testing_center/

An individual who does not plan to register at Angelo State University and wishes to have scores forwarded to another institution must take a CLEP examination which is scored by the Educational Testing Service. ETS forwards the score to the designated institution. Since each college or university determines how it will use the CLEP examinations to award credit, individuals are urged to investigate the policies of the institution to which they plan to submit their scores. Information concerning the tests the institution recognizes, the required scores, essay requirements, and other conditions affecting the awarding of credit should be obtained from the institution prior to registering for any CLEP examination.

Students may also earn credit for specified Angelo State University courses by successful completion of Advanced Placement Examinations administered by the College Board in participating high schools. A score of 3 or higher is required to receive credit. The same policy guidelines apply to these examinations as they do to other tests in the credit by examination program.

The credit by examination program at Angelo State University is subject to the following policy guidelines.

- A student may take examinations for credit and have scores submitted to the Office of the Registrar prior to enrollment at Angelo State University. However, credit by examination will not be entered on the permanent record until the student has successfully completed a semester or summer term of academic work at Angelo State University. Information about scores required for credit on specific examinations may be obtained from the Office of the Registrar.
- To receive credit by examination, a student must pass the appropriate examination with a score that qualifies for credit. If a student receives credit by examination for a course and that credit is entered on the student’s permanent record, the student cannot at a later date decide that the credit is no longer desired and have the course removed from the student’s transcript. However, a student may repeat a course for which credit by examination was earned by enrolling in a regularly scheduled class and earning a grade for the course which would replace the credit earned by examination.
- Prior to registering for a CLEP examination or local examination, Angelo State University students must obtain the approval of the dean of the college in which they are majoring. Once students have registered for the CLEP exam, they will have two months (60 days) in which to take the exam. Normally, students are permitted to receive credit by examination for courses except when they have completed advanced level work in a particular field and are seeking additional lower-division credit in the same field.
- A student is not allowed to earn credit by examination for any course in which the student has a grade of “A”, “B”, “C”, “D”, “F”, “I”, “P”, “CR”, “NC”, or “AU”. Credit by examination may not be earned for a course which is prerequisite to another course in the same discipline for which the student has already earned credit. When such lower-division courses are required in a student’s
degree plan, the student is encouraged to seek a modification in the degree plan, substituting an advanced-level course for the lower-division course.

Credit earned by examination may not be used to reduce the residence requirements in any degree program.

None of the examinations in the University’s Credit by Examination Program may be taken more than one time in a six-month period.

**ACT and SAT.** Students scoring 29-31 on the English section of the ACT will receive credit for English 1301; 32 or above will receive credit for English 1301 and English 1302. Students scoring 32 or above on the Mathematics section will receive three semester credit hours in Mathematics 1302. Students scoring 29 or above on the Science Reasoning section will receive four semester credit hours in Physical Science (non-advanced credit with no ASU equivalent).

* Non-equivalent, non-advanced biology, criminal justice, geography, history, kinesiology, management, or physical science credit earned by passing one of these examinations will not be used for fulfilling major, minor, or certification requirements.

Students scoring 630-670 on the verbal section of the SAT will receive credit for English 1301; 680 or above will receive credit for English 1301 and 1302. Those scoring 630 or above will receive three semester credit hours in Mathematics 1302.

Students who earn non-advanced, non-equivalent credit in physical science on the basis of ACT scores will not use this credit for fulfilling major, minor, or certification requirements. Any student eligible to receive credit based on ACT or SAT scores must have these scores on file in the Office of Admissions prior to the last day of the first semester enrolled. It is the student’s responsibility to provide ACT or SAT scores to the Office of Admissions. Test scores cannot be older than five years. The credit will be awarded to the student in the first semester of enrollment. Credit will not be awarded after the student’s first semester at Angelo State University.

Credit by examination may be earned for the following courses. Credit by examination also may be earned for other University courses with the permission of the Provost and Vice President for Academic Affairs.

**CLEP General Examinations.** CLEP General Examination scores may be submitted for consideration for credit by individuals who have fewer than 30 semester credit hours, and in the examination areas in which they have not earned semester credit hours. For example, a first-year student who has earned no semester credit hours in the fine arts (art, drama, music) may take the CLEP General Examination in the humanities and submit the examination scores for credit.

First-year students at Angelo State University who desire to take a CLEP General Examination for credit should determine with the dean of the college in which they are majoring that they are eligible for the credit sought prior to registering for the examination. Eligibility will be determined according to the courses for which the student has earned credit during the first year.

- Credit for physical science (non-advanced credit with no ASU course equivalent) will be allowed if the student has not earned semester credit hours for any chemistry, geology, physical science, or physics course.
- Credit for University Studies 2381 (humanities fine arts) will be given if the student has not earned semester credit hours for any art, music, or theatre course.
- Credit for University Studies 2381 (social sciences and history) will be given if the student has not earned semester credit hours in an anthropology, economics, geography, political science, history, psychology, or sociology course.

* Non-equivalent, non-advanced biology, criminal justice, geography, history, kinesiology, management, or physical science credit earned by passing one of these examinations will not be used for fulfilling major, minor, or certification requirements.

** The student who successfully completes the examination in political science must also successfully complete one of the following courses in order to graduate: Political Science 2301, 3303, 4301, 4302.
International Baccalaureate Program

Angelo State University recognizes the International Baccalaureate (IB) Program. Students may receive credit if one of the following options apply:

**Option 1:** Angelo State University will award at least 24 semester hours of course specific credit in subject appropriate areas on all International Baccalaureate exam scores of 4 or above as long as the incoming freshman has earned an IB Diploma. The student must supply an official transcript indicating that the IB Diploma has been earned before any credit may be awarded. The credits are transferred, but not the grade. Credit earned in this manner may not be used to reduce the residence requirements in any degree program. Course credit will not be awarded on any IB exams where the score is a 3 or less. This may mean that the student will not receive 24 hours of college credit, even if he/she has an IB Diploma.

**Option 2:** If a student does not earn an IB Diploma, credit may be granted according to the following table. An official IB examination transcript must be sent to Angelo State University to receive credit. Credit earned in this manner may not be used to reduce the residence requirements in any degree program.

Academic Regulations

**College Board Advanced Placement Tests**

Students may earn credit for the following Angelo State University courses by successful completion of Advanced Placement examinations administered by the College Board in participating high schools. A score of 3 or higher is required to receive credit. The same policy guidelines apply to these examinations as to other tests in the credit by examination program.

* Courses for which credit will be earned are determined by the Department of Visual and Performing Arts.

** Non-equivalent, non-advanced credit earned by passing this examination will be used as elective credit.

***Students who take both the Calculus AB and the Calculus BC exam and pass both with a score of 3 or higher will be awarded a total of 5 credit hours as the AB exam duplicates material in the BC exam.

---

**Texas International Education Consortium, Inc.**

Angelo State University is a member of the Texas International Education Consortium, Inc. (TIEC) which coordinates international education in Texas for institutions of higher education. TIEC engages in separate and joint pursuit of international education exchange and aids institutions of higher education in Texas in building better international education programs for students, faculty, visitors, and participants of other nations.

---

**Credit for Correspondence and Extension**

Correspondence and extension courses are available for undergraduate students who are unable to enroll in residence courses. A student may transfer to the University from an accredited institution a total of thirty semester credit hours of undergraduate extension and correspondence work, of which no more than eighteen may be earned through correspondence.

An undergraduate student who is enrolled at Angelo State University and wishes to enroll concurrently at another institution for correspondence work must obtain approval from the appropriate academic dean if that credit is to apply toward an Angelo State University degree. In some cases, academic departments may designate courses in their degree programs which cannot be taken by correspondence because of lack of equivalency. Academic deans may not grant approval to take these designated courses by correspondence.

Students are discouraged from taking correspondence courses in the registration period in which they plan to graduate. If a student plans to use a correspondence course toward graduation or certification requirements, the student should plan ahead so that all work, including examinations, will be completed and official transcripts are received by Angelo State University at least three weeks prior to graduation. No correspondence course will be approved after the beginning of the semester in which the student plans to graduate.

Students may not repeat by correspondence any course in which a “D” or “F” has been earned at Angelo State University.

Maximum course load limits apply to all courses attempted by the student who is enrolled at Angelo State, whether those courses are attempted at Angelo State or elsewhere.

Students must complete any approved correspondence courses within twelve months of the date of approval by the appropriate academic dean.
Experiential Learning

Angelo State University does not award credit for non-academic experiences nor allow the use of experiential training toward a degree.

Enrollment Without Credit

A person who is approved for admission and who wishes to audit a course for no grade must obtain the permission of the chair of the department in which the course is offered, register for the course, and pay the appropriate tuition and fees.

The terms and conditions under which a student may participate in various aspects of the class shall be determined by and is subject to the approval of the faculty member conducting the class.

The student who audits a course does not enjoy the privilege of submitting papers or of receiving grades or credit for the course. However, the name of the student who audits a class does appear on the class roll with an Audit (AU) notation, and the audited course also is listed on the student’s permanent record with an Audit designation.

Any student auditing a class who is disruptive or otherwise distracts from the learning environment of the class may be dropped from the course.

With the approval of the chair of the appropriate academic department, a senior citizen who is 65 years of age or older may be allowed to audit certain courses offered by the University without payment of tuition or fees if space is available.

Information and paperwork may be obtained through the Registrar’s Office.

System of Grading

At the end of each semester and summer term final grades are available to all students via the RamPort Web system.

The following grades are used with the grade point value per semester credit hour.

<table>

</tr>
</tbody>
</table>

1. The grade “I” is given when the student is unable to complete the course because of illness or personal misfortune. An “I” that is not removed before the end of the next long semester automatically becomes an “F”. A graduate student will be allowed one year to remove a grade of “I” before it automatically becomes an “F”. To graduate from ASU, a student must complete all “I”’s.

2. The grade “PR” is given only to a student registered in Thesis 6399 or 6699 who, during the semester, makes satisfactory progress, but does not complete the thesis project.

3. The grade “NP” is given only to a student registered in Thesis 6399 or 6699 who, during the semester, does not make satisfactory progress on the thesis.

4. To determine the grade point average, the total number of quality hours is divided into the total number of quality points received.

5. Quality hours are defined as hours for which a student registers and receives a grade of either “A”, “B”, “C”, “D”, or “F”.

6. A course may be repeated without accumulating additional quality hours. For example, a student has passed a course with a grade of “F” or “D” in a course and then repeats the course and receives a grade of “C” will have three quality hours with six quality points awarded. However, a course may not be repeated which is part of a degree that has already been conferred.

7. The grade of “CR” is assigned only for credit earned by examination for a course in which the student does not actually enroll.

8. The grade of “P” is assigned only to courses designated in the Catalog as Pass/Fail courses.

9. The grade of “D” is not given in graduate courses.

A student earns quality (grade) points on the basis of the last grade (except for “AU”, “CR”, “I”, “NC”, “NP”, “P”, “W”, or “PR”) received in a course at ASU. Additional credit for a repeated course may not be awarded except as provided specifically in the course description.

Graduate Program

A grade point average of 3.00 or better on all graduate work completed on this campus is required for graduation. No course with a grade below “C” may be applied toward a master’s degree. Graduate students should note that a grade of “I” not removed within one year automatically becomes an “F”.

Dropping Courses. Courses may be dropped during the registration period and no grade will be assigned. Such courses will not be listed on the student’s permanent record. A student withdrawing from a course after the registration period, but prior to the deadline published in the university’s calendar, will receive a “W” grade in the course. A student dropping a course after the specified deadline will receive an “F”. Ceasing to attend class does not constitute a formal course drop, and failure to drop a course properly will result in a failing grade in the course.
Academic Regulations

Grade Grievance

I. Grade Grievances
The assignment of a grade in a course is the responsibility of the faculty member and is based on the professional judgment of the faculty member. Except for issues of computation, discrimination, equal treatment, or reasonable accommodation when a documented student need is present in accordance with the Americans with Disabilities Act of 1990 (ADA) guidelines, the faculty member’s grade determination is final.

II. Initiating a Grievance with Faculty Member
Students having a grievance concerning a grade in a course of study should make every attempt to resolve the issue with the faculty member who has assigned the grade. Faculty members should attend to the concerns of the student, discuss, and if appropriate, negotiate resolution of the grade assigned to the student.

III. Appeal to the Department Chair
A. Should a student be unable to resolve the grievance with the faculty member (either because no resolution was reached with the faculty member or because the faculty member is on leave or not returning to the university), the student may appeal to the department chair.

B. If the faculty member in question is the department chair, the student should request that the dean of the college appoint a faculty committee to review the grievance.

C. If the faculty member in question is the dean of the college, the department chair will still be the second level of appeal. If the dean is also the department chair, the student may request the provost and vice president for academic affairs to appoint a faculty committee to review the grievance.

D. The student must present a written statement and provide compelling evidence (examinations, papers, etc.) that demonstrate why the grade should be changed. If evidence is not available, the student should explain that in the written statement.

E. This written grievance must be presented no later than 30 days from beginning of the next semester following the semester or term when the grade was assigned as long as the faculty member assigning the grade is on campus that semester or summer term.

F. If the faculty member assigning the grade is not on campus that following semester or term but will be teaching on campus within the next three months, the complaint may wait until 30 days into the first semester the faculty member returns to campus.

G. The department chair (or a committee appointed by the department chair or dean) will review the grievance and present a written decision to the student and the faculty member within 45 days of the beginning of the semester.

H. Either the faculty member or the student may appeal the decision rendered at this level.

IV. Appeal to the College
A. If the student or the faculty member wishes to pursue the grievance further, the student (or faculty member) must present the written request to the dean of the college in which the course is taught within 30 days of the departmental decision. This procedure is to be followed even if the dean of the college is the faculty member in question.

B. The dean will appoint an ad hoc grievance committee from the college to review the case. If the dean of the college is the faculty member in question, one of the deans from the other colleges of the university will appoint a faculty committee (consisting of tenured faculty) from the college in which the course is taught to serve as the ad hoc committee. One member of the ad hoc committee will be from the department where the disputed grade originated.

C. The committee will be provided the student’s written statement and evidence as well as the written report of the department chair and faculty member.

D. The committee may conduct a hearing where the student and the faculty member may present information about the grievance.

E. The committee will issue a written decision on the grievance to the dean of the college with copies to the student and faculty member.

F. The decision of the committee is final, and there is no further appeal through university channels.

Academic Honesty

The University expects all students to engage in all academic pursuits in a manner that is beyond reproach. Students will be expected to maintain complete honesty and integrity in their experiences in the classroom. Any student found guilty of any form of dishonesty in academic work is subject to disciplinary action.

Procedures for discipline due to academic dishonesty have been adopted by the Board of Regents and are published under the Section on Student Services and Activities in the University’s Student Handbook.

Special Requirements for Class Attendance in Developmental Courses

Students required by either State or University regulations to take a developmental course are expected to attend all classes unless prevented from doing so by illness, bona fide emergencies, or circumstances beyond their control. Unauthorized absences may result in the deduction of points from the student’s semester average as specified in the course syllabus.

Absences incurred as a result of participation in extracurricular activities or programs sponsored by the University or its various departments or by student organizations are not considered authorized absences.

A written explanation of class attendance regulations is provided at the beginning of the semester to all students enrolled in developmental classes as part of the course syllabus.

Dropping a Developmental Class

A student required by either State or University regulations to be enrolled in a developmental class may drop that class only by withdrawing from the University.

Schedule Changes

Adding Courses. Prior to the beginning of the semester and during the first four days of a Fall or Spring semester (or the first two days of a Summer session), students may add classes using the online self-service registration system, RAMS (web). Students who need assistance with this process may come to the Office of the Registrar.
**Dropping Courses.** Prior to the beginning of the semester and during the first four days of a Fall or Spring semester (or the first two days of a Summer session), students may drop classes using the online self-service registration system, RAMS (web). Students who need assistance with this process may come to the Office of the Registrar. Courses dropped during the registration period will not appear on the student’s permanent record, will not receive a grade, and will not be subject to the requirements of the TEC 51.907 policy.

A student dropping a course after the registration period, but prior to the deadline published in the University calendar, will receive a “W” or “QW” grade in the course (See TEC 51.907 Policy below). A student dropping a course after the specified deadline will receive an “F”. Ceasing to attend class does not constitute a formal course drop, and failure to drop a course properly will result in a failing grade in the course. Refer to the current Class Schedule and Registration Instruction information on the web for a complete description of the process.

**TEC 51.907 Course Drop Limit Provisions**

Students who enroll as entering freshmen or first-time in college students in undergraduate courses offered through an affected institution of higher education for the first time during the Fall 2007 semester or any subsequent semester are subject to the course drop limit of six course drops including any course a transfer student has dropped at another affected institution.

**Institutions Affected**

Texas public community colleges, technical institutes/colleges, health science institutions offering undergraduate course work, and universities must comply with the legislation of TEC 51.907.

**Students Affected**

Students who enroll as entering freshmen or first-time in college students in undergraduate courses offered through an affected institution of higher education for the first time during the Fall 2007 semester or any subsequent semester are subject to the course drop limit restrictions. Transfer students who first enrolled at a Texas public institution during the Fall 2007 semester or subsequent semester are considered first time in college and are affected by the six course drop limit. Students who elect to use the provisions of Academic Fresh Start who have coursework prior to the Fall 2007 semester are grandfathered and are not subject to TEC 51.907. Students who have completed a baccalaureate degree at any recognized public or private institution are not considered affected students whether or not taking additional undergraduate courses.

**Course Drop Definition**

A course drop, which will be recorded on the transcript, is defined as an affected credit course not completed by an undergraduate student who: is enrolled in the course at the official date of record (see note below), and will receive a non-punitive grade of “W” or “QW”.

**Other Factors Regarding Course Drop Limit**

Transfer students who are affected by this legislation shall be required to submit all transfer institution transcripts for processing of the transfer course drops which apply to the limit prior to being allowed to utilize any drops at Angelo State University. If the transfer transcript does not indicate any drops toward the limit, Angelo State University will set the drop count for that institution at zero.

If a student was granted a drop at Angelo State University and the Registrar’s Office later learns that the drop counter was set incorrectly, the Registrar’s Office will update the student’s record to correct the counter. If the student has exceeded the six course drop limit, the drop will be removed and the faculty member of the associated course will be contacted to issue the appropriate grade.

**Withdrawal Definition**

A student is considered to have withdrawn from the institution when the student drops all courses during the semester.

**Excluded Courses From Limit**

Drops from the following types of courses are excluded from the course drop limit:

- Courses taken by students while enrolled in high school—whether for dual credit, early college credit, or for college credit alone.
- Courses dropped at private or out-of-state institutions.
- Remedial or developmental courses, workforce education courses, or other courses that would not generate academic credit that could be applied to a degree.
- Aerospace Studies courses not eligible for formula funding.
- Courses taken as required corequisites such as a lecture class with a required laboratory are counted as one drop whether or not identified as separate courses or as separate sections of a course.
- Courses which meet the definition of complete withdrawal.

**Request for Course Drop Exemption Process**

Students who feel that a drop should be exempt from the drop limit must complete the Request for Drop Exemption form and provide appropriate documentation to the Registrar’s Office by the end of the term of the course in question. Students may request an exemption for any drop which meets good cause definition.

**Exception and documentation requirements:**

- Severe illness or other debilitating condition: Statement from doctor.
- Care of a sick, injured or needy person: Statement from doctor regarding illness of the person being cared for. Statement from the sick, injured, or needy person regarding the student’s role as the care-giver or in case of a child, statement from the student.
- Death of family member or another person who is otherwise considered to have a sufficiently close relationship: Death certificate or obituary from newspaper.
- Active duty service with the Texas National guard or other armed forces by the student, a family member, or a person who has a sufficiently close relationship: Orders from service.
- Change in work schedule that is beyond the control of the student: Letter from employer.
- Other good cause as determined by the institution.

Academic Regulations

For the purposes of this section, please see the following definitions:

- Sufficiently close relationship — this relationship can include a relative with the third degree of consanguinity plus close friends including but not limited to roommates, housemates, classmates, or others identified by the student for approval of the institution on a case-by-case basis.

Once the student has submitted the required documentation, the Registrar’s Office will review same and determine if the request is granted. The Registrar’s Office will notify the student of its decision. If the request is granted, the Registrar’s Office will update the student’s record.

Student Appeal Process

Students who do not agree with the decision of the Registrar’s Office may appeal the decision to the academic dean of their major. Students must provide a written request with copies of documentation for the Dean’s review within 30 days of the decision of the Registrar’s Office. If the Dean grants the appeal, the Dean’s office will notify the Registrar in writing. Upon receipt of written notification, the Registrar’s Office will update the student’s record. The decision of the Dean is final.

Withdrawal from the University

An application for withdrawal from the University must be initiated in the Office of the Registrar. Refer to the University calendar to determine the last day on which a student may withdraw from the University. See University Calendar on web at www.angelo.edu.

A student is not officially withdrawn until the withdrawal form has been completed, the approval of each of the appropriate University offices has been received and the form has been returned for approval to the Office of the Registrar. The student who fails to withdraw officially will receive a grade of “F” in all courses in progress. A student who withdraws from the University is exempt from the TEC 51.907 policy.

Separation from the University

All students separated from the University after the official census date for disciplinary reasons will be awarded a grade of “W” for each class in which they are enrolled at the time the disciplinary action is taken.

Academic Regulations Concerning Student Performance

I. Minimum Academic Performance

Certain principles have been utilized in developing the regulations governing eligibility to reregister, suspension by the academic dean, and reinstatement following suspension. These principles include:

A. The university’s belief that, as long as its resources permit, each student, once admitted, should be given opportunity to demonstrate the ability to perform acceptable work;
B. The belief that the early assumption of responsibility for one’s own actions is part of the educational process;
C. The belief that the university has particular obligations to the able student;
D. The recognition that discouragement and mistakes are more likely to occur during the early stages of one’s college career than in later semesters; and
E. The belief that academic suspension is not designed as punishment, but is based on the principle that a student should remain eligible for academic work on campus as long as satisfactory progress is being made, within reasonable time, toward the completion of an academic program. When such progress is unsatisfactory, the student is given time to reconsider goals and career plans outside the academic setting.

II. Minimum Academic Requirements

An overall 2.00 grade point average (C average) on all college-level work and a 2.00 grade point average (C average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence. All degree programs leading to teacher certification as well as some degree programs in the College of Business have requirements beyond the minimum identified above. Official grade point averages are not rounded up. A student who meets minimum academic requirements is in good academic standing and eligible for all extracurricular activities, as governed by the rules of the specific activity. Some academic and extracurricular programs have requirements over and above the respective minimum requirements by major.

III. Student’s Academic Responsibility

All students are responsible for knowing their academic status and eligibility to re-enroll in the university. If it is determined that an ineligible student has enrolled, the student will be dropped immediately. For official verification of academic status, a student should consult the academic dean.

IV. Class Attendance

Responsibility for class attendance rests with the student. Regular and punctual attendance at all scheduled classes is expected, and the university reserves the right to deal at any time with individual cases of non-attendance. An accurate record of attendance for each student must be maintained by the instructor.

In those classes where grades are affected by attendance, information to this effect must be provided in writing at the beginning of each semester. Students have a responsibility of being aware of special attendance regulations where written policies have been distributed to the class by the instructor at the beginning of the semester.

There may be a valid reason for a student’s absence from class, such as illness, family emergency, or participation in an authorized university activity, and the instructor should exercise good judgment in determining if there is justification for allowing a student to make up work missed. In classes where students are absent for good cause and the instructor administers a pop test or a daily class assignment, the instructor may choose to allow the student to drop that grade(s) rather than make up the pop test or daily class assignment.

However, by written notice, instructors may place reasonable limitations upon the number and types of assignments and examinations that may be made up or dropped by students for any cause. Also, the manner in which makeup work is administered is to be determined by the instructor.
If a dispute arises between an instructor and a student over absences which cannot be resolved, the student should discuss the problem with the instructor. If the issue cannot be satisfactorily resolved, the student may appeal to the instructor’s department chair, academic dean, provost and vice president for academic affairs, and ultimately to the president of the university.

V. Additional Regulations

Individual colleges may have regulations in addition to those described in this policy. Students should check with their respective deans for information and requirements for specific colleges.

Academic Retention and Suspension

The University feels a special obligation to the dedicated and capable student who is earnestly pursuing a college education. Each student who is making satisfactory academic progress towards a degree and is complying with all other University standards has the right to continue studies at the University.

A student whose academic performance is deficient is subject to academic probation. Academic probation is an indication that the student is experiencing academic problems which deserve serious consideration.

A student whose academic performance is seriously deficient is subject to academic suspension at the end of either semester of the academic year or at the end of the summer session. Suspension from the University for academic reasons is not intended to be punitive. Unsatisfactory academic performance is an indication of the student’s need to reassess personal educational objectives and capabilities. This reassessment often is best achieved outside the academic setting. The period of suspension should be utilized by the student to give serious consideration to abilities, interests, and goals.

Undergraduate Academic Status

Good Standing, Probation, and Suspension

Angelo State University has three possible academic status levels for students:

I. Academic Good Standing

All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence. All degree programs leading to teacher certification as well as some degree programs in the College of Business have requirements beyond the minimum identified above. A student who meets minimum academic requirements is in good academic standing and eligible for all extracurricular activities, as governed by the rules of the specific activity. Some academic and extracurricular programs have requirements over and above the respective minimum requirements by major.

II. Academic Probation

An undergraduate student is placed on academic probation at the end of either semester of the academic year or at the end of the summer session when the student’s cumulative grade point average falls within the range defined in Column I in the Grade Point Average Requirement Table. Academic probation will continue as long as the student’s grade point average continues within the probationary range. However, when classified as a junior or higher (sixty or more semester hours earned), the student is permitted only two consecutive registrations on probation and will be suspended if probationary status is not removed prior to the student’s third registration. Registration for one or both terms of the summer session is regarded as a single registration. Academic probation will continue until the student’s cumulative grade point average reaches 2.00.

A student on academic probation may not enroll for more than 14 hours without prior approval of the academic dean on recommendation of the assigned academic advisor. Additionally, the student must continue to seek regularly scheduled advice and counsel from the assigned academic advisor or the dean as well as complete successfully University Studies (USTD) 1101, Strategies for Learning, the next semester and pay a nonrefundable course fee. A student required to enroll in USTD 1101 who fails the course must retake the class as long as the student remains on probation.

A student on academic probation who withdraws from the university within the calendar deadline for dropping courses with a “W” is eligible for re-enrollment on academic probation. The student who withdraws after the specified deadline is subject to academic suspension.

A student on academic probation remains eligible for all extracurricular activities as governed by the rules of the specific activity.

III. Academic Suspension

A student whose cumulative GPA falls below the standard defined in Column II of the GPA Requirement Table at the end of a fall or spring semester will be on suspension unless grade replacements for courses completed at that time raise the institutional GPA above 2.00. Any courses that are completed after probation or suspension status has been determined for a particular semester will not alter that probation or suspension. A suspended student who attains a cumulative GPA of 2.00 or higher after official grades have been submitted and academic status has been determined may be allowed to attend Angelo State upon appeal to the appropriate college dean.

Exceptions to the suspension policy may be made in situations involving documented cases of serious illness or personal misfortune, when students are making discernible progress toward completion of a degree program, or in other cases at the discretion of the appropriate academic dean. Petitions for review of such cases must be made to the dean of the appropriate college prior to the first day of late registration for the fall and spring semesters and the summer session or as otherwise specified in writing by the provost and vice president for academic affairs.

A. Reinstatement and Readmission after Suspension

Students wishing to return to the university after suspension will be treated as former students for reinstatement purposes and must provide copies of transcripts for all academic work completed at institutions other than Angelo State.

Students granted reinstatement after suspension will be on academic probation and will be required to undergo any testing and/or counseling considered necessary by the appropriate college dean.

B. Conditions of Return from a First Academic Suspension

Students on academic suspension may seek reinstatement after a minimum of one semester. Both summer terms are considered one semester for the purpose of serving a suspension. A student, who has been readmitted to the university and who is classified
Academic Regulations

as a junior or higher (sixty or more semester hours earned), must remove probationary status prior to a second registration or be suspended.

Students who are reinstated after their first suspension may require to complete successfully USTD 1101, Strategies for Learning, during their first semester of reinstatement and pay a nonrefundable course fee.

C. Subsequent Suspensions and Conditions of Return

Students who have received more than one suspension may seek readmission after two semesters. Both summer terms are considered one semester for the purpose of serving a suspension. The appropriate college dean must approve readmission after the student has been suspended for a second or subsequent time. Readmission is rare and solely at the discretion of the dean.

If a student is readmitted following a second or subsequent suspension, the student must meet with the academic dean upon return to the university to determine an appropriate plan for academic success. The student’s dean may require that a student sign a contract indicating his or her intention to complete that plan. A student who fails to adhere to the terms of such a contract may be withdrawn from the university and/or barred from enrolling in other Angelo State courses until the terms of the contract are successfully completed. Additionally, the student must meet with an appropriate academic advisor.

IV. Grade Point Average Requirement Table

<table>
<thead>
<tr>
<th>Total Semester Hours Earned in College-Level Course Work</th>
<th>Academic Probation * Cumulative GPA</th>
<th>Academic Suspension Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>2.00</td>
<td>1.35</td>
</tr>
<tr>
<td>30-59</td>
<td>2.00</td>
<td>1.60</td>

<tr>
<td>60-89</td>
<td>2.00</td>
<td>1.80</td>
</tr>
<tr>
<td>90 or more</td>
<td>2.00</td>
<td>1.90</td>
</tr>
</tbody>
</table>

A student’s academic progress is measured in terms of the student’s overall grade point average, which is based on all course work (including developmental courses) taken in which a computable grade is awarded. The student’s overall grade point average is computed by dividing the total number of quality (grade) points earned by the total number of quality hours. For example, a sophomore student who has 35 quality hours and has earned 85 quality points would have a 2.43 overall grade point average: 85 quality points ÷ 35 quality hours = 2.43 GPA. Quality hours are defined as hours for which a student registers and receives a grade of either “A,” “B,” “C,” “D,” or “F.” See the section entitled “System of Grading” for information on related items.

Grade Point Average

An undergraduate student will be eligible for the Dean’s List during the fall or spring semester upon completion of 12 or more college-level (non-developmental) semester credit hours in residence, with a semester grade point average of 3.25 or greater in college-level courses. This honor will be noted on the student’s transcript. Any student making an “F,” “NC,” or “I” will not be eligible for the Dean’s List.

Dean’s List

* The student should be alert to the fact that a cumulative grade point average of less than 2.00 represents a grade point deficiency which must be overcome in order to graduate.

Degree and Graduation Requirements

The Undergraduate Degree Plan

All students working toward a baccalaureate degree must complete a degree plan prior to the completion of 30 semester credit hours (before becoming a sophomore).

Students without an approved degree plan should follow closely the course of study for their proposed major specified under the designated academic department in this Catalog. Failure to do so may result in a delay in the completion of the degree requirements.

Degree plan forms are available in the appropriate departmental offices. For any degree, the student must confer with and receive approval for the degree plan from the academic department chair in the proposed major department and from the dean of the college.

Once a student has completed the degree plan, the student is permitted to change the degree plan only with written approval of the department chair and dean of the college.

The University will not be responsible for accepting any courses toward a baccalaureate degree at ASU which are taken by a student beyond the first semester of the junior year or the completion of 70 semester credit hours if the student has not had a degree plan completed and filed with the University.

Certification requirements not a part of the student’s degree program will not be included in the degree plan. Students who want to obtain a certification area beyond what is required in their degree programs should consult the University’s Certification Officer in the College of Education.

Certification requirements can change prior to the expiration of a degree plan. Students should consult with department chairs and the College of Education to determine the latest certification requirements.

Curriculum Advising and Program Planning (CAPP) Degree Evaluation

The degree evaluation system is an online tool that allows students to view their progress toward degree completion. Access to the degree evaluation link is through the RamPort system. The degree evaluation is automated to access up-to-date information for the student. Once a student declares a major, the student may view his/her progress toward completing a degree. The degree evaluation will reflect the most current major, minor, specialization area, and Catalog a student has chosen. A student must make sure that the information online is accurate. The degree evaluation shows courses in progress, courses required, grade point average (GPA), major GPA, and grades.

Application for Graduation

The student planning to receive a degree from Angelo State University should file an Application for Graduation with the dean of the appropriate academic college during registration for the student’s last semester, but in no event later than the designated date in the University calendar. For August graduation, the student should apply during the spring semester. No degree will be conferred until a degree plan has been approved and the Application for Graduation has been filed.

* Refer to Credit for Correspondence and Extension, page 294.
Graduation Under a Particular Catalog

The University reserves the right to modify the curricula or withdraw any courses when it appears wise to do so. The policies and procedures in this Catalog are currently in effect; however, the University reserves the right to make changes or modifications for good cause.

To receive a degree from Angelo State University, a student must fulfill all requirements for the degree as set forth in a particular University Catalog as amended. Several choices are allowed: (1) Graduation may be under the requirements of the current University Catalog. (2) Graduation may be under the Catalog of the year in force when the student first registered at Angelo State University or when the student registered at an accredited Texas community college prior to transferring to Angelo State University. (3) Graduation may be under the requirements of the Catalog for any subsequent year in which the student was registered at Angelo State University or when the student was registered at another Texas public institution of higher education prior to transferring to Angelo State University. Each of these provisions is subject to the limitation that all requirements for a degree from Angelo State University must be completed within six years from the date of the Catalog selected. For example, a student who chooses to graduate under the requirements of the 2007-2009 University Catalog must complete all requirements for the degree under that Catalog prior to August 2013. Otherwise, a later Catalog must be selected. However, when a student is enrolled at Angelo State University during the second academic year included in a two-year Catalog, the six-year limit extends from the beginning of the second academic year of the Catalog.

Students may be able to graduate under a specific Catalog and degree plan but may not be able to meet certification requirements that have been mandated by the State Board for Educator Certification. Students should consult with department chairs and the College of Education to determine the latest certification requirements.
Dual Degrees

Dual degrees are two different types of degrees (e.g., a bachelor of arts and a bachelor of science) conferred simultaneously. An example would be a Biology B.S. degree and a Psychology B.A. degree. Dual degree candidates must complete a minimum of 30 hours beyond the requirements of the single degree. Dual majors must complete the requirements of both major fields.

Earning a Second Baccalaureate Degree

A student who holds one baccalaureate degree from this University or any college or university that is a member of a regional accrediting association may receive a second baccalaureate degree by completing the following requirements:

- A minimum of thirty new semester hours in residence, including twenty-four new semester hours of advanced work in residence. New semester hours are those taken and completed after the student has received one baccalaureate degree.
- A minimum of twelve new semester hours of advanced work in the major subject field in residence and six new advanced semester hours in the minor subject field in residence (if there is a minor field). For an interdisciplinary major, a minimum of eighteen new semester hours of advanced work in the major fields in residence.
- Completion of all other requirements of the degree sought at Angelo State University, as outlined in the Catalog in effect when the student initiates course work leading to a second baccalaureate degree. Beyond this provision, Catalog selection shall be in accordance with the policy statement “Graduation Under a Particular Catalog.” (See page 301 in this Catalog.)

Developmental Education Program

Angelo State University offers developmental education programs in English and mathematics. The developmental curriculum includes course and non-course-based options. State regulations prohibit the use of credit in developmental courses to fulfill degree requirements. However, grades earned in these courses are included in the computation of a student’s grade point average. A student required by State regulations to participate in a developmental education program must be continuously enrolled until that program is successfully completed. A student enrolled in developmental classes is also subject to special provisions regarding class attendance and withdrawals page 296.

Basic English Skills

A student who fails the writing and/or reading section of a TSI assessment test will be required to complete a developmental course or activity identified by the Department of English and Modern Languages.

Basic Mathematics Skills

A student who fails the mathematics section of a TSI assessment test will be required to complete a developmental course or activity identified by the Department of Mathematics.
Requirements for the Bachelor of Arts Degree

The following requirements are common to all Bachelor of Arts degree programs. For specific and additional academic major program requirements, see the appropriate program section of the Catalog; e.g., for an academic major in English, see the English section.

Core Curriculum Requirements

Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Bachelor of Arts Degree Specific Requirements

Humanities. One three-semester-hour lower division course from the following: sophomore literature offered by the Department of English and Modern Languages, History 2331, 2332, French 2372, German 2372, Philosophy 2301, 2311, 2321, Honors 2305.

Modern Language. The student must earn six semester hours of the same language at the sophomore level (Modern Language 2311, 2312). Most students will begin language study with 1301 unless they earn credit by exam (CLEP, AP). Students who have some previous language experience in Spanish, and who do not earn credit by exam, may instead choose Spanish 1301/1302 to receive 6 semester credit hours in one semester.

Academic Major

The academic major in the Bachelor of Arts degree programs requires no fewer than thirty and no more than thirty-six semester hours, of which at least eighteen semester hours will be at the advanced level, and at least twelve advanced hours will be taken in residence. Performance requirements in music are not included in the thirty-six semester-hour limit for an academic major in music.

Academic major programs leading to the Bachelor of Arts degree will be selected from the following:

- Communication
- Criminal Justice
- English
- History
- Mass Media
- Mathematics
- Music
- Philosophy
- Political Science
- Sociology
- Spanish
- Theatre
- Psychology

Minor

The minor is selected from one or more disciplines outside the academic major. A minimum of eighteen semester hours is required with the student choosing either a single area concentration or a multiple area concentration as defined below.

A comprehensive list of minors, including specific minor requirements, is located on page 321.

- Single Area Minor. A series of courses in one academic discipline totaling eighteen semester hours, six of which must be advanced and in residence, or
- Multiple Area Minor. A set of courses selected from two or three academic disciplines. Nine semester hours, including at least six advanced semester hours in residence, are required in each component discipline of a multiple area minor. Certain multiple-discipline minors which have been departmentally designed are not required to meet these general requirements for the multiple area minor.

Other Requirements

Advanced Hours. A minimum of 42 semester hours (junior and senior level courses).

Electives. Sufficient elective hours, lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.
Academic Regulations

Grade Requirements. An overall 2.00 grade point average ("C" average) on all college-level work and a 2.00 grade point average ("C" average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence. All degree programs leading to teacher certification require a 2.50 overall grade point average and a 2.50 grade point average with no grade lower than a "C" in the certification content area, and professional education. To meet certification requirements, a student must also have a 2.50 grade point average in their major in residence.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Included are 12 advanced hours in residence in the single discipline academic major, and six advanced hours in the single area minor or 12 to 18 advanced hours in residence in the multiple area minors, dependent upon the number of fields represented in the program. Students seeking teacher certification are expected to complete student teaching in residence at Angelo State University.

Total Hours. A minimum of 120 semester hours.*

Requirements for the Bachelor of Border Security Degree

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Academic Major
Thirty-one semester hours are required for the major, all 31 semester hours must be advanced. All 31 advanced semester hours must be taken in residence.

The academic major for the Bachelor of Border Security degree will be selected from the following academic program:

- Border Security

Other Requirements

Advanced Hours. A minimum of 31 semester hours (junior and senior level courses).

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. An overall 2.00 grade point average ("C" average) on all college-level work and a 2.00 grade point average ("C" average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 31 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence.

Total Hours. A minimum of 124 semester hours.
The Bachelor of Business Administration Degree

Mission of the Business Program
The primary mission of the business program at Angelo State University is to prepare and develop students to serve society, contribute to the effectiveness of business and other organizations, and meet their own personal goals.

Statement of Philosophy
A society earns the ability to maintain and advance the interests of its members by producing and distributing products and services in domestic and international trade. If the society is to earn increasing returns on its resources, it must be competitive in its production, and responsibility for this competitive effort is business.

Those who will contribute to organizational effectiveness in the future will do so, apparently, in the most uncertain and ambiguous environment ever. Today's business graduate, in every discipline, must be prepared to deal effectively with the changes of tomorrow.

To this end, the Business Program is committed to the following:

- Full support of and dedication to carrying out the purpose of the University specified in the Catalog.
- A primary faculty responsibility of teaching and developing students.
- A curriculum that addresses:
  - Competencies and breadth of the knowledge expected of an educated person.
  - A current body of knowledge commonly expected of a business graduate.
  - Ethical and socially responsible issues and considerations.
  - Development of competencies, beyond subject matter knowledge, in areas such as leadership, communications, decision-making, creativity, and diversity.
  - Dynamics of the global economy.
- A program that expects certain competencies, adds educational value, and measures outcomes.
- Attention to recruiting and retaining a motivated and competent faculty.
- Recognition and support of faculty renewal through an on-going faculty development program that encourages research, training, consulting, and other scholarly activities.
- Encouragement and support for innovative teaching where appropriate for learning objectives.
- Development and maintenance of linkages with the business community and other practitioner organizations.

Requirements for the Bachelor of Business Administration Degree
The following requirements are common to all Bachelor of Business Administration degree programs. For specific and additional requirements, see the appropriate business programs section of the Catalog page 44 for requirements for the B.B.A./M.PAc. programs in Accounting.

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. The student should refer to the degree plans that are included in the academic programs sections of the catalog for information in this regard.

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. The student should refer to the degree plans that are included in the academic programs sections of the catalog for information in this regard.
Bachelor of Business Administration
Degree Specific Requirements

English. English 3352.

Economics. Economics 2302. Economics 2301 will be required unless this course is taken to fulfill the social science core curriculum requirement.

Mathematics. Mathematics 1325. Mathematics 1324 will be required unless the course was taken to fulfill the mathematics core curriculum requirement.

Modern Languages. (B.B.A. with the International Business major is required to take Modern Language.) The student must earn six semester hours of the same language at the sophomore level (Modern Language 2311, 2312). Students without the necessary preparation to begin Modern Language 2311 will take Modern Language 1301 and/or 1302.*

Social Science. Complete three hours of psychology or sociology (B.B.A. in ACC and B.B.A. in FIN are not required to take psychology or sociology. All other B.B.A. degrees are required to take psychology or sociology.)

Major Field Test
The undergraduate Major Field Test (MFT) in business is a graduation requirement for all undergraduate business students. The MFT is normally taken as a component of Business Administration 4303, except in integrated programs. Students in integrated programs should consult their specific programs to determine what the course requirement is for the MFT.

Pre-Business Requirements
All students declaring majors and/or applying for degree programs in the College of Business will be placed in a pre-business classification (PREB) until they complete the lower-division courses listed below. Students in the pre-business classification may not enroll in upper-division business courses. This includes students who are transferring or changing majors.

Students who have completed the lower-division courses in Group 1 and Group 2 may apply to be reclassified for B.B.A. degree majors if the following requirements are met:

• an overall GPA of 2.00,
• an official degree plan (ODP) for the intended major on file,
• must be registered with Career Development with resume on file,
• an application on file for advanced standing with the departmental office of the student’s major.

Students who wish to register for Modern Language 2311 must first demonstrate proficiency in the language either by passing Modern Language 1301 and 1302 or by examination. Students who complete Modern Language 2311 or 2012 are not eligible subsequently to earn credit by examination in Modern Language 1301 and 1302.*

Group 1. In addition to the requirements specified above, the student will complete the following lower-level courses (27 credit hours) with no grade lower than a “C”, and a cumulative GPA in these courses of 2.00. Group 1 courses will be successfully completed prior to filing the application as mentioned above.

• English 1301
• Mathematics 1324
• Mathematics 1325
• Business Communication Information Systems 1305 (Management Information System majors take Computer Science 1341)
• Accounting 2301 and 2302
• Economics 2301 and 2302
• Management Science 2331

Group 2. These courses are required by the University as part of the student’s general education core. In this group of courses the student is required to make no grade lower than a “D”. However, the maintenance of a GPA of 2.00 remains in effect. (32 credit hours).

• English 1302 and Sophomore Literature
• History 1301 and 1302
• Political Science 2301 and 2302
• Communication 2301
• Science with lab - 8 hours
• Art, music, theatre - 3 hours

Academic Major
The Bachelor of Business Administration is a broad field degree and a minor outside of business is optional. A minimum of 63 semester hours, including the major and other work in the departments of business is required, of which at least 21 advanced hours must be taken in residence. No more than two grades of “D” will be permitted in the major.

Students will select a major from the following areas:

Accounting
Management Information Systems
Finance
International Business
Management
Marketing

Minor (Optional)
A comprehensive list of minors, including specific minor requirements, is located on page 321. No business area minors are allowed on a B.B.A. degree.

A minimum of eighteen semester hours with the student choosing either a single area minor or a multiple area minor as defined below.

• Single Area Minor. A series of courses in one academic discipline totaling 18 semester hours, six of which must be advanced and in residence.

• Multiple Area Minor. A set of courses selected from two or three academic disciplines. Nine semester hours, including at least six semester hours of advanced work in residence, are required in each component discipline of a multiple area minor. Certain multiple-discipline minors which have been departmentally designed are not required to meet these general requirements for the multiple area minor.
Other Requirements

Advanced Hours. A minimum of 42 semester hours (junior and senior level courses).

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. A minimum 2.00 grade point average for all college work. A minimum 2.00 grade point average for all work taken at Angelo State University. All B.B.A. programs will accept no more than two grades of “D” in the major. A minimum 2.00 GPA is required in all course work taken in the major field. A minimum of 2.00 GPA is required on all course work taken in residence in the major. A minimum 2.00 grade point average in the ten Accounting courses that comprise the academic major in Accounting. A minimum of 2.00 GPA is required in all business course work. A minimum of 2.00 GPA is required in all business course work taken in residence. Integrated programs require a minimum 3.00 GPA overall and 3.00 GPA in the undergraduate major.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Twenty-one advanced semester hours in residence are required in the business departments.

Total Hours. A minimum of 120 semester hours.

Requirements for the Bachelor of Cultural Competence and Security Studies Degree

Core Curriculum Requirements

Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Academic Major

Thirty-one semester hours are required for the major, all 31 semester hours must be advanced. All 31 advanced semester hours must be taken in residence.

Students should refer to the appropriate degree plan in the cultural competence and security studies section of this Catalog for information concerning this degree.

Other Requirements

Advanced Hours. A minimum of 31 semester hours (junior and senior level courses).

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. An overall 2.00 grade point average (“C” average) on all college-level work and a 2.00 grade point average (“C” average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 31 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence.

Total Hours. A minimum of 124 semester hours.
Requirements for the
Bachelor of Cultural Fluency and Security Studies Degree

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Bachelor of Cultural Fluency and Security Studies
Degree Specific Requirements
Students must demonstrate language proficiency in a language other than English by scoring a 2+ on the Interagency Language Roundtable (ILF) scale, on the Foreign Service Institute (FSI), or on the Defense Language Proficiency Test (DPLT) exam. Students may satisfy language proficiency in other ways as approved by the ASU Department of English and Modern Languages.

Academic Major
Thirty-one semester hours are required for the major, all 31 semester hours must be advanced. All 31 advanced semester hours must be taken in residence.

Students should refer to the appropriate degree plan in the cultural fluency and security studies section of this Catalog for information concerning this degree.

Other Requirements

Advanced Hours. A minimum of 31 semester hours (junior and senior level courses).

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. An overall 2.00 grade point average (“C” average) on all college-level work and a 2.00 grade point average (“C” average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 31 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence.

Total Hours. A minimum of 124 semester hours.
Requirements for the Bachelor of Fine Arts Degree

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Bachelor of Fine Arts Degree Specific Requirements

Humanities. One three-semester-hour, lower-division course from the following: sophomore literature offered by the Department of English and Modern Languages; History 2331, 2332; French 2372; German 2372; Philosophy 2301, 2311, 2321; Honors 2305.

Academic Major
A total of 60 semester hours in art is required in the studio art major of which 36 hours must be advanced. At least 24 advanced semester hours in art must be taken in residence.

Students should refer to the appropriate degree plan in the program section of this Catalog for information concerning this degree.

Other Requirements

Advanced Hours. A minimum of 42 semester hours (junior and senior level courses).

Departmental Requirements. During their second year, students will be required to take a skills test to assess their basic knowledge of artistic concepts. The skills test will be administered by the art faculty each spring semester. If a student fails to demonstrate adequate skills, a faculty committee will recommend to the student that he/she repeat course work or complete additional course work. Upon completion of the prescribed course work, the student will repeat the skills test. If adequate skills are still not demonstrated, then the faculty committee will recommend to the student that he/she pursue a different curriculum of study.

Graduating seniors will submit for review and evaluation a completed portfolio of their studio work together with an evaluative paper that will clearly explain, define, and analyze their portfolio work. Both the portfolio work and the contents of the explanatory paper will be reviewed by a committee of art faculty and an art juror from outside the University. The quality of a student’s portfolio work will be an output measure for the faculty to determine the quality of instruction delivered by the department.

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. An overall 2.00 grade point average ("C" average) on all college-level work and a 2.00 grade point average ("C" average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence.

Total Hours. A minimum of 120 semester hours.

Angelo State University Undergraduate and Graduate Catalog 2013-2014
Requirements for the Bachelor of Intelligence, Security Studies, and Analysis Degree

Core Curriculum Requirements

Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Academic Major

Thirty-one semester hours are required for the major, all 31 semester hours must be advanced. All 31 advanced semester hours must be taken in residence.

The academic major for the Bachelor of Intelligence, Security Studies, and Analysis degree will be selected from the following academic program:

- Intelligence, Security Studies, and Analysis

Other Requirements

Advanced Hours. A minimum of 31 semester hours (junior and senior level courses).

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. An overall 2.00 grade point average ("C" average) on all college-level work and a 2.00 grade point average ("C" average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 31 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence.

Total Hours. A minimum of 124 semester hours.
Requirements for the Bachelor of Interdisciplinary Studies Degree

The purpose of the Bachelor of Interdisciplinary (B.I.S.) degree is to provide students the opportunity to apply coursework in multiple fields towards an undergraduate degree. It is well suited for students whose career goals call for training in more than one discipline or who want a breadth of knowledge in several fields rather than a depth of knowledge in a single discipline. Students seeking the B.I.S. degree must declare it as their major in the same manner and at the same time as other students declare a major. For information about the B.I.S. degree contact the College of Arts and Sciences.

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

The B.I.S. degree consists of a Multiple Discipline Academic Major, other requirements, and electives totaling at least 120 credit hours. No more than twenty-seven hours in any one discipline may count towards the degree. For the B.I.S. degree the Multiple Discipline Academic Major is comprised of three minors. Any single area minor offered at Angelo State University may be used providing it has no less than eighteen credit hours with at least six of them at the advanced level and in residence.

Multiple Discipline Academic Major
The academic major in the Bachelor of Interdisciplinary Studies requires 54 hours minimum. Any three single area minors offered at Angelo State University-see list below. Multiple-discipline minors are accepted as single area minors. Each minor must have at least eighteen hours with at least six hours in each minor at the advanced level and in residence. The multiple-area minor may not be used. The three minors should include a total of at least 24 hours of advanced level courses in order to meet the minimum advanced hour requirement.

A comprehensive list of minors, including specific minor requirements, is located on page 321.

Other Requirements

Advanced Hours. A minimum of 42 advanced hours (3000/4000 level courses).

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. A minimum 2.00 grade point average for all college work, a minimum 2.00 grade point average for work taken at Angelo State, a minimum 2.00 grade point average in the student’s multiple discipline academic major, and a minimum 2.00 grade point average in the student’s multiple discipline academic major in residence.

Academic Regulations
Academic Regulations

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Eighteen advanced hours in residence are required in the multiple discipline academic major.

Total Hours. A minimum of 120 hours

Requirements for the Bachelor of Music Degree

Core Curriculum Requirements

Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Academic Major

Sixty semester hours in music are required for the major, of which 24 semester hours must be advanced. At least 18 advanced semester hours in music must be taken in residence. The Bachelor of Music degree allows the student to meet all requirements for all-level teacher certification in music.

Students should refer to the appropriate degree plan in the program section of this Catalog for information concerning this degree and should also consult the Teacher Certification Officer in planning their programs in order to make certain that they are meeting the requirements of the State Board for Educator Certification.

Professional Education Requirements

Education. The following education courses are required in the Bachelor of Music program: 4315, 4321, 4322, 4974.

Education Psychology. Complete Educational Psychology 3303.

Reading. The student must complete three semester hours in an advanced-level reading course which fulfills requirements for teacher certification: Reading 4320.

Other Requirements

Advanced Hours. A minimum of 42 semester hours (junior and senior level courses).

Departmental Requirements. The Department of Visual and Performing Arts requires of all students in the Bachelor of Music program the following: piano proficiency examination, successful completion of the sophomore upper-level exam and of the senior-level recital in the major instrument, concert/recital attendance and participation in an ensemble during all semesters enrolled except student teaching.

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. A minimum 2.50 grade point average overall and in the major are required. A 2.50 grade point average is also required in the professional education courses. No grade lower than a “C” in the academic major and in professional education (including student teaching) is allowed.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Eighteen advanced semester hours in residence are required in music. Students seeking teacher certification are expected to complete student teaching in residence at Angelo State University.

Total Hours. A minimum of 125 semester hours.
Requirements for the Bachelor of Science Degree

The following requirements are common to all Bachelor of Science degree programs. For specific and additional academic major program requirements, see the appropriate program section of the Catalog, (e.g., for an academic major in biology, see the Biology section).

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog for information in this regard.

Bachelor of Science Degree Specific Requirements

Natural Science: A total of four semesters of science courses to include two semesters of biology or geology (can include more than one discipline) and two semesters of chemistry, physical science, or physics (can include more than one discipline). The eight hours in the core requirement above will be included in this four-semester total.

Single Discipline Academic Major
The single discipline academic major in the Bachelor of Science degree programs requires no fewer than 30 and no more than 42 semester hours, of which at least 18 semester hours will be at the advanced level, at least 12 advanced semester hours will be taken in residence.

Single discipline academic majors for the Bachelor of Science degree will be selected from the following academic programs:

- Agricultural Science and Leadership
- Animal Science
- Agribusiness
- Biology
- Chemistry
- Computer Science
- Criminal Justice
- Food Animal Science and Marketing
- Geoscience
- Mathematics
- Physics
- Psychology
- Sociology
- Kinesiology
- Physical Education (Kinesiology)

Secondary and All-Level Teacher Certification
Students seeking these types of teacher certification should refer to appropriate degree plans elsewhere in this Catalog for information. They should also consult with the Department Chair of their major and the Certification Advisor in planning their program in order to make certain that they are meeting State requirements. Students pursuing the Bachelor of Science degree can choose from the following certification areas:

Grades 6 to 12.
- Agriculture Science and Technology
- Computer Science
- Life Science
- Mathematics
- Mathematics/Physics
- Physical Science

Grades 8 to 12.
- Chemistry *
- Mathematics
- Mathematics/Physics *
- Physical Science *

All-Level Certification.
- Physical Education (Kinesiology) *

* These certification areas are no longer offered in a degree format. Students interested in obtaining certification in these areas may do so in a post-baccalaureate program. You may contact the Educator Preparation Information Center (325-942-2209) for information and assistance.
### Interdisciplinary Academic Major

The interdisciplinary academic major in the Bachelor of Science degree programs requires no fewer than 48 semester hours, of which at least 21 semester hours will be at the advanced level. At least 12 advanced hours will be taken in residence. A minor is not required with the interdisciplinary major.

Academic majors available as a Bachelor of Science interdisciplinary degree:
- Food Animal Science and Marketing
- Natural Resource Management

The Interdisciplinary Studies Major offers certification at either the Early Childhood to Grade 6 or the Middle School (Grades 4 to 8) level. Students should consult with the Department of Teacher Education and the Certification Advisor in planning their program in order to make certain that they are meeting State requirements. Areas of concentration include the following:

**Early Childhood to Grade 6.**
- Generalist
- Generalist with Special Education (EC-12)

**Grades 4 to 8.**
- English Language Arts and Reading
- Generalist
- Mathematics *
- Science *
- Social Studies *

**Minor**

Single discipline academic majors require a minor. The minor is selected from one or more disciplines outside the academic major. A minimum of 18 semester hours with the student choosing either a single area minor or a multiple area minor as defined below.

A comprehensive list of minors, including specific minor requirements, is located on page 321.

- **Single Area Minor.** A series of courses in one academic discipline totaling 18 semester hours, six of which must be advanced and in residence, or a
- **Multiple Area Minor.** A set of courses selected from two or three academic disciplines. Nine semester hours, including at least six advanced semester hours in residence, are required in each component discipline of a multiple area minor. Certain multiple-discipline minors which have been departmentally designed are not required to meet these general requirements for the multiple area minor.

### Other Requirements

**Advanced Hours.** A minimum of 42 semester hours (junior and senior level courses).

**Electives.** Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

**Grade Requirements.** An overall 2.00 grade point average ("C" average) on all college-level work and a 2.00 grade point average ("C" average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence. All degree programs leading to teacher certification require a 2.50 overall grade point average and a 2.50 grade point average with no grade lower than a “C” in the area of certification, interdisciplinary major, and professional education. To meet certification requirements, a student must also have a 2.50 grade point average in their major in residence. Integrated programs require a minimum 3.00 GPA overall and 3.00 GPA in the undergraduate major.

All undergraduate Interdisciplinary Studies programs in the Department of Teacher Education also require a grade of “C” or better in all course work with the exception of courses used as electives. This change is effective for new degree plans beginning Fall 2009.

**Residence.** Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Included are 12 advanced semester hours in residence in the single discipline academic major, and six advanced hours in the single area minor or 12 to 18 advanced hours in residence in the multiple area minors, dependent upon the number of fields represented in the program. Students seeking teacher certification are expected to complete student teaching in residence at Angelo State University.

**Total Hours.** A minimum of 120 semester hours.
Requirements for the Bachelor of Science in Nursing Degree

Core Curriculum Requirements

Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403. Students may take the lab science courses in one or more disciplines. Normally this requirement would be completed by the student in fulfilling the requirements for the Associate of Applied Science in Science degree.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301. Normally this requirement would be completed by the student in fulfilling the requirements for the Associate of Applied Science in Nursing degree.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog for information in this regard.

Bachelor of Science in Nursing

Degree Specific Requirements (RN-B.S.N.)

Statistics. Three semester credit hours of statistics.

Academic Major

A minimum of 26 semester hours of nursing work.

Other Requirements

Advanced Hours. A minimum of 26 semester hours (junior and senior level courses).

Total Hours. A minimum of 120 semester hours.

Grade Requirements. A grade of “C” or above in each nursing course and a minimum 2.25 grade point average at the completion of each semester in order to progress to the next nursing course. A minimum 2.00 overall grade point average for all college work and a minimum 2.00 grade point average for all work taken at Angelo State University in order to graduate.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Included are 20 advanced semester hours in nursing courses in residence.

Degree Plan

The student will formally apply for a degree plan from the Department of Nursing and Rehabilitation Sciences during the first semester of the nursing program.

Bachelor of Science in Nursing

Degree Specific Requirements (Generic Option)

Statistics. Three semester credit hours of statistics.

Academic Major

A minimum of 53 semester hours of nursing work.

Other Requirements

Advanced Hours. A minimum of 56 semester hours (junior and senior level courses).

Total Hours. A minimum of 120 semester hours.

Grade Requirements. A grade of “C” or above in each nursing course and a minimum 2.25 grade point average at the completion of each semester in order to progress to the next nursing course. A minimum 2.00 overall grade point average for all college work and a minimum 2.00 grade point average for all work taken at Angelo State University in order to graduate.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Included are 20 advanced semester hours in nursing courses in residence.

Degree Plan

The student will formally apply for a degree plan from the Department of Nursing and Rehabilitation Sciences during the first semester of the nursing program.
Academic Regulations

Requirements for the Bachelor of Security Studies Degree

Core Curriculum Requirements
Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1412, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. Additionally, some academic programs have specific core curriculum requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog.

Academic Major
The academic major in the Bachelor of Security Studies degree programs requires 42 semester hours, of which at least 18 semester hours will be at the advanced level, at least 12 advanced semester hours will be taken in residence.

Minor
Single discipline academic majors require a minor. The minor is selected from one or more disciplines outside the academic major. A minimum of 18 semester hours with the student choosing either a single area minor or a multiple area minor as defined below.

A comprehensive list of minors, including specific minor requirements, is located on page 321.

• Single Area Minor. A series of courses in one academic discipline totaling 18 semester hours, six of which must be advanced and in residence, or another discipline.
• Multiple Area Minor. A set of courses selected from two or three academic disciplines. Nine semester hours, including at least six advanced semester hours in residence, are required in each component discipline of a multiple area minor. Certain multidiscipline minors which have been departmentally defined are not required to meet these general requirements for the multiple area minor.

Other Requirements
Advanced Hours. A minimum of 42 semester hours (junior and senior level courses).

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Grade Requirements. An overall 2.00 grade point average (“C” average) on all college-level work and a 2.00 grade point average (“C” average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Included are 12 advanced hours in residence in the single discipline academic major, and six advanced hours in residence in single area minor or 12 to 18 advanced hours in residence in the multiple area minor, dependent upon the number of fields represented in the program.

Total Hours. A minimum of 120 semester hours.
Requirements for the Bachelor of Social Work Degree

A student who is seeking the Bachelor of Social Work (B.S.W.) degree must be accepted into the B.S.W. degree program by the Social Work Program Director. Prior to a student’s acceptance into the B.S.W. degree program, a student may be registered as a Pre-Social Work student. To be accepted into the B.S.W. degree program, students must make application to become a social work major in the Social Work Office.

Core Curriculum Requirements

Several of the core curriculum course requirements may be fulfilled in different ways. For alternatives in fulfilling these requirements, the student should refer to the section of this Catalog on credit by examination.

Communication. A three semester-hour course: Communication 2301.

English. Nine semester-hours of English: English 1301, 1302, and one sophomore literature course from English 2323, 2324, 2325, 2328, or 2329. These literature courses are offered by the Department of English and Modern Languages. The student may take Honors 2305 to satisfy the sophomore literature requirement.

Government. Six semester-hours: Political Science 2301 and Political Science 2302.

History. Six semester-hours: History 1301 and History 1302.

Mathematics. A three semester-hour course: Computational and Applied Mathematics 2305, Mathematics 1302, 1303, 1324, 1325, 1332, 1333, 1561, 2305, 2331, 2332, or 2513.

Natural Science. Eight semester-hours of laboratory science courses: Biology 1410, 1411, 1480 (Biology 1480 is intended for biology majors or minors), 2401, 2402, 2423, 2424, Chemistry 1301/1101, 1302/1102, 1411 (Proficiency in algebra is required for Chemistry 1411), 1421, 2353/2153, Geology 1401, 1402, Physics 1301/1101, 1302/1102, 1421, 1422, 1441, 2442, Physical Science 1301/1101, 1302/1102, 1403.

Social Science. A three semester-hour course: Agricultural Economics 1331, Economics 2300, 2301, 2302, Geography 2301, 2305, Psychology 1303, 2301, Sociology 1303, 2301.

Visual and Performing Arts. A three semester-hour course: Art 1301, 1302, 1305, 2301, 2302, Music 1310, 1341, 1342, 1351 (intended for music majors), 1361, 1375, 1376, Theatre 1311, 1351, 1352. The student may take Honors 2302 to satisfy this requirement.

In some academic programs, courses may be taken that fulfill both core curriculum and academic major or minor requirements. The student should refer to the degree plans that are included in the academic program sections of the catalog for information in this regard.

Bachelor of Social Work Degree Specific Requirements

Natural Science. The student must take Biology 1410 and 1411 or Biology 2423 and 2424.

Social Science. The student must take Economics 2300, 2301, or 2302; Psychology 2301; and Sociology 2301.

Academic Major

A minimum of 54 semester hours of social work is required of which 48 semester hours must be advanced. At least 18 advanced semester hours in social work must be taken in residence. Courses required in residence include: Social Work 4371, 4372, and 4373.

Other Requirements

Advanced Hours. A minimum of 48 semester hours (junior and senior level courses) including 48 semester hours of advanced social work courses.

Electives. Sufficient elective hours lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Total Hours. A minimum of 120 semester hours.

Grade Requirements. A grade of “C” or above in each required social work course and a minimum of 2.50 in all social work courses. A minimum 2.00 overall grade point average for all college work and a minimum 2.00 grade point average for all work taken at Angelo State University in order to graduate.

Residence. Overall a minimum of 25 percent of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Twenty-four of the last 30 semester credit hours earned toward the degree must be in residence. Social Work courses required in residence include: 4371, 4372, and 4373.

Degree Plan

The student will formally apply for a social work degree plan in the Social Work Office.
Core Curriculum

The core curriculum is designed to give all graduating students the opportunity to acquire a general knowledge of study areas traditionally regarded as basic to a university education. The curriculum complies with Texas legislation requiring each state-supported institution to establish a "core curriculum." For specific and additional academic major program requirements, see the appropriate program section of the Catalog.

Texas Common Course Numbering System

The Texas Common Course Numbering System (TCCNS) has been designed to aid students in the transfer of general academic courses between Texas public colleges and universities throughout the state. The system ensures students that courses designated as common will be accepted for transfer and the credit will be treated as if the courses had actually been taken on the receiving institution’s campus. Angelo State University’s courses identified as common will have the Common Course Number listed immediately adjacent to the ASU course number (e.g. MATH 1302/MATH 1314) in each course description. For more information concerning the Texas Common Course Number System, please visit the TCCNS Web page at www.tccns.org/.

Visit http://myfuture.angelo.edu/apply/transfer_students.php for information on how your credit will transfer. The following lower-division courses have been evaluated by academic departments and determined to be the equivalent of the Angelo State University courses listed.

Academic Minors

Single discipline academic majors require a minor. The minor is selected from one or more disciplines outside the academic major.* A minimum of 18 semester hours with the student choosing either a single area minor or two multiple area minors as defined below.

**Single Area Minor.** A series of courses in one academic discipline totaling 18 semester hours, six of which must be advanced and in residence, or

**Multiple Area Minor.** A set of courses selected from two or three academic disciplines. Nine semester hours, including at least six advanced semester hours in residence, are required in each component discipline of a multiple area minor. Certain multiple-discipline minors which have been departmentally designed are not required to meet these general requirements for the multiple area minor.

**Aerospace Studies**

This discipline may be used only as part of a multiple area minor. At least six semester hours of advanced work will be required in residence for each discipline.

**Biology**

A student who chooses biology as a minor must complete the following courses: Biology 1480, 2401 or 2402, 3301, 4303, and 4451. Students with a major in Chemistry with a Biochemistry Emphasis should follow biology minor requirements listed for that degree.

**Business Administration**

All students are required to take a MATH course as a General Education requirement. For purposes of the Business Administration minor, that course must be MATH 1311 or MATH 1324 with a grade of “C” or higher.

The Business Administration minor is an eighteen semester hour course of study consisting of Business Administration 1301 and fifteen semester hours selected from the following subjects: accounting, business administration (courses listed as BA, BCIS or BUSI), economics, finance, management, marketing, management information systems, management science, international business, and International Studies 3381 (study abroad courses in business). A minimum of six hours must be at the advanced level and in residence. This minor requires no grade lower than a “C” in all courses selected. Prerequisites must be met for all courses selected in this minor.

The minimum grade point average for this minor is equivalent to the program and major grade point average required by the College of Business.

**Computer Science**

The minor in computer science is an eighteen hour course of study that must include Computer Science 1361, 1362, 2305, and one course from Computer Science 1301, 1341 or 1351, and six advanced hours.

**Creative Writing**

Non-English majors who choose to minor in English may specialize in creative writing by selecting the following courses: English 1301, 1302, 2328, one additional sophomore literature, 3355 or 3356, and 4376 or 4377.

**Criminal Justice**

Criminal Justice 2302, 2308, and six additional hours of Criminal Justice electives.

**Cultural Competence and Security Studies**

A student who chooses Cultural Competence and Security Studies as a minor must complete the following courses: Cultural Competence 3310, 3312, Cultural Competence and Security Studies 3315, 3317, and 6 hours of additional Cultural Competence and Security Studies courses.

**Education**

The Education minor is eighteen (18) semester credit hours (SCH) selected from the following list. Nine hours must be advanced hours. All prerequisites apply to the courses. An individual completing this minor will not be eligible for Texas teacher certification. Select from Early Childhood 2305, Education 2302, Education 2323, Education 3314, Educational Psychology 3303, Reading 2306, Reading 3332, Reading 3335, Reading 3336, Reading 3339, and Special Education 2361.

---

* College of Business majors from the Accounting, Economics and Finance department (AEF) and the Management and Marketing department (MM) may not choose any minor from the (AEF) or (MM) departments.
Academic Regulations

**English Language Learning and Linguistics**

Designed for students interested in teaching English as a second language abroad or in TESOL English language training in the United States. The minor does not lead to ESL Certification K-12. This minor requires 18 hours: Linguistics 2340, 3320, 3323, 3326, 3328, and 4323. Courses in the minor are cross-listed in the disciplines of English and Linguistics. *Students that major in English with a specialization area of English Language Learning and Linguistics may not choose a minor in English Language Learning and Linguistics or a minor in Linguistics.*

**Film Studies**

The Film Studies minor requires 18 interdisciplinary hours which would include both Communication/Mass Media 2362 and English 4355. The remaining 12 hours may be taken from the following courses: Art 1305, Communication 3366, 4352, 4365, and Theatre 3311, 4314, and 4351, French 4328, and Spanish 3334. Occasionally, University Studies and special topics courses will be offered in various departments which are appropriate for this minor. Students must receive permission to count such special topics courses in their film minor from the Dean of Arts and Sciences.

The film industry in the U.S. is a multibillion dollar business. We are increasingly a visual culture, but not necessarily a visually literate culture. The purpose of a film studies minor at ASU is to build essential literacy skills, such as interpretive, visual, verbal, critical, audio-visual, and narrative literacy to survive in today’s competitive market-place. Students will acquire knowledge in film making techniques, learn how to read visual and cultural cues, and hone their skills in analyzing persuasive and rhetorical messages.

Students may obtain an academic minor in film studies, an interdisciplinary study of how film is both a record of social culture and a force for cultural change. Two courses (6 hours) are required for this minor: Communication/Mass Media 2362, and English 4355. These courses will expose students who opt for a film studies minor to the basic technological, theoretical and artistic terminology and knowledge necessary to successfully interpret this art form. Students will take an additional 12 hours from the following selected courses *: Art 1305, Communication 2362, 3366, 4352, 4365, Theatre 3311, 4314, 4351, English 4355, French 4328, and Spanish 3334.

**French**

French 1301, 1302, 2311, 2312, 3311 or 3312, and 3 hours in upper division French or related course in another discipline approved by the department.

**Gender Studies**

The interdisciplinary minor in gender studies teaches students to analyze gender and sexuality as aspects of human biology, identity, and culture, thus preparing them for careers in a diverse workplace and/ or for graduate studies in gender-related areas. Students who select this 18 hour minor must take Gender Studies 2301, “Introduction to Gender Studies” (3 hours), and fifteen additional hours, selecting five of the following courses: Early Childhood 2305, Educational Psychology 3303, Sociology 3315, History 3347, Social Work 4327, Communication 4312, Political Science or Philosophy 4333, English 4337, and Nursing 4338.

* Courses taken to fulfill requirements for this minor may not also be counted toward the student’s major.

**Geography**

This discipline may be used only as part of a multiple area minor. At least six semester hours of advanced work will be required in residence for each discipline.

**German**

German 1301, 1302, 2311, 2312, 4391, and 3 hours in upper division German or related course in another discipline approved by the department.

**Intelligence, Security Studies, and Analysis**

The minor in Intelligence, Security Studies, and Analysis is an eighteen semester hour course of study consisting of ISSA 3310, 3320, and 12 hours of ISSA electives.

**Journalism**

Students may obtain an academic minor in Journalism by taking the following courses: Mass Media 1311, 2305, 2311, 3313, 3314, and 3363. No Mass Media majors.

**Kinesiology**

Athletic Training 3360, Kinesiology 2361, 3333, and nine additional hours of kinesiology.

**Leadership Studies**

Aerospace Studies 3312, 3314, Management 3300, 3 semester credit hours in History 4323, 4340, or 4361, 3 semester credit hours in Political Science 3314, 4301, or 4351, and 3 semester credit hours in Communications 3335, 3351, or 3355.

**Linguistics**

The Linguistics minor is an eighteen semester hour course of study designed to complement majors in Biology, Communication, Education, English, Modern Language, Kinesiology, Psychology, and Sociology among others. Linguistics is the scientific study of human language; all courses are taught in English. A minimum of six advanced hours must be in residence. *Students that major in English with a specialization area of English Language Learning and Linguistics may not choose a minor in English Language Learning and Linguistics or a minor in Linguistics.*

**Mathematics**

Single area minor or multiple area minor in Mathematics must include Mathematics 2513 and six semester hours chosen from Mathematics 3300, 3301, 3305, 3307, 3315, 3335, 3514, 4301, 4311, 4331, 4335, 4345, 4351, 4355, or 4361.

**Mexican American Studies**

The interdisciplinary minor in Mexican American Studies prepares students for careers serving Mexican American constituencies, for professional interaction in a multicultural environment, and for work in settings that focus on people of Mexican origin. Students who select this 18 hour minor must take Mexican American Studies 2301, “Introduction to Mexican American Studies” (3 hours) and fifteen additional hours selected from the following courses: Communication 3355, History 3355, 3356, 3362, 4313, 4351, English 4336, Spanish 3334, 3343, 4324, Sociology 3327, and Political Science 4353.

The additional fifteen hours must be in at least three different disciplines. The student may not select a course in the same discipline as his or her major.
Music
If music is selected as a minor, only three semester hours of applied music and three semester hours of ensemble may be utilized for the single area minor. In the multiple area minor, only three semester hours of applied music and/or ensemble may be utilized. Applied music may not be used to fulfill advanced requirements in the music minor.

Physical Science
This discipline may be used only as part of a multiple area minor. At least six semester hours of advanced work will be required in residence for each discipline.

Pre-MBA
The Pre-MBA minor is an eighteen semester hour program, chosen from the following: Accounting 2301 and 2302, Economics 2301 and 2302, Mathematics 1325, Management Science 2331, Finance 3361, Management 3300, and Marketing 3321. A minimum of six hours must be at the advanced level and in residence. All nine courses listed above must be completed to meet requirements for the MBA program.

Professional Education
All prerequisites will apply to the courses. Individuals choosing this minor will have to successfully meet all requirements required for admission to the Educator Preparation Program (EPP) regardless of their degree. These courses, with additional coursework related to Student Teaching, prepare the individual for Texas secondary teacher certification. To become fully certified additional requirements by the state of Texas must be met. Contact the Educator Preparation Information Center Advisor for information about Texas Teacher Certification requirements. Professional Education minor: Education 2323, Educational Psychology 3303, Education 4321, Education 4322, Education 4323, and Reading 4320.

Public Relations
Students may obtain an academic minor in Public Relations by taking the following courses: Communication 3335 or Mass Media 3335, Communication 3342 or Mass Media 3342, Communication 4335 or Mass Media 4335, and Communication 4336. In addition, students must take two of the following courses: Mass Media 1311, Communication 2344, Mass Media 2345, Communication 2362 or Mass Media 2362, Communication 2331, Communication 3321, Communication 3352, Communication 4338, Communication 4381 or Mass Media 4381, Theatre 3320, English 3351, Political Science 3341, or History 4340.

Communication or Mass Media majors may not choose the Public Relations minor.

Reading
Only the following courses should be used for the 18 SCH Reading Minor: Reading 2306, 3332, 3335, 3336, 3339 or 4320, 4301.

Social Work
The Social Work Minor consists of Social Work 2307, Social Work 2317, Social Work 3307, and 9 semester credit hours from Social Work 4303, Social Work 4305, Social Work 4307, Social Work 4309, Social Work 4313, Social Work 4317, Social Work 4325, Social Work 4327; and includes a total of 18 semester credit hours of course work. Of those 18 semester credit hours, at least six semester credit hours from the upper level course options listed above, are required in residence. Minimum grade of “C” is required in all social work courses counted toward the major or minor.

Spanish
Spanish 1301, 1302, 2311, 2312, 3301 or 3302, and 3 hours in upper division Spanish or related course in another discipline approved by the department.

Technical and Business Writing for Business Major
Business majors who choose a minor in English may specialize in technical and business writing by selecting the following courses: English 1301, 1302, 3 hours of 2000-level literature, 3352, and 2 upper-level technical and business writing courses: 3353, 3354, 4360, or 4365.

Technical and Business Writing for Non-Business Major
Non-English majors without a Business major who choose a minor in English may specialize in technical and business writing by selecting the following courses: English 1301, 1302, 3 hours of 2000-level literature, 3351 or 3352, and 2 upper-level technical and business writing courses: 3353, 3354, 4360, or 4365.
Certificate Programs

Undergraduate Certificate Programs

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. All coursework for certificates must be taken in-residence; transfer credits from other institutions will not apply toward certificate programs.

Certificate - Applied Communication
(15 SCH required)
COMM 1351 Fundamentals of Human Communication...........3
COMM 3352 Communication in Professional Life..................3
COMM 3356 Negotiation and Conflict Management...............3
COMM 4311 Interpersonal Communication..........................3
COMM 4351 Communication Theory..................................3
See page 98 for more information

Certificate - Asian History
(12 SCH required)
HIST 3337 Comparative History of Ancient East and West ....3
HIST 3371 Asia in the Age of Imperialism, 1800 to 1945 .......3
HIST 3372 China and the U.S. Since 1800.........................3
HIST 4340 Globalization Since 1945 ................................3
See page 144 for more information

Certificate - Computer Game Development
(12 SCH required)
CS 3371 Computer Game Development I...........................3
CS 3372 Handheld Game Development............................3
CS 4318 Artificial Intelligence.......................................3
CS 4371 Computer Game Development II.........................3
See page 104 for more information

Certificate - Corporate Communication
(15 SCH required)
COMM 1351 Fundamentals of Human Communication...........3
COMM 3352 Communication in Professional Life..................3
COMM 3355 Public Relations Principles............................3
COMM 3356 Negotiation and Conflict Management...............3
COMM 4371 Organizational Communication........................3
See page 98 for more information

Certificate - Correctional Systems Studies
(12 SCH required. Choose 4 of the following courses.)
CRIJ 2314 Criminal Investigation....................................3
CRIJ 3303 Theory and Practice in the Juvenile Justice System .3
CRIJ 3312 Criminal Justice Administration.......................3
CRIJ 4310 Community Corrections.................................3
CRIJ 4330 Seminar on Correctional Problems.....................3
See page 108 for more information

Certificate - Creative Writing: Fiction Concentration
(9 SCH required)
ENG 2328 Introduction to Literature and Creative Writing........3
ENG 3355 Fiction and Fiction Writing...............................3
ENG 4376 Fiction Writing Workshop..................................3
See page 127 for more information

Certificate - Crime and Border Security Studies
(12 SCH required)
BOR 3304 Transnational Crime........................................3
BOR 3306 International Drug Trafficking............................3
BOR 3308 International Human Trafficking.........................3
BOR 4310 Maritime Security............................................3
See page 77 for more information

Certificate - Criminal Justice Law
(12 SCH required)
CRIJ 2323 Legal Aspects of Law Enforcement.......................3
CRIJ 3310 Criminal Justice Process.................................3
CRIJ 3340 Legal and Constitutional Issues in Homeland Security 3
CRIJ 4345 Federal Immigration Law..................................3
See page 108 for more information

Certificate - Cultural Competence and Security Studies - Africa
(12 SCH required)
CCSS 3315 Contemporary Security Issues in World Politics......3
CCSS 3329 The Politics and Culture of Africa.....................3
CCSS 4321 The Political Economy of Africa.......................3
CCSS 4331 Cultural Competency and Contemporary Security Issues in Africa..........................3
See page 114 for more information

Certificate - Cultural Competence and Security Studies - Asia
(12 SCH required)
CCSS 3315 Contemporary Security Issues in World Politics......3
CCSS 3323 The Politics and Culture of Asia.......................3
CCSS 4315 The Political Economy of Asia.........................3
CCSS 4325 Cultural Competency and Contemporary Security Issues in Asia..........................3
See page 114 for more information

Certificate - Cultural Competence and Security Studies - Europe
(12 SCH required)
CCSS 3315 Contemporary Security Issues in World Politics......3
CCSS 3323 The Politics and Culture of Europe.....................3
CCSS 4310 The Political Economy of Europe.......................3
CCSS 4323 Cultural Competency and Contemporary Security Issues in Europe..........................3
See page 114 for more information

Certificate - Cultural Competence and Security Studies - Latin America
(12 SCH required)
CCSS 3315 Contemporary Security Issues in World Politics......3
CCSS 3325 The Politics and Culture of Latin America............3
CCSS 4317 The Political Economy of Latin America..............3
CCSS 4327 Cultural Competency and Contemporary Security Issues in Latin America..................3
See page 114 for more information
Certificate - Cultural Competence and Security Studies - Middle East
(12 SCH required)
CCSS 3315 Contemporary Security Issues in World Politics........3
CCSS 3327 The Politics and Culture of the Middle East..........3
CCSS 4319 The Political Economy of the Middle East........3
CCSS 4329 Cultural Competency and Contemporary Security Issues in the Middle East........3
See page 114 for more information

Certificate - Cybersecurity
(12 SCH required)
BOR 3307 Introduction to Cybersecurity........................3
BOR 3309 Information Security and Protection................3
BOR 4301 Critical Communications Infrastructure............3
BOR 4302 Space Imagery and Security.........................3
See page 77 for more information

Certificate - Economic History
(12 SCH required. Choose 4 of the following courses.)
HIST 3307 U.S. in the Industrial Age, 1877-1939.................3
HIST 3308 U.S. Urban History..................................3
HIST 3372 China and the U.S. Since 1800.......................3
HIST 4313 U.S. - Mexico Borderlands.........................3
HIST 4340 Globalization Since 1945............................3
See page 144 for more information

Certificate - Emergency Management
(12 SCH required) *
BOR 3322 Weapons of Mass Destruction........................3
BOR 4301 Critical Communications Infrastructure............3
BOR 4330 Disaster Preparedness and Emergency Planning.....3
BOR 4351 Critical Infrastructure Protection................3
See page 77 for more information

Certificate - European History
(12 SCH required. Choose 4 of the following courses.)
HIST 3335 Renaissance and Reformation.........................3
HIST 3336 Absolutism and Enlightenment: Europe, 1648-1788...3
HIST 4330 The Middle Ages....................................3
HIST 4333 Modern Europe from 1871 to 1945.....................3
HIST 4335 Revolutionary Europe, 1789-1871....................3
HIST 4342 Dictatorship and Democracy in the 20th Century....3
See page 144 for more information

Certificate - Gerontology
(12 SCH required)
PSY 4331 Psychology of Aging.....................................3
SOC 3325 Social Research and Data Analysis.................3
SOC 4331 Sociology of Aging.....................................3
SOC 4332 Death and Dying..........................................3
See page 256 for more information

Certificate - Human Development
(12 SCH required)
PSY 2304 Developmental Psychology............................3
PSY 3315 Child Psychology.........................................3
PSY 3319 Adolescent Psychology.................................3
PSY 4331 Psychology of Aging.....................................3
See page 241 for more information

Certificate - Human Diversity
(12 SCH required)
COMM 3355 Intercultural Communication........................3
PSY 3323 Cultural Psychology....................................3
PSY 3325 Psychology of Stereotypes, Prejudice, and Discrimination........3
SOC 3327 Human Diversity and Social Inequality............3
See page 241 for more information

Certificate - Latin America-Mexico History
(12 SCH required. Choose 4 of the following courses.)
HIST 3355 Latin America to 1800................................3
HIST 3356 Latin America since 1800.............................3
HIST 4313 U.S. - Mexico Borderlands.........................3
HIST 4351 Mexico Since Independence.........................3
HIST 4360 Latin American Slavery...............................3
See page 144 for more information

Certificate - Law and the Constitution
(9 SCH required)
POLS 3309 The Supreme Court and the Judicial Process.....3
POLS 4301 The Constitution and Constitutional Law........3
POLS 4302 Constitutional Rights and Liberties..............3
See page 236 for more information

Certificate - Law Enforcement Studies
(12 SCH required. Choose 4 of the following courses.)
CRIJ 2314 Criminal Investigation or
CRIJ 2323 Legal Aspects of Law Enforcement................3
CRIJ 3303 Theory and Practice in the Juvenile Justice System........3
CRIJ 3312 Criminal Justice Administration....................3
CRIJ 4350 Seminar on Police Problems........................3
CRIJ 4360 Police Personnel Management......................3
See page 108 for more information

Certificate - Media Production
(15 SCH required)
COMM 2362 Beginning Video Production........................3
COMM 3361 Electronic Media Programming....................3
COMM 3363 Electronic News Gathering and Production.......3
COMM 4364 Media Management................................3
COMM 4365 Advanced Video Production.......................3
See page 98 for more information

Certificate - Mental Health: Problems and Prevention
(12 SCH required)
PSY 3313 Introduction to Counseling Psychology..............3
PSY 4305 Abnormal Psychology..................................3
PSY 4313 Behavioral Neuroscience..............................3
PSY 4335 Health Psychology......................................3
See page 241 for more information

Certificate - Military History
(12 SCH required)
HIST 3305 The Era of the Civil War and Reconstruction, 1837-1877........3
HIST 3337 Comparative History of Ancient East and West....3
HIST 3379 U.S. Military History................................3
HIST 4361 Topics in Military History........................3
See page 144 for more information

* Course substitutions are not allowed in this certificate.
Academic Regulations

Certificate - Organizational Psychology
(12 SCH required)
PSY 2305 Social Psychology ..................................................... 3
PSY 3307 Motivation ................................................................. 3
PSY 3309 Industrial-Organizational Psychology ......................... 3
PSY 3311 Psychological Testing .................................................. 3
See page 241 for more information

Certificate - Performance Studies
(15 SCH required)
COMM 2331 Performance Studies ............................................... 3

See page 216 for more information.
Academic Regulations

Post Master’s Certification Programs

Students pursuing a professional certificate on a certification plan may use previous graduate course work to fulfill certification requirements. All work must be completed within a period of six years from the earliest credit to be counted on the certification plan. Under certain circumstances, a time extension of up to four years may be granted on a course by course basis.

If a time extension for one or more courses is desired, a written application must be presented to the program advisor appropriate to the certification plan. It must explain (1) why the certification plan was not completed in a timely manner, (2) a schedule for completing the certification plan, and (3) information indicating that the student’s knowledge of the subject matter in each course for which an extension is requested remains current.

Time extensions are not routine. Courses taken more than 10 years before the completion of the post master’s certification plan are never allowed to be used toward the plan. Additional courses are frequently assigned to the student who has not completed the certification plan requirements within the six-year time limit.

Principal Certification

Specialization Courses

EDG 6305 Legal and Ethical Principles.........................3
EDG 6311 Instructional Supervision..........................3
EDG 6341 Role of the Principal.................................3

#### Advising Requirements and Contact Information

<table>
<thead>
<tr>
<th>College of Arts and Sciences</th>
<th>College of Business</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Agriculture.</strong> Students must see an advisor each semester until they graduate. The department will match advisors with students in their area of concentration. Students are encouraged to contact the departmental secretary to obtain their advising assignment.</td>
<td>Business students are required to see an advisor each semester. Students in the Pre-Business program will be advised in the Center for Student Success. The Center for Student Success is available for consultation on a year-round basis. Students who have filed for advanced standing will see an advisor in their major. For a listing of departmental advisors please contact the Office Coordinator of your major.</td>
</tr>
<tr>
<td><strong>Biology.</strong> Students must see an advisor each semester until they graduate. A list of available advisors is posted in the departmental office. Students are encouraged to contact the departmental secretary or department chair for more information.</td>
<td><strong>Accounting, Economics, and Finance.</strong> Students must see an advisor each semester until they graduate. A list of assigned advisors is posted throughout the departmental office suite. Students are encouraged to contact their assigned advisor directly, or they may contact the departmental secretary to make arrangements.</td>
</tr>
<tr>
<td><strong>Chemistry and Biochemistry.</strong> Students, including pre-pharmacy majors, must see an advisor each semester until they graduate. Students are encouraged to contact the department chairman for their assignment and additional advisement information.</td>
<td><strong>Aerospace Studies.</strong> All ROTC students must see an advisor each semester until they graduate. Advising instructions and assignment of advisors is provided to each student in the syllabus on the first day of class each semester. The department encourages each student/cadet to contact the departmental secretary if their instructor/advisor has not arranged to meet with each student by the mid-point of each semester.</td>
</tr>
<tr>
<td><strong>Communication and Mass Media.</strong> Students must see an advisor each semester until they graduate. Students are encouraged to contact the departmental office to receive their advisor assignment.</td>
<td><strong>Management and Marketing.</strong> Students must see an advisor each semester until they have earned at least 60 semester credit hours and filed a degree plan with the Dean of the College. A list of available advisors is posted throughout applicable campus buildings. Students are encouraged to contact their assigned advisor directly, or they may contact the departmental secretary to make arrangements.</td>
</tr>
<tr>
<td><strong>Computer Science.</strong> Students must see an advisor each semester until they have earned at least 90 semester credit hours and have filed a degree plan with the Dean of the College. Students may seek the assistance of an advisor at any time, and may also contact the department office for further information.</td>
<td><strong>Political Science and Philosophy.</strong> Students must see an advisor each semester. Students are encouraged to report to the departmental office for detailed instructions.</td>
</tr>
<tr>
<td><strong>English and Modern Languages.</strong> Students must see an advisor each semester until they graduate. A list of preassigned advisors is maintained by the department’s Advising Committee. Students may contact the departmental secretary or department chair for their assignment and additional advisement information.</td>
<td><strong>Physics and Geosciences.</strong> Students must see an advisor each semester until they graduate. A list of faculty advisors is available in the departmental office. Students are encouraged to contact the department secretary or department chair for additional information.</td>
</tr>
<tr>
<td><strong>History.</strong> Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.</td>
<td><strong>Political Science and Philosophy.</strong> Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.</td>
</tr>
<tr>
<td><strong>Mathematics.</strong> Students must see an advisor each semester until they graduate. Students may seek the assistance of an advisor at any time, and may also contact the department office for further information.</td>
<td><strong>Security Studies and Criminal Justice.</strong> Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.</td>
</tr>
<tr>
<td><strong>Physics and Geosciences.</strong> Students must see an advisor each semester until they graduate. Students are encouraged to contact the department secretary or department chair for additional information.</td>
<td><strong>Visual and Performing Arts.</strong> Students must see an advisor each semester until they graduate. A list of available advisors is included in a departmental student handbook that is circulated to all art, music, and theatre majors. Students are encouraged to contact their assigned advisor directly, or they may contact the departmental secretary to make arrangements.</td>
</tr>
<tr>
<td><strong>Political Science and Philosophy.</strong> Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.</td>
<td><strong>Teacher Education.</strong> Students must see an advisor each semester until they graduate. A list of faculty advisors is available in the department office. Students are encouraged to contact the department secretary or the department chair for additional information.</td>

**College of Education**

**Curriculum and Instruction.** Immediately upon acceptance into a program in the Curriculum and Instruction Department, you should arrange a personal appointment with your program’s academic advisor to prepare a detailed degree plan. For the duration of your course of study, you should continuously monitor your own progress on your degree plan by using the Unofficial Transcript and Degree Evaluation features of Rampart. Contact your academic advisor each semester via e-mail to let them know of your progress and discuss any problems that you may foresee with your schedule. Undergraduate students should attend the group advising sessions held near the end of each semester. At the session, advisors will review with you your scheduled courses for the next semester and release your advising hold so that you may register for classes online.

**Teacher Education.** Students must see an advisor each semester until they graduate. A list of faculty advisors is available in the department office. Students are encouraged to contact the department secretary or the department chair for additional information.
Academic Services

College of Health and Human Services

Kinesiology. Students must see an advisor each semester until they graduate. A list of available advisors is posted throughout applicable campus buildings. Students are encouraged to contact their assigned advisor directly, or they may contact the departmental secretary to make arrangements.

Nursing and Rehabilitation Sciences. Students must see an advisor each semester until they graduate. The College Academic Advisor advises pre-nursing students for the B.S.N. program up to 60 credit hours, or until students are accepted and admitted to a nursing program. The M.S.N. program advisor will advise graduate students, and advising is required prior to each semester registration. Students are encouraged to contact the department secretary for additional information.

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy Program is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

Psychology, Sociology, and Social Work. Students must see an advisor each semester until they have earned at least 60 semester credit hours. A list of faculty advisors is available in the departmental office. Students are also encouraged to visit the departmental website for advisement information.

Freshman College

The Freshman College mission is to assist new students with a successful transition to ASU and enhance their first-year experience through academic support, peer mentoring, learning communities and signature seminars.

First Year Programs. The First Year Programs is designed to help first-year students achieve academic success and persist to graduation. We understand all students new to ASU will have some sort of first-year experience and we have the tools and resources to help make yours a successful endeavor. The major component of First Year Programs is the USTD 1201: Critical Thinking/Freshman Seminar, signature courses that offer first-year students the opportunity to interact closely with a faculty member and their peers through class discussion. Another first year programming initiative is the Common Read, designed to foster academic community and encourage intellectual engagement beyond the classroom.

Office of Predeclared Advising. The Office of Predeclared Advising assists students with fewer than 30 credit hours who are undecided about a major. In an effort to help students declare a major, our academic advisors act as guides and resource persons who assist students with an understanding of academic requirements, the development of academic goals, and an exploration of degree and course offerings.

Early Alert. ASU is committed to providing a personal education for each of our students and our Early Alert program is a key part of this goal. When faculty become concerned about a student’s excessive or frequent absences, low grades, incomplete assignments, or other at-risk behaviors, they are encouraged to make use of the Early Alert program. Early Alert assesses the student’s situation, offers support, and refers the student to important resources on campus.

SMART: Students Mapping A Right Track

SMART (Students Mapping A Right Track) is an umbrella of academic support to help improve student retention and academic success. Services are free to all ASU Students. SMART consists of the following:

ASU Tutor Center. The ASU Tutor Center offers academic support for a variety of subjects and disciplines such as accounting, anatomy, biology, business, chemistry, economics, history, nursing, physics, and physiology. Tutoring is free to all ASU students. ASU Tutoring offers broad-based study skill strategies and techniques to promote critical thinking and time management. Students are seen on a walk-in basis — no appointments are necessary — and individual tutoring sessions will last about an hour.

Supplemental Instruction (SI). Supplemental Instruction is an academic assistance program that uses peer-led group study to help students succeed in traditionally difficult courses — those with high failure and/or withdrawal rates. SI consists of regularly scheduled, out-of-class group study that gives students an opportunity to meet with classmates to compare notes, discuss readings and key course concepts, develop study skill strategies and prepare for exams. SI takes all the hassle out of managing a study schedule and agenda. Think of it as guaranteed study time.

Math Lab. The Math Lab is available to all ASU students enrolled in first- and second-year math courses. Math Lab staff provide help with homework assignments and offer additional explanations of concepts and procedures. The Math Lab is open year-round with drop-in service only.

Writing Center. The Writing Center serves all ASU undergraduate and graduate students, offering one-on-one conferences about writing, catering to students from any discipline, at any skill level, and at any stage of the writing process. The Writing Center serves all students on a drop-in basis only.

SMART Online. ASU students can access SMART Online by logging on to Blackboard using their ASU user name and password. Students have 24/7 access to SMART Online, which offers virtual support for the ASU Tutor Center, Writing Center, Math Lab, and Supplemental Instruction. There are several forms of online assistance available:

• Live Sessions: Live, online, chat with a tutor.
• Ask a Tutor: Post a question or browse the Frequently Asked Questions.
• Resources and Exercises: Access worksheets, exercises, and links to references and academic resources as well as other online sites to promote independent study.

SMART Study Skills and Academic Workshops. Offered during the fall and spring semesters, these one-hour workshops combine introspective work and group discussion with the central goal of providing students practical skills for independent learning. Conducted by staff facilitators, the workshops focus on a variety of topics to help students develop and improve their academic strategies.

Study Jam. Study Jam is offered during the last week of each fall and spring semester as an opportunity for students to ask any remaining questions, participate in last-minute review sessions, share notes and discuss course content in preparation for finals. The week is also designed to help students build confidence and motivation through workshops on test-taking strategies and methods for beating test anxiety, as well as relieve stress with exercise classes offered through the University Recreation Department.
Information Technology

Angelo State University is committed to providing students access to technology and electronic resources needed to enhance the teaching and learning environment. Web access to technology services allow students to register for classes, check grades, and pay tuition. The online learning management system enables students to submit assignments, take tests, check grades, and interact with fellow classmates and their faculty member anytime, anywhere. The campus-wide mobile friendly network allows you to connect your laptop, tablet or smartphone to access technology services. Accessing the learning management system, checking e-mail, class schedules, campus news and sporting event information is convenient from your mobile devices. Students can tour the campus, meet the President, review the University calendar and current course offerings, submit applications, read the RAM Page (school newspaper), browse the library’s holdings and access full text documents and articles from any location in the world using Angelo State University’s web services.

Angelo State University utilizes a state-of-the-art network infrastructure to provide electronic access to information and to enhance the learning environment for the ASU Community. For on-campus students, all of the on-campus residence halls have high-speed connections to the ASU network in the resident’s room. Wireless connectivity is also available in all buildings on campus including residence halls. As part of the university’s commitment to incorporating technology into the classroom, there are over 600 computers located in computer labs around campus available for student and instructional use as well as 90% of university classrooms equipped with multimedia equipment. The Library Learning Commons provides 24-hour access to a technology rich and mobile friendly environment which includes large flat panel displays to which students can connect laptops and other devices; digital senders to scan and send documents to students’ e-mail accounts; laptop computers for checkout; enhanced wireless connectivity; and traditional personal computers and scanners. Electrical outlets are conveniently located throughout the Library Learning Commons for students to utilize and recharge digital devices. If you have a problem or question about technology services, a 24-hour technology service center is available to all students (on-campus and off-campus) to assist with technology questions and requests.

Multicultural Center

The Multicultural Center works to encourage an inclusive and supportive environment for all members of the ASU community by promoting awareness and understanding of different cultures, people, ideas, and perspectives. Diversity education, leadership, and quality programs are provided to encourage appreciation and celebration of differences.

Created in the fall of 2008, the Multicultural Center is under the direction of the Assistant to the President for Multicultural Initiatives. The center sponsors and provides support for programs focusing on recruitment, retention and graduation of first generation and under-represented students, as well as supporting diversity and multicultural initiatives. Located in the University Center Room 114, the Multicultural Center is a central location where students can discover information describing programs available to them, as well as enjoy the mix of cultures and people passing through the door. For more information contact the Multicultural Center at 325-942-2729, multicultural@angelo.edu, or visit the website at www.angelo.edu/dept/multicultural_center/.

Porter Henderson Library

The Porter Henderson Library at Angelo State University possesses an array of facilities to support the various degree programs offered by the University. The total library holdings surpass 1,500,000 items in a variety of formats, comprising a collection which compares favorably with the national average for library holdings in peer institutions. The holdings include numerous materials received through the Library’s designation as a Depository for United States documents; a growing collection of electronic resources; an extensive reference collection; a selection of journals and periodicals; significant quantities of microform materials; research collections available in the Library’s West Texas Collection, located on the Second Floor of the University Center; and CD’s, videos, DVD’s, and other audio-visual materials. The Library provides a wide variety of electronic databases and online services which increase the access to information including nearly 45,000 full text/image serial titles.

Library facilities contain nearly 100,000 square feet of space. Students enjoy using group study rooms conducive to efficient study and research, open stacks, a media center, and a quiet study room space. The new Learning Commons opened in January 2011 and it provides a variety of group and collaborative spaces in a technology rich environment. Through the Library’s Interlibrary Loan service and cooperative agreements with other libraries, students and faculty members may request additional resources for their personal research and classroom assignments. The Library provides sessions for students to learn information library skills.

On the third floor, the Library shares space with the English and Modern Languages Department, the Freshman College, the Communication and Mass Media (CMM) Department, Advising Center, Tutoring Center, and the Honors Program. In addition, this floor has classrooms, offices, a TV studio, and two climate controlled storage rooms.

   Director of Student Services
The Graduate Council

The Graduate Council, working closely with the Academic Administration, is responsible for providing leadership to the University in the development and improvement of all phases of the graduate program. The primary responsibilities of the Council are (1) to serve in an advisory capacity to the Dean of the College of Graduate Studies; (2) to make recommendations to the President through administrative channels on academic policies and programs affecting the graduate program; and (3) to act as liaison between the Administration and the Graduate Faculty.

Members

Bonnie B. Amos, Ph.D., Professor of Biology
Jack N. Barbour, Ph.D., Professor of Political Science
Jeffrey G. Boone, Ph.D., Professor of Mass Media
Robert S. Ehlers, Jr., Ph.D., Professor of Security Studies
James N. Forbes, Ph.D., Professor of Psychology and Chair of the Department of Psychology, Sociology and Social Work
Mary Ellen Hartje, Ph.D., Professor of English
Won-Jae Lee, Ph.D., Associate Professor of Criminal Justice
Kimberly K. Livengood, Ph.D., Associate Professor of Curriculum and Instruction
Mary E. McGlamery, Ph.D., Associate Professor of Curriculum and Instruction
Kraig L. Schell, Ph.D., Professor of Psychology
Cody B. Scott, Ph.D., Professor of Animal Science and Research Scientist at the Management, Instruction, and Research Center
Warren K. Simpson, Ed.D., Professor of Kinesiology
Norman A. Sunderman, D.M.A., Professor of Accounting
Molly J. Walker, Ph.D., Professor of Nursing
Shelly D. Weise, Ed.D., Professor of Physical Therapy and Chair of the Department of Nursing and Rehabilitation Sciences
Ex Officio Member: Susan E. Keith, Ph.D., Professor of Kinesiology and Dean of the College of Graduate Studies

Angelo State University is a member of the Association of the Texas Graduate Schools.

Center for Innovation in Teaching and Research (CITR)

Director: John M. Wegner, Jr.
The mission of the ASU Center for Innovation in Teaching and Research is to provide a diverse faculty with programs that foster teaching, research, mentoring, and service. For more information, please visit the Center’s website at www.angelo.edu/dept/citr/.

University Mace

Traditionally, a mace is a staff carried by a dignitary as an ensign of individual or institutional authority and prestige. The Angelo State University Mace represents the standing of the university and the power of higher education not only in shaping lives but also in improving society.

The University Mace was designed in 1995 by a committee composed of faculty, students and staff. Crafted of native woods, the mace features a white oak orb with inlaid carvings in mesquite of a Rambouillet ram, the columns of the Porter Henderson Library and the region’s Twin Buttes highlighted with a Concho Pearl. A double-sided bronze casting of the University Seal is mounted atop the orb, and a cast bronze cylindrical collar with polished bronze raised letters spelling out Angelo State University, Angelo State College and San Angelo College forms the base of the orb.

The native pecan for the staff, four and one-half feet long, comes from the joists of Fort Concho. The carving is the work of Dr. Judith Hakes, a member of the Department of Teacher Education faculty. The actual construction of the mace was accomplished by Bobby Peiser, retired ASU Campus Security Director. Nathan’s Jewelers donated the Concho Pearl, and Janette Sloper cast the metal used in the mace.

A distinguished faculty member is chosen each semester to lead the procession of faculty and administrators at each commencement. When not used for commencement and other ceremonial events, the mace is displayed in the Houston Harte University Center.
The Faculty
2013-2014

(Date) indicates year of hire
Underlined name indicates a member of the Graduate Faculty

Christie L. Adkins (2010)
Instructor in Biology
M.S., B.S., Angelo State University

Charles C. Allen (2002)
Associate Professor of Physics
Ph.D., Purdue University
M.S., University of Illinois at Urbana-Champaign
B.S., Brown University

Specialization: Composition
Professor of English and Interim Provost and Vice President for Academic Affairs
Ph.D., M.A., Texas Tech University
B.S., University of Texas at El Paso

Specialization: Molecular Systematics
Professor of Biology
Ph.D., University of Texas at Austin
B.S., Texas A&M University

Bonnie B. Amos (1987)
Specialization: Botany
Professor of Biology
Ph.D., University of Oklahoma
M.S., B.S., Angelo State University

Esteban C. Apodaca (1989)
Professor of Art
M.F.A., University of Arizona
B.F.A., New Mexico State University

Kenna L. Archer (2010)
Instructor in History
Ph.D., Texas Tech University
M.E.S., B.A., Baylor University

Anna G. Arreola (2013)
Instructor in English
M.A., B.A., Angelo State University

Kathryn E. Artnak (1995)
Specialization: Clinical Ethics, Cardiovascular Nursing
Professor of Nursing
Ph.D., University of Texas Health Science Center at San Antonio
M.S.N., Catholic University of America
B.S.N., Ball State University

Erin L. Ashworth-King (2009)
Specialization: Early Modern British Literature
Assistant Professor of English
Ph.D., B.A., University of North Carolina at Chapel Hill
M.A., University of Maryland at College Park

Tom F. Badgett (1988)
Specialization: Logistics
Professor of Marketing and Chair of the Department of Management and Marketing
D.B.A., Indiana University
M.B.A., B.B.A., Texas Christian University

Specialization: Philosophy
Associate Professor of Philosophy
Ph.D., B.A., Universidad Complutense de Madrid
B.A., Saint Louis University

Dionne T. Bailey (2001)
Associate Professor of Mathematics
Ph.D., Emory University
B.S., University of Texas at Permian Basin

Gary A. Baker (2011)
Specialization: Auditing, Information Systems
Assistant Professor of Accounting
Ph.D., Texas A&M University
M.S., University of Illinois Urbana
B.S., University of Tennessee

Deborah A. Banker (2010)
Specialization: Educational Diagnostics, Special Education
Assistant Professor of Teacher Education
Ed.D., B.S., University of Houston
M.Ed., University of Texas at Brownsville

Thomas A. Bankston (1974)
Specialization: Finance
Professor of Finance
Ph.D., University of Florida
M.B.A., B.B.A., University of Texas at Austin

Walter M. Baranowski (2011)
Assistant Clinical Professor of Nursing
M.S., University of Cambridge
B.S.N., A.A.S., Angelo State University
B.S., Chapman University
A.A.S., Air University-Community College of the Air Force

M.F.A., B.A., B.A., University of North Texas

Specialization: Neuroscience, Motor Control
Professor of Physical Therapy and Director of the Physical
Therapy Program
Ph.D., B.S., Northwestern University
M.M.S.C., Emory University

Pedro E. Matos (2013)
Assistant Professor of Aerospace Studies and Chair of the
Department of Aerospace Studies
Master of Military Operational Art and Science, Air University
M.H.R., University of Oklahoma
B.A., International University of Puerto Rico

Sandra J. Maxedon (2010)
Specialization: Early Childhood, Reading
Assistant Professor of Teacher Education
Ph.D., M.Ed., B.A., University of Arizona

Janet L. Maxwell (2001)
Associate Professor of Chemistry
Ph.D., University of South Carolina
B.S., University of Oklahoma

Brian J. May (1994)
Specialization: Animal Nutrition
Professor of Animal Science, Research Scientist at
Management, Instruction, and Research Center, and President
of the University
Ph.D., Texas A&M University
M.S., B.S., Angelo State University

Leslie M. Mayrand (1998)
Specialization: Maternal-Child Health
Professor of Nursing and Dean, College of Health and Human
Services
Ph.D., University of Texas at Austin
M.S.N., University of Texas Health Science Center at San
Antonio
B.S.N., B.A., Incarnate Word College

Lauren M. McCormick (2013)
Clinical Instructor in Nursing
M.S.N., B.S.N., A.A.S.N., Angelo State University

Melissa B. McDowell (2012)
Assistant Clinical Professor of Nursing
M.S.N., South University
B.S.N., A.A.S.N., Angelo State University

Cheryl A. McGaughey (1984)
Senior Instructor in Finance
M.B.A., University of Mississippi
B.B.A., Stephen F. Austin State University

Mary E. McGlamery (2006)
Specialization: Educational Psychology
Associate Professor of Curriculum and Instruction
Ph.D., M.S., B.S., Texas A&M University-Commerce

William B. McKinney (1991)
Specialization: Real Estate
Associate Professor of Real Estate
Ph.D., M.Ag., Texas A&M University
B.A., Angelo State University
John J. Miazga, Jr. (1980)
Specialization: Guidance and Counseling
Professor of Education and Dean, College of Education and Teacher Certification Officer
Ed.D., East Texas State University
M.S., Emporia State University
B.A., Colorado College

Sherry A. Miller (2012)
Assistant Clinical Professor of Athletic Training, Associate Head Athletic Trainer and Clinical Education Coordinator
M.S., University of North Texas
B.A., Texas Lutheran College
A.A.S., Casper College

Juan P. Montemayor (1985)
Senior Instructor in Mathematics
M.S., Texas A&M University
B.S., Angelo State University

Rex T. Moody (2012)
Assistant Professor of Marketing
Ph.D., University of Colorado-Boulder
M.B.A., University of New Mexico
B.A., Colorado State University

Kelly D. Moore (2013)
Specialization: Certified Wound Specialist
Assistant Clinical Professor of Physical Therapy
D.P.T., Texas Tech University Health Sciences Center
M.B.A., Angelo State University
B.S., Southwest Texas State University

Ellen M. Moreland (1988)
Senior Instructor in Mathematics
M.S., B.S., Clarkson College of Technology

Mark B. Motl (1990)
Professor of Computer Science
Ph.D., M.C.S., Texas A&M University
B.S., Angelo State University

Elisabeth-Christine Muelisch (1992)
Specialization: Nineteenth-Century French Literature
Professor of French
Ph.D., M.A., Albert Ludwig University, Freiburg

Laurence E. Musgrove (2009)
Specialization: Rhetoric, Composition
Professor of English and Chair of the Department of English and Modern Languages
Ph.D., M.A., University of Oregon
B.A., Southwestern University

Nicholas J. Negovetich (2011)
Specialization: Parasitology, Ecology
Assistant Professor of Biology
Ph.D., M.S., Wake Forest University
B.A., Wabash College

Kendra L. Nicks (2012)
Specialization: Orthopedics, Manual Therapy
Assistant Clinical Professor of Physical Therapy
Sc.D., Texas Tech University Health Sciences Center
B.S., University of Texas Southwestern Medical Center

David L. O'Dell (1992)
Senior Instructor in Spanish
M.A., University of Texas at Austin
B.A., University of Arkansas at Little Rock

Maria De Los Santos Onofre-Madrid (1984)
Assistant Professor of Spanish
M.A., University of Texas at Arlington
B.A., Angelo State University

Edith M. Osborne (2008)
Assistant Professor of Chemistry
Ph.D., Texas A&M University
B.S., Southwestern Oklahoma State University

Vincent P. Osmanski (1991)
Assistant Clinical Professor of Nursing
M.S.N., University of Texas Health Science at San Antonio
B.S.N., Angelo State University

John J. Osterhout (2008)
Specialization: Physical and Biochemical Properties of Peptides
Professor of Biochemistry and Chair of the Department of Chemistry and Biochemistry
Ph.D., University of Texas at Austin
B.A., Rice University

Kathryn A. Ostrofsky (2013)
Instructor in History
M.A., University of Pennsylvania
A.B., Bowdoin College

Corey J. Owens (2008)
Instructor in Animal Science and Research Associate at Management, Instruction, and Research Center
M.S., B.S., Angelo State University

George Pacheco, Jr. (2008)
Specialization: Speech Communication
Assistant Professor of Communication
Ph.D., University of Southern Mississippi
M.A., B.A., West Texas A&M University
Faculty

Adam G. Parker (2010)
Specialization: Sport Nutrition, Strength and Conditioning
Assistant Professor of Kinesiology
Ph.D., Baylor University
M.S., B.S., Texas A&M University

Kathleen M. Price (1991)
Specialization: Exercise Physiology, Biomechanics
Professor of Kinesiology
Ph.D., Texas Woman's University
M.S., B.S., Baylor University

Dennis E. Pate (1980)
Specialization: Medieval and Early Modern European History
Professor of History
Ph.D., M.A., University of California-Los Angeles
B.A., San Jose State University

Robert M. Pullin (2012)
Specialization: Criminal Justice
Assistant Professor of Border Security
Ph.D., M.S., Sam Houston State University
B.S., University of Houston-Victoria

Sandra K. Pate (2011)
Assistant Professor of Management
Ph.D., University of North Texas
M.B.A., B.S., University of Nebraska

Ronald G. Pumphrey (2007)
Associate Professor of History
Ph.D., B.G.S., Texas Tech University
M.S., Texas Tech University

Randolph R. Peters (2009)
Assistant Professor of French
Ph.D., M.A., Universite Michel de Montaingne Bordeaux III
B.A., The University of the West Indies

Christine L. Purkiss (2009)
Specialization: General Education
Associate Professor of Teacher Education
Ed.D., M.Ed., Texas Tech University
B.S. McMurry College

James R. Phelps (2010)
Specialization: Homeland and Border Security, Emergency Management, Criminal Justice
Assistant Professor of Criminal Justice
Ph.D., M.A., Sam Houston State University
B.A., Colorado State University-Pueblo

Associate Professor of Music
D.M.A., University of Southern California
M.M., Florida State University
B.M., Columbus State University

Charles A. Pier (2009)
Specialization: Income Tax
Associate Professor of Accounting and Chair of the Department of Accounting, Economics, and Finance
Ph.D., University of Texas-Arlington
M.S., University of Rhode Island
M.B.A., Florida Institute of Technology
B.S., University of the State of New York

Kristin F. Ramirez (2010)
Specialization: Adult Health
Assistant Clinical Professor of Nursing
M.S.N., B.S.N, Angelo State University

Charles J. Plott (2009)
Instructor in Kinesiology
M.A.T., Angelo State University
B.S., Auburn University

Donna Rich (2013)
Assistant Clinical Professor of Nursing
D.N.P, Texas Christian University
M.S.N., Angelo State University
B.S.N., Texas Tech University
A.A.S.N., Odessa College

Jason E. Pierce (2009)
Specialization: American West, Native West, American Environmental History, Race and Identity and Public History
Assistant Professor of History
Ph.D., University of Arkansas
M.A., Portland State University
B.A., For Lewis College

Rigel K. Rilling (2012)
Instructor in Chemistry
M.S., Angelo State University
B.S., University of Dallas

Charles J. Pugh (2009)
Assistant Professor of Nursing
M.S.N., Regis University
B.S.N., Texas Tech University Health Sciences Center
A.A.S.N., Angelo State University

Leslie Y. Rodriguez (2011)
Instructor in Communication
Ph.D., University of Southern Mississippi
M.A., B.A., Angelo State University

Lopamudra Roychoudhuri (2012)
Assistant Professor of Computer Science
Ph.D., DePaul University
M.Tech., Indian Statistical Institute
M.S., B.S., University of Calcutta
Faculty

Chase A. Runyan (2013)
Assistant Professor of Animal Science and Research Scientist at Management, Instruction, and Research Center
Ph.D., M.S., Texas A&M University
B.S., Oklahoma State University

Connie A. Russell (1999)
Specialization: Behavioral Ecology, Science Education
Professor of Biology
Ph.D., Oklahoma State University
M.S.E., B.S.E., Henderson State University

Ingrid A. Russo (2012)
Assistant Clinical Professor of Social Work
M.S.W., Fordham University
B.A., College of Mount Saint Vincent

Instructor in English
M.A., B.A., Angelo State University

Micheal W. Salisbury (2001)
Specialization: Animal Reproductive Physiology
Professor of Animal Science, Chair of the Department of Agriculture, and Director of the Management, Instruction and Research Center
Ph.D., New Mexico State University
M.S., B.S., Angelo State University

David N. Sanders (2009)
Assistant Professor of Sociology
Ph.D., University of North Texas
M.Ed., B.S., University of Central Oklahoma

Associate Professor of Geology
Ph.D., B.A., Rice University
M.A., University of Missouri-Columbia

Toni D. Sauncy (2000)
Specialization: Experimental Condensed Matter Physics, Optical Studies
Professor of Physics
Ph.D., M.S., B.S., Texas Tech University

Martha A. Saywell (2012)
Instructor in Music
Ph.D., M.M., University of Wisconsin-Madison
B.A., Murray State University

Kraig L. Schell (2000)
Specialization: Industrial-Organizational Psychology
Professor of Psychology
Ph.D., University of Cincinnati
M.A., University of Central Oklahoma
B.S., Oklahoma Christian University

April E. Schmidt (2013)
Instructor in Spanish
Ph.D., University at Albany, State University of New York
M.A., Florida State University
B.A., Keene State College

Jeffrey B. Schonberg (1997)
Specialization: Rhetorical Theory and Linguistics
Professor of English
Ph.D., Texas A&M University
M.A., New Mexico State University
B.A., University of New Mexico

Cody B. Scott (1995)
Specialization: Grazing Management, Animal Behavior
Professor of Animal Science and Research Scientist at the Management, Instruction, and Research Center
Ph.D., Utah State University
M.S., B.S., Angelo State University

Instructor in English
M.A., B.A., Angelo State University

Instructor in Management
M.B.A., University of Texas at Austin
B.B.A., Angelo State University

Gabriela I. Serrano (2007)
Specialization: 19th Century American Literature
Associate Professor of English
Ph.D., M.A., The University of North Texas
B.A., University of Texas at El Paso

Specialization: Business Ethics and Strategic Policy
Professor of Management, Mr. and Mrs. Virgil J. Powell TSCRA Professorship in American Economic Principles, and Associate Dean, College of Business
Ph.D., University of Illinois at Chicago
M.B.A., University of Chicago
B.A., Northwestern University

Andrew J. Siefker (2004)
Associate Professor of Mathematics
Ph.D., Arizona State University
M.S., B.E.E., Georgia Institute of Technology

Daniel J. Simmons (2010)
Specialization: Performance Studies
Assistant Professor of Communication
Ph.D., Southern Illinois University
M.A., Texas Tech University
B.A., West Texas A&M University
Faculty

Specialization: Sport Psychology, Athletic Administration
Professor of Kinesiology
Ed.D., Texas A&M University
M.Ed., Kutztown University
B.A., Fairfield University

Sangeeta Singg (1981)
Specialization: Counseling Psychology
Professor of Psychology
Ph.D., M.S., East Texas State University at Commerce
M.A., Mississippi State University
B.A., Punjab University

Elaine M. Smith (2011)
Instructor in Mathematics
M.S., Texas A&M University
B.S., Texas State University

Gregory J. Smith (2013)
Assistant Professor of Chemistry
Ph.D., University of Kansas
B.S., Texas A&M University-Corpus Christi

John C. Smith III (1994)
Associate Professor of Mathematics
Ph.D., University of North Texas
M.S., B.S., Angelo State University

June H. Smith (1991)
Specialization: Interpersonal and Organizational Communication
Professor of Communication and Interim Chair of the Department of Communication and Mass Media
Ph.D., University of Texas at Austin
M.A., Texas Tech University
B.A., Angelo State University

Steven R. Snowden (2005)
Specialization: Kinesiology
Associate Professor of Kinesiology and Chair of the Department of Kinesiology
Ph.D., B.S., Texas A&M University
M.S., Sam Houston State University

Maria P. Solano (2010)
Assistant Clinical Professor of Nursing
M.S.N., B.S.N., Angelo State University
A.D.N., Amarillo College

Marva J. Solomon (2010)
Specialization: Reading
Assistant Professor of Teacher Education
Ph.D., M.A., University of Texas at Austin
B.A., Texas Tech University

Mark S. Sonntag (1985)
Professor of Physics and Director of the University Planetarium
Ph.D., University of Colorado
M.A.T., Michigan State University
A.B., Indiana University-Bloomington

Thomas W. Starkey, Jr. (2009)
Assistant Professor of Social Work and Interim Director of the Social Work Program
Ph.D., University of North Texas
M.S.S.W., University of Texas at Arlington
B.S.W., Texas A&M University-Commerce

Cheryl K. Stenmark (2010)
Specialization: Industrial-Organizational Psychology
Assistant Professor of Psychology
M.S., University of Oklahoma
B.S., Tarleton State University

Kenneth L. Stewart (1975)
Professor of Sociology and Director of Community Development Initiatives
Ph.D., Western Michigan University
M.A., Colorado State University
B.A., Boise State University

Ned E. Strenth (1978)
Specialization: Invertebrate Zoology
Professor of Biology
Ph.D., Texas A&M University
M.A., Southwest Texas State University
B.A., University of Texas at Austin

Benedict C. Sum (2005)
Associate Professor of Art
M.F.A., B.A., Texas Tech University

James A. Summerlin (2007)
Specialization: Educational Administration
Professor of Curriculum and Instruction and Chair of the Department of Curriculum and Instruction
Ed.D., Baylor University
M.S., University of Texas
M.Ed., Schreiner University
B.S., Louisiana Tech University

Norman A. Sunderman (1987)
Specialization: Financial Accounting
Professor of Accounting
D.M.A., M.M., University of Michigan
M.B.A., M.P.A., Texas A&M University
B.S., Bowling Green State University
Edward C. Surface (1977)
Associate Professor of Music and Interim Chair of the
Department of Visual and Performing Arts
Ph.D., Texas Tech University
M.Ed., B.M.Ed., Southwestern Oklahoma State University

George K. Wade (2011)
Clinical Instructor in Social Work
M.S.W., Texas A&M University Commerce
B.A., State University of New York College at Potsdam
A.A.S., State University of New York Jefferson

Kenneth M. Sweet (2012)
Assistant Professor of Management
Ph.D., University of Houston
M.B.A., B.B.A., Texas State University

Molly J. Walker (1983)
Specialization: Adult and Cardiovascular Health
Professor of Nursing
Ph.D., University of Texas Health Science Center at San
Antonio
M.S.N., University of Texas at El Paso
B.S.N., Texas Christian University

Professor of Mathematics and Dean, College of Arts and
Sciences
Ph.D., B.S., University of Texas at Austin

Andrew B. Wallace (1989)
Professor of Physics and Dean, Freshman College
Ph.D., University of North Texas
M.S., North Texas State University
B.S., Texas Tech University

Martha A. Tafoya (1995)
Specialization: Adult Health
Assistant Clinical Professor of Nursing
M.S.N., University of Texas at El Paso
B.S.N., Angelo State University

James W. Ward (2010)
Assistant Professor of Geology
Ph.D., University of Kentucky
M.S., B.S., Sul Ross State University

William A. Taylor (2011)
Specialization: Security Studies, Military History, Strategic
Thought, Defense Policy
Assistant Professor of Security Studies
Ph.D., M. Phil., George Washington University
M.A., Georgetown University
M.A., University of Maryland-College Park
B.S., United States Naval Academy

Deanna J. Watts (2012)
Assistant Professor of Political Science
Ph.D., M.A., Miami University
B.A., Wheeling Jesuit University

Sharynn M. Tomlin (1987)
Specialization: Organizational Theory and Strategic Policy,
International Business
Professor of Management and Director of the Center for
International Studies
Ph.D., University of North Texas
M.B.A., B.B.A., Angelo State University

Specialization: Twentieth Century and Contemporary American
Literature; Southwest Literature
Professor of English and Director of the Center for Innovation
in Teaching and Research
Ph.D., University of North Texas
M.A., B.A., Sam Houston State University

Jonathan A. Villarreal (2011)
Instructor in Communication
M.A., B.A., Texas A&M University

Shelly D. Weise (2000)
Specialization: Cardiopulmonary System Problems, Exercise
Physiology
Professor of Physical Therapy and Chair of the Department of
Nursing and Rehabilitation Sciences
Ed.D., M.S., B.A., Texas A&M University
M.S., Texas Woman’s University

James F. Villiers (2012)
Assistant Clinical Professor of Physical Therapy and Aca-
demic Coordinator of Clinical Education
B.S., University of Texas Medical Branch at Galveston

Kristi M. White (2009)
Associate Professor of Athletic Training and Director of the
Athletic Training Program
Ph.D., M.S., University of Ohio
B.S., University of Minnesota
Faculty

R. Russell Wilke (1999)
Specialization: Avian Ecology
Professor of Biology and Chair of the Department of Biology
Ph.D., University of Texas at Austin
M.S., B.S., Angelo State University

Susan C. Wilkinson (1994)
Specialization: Medical-Surgical Nursing
Professor of Nursing
Ph.D., University of Texas at Austin
M.S.N., Incarnate Word College
B.S.N., University of Texas Health Science Center at San Antonio

Alaric A. Williams (2008)
Specialization: Higher Education
Assistant Professor of Curriculum and Instruction
Ed.D., M.S., B.A., Texas A&M University at Commerce

Scott C. Williams (2008)
Assistant Professor of Physics
Ph.D., Texas Christian University
M.S., University of Texas at Dallas
B.S., University of North Texas

Amy M. Williamson (2009)
Specialization: Literacy
Assistant Professor of Curriculum and Instruction
Ph.D., Baylor University
M.Ed., American Intercontinental University
B.A., Valdosta State University

Deborah R. Wilson (2013)
Clinical Instructor in Social Work
M.S.W., Texas A&M University
B.S.W., University of North Texas

Andrew P. Wright (2013)
Specialization: Water Use and Policy, Natural Resource Policy
Assistant Professor of Agricultural Economics
Ph.D., M.A., M.P.A., Texas Tech University
B.A., Truman State University

William J. Wolfe (2012)
Professor of Computer Science and Chair of the Department of Computer Science
Ph.D., City University of New York
M.A., B.A., Queens College

James J. Womack (2007)
Associate Professor of Music
D.M.A., Louisiana State University
M.M., Illinois State University
B.A., Berea College

Kanisorn Wongruchanalai (2011)
Specialization: 18th and 19th Century American Military, Political and Social History, Civil War
Assistant Professor of History
Ph.D., M.A., University of Virginia
A.B., Bowdoin College

Manuel F. Zamora (2011)
Specialization: Social Work
Assistant Professor of Criminal Justice
Ph.D., University of Houston
M.A., University of Houston-Clear Lake
B.S., University of Houston-Downtown

Ralph A. Zehnder (2013)
Assistant Professor of Chemistry
Ph.D., M.S., University of Siegen, Germany

Clinical Graduate Faculty

Jennifer M. Braziel (2010)
Specialization: Acute Care Nurse Practitioner
Assistant Clinical Professor of Nursing
M.S.N., Yale University
B.S., A.A.S.N., Angelo State University

Roseann M. Hester (2003)
Specialization: Medical-Surgical Nursing
Assistant Clinical Professor of Nursing
M.S.N., B.S.N., Angelo State University

Harriet K. Lewis (1999)
Specialization: Clinical Education, Ergonomics
Assistant Clinical Professor of Physical Therapy and Academic Co-coordinator
M.S., Texas Tech University of Clinical Education
B.S., Baylor University

Kendra L. Nicks (2012)
Specialization: Orthopedics
Assistant Clinical Professor of Physical Therapy
Sc.D., Texas Tech University Health Sciences Center
B.S., University of Texas Southwestern Medical Center

Donna Rich (2011)
Specialization: Family Nurse Practitioner
Adjunct Professor of Nursing
D.N.P., Texas Christian University
M.S.N., Angelo State University
B.S.N., Texas Tech University Health Sciences Center
A.A.S.N., Odessa College
President Emeritus

E. James Hindman
President Emeritus
Appointed 1995, Emeritus since 2007

Emeritus Faculty

Johnny M. Bailey
Distinguished Professor of Mathematics Emeritus
Appointed 1968, Emeritus since 2006

D. Harris Brinson
Director of Bands Emeritus
Appointed 1974, Emeritus since 1997

H. Ray Dawson
Distinguished Professor of Physics Emeritus
Appointed 1966, Emeritus since 2003

Edgar N. Drake
Distinguished Professor of Chemistry Emeritus
Appointed 1965, Emeritus since 1999

Gloria A. Duarte
Professor of English Emerita
Appointed 1977, Emerita since 2010

Jack C. Eli
Distinguished Professor of Communication Emeritus
Appointed 1971, Emeritus since 2004

Charles A. Endress
Distinguished Professor of History Emeritus
Appointed 1969, Emeritus since 2010

Bill J. Henderson
Distinguished Professor of Government Emeritus
Appointed 1966, Emeritus since 2000

E. James Holland
Distinguished Professor of Government Emeritus
Appointed 1967, Emeritus since 2003

G. Leon Holland
Professor of Agriculture Emeritus
Appointed 1969, Emeritus since 2000

David G. Loyd, Jr.
Distinguished Professor of Physics Emeritus
Appointed 1969, Emeritus since 2008

C. Varren Parker, Jr.
Professor of Physics Emeritus
Appointed 1969, Emeritus since 2005

Adjunct Faculty

Animal Science

Texas A&M Agricultural Research and Extension Center

Todd R. Callaway, Ph.D.
Specialization: Microbiology, Food and Feed Safety
Adjunct Professor of Animal Science
Ph.D., Cornell University
M.S., B.S., University of Georgia

B. Frank Craddock, Ph.D.
Specialization: Sheep and Goat Specialist
Adjunct Professor of Animal Science
Ph.D., B.S., Texas A&M University
M.S., University of Wyoming

Rick Machen, Ph.D.
Specialization: Ruminant Nutrition, Livestock Specialist
Adjunct Professor of Animal Science
Ph.D., M.S., Texas A&M University
B.S., Angelo State University

Markus F. Miller, Ph.D
Specialization: Meat and Food Science
Adjunct Professor of Animal and Meat Science
Ph.D., Texas Tech University
Faculty

Bill Pinchak, Ph.D.
Specialization: Range Science-Range Animal Nutrition
Adjunct Professor of Animal Science
Ph.D., University of Wyoming
B.S., Angelo State University

Dale Rollins, Ph.D.
Specialization: Wildlife Management
Adjunct Professor of Animal Science
Ph.D., Texas Tech University
M.S., Oklahoma State University
B.S., Southwestern State College

Charles A. Taylor, Jr., Ph.D.
Specialization: Range Nutrition
Adjunct Professor of Animal Science
Ph.D., M.S., B.S., Texas A&M University

Leslie D. Thompson, Ph.D.
Specialization: Meat and Food Science
Adjunct Professor of Food Science
Ph.D., M.S., B.S., University of Florida

Daniel F. Waldron, Ph.D.
Specialization: Animal Genetics
Adjunct Professor of Animal Science
Ph.D., M.S., B.S., University of Illinois
B.S., University of Minnesota

John Walker, Ph.D.
Specialization: Range Science; Grazing Management and Animal Behavior
Adjunct Professor of Animal Science
Ph.D., B.S., Texas A&M University
M.S., Colorado State University

Travis R. Whitney, Ph.D.
Specialization: Nutrition
Adjunct Professor of Animal Science
Ph.D., M.S., University of Arizona
M.S., Texas A&M University
B.S., Southwest Texas State University

Irvin E. Zeitler, Jr., D.O.
Adjunct Professor of Biology
D.O., Texas College of Osteopathic Medicine
M.S., University of Texas at Dallas
B.S., University of Texas at Austin

Texas A&M Agricultural Research and Extension Center

Nursing and Rehabilitation Sciences

Elizabeth Alegre, P.T.
Specialization: Acute Care Management
Adjunct Clinical Professor of Physical Therapy
M.P.T., B.S., Angelo State University

Tim Childs
Specialization: Finance Management
Adjunct Professor of Physical Therapy
M.B.A., Indiana Wesleyen University
B.S., Indiana State University

Warren Conway, M.D.
Adjunct Professor of Athletic Training
M.D., Texas A&M College of Medicine

Charlotte Drone
Adjunct Professor of Nursing
M.S.N., University of Texas Health Science Center at San Antonio
B.S.N., Angelo State University

Mary Gest, P.T., C.C.C.E.
Specialization: Clinical Education, Wound Care
Adjunct Clinical Professor of Physical Therapy
B.S., University of Texas Medical Branch at Galveston

Bryinne Harrison, P.T.
Specialization: Acute Care Management
Adjunct Clinical Professor of Physical Therapy
M.P.T., Angelo State University

Regina K. Hartnett, P.T., NDT
Specialization: Neuro Developmental Technique
Adjunct Clinical Professor of Physical Therapy
M.P.T., Angelo State University

Sean D. Hilgenberg, P.T.
Specialization: Acute Care Management
Adjunct Clinical Professor of Physical Therapy
M.P.T., Angelo State University

Art

Howard Taylor, B.F.A.
Adjunct Professor of Art
B.F.A., Columbus College of Art and Design

Biology

Fazlur Rahman, M.D., F.A.C.P.
Adjunct Professor of Biology
M.B.B.S., Dhaka Medical College, Bangladesh
B.L. Daulatpur College, Bangladesh
Teresa Huckaby, P.T., D.P.T.
Adjunct Clinical Professor of Physical Therapy
D.P.T., Temple University
M.P.T., B.S., Angelo State University

Anne Lauer, D.P.T.
Specialization: Acute Care Management
Adjunct Clinical Professor of Physical Therapy
D.P.T, Regis University
B.S., State University of New York

Randy Matthews, A.T.C., L.A.T.
Adjunct Professor of Athletic Training
M.A.T., Angelo State University
B.S., West Texas A&M University

S. Eric McLarty, C.O./L.O.
Adjunct Clinical Professor of Physical Therapy
B.S., Texas Tech University
A.S., Howard College

Lindsey R. McMillan, P.T.
Specialization: Pediatrics
Adjunct Clinical Professor of Physical Therapy
M.P.T., Angelo State University

Renee Ward, P.T., C.C.C.E.
Specialization: Clinical Education, Geriatrics
Adjunct Clinical Professor of Physical Therapy
B.S., University of Texas Medical Branch at Galveston

Joe Wilkinson, M.D.
Specialization: Orthopedics
Adjunct Professor of Physical Therapy and Athletic Training
M.D., University of Texas Medical Branch at Galveston
