Undergraduate Research Initiative: Student Academic Grants
Timetable (Individual Projects)

Student's Name: _

Identify the time allotted to each portion of your project (e.g. days, weeks, months, semesters, or stages, whichever is most reasonable) with as much detail as possible. The more detailed and specific your timetable, the better able reviewers will be to determine if the project is feasible. Students may add rows to the timetable as needed.

Activity/Task	Time to Complete
