Objective

My objective is to participate in the development of aspiring teachers in the area of student teaching supervision. I feel that I could successfully apply the skills I have learned in public education to support, evaluate, and encourage student teachers. I would be able to assist Angelo State University in the on-the-job performance of the student teachers.

I would be able to assist aspiring graduate students in the mid-management program. My 14 years in administration should serve as a foundation to enable graduate students to learn pitfalls and shortcuts in public school management.

**Interests and
activities**

I enjoy being involved with undergraduate and graduate level of educators. I enjoy reading, sewing, traveling, and playing bridge.

Awards received

I received the Best Boss and Best Principal Awards voted by the residents of San Angelo in 1981.
