This OP and its implementation will be in conformance with the policies and guidelines of the State Office of Risk Management, the Texas Department of Insurance/Division of Workers’ Compensation (TDI/DWC), and collaborating policies of Angelo State University.

REVIEW: This OP will be reviewed in September every three years, or as needed, by the director of human resources with recommended revisions forwarded through the vice president for finance and administration to the president by October 15 of the same year.

POLICY/PROCEDURE

1. General

   a. Workers’ Compensation Insurance (WCI) is regulated by the state of Texas and provides medical benefits and income indemnity for injuries and occupational illnesses that arise within the course and scope of employment. This program covers all university employees whose names appear on the payroll, including student employees. The State Office of Risk Management (SORM) is the agency directly responsible for administering the program for state employees. The TDI/DWC promulgates rules and regulations governing WCI.

   b. The incident investigation program provides for investigation and analysis of all reported accidents that arise within the course and scope of employment that resulted or could have resulted in an injury or illness and includes accidents involving employees that occur in or on Angelo State University facilities. All employees are included in the incident investigation program.

2. Program Administration

   a. Orientation – Workers’ Compensation Insurance

   Personnel in the Office of Human Resources will inform all employees of this program, of their responsibilities in connection with it, and about accessing benefits properly. This subject will also be covered during new employee orientations.

All administrators/supervisors with managerial authority over employees’ job duties shall provide the following assistance, as appropriate, when work-related accidents, injuries, or occupational illnesses occur.
