College Curriculum Committee  
2-13-13

In attendance: David Tarver, Chair; John Miazga, Wendy Storms, Alaric Williams, Amy Williamson, Lesley Casarez, Mary McGlamery, and Marilyn Eisenwine - taking notes.

We have a number of requests, that can be condensed to three. The first one is from Teacher Education, asking in the minor area, to adjust courses for the reading minor. Although the Teacher Ed. faculty voted to do away with this because of field experiences, it is sometimes needed in special cases. The dean talked to the department head about changing the courses to make this more acceptable. Mary moved to pass the changes, and Amy seconded the motion. Motion passed.

The second change is also from Teacher Education to remove the Special Education minor from all degree plans. Justification included the field experiences also. Wendy expressed a concern that this minor is also needed for graduation in special circumstances. Mary made a motion to table this change for now. Amy seconded it. The committee would like alternate courses to be included, such as the EPSY 3303 and ED 2303 or ED 3314, instead of Special Ed. Practicum courses.

The third change is also from Teacher Education that ED 2323, RDG 4320, ED 4320, ED 4321, and ED 4322 that these courses be moved from the Department of Curriculum and Instruction to Teacher Ed. In effect, this makes all undergraduate courses in the Teacher Ed. Dept. Jim made the motion to make all these changes. Mary seconded. Motion passed.

David adjourned the meeting and thanked the members for their attendance.
