LEADERS IN FOOD TECHNOLOGY

Interested in the science behind today’s food supply?

Come see how agriculture and science produce the food that feeds the world!

Much of the week will involve you in hands-on research experiences at our Food Safety and Product Development Laboratory where you will be able to make your very own food product.

Join us for a week where we will explore:
- Food Science Research in Action!
- Student Involvement Opportunities
- Scholarship Opportunities
- Dorm Life
- Campus Discovery
- Meet the Faculty

Each selected participant will receive a monetary award. Cost of lodging, meals and travel reimbursement are covered for each selected student.

When: July 28th - August 1st
Where: Angelo State University
How: Apply Now!
