

New Faculty Orientation

Monday, August 18 and Tuesday, August 19

The goals of New Faculty Orientation are to

- Provide practical resources that faculty will use in their teaching, research, and daily university life;
- Review important policies, procedures, and technologies for success in teaching, research, and service at ASU;
- Demonstrate the importance of high quality teaching and learning;
- Welcome new faculty to ASU.

New Faculty Orientation is just one of the ways Angelo State University invests in the success of new faculty members in the early stages of their careers. In conjunction with any college or department specific orientations, NFO introduces faculty to critical information regarding teaching, research, and service. Importantly, NFO also allows new ASU faculty the opportunity to build contacts with a cohort of new faculty and have a greater understanding of the resources available as they begin their careers.
