Main goals for changes:

- Improve quality
- Increase support
- Improve transparency
- Increase consistency while maintain flexibility

Several changes were made at proposal and adoption based on informal and formal stakeholder input.
Probationary Certificates and Student Demographics

Teachers on probationary certificates are completing internships through educator preparation programs. Students at campuses with more of these teachers tend to be more non-white, economically disadvantaged and at-risk.

*Based on 2014-2015 ECOS and PEIMS data*
Probationary Abandonment

Probationary Certificates, Abandoned Campuses and Student Demographics

*Based on 2014-2015 ECOS and PEIMS data*
Chapter 228.2: Definitions

Criteria for cooperating teachers, mentors, site supervisors, and field supervisors

- Currently certified
- Experience in the certification field
- Accomplished educator
- Training within three weeks of assignment (CT/M/SS)
Chapter 228.2: Definitions

Late Hire Date
• Changed from June 15 to the 45th day before the first instructional day

School day
• Defined as seven hours or 420 minutes

Post-baccalaureate Program
• Defined as EPP that provides certification and additional degree
• **Program Approval Components**
  
  • ownership and governance of the EPP;
  • criteria for admission to the EPP;
  • EPP curriculum;
  • EPP coursework and/or training, including ongoing support during clinical teaching, internship, and practicum experiences;
  • certification procedures;
  • assessment and evaluation of candidates for certification and EPP improvement;
  • professional conduct of EPP staff and candidates;
  • EPP complaint procedures; and
  • required submissions of information, surveys, and other accountability data.
• Continuing Entity Approval

• TEA staff shall, at the minimum, use the following risk factors to determine the need for discretionary reviews and the type of five-year reviews:
  • a history of the program's compliance with state law and board rules, standards, and procedures;
  • whether the program meets the accountability standards under Texas Education Code, §21.045; and
  • whether a program is accredited by other organizations.

• Figure of Evidence
Chapter 228.20: Governance

• Changes to Program
  • Accredited = notice
  • Rating other than Accredited = TEA staff approval

• Calendar of Program Activities
  • Each EPP must develop and implement a calendar of program activities that must include a deadline for accepting candidates into a program cycle to assure adequate time for admission, coursework, training, and field-based experience requirements prior to a clinical teaching or internship experience.
  • If an EPP accepts candidates after the deadline, the EPP must develop and implement a calendar of program activities to assure adequate time for admission, coursework, training, and field-based experience requirements prior to a clinical teaching experience or prior to or during an internship experience.
Chapter 228.30: Curriculum

• Educators’ Code of Ethics
  • professional ethical conduct, practices, and performance;
  • ethical conduct toward professional colleagues; and
  • ethical conduct toward students

• Mental Health, Substance Abuse, and Youth Suicide
  • Select training from programs on the list of recommended best practice-based programs
  • Mental health training must include effective strategies for teaching and intervening with students with mental or emotional disorders, including de-escalation techniques and positive behavioral interventions and supports
Chapter 228.35: Coursework and Training

- 50 hours through school or district for late hires
- Credit prior or ongoing service, training, and education toward EPP requirements (military and non-military)
- Online coursework accreditation or certification
- 150 hours of coursework and training based on Texas Teacher Standards before clinical teaching or internship
Chapter 228.35: Coursework and Training

• 14 weeks of full-day or 28 weeks of half-day clinical teaching assignments

• Clinical teaching exception for innovative EPPs

• Formal observations
  • Pre-conference
  • Observation
  • Post-conference

• Full range of professional responsibilities that include the start of the school year
Chapter 228.35: Coursework and Training

• Internship certificates
  • Intern
    • must pass content exams
    • one year
    • five formal observations
  • Probationary
    • must pass all exams (content and PPR)
    • one year with option for one additional year
    • three formal observations (unless previous internship was unsuccessful)
  • Multiple certificate assignments

• Exemptions to clinical teaching and internships
  • Instructional Aide
  • JROTC
Chapter 228.40: Assessment and Evaluation

- EPP responsibility for preparing candidates for certification examinations or admitting candidates who have already passed the examinations
- Candidate request to change certification categories
- Continuous improvement process for program evaluation
• An effective accountability system should meaningfully differentiate program performance to inform consumers and to serve as the basis for ongoing program support and improvement or for revoking the program.
• The proposal provides for a “report only” year for 2016-2017 results to give programs ample time to evaluate the impact of these increases and to make improvements to their curriculum and program supports to achieve better results.
• Although the student achievement and teacher satisfaction survey indicators would not be implemented immediately, this would allow time for further development of those indicators and provide a strong base accountability system to which they could be added once they are available.
Chapter 229

• Defining the pass rate for certification exams to be performance on a candidate’s first two attempts of any exam to provide a better measure of a program’s role in their candidates’ success on certification exams and to encourage programs to raise the bar for entry into teaching.

• Distinguishing between and setting different performance standards for pedagogy and professional responsibilities (PPR) and non-PPR exams, which include content exams and other supplemental exams, to prevent programs from compensating for lower performance on non-PPR exams with higher performance on PPR exams.
• Setting performance standards for the survey of first-year teachers to factor school administrator’s evaluations of first-year teachers into the preparation program’s accountability ratings.

• Setting performance standards for both compliance with field supervision requirements and for the quality of field supervision.

• Providing for performance standards to increase gradually, yet consistently, over time.

• Changing the minimum size criteria for inclusion in the accountability ratings back to 10 instead of 20 to ensure as many programs as possible are included in the ratings and to ensure that all candidates receive the support necessary to succeed.

Federal Regulations

Providing transparency around the effectiveness of all preparation programs (traditional, alternative routes, and distance) by requiring states to report annually – at the program level – on the following measures:

- Placement and retention rates of graduates in their first three years of teaching, including placement and retention in high-need schools;
- Feedback from graduates and their employers on the effectiveness of program preparation;
- Student learning outcomes measured by novice teachers' student growth, teacher evaluation results, and/or another state-determined measure that is relevant to students' outcomes, including academic performance, and meaningfully differentiates amongst teachers; and
- Other program characteristics, including assurances that the program has specialized accreditation or graduates candidates with content and pedagogical knowledge, and quality clinical preparation, who have met rigorous exit requirements.
Federal Regulations

Allowing states flexibility in whether to report on additional measures, and how to weigh all outcome measures, while requiring states to categorize program effectiveness using at least three levels of performance (effective, at-risk, and low-performing). States must provide technical assistance to any program rated as low-performing to help it improve.

Requiring states to engage with a wide range of stakeholders, including educators and a wide range of program providers, in developing and/or improving their meaningful systems to identify effective and low-performing programs.

Incentivizing aspiring teachers in a high-need field or in a low-income school to attend high-quality programs by limiting TEACH grants to only those programs that states determine to be effective for at least two of the previous three years.

States will design their reporting system, in consultation with stakeholders, during the 2016-17 academic year. They may choose to use 2017-18 as a pilot year and will fully implement the system in 2018-19.
19 TAC Chapter 230

On or about October 26, the menu options for TEA telephone support will be changing. The telephone number will remain the same (512-936-8400) but the new menu for telephone support will be:

Option 2 – Certification/Testing/ TEAL/ECOS Account Access  
Option 3 – Fingerprinting  
Option 4 – Highly Qualified/ESSA Teacher Status  
Option 5 – Educator Preparation Programs/Continuing Professional Education  
Option 6 – Investigations  
Option 8 – General Contact Information/Fax Numbers  

We strongly advise that educators who need assistance with their TEAL/ECOS account access ask for help via the online help desk at https://txeduagency.zendesk.com/.
The TEA is seeking qualified respondents to serve as monitors for designated EPPs. Monitors will be responsible for assessing and addressing designated EPP deficiencies, recommending or directing actions to address these deficiencies, and reporting to the TEA and/or the SBEC on improvement plans and strategies.

The TEA anticipates the need for appointees throughout the year at various times and locations. The TEA reserves the right to select more than one qualified respondent from the pool of qualified respondents.

Proposals are due on November 8, 2016. More information can be found at http://esbd.cpa.state.tx.us/bid_show.cfm?bidid=127710
