ANGELO STATE UNIVERSITY

Bachelor of Science in Nursing

NUR 4412
Obstetric and Pediatric Nursing

Spring 2017

Makensie McCormick, MSN, RN
COURSE NUMBER
NUR 4412

COURSE TITLE
Obstetric and Pediatric Nursing

CREDITS (4-0-0)

PREREQUISITE COURSES
NUR 3410 Adult Health Nursing I, NUR 3320 Adult Health Nursing Practicum, NUR 3305 Research in Nursing, NUR 3301 Health Policy and Professional Issues

CO-REQUISITES
4212 – Obstetrics and Pediatric Nursing

PRE-REQUISITE SKILLS
Accessing internet web sites, use of ASU Library resources, and proficiency with Microsoft Word and/or PowerPoint are an expectation of the Generic BSN program. Computer requirements are further delineated in the Department of Nursing Undergraduate Student Handbook. Tutorials for ASU Library and for Blackboard are available through RamPort. The ASU Nursing Program Undergraduate Student Handbook should be reviewed before taking this course (http://www.angelo.edu/dept/nursing/handbook/index.html).

COURSE DELIVERY
The majority of course meetings will occur face-to-face on Mondays & Wednesdays from 9:00-10:50 AM in VIN 238. There are a few days when this course will be delivered in an online format using the Blackboard (Bb) course management system. This course is managed via Bb on the Angelo State University web platform.

BROWSER COMPATIBILITY CHECK
It is the student’s responsibility to ensure that the browser used to access course material on his/her computer is compatible with ASU’s Blackboard Learning System. The faculty reserve the right to deny additional access to course assignments lost due to compatibility issues. Students are responsible for reviewing the guidelines posted in this course regarding accessing Blackboard assignments. Problems in this area need to be discussed with faculty at the time of occurrence, either via a phone call (preferred) during posted acceptable hours for calling, or via email notification during times outside those posted for calls.

Be sure to perform a browser test. Select the “Technology Support” tab from the Blackboard homepage (http://www.blackboard.angelo.edu). Then select “Test your Browser” option located under the Browser Test header.

Please see computer requirements for BSN classes at this link:
http://www.angelo.edu/dept/nursing/student_resources/computer_requirements.php
FACULTY & OFFICE HOURS:
Mrs. Makensie McCormick
Clinical Instructor of Nursing
Office: VIN 279 Phone 325.486.6879
E-mail: lparker8@angelo.edu

Office Hours:
M: (In OB Lec. 9:00-10:50 AM); **10:50 AM-1:30 PM**; (In CH Lec 1:30-4:15 PM)
T: (Clinical) Call/email for appointment
W: (In OB Lec. 9:00-10:50 AM); **10:50 AM-1:30 PM**
TH: (Clinical) Call/email for appointment
F: (Meetings) Call/email for appointment
*Appointments may be scheduled for alternate times if prescheduled. To schedule an appointment, please email (This is best!) or call my office phone and leave a message.

COURSE DESCRIPTION
This course focuses on research-based care of childbearing and childrearing families. Students learn processes, concepts and standards of care related to pregnancy, labor, childbirth, newborns, infants, children, adolescents and their families. Students review common acute, chronic, and behavioral pediatric and obstetric conditions and complications.

COURSE OVERVIEW
We have designed this course to follow a framework of learning so as to support your individual learning needs. Our design intentions follow four basic design principles of learning including being Learner-Centered (i.e. offering autonomy, putting the student in charge of his/her learning, etc.), Community-Centered (i.e. realizing the benefit of learning in groups), Knowledge-Centered (i.e. realizing that a basic command of knowledge in OB and PEDS content is essential to functioning in this unique area of the nursing field), and Assessment-Centered (i.e. striving to identify and help students develop the ability to identify learning gaps and needs). We have designed a series of classes and assignments to address each of the areas noted in the course description in a meaningful and real-life way.

BSN PROGRAM OUTCOMES
Upon completion of the program of study for the Generic BSN, the graduate will be prepared to:

1. Integrate nursing and related theories into the planning and/or delivery of safe nursing care
2. Engage leadership concepts, skills and decision-making in the planning and/or implementation of patient safety and quality improvement initiatives
3. Identify and appraise best research evidence to improve and promote quality patient outcomes
4. Utilize technology to access information, evaluate patient data, and/or document care
5. Participate in political/legislative processes to influence healthcare policy
6. Engage in effective collaboration and communication within interdisciplinary teams
7. Design and/or implement health promotion & disease prevention strategies for culturally competent care
8. Demonstrate standards of professional, ethical, and legal conduct
9. Practice and/or coordinate, at the level of the baccalaureate prepared nurse, to plan and/or implement patient centered care

STUDENT LEARNING OUTCOMES

REQUIRED TEXTS AND MATERIALS

Optional Textbooks:
Drug guide of choice
Medical dictionary of choice
Manual of diagnostic labs of choice
Nursing care planning book of choice

OTHER REQUIRED MATERIALS
• Computer with MAC or Windows Operating System
• High Speed Internet Access

GRADING SYSTEM
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:

A = 90.00-100 points
B = 80.00-89.99 points
C = 70.00-79.99 points
D = 60.00-69.99 points
F = 0-59.99 points (Grades are not rounded up)

Course grades will be dependent upon meeting the learning objectives and completing course requirements. We will be
measuring your progress on the student learning outcomes in various ways. For written assignments, I will allow revision of that assignment after an analysis is made. If you are not happy with your personal progress towards meeting the outcomes, then feel free to revise your work and resubmit. If you assign a higher level of mastery for yourself than noted in the rubric, then feel empowered to achieve your goal.

*Students must successfully complete NUR 4412 and NUR 4222 simultaneously to receive credit in either course.

EVALUATION AND GRADES
Graded assignments, activities and percent of the overall course grade:

TEACHING STRATEGIES

- Readings (Textbooks/ Handouts/ Internet resources)
- Lecture/Discussions/Online modules
- Individual, Pair and Group activities
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

ASSIGNMENT/ACTIVITY DESCRIPTIONS

*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.

**Assignment Details/Grading Criteria:**

Learning outcomes will be assessed by student performance on tests, the guidebook, group presentation and ATI assessments.

1. **OB & Pedi Unit Tests:** The purpose of these tests is to evaluate the student’s mastery of assigned material and competence in meeting course objectives. There are three (3) unit tests for the OB section and three (3) unit tests for the pedi sections of this course. Tests are time limited. If a student arrives late for a test, (s)he will only be allowed the remaining time to complete the test. Please see policies below on LATE WORK OR MISSED ASSIGNMENTS POLICY, EXAM COUNSELING, and POLICY ON EXAM REVIEWS.

2. **OB Topic Quizzes:** The purpose of this assignment is to allow you to check your retention of the assigned readings for the specific class days. Be prepared to take a quiz over assigned reading material at the beginning of every lecture with the exception of the first day of class and any day that an exam is scheduled. Your highest four (4) quiz scores will be used and averaged when calculating your final grade. Each quiz will be worth 2% for a total of 8% of the grade. The quizzes will be given during the first 5–10 minutes of class. Students arriving late or after the quiz has been administered will not be allowed to take the quiz. Each quiz will consist of questions to best assess learning objectives and are based on material from assigned readings from the course text.

3. **OB Genetics Ten-Minute Paper:** The purpose of this short assignment is to gauge students’ awareness of how innovative technology can have great influence on personal and healthcare-related decisions related to fetal genetic testing. It also serves as a reflection regarding the thoughts/feelings/attitudes towards this matter and how it will shape nursing practice accordingly. This assignment counts as an OB topic quiz grade. This assignment is worth 2% of the course grade.

4. **PEDS Video Response Paper:** The purpose of this assignment is to introduce you to the prevailing discussion regarding vaccine safety and opposing side’s arguments. My hope is you will develop a broader understanding of immunization uses to inform your future nursing practice regarding this issue. During class we will watch the video. After the program, you will write a brief (1 page, single-spaced) response to the program addressing specific questions related to the movie. Discussion will be held regarding the program and the questions. The responses will be due by 5PM on February 27th. Assignment submission will be electronic via blackboard.

5. **Classroom Participation:** The purpose of classroom participation is to allow you the opportunity to engage in class content i.e. asking questions, offering ideas to the group, listening actively to discussions, etc. as a way to help you develop a broader understanding of obstetric and pediatric nursing content. This part of the course will entail your active engagement during classroom times. Your classroom participation grade will also be based on attendance. Failure to attend either a PEDI or OB class will result in points deducted.

6. **ATI Tests:** The purpose of these tests is to evaluate the student’s mastery of assigned material and competence in meeting course objectives. ATI tests evaluate student level of competence in obstetrics and pediatric nursing material using the ATI system. There are several requirements for this part of the course grading system. First, students must complete two OB (RN Maternal Newborn Online Practice 2016 A & B) and two pediatric (RN Nursing Care of Children Online Practice 2016 A & B) ATI practice tests outside of the classroom. Students that score 85% or greater have the option of performing remediation over content missed. (As your faculty, we suggest all complete the remediation over any missed content so as to better prepare yourself for future exams e.g. NCLEX, etc.). Students scoring below 85% must complete remediation of content missed followed by re-taking the exam in order
to reach a score of 85%. Second, these tests must be completed prior to sitting for the proctored OB and Pediatric nursing comprehensive tests. Practice exams must be completed by April 28th at 5PM. Third, students will need to sit for the ATI comprehensive tests for OB and Pediatric nursing. Tests percentages are noted in the course grading schema. Please see the Nursing Student Handbook for ATI scoring breakdown.

GENERAL POLICIES RELATED TO THIS COURSE
All students are required to follow the policies and procedures presented in the following documents:
• Angelo State University Student Handbook located on the ASU website: http://www.angelo.edu/student-handbook/
• ASU Undergraduate Catalog located on the ASU website https://www.angelo.edu/catalogs/documents/catalogs/2015-16_Catalog.pdf
• ASU Nursing Program Undergraduate Student Handbook, located on the Nursing website http://www.angelo.edu/dept/nursing/handbook/index.html

IMPORTANT UNIVERSITY DATES
January 17th Spring classes officially begin
March 13th-17th Spring Break
March 31st Last day to drop a class or withdraw from the University for Spring Semester
April 14th Holiday – No class
May 8th-12th Final Exams Week
May 12th Last Day of Spring Semester
May 13th Spring Graduation

STUDENT RESPONSIBILITY & ATTENDANCE
Class attendance is necessary and required for successful and satisfactory completion of all course objectives; therefore, students must attend all course sessions. If a situation arises that prevents the student from attending, he or she should contact the instructor ASAP, preferably before lecture begins.

According to the undergraduate handbook, a week’s worth of cumulative absences in any one course will result in faculty evaluation of the student’s ability to meet course objectives and may result in failure of the course. Three tardies (over 5 minutes late for lecture, campus laboratory, or clinical) will equal 1 hour of absence. Failure to meet these requirements hinders the student’s ability to complete the course. Attendance will be checked for each lecture.

COMMUNICATION
Faculty will respond to email and/or telephone messages within 24-36 hours during working hours Monday through Friday. Weekend messages may not be returned until Monday.
• Written communication via Blackboard: It is an expectation of this class that you use formal writing skills giving appropriate credit to the source for your ideas. Follow APA (2010) 6th edition (2nd Printing or higher only) guidelines for referencing.
• Written communication via email: All private communication will be done exclusively through your ASU email address. Check frequently for announcements and policy changes.
• Virtual communication: Office hours with K. Michael may be done with the assistance of the telephone, Skype, Join.me, Google Hangouts, etc.

Use Good "Netiquette":
• Check the discussion frequently and respond appropriately and on subject.
• Focus on one subject per message and use pertinent subject titles.
• Capitalize words only to highlight a point or for titles. Otherwise, capitalizing is generally viewed as SHOUTING!
• Be professional and careful with your online interaction. Proper address for faculty is by formal title such as Dr. or Ms./Mr. Jones unless invited by faculty to use a less formal approach.
• Cite all quotes, references, and sources.
• When posting a long message, it is generally considered courteous to warn readers at the beginning of the message that it is a lengthy post.
• It is extremely rude to forward someone else's messages without their permission.
• It is fine to use humor, but use it carefully. The absence of face-to-face cues can cause humor to be misinterpreted as criticism or flaming (angry, antagonistic criticism). Feel free to use emoticons such as :| or :) to let others know you are being humorous.
(The "netiquette" guidelines were adapted from Arlene H. Rinald's article, The Net User Guidelines and Netiquette, Florida Atlantic University, 1994, available from Netcom.)

ASSIGNMENT SUBMISSION
For grading purposes in this class, all pediatric assignments need to be submitted through the Assignments link in the Blackboard course site.

Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email lparker8@angelo.edu and attach a copy of what you are trying to submit. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

LATE WORK OR MISSED ASSIGNMENTS POLICY
• Due dates and times for assignments are posted.
• If you miss an exam or quiz, you will receive a zero for the missed exam or quiz. There are no make-up exams/ quizzes. If you are late to an exam, then you will only be allowed the remaining dedicated time for that exam.
• Failure to submit your assignments on the assigned date will result in a five percent deduction for each day after the posted deadline. No papers or postings will be accepted more than 6 days past the assigned due date.

EXAM COUNSELING:
A student receiving a grade below 75% on test MUST receive test counseling. This counseling shall occur within one week after the exam unless otherwise noted by the instructor. Students are responsible for making appointments with their instructor for counseling. During this appointment, the student and faculty member will outline a written plan for improvement. Students in jeopardy of non-progression (performing below 70%) will be advised regarding their status before the last drop date. Readmission criteria are outlined in the current University Catalog.

POLICY ON EXAM REVIEWS:
Exam reviews provide students the opportunity to review exam content. An in-class OR online exam review (as indicated by the instructor) and the opportunity for an individual exam review (requested by the student) will be provided after each exam. The time, duration, place, and day of the review is determined by the course instructor. During in-class exam reviews, the instructor will review only the questions on the exam that were missed by the majority of the class. Regarding individual exam reviews, the student will be allowed to review questions, options, and correct answers on the respective exam with the instructor present and following along with them. Professional behavior will be expected throughout the process. Faculty will be present to answer questions during the exam review. If incivility occurs, then the student will be asked to leave the exam review at that time. Once a student has completed an exam review, no further request to review the same exam will be granted.

ACADEMIC INTEGRITY
Academic honesty is expected on all work. Students are expected to maintain complete honesty and integrity in their educational experiences. Any student found guilty of any form of dishonesty in academic work is subject of disciplinary action and possible expulsion from ASU. All codes and policies are set forth in the University Student Handbook of Angelo State University http://www.angelo.edu/student-handbook/ as well as the Department of Nursing Undergraduate Student Handbook http://www.angelo.edu/dept/nursing/handbook/index.html.
PLAGIARISM
Plagiarism at ASU is a serious topic. The Angelo State University’s Honor Code gives specific details on plagiarism and what it encompasses. Plagiarism is the action or practice of taking someone else's work, idea, etc., and passing it off as one's own. Plagiarism is literary theft.

In your discussions and/or your papers, it is unacceptable to copy word for word without quotation marks and the source of the quotation. We use the APA Style Manual of the American Psychological Association as a guide for all writing assignments. Quotes should be used sparingly. It is expected that you will summarize or paraphrase ideas giving appropriate credit to the source both in the body of your paper and the reference list. Papers are subject to be evaluated for originality via Bb Safe Assignment or Turnitin. Resources to help you understand this policy better are available at the ASU Writing Center http://www.angelo.edu/dept/writing_center/academic_honesty.php.

PERSONS WITH DISABILITIES AND SPECIAL ACCOMMODATIONS REQUEST
“Disability Services is part of the Office of Student Affairs at Angelo State University. Angelo State’s Office of Student Affairs works to ensure that qualified students with disabilities have equal access to all institutional programs and services. The office advocates responsibly for the needs of students with disabilities and educates the campus community so that others can understand and support students with disabilities.”

For more information on learning disabilities and how to apply for accommodations through the ASU Disability Services visit http://www.angelo.edu/services/disability-services/

The following includes contact information for Disability Services at ASU:

- ada@angelo.edu
- Phone: 325-942-2047
- Fax: 325-942-2211
- Address: Houston Harte University Center, 112, ASU Station #11047, San Angelo, TX 76909

INCOMPLETE GRADE POLICY (OP 10.11 Grading Procedures)
It is policy that incomplete grades be reserved for student illness or personal misfortune. Please contact faculty if you have serious illness or a personal misfortune that would keep you from completing course work. Documentation may be required.

STUDENT ABSENCE FOR OBSERVANCE OF RELIGIOUS HOLY DAYS
“A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence.” Please see ASU Operating Policy 10.19.

COPYRIGHT POLICY
Students officially enrolled in this course should make only one printed copy of the given articles and/or chapters. You are expressly prohibited from distributing or reproducing any portion of course readings in printed or electronic form without written permission from the copyright holders or publishers.

| 3 Jan. 30<sup>th</sup> & Feb. 1<sup>st</sup> | PEDES: Caring for the Child with a Psychosocial or Cognitive Condition – Ch 22; Caring for the Child with a Respiratory Condition – Ch 23  
**Psyps/Cognitive Topics:** ADHD / Maltreatment of children / Substance Use and abuse / Sleep disorders / learning abilities & Cognitive disorders  
**Respiratory Topics:** Esophageal atresia & Tracheoesophageal fistula / Cystic Fibrosis / Croup / epiglottitis / Bronchiolitis & RSV / Asthma  
**Objectives:**  
1. Examine the conditions related to various psychological and cognitive conditions.  
2. Explore the risk factors that contribute to various psychological and cognitive conditions.  
3. Prioritize developmentally appropriate and holistic nursing care for various psychological and cognitive conditions.  
4. Demonstrate awareness of issues impacting access and referral to appropriate community resources.  
5. Develop teaching plans and discharge criteria.  
6. Describe the anatomy and physiology of the respiratory system.  
7. Examine common conditions of the respiratory system.  
8. Prioritize developmentally appropriate and holistic nursing care measures for common conditions of the respiratory system.  
9. Explore diagnostic and laboratory testing and medications for common conditions of the respiratory system.  
10. Develop teaching plans and discharge criteria for parents whose children have common respiratory conditions.  
**Assessments/Activities:**  
Lecture / Classroom Participation -- Discussion | **OB: Complications during pregnancy**  
Chapter 11  
**Objectives:**  
1. Describe the purpose, indicators, procedures, and nursing actions for antepartal fetal tests (amniocentesis, chorionic villus sampling, ultrasound, non-stress tests, contraction stress tests, biophysical profile, etc).  
2. Describe the primary complications of pregnancy and the related nursing and medical care, especially with the following conditions: cervical incompetence, hyperemesis Gravidarum, placenta previa, placental abruption, preterm labor, premature rupture of the membranes, preeclampsia/eclampsia/gestational hypertension, HELLP syndrome, GBS infection, Rh isoimmunization, ABO incompatibilities, diabetes in pregnancy, substance abuse in pregnancy.  
3. Identify potential antenatal complications for the woman, the fetus, and the newborn related to high risk pregnancy issues.  
4. Plan nursing assessments and interventions for the woman experiencing complications of pregnancy (pre-eclampsia/ eclampsia, placental disorders, preterm labor, PROM, etc).  
5. Discuss the importance of complete and accurate documentation in caring for the patient experiencing an obstetric emergency  
**Assessments/Activities:**  
Lecture / Classroom Participation -- Discussion |
| 4 Feb. 6<sup>th</sup> & 8<sup>th</sup> | PEDES EXAM 1 (VIN 238) | **OB: Intrapartum 1: The process of labor & birth / promoting comfort during labor and birth**  
Chapter 12, pages: 411-437; 454-469  
Chapter 13 (all)  
**Objectives:**  
1. Describe the four stages of labor and the related nursing and medical care.  
2. Explore key terms, processes, phases, physiological mechanisms, and fetal and maternal responses to labor.  
3. Compare the symptoms of false versus true labor.  
4. Demonstrate understanding of supportive care of the laboring woman.
5. Describe the “5 Ps” and how each influences labor and birth.  
6. Compare and contrast pharmacological and non-pharmacological strategies to relieve pain and provide comfort during the different stages of labor.  
7. Describe the unique characteristics of pain associated with childbirth.  
8. Discuss the nurse’s role in ensuring maternal–fetal safety while promoting comfort during labor and birth.

**Assessments/Activities:**  
Lecture / Classroom Participation-- Discussion

| Date       | PEDS: Caring for the Child with a Gastrointestinal Condition – Ch 24; Caring for the Child with an Immunological or Infectious Condition – Ch 25  
GI Topics: Inguinal & Umbilical hernia / hypertrophic pyloric stenosis / Intussusception / Failure to thrive / Constipation and Hirschsprung’s disease  
Immune Topics: Fifth’s Disease (erythema infectiosum) / Cytomegalovirus (CMV) / Herpes Simplex Virus (HSV) / Herpes Zoster (Shingles) / Infectious Mononucleosis / Oral Thrush / Cat Scratch Disease / West Nile / Avian & Swine Flu  
Objectives: 1. Describe the anatomy and physiology and developmental aspects of the gastrointestinal system. 2. Examine common conditions of the gastrointestinal system. 3. Prioritize developmentally appropriate and holistic nursing care for common conditions of the gastrointestinal system. 4. Explore diagnostic and laboratory testing and medications for common conditions of the gastrointestinal system. 5. Develop teaching plans and discharge criteria for parents whose children have common gastrointestinal conditions. 6. Describe the anatomy and physiology and developmental aspects of the immunological and infectious systems. 7. Examine the common conditions of the immunological and infectious systems. 8. Prioritize developmentally appropriate and holistic nursing care measures for common conditions of the immunological and infectious systems. 9. Explore diagnostic and laboratory testing and medications for common conditions of the immunological and infectious systems. 10. Develop teaching plans and discharge criteria for parents whose children have common immunological and infectious conditions.  
Assessments/Activities:  
Lecture / Classroom Participation-- Discussion |
| OB: Intrapartum 2: Assessment of the fetus during the labor and birth  
Chapter 12, pages: 437-453  
Objectives: 1. Define the terms used in electronic fetal monitoring. 2. Describe the components of fetal heart rate patterns essential to interpretation of monitor strips. 3. Identify the modes of fetal monitoring and auscultation in electronic fetal monitoring. 4. Articulate the physiology of fetal heart rate accelerations and decelerations and nursing interventions necessary to protect the mother and fetus when discovered.  
Assessments/Activities:

Lecture / Classroom Participation—Discussion

Friday
April 28th
Due Today by 5PM CST Confirmation of All ATI Practice Tests (2 OB & 2 PEDS)

16 May 1st & May 3rd
PEDS EXAM 3 (VIN 238)
ATI Comp Exam (Pedi & OB) (Testing Center 0800-1100)

17 May 8th & May 10th
OB Final Exam (VIN 238) 0800-1000 (VIN 238)
SYLLABUS CHANGES
The faculty member reserves the option to make changes as necessary to this syllabus and the course content. If changes become necessary during this course, the faculty will notify students of such changes by email, course announcements and/or via a discussion board announcement. It is the student’s responsibility to look for such communications about the course on a daily basis.

COURSE EVALUATION
In order to ensure consistent, sufficient student feedback regarding programs and services provided for students by the Department of Nursing, as required by our accreditation requirements, opportunities for students to evaluate both their courses and course instructors will be provided. Student opinions and feedback are valued and are part of each Course and Instructor’s evaluation process.

Areas on the IDEA evaluation include:
- Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
- Learning to apply course material (to improve thinking, problem solving, and decisions)
- Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course

COURSE DISCLAIMER:
Although it is never the intention of course instructors to offend anyone, we find that on rare occasions students do become offended during discussions. The nature of the content of obstetric and pediatric nursing may lead to someone being offended by ideas read or presented, or someone’s ideas or opinions shared. Our purpose is to encourage you to consider, objectively, the viewpoints reflected in other’s works as you examine your own views, assumptions, and preconceptions in an attempt to formulate an informed, thoughtful, and defensible position. It is not the intent of this class to “indoctrinate” you into any particular point of view, persuade you to adopt any specific position, or even “challenge” your personal beliefs. Our hope is that, together, we can all remain as objective as possible and keep our discussions on a high intellectual plane.

RUBRICS FOR ASSIGNMENTS  (see following pages)
NUR 4412 OB: Genetics Ten Minute Paper

Meets Course Student Learning Outcome: 3

Due by March 8th at 2300

Instructions:

The purpose of this assignment is to gauge your awareness of how innovative technology can have great influence on personal and healthcare-related decisions related to fetal genetic testing. It also serves as a reflection regarding your thoughts/feelings/attitudes towards this matter and how you will shape your nursing practice accordingly.

Please create a 1-2 page (double-spaced) response addressing the questions below. As the title implies, this assignment is intended to only take around 10 minutes or less and to serve as a reflection, not a research paper. This assignment does NOT require references or the use of APA formatting. Please make sure to follow the guidelines listed within the grading rubric and use correct spelling/grammar throughout your response. Turn in your assignment via blackboard under the “Assignments” tab. This assignment counts as an OB Topic Quiz Grade.

Questions:

1. Do you feel emerging and contemporary technology relating to the ability to screen for genetic mutations prior to a child being born serves as a RESOURCE OR BARRIER in regards to providing family-centered care? (In other words, do you feel that emerging technology in genetic screening serves as a resource when providing family-centered care or a barrier when providing family-centered care?). WHY?

2. How might technology assist a parent’s decision to electively terminate the pregnancy if a fetal genetic mutation is discovered?

3. Based on your decision of technology allowing genetic testing to be a RESOURCE or a BARRIER to providing family-centered care, how do you feel this will (a) shape nursing practice in general and more specifically (b) shape your nursing practice?
