Student Learning Outcomes
By the end of the course, the student (candidate) will be able to:
Methods of Instruction

Since this course is primarily online, candidates are responsible for understanding the assignments and learning the material. If questions arise, it is important to ask the instructor immediately for help since many of the tasks build on one another.

Candidates are responsible for on time participation in discussion boards, blogs, and learning activities. Individual tasks are expected and will be used to determine the final grade.

Class will consist of online discussions and collaboration, individual participation, interviews, presentations, and papers.

Course Requirements

The purpose of graduate education is to provide for advanced and specialized training beyond the baccalaureate program. Graduate study is intended to strengthen the academic and professional competence of the candidate, to develop the candidate’s capacity for independent study, to familiarize candidates with past and current research, to train the candidate in the techniques of research, and to enable the candidate to relate his or her research to the investigations of other scholars and derive significant implications from the relationships.

Graduate study presupposes a broad background of knowledge, an adequate preparation in appropriate fields of study at the baccalaureate level including writing ability, and a command of skills required to carry on intensive research and investigation with a high degree of resourcefulness and self-direction. Generally speaking, only candidates with superior undergraduate academic records and self-motivation are qualified to pursue study at the graduate level.

It should be noted that graduate studies differ from undergraduate studies in the following respects: (1) The candidate is expected to assume greater responsibility and to exercise more individual initiative. (2) More extensive and intensive reading is required. (3) Greater emphasis is placed on productive research, with particular emphasis on the use of primary materials. (4) Seminar methods are employed with greater frequency, as greater class participation by the candidate is required. (5) Less instruction is provided in content, survey-type lecture courses. (6) Writing includes a scholarly voice and argument and critical analysis with credible evidence.
Graduate study thus involves far more than the passing of a given number of courses and the fulfillment of certain minimum requirements. The candidate cannot be content solely with earning acceptable grades. The candidate must continually satisfy the Graduate Faculty in the major field by displaying superior intellectual powers and scholarly commitment in order to maintain graduate status and good standing in the school.

1. Candidates’ Participation:
Candidates should participate actively and enthusiastically in all online discussions and course activities while following the requirements of each specific module. Course activities may include, but are not limited to, discussion boards, presentations, journals, and other opportunities to show content mastery through assignment submissions and interaction with other candidates and faculty.

2. Candidates’ Written Work:
- Demonstrates content quality and clarity that emphasizes depth and breadth, reflection and insights, scholarly discussion using scholarly voice, vocabulary, argument, and critical analysis.
- Clearly shows a high level of understanding regarding classroom discipline/the topic of discussion.
- Demonstrates writing quality and clarity, including mechanics, spelling, grammar, appropriate language, and APA style.
- Demonstrates appropriate and accurate inclusion of authority to support discussion, with citations that follow a scholarly APA format.
- Demonstrates appropriate use of respectful person-first language (e.g., “student with dyslexia” rather than “dyslexic student”).
- Demonstrates an overall appearance according to APA format (title, page, 12pt font, 1 inch margin, double spaced, etc.), completeness, and timeliness.

3. Candidates’ Communication:
Candidates should maintain open communication with the instructor. Ask questions in a timely manner to provide time for the instructor to respond prior to due date (allow 24 hours for a response). Candidates are expected to check Blackboard and ASU email on a regular basis, preferable daily. Candidates are expected to complete assignments and meet all deadlines for submission of coursework.

Required Readings
Provided within Blackboard modules
APA Manual

Communication
Candidates must communicate with all instructors via only the ASU e-mail system. Candidates must also access and use Blackboard, Ramport, and Angelo e-mail. Candidates must access Blackboard regularly for electronic posting of the syllabus, assignments, announcements, scoring information, and instructions. Candidates contact the ASU Help Desk at 325-942-2911 to learn about Blackboard, how to access and navigate it, or other technology assistance. This should be done EARLY in the class, preferably before the first class day.
Research Writing Style
In the Department of Curriculum and Instruction all candidates should adhere to American Psychological Association Publication Manual (APA) when completing written assignments, and when applicable, in other electronic or media-style presentations. The APA Manual is available at the ASU library, at the bookstore, or on-line at www.apa.org.

If a template is provided follow those instructions.

Attendance Policy
When prompted by learning modules, discussion boards, PowerPoint presentations, or at any other direction for participation, the minimum response from each candidate is: (1) to post a response to the original or initial posting and/or question; and (2) to post two substantive responses to other candidates’ postings to continue the conversation. More frequent responses are both allowed and encouraged so that each student (candidate) can learn from peers and professor’s insights.

Absences for Observance of Religious Holy Day
Students can find information on the observance of religious holy days in Operating Policy 10.19. Because of the online nature of this course, there is not a specific attendance requirement.
