Leadership for Learning: Learning to Lead
San Antonio Marriott Rivercenter
San Antonio, Texas
November 23–25, 2008

40th Anniversary

Please help my students understand that writing is not used simply to spit back what you learned from a book or listen to the teacher. Instead, it is often a means for demonstrating understanding of the relevant knowledge, skill, and experience. By requiring students to understand the written word, teachers who help students write well do not simply demand better grades.
