Angelo State University’s Teacher Preparation Program would like to invite you to our annual Superintendents’ Day on the Angelo State University Campus, February 14, 2007. This year besides our usual exchange of ideas for the improvement of teacher preparation and updates on TEA certification issues, we will also present a program on Angelo State University’s progress in seeking national accreditation through the National Council for Accreditation of Teacher Education (NCATE). We hope that all school districts in our area attend, as we perceive each district as our partner in the preparation of teachers.

Each superintendent is a member of our advisory council in this process of seeking national accreditation. The advisory council will also include selected administrators from the Angelo State University campus. This group will meet annually to review progress on the goal of seeking national accreditation and to provide suggestions on documents completed for accreditation purposes.

We realize that often there are conflicts that preclude attendance at all meetings but we will inform each of you of the accomplishments in improving teacher preparation at Angelo State University through the process of seeking national accreditation.

As usual, we will end the meeting with lunch provided by the College of Education. The specifics of the meeting follow:
