

# SUPPLEMENTAL INSTRUCTION

Angelo State University

## We're Back!

After a summer break, Supplemental Instruction (SI) is back in action for the 2007-2008 school year. Several SI Leaders graduated in May '07, paving the way for new SI Leaders to join our ranks: Anna Ermakova (MATH 1302), Chelsea Preas (HIST 1301), and Anna Romero (BIO 2423).

Along with returning veteran SI Leaders—Amy Bullock (BIO 1410), Beatrice Flores (GOVT 2301), and Albert Fierro (BIO 2423)—the newbies completed SI Training & Orientation, a two-day training program that was held prior to the start of the term, so the SI Leaders were ready to work on the first day of classes.

With two new disciplines, History and Government, this fall SI supports the following traditionally difficult courses:

- BIO 1410: Human Biology with Dr. Michael Dixon
- BIO 2423: Human Anatomy — Lecture and Lab with Dr. Russell Wilke, Ms. Christie Adkins, Mr. Michael Griffin
- HIST 1301: History to 1865 with Dr. Brian McKnight
- GOVT 2301: Federal & State Govt with Dr. Walter Noelke
- MATH 1302: College Algebra with Dr. David Huckaby

The fall 2007 SI session schedule is posted around campus. Students can also access the schedule by calling and/or visiting the Center for Academic Excellence (942-2710; Library A312—3rd floor) or by surfing the web at:

# Spotlight on SI Leaders

Anna Romero  
Biology 2423

This is Chelsea Preas' first semester as an SI Leader. She supports HIST 1301: History to 1865. Chelsea is an English major and Journalism minor. She designs her SI sessions to foster the students' critical thinking, and she enjoys the challenge of sparking students' interest while helping them to succeed in a difficult course. "Every professor and every student is different," she says. "It's all a matter of translating the needs of each to a finished product."

Anna Romero, also new to SI in 2007-2008, teams up with veteran SI Leader Albert Fierro, supporting BIO 2423: Human Anatomy. While Anna focuses on the course lectures, Albert handles the lab. Her SI sessions integrate activities and study strategies to help the anatomy students learn facts, functions, and terminology. Anna is a second year nursing student who will graduate May 2008. In addition to SI, Anna is a member of the Student Nurses Association.
