

San Angelo, TX • 1-800-946-8627

<http://www.angelo.edu>

Angelo State University in San Angelo, Texas, delivers a quality, affordable intellectual experience with 40 undergraduate and 23 graduate programs. ASU offers a strong, personal education attractive to many first-generation college students. ASU graduates boast one of the state's highest acceptance rates into medical, law and professional schools. ASU's 268-acre, park-like campus features modern academic, student service and residential facilities attuned to the needs of today's students. A strong international studies program and broad extracurricular opportunities complement the ASU classroom experience. ASU's Carr Scholarship Program assists one in every six students. A member of the Texas Tech System, ASU helps students touch tomorrow.

The ASU Community

At the heart of a thriving community of 100,000, San Angelo is home to Angelo State University. San Angelo boasts a rich and culturally diverse history as well as a strong arts community that supports a symphony, civic ballet, civic theater, art museum and the university's many cultural offerings. In addition to being a cultural and historical oasis, San Angelo is also a sporting paradise. With the Concho River traversing downtown and three lakes bordering San Angelo, a variety of water sports are available just a few minutes from campus. San Angelo State Park sits astride the junction of four ecological zones, making the park one of the most diverse natural preserves in Texas. Overall, San Angelo has the advantages of a large city – numerous civic and cultural events, ample shopping, varied entertainment options and more – along with the charms of a small town, ranging from safe streets to friendly people. That combination makes San Angelo an ideal environment for a college education.

Student Experiences and Perceptions

Students who are actively involved in their own learning and development are more likely to be successful in college. Colleges and universities offer students a wide variety of opportunities both inside and outside the classroom to become engaged with new ideas, people, and experiences. Institutions measure the effectiveness of these opportunities in a variety of ways to better understand what types of activities and programs students find the most helpful.

[CLICK HERE](#) for examples of how ASU evaluates the experiences of its students.

In addition, institutions participating in the VSA program measure student involvement on campus using one of four national surveys. Results from the one survey are reported for a common set of questions selected as part of VSA. Following are the selected results from the 2006-07 National Survey of Student Engagement (NSSE). The questions have been grouped together in categories that are known to contribute to student learning and development. The results reported below are based on the responses of seniors who participated in the survey.

[CLICK HERE](#) for information on the NSSE survey.

Group Learning Experiences

- 88% percent of seniors worked with classmates on assignments outside of class.
- 64% of seniors tutored or taught other students
- 24% of seniors spent at least 6 hours per week participating in co-curricular activities such as student organizations and intramural sports

Active Learning Experiences

- 71% of seniors spent at least 6 hours per week preparing for class
- 16% of seniors worked on a research project with a faculty member
- 52% of seniors participated in an internship, practicum, or field experience
- 55% of seniors participated in community service or volunteer work
- 4% of seniors participated in study abroad
- of seniors made at least one class presentation last year

Institutional Commitment to Student Learning and Success

- 94% of seniors believe this institution provides support for student success
- 70% of seniors rated the quality of academic advising at this institution as good or excellent
- 64% of seniors reported that this institution provided help in coping with work, family and other non-academic responsibilities
- 98% of seniors reported working harder than they thought they could to meet an instructor's standards or expectations

Student Satisfaction

- 81% of seniors would attend this institution if they started over again
- 85% of seniors rated their entire educational experience as good or excellent
- 83% of seniors reported that other students were friendly or supportive

Student Interaction with Campus Faculty and Staff

- 67% of seniors believed that the campus staff were helpful, considerate, or flexible
- 80% of seniors believed that faculty are available, helpful, or sympathetic
- 98% of seniors reported that faculty members provided prompt feedback on their academic performance
- 72% of seniors discussed readings or ideas with faculty members outside of class

Experiences with Diverse Groups of People and Ideas

- 60% of seniors reported that they often tried to understand someone else's point of view
- 82% of seniors reported their experience at this institution contributed to their understanding people of other racial and ethnic backgrounds
- 52% of seniors often had serious conversations with students of a different race or ethnicity

Student Learning Outcomes

All colleges and universities use multiple approaches to measure student learning. Many of these are specific to particular disciplines, many are coordinated with accrediting agencies, and many are based on outcomes after students have graduated. In addition, those institutions participating in the VSA measure increases in critical thinking, analytic reasoning, and written communication using one of three tests.

Student Learning Assessment at ASU

In 2006, Angelo State University (ASU) began a value-added study of student-learning outcomes in core areas such as mathematics, critical thinking, and communications. All first-time ASU students, approximately 1000, were required to take the MAPP. In fall 2008, those students retained will retest.

[CLICK HERE](#) for examples of student learning assessment and outcomes at ASU

Pilot Project to Measure Core Learning Outcomes

As a pilot project, VSA participants measure critical thinking, analytic reasoning, and written communication using one of three tests. Following are the 2006 results from the Measure of Academic Proficiency and Progress (MAPP). The MAPP measures critical thinking, analytic reasoning, and written communication and reports separate scores on critical thinking and written communication.

[CLICK HERE](#) for a description of the MAPP test.

Learning Gains between Freshman Year and Senior Year

Critical Thinking

The increase in learning on the performance task is at an institution with students of similar academic abilities.

Written Communication

The increase in learning on the performance task is at an institution with students of similar academic abilities.

Average Institutional Scores

	<u>Freshman Score</u>	<u>Senior Score</u>
Critical Thinking	110.17	111.34
Written Communication	113.24	114.07

MAPP Score Range: 100 to 130
