

CHEM 1411 Course Structure/Schedule Fall 2009

This is the basic structure of the course. Test dates will remain the same and materials will be covered in this order, but coverage for the tests may slightly differ from this schedule. Test material will not cover the material in the lecture that is given immediately before the exam. A review session will be given at 5 PM on the Wednesday prior to each test. Take note of the time differential between the review session and the second exam.

Quizzes/Class Participation: Your grade for this portion of the course will be based upon attendance as determined by: a). graded papers that you do not receive the day that they are handed out b). Periodic “minute papers” assigned during some of the lectures.
