

RamPark Information and Instructions for Student Registration

Angelo State University requires anyone parking a vehicle on campus to have an active, valid parking permit properly displayed in their vehicle.

RamPark is an **on-line parking registration program** for students which you will be able to access during the online registration period.

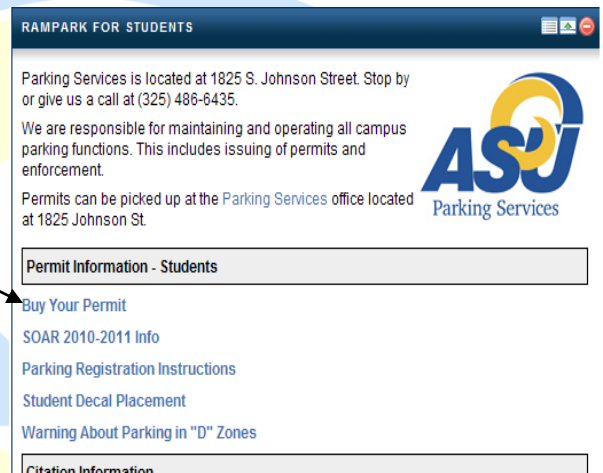

It is a simple process, requiring only that you have your campus ID information, and vehicle information such as **license plate number and state, color, make, model and year of your vehicle**.

Once you complete the process, you will need to come by the **Parking Services Office (or other designated location) to pick up your permit**. See our website and Facebook page for more information.

If you need more than one permit, or a permit after on-line registration is closed, you will need to come by our parking office.

Instructions for purchasing a parking permit:
