2. Topic: Program Assessment
   A committee has been formed and they have developed a student learning outcomes assessment plan. Student assessment is necessary for SACS approval. SACS does not mandate what qualifies as success through assessment. That is left up to the individual department.

   One suggestion for a timeline was to complete a preliminary assessment at the end of the spring semester of progress on the goals that had been set for the year. Over the summer the department head compiles the data and there are preliminary objectives set at the beginning of the fall semester.

   K. McCoy asked the Office of Institutional Research and Effectiveness to assist in modifying the assessment model in SPOL to provide consistent reports. SPOL is the best place to track the data that is provided.

   A. Blose asked for a motion to approve. The vote was taken to a show of hands with 20 members for, one member opposed and three members abstaining.

   Responsible Party: K. McCoy

3. Topic: Program Prioritization Process
   Each college has been asked to submit their data to the Provost by Friday, October 15. The formalities will be taken care of next week. Updates will be provided at a later date.
   Responsible Party: A. Blose

4. Topic: Title V Grant
   ASU has been awarded a Title V Grant and designation as a Hispanic Serving Institution. A. Blose encouraged everyone to read through the grant to get a better understanding of the role that academics will play. The interaction between academic affairs and student affairs is also important to the grant. Relevant parties have been drawn together into a working group to coordinate timelines, funds, etc. to make sure there is no redundancy in how the grant is spent. The working group consists of anyone whose departments, services or entities were identified as receiving funding.

5. Faculty/Staff Research Opportunities

Texas Tech University System inquired about where research fit into ASU given the fact that we have such a strong teaching orientation. A. Blose responded that the type of research that involves students and student projects is key to the university. He would like to see the university emphasize the opportunities for students for research.

Responsible Party: A. Blose

6. Collaboration

A. Blose pointed out to members that there are many opportunities available for collaborative efforts within the university. It is important that these efforts be approached in a professional manner.

Responsible Party: A. Blose

7. Academic Deans and Department Heads Meeting Schedule/ Provost’s Visits

It has been suggested that the Deans and Department Heads meetings be moved to once a month. A. Blose will use the other meeting times during the month to visit individual offices and departments around campus.

Responsible Party: A. Blose

**Round Table**
