Office of Accountability

January 23, 2017

MEMORANDUM

TO: ASU Community
FROM: Brandy Hawkins
Interim Director of Accountability
SUBJECT: 2016 Student Satisfaction Inventory Survey Results

For decades, ASU has participated in Student Opinion Surveys. The Student Satisfaction Inventory (SSI) provides a comprehensive assessment of the effectiveness of ASU's services and environment. The survey also provides a national benchmark for student satisfaction. **ASU did very well in regards to the national benchmark with marks well above the national average in student satisfaction.**

Please review the attached SSI report, especially items that fall in your areas of activity or responsibility. The primary objective should be the use of these data to improve the quality of the programs and activities available to students at ASU, through continuous improvement, strategic planning and retention initiatives. The number of students providing the data for a particular item may be small, so administrators and faculty should not make changes to programs based solely on these data. However, using data is a good place to begin discussions about the level of accuracy of students' perceptions: whether the real problem is a lack of communication to students about policies, procedures, and programs rather than the policies or programs themselves; whether the SSI data are similar to data obtained from other sources; and whether we are satisfied with how we are portraying ASU and what we are doing as reflected in the data.

Department Heads will receive an additional email with any specific comments made by students in regards to their specific areas.

The full set of aggregated data, including (e.g., age, ethnicity, class level), and all comments are available in the Office of Accountability should you have questions or wish to make more detailed studies.

The full set of aggregated data and all comments are available in the Office of Accountability should you have questions or wish to make more detailed studies.
