New Business:

7. Topic: Online Courses (D. Topliff)
   - D. Topliff informed members there were 3 online courses of the same class that only had a syllabus posted 7 weeks into the semester and it was a very poor syllabus. He said the department chairs need to check every syllabus in their department and make sure they have all the required elements and that the syllabus makes sense. He told the deans to make sure the chairs know this. The OP will be changed to state a syllabus must be posted before the first class day.
