Degree Information

Blocks

Each section in a Degree Works audit is called a “Block”. Each block header will contain a title for the block and will also display specific course information for that block such as credits applied, classes applied, and GPA for that block. Like individual requirements, the block header will also contain a symbol stating the status of all requirements within the block.

Degree Requirements – This is the main block that houses all of the global rules that apply to all other blocks within the audit. This block will never have the “Complete” symbol until all other blocks have been completed. Within this block you will also find “Unmet Conditions” which are requirements that must be met in order to graduate (residency requirement, total credits needed, etc.). The top-right corner of this block displays the total credits required to graduate and the total credits you have applied towards graduation.
