

Workers' Compensation Employee Information Sheet

Effective September 1, 2014, the workers' compensation network for TTUS and components has been replaced by IMO Med-Select Network.

IMO Med-Select does NOT have network providers for Lubbock, Amarillo, Odessa, Abilene, or San Angelo. Their networks are located in Dallas-Ft. Worth, Houston, San Antonio, Austin, and El Paso.

Lubbock, Amarillo, Odessa, Abilene, or San Angelo employees are not required to seek medical services at a network provider and may choose any doctor who accepts workers' compensation.

As such, please use the guidelines below when seeking medical care:

For serious or life-threatening emergencies, call 9-1-1 to ensure proper medical response and transport to the nearest appropriate medical facility

For non-emergency care, please call your desired medical provider prior to seeking medical attention to verify that they will accept workers' compensation insurance through the State Office of Risk Management (SORM).

Shannon Medical System has 1 urgent care clinic that provides workers' compensation care:

Shannon Occupational Medicine & Injury Clinic

2626 N Bryant Blvd, San Angelo, TX

325-481-2375

First Point of Contact for Non-Emergency Incidents at Angelo State University:

Office of Human Resources
