Accreditation

Angelo State University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, masters, and doctorate degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Angelo State University.

Note: The Commission should be contacted only if there is evidence that appears to support the institution’s significant non-compliance with a requirement or standard. Normal inquiries about Angelo State University, such as admission requirements, financial aid, educational programs, etc., should be addressed directly to Angelo State University and not to the Commission’s office.

Angelo State University, through its Norris-Vincent College of Business, is nationally accredited by the Accreditation Council for Business Schools and Programs (ACBSP) to offer the following degree programs: (1) At the graduate level, the Master of Business Administration (M.B.A.) and the Master of Professional Accountancy (M.P.Ac.) and (2) At the undergraduate level, the Bachelor of Business Administration (B.B.A.) degree.

Angelo State University’s educator preparation programs, through its College of Education, are nationally accredited by the Council for the Accreditation of Educator Preparation (CAEP) to prepare individuals working in pre-kindergarten to 12th grade schools. The University’s educator preparation programs are also approved by the Texas Education Agency’s State Board for Educator Certification (SBEC) to prepare individuals as educators in Texas elementary, middle, and high schools.

The Department of Teacher Education’s Early Childhood to Sixth Grade educator preparation program is a nationally recognized elementary teacher preparation program by the Association for Childhood Education International, and the special education teacher preparation program is nationally recognized by the Council for Exceptional Children.

Angelo State University’s graduate programs, through its College of Education, are nationally accredited by the Council for the Accreditation of Educator Preparation (CAEP) to prepare individuals working in pre-kindergarten to 12th grade schools and accredited by the Texas Education Agency, State Board for Educator Certification (SBEC) to prepare individuals as principals, school counselors, and superintendent of schools.

Angelo State University is an accredited institutional member of the National Association of Schools of Music.

The B.S.N. and M.S.N. programs at ASU are fully accredited by the Commission on Collegiate Nursing Education (CCNE). In addition, all nursing programs have full approval status by the Texas Board of Nursing.

Texas Board of Nursing  
333 Guadalupe #3-460  
Austin, TX 78701  
Office: 512-305-7400  
Fax: 512-305-7401

Commission on Collegiate Nursing Education (CCNE)  
655 K. Street NW, Suite 750  
Washington, DC 20001

The Social Work Program at Angelo State University is accredited by the Council on Social Work Education (CSWE): 1701 Duke Street, Suite 200, Alexandria, VA 22314, 703-683-8080, info@cswe.org.

The Doctor of Physical Therapy program at Angelo State University is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314; telephone: 703-684-2782; email: accreditation@apta.org; website: http://www.capteonline.org.

Statement on Equal Educational Opportunity

Angelo State University is open to all persons eligible for admission as students regardless of race, color, religion, sex, age, national origin, mental or physical disability, or Vietnam Era or Special Disabled Veteran status. All students admitted to the university are treated without discrimination in regard to their participation in university educational programs or activities. The university is an equal opportunity employer and no applicant or employee will be discriminated against because of race, color, religion, sex, age, national origin, mental or physical disability, or Vietnam Era or Special Disabled Veteran status in regard to employment or during the course of employment in the institution. The university does not discriminate on the basis of sex or disability in its educational programs. Any student with inquiries should contact the Office of Student Affairs, UC 112, at 325-942-2047.

Notice of Non-Discrimination

The University does not tolerate discrimination or harassment based on or related to sex, race, national origin, religion, age, disability, protected veteran status, genetic information, or other protected categories, classes, or characteristics. While sexual orientation and gender identity are not explicitly protected categories under state or federal law, it is the University’s policy not to discriminate in employment, admission, or use of programs, activities, facilities, or services on this basis. For ASU’s full Notice of Non-Discrimination which addresses how discrimination may be reported, please visit https://www.angelo.edu/non-discrimination.

Notice

The policies, regulations, procedures, and fees in this Catalog are subject to change without prior notice, if necessary, to keep University policies in compliance with State and federal laws, the rules and regulations of the Board of Regents, The Texas Tech University System, or the educational objectives of the University. The University reserves the right to change curricula, rules, fees, admission requirements, and other requirements without notice. The provisions of this Catalog do not constitute a contract, express or implied, between any applicant, student, faculty member, or any other person, and Angelo State University.

Beyond the classroom, ASU students have a wide variety of opportunities to broaden their horizons and strengthen their résumés. With more than 100 student organizations, a thriving intramural program, state-of-the-art recreational facilities and numerous on-campus social events to choose from, students can connect with others who have similar interests. ASU leadership and career development programs allow students to develop skills that will help them in their careers and in life. The Center for International Studies allows students to complement their campus education with study abroad programs in Europe, Asia and Central and South America.

The numerous academic and extracurricular opportunities are complemented by a highly competitive intercollegiate athletics program with men’s teams in five sports and women’s teams in eight sports. The Rams and Rambelles compete in NCAA Division II and the Lone Star Conference. Over the years, the institution has claimed four national titles, the most recent being the NCAA D-II Women’s Track and Field Championship in 2010 and the 2004 NCAA D-II Softball Championship. Our track and field teams have won more than 50 individual and relay national championships, and more than a dozen Rams football players have gone on to play in the NFL.

Success at ASU, whether in the classroom, in student organizations or on playing fields, translates into success in life. ASU graduates have headed major national corporations, played in Super Bowls, discovered new animal species, anchored national newscasts, conducted ground-breaking medical research, held top positions in the nation’s military, and made numerous contributions to their communities and society.

Mission Statement

Angelo State University, a member of the Texas Tech University System, delivers undergraduate and graduate programs in the liberal arts, sciences, and professional disciplines. In a learning-centered environment distinguished by its integration of teaching, research, creative endeavor, service, and co-curricular experiences, ASU prepares students to be responsible citizens and to have productive careers.
Value Statements

- **Learning: Our Focus**
  ASU holds student learning as the center of everything that we do.

- **Excellence: Our Standard**
  ASU embraces excellence in teaching, scholarly activity, creative endeavor and service.

- **Transformation: Change for the Better**
  ASU prepares its students for a life of contribution and accomplishment by instilling a respect for learning and intellectual inquiry.

- **Integrity: Social and Ethical Responsibility**
  ASU expects a high standard of social and ethical responsibility from all members of the campus community.

- **Engagement: Participation and Community Service**
  ASU encourages participation and community service both on and off campus by faculty, staff, and students—and we have been recognized for our efforts by the Carnegie Foundation.

- **Innovation: Teaching, Service, and Scholarship**
  ASU promotes innovation in teaching, scholarship, technology, collaborative partnerships, support services, and co-curricular activities.

- **Diversity: Cultures, People and Ideas**
  ASU believes that everyone should experience a diversity of cultures, people and ideas in order to better appreciate the world around them.

- **Collegiality: Getting Along**
  ASU fosters—among students, faculty, and staff, and across disciplines—a culture of shared governance, open communication, transparent operations, and mutual respect.

History of the University

Angelo State University was created as Angelo State College in 1965 by an act of the 58th Session of the Texas Legislature in 1963, but its origins can be traced to an unsuccessful 1923 bid to be selected as the home of Texas Technological College. When Lubbock was chosen as the site for Texas Tech, the citizens of San Angelo decided to create their own college, even if they had to pay for it themselves. Funded by local contributions and a self-imposed city tax, San Angelo Junior College opened its doors in 1928 on North Oakes Street near downtown San Angelo.

When classes began, 112 students enrolled with city students paying $75 tuition and out-of-town students $115. In May of 1929, six students walked across the stage in the institution’s first commencement exercise. Today, ASU has more than 31,000 alumni around the globe. In 2007, ASU became a member of the Texas Tech University System.

Academics have always been important at Angelo State, even when the school was known as San Angelo College, which as early as 1936 was one of the few junior colleges accredited by the Southern Association of Colleges and Schools, or SACS. The voters of Tom Green County in 1945 created a County Junior College District and elected the first Board of Trustees. In 1947, the first building was constructed on the present campus, which today encompasses 268 acres.

The citizens of San Angelo never lost the dream of having a four-year college in their community and worked diligently to accomplish that goal. That dream became a reality, effective September 1, 1965, when authority for the institution was transferred from the Board of Trustees of the junior college to the Board of Regents, State Senior Colleges, later the Texas State University System. In May of 1967, the first baccalaureate degrees were awarded. The name of the institution was changed to Angelo State University in May of 1969.

The College of Graduate Studies and Research was authorized by the Board of Regents on May 15, 1970, and approved by the Texas Higher Education Coordinating Board on October 19, 1970. The first graduate students were enrolled in the fall of 1971.

By 1991, ASU was receiving national attention, being recognized by U.S. News and World Report as one of the nation’s up-and-coming universities.

City of San Angelo
San Angelo is the center of a thriving community of 100,000 and the city nearest the geographic center of Texas. For some, San Angelo is the true heart of Texas. For others, it is where Central Texas and the Hill Country meet West Texas. Either way, it is a community of genuine, big-hearted and hard-working people who are proud of their Texas heritage.

San Angelo has a rich and culturally diverse history. Though the city owes its birth to the establishment of Fort Concho along the Concho River in 1867, various Indian tribes, as well as Spanish conquistadors and priests, traversed the area for centuries before that. They were followed by buffalo soldiers and pioneer ranchers, who opened the way for merchants, bankers and educators in San Angelo and Tom Green County.

This diverse heritage is celebrated annually through the Juneteenth Celebration, the Fiestas Patrias, the Diez y Seis de Septiembre festivities and Frontier Day at Fort Concho National Historic Site, as well as Christmas at Old Fort Concho. And, in honor of Independence Day, the community comes together for a grand celebration that includes a patriotic pops concert and fireworks display July 3 at the River Stage on the banks of the Concho River downtown and a July 4 fireworks show over Lake Nasworthy. The annual rodeo and livestock show in the spring and the roping fiesta each fall pay homage to the region's ranching roots.

San Angelo is also a cultural paradise. The San Angelo Symphony, the San Angelo Civic Ballet, and Angelo Civic Theatre offer a variety of programs annually. The San Angelo Performing Arts Campus (SAPAC) brings even more choices for entertainment with stage performances by local companies, Be Theatre and San Angelo Broadway Academy, and traveling Broadway productions, such as “Legally Blonde.” The San Angelo Museum of Fine Arts with its distinctive architecture provides a wonderful setting for exhibits by some of Texas’ finest artists. Historical displays at Fort Concho and the Railway Museum of San Angelo attract visitors from throughout the nation. Downtown boasts a series of historical murals and public art in the most unexpected places. The Cactus Hotel is a local landmark, which serves as the center of numerous cultural activities. Visitors along the River Walk enjoy the prize-winning sculpture of the “Pearl of the Conchos,” a West Texas mermaid holding a symbolic Concho Pearl, a pink gem unique to the waters of the Concho River around San Angelo.

Natural beauty is also found with the International Water Lily Garden in full color between March and September. It is complemented by the Sunken Garden, Rio Concho Garden, Terrace Garden and Gazebo Garden, all part of the city’s system of municipal parks. The River Walk along the Concho provides water displays, dramatic lighting and a four-mile trail for enjoying nature.

The Nature Center on the outskirts of town by Lake Nasworthy is a regional museum and learning facility. Lake Nasworthy—along with O.C. Fisher Reservoir and Twin Buttes Reservoir—provides residents and visitors a variety of water sport opportunities, from fishing to water skiing. Adjacent to Fisher Reservoir, San Angelo State Park sits astride the junction of four ecological zones, making the park one of the most diverse natural preserves in all of Texas.

San Angelo is home to Goodfellow Air Force Base, as well as a strong business community that includes such national corporations as SITEL, Goodyear and Ethicon. Additionally, San Angelo is a regional medical center.

Overall, San Angelo has all the advantages of a large city—numerous civic and cultural events, ample shopping, varied entertainment options, a solid business community and more—along with all the charm of a small town, ranging from safe streets to friendly people. That combination helps make San Angelo an ideal environment for a college education.
Admission to the University

Angelo State University adheres to high standards of academic excellence and admits students in accordance with their level of academic preparation without regard to race, color, sex, age, religious commitment, or national origin. Inquiries about admission, application for admission, transcripts, and other admissions documentation should be addressed to the Office of Admissions, Angelo State University, ASU Station #11014, San Angelo, TX 76909-1014. The office is located in the Dorsey B. Hardeman Student Services Center, 2601 W. Ave, N, San Angelo, TX 76909. You may also contact us by phone at 325-942-2041 or email at admissions@angelo.edu. Application for admission is by online submission on the Admission to Angelo State website. Admission to the University does not guarantee admission to a particular college or academic program. For information about enrolling as an international student refer to page 13, International Student Admissions.

Angelo State University requires applicants from high school or GED recipients to submit ACT or the SAT scores. The scores cannot be more than five years old. High school administrators can provide details with regard to these examinations.

## Admission Requirements

### Undergraduate Programs

All undergraduate applicants will be required to submit a non-refundable, undergraduate application fee. If payment of the fee creates financial hardship, students may submit verification or documentation of need for a fee waiver along with the application and supporting documents for admission. Applications will not be complete without either the application fee or fee waiver documentation. Students who meet the stated requirements below may reasonably expect to be admitted. However, additional factors may be considered in determining the applicant’s admission. The admission of some applicants may be deferred in order to ensure sufficient resources to serve all enrolled students effectively.

Angelo State University commits itself to the equal consideration of all qualified applicants for admission without regard to race, color, religion, sex, age, or national origin, and without regard to disabilities as required by the Americans with Disabilities Act of 1990. Students who meet the stated requirements below may reasonably expect to be admitted. However, additional factors may be considered in determining the applicant’s admission. The admission of some applicants may be deferred in order to ensure sufficient resources to serve all enrolled students effectively.

### I. Freshman Admission

Individuals who have graduated from an accredited high school or homeschool may be eligible for admission to Angelo State University when they have submitted all of the following items to the Office of Admissions:

- Application for Admission.
- Scores on the American College Test (ACT) or the Scholastic Assessment Test (SAT) (scores cannot be more than five years old).
- Current non-refundable application fee.
- Official transcripts of high school records.

#### Assured Admission of Freshmen Applicants

Assured admission is granted to applicants based on satisfaction of the following requirements: a) graduate from an accredited high school or home school with a Texas Recommended or Distinguished Achievement Program diploma or the Endorsements or Distinguished level of Achievement on the Foundation High School Program or its equivalent; and b) present the combination rank in class and minimum test scores indicated below. If a high school transcript does not include a class rank, an equivalent rank will be calculated by Undergraduate Admissions.

* Recommended program or the Distinguished Level of Achievement on the Foundation High School program.

** Recommended or Distinguished Achievement Program or the Endorsements or Distinguished level of Achievement on the Foundation High School Program or its equivalent.

*** SAT scores include combined critical reading and mathematics. Redesigned SAT scores include evidence-based reading & writing and mathematics. Both SAT tests will use the combined maximum score of 1600.

Assured admission is also granted to applicants who have: a) graduated from an accredited high school or home school with a Texas Recommended or Distinguished Achievement Program diploma or the Endorsements or Distinguished level of Achievement on the Foundation High School Program or its equivalent; and b) completed at least six (6) semester credit hours of dual credit through Angelo State University with a 3.00 GPA or higher.

Assured admission may also be granted to applicants graduating with the Foundation High School Program, or equivalent, other programs in transition, those not on a Texas High School Diploma Program but who meet one of the requirements listed below.

a. Satisfy ACT’s College Readiness Benchmarks on the ACT assessment.

b. Satisfy SAT College Readiness Benchmarks.

Private students must submit the Texas Private High School Certification Form published by and made available on the Texas Higher Education Coordinating Board website.

#### Admission File Review of Freshman Applicants

Students who do not meet assured admission will have their file reviewed to determine admissibility and potential for success at Angelo State University. Consideration factors may include, but are not limited to, the applicant’s: academic record, dual credit course completion, class rank, standardized test scores, first-generation status, bilingual proficiency, extracurricular activities, community activities, region of residence, socioeconomic background, financial status of the school district, the school district’s performance level on the TEA’s accountability criteria, responsibilities such as employment or helping to rear children, resident of a rural or urban area or a resident of a central city or suburban area, attendance in a school under a court ordered desegregation plan, commitment to a particular field of study, personal interview, admission to a comparable accredited out-of-state institution, or any other consideration the university considers necessary to accomplish the university’s stated mission.
Admission to the University

Provisional Admission
Freshman applicants not admitted through the university’s standard admission and review process may be considered for admission through the provisional admission program.

Students may satisfy their provisional admission requirement via the Direct Path Program:
- Apply and be accepted to the Angelo State Direct Path Program, a partnership with Howard College. Upon earning 18 transferable credit hours with a cumulative 2.00 or higher grade point average a student will be fully admitted to Angelo State University.
- Participate in the Summer Gateway Program by enrolling in and completing six hours of transferable coursework with a 2.00 or greater grade point average either at Angelo State University or at another college or university.

II. General Equivalency Diploma (GED) Admission
Individuals who are not high school graduates but who have submitted evidence of a high school equivalency diploma from the Texas Education Agency (or equivalent agency in other states) may be eligible for admission to Angelo State University when they have submitted all of the following items to the Office of Admissions:
- Application for Admission
- Scores on the ACT or the SAT (scores cannot be more than five years old).
- Current non-refundable application fee.

These applicants must meet one of the following admission requirements:
- Satisfy SAT College Readiness Benchmarks.
- Satisfy the College Readiness Benchmarks on the ACT assessment.

Dual Credit Admission
Dual credit admission is granted to applicants who are high school or home school students and meet the requirements of either the Regents Scholars Dual Credit Program or the Presidential Scholars Dual Credit Program. The Regents Scholars Dual Credit Program is offered on the Angelo State University campus and the Presidential Scholars Dual Credit Program is offered at a high school of a partner school district.

Students granted enrollment to take academic courses under either the Regents Scholars Dual Credit Program or the Presidential Scholars Dual Credit Program will not be considered as having officially been admitted to, nor matriculated at, Angelo State University until they graduate from high school and enroll in the university as regular students.

Regents Scholars Dual Credit Program
A high school student will be eligible for admission to the Regents Scholars Dual Credit Program when the applicant has met all admission requirements and has on file the following items:
- Dual Credit/Concurrent Enrollment Application for Admission.
- Official transcripts of high school records.
- Official scores on the ACT or the SAT (scores cannot be more than five years old).
- Dual Credit/Concurrent Enrollment Agreement form.

Regents Scholars Admission Requirements
To be eligible for admission to Angelo State University under the Regents Scholars Dual Credit Program, high school students must meet the following admission requirements:
- Enrolled currently in high school courses. Private and home school students must submit the Texas Private High School Certification Form published by and made available on the Texas Higher Education Coordinating Board website.
- Present the combination rank in class and minimum test scores indicated below.

<table>
<thead>
<tr>
<th>High School Class Rank</th>

<td>17</td>
<td>SAT: 820 or Redesigned SAT of 900</td>
</tr>
</tbody>
</table>

* SAT scores include combined critical reading and mathematics. Redesigned SAT scores include evidence-based reading & writing and mathematics. Both SAT tests will use the combined maximum score of 1600.

Presidential Scholars Admission Program
A high school student will be eligible for admission to Angelo State University under the Presidential Scholars Dual Credit Program when the applicant has met all admission requirements and has on file the following items:
- Dual Credit/Concurrent Enrollment Application for Admission.
- Official transcripts of high school records.
- Dual Credit Agreement form.

Presidential Scholars Admission Requirements
To be eligible for admission to Angelo State University under the Presidential Scholars Dual Credit Program, high school students must meet one of the following admission requirements:
- Have a “B” (3.00 or 80) overall high school average.
- Be in the top half of class.
- Recommended by the high school principal or high school counselor.

IV. Transfer Student Admission
Students transferring from an accredited college or university will be eligible for admission to Angelo State University when they have met all admission requirements and have on file in the Office of Admissions the following items:
- Application for Admission.
- Transcripts of all college or university work.
- Current non-refundable application fee.

Transfer Student Assured Admission
Transfer students from an accredited college or university who are eligible to return to the institution most recently attended may be admitted if their cumulative grade point average on all transferable college level work attempted meets the following criteria and the other designated requirements:

<table>
<thead>
<tr>
<th>Total College Level Semester Credit Hours Attempted</th>
<th>Minimum Cumulative Grade Point Average and Other Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-11</td>
<td>2.00 and meet admission criteria for regular admission for high school graduates</td>
</tr>
<tr>
<td>12 or more</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Angelo State University Undergraduate Catalog 2019-2020
Admission to the University

a. Students who are on academic suspension at any institution attended are ineligible for admission to Angelo State University until the period and terms of the suspension have been satisfied and the above criteria have been met.
b. When calculating a transfer grade point average, grades of “A”, “B”, “C”, “D”, and “F” are computed as recorded. Grades of “WF” are averaged as “F”. When a course has been repeated, the last grade stands and is used for GPA calculations. Grades in non-transferable, developmental, and some technical/vocational courses are disregarded.
c. Students meeting all admission requirements who are currently enrolled in another college or university and are unable to provide current transcripts of all previous work may appeal their admission to the Office of Admissions. It is the responsibility of the students to provide the official transcript to the Office of Admissions or be subject to forced withdrawal. Transfer courses will only be entered after receiving official transcripts.

Admission File Review of Transfer Applicants
Transfer applicants who do not meet the admission GPA (grade point average) requirement will have their records reviewed to evaluate other factors that could predict success at Angelo State University. The transfer office will review applicants holistically and present candidates to the Director of Admissions for a final admissions decision. The review will consider academic information such as the types of courses taken and the pattern of progress, as well as course work taken leading toward the major. Consideration will be given to students who have earned an associate’s degree.

V. Former Student Admissions
All former undergraduate Angelo State University students who did not attend one long semester (fall or spring) must re-apply for undergraduate admission to re-enter ASU. They must submit:
• An application for undergraduate admission
• The current non-refundable application fee

Former ASU students who attend another college or university after leaving ASU will be considered as transfer students and must meet the transfer student requirements above. Students must submit official transcripts of all college or university course work since their last enrollment at ASU. The cumulative grade point average of all official transcripts that were not previously received in the Office of Admissions must be a minimum 2.00.

Students who leave ASU on scholastic probation may be re-admitted on scholastic probation. If a student was suspended from ASU, he or she may return on probationary status after complying with the suspension requirements.

VI. Transient Admissions
Applicants who have completed college work and are working toward a degree at another college or university are eligible to be considered for transient admission. Applicants who desire to register for any term may be considered for enrollment without regard to the transfer student requirements above, but must not be on academic suspension from another institution.

Transient students are required to submit:
• An application for undergraduate admission
• The current non-refundable application fee
• Proof of good standing with their current institution

VII. Post-baccalaureate Admissions
Post-baccalaureate admission is granted to students who have been awarded a bachelor’s degree and do not want to obtain another undergraduate degree.

Post-baccalaureate students are required to submit:
• An application for undergraduate admission
• The current non-refundable application fee
• Proof of baccalaureate degree

ASU undergraduate students who are in good standing and seek post-baccalaureate admission for the term directly following their graduation need to submit a Continuing Education Verification Form for admission.

VIII. Non-Degree Seeking Students
Admission is granted to students interested in enrolling in courses pertaining to their personal interest, or those interested in receiving licensure.

Non-Degree Seeking Students are required to submit:
• An application for undergraduate admission
• The current non-refundable application fee
• High school transcript or GED (for those who did not previously attend college)
• Most recent or current college transcript

In addition:
• Applicants who have been denied admission as a degree-seeking student or who missed the deadline for submitting a degree seeking application will not be considered for enrollment as a non-degree student.
• Students who are not in good academic standing from Angelo State University or any other institution are not eligible to enter as a non-degree student.
• Acceptance in this category does not constitute acceptance to a degree granting program.
• Non-degree seeking students must adhere to the same academic rules that govern degree seeking students (i.e., application deadlines, fees, drop/add, withdrawals, grading, retention policies, etc.)
• Non-degree seeking students are limited to 24 semester credit hours for undergraduate level courses.
• Upon completion of 24 semester credit hours the student must be admitted as a degree-seeking student to continue at Angelo State University.
• Students seeking reclassification from non-degree student status to degree-seeking status must submit an application via Apply Texas.

IX. Admission to a College Major
An academic college or an academic department may have admission requirements in addition to those of the university.

X. Other Provisions and Conditions of Admission
All other provisions and conditions of admission not covered by the above admission requirements shall be established by the president of the university.

XI. Admission Decision Appeals
The policies and procedures for considering admission decision appeals shall be established by the vice president for student affairs and enrollment management, subject to approval by the president of the university. Appeal consideration factors may include, but are not limited to, the applicant’s academic record, class rank, standardized test scores, or any other consideration the university considers necessary to accomplish the university’s stated mission. The university’s decision in all such cases shall be final.
General Statement Regarding Transfer Students

Angelo State University (ASU) seeks students from two-year and four-year colleges and will assist those students in every reasonable way to make the transition to ASU as efficient as possible. The University will accept transfer credits from accredited institutions. Current ASU students who enroll in courses at two-year colleges or four-year universities during the summer or otherwise must have an official transcript of earned course work sent to the Office of Admissions. The semester credit hours (SCH) fulfilling the general education requirements and requirements for the major are designated in the academic regulation sections of this Catalog. The ASU core course numbers and the Texas Common Course Numbers can be found beginning on page 176.

Students transferring course work from another college or university will receive credit hours for transferable hours, but the grades do not transfer. Effective fall 2016, transfer work must be a grade of “D” or above to qualify for credit toward degree requirements except in degrees that have specific grade requirements that apply to all students.

The Office of Admissions, in conjunction with the Department of English and Modern Languages, will make an exception to standard policy regarding transfer credit for military language training in languages not offered by ASU. Students who enter ASU with previous language qualifications may receive undergraduate transfer credit hours as demonstrated with scores from the Defense Language Institute or the Defense Language Proficiency Test. These transfer credit hours may apply to the modern languages requirements in the B.A. or to elective credit if those hours total fewer than twelve.

The Office of Admissions, in conjunction with the Department of Security Studies and Criminal Justice, will make an exception to standard policy with regard to Community College of the Air Force (CCAF) credits for a CCAF degree-holder. All credits from CCAF associate’s degrees will be accepted and applied toward your degree plan. However, should you choose to change your degree plan to a degree other than those specified below, the transfer credits originally accepted and applied may be revoked.

- B.A.A.S. with specialization in Criminal Justice
- B.B.S. in Border Security
- B.I.A. in Intelligence and Analysis

Policy on Transfer Credit Disputes

Texas Administrative Code
Title 19, Part 1, Chapter 4, Subchapter B, Rule §4.27

(a) The following procedures shall be followed by institutions of higher education in the resolution of credit transfer disputes involving lower-division courses:

(1) If an institution of higher education does not accept course credit earned by a student at another institution of higher education, the receiving institution shall give written notice to the student and to the sending institution that transfer of the course credit is denied, and shall include in that notice the reasons for denying the credit. Attached to the written notice shall be the procedures for resolution of transfer disputes for lower-division courses as outlined in this section, accompanied by clear instructions outlining the procedure for appealing the decision to the Commissioner.

(2) A student who receives notice as specified in paragraph (1) of this subsection may dispute the denial of credit by contacting a designated official at either the sending or the receiving institution.

(3) The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with Board rules and guidelines.

(4) If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the sending institution shall notify the Commissioner in writing of the request for transfer dispute resolution, and the institution that denies the course credit for transfer shall notify the Commissioner in writing of its denial and the reasons for the denial.

(b) The Commissioner or the Commissioner’s designee shall make the final determination about a dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions.

(c) Each institution of higher education shall publish in its course catalogs the procedures specified in subsections (a), (b), (d), and (e) of this section.

(d) The Board shall collect data on the types of transfer disputes that are reported and the disposition of each case that is considered by the Commissioner or the Commissioner’s designee.

(e) If a receiving institution has cause to believe that a course being presented by a student for transfer from another school is not of an acceptable level of quality, it should first contact the sending institution and attempt to resolve the problem. In the event that the two institutions are unable to come to a satisfactory resolution, the receiving institution may notify the Commissioner, who may investigate the course. If its quality is found to be unacceptable, the Board may discontinue funding for the course.

Source Note: The provisions of this §4.27 adopted to be effective May 27, 2003, 28 TexReg 4109.
**Fresh Start**

An applicant for admission who is a Texas resident may seek to enter this institution pursuant to the “academic fresh start” statute, Texas Education Code, 51.931. If the applicant informs the Admissions Office in writing of the election at the time of application to the University, the institution will not consider academic course credits or grades earned by the applicant 10 or more years prior to the starting date of the semester in which the applicant seeks to enroll. All students who wish to enroll in academic course work at Angelo State University under the “academic fresh start” must submit an Application for Admission and official transcripts of all college or university work attempted and current application fee.

**Bacterial Meningitis Vaccination**

State law requires all new enrolling students and students returning after a lapse of enrollment who are under 22 years old to show evidence of receiving a bacterial meningitis vaccination or booster dose. The vaccination must have been administered within five years of enrollment, and the latest possible date to receive the vaccine is 10 days prior to the first day of the semester.

Exceptions to the vaccination requirement are allowed in limited circumstances consistent with Texas legislation:

- Enrollment in Distance education courses only.
- An affidavit or certificate from a physician that states the vaccination would be harmful to the health and well-being of the student.
- A conscientious exemption form from the Texas Department of State Health Services that states the student is declining the vaccination for reasons of conscience, including a religious belief.

Complete information is available on the ASU Bacterial Meningitis website.

**Housing and Residential Programs**

Single undergraduate students who are approved for admission will be allowed to register only after they have satisfied the requirements of the university’s housing policy. More information about the housing policy may be found online and students may apply online at the Housing and Residential Programs website.

**Personal Standards**

Angelo State University requires the same personal standards and applies the same criteria in considering applications for admission as it uses in the retention of students who are enrolled. The personal standards of conduct expected of students who enroll at Angelo State University are provided in the Code of Student Conduct contained in the Student Handbook.

**International Student Admissions**

Angelo State University is authorized under Federal law to enroll nonimmigrant alien students. International applicants for graduate admissions must meet requirements for graduate programs. A student from a foreign country will be eligible for admission to Angelo State University and a Form I-20, Certificate for Eligibility, will be issued when all admission requirements have been met and the following items are on file in the Center for International Studies:

I. Graduates of foreign secondary schools who have completed the equivalent of at least an American high school diploma (12th grade) may apply for admission to Angelo State University by writing to the Center for International Studies and submitting the online application at Apply Texas website. The mailing address for the Center for International Studies is ASU Station #11035, San Angelo, TX 76909-1035, and the website address is http://www.angelo.edu/dept/cis/.

II. Applicants with foreign academic credentials must provide academic records in the original language with a certified English translation. Applicants who have attended school outside the United States must provide official results of secondary external examinations (e.g., GCE “Ordinary” level exams) on examination board letterhead, certificates of completion of a state secondary school examination, and official transcripts from any university-level studies already completed in the United States or elsewhere. Failure to provide complete information regarding post-secondary level study could result in cancellation of admission.

III. Students whose native language is not English also must present a score of at least 550 (paper-based exam), 213 (computer-based exam), or 69 (internet-based exam) on the Test of English as a Foreign Language (TOEFL) or a score of 55 on the Duolingo English Test. Or students may present a score of at least 6.0 on the International English Language Testing System (IELTS). The TOEFL/IELTS requirement may be waived if the student has attended a U.S. high school or college for at least three consecutive years or if the student is a citizen in a country where English is the native language. Angelo State University will make the final decision regarding approved English speaking countries. A list of approved English speaking countries is on file in the Center for International Studies. Information concerning the TOEFL may be obtained from Educational Testing Service, P.O. Box 899, Princeton, New Jersey 08540, U.S.A. Information concerning the IELTS may be obtained from IELTS International, 825 Colorado Boulevard, Suite 112, Los Angeles, California 90041, U.S.A. Angelo State University does not require ACT or SAT scores of international applicants.

IV. International students not living in the United States are encouraged to apply a year in advance. International students are required to verify their ability to support themselves financially. Please visit the Center for International Studies website for more information on the cost to attend. The website address is: http://www.angelo.edu/dept/international-students/
Admission to the University

V. A nonrefundable application fee is required. An International Money Order or U.S. Postal Money Order or online Flywire payment for the current application fee must accompany the international student application. The website address for Flywire is: https://www.flywire.com/pay/angelo. Students who apply online through the Apply Texas application may pay the current application fee with a credit card at the time of application.

VI. OTHER PROVISIONS AND CONDITIONS OF ADMISSION - All other provisions and conditions of admission not covered by the above admission requirement shall be established by the President of the University or his/her designee.

VII. CONDITIONAL ADMISSION - Conditional admission for international students may be considered for undergraduate students sponsored by a known and responsible organization, institution, corporation, or government, who would be eligible for admission to Angelo State University, except for a deficiency in English language skills as determined by the Center for International Studies. Applicants for conditional admissions must be reviewed and approved by the Center for International Studies. While in this status, students will be enrolled in a recognized Intensive English Program. Upon successful completion of the Intensive English Program and meeting the language requirements for admission, students may then transfer into the appropriate department and college at Angelo State University. Courses completed in the Intensive English Program will not count as transferrable courses.

VIII. PARTNER INSTITUTIONS - Reciprocal Exchange, Study Abroad, Hybrid, and ELLI students are admitted to Angelo State University on the basis of a contract signed with the international partner university. The Center for International Studies oversees and implements all such agreements. Working with other offices on campus, the Center for International Studies coordinates admission of the students and, working within the framework of the contract and with the partner institution, advises and enrolls these students.

International applicants must have all of these items on file in the Center for International Studies no later than June 10 in order to register for the fall semester, November 1 to register for the spring semester, and March 15 to register for the summer session.

International students are subject to the same special requirements regarding satisfactory writing, reading, and mathematics skills as imposed on high school graduates or transfer students based upon their scores on their ACT or SAT exams and the requirements established by the Texas Success Initiative (TSI). *

Other Provisions and Conditions of Admission. All other provisions and conditions of admission not covered by the above admission requirements shall be established by the President of the University.

Insurance Requirement for International Students

All international students will be automatically billed by ASU for the Group Hospitalization, Medical U.S. Evacuation, and Repatriation Insurance plan provided through the University for each semester enrolled. Further information regarding insurance coverage and cost may be obtained from the University’s Center for International Studies.

* See page 294 regarding TSI requirements.
Tuition and Fees

A complete list, including authority and explanations for tuition and fees, is available on the Tuition and Fees web page. Tuition and fee grids are provided on the site to assist students in estimating the cost of attendance based on enrolled semester hours.

The Student Accounts Office is responsible for billing and collection of student accounts. Angelo State University reserves the right, without notice in this or any other publication, to change, amend, add to, or otherwise alter any or all fees, dues, rates, or other charges set forth herein and subject to action by the Texas State Legislature, the Board of Regents of the Texas Tech University System, or other authority.

It is the student’s responsibility to ensure payment of tuition and fees based on the number of semester credit hours for which they register is received by the payment due date.

Textbooks

All students whether residents or nonresidents of Texas will be required to procure such textbooks as are prescribed for the respective courses in which they are enrolled. All required textbooks may be purchased at Ram Central Station (ASU bookstore) located in the Houston Harte University Center. Ram Central Station will in turn purchase these books from the students at the end of each term, depending upon the condition of the book and whether it is still on the required list.

In addition to the selection of new and used textbooks available for purchase, Ram Central Station offers a textbook rental program. For additional information regarding textbook selection and purchase/rental options, visit the Bookstore website, email angelo@bkstr.com, or call 325-942-2335.

Payment Procedures

Student billing statements and payment due dates may be viewed electronically via RamPort located on the Financial Aid and Billing page. Class schedules are not valid until the ASU Student Accounts Office has received payment of the current amount due including financial aid credit. Payment must reach the Student Accounts Office, or payment arrangements must be made, prior to the close of business on the due date. Failure to make payments by the due date will result in cancellation of the student’s registration after the close of business on the due date. Students who are cancelled prior to the first class day for nonpayment must re-register for classes, and the original schedule is not guaranteed.

Dropped/Late Registration Fee: A late registration fee will be charged to registrations after the payment due date and for registrations dropped due to non-payment.

Students who incur incidental fees during the semester or who choose the payment option must pay the current due amount by the established due dates or they may be prohibited from registering for future terms until full payment is made. A student who is not 100 percent paid prior to the end of the term may 1) be dismissed from the university, 2) be withheld from future registration privileges, 3) not be issued an official certified transcript, and 4) not be conferred their degree. The possibility of future financial aid will not hold the class schedule. Questions concerning the financial aid process may be directed to the Financial Aid Office at 325-942-2246 or 800-933-6299.

Students with an account balance of $100 or more by the end of the semester in which it is due will have their account sent to a collection agency for collection. The student will be responsible for all additional fees associated with the collection of the amount due. These collection fees will be in addition to any late fee assessed to the account.

Payment Options

A student may pay for tuition and mandatory fees for the fall and spring semesters by one of two methods: payment in full or payment in four installments. A student selecting the four payment installment plan that has made a payment or received a credit to their account may not be removed from the plan. However, the full amount due plus the applicable fee may be paid in full at any time. All available financial aid awarded to a student will be applied toward the full amount due to the university before the installment payments are scheduled. The installment option is not available for the summer semesters.

The installment plan consists of four payments of 25% of the tuition, fees, and room and board charges, if applicable. A fee for enrolling in the plan will be charged. Initial installments may also be due depending on the time of enrollment in the plan. Students making an installment payment after the due date will be assessed a late fee.

During the add/drop period, students adding courses on the installment program will be required to pay 25% of the full cost for the additional courses at the time the courses are added. Students dropping hours will pay installments on the basis of semester credit hours for which they are currently enrolled. Any refund will be applied toward the installment payments still due. Students officially withdrawing from the university must pay all tuition and fees owed at the time of withdrawal.

Short Term Loans

Emergency loans in varying amounts are available to students on a limited basis with a minimal service charge assessed. A separate application is required for each term and the plan does not include balances due for housing, incidental fees or other institutional charges. Additional information regarding short term loans is available on the website.
### General Payment Information

Payment can be made as follows:

- **In person:** Students can pay in cash at the Student Accounts Office located in the Administration Building, Room 100 between 8am and 5pm Monday through Friday, or by personal check, money order, VISA, MasterCard, American Express or Discover Card. Checks should be made payable to Angelo State University. All payments other than cash are subject to final acceptance for payment.
- **By mail:** Cash should not be sent through the mail and Angelo State University accepts no responsibility for cash sent by mail. Payments may be mailed to ASU Student Accounts Office, ASU Station #11046, and San Angelo, TX 76909.
- **By web – students:** Pay online using RamPort. VISA, MasterCard, American Express, Discover Card and e-check accepted.
- **By web – parents:** When a student adds a parent as a web pay authorized user, the parent will receive a confirmation email. Once the parent has been added, the parent will receive notification emails when payments are due for the student’s bill. The email contains a link that allows a payment to be made.

**Return Check Charge:** A fee will be assessed for each check or e-check returned from the bank unpaid. A return check or e-check for the initial payment of tuition and fees may result in cancellation of enrollment. Responsibility rests with the students regardless of the maker of the check.

### Refund Policy

Change in class schedule. Any refund as a result of a class change will be processed and distributed within 40 days after the drop period has ended for the semester or term. The class change refund amount will be in accordance with the following schedule:

**Fall or Spring Semester**

- Prior to the 1st class day: 100%
- During the 1st through 3rd class days: 75%
- During the 4th through 6th class days: 50%
- After the 3rd class day: None

**Summer terms**

- Prior to the 1st class day: 100%
- During the 1st through 3rd class days: 75%
- During the 4th through 6th class days: 50%
- After the 3rd class day: None

**Withdrawal from the university.** Withdrawal from the university is defined as leaving the university for the remainder of the semester and being officially removed from all courses. This includes students withdrawing from the university at their request or those who have been withdrawn due to university action. Students must contact the Office of the Registrar to complete the withdrawal process. Students who do not complete the withdrawal process by the appropriate deadline will be assigned a grade in each of their classes. Students officially withdrawing from the university may be eligible for a refund of tuition and fees according to the following schedule. (Class days indicated below is defined by the official university calendar, not the individual students’ calendar.)

**Fall, Spring, or Summer term of 10 weeks or longer**

- Prior to the first class day: 100%
- During the 1st through 5th class days: 80%
- During the 6th through 10th class days: 70%
- During the 11th through 15th class days: 50%
- During the 16th through 20th class days: 25%
- After the 20th class day: None

**Term or session of five weeks but less than 10 weeks**

- Prior to the first class day: 100%
- During the 1st through 3rd class days: 80%
- During the 4th through 6th class days: 50%
- After the 6th class day: None

**Term or session of five weeks or less**

- Prior to the 1st class day: 100%
- During the 1st class day: 75%
- During the 2nd class day: 50%
- After the 2nd class day: None

Financial aid recipients who officially withdraw from the university and those who are determined to have unofficially withdrawn due to receiving “Fs” in all courses in which he/she was enrolled for the semester or term will be subject to the Federal Return of Title IV refund calculation. This calculation will determine the amount of awarded aid the student earned and the amount of awarded aid the student did not earn and must be returned to the aid program(s).

### Exemptions and Waivers

All exemptions and waivers have been authorized by statute in the Texas Education Code or through action of the Board of Regents of the Texas Tech University System. Angelo State University reserves the right, without notice in this or any other publication, to change, amend, add to, or alter any or all exemptions and waivers subject to and in accordance with actions of the Texas State Legislature and/or the Board of Regents.

A complete list of waivers and exemptions offered by Angelo State University can be found at the Current Students website. For additional information, contact the Student Accounts Office at 325-942-2008 or 877-942-2008.

### Statement on Refunds

Angelo State University has adopted and published in the Student Handbook “Grievance and Appeal Procedures for Students at Angelo State University.” In cases where students or parents feel that individual circumstances warrant exceptions from published policy regarding charges or refunds at Angelo State University and where such matters are not satisfactorily resolved, the matter may be appealed by completing a tuition appeal form. The appeal must be submitted to the University no later than 90 days after the end of the term in which the occurrence happened.

### $1,000 Tuition Rebates

The purpose of this program is to provide tuition rebates that will provide a financial incentive for students to prepare for their university studies and complete their baccalaureate studies with as few courses outside the degree plan as possible. This program is authorized by the Texas Education Code, Section 54.0065.

The major conditions the student must meet to qualify for this program are as follows: (1) they must have enrolled for the first time in an institution of higher education in the fall 1997 semester or later, and (2) they must have attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree.

These are the major conditions to qualify for this program. ASU students must complete a Request for Tuition Rebate form in the Registrar’s Office during the semester in which graduation is anticipated. For complete details about this program, please contact the Registrar’s Office.
Angelo State University Tuition Rebate for Undergraduates

Information regarding the tuition rebate program at Angelo State University is published in the University Catalog.

Upon initial enrollment at Angelo State University, advisors will inform first-time freshmen or new advisees of the tuition rebate program so they will be aware the program exists. Upon submission of an application for graduation, the respective dean’s offices will remind students of this program, the deadlines for applying and where the appropriate forms can be obtained, if not given out from their offices.

Students may obtain the required application for tuition rebate from the Registrar’s Office along with a copy of the Texas Education Code that created this benefit, if they so desire. Referral to the University Catalog for additional information is relayed to students as well. The application for tuition rebate is required prior to students receiving their baccalaureate degree and is to be turned in only during the semester the student intends to graduate. Any applications made prior to the semester of, or after graduation conferral will be considered invalid and will not be processed. Once students have officially graduated, their eligibility for the rebate is determined. Students will be informed of the tuition rebate decision within and no later than 60 days following graduation. Students who do not meet eligibility for the tuition rebate will be notified by letter which will include the reason(s) for award denial. Those that meet eligibility requirements will receive a check from Angelo State University, or if outstanding loan obligations to the University are owed, the Bursar’s Office will notify the student that the award amount has been applied to said financial obligation. Any excess not applied to loan obligations will be awarded to the students.

Disputes regarding the tuition rebate will be directed first to the office overseeing the process. If resolution is not found there, the appeal process will be taken to the appropriate Director, Dean or Vice Presidential level which will have final say on the appeal. Angelo State University will follow the guidelines set forth by both the Texas Legislature and the Texas Higher Education Coordinating Board.

Texas Education Code
§Sec. 54.0065. Tuition Rebate for Certain Undergraduates.

A. A qualified student is eligible for a rebate of a portion of the undergraduate tuition the student has paid if the student:
   1. is awarded a baccalaureate degree from a general academic teaching institution within:
      a. four calendar years after the date the student initially enrolled in the institution or another postsecondary educational institution if:
         (i) the institution awarding the degree is a four-year institution; and
         (ii) the student is awarded a degree other than a degree in engineering, architecture, or any other program determined by the coordinating board to require more than four years to complete; or
      b. five calendar years after the date the student initially enrolled in the institution or another postsecondary educational institution if:
         (i) the institution awarding the degree is a four-year institution; and
         (ii) the student is awarded a degree in engineering, architecture, or any other program determined by the coordinating board to require more than four years to complete; and
   2. has attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree program:
      a. including:
         (i) transfer credits; and
         (ii) course credit earned exclusively by examination, except that, for purposes of this subsection, only the number of semester credit hours earned exclusively by examination in excess of nine semester credit hours is treated as hours attempted.; and
      b. excluding:
         (i) course credit that is earned to satisfy requirements for a Reserve Officers’ Training Corps (ROTC) program but that is not required to complete the degree program; and
         (ii) course credit, other than course credit earned exclusively by examination, that is earned before graduating from high school.

B. The amount of tuition to be rebated to a student under this section is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution of higher education awarding the degree was less than $1,000, in which event the amount of tuition to be rebated is an amount equal to the amount of undergraduate tuition paid by the student to the institution. However, a student who paid the institution awarding the degree an amount of undergraduate tuition less than $1,000 may qualify for an increase in the amount of the rebate, not to exceed a total rebate of $1,000, for any amount of undergraduate tuition the student paid to other institutions of higher education by providing the institution with proof of the total amount of that tuition paid to other institutions of higher education.

C. A student who has transferred from another institution of higher education shall provide the institution awarding the degree an official transcript from each institution attended by the student in order that the period during which the student has been enrolled in a general academic teaching institution and the total number of hours attempted by the student can be verified.

D. To qualify for a rebate under this section, the student must have been a resident of this state and entitled to pay tuition at the rate provided by this chapter for a resident student at all times while pursuing the degree.

E. All institutions of higher education shall notify each first-time freshman student of the tuition rebate program.

F. The institution awarding the degree shall pay the rebate under this section from local funds.

G. If a student entitled to a rebate under this section has an outstanding student loan, including an emergency loan, owed or guaranteed by this state, including the Texas Guaranteed Student Loan Corporation, the institution shall apply the amount of the rebate to the student’s loan. If a student has more than one outstanding loan, the institution shall apply the amount of the rebate to the loans as directed by the student or, if the student fails to provide timely instructions on the application of the amount, the institution shall apply the amount of the rebate to the loans according to priorities established by the coordinating board. If the amount of the rebate exceeds the amount of the loan indebtedness, the institution shall pay the student the excess amount.

H. The legislature shall account in the General Appropriations Act for the rebates authorized by this section in a way that provides a corresponding increase in the general revenue funds appropriated to the institution. It is the intent of the legislature that rebates authorized
by this section shall be financed by savings to the state resulting from reductions in the number of courses taken by undergraduate students.

I. The coordinating board, in consultation with the institutions of higher education, shall adopt rules for the administration of this section, including a rule to allow an otherwise eligible student to receive a rebate under this section if the student is not awarded a baccalaureate degree within the period required by Subsection (a)(1) solely as a result of a hardship or other good performance. The performance of active duty military service by a student shall be recognized as "good cause" for purposes of this section.

### Tuition Rebate for Certain Undergraduates

**Authorized by Section 54.0065 of the Texas Education Code**

**Chapter 13. Financial Planning**

**Subchapter E. Tuition Rebates for Certain Undergraduates**

**THECB Rules and Regulations**

#### §13.80 Purpose

The purpose of this program is to provide tuition rebates that will provide a financial incentive for students to prepare for university studies while completing their high school work, avail themselves of academic counseling, make early career decisions, and complete their baccalaureate studies with as few courses outside the degree plan as possible. Minimizing the number of courses taken by students results in financial savings to students, parents, and the state.

**Source Note:** The provisions of this §13.80 adopted to be effective May 21, 2001, 26 TexReg 3627.

#### §13.81 Authority

The program is authorized by Texas Education Code, §54.0065.

**Source Note:** The provisions of this §13.81 adopted to be effective May 21, 2001, 26 TexReg 3627.

#### §13.82 Eligible Students

To be eligible for a rebate under this program, a student must:

1. have enrolled for the first time in an institution of higher education in the fall 1997 semester or later,
2. request a rebate for coursework related to a first baccalaureate degree received from a general academic teaching institution;
3. have been a resident of Texas as set forth under Chapter 21, Subchapter B of this title (relating to Determining Residence Status) and have been entitled to pay resident tuition at all times while pursuing the degree;
4. if enrolled for the first time in fall 2005 or later, graduate within four calendar years for a four-year degree or within five calendar years for a five-year degree if the degree is in architecture, engineering, or any other program determined by the Board to require more than four years to complete; and
5. have attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree under the catalog under which the student graduated.

(A) Hours attempted include:

- (i) transfer credits;
- (ii) course credit earned exclusively by examination (except that, for the purposes of this program, only the number of semester credit hours earned exclusively by examination in excess of nine semester credit hours is treated as hours attempted);
- (iii) courses dropped after the official census date;
- (iv) optional internship and cooperative education courses;
- (v) repeated courses.

(B) Hours attempted shall not include:

- (i) course credit that is earned to satisfy requirements for a Reserve Officers’ Training Corps (ROTC) program but that is not required to complete the degree program;
- (ii) course credit, other than course credit earned exclusively by examination, that is earned before graduating from high school; and
- (iii) courses dropped for reasons that are determined by the institution to be totally beyond the control of the student.

(C) For students concurrently earning a baccalaureate degree and a Texas teaching certificate, required teacher education courses shall not be counted to the extent that they are over and above the free electives allowed in the baccalaureate degree program.

**Source Note:** The provisions of this §13.82 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective December 3, 2003, 28 TexReg 10756; amended to be effective November 22, 2005, 30 TexReg 7729; amended to be effective November 29, 2011, 36 TexReg 8014.

Effective for students who enroll for the first time in fall 2005 or later, an otherwise eligible student may be eligible for a tuition rebate without satisfying the requirements of §13.82(4) of this title (relating to Eligible Students), if the student is awarded a baccalaureate degree and the institution determines that the student has demonstrated a hardship under the policy required by §13.85(g) of this title (relating to Responsibilities of Institutions).

**Source Note:** The provisions of this §13.83 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective November 22, 2005, 30 TexReg 7729.

#### §13.84 Amount of Tuition Rebates

(a) The amount of tuition to be rebated to a student under this program is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution awarding the degree was less than $1,000, in which event the amount of tuition to be rebated is an amount equal to the amount of undergraduate tuition paid by the student to the institution.

(b) A student who paid the institution awarding the degree an amount of undergraduate tuition less than $1,000 may qualify for an increase in the amount of the rebate, not to exceed a total rebate of $1,000, for any amount of undergraduate tuition the student paid to other Texas public institutions of higher education by providing the institution awarding the degree with proof of the total amount of that tuition paid to other institutions.

(c) Tuition rebates shall be reduced by the amount of any outstanding student loan, including an emergency loan, owed to or guaranteed by this state, including the Texas Guaranteed Student Loan Corporation. If a student has more than one outstanding student loan, the institution shall apply the amount of the rebate to the loans as directed by the student. If the student fails to provide timely instructions on the application of the amount, the institution shall apply the amount of the rebate to retire the loans with the highest interest rates first.

**Source Note:** The provisions of this §13.84 adopted to be effective May 21, 2001, 26 TexReg 3627.
§13.85 Responsibilities of Institutions

(a) Institutions of higher education shall include information regarding this program in the institution's catalog.

(b) If requested by potentially eligible students, institutions of higher education shall provide these students opportunities to enroll during each fall and spring semester in the equivalent of at least 12 semester credit hours that apply toward their degrees. Institutions are not required to provide students with the opportunity to enroll in specific courses or specific sections. Public two-year colleges will comply to the extent that courses for the current semester are being offered that apply to the student's baccalaureate degree program. The requirement may be met by allowing substitutions for required courses or by allowing concurrent enrollment in courses from another institution, so long as the courses are taught on the students' home campus and the students incur no financial penalty.

(c) General academic teaching institutions shall provide students with appropriate forms and instructions for requesting tuition reimbursement at the time that students apply for baccalaureate degrees.

(d) Institutions shall provide tuition rebates to students who apply within 60 days after graduation or provide the student with a statement explaining the reason the student is ineligible for the rebate.

(e) Institutions shall provide a dispute resolution process to resolve disputes related to local administration of the program.

(f) Disputes related to lower division credit transfer shall be resolved in accordance with Coordinating Board rules, §4.27 of this title (relating to Resolution of Transfer Disputes for Lower-Division Courses).

(g) Institutions shall establish policies and procedures for allowing otherwise eligible students to qualify for tuition rebates under this program, if the student receives a baccalaureate degree and demonstrates that the failure to comply with §13.82(4) of this title (relating to Eligible Students) was caused by a hardship condition. The policies and procedures shall include, but shall not be limited to, the following conditions:

   (1) a severe illness or other debilitating condition that may affect the student’s academic performance;
   (2) an indication that the student is responsible for the care of a sick, injured, or needy person and that the student’s provision of care may affect his or her academic performance; or
   (3) performance of active duty military service.

(h) Institutions may adopt policies and procedures for administering the program. For example, institutions may require students to declare their intent to qualify for a tuition rebate early in their careers or register prior to the beginning of the semester.

Source Note: The provisions of this §13.85 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective November 22, 2005, 30 TexReg 7729.

§13.86 Responsibilities of Students

(a) Students desiring to qualify for tuition rebates are responsible for complying with all rules and regulations related to administration of the program.

(b) Students desiring to qualify for tuition rebates are solely responsible for enrolling only in courses that will qualify them for the rebates.

(c) A student who has transferred from another public or independent institution of higher education is responsible for providing to the institution awarding the degree official transcripts from all institutions attended by the student.

(d) Students must apply for rebates prior to receiving their baccalaureate degrees on forms provided by the institution and must keep the institution apprized of their addresses for at least 60 days after their graduation date.

Source Note: The provisions of this §13.86 adopted to be effective May 21, 2001, 26 TexReg 3627; amended to be effective November 22, 2005, 30 TexReg 7729.

§13.87 Source of Funding

Tuition rebates shall be paid from institutional local funds. However, the enabling legislation provides that the Legislature shall account in the General Appropriations Act for the rebates in a way that provides a corresponding increase in the general revenue funds appropriated to the institution.

Source Note: The provisions of this §13.87 adopted to be effective May 21, 2001, 26 TexReg 3627.

Rules and Regulations for Determining Residence Status for Tuition Purposes General Rules

Residency for Tuition

The determination of residency classification for tuition purposes is governed by statutes enacted by the Texas Legislature and rules and regulations promulgated by the Texas Higher Education Coordinating Board. A student is classified either as a resident of Texas or a non-resident of Texas, for tuition purposes. Residency classification, for tuition purposes, is based on the residency information an applicant provides on their application for admission. If an applicant or student is classified as a non-resident and wishes to be considered for reclassification as a resident, it is necessary to submit the Residency Reclassification Questionnaire available from the Office of Admissions or online on the Residency website. Documentation may be requested by the institution in order to resolve issues raised by the information provided in response to the Core Residency Questions.

The Texas Higher Education Coordinating Board rules include the following provisions covering some of the more common residency situations. The following information is neither exhaustive nor complete and should not be interpreted as such. Full regulations are available at the Office of the Secretary of State - Texas Administrative Code website and also on the College for All Texans website.

Determination of Residence Status

I. The following persons shall be classified as Texas residents and entitled to pay resident tuition:

A. a person who graduated from a public or accredited private high school in this state or received the equivalent of a high school diploma in this state, and maintained a residence continuously in this state for the thirty-six months immediately preceding the date of graduation or receipt of the diploma equivalent, as applicable; and the 12 months preceding the census date of the academic semester in which the person enrolls in an institution.

B. a person who established a domicile in this state not less than 12 months before the census date of the academic semester in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic semester in which the person enrolls in an institution.

C. a dependent whose parent established a domicile in this state not less than 12 months prior to the census date of the academic semester in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months...
Tuition and Fees

The following non-U.S. citizens may establish a domicile in this state for the purposes of subsection (f) (A) or (B) of this section:

A. a Permanent Resident;
B. a person who is eligible for permanent resident status (a person who has filed an I-485 application for permanent residency and has been issued a fee/filing receipt or notice of action by USCIS showing that his or her I-485 has been reviewed and has not been rejected);
C. an eligible nonimmigrant that holds one of the approved types of visas. A complete list is available on the Coordinating Board website.
D. a person classified by the USCIS as a Refugee, Asylee, Parolee, Conditional Permanent Resident, or Temporary Resident;
E. a person holding Temporary Protected Status, and Spouses and Children with approved petitions under the Violence Against Women Act (VAWA), an applicant with an approved USCIS I-360, Special Agricultural Worker, and a person granted deferred action status by USCIS;
F. a person who has filed an application for Cancellation of Removal and Adjustment of Status under Immigration Nationality Act 240A(b) or a Cancellation of Removal and Adjustment of Status under the Nicaraguan and Central American Relief Act (NACARA), Haitian Refugee Immigrant Fairness Act (HRIFA), or the Cuban Adjustment Act, and who has been issued a fee/filing receipt or Notice of Action by USCIS; or
G. a person who has filed for adjustment of status to that of a person admitted as a Permanent Resident under 8 United States Code 1255, or under the “registry” program (8 United States Code 1259), or the Special Immigrant Juvenile Program (8 USC 1101(a) (27)(J)) and has been issued a fee/filing receipt or Notice of Action by USCIS.

The domicile of a dependent’s parent is presumed to be the domicile of the dependent unless the dependent establishes eligibility for resident tuition under subsection (a)(1) of this section.

A domicile in Texas is presumed if, at least 12 months prior to the census date of the semester in which he or she is to enroll, the person owns real property in Texas, owns a business in Texas, is married to a person who has established a domicile in Texas, or is employed in Texas. Gainful employment other than work-study and other such student employment can also be a basis for establishing a domicile.

The temporary absence of a person or a dependent’s parent from the state for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, U.S. Department of State, as a result of an employment assignment, or for educational purposes, shall not affect a person’s ability to continue to claim that he or she is a domiciliary of this state. The person or the dependent’s parent shall provide documentation of the reason for the temporary absence.

The temporary presence of a person or a dependent’s parent in Texas for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense or service with the U.S. Department of State, or as a result of any other type of employment assignment does not preclude the person or parent from establishing a domicile in Texas.

For a complete listing of waiver programs, visit the THECB website or the College for All Texans website.

A person who is classified as a nonresident may qualify to pay resident tuition if:

- The student or student’s spouse or parent is a member of the Armed Forces or a commissioned officer of the Public Health Service and is stationed in Texas. (Military and Public Health Service personnel who maintain their official home of record as Texas or who meet the criteria for establishing a domicile in Texas are considered to be Texas residents.)
- The student is employed at least half-time as a teaching or research assistant in a position related to his/her degree program at a Texas public institution of higher education. The spouse and dependent his/her children of the student shall also pay resident tuition.
- The student or student’s spouse or parent is employed at least half-time on a regular monthly salaried basis as a teacher or professor at a Texas public institution of higher education.
- The student holds an approved competitive scholarship from Angelo State University of at least $1000 for the academic year or summer awarded by an official Angelo State University scholarship committee.
- The student or student’s spouse or parent has located in Texas as an employee of a business or organization that became established in this state as part of the state economic development and diversification program.
- The student is a New Mexico resident who resides in a county bordering Texas. Students must be residing in Texas while enrolled.
- The student is an Oklahoma resident who resides in a county bordering Texas. Students must be residing in Texas while enrolled.

The original determination concerning the residency of a student shall be made by the Residency Determination Official. The determination in every case shall be based upon the Rules and Regulations for Determining Residence Status as adopted by the Coordinating Board, Texas College and University System.

Should the student not agree with the determination of his/her residency status, the student may appeal the decision to the Residence Status Appeals committee. This committee will review both sides of the matter in reaching a final decision. The student will be allowed to present the basis of his/her appeal of the decision.

The decision of the committee shall be final.
The Angelo State University residence hall system includes a variety of living options and provides convenient and affordable housing for approximately 2,100 students. Centennial Village and Texan Hall offer private bedrooms; Plaza Verde, Mary Massie, and Robert Massie Halls feature double occupancy rooms with private bath. Carr is arranged with double occupancy rooms and suite bath, while Vanderventer apartments are traditional apartments with two double occupancy bedrooms adjoined by a bath, a shared living room and full kitchen. Special interest housing (Honors and Living Learning Communities) provides students with the opportunity to live with others of similar interests. Texan Hall is home to our Honors floor which houses students participating in the Honors program. Plaza Verde features three Living Learning Communities for students majoring in Agriculture or Geosciences as well as for students who are participants in the First Generation Living Community.

An experienced and trained staff, including area coordinators, a student hall director, and resident assistants, manages the daily operations in each hall. Professional staff is available Monday through Friday during business hours. Hall desk hours will be posted at the beginning of each semester. Hall staff is available by phone 24 hours a day, 365 days a year. The on-call phone number is posted in each hall. The residence hall staff provides mentoring, guidance, programming, and student involvement opportunities as well as assistance to residents with concerns, including maintenance requests, room and roommate assignments, and resource information. Additionally, the Living Learning Communities have community leaders who serve as peer mentors for that cohort. The interests of students living on campus are promoted through programming and leadership opportunities.

**On-Campus Housing Requirements**

The university requires students enrolled in 12 or more semester credit hours who are not residents of Tom Green County to live in the university residence halls for the first year, two long semesters, of enrollment regardless of total credit hours. Students enrolled in fewer than 12 semester credit hours may live on campus with permission from the Director of Housing and Residential Programs. On-campus students are required to carry a meal plan unless they reside in Vanderventer apartments or secure permission from the Director of Housing and Residential Programs. Compliance with the university housing policy is a condition of enrollment. Institutional research suggests that students who live on campus are significantly more inclined to remain in college and achieve higher GPAs in comparison to students living off campus. Compliance with the university housing policy is a condition of enrollment, as set forth in the Student Handbook and the academic catalog and approved by the Texas Tech University Board of Regents.

Requests for exemptions from the on-campus housing requirements must be submitted, with proper supporting documentation, to the Housing and Residential Programs Office no later than August 15 for the fall semester and January 10 for the spring semester. Exceptions to these deadlines will be considered on a case-by-case basis by the Associate Director for Operations.

**Housing Information and Regulations**

The following categories are eligible for an exemption to this policy upon making a formal request to the Office of Housing and Residential Programs:

1. Students living within 70 miles of San Angelo, Texas, at the full-time established residence of a parent, guardian, grandparent or sibling.
2. Students who are at least 21 years of age prior to the beginning of the subsequent fall or spring semester.
3. Student who have lived in university owned or operated housing for two (2) continuous long semesters. Transfer students who have completed two (2) continuous long semesters will be exempted.
4. Students who have at least 6 months of active duty military service.
5. The student is married or has dependent children.
6. The student presents sufficient evidence of an extreme financial hardship.
7. A student presents sufficient evidence, as documented by his/her physician, of an extreme medical condition directly related to living on campus and, for which on-campus accommodations cannot be made.
8. Students not meeting any of the above exemption categories who desire to live off campus must submit a special circumstances exemption request to the Office of Housing and Residential Programs. Special circumstances must clearly demonstrate a unique or compelling reason why the student cannot be accommodated in on-campus housing options.

A university housing committee is available to review the decisions of the Office of Housing and Residential Programs when an appeal is made by a student whose request for exemption has been denied. Students wishing to appeal should phone or email the Office of Housing and Residential Programs at 325-942-2035 or housing@angelo.edu. The student’s exemption materials will be forwarded to the Vice President for Student Affairs and Enrollment Management who will call a meeting of the Exemption Committee. The student will be notified by the Office of the Vice President for Student Affairs and Enrollment Management about the date and time of the meeting (typically within one (1) week of the appeal request). Students will be given the opportunity to attend the meeting and to present their appeal. A representative from Housing and Residential Programs will attend the beginning of the meeting to review the Housing Policy with the committee, and will leave before the student presents their appeal. The Housing Appeals Committee will make a decision and the student will be notified via email of that decision within one (1) business day of the appeal meeting.

In conjunction with the university’s support of academic integrity, evidence of deliberate falsification of information, data, or any materials submitted, or providing false or erroneous information in connection with an application for exemption from the on-campus housing requirement will be grounds for disciplinary action. Such action may include, but is not limited to, revocation of a previously approved exemption, restitution of up to a semester’s room fees, probation or suspension from the university.

**Housing Reservations**

Residence halls, like other services and facilities of Angelo State University, are available to all students regardless of race, creed, national origin, age, sex, or disability. Application for admission to the university and application for residence hall accommodations are separate transactions. To apply for housing at Angelo State University, students must first be admitted to the university. Students are encouraged to apply for housing as soon as they are notified of their admission status and have Campus Identification (CID) and PIN numbers. Please note that there is a $100 non-refundable applica-
Housing Information

tion fee. More detailed information concerning the facilities and offerings of campus residence halls can be obtained on our website or by contacting the Housing and Residential Programs Office, ASU Station #11016, San Angelo, TX 76909, or by calling 325-942-2035 (email address: housing@angelo.edu). To complete the housing application, follow the instructions on the Housing and Residential Programs website.

Registered sex offenders are not permitted to live in university-owned housing, which includes the university residence halls. Information submitted is subject to verification.

Students entering in the fall semester will have the opportunity to reserve specific room assignments. This process begins after current students have completed room assignment selections for the upcoming year. Spaces that are not reserved by current students will be available during the selection stage for new freshmen and transfer students. Housing assignments are then made based upon the date and time of application. Students have the opportunity to request specific halls and roommates. This process is called a Roommate Request Lottery. Please see our website for a detailed
time line of the Roommate Request Lottery.

Housing and Residential Programs strives to keep all residents healthy, informed, and safe. All residents living in the halls are required to comply with the meningitis requirement of the university. For more information visit the ASU Bacterial Meningitis website.

Because it is necessary to assign new residents to spaces made available when a limited number of students vacate at the end of the fall term, students entering the residence halls for the spring semester may only request online a residence hall preference instead of a specific room. Room assignments for spring applicants will be made to available spaces based upon the date Housing and Residential Programs receives the completed housing application.

Students with mobility or hearing impairments should notify Housing and Residential Programs. Rooms designed to accommodate wheelchairs/scooters or with visual door bell and emergency alert systems are available in Centennial Village, Mary Massie, Plaza Verde, Robert Massie, and Texan Hall.

Students should notify Housing and Residential Programs if cancellation of the application becomes necessary. Information relating to cancellations is included in the contract and may be found on our website.

Room and Dining Plan

Room and dining plan fees are billed on a semester basis and are included on the same billing account as tuition and fees. Payments must be made in accordance with the established payment due dates and amounts provided on the billing. You will not receive a paper bill by mail. You may view and/or print your bill via RamPort on the Financial Aid and Billing page. If payments are not made by the established due date, a late fee will be assessed. For assistance, contact the Student Accounts Office at 325-942-2008. For questions about specific charges for room and dining plans, contact Housing and Residential Programs at 325-942-2035.

Rates for room and board are based on a per-person charge and are established by the Texas Tech University Board of Regents. Please visit our website for current room and board rates.

Refunds

Refunds are granted for room and board after the Director of Housing and Residential Programs receives proper clearance from the appropriate residence hall. All refunds are prorated on a daily basis. Students should receive their refunds within thirty days from the University Student Accounts Office. All requests for refunds must be submitted in writing by the published deadlines. Refunds are subject to the terms and conditions of the Student Housing Contractual Agreement.
Student Financial Assistance

The offices of Student Financial Aid and Scholarship Programs collaboratively provide comprehensive financial assistance to students seeking a higher education. The financial assistance offered at Angelo State includes scholarships, grants, employment, and loans. Assistance is awarded to students on the basis of financial need, merit, and other specific program eligibility requirements. Need is defined as the difference between the cost of attending Angelo State, the family’s contribution as determined by the Free Application for Federal Student Aid (FAFSA), and the amount of money reasonably available to the student from all sources.

The philosophy of Angelo State University is based on the premise that deserving and capable students who wish to attend the University should not be deprived of this opportunity due to financial need. No student or prospective student shall be excluded from participating in or be denied the benefits of any financial aid program at Angelo State on the grounds of race, color, national origin, religion, or sex. Although qualifications required for each financial aid program may differ, the general requirements for financial assistance at Angelo State are that the student must be admitted and enrolled for at least one-half the normal academic load, be in good academic standing with the university, and demonstrate need as determined by the FAFSA. Visit the FAFSA website for more information.

Blue and Gold Guarantee Program
Angelo State University has a long history of providing access to residents of the State of Texas, regardless of the economic means of their families. The University is committed to ensuring that students can afford to choose Angelo State University.

Angelo State University has committed scholarship funds to cover fall and spring in-state tuition and fees for undergraduate Texas residents who have an annual family income of $40,000—the median income level for our region—or less, along with other requirements. This commitment began in fall 2009 and is known as the “Blue and Gold Guarantee!”

The Blue and Gold Guarantee is designed to reassure academically talented students from low- and middle-income families in Texas who may not feel that a university education is possible. Please contact the Scholarship Programs Office or visit the Scholarship Programs page of the ASU website for specific information and eligibility requirements.

Carr Academic Scholarships
The Carr Academic Scholarship Program is one of the largest scholarship endowments at a regional university in the United States. During the 2017-2018 academic year, ASU students received over $8,100,000 in Carr Scholarships. Names for ASU benefactors Robert G. and Nona K. Carr, the scholarships are awarded based on high school GPA and ACT/SAT and can be renewed each year by students who maintain the academic criteria. Carr Academic Scholarships benefit almost one in three ASU students. Visit the Carr Academic Scholarships website.

Types of Financial Assistance

Scholarships
Scholarships do not have to be repaid, and you can have more than one at a time. Generally, scholarships are awarded to students who meet special qualifications, often determined by academic or athletic success or artistic talent. Scholarships are also given to students who are part of an underrepresented group, while others are offered based on students’ academic area of study. Visit the Scholarship Programs website.

Grants
Grants are awarded based on need and do not have to be repaid. Federal, state, and institutional grants are available. Visit the Grants website.

U.S. Department of Veterans Affairs (VA) Educational Benefits
New or transferring veteran, active duty or reserve service member, or eligible dependent students should apply for VA educational benefits through the Veteran Affairs website, vets.gov or an eBenefits account. The VA will return a Certificate of Eligibility letter to the student. New and transfer students must send their Joint Service Transcript (JST) or Community College of the Air Force (CCAF) transcript to the ASU Transfer Services office, and provide a copy of the Certificate of Eligibility letter. Guest students will need to provide a parent letter from their educational institution’s School Certifying Official.

If a student needs assistance applying for VA Educational Benefits, please visit the Angelo State University Veterans Education and Transitional Service (VETS) Center located on the north side of the Houston Harte University Center. Please visit our VETS Center website.

Points of Contact. Telephone: 325-486-8387 / FAX: 325-942-2080
Email: VETS@angelo.edu

Employment
Federal and state work-study jobs are awarded to students with documented financial need. On-campus employment options are also available for students who are not eligible for work-study. Visit the Employment website.

Many student jobs can be found at the Career Development website.

Loans
The long-term loans available include student loans, such as the Federal Direct Stafford loan, parent loans, such as Federal PLUS loans, and private student loans, also known as alternative educational loans. Emergency short-term loans are also available. Visit the Loans website.
Student Financial Assistance

Applying for Financial Assistance

Information, instructions, and forms may be obtained by contacting the Financial Aid Office or by visiting the financial aid section of the ASU website. Approval for admission or readmission to the university must be secured as a regular student and the evaluation of any transfer hours from the Admissions Office or the College of Graduate Studies and Research to complete the application process.

Students are strongly encouraged to review the terms and conditions of financial aid and to direct questions to the Financial Aid Office concerning eligibility criteria, terms, rights, privileges, cost of attendance, refund policy for aid recipients, method of financial aid payment. Information handbooks are available upon request.

Satisfactory Academic Progress (SAP) Policy

The Higher Education Act of 1965, as amended, mandates institutions of higher education to establish policies to monitor the academic progress of students who apply for and/or receive federal financial aid. Angelo State University (ASU) makes its minimum standards applicable to all federal, state, and institutional financial aid programs for the purpose of maintaining a consistent policy for all financial aid applicants.

Students requesting financial aid must have their eligibility determined each year. Aid can be awarded to students who continue to demonstrate a financial need for assistance and who remain in good standing and are making satisfactory progress in accordance with the Angelo State University Satisfactory Academic Progress Policy. Visit the SAP Policy website for more information.

Though this policy establishes the minimum standards for all financial aid programs at ASU, individual aid programs may have unique qualitative and/or quantitative standards specific to the program as mandated by law or the program’s governing entity. Such programs include, but are not limited to, the Carr scholarship program, and the TEXAS Grant Program. Information concerning the minimum standards of such programs is available in the Financial Aid Office. More information may be found at the Carr Scholarship Requirements website and the College for All Texans website.

Vincent Memorial “The Quest”

President Lloyd D. Vincent was the longest serving president in the history of the institution. During his tenure as president starting in 1967, ASU’s enrollment had more than doubled from 2,556 in 1967 to more than 6,200 by 1994. By the time he had announced his impending retirement in 1995, he had served ASU as president for more than 26 years. But, while attending a board of regents meeting in Alpine in August of 1994, he suffered a stroke and died. Dr. Vincent had literally given his life to and for Angelo State University. His passing truly marked the end of an era.

To honor his memory, members of the ASU family and the community raised funds for a memorial that was dedicated adjacent to the University Mall at Johnson Street. The sculpture was the creation of San Angelo College graduate and renowned artist Lincoln Fox. “The Quest,” as Fox named the memorial, features an American Eagle swooping over a stack of books and lifting with his claw a partially opened book skyward.

Said the sculptor, “It is through education that man is able to soar beyond the shackles of ignorance and misconception, into a new life of freedom and accomplishment. It is the freeing of man’s imagination that allows his spirit to fly.”

The soaring eagle has a nine-foot wingspan and rests atop an obelisk that brings the monument’s height to 20 feet. The memorial with its bronze plaque bearing the likeness of Vincent honors not only the man but also the heights to which he took the university.

B. Minors
Minors for degrees may be chosen from the disciplines listed in the undergraduate academic major category with the exception of agribusiness, food animal science and marketing, interdisciplinary studies, international business, management information systems, natural resource management, and nursing. Minors for B.B.A. degrees may be chosen from all areas except the Business Administration minor. See page 177 for minor information.

1. The following may also be selected as a single area minor.
   - Agricultural Economics
   - Astronomy
   - Business Administration
   - Coaching Preparation
   - Creative Writing
   - Cybersecurity
   - Education
   - Film Studies
   - Food Science
   - French
   - Gender Studies
   - German
   - Journalism
   - Leadership Studies
   - Linguistics
   - Mexican American Studies
   - Professional Education
   - Public Relations
   - Range and Wildlife Management
   - Reading *
   - Russian
   - Technical Writing

2. The following may be used as part of a multiple area minor only.
   - Aerospace Studies
   - Geography
   - Physical Science

V. Non-Degree Programs
Pre-Veterinary Medicine
Pre-Pharmacy

VI. Certificates
- Abstract Mathematics (page 118)
- Agricultural Communication (page 62)
- Applied Communication (page 62)
- Applied Mathematics (page 118)
- Applied Statistics (page 118)
- Computer Game Development (page 108)
- Corporate Communication (page 62)
- Creative Writing: Fiction Concentration (page 68)
- Creative Writing: Poetry Concentration (page 68)
- Cybersecurity (page 58)
- Cybersecurity Technologies (page 108)
- Emergency Management (page 58)
- Gerontology (page 49)
- Human Development (page 46)
- Human Diversity (page 46)
- Media Production (page 62)
- Mental Health: Problems and Prevention (page 46)
- Organizational Psychology (page 46)
- Public Relations/Advertising (page 62)
- Technical Writing (page 68)
- Terrorism and Counter-Terrorism Studies (page 58)
- Web and Mobile Development (page 108)
- Youth Development Leadership (page 37)

* The Reading minor is available for the B.I.S. degree by special permission of the department chair of Teacher Education.
Teacher Certification Content Areas

VII. Undergraduate Certification Programs
A. Elementary Certifications - Early Childhood to Grade 6
   EC-6 Generalist
   EC-6 Generalist with EC-12 Special Education

B. Middle School Certifications - Grades 4 to 8
   4-8 English Language Arts and Reading *
   4-8 Generalist
   4-8 Mathematics *
   4-8 Mathematics-Science *
   4-8 Science *
   4-8 Social Studies *

C. Secondary Certifications
   6-12 Agriculture, Food and Natural Resources
   7-12 Chemistry *
   8-12 Computer Science *
   7-12 English Language Arts and Reading
   7-12 History
   7-12 Journalism (Mass Media)
   7-12 Life Science (Biology)
   7-12 Mathematics
   7-12 Mathematics-Physics *
   6-12 Physical Science *
   7-12 Social Studies
   7-12 Speech (Communication)
   EC-12 Technology Applications *

D. All-Level Teacher Certifications - Early Childhood to Grade 12
   Art *
   French *
   German *
   Music
   Physical Education *
   Spanish
   Theatre

E. Supplemental Certifications
   English as a Second Language *
   Special Education Supplemental Certification

F. Additional Certification
   Post-Master’s
   Principal
   Superintendent

Post-Baccalaureate
Graduates with a Bachelor’s degree may obtain a teaching certificate in content areas. Consult with the Certification Advisor in the Educator Preparation Information Center located in Carr-EFA 287 or call 325-942-2209.

* These certification areas are no longer offered in a degree format. Students interested in obtaining certification in these areas may do so in a post-baccalaureate program. You may contact the Educator Preparation Information Center (325-942-2209) for information and assistance.
Academic Organization

Archer College of Health and Human Services

Dean: Dr. Leslie M. Mayrand
Office: Health and Human Services Building, Room 202
Telephone: 325-486-6258, Fax: 325-942-2631
E-Mail: CHHS@angelo.edu

The Archer College of Health and Human Services offers professional education in the health and human service disciplines. The College consists of the following group of departments and professional programs: Department of Health Science Professions, Department of Kinesiology; Department of Nursing; Department of Physical Therapy; Department of Psychology and Sociology, and Department of Social Work.

Through the integration of research, education, and evidenced-based practice, the Archer College of Health and Human Services assists students in developing competence in professional practice as well as becoming leaders in their professions, organizations, and communities. The College values a sound general education that enables students to develop analytical, creative thinking and to make well-founded ethical decisions. We offer a variety of undergraduate and graduate degrees and certificate programs. Our graduates pursue advanced degrees, or enter a variety of practice, research, and administrative roles in the health and human services fields to preserve and promote the well-being of individuals, groups, and communities.

For more information about our outstanding programs, please stop by the dean’s office in the Health and Human Services building or call 325-486-6258.

Departments and Programs

Students in the Archer College of Health and Human Services may pursue studies in the following departments.

Department of Health Science Professions
Program of Study in Health Science Professions
B.S.H.S.P. Health Science Professions with Specialization Areas
- Healthcare Administration
- Physical Therapy and Allied Health Professions
- Public Health

Department of Kinesiology
Programs of Study in Kinesiology
B.S. Exercise Science with Specialization Area
- Athletic Training
B.S. Kinesiology
M.Ed. Coaching, Sport, Recreation, and Fitness Administration

Department of Nursing
Programs of Study in Nursing
B.S.N. Nursing (Generic Option)
M.S.N. Family Nurse Practitioner
M.S.N. Nurse Educator

Department of Physical Therapy
Program of Study in Physical Therapy
D.P.T. Physical Therapy

Department of Psychology and Sociology
Programs of Study in Psychology
B.A. Psychology
B.S. Psychology
M.S. Applied Psychology
M.S. Counseling Psychology
M.S. Experimental Psychology
M.S. Industrial-Organizational Psychology

Programs of Study in Sociology
B.A. Sociology
B.S. Sociology

Department of Social Work
Program of Study in Social Work
B.S.W. Social Work
M.S.W. Social Work
## Health Science Professions

The Bachelor of Science degree in Exercise Science with Athletic Training specialization (hereafter referred to as AT specialization) is dedicated to the academic and clinical preparation of the athletic training student for an entry-level position in the field of athletic training. An athletic trainer is a qualified allied health care professional with knowledge and experience in health related problems associated with athletic participation.

**Electives**

Electives .................................................. 20-21

The Athletic Training Specialization requires rigorous academic success in the courses listed above to be successful in passing the state licensure exams by the Advisory Board of Athletic Trainers and the Texas Department of Licensing and Regulation. Minimum grade of “C” is required in all listed courses in the major as well as Biology 2323/2123, Biology 2324/2124, Health Science Professions 2301/2101, 2302/2102, or their equivalent. Because C-required courses are considered to be critical courses in this specialization, if a student earns a grade of “D” or “F” in one or more of these courses he/she may want to consider the reason for this unsatisfactory performance. If his/her performance relates to lack of interest and/or ability, he/she may want to consider the appropriateness of this specialization for their academic program.

* Admission to the Athletic Training specialization is required to complete KIN 3345, 3346, 4330, 4345, and 4346.

### Mission Statement

The AT specialization provides the academic and clinical education requirements for athletic training students to meet guidelines for state licensure by the Advisory Board of Athletic Trainers and the Texas Department of State Licensing and Regulations. We strive to provide the best opportunities for all athletic training students to succeed by providing quality instruction, supervision, and a variety of clinical experiences. The AT specialization will strive to provide the most efficient and effective treatments available to help prevent and manage athletic related injuries or illnesses for student athletes. Treatment of injuries and illnesses will be based on sound medical and rehabilitative principles in conjunction with consideration of personal and team goals based on physician recommendations and protocols.
**Specialization Design**

The Department of Kinesiology will offer a 4 year program of study leading to a Bachelor of Science in Exercise Science with a specialization in Athletic Training. Courses in the specialization of athletic training will be taken in a specific sequence with advising from the Department of Kinesiology. Clinical rotations include, but are not limited to, sport assignments with ASU athletic teams, high schools, sports medicine clinics, and team physicians.

The Bachelor of Science in Exercise Science with AT specialization is set to meet the requirements to be able for the Texas Department of State Licensing and Regulations Athletic Training Licensure Examination. These requirements include:

1. A Person shall hold a baccalaureate or post-baccalaureate degree which includes at least 24 hours of combined academic credit from each of the following course areas:
   - Human Anatomy
   - Health, disease, nutrition, fitness, wellness, emergency care, first aid, or drug and alcohol education
   - Kinesiology or Biomechanics
   - Physiology of Exercise
   - Athletic Training, Sports Medicine, or Care and Prevention of Injuries
   - Advanced Athletic Training, Advanced Sports Medicine, or Assessment of Injury
   - Therapeutic Exercise or Rehabilitation or Therapeutic Modalities

2. A person must have completed an apprenticeship program in athletic training that:
   - Consists of 1800 clock hours completed in college or university intercollegiate sports programs
   - Is based on the academic calendar
   - Is completed during at least five fall and/or spring semesters
   - Is completed while enrolled as a student at a college or university for at least 1500 of the 1800 clock hours

3. All applicants must hold current certification in adult cardiopulmonary resuscitation (CPR) or current certification for emergency medical services (EMS) with the Department of State Health Services.

4. Applicants must successfully complete the Texas Athletic Trainer Written Examination and Texas Athletic Trainer Practical Examination.

5. **Technical Standards**

   Angelo State University is committed to the principle that no qualified student with a disability, shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments Act of 2008 (ADAAA), and subsequent legislation.

   Candidates for selection to the AT specialization must demonstrate the following standards:

   1. The mental capacity to assimilate, analyze, synthesize, integrate concepts and engage in problem solving so as to formulate assessment and therapeutic judgements and to be able to distinguish deviations from the norm.

   2. Have sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely and efficiently use equipment and materials during the assessment and treatment of patients.

   3. Have the ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgements and treatment information effectively. Students must be able to understand and speak the English language at a level and consistent with competent professional practice.

   4. Have the ability to record the physical examination results and a treatment plan clearly and accurately.

   5. Have the capacity to maintain composure and continue to function well during periods of high stress.

   6. Have the perseverance, diligence, and commitment to complete the athletic training program as outlined and sequenced.

   7. Have the flexibility to adjust to changing situations and uncertainty in clinical situations.

   8. Have affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.
Admission Policies and Procedures

A prospective student interested in pursuing an athletic training specialization must fill out an application online. The applicant must meet all regular ASU admission requirements prior to submitting an application for athletic training specialization.

I. Admission Requirements for Athletic Training
   A. High school graduate: a graduate from an accredited high school will be eligible for admission to ASU Athletic Training specialization when all admission requirements have been met.
      - Admission to Angelo State University
      - Application to AT specialization
   B. Transfer student: a transfer student from an accredited college and /or university will be eligible for admission to ASU Athletic Training specialization when all admission requirements have been met.
      - Admission to Angelo State University
      - Application to AT specialization
      - Official transcripts of all college and/or university course work
      - Cumulative 2.00 GPA on all college and/or university course work

II. Requirements for Application Selection
   A. Application: a program application can be completed by visiting the Athletic Training tab on the ASU Athletics website. The prospective student’s file must contain the following:
      - Completed application
      - List of three references
      - Immunization records (verification or declination of Hepatitis B vaccine)
      - Volunteer/Observation hour verification
   B. Selection Process: a student is eligible for selection to the program after having completed the application file. Candidates will be selected on a basis of transcript evaluation, volunteer/observational hours, ACT/SAT test scores, and overall GPA. All transfer students must possess a cumulative 2.00 GPA on all prior college and/or university course work. The program will accept no more than 20 students per year.

Unsafe Clinical Practice

The nature of athletic training is such that students are involved in the direct delivery of student-athlete health care. The primary purpose of any program is to provide educational opportunities for students. However, when direct student-athlete health care is involved in the learning experience, the safety and well-being of patients, clients, and student-athletes is of paramount concern. Athletic training experiences are structured so that as a student progresses through the program they will demonstrate increasing independence and competence in providing athletic training services.

A student whose performance in a clinical internship is judged to be unsafe by the Athletic Training Staff, based upon established standards for student-athlete and patient care, may be dismissed from the program at any time.

Students will be allowed due process as established by the University policies and procedures following course failure or program dismissal. Pending a final determination of the case, the status of the student may be restricted both didactically and clinically for reasons of the safety or well-being of persons or property as determined by the President of the University.

Certificate Available in Kinesiology

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a "C" in each required class. 25% of all course work for certificates must be taken in residence.

Certificate - Youth Development Leadership
(12 SCH required)

The following 6 SCH are required.

KIN 1304 Principles of Wellness ........................................3
KIN 3301 Youth Development in Context .........................3
Select 6 SCH from the following:

KIN 3352 Motor Skill Acquisition .................................3
KIN 4343 Adapted Physical Activities..........................3
KIN 4356 Methods of Teaching Physical Activities ..........3

Kinesiology Minor

Kinesiology 1304, 3333, 3360, and nine additional hours of kinesiology.

Coaching Preparation Minor

Kinesiology 3321, 3352 or 4363, 3360, 4301, 4361, and 4380.

Pre-Physical Therapy

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy department is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

Angelo State University offers the Bachelor of Science in Nursing (B.S.N.) degree, and the Master of Science in Nursing (M.S.N.) degree.

The Department of Nursing at Angelo State University offers unique career mobility in its programs. A Bachelor of Science in Nursing is awarded upon satisfactory completion of the generic bachelors program. Graduates of the generic B.S.N. program are eligible to take the National Council Licensure Examination-Registered Nurse (NCLEX-RN) for licensure to practice as a Registered Nurse (RN).

Registered Nurses holding the Bachelor of Science in Nursing degree may be eligible for admission to the Master of Science program, refer to “Master of Science in Nursing (M.S.N.)” in the Graduate Catalog for eligibility requirements. Upon successful completion of the program, the student is awarded the Master of Science in Nursing degree.

Mission

The nursing program supports the overall mission of Angelo State University by offering graduate and undergraduate nursing programs that produce professionals committed to improving the health of individuals, groups, and communities both locally and globally. As practitioners and educators, our graduates effectively lead and advocate for safe, high-quality health care that respects diversity and is responsive to a dynamic and technologically complex society.

Vision

We will be recognized as visionary leaders committed to delivering innovative nursing education that promotes optimal patient outcomes.

Philosophy

We believe nursing is a unique, caring, scientific, practice discipline built upon a solid foundation of knowledge in the liberal arts and sciences. Each level of nursing education expands upon prior knowledge and competency through the integration of research-based evidence. Our programs produce competent, compassionate, and skilled nurses prepared to meet the healthcare needs of a global society.

We believe the nurse delivers person-centered care as a member of the interprofessional team utilizing therapeutic partnerships and patient advocacy that emphasizes health promotion, health restoration, and disease prevention.

We believe in student-centered, adult learning principles and providing a supportive, engaging educational environment facilitating personal and professional growth for leadership and lifelong learning.

We believe lifelong learning is nurtured in an environment of mutual respect and shared responsibility for the development of clinical reasoning, ethical conduct, and personal accountability.

Initial Licensure Nursing Programs

The Bachelor of Science in Nursing (B.S.N.) Generic Option is accredited by the Commission on Collegiate Nursing Education (CCNE) and has full approval status from the Texas Board of Nursing.

Texas Board of Nursing
333 Guadalupe, Ste. 3-460
Austin, TX 78701-3944
Telephone: 512-305-7400
Fax: 512-305-7401
http://www.bon.state.tx.us/

Commission on Collegiate Nursing Education (CCNE)
655 K. Street NW, Suite 750
Washington, DC 20001
Telephone: 202-887-6791
Fax: 202-887-8476
http://ccneaccreditation.org/

The Department of Nursing strictly adheres to the Texas Board of Nursing Rules and Regulations Relating to Professional Nurse Education, Licensure and Practice. Because of the dynamic nature of the profession of nursing, and consequently nursing education, the Texas Board of Nursing may make changes to these rules and regulations as the need arises. In order to remain in compliance with these rules and regulations, the Department of Nursing reserves the right to make changes to information presented in the current ASU Catalog as necessary, and communicate these changes on the departmental website. Currently enrolled and prospective students are responsible for checking the ASU nursing website for the most current information. In addition, all students enrolled in nursing courses must have a working ASU e-mail address. The Angelo State University e-mail address is the only recognized e-mail address used by the Department of Nursing. Notification of changes to the catalog will be communicated via e-mail.

The most current Nursing Student Handbooks are available, and may be downloaded, from the departmental website. These handbooks are reviewed and updated annually. However, the Department of Nursing reserves the right to make (upload) changes to these documents when necessary. Students will be notified of any changes by e-mail.
A student who meets university graduation requirements, successfully completes the prescribed nursing curriculum, and satisfies nursing exit exam requirements, will receive the Bachelor of Science in Nursing degree. Upon approval by the Texas Board of Nursing, the student will be eligible to take the National Council Licensing Examination for Registered Nurses (NCLEX-RN). Upon successful completion of this licensing exam, the graduate will receive the designation of “Registered Nurse (RN)”. Bachelor of Science in Nursing graduates could be eligible to pursue graduate study leading to the Master of Science in Nursing degree.

**Bachelor of Science in Nursing Degree (B.S.N.) Generic Option**

(120 semester hours)

The Bachelor of Science in Nursing (B.S.N.) Generic Option degree is fully accredited by the Commission on Collegiate Nursing Education (CCNE) and has full approval status from the Texas Board of Nursing. Upon approval by the Texas Board of Nursing, the student will be eligible to take the National Council Licensing Exam for Registered Nurses (NCLEX-RN).

Admission to the Initial Licensure Programs

(Generic B.S.N. Degree)

The student pursuing the Bachelor of Science (generic option) in Nursing degree must apply to the Department of Nursing for admission to the Nursing Program. This is a separate application process from application to the university. Admission to the university does not guarantee admission to the B.S.N. program.

Physical/Mental Performance/Admission/Progression Policy

In order to accomplish the objectives of the program, students must be able to meet and maintain the following performance requirements:

- Visual acuity with corrective lenses to identify cyanosis, absence of respiratory movement in patients, and to read small print on medication containers, physician’s orders, monitors, and equipment calibrations.
- Hearing ability with auditory aids to understand the normal speaking voice without viewing the speaker’s face and to hear monitor alarms, emergency signals, call bells from patients, and stethoscope sounds originating from a patient’s blood vessels, heart, lungs, and abdomen.
- Physical ability to stand for prolonged periods of time, perform cardiopulmonary resuscitation, lift patients, and move from room to room or maneuver in limited spaces.
- Ability to communicate effectively in verbal and written form. Ability to speak clearly and succinctly when explaining treatment procedures, describing patient conditions, and implementing health teaching. Ability to write legibly and correctly in patient’s chart for legal documentation.
- Manual dexterity to use sterile techniques and insert catheters. Prepare and administer medications such as IVs, POs, and IMs.
- Ability to function safely under stressful conditions, adapting to ever-changing clinical situations involving patient care.

Eligibility for RN Licensure

The Texas Board of Nursing (BON) licenses Registered Nurses in accordance with very strict guidelines. The BON requires that a person complete a nursing education program at an accredited college. Also, the BON has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. A person may petition the BON for a declaratory order as to the person’s eligibility for license if the person is enrolled or planning to enroll in an educational program that prepares a person for an initial license as a registered nurse. Answering “yes” to any of the following questions will necessitate a person to petition for a Declaratory Order. More information may be found on the BON website.

Have you ever been cited or charged with any violation of the law? Have you been convicted, adjudged guilty by a court, pled guilty, no contest or nolo contendere to any crime in any state, territory or country, whether or not a sentence was imposed, including any pending criminal charges or unresolved arrest (excluding minor traffic violations). This includes expunged offenses and deferred adjudications with or without prejudice of guilt. Please note that DUIs, DWIs, PIs must be reported and are not considered minor traffic violations.

- Do you have any criminal charges pending, including unresolved arrests?
- Has any licensing authority refused to issue you a license or ever revoked, annulled, cancelled, accepted surrender of, suspended, placed on probation, refused to renew a professional license, certificate or multistate privilege held by you now or previously, or ever fined, censured, reprimanded or otherwise disciplined you?
- Within the past five (5) years have you been addicted to and/or treated for the use of alcohol or any other drug?
- Within the past five (5) years have you been diagnosed with, treated, or hospitalized for schizophrenia and/or psychotic bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder?

Admission Criteria and Selection

Admission to the Generic B.S.N. program is highly competitive. For a candidate to be considered in the selection process for admission, a fully completed application packet is due to the Department of Nursing on or before February 15 for fall admission and September 15 for spring admission. Applications will not be considered complete, and will not be evaluated, until all the following required information has been submitted. Submission of documents to the Department of Nursing is the responsibility of the applicant. Incomplete applications will not be considered in the selection process.

Meeting pre-acceptance requirements does not guarantee admission to the Generic B.S.N. program.
B.S.N. Pre-Acceptance Requirements:

I. You must apply to the university before applying to the B.S.N. program. All requirements for regular admission to Angelo State University must be met.

II. Completion, or enrollment in, the following prerequisite courses:
A. Biology 2323/2123 - Human Anatomy and lab, Biology 2324/2124 - Human Physiology and lab; or Health Science Professions 2301/2101 - Human Anatomy and Physiology I and lab, Health Science Professions 2302/2102 - Human Anatomy and Physiology II and lab.
B. Chemistry 1306/1106 - Chemistry for Health Professions and lab.
C. Communication 1315 - Public Speaking.
D. General Studies 1181 - Freshman Seminar.
E. English 1301 - English Composition, English 1302 - Writing Across the Curriculum or English 2311 - Introduction to Technical and Business Writing.
F. Health Science Professions 4315 - Human Nutrition and Dietary Supplementation.
G. History 1301 - History of the United States to 1865 and 1302 - History of the United States, 1865 to Present.
H. Language, Philosophy, and Culture:
   Cultural Competence 2323, English 2321, 2322, 2323, 2326, 2329, 2331, 2341, History 2311, 2312, 2322, Philosophy 1301, 2306.
I. Mathematics 1314 - College Algebra or 1324 - Finite Mathematics I or 1332 - Introduction to Contemporary Mathematics or 1342 - Elementary Statistics.*
J. Nursing 2324 - Pathophysiology.
K. Nursing 2411 - Microbiology for Health Professionals.
L. Political Science 2305 - Federal Government and 2306 - Texas Government.
M. Psychology 2315 - Psychology of Adjustment or 2301 - General Psychology, and 2304 - Developmental Psychology.
N. Statistics: Health Science Professions 4337 - Statistical Techniques for Health Science Professionals or Mathematics 3321 - Statistics or Psychology 2321 - Research Methods and Statistical Analysis or Mathematics 1342 - Elementary Statistics.*
O. 3 semester credit hours of Creative Arts.

III. Minimum grade of "C" in all required mathematics, nursing, and science courses.

IV. 500-600 word Personal Statement addressing the three following questions:
A. How has your life experiences shaped who you are today? Include any activities such as community, volunteer, military, healthcare, etc. that you feel make you a strong candidate.
B. How do you see yourself contributing to the profession of nursing?
C. Why should you be admitted to this program?

V. A minimum cumulative grade point average (GPA) of 2.50 on all previous college work.

VI. Submit ASU Department of Nursing Student Immunization Record form. (Form can be found on the website).

VII. Submit proof of current health insurance.

VIII. TEASV nursing entrance assessment.

IX. Copy of permanent resident card for non-citizens.

X. Official TOEFL scores for international applicants.

Selection Process

A number of factors, including regulatory agencies’ requirements, availability of clinical sites, and university resources dictate the number of candidates who can be accepted into the B.S.N. program. Because the number of applications exceeds the number of candidates that can be accepted into the program, each complete application submitted by the deadline of February 15 for fall and September 15 for spring, meeting the above pre-acceptance requirements, will be evaluated by a faculty committee utilizing an objective scoring system. Points are awarded in a number of areas including:

- non-nursing curriculum course work grade point average (GPA),
- number of non-nursing semester credit hours completed with a “C” or better,
- 500-600 word Personal Statement addressing the three following questions:
  - How has your life experiences shaped who you are today? Include any activities such as community, volunteer, military, healthcare, etc. that you feel make you a strong candidate.
  - How do you see yourself contributing to the profession of nursing?
  - Why should you be admitted to this program?
- grades in pre-requisite science courses,
- number of withdrawals and failures on transcripts.

Top scoring candidates will be accepted into the B.S.N. program and will receive written notification by March 15 for fall and October 1 for spring. These candidates must complete and return the acceptance form by the stated deadline date or their position will be forfeited. After this date, all applicants not accepted will need to submit a new application form to be considered for the next required nursing course sequence.

Technical Requirements

The Department of Nursing at Angelo State University recommends students have high-speed, broadband (cable modem or Digital Subscriber Line) Internet connection. While not required, subscription to a broadband service will improve the speed of delivery. Students taking online courses should have access to a computer that meets the minimum requirements listed in the Undergraduate Nursing Student Handbook.
The following standards must be maintained by each nursing student in order to progress in the Generic Bachelor Degree Nursing Program:

- Completion of Texas Board of Nursing criminal background check process prior to clinical assignments.
- Proof of current health insurance.
- Compliance with all rules and regulations outlined in the Undergraduate Nursing Student Handbook and the current Angelo State University Catalog.
- Successful completion of each required nursing course with a grade of “C” or higher.
- An overall grade point average of 2.00 or better on the 4.00 scale.
- Current CPR certification.
- Validation of Texas Department of Health immunization requirements for students enrolled in health related courses must be on file in the departmental office prior to clinical assignments.
- Ability to meet requirements of area health agencies related to criminal background checks, and other screenings (e.g. drug) that may be required of specific agencies.
- Demonstration of safe performance in the clinical laboratory at all times.
- Adherence to the Code of Ethics of the American Nurses Association.
- Compliance with all rules and regulations of the current Nurse Practice Act of the State of Texas when in the performance of duties in the Nursing Program.
- Compliance with the Angelo State University Honor Code.

Should a nursing student be dismissed for failure to maintain any of these standards, the student may appeal the dismissal to the Dean of the Archer College of Health and Human Services through the Chair of the Department of Nursing.

**Unsafe Clinical Practice**

The nature of clinical nursing practice is such that students are involved in the direct delivery of patient care services. The primary purpose of any course is to provide education for students. However, when direct patient care is involved in the learning experience, the safety and well-being of patients are also of paramount concern. Nursing clinical experiences are structured so that as students progress through the program, they are expected to demonstrate increasing independence and competence in providing nursing care.

Students are expected to demonstrate achievement of clinical objectives by the end of a clinical course. In the unusual circumstance that, in the instructor’s professional judgment, a student is unable to provide safe nursing care to patients as delineated in Standards of Professional Nursing Practice (BON, latest edition) and, if this deficit is such that the nursing faculty agree it cannot be remedied in the given clinical time within the limits of available faculty supervision, the student will be removed from the clinical setting and will receive a grade of “F” in the course.

**Uniform Policies and Additional Nursing Program Requirements**

Each student is expected to conform to the ASU Dress Code for the Department of Nursing as outlined in the Undergraduate Nursing Student Handbook. The Angelo State University nursing uniform and name tag may be worn only in the classroom, the clinical laboratory, or for activities associated with the Nursing Department.

Additional costs above tuition and fees are involved in nursing programs. Uniforms, equipment, instruments, health insurance, special testing costs and transportation to clinical facilities are the student’s responsibility. Nursing education requirements must take precedence over student’s outside employment. Students may be assigned to clinical experiences during day, evening or weekend hours. The Nursing Department reserves the right to change assigned days and times of clinical sections as required by clinical agencies. Clinical agencies may require additional health examinations, drug screening, dress codes or conformity with other policies. Student’s will be informed in advance of such requirements.

A student will be considered unsatisfactory if clinical experiences reflect negative performances, lack of preparation or absence.

- A student with unsatisfactory clinical preparation/performance may be removed from the clinical site and sent to the department’s learning resource lab for further study and preparation.
- Inability to calculate medication dosages can result in remediation and a possible clinical unsatisfactory.
- A pattern of three or more clinical “unsatisfactories” may result in the student failing the clinical portion of the course, and as a result, receive a failing grade for the course.
- A student with excessive clinical absences (as determined by the faculty team) will be considered unsatisfactory, resulting in failure of the clinical portion of the course.
Standards for Readmission to the Generic B.S.N. Program

Students who have an interruption in the normal progression of their nursing studies as a result of withdrawal from a nursing course, earning a grade lower than “C” in a required nursing course, or not being in compliance with other progression standards outlined on page 42 will no longer be enrolled in the Nursing Program. The B.S.N. Admission, Progression, and Graduation Committee consider grievances and appeals for readmission on an individual basis utilizing the following standards:

• All applicants must have a minimum grade point average (GPA) of 2.50 or better on a 4.00 scale to be considered for readmission.
• Readmission to the Nursing program will be allowed only upon the recommendation of the nursing faculty. Recommendation of the faculty will be based upon potential success for program completion and on the National Council Licensing Examination for RN. Refer to the Undergraduate Nursing Student Handbook for more detailed information about this procedure.
• The nursing faculty may stipulate that the applicant repeat a specified course or courses as a condition for readmission to the nursing program.
• Readmission is on a “space available” basis.
• Readmission applicants will be required to perform skills and successfully complete a readmission assessment at the program level of readmission at the semester level preceding course failure.
• Deadline for readmission application to fall term is June 15, and December 15 for spring readmission.
• A student is allowed only one readmission to the nursing program. This one readmission negates future readmissions, except in EXTREME circumstances warranting approval of the Department Chair and the Dean of the Archer College of Health and Human Services.

- Psychology 2301……………………………………………………………..3
- Psychology 2321, 3321, 4321…………………………………………..9
- Psychology 2304, 2319, 3303, 3307, 4301, 4303, 4305, 4309, 4313………………………………15
- Psychology (must be advanced if needed to total 18 advanced hours in major or 36 total advanced hours)………………..3

**Major Support Courses**
- Biology 1306/1106, 1307/1107, 1308/1108, 1309/1109, 2323/2123, 2324/2124, or Health Science Professions 2301/2101, 2302/2102……8
- Chemistry, Physical Science, Physics ………………………………..6
- General Studies 1181…………………………………………………………1

**Core Curriculum**
See page 172 for a listing of core curriculum…………………42
Students should be aware that some majors specify particular courses to meet core-curriculum requirements when options are available.

**Minor**
- Minor (6 hours must be advanced) ……………………………………..18

**Electives**
- Electives (must be advanced if needed to meet the 36 advanced hour requirement)…………………………..27

**Graduation Requirement for the Major**
Candidates for the Bachelor of Arts or the Bachelor of Science degree in Psychology or Sociology are required to successfully complete an exit exam in Psychology or Sociology in order to be eligible for graduation. Students may take this examination after completing all major requirements or in the semester immediately prior to graduation. The exam score will not affect GPA, but will be part of the student’s record.

### Pre-Physical Therapy

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy department is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

### Internship in Psychology

Internships are available during the fall and spring semesters to qualified students who have (a) completed at least 15 credit hours in psychology and (b) have a cumulative GPA of at least 2.50. Upon acceptance as an intern, a faculty coordinator from the Department of Psychology and Sociology will consult with an appropriate representative of a human service agency or entity in the San Angelo area to arrange an internship assignment for the following fall or spring semester. Duties will be performed for the agency or entity under the supervision of the faculty coordinator and an appropriate representative from the field setting. The intern will be evaluated by the faculty coordinator and the field-setting supervisor. Three semester hours of credit will be received for successful completion of 150 clock hours of internship experience, and six semester hours of credit will be received for successful completion of 300 clock hours. A maximum of three of these semester credit hours may be counted toward a major in Psychology. To receive credit toward the major, psychology majors should register for Psychology 4371 or 4671. Students cannot receive credit for both internships. Admission to the internship requires approval by the internship coordinator and the Chair of the Department of Psychology and Sociology. Applications may be obtained in the main office of the Department.
The Bachelor of Social Work (B.S.W.) at ASU is designed to prepare students to work as a generalist social worker. The B.S.W. program at ASU emphasizes the biopsychosocial approach when encountering clients. Students are offered courses that will expose them to biopsychosocial theories of human behavior; assessment and evaluation methods; policy; communication skills, and micro and macro level intervention skills essential in today’s outcome based social service environment. A grade of “C” or above in each required social work course and a minimum of 2.50 in all social work courses is required. Upon graduation, students will be eligible to sit for the Texas State Board of Social Work Examiners Licensing Exam. The B.S.W. program at ASU is accredited through the Council on Social Work Education (CSWE).

* Sophomore Year: Pre-Social Work Students continue to take liberal arts courses, the remainder of the social sciences courses, and the pre-Social Work course (SWK 2307).

** Junior Year: Students who meet admission criteria are admitted to the B.S.W. major. All Freshman and Sophomore courses are completed, except Social Work 3306.

***Senior Year: Internships, Social Work electives, and Social Work Practice III. All required Social Work courses in junior year are completed.

### Academic Minor in Social Work

Students may obtain an academic minor in Social Work which is grounded in the person-in-environment perspective. Courses in the minor provide students with an understanding of people who may require social services. Students are offered courses that will expose them to biopsychosocial theories of human behavior; assessment and evaluation methods; communication skills; and micro and macro level intervention skills essential in today’s outcome based social service environment. This minor is highly applied, structured, and provides exposure to the social work profession.

The Social Work Minor consists of Social Work 2307, 3307, 3315, and 9 semester credit hours from any Social Work advanced electives; and includes a total of 18 semester credit hours of course work. Minimum grade of “C” is required in all social work courses counted toward the minor. A split or dual minor is not available in social work.

Internship In Sociology

Internships are available during the fall and spring semesters to qualified students who have (a) completed at least 15 credit hours in Sociology and (b) have a cumulative GPA of at least 2.50. Upon acceptance as an intern, a faculty coordinator from the Department of Psychology and Sociology will consult with an appropriate representative of a human service agency or entity in the San Angelo area to arrange an internship assignment for the following fall or spring semester. Duties will be performed for the agency or entity under the supervision of the faculty coordinator and an appropriate representative from the field setting. The intern will be evaluated by the faculty coordinator and the field-setting supervisor. Three semester hours of credit will be received for successful completion of 150 clock hours of internship experience, and six semester hours of credit will be received for successful completion of 300 clock hours. A maximum of three of these semester credit hours may be counted toward a major in Sociology. To receive credit toward the major, sociology majors should register for Sociology 4371 or 4671. Students cannot receive credit for both internships. Admission to the internship requires approval by the intern program coordinator and the Chair of the Department of Psychology and Sociology. Applications may be obtained in the main office of the department.

Dean:  Dr. John E. Klingemann
Office:  Carr Education-Fine Arts Building, Room 146
Telephone:  325-942-2162
E-Mail:  CAH@angelo.edu

The College of Arts and Humanities offers a range of degree programs and courses in fine arts and liberal arts. The distinctive, learning-centered environment in the college places students in a community of scholars, where teaching, research, and creative endeavor combine to create a rich educational experience. In this spirit, although the college faculty demonstrate significant achievement in the areas of scholarship, creative endeavor, community engagement, and professional service, teaching is their highest calling.

The courses and programs in the college provide students with the knowledge, skills, and habits of mind to become responsible and productive citizens and leaders. They also provide a solid basis from which students may enter professional fields such as law and medicine.

### Departments and Programs

Students in the College of Arts and Humanities may pursue studies in the following departments.

**Department of Communication and Mass Media**

**Programs of Study in Communication**

- **B.A.** Communication with Specialization Areas
  - Advertising/Public Relations
  - Film and New Media
- **B.A.** Communication with Secondary teacher certification
- **M.A.** Communication

**Programs of Study in Mass Media**

- **B.A.** Mass Media with Specialization Areas
  - Advertising/Public Relations
  - Electronic Media
  - Journalism
- **B.A.** Mass Media with Secondary teacher certification

**Department of English and Modern Languages**

**Programs of Study in English**

- **B.A.** English with Specialization Areas
  - Creative Writing
  - Technical and Business Writing
- **B.A.** English with Secondary teacher certification
- **M.A.** English

**Programs of Study in Spanish**

- **B.A.** Spanish
- **B.A.** Spanish with All-level teacher certification

Applied Arts and Sciences
The Bachelor of Applied Arts and Sciences is designed to be a pathway to baccalaureate degree completion for students who have already completed an associate’s degree from an accredited institution of higher education. The associate’s degree may be in any area, including technical (non-academic) degrees. The specialization may also be chosen from any available area, although selecting a specialization to match the student’s associate’s degree preparation will facilitate entering into the upper division courses required.

NOTE: The B.A.A.S. degree cannot be used in a dual degree.

Bachelor of Applied Arts and Sciences (B.A.A.S.)
(120 semester hours)

Academic courses taken either as part of the associate’s degree or independent of it may apply toward the core curriculum requirements. Associate’s degrees from Texas community colleges include at least 9-15 semester credit hours of academic coursework which may be counted toward the core curriculum requirements. Transferring fewer than twelve hours of academic coursework may extend the degree beyond 120 hours.

For more information, please refer to the Requirements for the Bachelor of Applied Arts and Sciences Degree on page 166 of this Catalog.

AU-ABC Partnership

The B.A.A.S. degree with a specialization in Criminal Justice has been approved by Air University to be included in the AU-ABC program. Degrees in the AU-ABC program allow students to transfer all 60 hours of their Associate Degree from CCAF into the course requirements. Since the B.A.A.S. with a specialization in Criminal Justice requires 120 SCH and all 60 hours from the CCAF degree will be used, the student is only required to complete an additional 60 SCH to complete the B.A.A.S.

The Office of Admissions, in conjunction with the Department of Security Studies and Criminal Justice, will make an exception to standard policy with regard to Community College of the Air Force (CCAF) credits for a CCAF degree-holder. All credits from CCAF associate’s degrees will be accepted and applied toward your degree plan. However, should you choose to change your degree plan, the transfer credits originally accepted and applied may be revoked.
College of Arts and Humanities:  
Department of Visual and Performing Arts

Department Chair: Christopher D. Stewart

Major Support Courses

| Arts 2356 | 3 |
| General Studies 1181 | 1 |

Humanities:

- Cultural Competence 2323, 2321, 2322, 2323, 2326, 2329, 2331, 2341, 2311, 2312, 2322, Honors 2305, Philosophy 1301, 2305, 2306 | 3 |

Core Curriculum

See page 172 for a listing of core curriculum | 42 |

Students should be aware that some majors specify particular courses to meet core-curriculum requirements when options are available.

Electives

| Electives | 17 |

Teacher Certification: Students wishing to pursue all level teacher certification should complete the B.F.A. with an Art Generalist specialization and contact the Educator Preparation Information Center for more information. Minimum course requirements for all level certification in art: ARTS 1302, ARTS 4381, ED 4315, ED 4321, ED 4322, ED 4974, EPSY 3303, RDG 4320. Completion of this course of study may require more than 120 hours.

Specialization Areas

All Bachelor of Fine Arts students are required to select one of the following specialization areas:

**Art Generalist**

| ARTS 3312, 3332, 3362 | 9 |
| ARTS 3323 or 4321 | 3 |
| ARTS 3371 or 3372 | 3 |
| ARTS 4341, 4372 | 6 |
| Advanced Art History | 3 |

**Ceramics**

| ARTS 3312 | 3 |
| ARTS 4371, 4380 | 6 |
| ARTS 3332 (6 SCH with repeat) | 6 |
| ARTS 3333 (6 SCH with repeat) | 6 |
| ARTS 4372 | 3 |

**Graphic Design**

| ARTS 2372 | 3 |
| ARTS 3312, 3371, 3372, 4371 | 12 |
| ARTS 4370 (6 SCH with repeat) | 6 |
| ARTS 4372 | 3 |

**Painting/Drawing**

| ARTS 3312, 3320 | 6 |
| ARTS 3321 or 3322 | 3 |
| ARTS 3323, 4321 | 6 |
| ARTS 4324 | 3 |
| ARTS 4372 | 3 |
| Advanced Art History | 3 |

**Printmaking**

| ARTS 3312 | 3 |
| ARTS 3362 (9 SCH with repeat) | 9 |
| ARTS 4362 (6 SCH with repeat) | 6 |
| ARTS 4372 | 3 |
| Advanced Art History | 3 |

**Sculpture**

| ARTS 3311 or 3312 | 3 |
| ARTS 4341 (9 SCH with repeat) | 9 |
| ARTS 4342 (6 SCH with repeat) | 6 |
| ARTS 4372 | 3 |
| Advanced Art History | 3 |

* Course cannot be repeated if taken in Academic major requirements.

Angelo State University Undergraduate Catalog 2019-2020
Border and Homeland Security

Bachelor of Border Security (B.B.S.)

Border Security
(124 semester hours)

The Bachelor in Border Security (B.B.S.) degree is meant to increase students’ awareness and understanding of current issues in Border Security within the wider realm of Homeland Security. The courses will increase the students’ critical thinking and analytic skills across the diverse fields of Criminal Justice, Criminology, Emergency Management, and associated legal issues.

Core Curriculum

See page 172 for a listing of core curriculum..........................42

Students should be aware that some majors specify particular courses to meet core-curriculum requirements when options are available.

Electives

Electives ..................................................................................50

AU-ABC Partnership

The B.B.S. degree has been approved by Air University to be included in the AU-ABC program. Degrees in the AU-ABC program allow students to transfer all 64 credit hours of their Associate of Applied Science Degree from CCAF into the course requirements. Since the B.B.S. requires 124 SCH and all 64 hours from the CCAF degree will be used, the student is only required to complete an additional 60 SCH to complete the B.B.S. degree.

The Office of Admissions, in conjunction with the Department of Security Studies and Criminal Justice, will make an exception to standard policy with regard to Community College of the Air Force (CCAF) credits for a CCAF degree-holders. All credits from CCAF associate’s degrees will be accepted and applied toward your degree plan. However, should you choose to change your degree plan to a degree other than those specified below, the transfer credits originally accepted and applied may be revoked.

Undergraduate Certificates Available in Border Security

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. 25% of any course work for certificates must be taken in residence.

Certificate - Cybersecurity
(12 SCH required)

<table>

Specialization Areas

Communication specialization areas and certificates are designed to provide students with the opportunity to focus their studies. Communication students may select to complete a certificate or specialization, or may select no specialization in order to study a variety of communication areas within their degree program.

Advertising/Public Relations

Communication 3336 .......................................................3
Communication 3337 .......................................................3
Communication 4335 .......................................................3
Communication 4337 .......................................................3

This specialization area requires Communication 1337, 2303, and 2344, and the student is encouraged to take Mass Media 1318 or 2345 as an elective as part of the skills level coursework at the lower level.

Film and New Media

Communication 3361 .......................................................3
Communication 3366 or 4351 ................................................3
Communication 4338 or 4364 ................................................3
Communication 4365 .......................................................3

This specialization area requires Communication 1337 as one of the three courses at the freshman/sophomore level in the major.

* For Film and New Media specialization, students may take COMM 3366 instead of COMM 4351.

**Teacher Certification Grades 7-12 for Non-majors:** A student who is not an English major but chooses English Language Arts and Reading for a certification area must complete 30 SCH from the following courses: 3 hours of a sophomore-level course from 2321, 2322, 2323, 2326, 2331, or 2341, plus 2329, 3330, 3331, 3332, 3333, 3334, 4309, 4321, and 4322. Students may not take 3336, 3351, or 3352 for certification credit.

See the Teacher Certification section of this Catalog page 149 for additional requirements.

**TEXES Eligibility:** To be eligible for approval to take the Texas Examination of Educator Standards (TEXES) in English Language Arts and Reading, Grades 7-12, students must satisfy the applicable State and University minimum requirements as well as the following departmental requirements. Students must have completed English 4321 and 4322 with a grade of *C* or better and must receive departmental approval.

---

* Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 149 or visit the College of Education website.

**Degree and certification requirements will sometimes exceed the 120 semester-credit-hour minimum for a baccalaureate degree.
English

Minors

Minor in English with a specialization in Creative Writing: Non-English majors who choose to minor in English may specialize in creative writing by selecting the following courses: English 1301, 1302, 2341, one additional sophomore literature, 3355 or 3356, and 4376 or 4377.

Minor in English with a specialization in Technical Writing: Non-English majors may specialize in technical writing by completing 18 hours of English, including English 3351 and two additional upper-level technical and business writing courses among 3353, 3354, 4360, 4365, 4367, and 4373.

Graduation Requirement for the English Major

Candidates for the Bachelor of Arts in English must complete a portfolio to be eligible for graduation. Students should submit this portfolio after completing all major requirements or in the semester immediately prior to graduation. The portfolio grade will not affect GPA, but will be part of the student's record.

Undergraduate Certificates

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a "C" in each required class. 25% of any course work for certificates must be taken in residence.

Certificate - Creative Writing: Fiction Concentration

This certificate is designed for students seeking a short sequence of study in fiction writing.

(9 SCH required)

<table>

Developmental Program

Texas Success Initiative (TSI) Requirements. A student who fails to meet the minimum passing standard on the reading and/or writing section of the TSIA must enroll in an appropriate developmental option determined by the Department of English and Modern Languages.* The student must be continuously enrolled in such developmental education until the program is successfully completed. TSI requirements may be satisfied by one of the options specified under Developmental Education page 152.

Developmental Courses

Non-course-based Option. Certain students as determined by the Department of English and Modern Languages may be eligible to participate in non-course-based activities to complete TSI requirements. Contact the department for information about this option.

Course-based Option. Specially designated sections of English 1301 ("T-sections," whose section number begins with a "T") are designed to provide additional support for students who are not TSI complete. Students who are required to participate in developmental activities must enroll in these sections, which are identified by section numbers T10, T20, etc.

English 1301 "T-sections" meet for five hours weekly, although they only count three hours toward a student's bill, course load, and GPA. A passing grade in an English 1301 "T-section" will both complete the student's TSI requirements in reading and writing and also earn the student credit for English 1301.

A student enrolled in an English 1301 "T-section" is also subject to the special provisions regarding class attendance and withdrawals for students who are not TSI complete; see page 152.

120C Developmental English (2-0). A study of the fundamentals of reading and writing that emphasizes concepts basic to both verbal skills. Students receive abundant practice in composition as well as in comprehension and analysis of selected readings.

130C Fundamentals of English (3-2). An intense study of the fundamentals of reading and writing that emphasizes concepts basic to both verbal skills. Students receive abundant practice in composition as well as in comprehension and analysis of selected readings. Satisfactory completion of this course shall be a condition for enrolling in English 1301. (Laboratory activities will supplement classroom instruction. The amount of time required of students in the laboratory will depend on the level of deficiency.)

College-Level Courses

The freshman college-level English program is designed to enable students to achieve proficiency in composition. Proficiency at the college level may be demonstrated by satisfactorily completing English 1301 and 1302 or by achieving credit through examination and passing the writing and reading sections of a State-approved TSI Assessment test.

* The minimum TSI Assessment scores are subject to change without prior notice.

Bachelor of Intelligence and Analysis (B.I.A.)
Intelligence and Analysis
(124 semester hours *)

The Bachelor of Intelligence and Analysis (B.I.A.) degree focuses on the interrelationships among intelligence, policy making, and national security and develops students with the competencies critical to accomplishing the missions of the United States intelligence community and national security enterprises. This program has similar requirements to the B.S.S. in Intelligence and Analysis; however, this program is designed for active duty members of the United States Air Force.

Interdisciplinary Studies

The purpose of the Bachelor of Interdisciplinary Studies (B.I.S.) degree is to provide students the opportunity to apply coursework in multiple fields towards an undergraduate degree. It is well suited for students whose career goals call for training in more than one discipline or who want a breadth of knowledge in several fields rather than a depth of knowledge in a single discipline. For information about the B.I.S. degree contact the College of Arts and Humanities.

NOTE: The B.I.S. degree cannot be used in a dual degree. No more than one business minor may be used as part of the B.I.S. major.

Electives
Electives (24 must be advanced) ...................................................... 41

The B.I.S. degree consists of a multiple discipline academic major, other requirements, and electives totaling at least 120 credit hours. No more than 30 credit hours from any of the business disciplines (accounting, business, business computer information systems, economics, finance, management, and marketing) may be used to fulfill the B.I.S. degree requirements. For the B.I.S. degree, the multiple discipline academic major is comprised of two minors. Any single area minor offered at Angelo State University may be used providing it has no less than eighteen credit hours with at least six of them at the advanced level, with the exception that no more than one business minor (Business Administration, Management, Marketing, Accounting, or Finance) may be used to fulfill the multiple discipline academic major, as this would exceed the 30 credit hour limit for business courses mentioned above.

For more information, please refer to the Requirements for the Bachelor of Interdisciplinary Studies Degree on page 168 of this Catalog.

Multiple Discipline Academic Major

The academic major in the Bachelor of Interdisciplinary Studies requires 36 hours minimum. Any two single area minors offered at Angelo State University-see list below. Multiple-discipline minors are accepted as single area minors. Each minor must have at least eighteen hours with at least six hours in each minor at the advanced level. The multiple-area minor may not be used.

A comprehensive list of minors, including specific minor requirements, is located on page 177.

### Specialization Areas

Mass Media specialization areas are designed to provide students with the opportunity to focus their studies in a particular area of the journalism discipline. However, these specialization areas do not constitute separate academic majors or degree programs. Students who do not wish to select one of the specialization areas should take twelve semester hours of advanced Mass Media courses under the direction of their academic advisor.

* Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 138 or visit the College of Education website.
Modern Languages

French, German, Spanish, Russian and Linguistics

A student who is initiating the study of a modern language at the University will normally begin with French, German, Russian, or Spanish 1301. Students with previous language experience in any of these languages may wish to attempt to earn credit by examination by taking a national test such as the CLEP.

Credit for French, German, Russian, or Spanish will be allowed if the student has not previously earned semester credit hours for any course in the same language. Should credit by examination be awarded for any one of these courses, the student would then want to continue study in the next appropriate course.

Completion of 1301, 1302, 2311, and 2312 is required, unless proficiency is demonstrated by examination or otherwise, before registering for advanced level courses in any of the foreign languages.

Graduation Requirement for Spanish Majors
(With or Without Teacher Certification)

Candidates for the Bachelor of Arts in Spanish (with or without teacher certification) are required to complete all sections of the major field test, written and oral, in order to be eligible for graduation. Students may take this examination during the semester immediately prior to graduation, or after having completed all foreign language requirements for a major.

The oral exam will be a proficiency exam that does not test knowledge of facts, but rather the ability to communicate in the target language. The written examination will consist of a multiple choice test on language, literature and culture, and a composition in the target language.

Students interested in studying English as a Second Language (ESL) should consult with the Chair of the Department of English and Modern Languages.

*Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 149 or visit the College of Education website.

**Literature course (Spanish 4320 or 4324) may not be from the same region as civilization course (Spanish 3342 or 3343).**
College of Arts and Humanities:  
Department of Visual and Performing Arts

Department Chair: Christopher D. Stewart

Faculty: Alvis, Bonenfant, Emmons, Irish, Kelley, Keniston, Lambert, Raines, Rocha, Shipes, Shuey.

Director of Bands Emeritus: Brinson.

Contact Information: Carr Building, Room 138  
Telephone: 325-942-2085, Fax: 325-942-2152  
http://www.angelo.edu/dept/arts/music/

Entrance Audition
Students interested in pursuing a degree in music must declare a major instrument or voice at the time of audition to the program and prior to the beginning of the first semester of music study. Audition dates are published on the Department of Visual and Performing Arts website. Contact the department at 325-942-2085 to schedule an audition and for specific audition requirements.

Students are accepted into the program in two different ways: full acceptance or conditional acceptance. A student who receives full acceptance into the program has all rights and responsibilities of a music major at the time of matriculation. A student who receives conditional acceptance must successfully complete one semester of applied instruction as well as other courses deemed appropriate. Full acceptance of a conditional student will be determined by a faculty committee upon completion of the jury at the end of the conditional semester. A student may be in conditional status for one semester only.

MUSI 1000 Recital Attendance
All music majors must enroll in and successfully complete MUSI 1000 Recital Attendance during each semester of applied study required for the given degree plan.

Transfer Students
All transfer students must audition for entrance to the music program. Transfer students will be placed at the appropriate applied lesson level by the faculty.

Major Ensembles
Music majors enrolled in applied music must concurrently enroll in a major ensemble. Ensemble participation beyond that which is outlined for each semester in the respective degree plan is strongly encouraged. Any ensemble credits taken beyond the degree plan will be considered as electives. Piano majors who seek teaching certification must declare a vocal, wind, percussion, or string track and must complete the required number of lower division and upper division hours in major ensembles.

Major ensembles are defined below:
Wind, Brass, and Percussion students seeking the B.M. with a specialization in Teacher Certification—Instrumental/Piano, the B.A. in Music, or the Minor in Music-Vocal/Instrumental:
- Marching Ram Band, Wind Ensemble, Symphonic Band, or Symphony Orchestra as determined by ensemble directors.

Wind, Brass, and Percussion students seeking the B.M. with a specialization in Applied Performance—Instrumental:
- Wind Ensemble or Symphony Orchestra as determined by ensemble directors.

String students seeking the B.M. with a specialization in Teacher Certification—Instrumental/Piano, B.M. with a specialization in Applied Performance—Instrumental, the B.A. in Music, or the Minor in Music-Vocal/Instrumental:
- Symphony Orchestra

Voice students seeking the B.M. with a specialization in Teacher Certification—Voice, B.M. with a specialization in Applied Performance—Voice, the B.A. in Music, or the Minor in Music-Vocal/Instrumental:
- Concert Choir

Piano students seeking the B.M. with a specialization in Teacher Certification—Instrumental/Piano, the B.A. in Music, or the Minor in Music-Vocal/Instrumental:
- Concert Choir, Marching Ram Band, Wind Ensemble, Symphonic Band, or Symphony Orchestra depending on selected track.
Music

Bachelor of Arts (B.A.)

Music

(120 semester hours)

The Bachelor of Arts degree in music (BA Music) is designed for students who want to study music within the context of a broad, liberal arts education. This degree program applies studies, ensemble participation, and coursework in music theory and music history. The BA in Music degree offers preparation for a variety of careers. Students must select a minor area (18 semester credit hours) outside of music.

* Applied study in the major instrument.
Bachelor of Music (B.M.)

Piano Placement Exam
Incoming B.M. students with a substantial background in piano studies may attempt to test out of all or part of the class piano sequence by taking the Piano Placement Exam prior to the drop/add deadline of their first semester of matriculation. Students who do not pass this exam must take MUSI 1181 during their first semester of study. Students who test out of one or more semesters of class piano must successfully complete 1-3 semester credit hours of elective study in music to complete the required hours in music.

Applied Performance Specialization Areas

Applied Performance - Instrumental or Voice
The B.M. with a specialization in Applied Performance focuses on training the student to perform. This specialization emphasizes the technique, repertoire, pedagogy, and applied performance aspects of the student’s instrument/voice. It features an engaging mix of private instruction, large ensemble and small ensemble experiences, solo performances, and academic coursework in music. Students will declare either a vocal or instrumental emphasis.

* Applied study in the major instrument.
**Teacher Certification Specialization Areas**

**Teacher Certification * - Instrumental/Piano or Voice**
The B.M. with a specialization in Teacher Certification is designed to provide the student with certification to teach music at all public school grade levels in Texas. The student must have been admitted into the Educator Preparation Program and must be currently satisfying admission standards before being allowed to enroll in Education 4315. Students will declare either a vocal or instrumental emphasis.

**Bachelor of Music (B.M.)**
**Music Major with All-level Teacher Certification**
(125 semester hours)

Minors in Music

ASU offers two minors in music: the Minor in Music-Vocal/Instrumental
and the Minor in Music Studies. Music minors enrolled in applied music
must concurrently enroll in a major ensemble. Music minors must complete
MUSI 1211 and 1306 prior to registering for MUSI 3340 and 3341.

Minor in Music-Vocal/Instrumental: Music 1211, 1306, 3340, 3341, four
semesters of major ensemble (lower division), one semester of elective
major ensemble or small ensemble (lower division), and MUAP 1100 (two
semesters)

Minor in Music Studies: Music 1117 or 1180 or 1181, 1211, 1306, 1312,
2311, 3340, 3341.

Students interested in the minor in Music-Vocal/Instrumental must perform
an entrance audition prior to the beginning of their first semester of applied
music study. Contact the department at 325-942-2083 to schedule an audition
and for specific audition requirements.

* Applied study in the major instrument.
** Students must be admitted in the Educator Preparation Program (EPP) to enroll in any
senior-level Education course or Reading 4320. For more information see page 149 or
visit the College of Education website.

Angelo State University offers a major and minor in philosophy. Some of the courses may be used to fulfill the humanities requirement. Philosophy can also be used as an elective in any program.

Why is philosophy good for you? Philosophy is an activity - an effort to ask and attempt to answer all the great questions of life: Does God exist? What kind of person should I be? What makes anything right or wrong? What is the meaning of life? As one philosopher put it, “Philosophy is primarily concerned with what there is in the world, and with what we ought to do about it.” Philosophical training will improve your ability to think clearly and to analyze and evaluate arguments. Philosophy fosters personal and intellectual growth.

Graduation Requirement for Political Science Majors
Candidates for the Bachelor of Arts in Political Science are required to complete a Major Field Test (MFT) in Political Science in order to be eligible for graduation. Students may take this examination after completing all government requirements or in the semester immediately prior to graduation. The exam score will not affect GPA, but will be part of the student’s record.

Political Science Internship
Political Science internships are available to qualified junior and senior students who are majoring in political science and have a minimum GPA of 2.00. If the student is accepted as an intern, an appropriate advanced course designed to prepare the student for intern duties will be taken the semester preceding the internship. During the semester of the internship, duties will be performed in an approved government or political agency, for which up to six semester hours of credit may be received. The student will intern under the supervision of a member of the government faculty, and the work will involve a combination of practical work and research. Application for the internship program must be made the semester before the advanced preparation course is taken. A maximum of six semester hours of credit received for an internship can be credited to the regular requirement of 36 semester hours for a major in political science. The applications can be obtained in the office of the Department of Political Science and Philosophy.

Pre-Law
A student preparing for law school should complete a baccalaureate degree. A major in political science provides excellent pre-law preparation though numerous other majors are acceptable to most law schools. A pre-law student wishing to major in political science should consult the Political Science and Philosophy Department’s pre-law advisor, Dr. Tony Bartl, to be advised on the selection of a minor and electives.

*Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 149 or visit the College of Education website.
The College of Education houses two dynamic departments: the Department of Curriculum and Instruction, and the Department of Teacher Education. Taught by some of the finest teachers at Angelo State University, our programs are diverse and varied. The college offers courses online and the traditional Monday through Friday schedule. Faculty in the college are engaged in exemplary research and a variety of special grant programs.

The Departments of Teacher Education and Curriculum and Instruction offer programs leading to teacher certification at the elementary, middle-school, and high school levels. Professional programs at the Master’s Degree level help prepare school personnel for professional non-teaching positions throughout a public school system. Although students are assigned an academic advisor, all of the faculty advise students and are willing to work with students all the time.

The College of Education has a center for teacher preparation information. The Educator Preparation Information (EPI) Center is located in Carr-EFA 287. The center staff advises all students who seek information about becoming a professional educator. Dedicated professionals can answer questions about becoming a teacher or other school professionals, routes to certification, how to obtain a certificate, how to test, field experience and clinical teaching (student teaching) placements, degree plans, and graduation requirements. Contact the center with questions about becoming a teacher or other school professional.

The faculty in the College of Education are dedicated professionals who prepare individuals for leadership positions in public school, college and university, and public sector positions.

Students are to consult with an Advisor in the Educator Preparation Information Center (EPIC) located in CARR-EFA 287. Visit the College of Education website.

Except for courses used as electives, a grade of “C” or better is required on all course work. A grade point average (GPA) of 2.75 is required. The GPA requirements are subject to change per TEA rules. See page 150.

Minors

Education Minor. The Education minor is eighteen (18) semester credit hours (SCH) selected from the following list. Nine hours must be advanced hours. All prerequisites apply to the courses. An individual completing this minor will not be eligible for Texas teacher certification. Select from Early Childhood 2305, Education 2302, Educational Psychology 3314, Educational Psychology 3303, Reading 2306, Reading 3332, Reading 3335, Reading 3336, Reading 3339, or Special Education 2361.

Professional Education Minor. All prerequisites will apply to the courses. Individuals choosing this minor will have to successfully meet all requirements required for admission to the Educator Preparation Program (EPP) regardless of their degree. These courses, with additional coursework related to Clinical Teaching (Student Teaching), prepare the individual for Texas secondary teacher certification. To become fully certified additional requirements by the state of Texas must be met. Contact the Educator Preparation Information Center Advisor for information about Texas Teacher Certification requirements. Professional Education minor: Educational Psychology 3303, Educational Psychology 3314, Education 4321, Education 4322, Education 4323, and Reading 4320.

* Requires admission to the Educator Preparation Program (EPP) prior to enrolling in any senior-level Education course. See page 149 College of Education Teacher Certification section for detailed information regarding admission to the EPP.
The College of Science and Engineering offers a range of degree programs and courses in mathematics, computer science, agriculture, and natural sciences. The distinctive, learning-centered environment in the college places students in a community of scholars, where teaching, research, and creative endeavor combine to create a rich educational experience. In this spirit, although the college faculty demonstrate significant achievement in the areas of scholarship, creative endeavor, community engagement, and professional service, teaching is their highest calling.

The courses and programs in the college provide students with the knowledge, skills, and habits of mind to become responsible and productive citizens and leaders. They also provide a solid basis from which students may enter professional fields such as law and medicine.

**Departments and Programs**

Students in the College of Science and Engineering may pursue studies in the following departments.

**David L. Hirschfeld Department of Engineering**

Program of Study in Civil Engineering
- B.S.C.E. Civil Engineering
- B.S.M.E. Mechanical Engineering

**Department of Agriculture**

Programs of Study in Agriculture
- B.S. Agribusiness
- B.S. Agricultural Science and Leadership
- B.S. Agricultural Science and Leadership, Teacher Certification
- B.S. Animal Science
- B.S. Food Animal Science and Marketing
- B.S. Natural Resource Management
- M.Ag. Agriculture
- M.S. Animal Science
- B.S./M.B.A. Integrated Agribusiness/Business Administration *

**Department of Biology**

Programs of Study in Biology
- B.S. Biology
- B.S. Life Science with Secondary teacher certification
- M.S. Biology
- M.S. Biology with emphasis in Science Education

**Department of Chemistry and Biochemistry**

Program of Study in Chemistry
- B.S. Chemistry
- B.S. Chemistry with Specialization Area Biochemistry Emphasis

**Department of Computer Science**

Program of Study in Computer Science
- B.S. Computer Science

**Department of Mathematics**

Programs of Study in Mathematics
- B.A. Mathematics
- B.A. Mathematics with Secondary teacher certification
- B.S. Mathematics
- B.S. Mathematics with Secondary teacher certification
- B.I.S. Interdisciplinary Studies Mathematics with Secondary Teacher Certification

**Department of Physics and Geosciences**

Programs of Study in Physics
- B.S. Geoscience
- B.S. Physics
- B.S. Physics with Specialization Area Applied Physics

For a complete list of minors see page 177.

* Recipients receive both an undergraduate and graduate degree simultaneously.
In addition, students are involved in ongoing faculty research and livestock scrutiny as well as other areas of the livestock, range, and wildlife industries. They evaluate a program of study in all aspects of the livestock industries including reproductive physiology, genetics, range and wildlife evalu.

This degree is designed to meet the needs of individual students desiring a program of study in all aspects of the livestock industries including commercial production and management, animal feeding, health, nutrition, reproductive physiology, genetics, range and wildlife and live animal evaluation as well as other areas of the livestock, range, and wildlife industries. In addition, students are involved in ongoing faculty research and livestock production practices that prepare graduates for careers in animal science production and business areas.

**Minors for Students Majoring in Animal Science**

Students may select a minor from any of those listed on page 177. If a minor is selected, students must take 18 SCH in their minor with at least six of those hours at an advanced level. Students desiring a multiple area minor must have nine SCH in each area with at least six of those hours in each area at an advanced level. Students must be counseled by the Department of Agriculture on Minor options.

Bachelor of Science (B.S.)
Agribusiness
(120 semester hours)

This degree is designed to meet the needs of individual students desiring a program of study with a strong emphasis in animal science and business. The degree will provide students the knowledge and experience to pursue careers in the continually changing and growing agribusiness industry.

Students interested in the Integrated B.S. in Agribusiness/M.B.A. in Business Administration will be required to complete a minimum of 150 semester credit hours of degree credit. Of this total, 120 semester credit hours will be at the undergraduate level and 30 semester credit hours will be at the graduate level. A unique feature of the five-year program is that students will begin taking graduate course work in their senior year. All candidates for this program are required to take the GMAT and be admitted to the Graduate Program before taking any graduate credit hours. The student must maintain a cumulative 3.00 in all undergraduate courses and a cumulative 3.00 in all graduate courses. Another unique feature of this program will be the awarding of the B.S. in Agribusiness and M.B.A in Business Administration degrees simultaneously at the completion of the program. Therefore, a student will not be awarded the B.S. in Agribusiness after completing 120 semester credit hours at the undergraduate level until the completion of the 30 semester credit hours at the graduate level in the M.B.A. in Business Administration. Should a student decide not to finish the M.B.A. portion of the program, then this student would be required to complete all of the course requirements to finish the B.S. in Agribusiness as a separate degree.

**Pre-Veterinary Medicine Curriculum**

Angelo State University offers a series of courses designed to qualify students for entrance to schools of veterinary medicine. It is the responsibility of the student to make all applications for admittance and to check admission requirements of the school chosen. Before enrolling in the pre-veterinary medicine curriculum, the student should report to the Agriculture Department for advisement. If a student desires to earn a degree before entering a school of veterinary medicine, the student is advised to major in animal science and take a minor in biology and chemistry.

**Requirements**

| Animal Science 3320, 3332, 3342 | 3 |
| Biology 1306/1106 or 1307/1107, Biology 3411, Biology 3301 or Animal Science 3443 | 11-12 |
| Chemistry 1311/1111, 1312/1112, 3451, 3452, 4331 | 19 |
| Communication 1315 | 3 |
| English 1301, sophomore literature | 6 |
| Mathematics 3321 | 3 |
| Physics 1301/1101, 1302/1102 | 8 |

---

* Students interested in Range Management should select additional Range and Wildlife Management courses for electives.

Students interested in Wildlife Ecology should select additional Biology courses as electives.

Students interested in becoming a game warden should select Criminal Justice courses as electives.

Students should consider acquiring an internship (Agriculture 4091) with a land management agency after completing one half of the required course work.

Graduation Requirement for the Biology Major
and Biology Major with Life-Science Certification

Candidates for the Bachelor of Science in Biology are required to complete a Major Field Test (MFT) in Biology in order to be eligible for graduation. The Testing Center administers the MFT by appointment throughout the year. A student is eligible to take the MFT upon completion of all required biology credits or during the semester immediately prior to graduation (August graduates must take the examination during the spring semester immediately prior to graduation). With written permission from the Chair of the Department of Biology, another national or state examination (i.e. MCAT, DAT, OAT, TExES) may be taken in place of the MFT; however, the student is responsible for examination costs. The exam score has no bearing on GPA, but will be part of the student’s record.

*Biology 3451, 4351, 3452, and 4331. These courses would also satisfy the requirement for a minor.

**Must complete all biology courses prior to clinical teaching (student teaching).

***Chemistry requirement may also be satisfied by Chemistry 1311/1111, 1312/1112, 3451, 3452, and 4331.

---

**Students must be admitted in the Educator Preparation Program (EPP) to enroll in any senior-level Education course or Reading 4320. For more information see page 149 or visit the College of Education website.
Courses required to be eligible for certification in 7-12 Life Science

Any student who wishes to be certified in 7-12 Life Science must complete the following courses:

- Biology 1306/1106, 1307/1107, 1411, 1413 .......... 16
- Biology 3301, 3403, 4181, 4303, 4451 .......... 15
- Biology advanced .......... 11

Biology Minor: A student who chooses a biology minor must complete Biology 1306/1106 and 1307/1107 and an additional 10 hours of courses. The following biology courses are not eligible for inclusion into the Biology minor: Biology 1308/1108, 1309/1109, and 2406. Students must complete 18 SCH in a single area minor with at least six advanced hours. Students with a major in Chemistry with a Biochemistry Emphasis should follow biology minor requirements for that degree.

Pre-Medical and Pre-Dental Students

(Students planning to apply to medical or dental school)

A student interested in applying for admission to medical (including podiatry, optometry, chiropractic, occupational therapy, or physician’s assistant programs) or dental school may major in any undergraduate discipline. Health professional school admission committees do not prefer a particular undergraduate major field or degree, so the student should select a major and degree plan consistent with career interest. Students with a major in Chemistry with a Biochemistry Emphasis should follow biology minor requirements for that degree.

Pre-Occupational Therapy Students

(Students planning to apply for admission to Occupational Therapy school)

Students interested in applying for admission to occupational therapy school can complete all required preadmission course work as well as participate in suggested professional experiences while attending Angelo State University. Students attending ASU with the intent to fulfill required academic prerequisites for admission may do so without declaring a specific academic major; however, because admission to professional training programs is highly competitive students are urged to select an academic major for an alternative career and work toward fulfillment of the degree requirements in conjunction with meeting the specific requirements of the Occupational Therapy schools. Many allied health professions students major in Biology or Biochemistry, but majors in all fields are given equal consideration for admission to Occupational Therapy schools. Students interested in these careers must meet with the pre-occupational therapy advisor in the Biology Department to receive information pertinent to current program requirements and advising for course selection during the enrollment period prior to each semester. Students must work closely with this advisor to develop an academic program which will satisfy both the requirements of the professional program to which they are seeking admission and those of the chosen academic major. Regular conferences with the advisor are essential.

Pre-Physical Therapy

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy department is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

A student may qualify for the Bachelor of Science degree from Angelo State University by satisfactorily completing all of the specified course work for the biology major/chemistry minor degree plan and at least one full year at an accredited American medical, dental, optometry, or podiatry school. That is, the only Angelo State courses for which the one year of health professions would substitute are general elective hours. Before considering this option, the student should consult with both the health professions advisor and with the Dean of Science and Engineering. Final permission to pursue this option must be obtained from the Dean of Science and Engineering.
It is recommended that elective courses focus on the following fields of study: biology, computer science, mathematics, or physics.

Graduation Requirement for the Chemistry Major

Candidates for the Bachelor of Science in Chemistry are required to complete a Major Field Test (MFT) in Chemistry in order to be eligible for graduation. The Division of Extended Studies administers the MFT by appointment throughout the year. A student is eligible to take the MFT upon completion of all required chemistry credits or during the semester immediately prior to graduation. The exam score will be part of the student’s record.

Pre-Medical and Pre-Dental Students
(Students planning to apply to medical or dental school)

A student interested in applying for admission to medical or dental school may major in any undergraduate discipline. Health professional school admission committees do not have a preference about an undergraduate major field or degree, so the student should select a major and degree plan consistent with career interests should medical or dental school degree plans not materialize. Selecting such a major, rather than a major in “Pre-Medicine” or “Pre-Dentistry”, will provide the student with all course requirements for health professions school with an optional or alternative career choice as well.

Many health professions students major in Chemistry but majors in all fields are given equal consideration for admission to medical and dental schools. Students may pursue career options of medical technology in nursing by following the nursing degree program. However, the student must contact the Chairperson of the Health Professions Advisory Committee as soon as possible to discuss major field selection, and the student must work closely with this advisor to develop an academic program which will satisfy the requirements of both the major field and the professional schools to which the student wants to apply. Information concerning majors and admission requirements of health professions schools is available from this advisor, and regular student conferences with this advisor are essential.

Pre-Pharmacy

Angelo State University offers courses which satisfy requirements for the first two years of most five- or six-year professional pharmacy programs as outlined by the various schools of pharmacy. However, the requirements of the different schools of pharmacy vary so widely that it is imperative that requirements of the school to which the student will seek admission be followed closely. To that purpose, the student should seek counsel from the Pre-Pharmacy Advisor in the Department of Chemistry and Biochemistry before enrollment.

*Students may be required to take Mathematics 2312 before enrollment in Mathematics 2413. If so, this will reduce the number of elective hours.

## Undergraduate Certificates Available in Computer Science

All undergraduate certificate programs require an overall 2.00 grade point average and a grade of at least a “C” in each required class. 25% of any coursework for certificates must be taken in residence.

This certificate is open to any student who completes the required courses:

### Certificate - Computer Game Development
(12 SCH required)
- CS 3371  Computer Game Development I .................................. 3
- CS 3372  Handheld Game Development .................................. 3
- CS 4318  Artificial Intelligence ............................................. 3
- CS 4371  Computer Game Development II ............................. 3

### Certificate - Cybersecurity Technologies
(12 SCH required)
- CS 3310  Principles of Unix ............................................... 3
- CS 4314  Computer Networking ........................................... 3
- CS 4320  Introduction to Computer and Network Security ........ 3
- Choose 1 of the following courses:
  - BOR 3307  Introduction to Cybersecurity ........................... 3
  - BOR 3309  Information Security and Protection .................. 3
  - BOR 4303  Digital Footprints ........................................... 3
  - CS 4340  Offensive Security Techniques ............................. 3

### Certificate - Web and Mobile Development
(12 SCH required)
- CS 3312  Web Programming .............................................. 3
- CS 3372  Handheld Game Development .................................. 3
- CS 4312  Internet Technologies .......................................... 3
- Choose 1 of the following courses:
  - CS 1314  Introduction to Programming and Problem Solving .... 3
  - CS 1351  Java Programming ............................................ 3
The David L. Hirschfeld Department of Engineering offers a program grounded in mathematics and basic sciences, which applies engineering fundamentals to the solutions to today's complex problems. These engineering fundamentals are supported by the strong humanities, arts, and social sciences programs of the University. This broad education leads to graduates who are practice-ready engineers with the broader skills to become leaders in their communities.

Vision

This diverse family of students, staff, and faculty is professionally and culturally engaged with our regional community. We will be recognized as one of the premier undergraduate engineering programs in Texas, cultivating practice-ready engineers with the broader skills to be future leaders.

Mission

- Employ effective learning-centered teaching that incorporates the changing paradigm of engineering education.
- Maintain a theoretically-grounded, practice-focused curriculum, which integrates global issues and sustainable concepts in engineering design.
- Engage our regional community to enhance science, technology, engineering, and mathematics (STEM) opportunities.
- Provide faculty and students opportunities for interdisciplinary scholarly work.
- Support and celebrate students' unique interests and creativity.

Program Educational Objectives

The undergraduate engineering programs at Angelo State University strives to prepare practice-ready engineers who:

- Respond to the needs of society by integrating effective communication, ethical responsibility, social awareness, and analytical reasoning in engineering design.
- Demonstrate superior engineering competency by creating safe, equitable, sustainable, and economical solutions to complex problems.
- Act as agents who broaden the diversity of the profession through effective teamwork, negotiation, mentorship, and leadership.
- Pursue professional registration and improve their professional competencies through life-long reflective learning.

Student Outcomes

Skills our graduates have upon graduation:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
3. an ability to communicate effectively with a range of audiences;
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The department offers a bachelor of science in civil engineering (B.S.C.E.) and a bachelor of science in mechanical engineering (B.S.M.E.). All students wishing to pursue a B.S.C.E. or B.S.M.E. degree begin in the Engineering Fundamentals program which provides the foundation for upper-division engineering courses. Students advance from the Engineering Fundamentals program to the Civil Engineering or Mechanical Engineering program by completing the fundamentals courses, meeting the specified GPA requirements, and passing the B.S.C.E./B.S.M.E. advancement exam.

To be admitted to the Engineering Fundamentals program, students must meet ASU’s admissions standards as outlined in this Catalog and be eligible to enroll in Precalculus (MATH 2312) by either having credit for College Algebra (MATH 1314) or earned a satisfactory score on the mathematics placement exam. Students who meet ASU’s admissions standards but do not meet the mathematics requirements to enter the Engineering Fundamentals program may be admitted to the Pre-Engineering program. The Pre-Engineering program is designed to help students develop the skills needed for the Engineering Fundamentals program.

Civil Engineering 4380 ................................................................. 3

Major Support Courses
Biology 1306/1106, 1307/1107, 1308/1108, 1309/1109, Geology 1303/1103, or (with department permission) other core science class outside of chemistry and physics........................................ 4
Chemistry 1311/1111 ........................................................................ 4
General Studies 1181 ...................................................................... 1
Mathematics 2413, 2414, 3324, 3415 ............................................. 15
Physics 2325/2125, 2326/2126 ....................................................... 8

Core Curriculum
See page 172 for a listing of core curriculum.................................. 42
Students should be aware that some majors specify particular courses to meet core-curriculum requirements when options are available.

Civil Engineering Fundamentals

I. Overall GPA of at least 2.50.
II. Completion of the sequence below with a GPA of at least 2.50:
   • Engineering 1201 - Introduction to Engineering
   • Engineering 1304 - Engineering Graphics
   • Engineering 1307 - Plane Surveying
   • Engineering 2301* - Engineering Mechanics - Statics
   • Engineering 2302* - Engineering Mechanics - Dynamics
   • Mathematics 2413* - Calculus I
   • Mathematics 2414* - Calculus II
   • Physics 2325/2125* - Fundamentals of Physics I
   • Physics 2326/2126* - Fundamentals of Physics II
III. Successful completion of the advancement exam.

* A grade of “C” or better is required for these courses.
Bachelor of Science in Mechanical Engineering
(B.S.M.E.)

Mechanical Engineering
(127 semester hours)

Academic Major Hours

**Engineering Principles:**
- Engineering 1201, 1304, 2201, 2301, 2302, 2305, 2318, 2332, 3305, 3331, 3404, 4201 ............................. 34

**Required Introductory Mechanical Engineering Discipline Courses:**
- Mechanical Engineering 2311, 3351, 3352, 3411, 3441 ............ 17
- Math/Science Elective:
  - Biology 1308/1108,
  - Geology 1303/1103,
  - Mathematics 3307, 3315, 3321, 4311, 4335 ............. 3

**Programming Elective:**
- Engineering 2304, Computer Science 1314, 1336 ............. 3

**Design Electives:**
- Mechanical Engineering 4311, 4331, 4341, 4351 .............. 6

**Technical Elective**
- Mechanical Engineering 4352, 4361, or any of the courses listed above as design electives ........... 3

**Capstone Design:**
- Mechanical Engineering 4380 ........................................ 3

**Major Support Courses**
- Chemistry 1311/1111 .................................................... 4
- General Studies 1181 .................................................. 1
- Mathematics 2413, 2414, 3324, 3415 ............................ 15
- Physics 2325/2125, 2326/2126 ...................................... 8

**Core Curriculum**
See page 172 for a listing of core curriculum ........................ 42
Students should be aware that some majors specify particular courses to meet core-curriculum requirements when options are available.

---

**Mechanical Engineering Fundamentals**

I. Overall GPA of at least 2.50.
II. Completion of the sequence below with a GPA of at least 2.50:
   - Engineering 1201 - Introduction to Engineering
   - Engineering 1304 - Engineering Graphics
   - Engineering 2301* - Engineering Mechanics - Statics
   - Engineering 2302* - Engineering Mechanics - Dynamics
   - Engineering 2305 - Electrical Circuits
   - Mathematics 2413* - Calculus I
   - Mathematics 2414* - Calculus II
   - Physics 2325/2125* - Fundamentals of Physics I
   - Physics 2326/2126* - Fundamentals of Physics II

III. Successful completion of the advancement exam.

* A grade of "C" or better is required for these courses.

* Geology (advanced) as defined on the degree program.

* The student is expected to have completed two years of high school algebra, one year of high school geometry, and a precalculus course. If not, the student will be advised whether Mathematics 1314, 1316 and/or 2312 should be completed before enrollment in Mathematics 2413.
College of Science and Engineering:  
Department of Mathematics

Department Chair: Karl J. Havlak

Distinguished Professor Emeritus: J. Bailey.

** Students that choose the Mathematics and Life Science Education or the Mathematics and  
Physics Education combinations in the Interdisciplinary Major may exceed 120 hours.
Mathematics

Undergraduate Certificates Available in Mathematics

Certificate - Abstract Mathematics
(12 SCH required. Choose 4 of the following courses.)
MATH 3300 Introduction to Abstract Mathematics .................. 3
MATH 4091 Research (with approval) ........................................ 3
MATH 4301 Abstract Algebra .................................................. 3
MATH 4331 Analysis ............................................................... 3
MATH 4351 Topology .............................................................. 3
MATH 4355 Topics in Abstract Mathematics ......................... 3
MATH 4361 Complex Variables ................................................ 3

Certificate - Applied Mathematics
(12 SCH required. Choose 4 of the following courses.)
MATH 3301 Linear Algebra ..................................................... 3
MATH 3335 Differential Equations ............................................ 3
MATH 4091 Research (with approval) ........................................ 3
MATH 4311 Numerical Analysis ............................................. 3
MATH 4335 Partial Differential Equations ................................. 3
MATH 4345 Topics in Applied Mathematics ......................... 3
MATH 4361 Complex Variables ................................................ 3

Certificate - Applied Statistics
(12 SCH required.)
(Choose 2 of the following courses.)
MATH 1342 Elementary Statistics ........................................... 3
MATH 3307 Probability and Statistics ...................................... 3
MATH 3321 Statistics ............................................................ 3
MATH 4091 Research (with approval) ........................................ 3
(Choose 2 of the following courses.)
MGMT 2331 Applied Business Statistics ................................. 3
MGMT 3332 Data Analytics ..................................................... 3
MGMT 3361 Project Management ............................................ 3

Developmental Program in Mathematics

Texas Success Initiative (TSI) Requirements. A student who fails to meet the minimum passing standard on the mathematics section of the TSIA must enroll in an appropriate developmental option determined by the Department of Mathematics. The student must be continuously enrolled in the developmental mathematics program until TSI requirements are satisfied. TSI requirements may be satisfied by one of the options specified under Developmental Education page 152.

Non-course-based Option. Certain students as determined by the Department of Mathematics may be eligible to participate in non-course-based activities to complete TSI requirements. Contact the department for information about this option.

Course-based Option. Specially designated sections of freshman mathematics courses (“T-sections,” whose section number begins with a “T”) are designed to provide additional support for students who are not TSI complete. Students who are required to participate in developmental activities must enroll in these sections, which are identified by section numbers T10, T20, etc.

The “T-sections” meet for six hours weekly, however, “T-sections” only count three hours toward a student’s bill, course load, and GPA. A passing grade in mathematics “T-section” will both complete the student’s TSI requirements in mathematics and also earn the student credit for the appropriate college-level mathematics course. Students should choose the appropriate course in conjunction with their academic advisor to align with their degree programs.

A student enrolled in a mathematics “T-section” is also subject to the special provisions regarding class attendance and withdrawals for students who are not TSI complete; see page 152.

130C Developmental Mathematics (3-0). An introductory course designed to remediate identified deficiencies and provide a review of fundamental operations in mathematics based on the student’s mastery of the College and Career Readiness Standards. Topics may include elementary algebra and functions; intermediate algebra and functions; geometry and measurement; and data analysis, statistics, and probability. Software will be used to customize the course to fit individual students’ needs.
College of Science and Engineering:
Department of Physics and Geosciences

Department Chair: David L. Bixler
Faculty: Allen, Bixler, Carrell, Holcomb, Holik, Wallace, Williams.
Distinguished Professors Emeritus: Dawson, Loyd, Sonntag.
Professor Emeritus: Parker.

Bachelor of Science (B.S.)
Physics
(120 semester hours)

The American Association of Physics Teachers recommends students planning to do physics graduate work take Physics 3301, 3331, and Physics 4363. Those students who contemplate graduate studies in other disciplines will want to choose appropriate minors. For students who plan to work in industry or do graduate work in engineering, the Applied Physics specialization area is recommended.

Academic Major

Specialization area in Physics Hours
Physics 2325/2125, 2326/2126 8
Physics 3301, 3310, 3331, 3332, 3341, 3461, 4363 22
Physics 3443, 3444, 4452, or 4462 (choose 2 courses) 8
Physics (advanced) 3

Major Support Courses

Biology 1306/1106, 1307/1107, 1308/1108, 1309/1109, 2323/2123, 2324/2124,
Geology 1301/1101, 1303/1103, 1304/1104,

Norris-Vincent College of Business

Dean: Dr. Clifton T. Jones
Office: Rassman 262
Telephone: 325-942-2337, Fax: 325-942-2718
E-Mail: college.business@angelo.edu

The Norris-Vincent College of Business is comprised of three academic departments—the Department of Accounting, Economics, and Finance, the Department of Aerospace Studies, and the Department of Management and Marketing—as well as the ASU Small Business Development Center (SBDC). The Department of Accounting, Economics, and Finance and the Department of Management and Marketing offer an extensive array of business degree programs at both the undergraduate and master’s levels. All business degree programs are accredited by ACBSP (the Accreditation Council for Business Schools and Programs). The Department of Aerospace Studies houses Detachment 847 of the Air Force Reserve Officer Training Corps (ROTC), providing superb leadership training and a path to a commission as a second lieutenant in the US Air Force upon graduation. The ASU SBDC fosters the success and growth of small businesses in their 10 county service area surrounding San Angelo.

Mission Statement

The Norris-Vincent College of Business provides a high quality academic environment designed to help our undergraduate and graduate students—many of whom are first generation students and come from diverse backgrounds in West Texas—to acquire the skills and experiences needed to become successful and ethical professionals who can compete in a dynamic global environment. We are dedicated to engage with, and have a positive impact on, our diverse student body and the business community, through innovative teaching and both scholarly and professional activities.

To accomplish our mission, we seek to recruit and retain faculty members who have a passion for excellence and innovation in the classroom. Our business faculty maintain currency in their teaching disciplines through scholarly research that leads to peer-reviewed intellectual contributions, or through active engagement in the practice of business in the local and regional community. Our primary emphasis is on applied scholarship or teaching and learning scholarship, which are intended to impact the practice or teaching of business. We have a secondary emphasis on basic, or discipline-based scholarship, which impacts the theory of business. Our faculty is also actively involved in service roles for scholarly and professional organizations in their disciplines.

Major Field Test/MFT for M.B.A.

All students pursuing the B.B.A. degree must complete the undergraduate Major Field Test (MFT) as a graduation requirement, which is typically administered within Management 4303. All students pursuing an M.B.A. or one of the integrated B.B.A./M.B.A. programs must complete the MFT for M.B.A. as a graduation requirement, which is typically administered within Management 6313.

Departments and Programs

Students in the Norris-Vincent College of Business may pursue studies in the following departments:

Department of Accounting, Economics and Finance

Programs of Study in Accounting
- B.B.A. Accounting
- B.B.A./M.PAc Integrated Professional Accountancy *
- M.PAc. Professional Accountancy

Programs of Study in Economics
- B.B.A. Economics

Programs of Study in Finance
- B.B.A. Finance
- B.B.A./M.B.A. Integrated Finance/Business Administration *

Department of Management and Marketing

Programs of Study
- B.B.A. International Business
- B.B.A./M.B.A. Integrated International Business/Business Administration *
- B.B.A. Management
- B.B.A./M.B.A. Integrated Management/Business Administration *
- B.B.A. Management Information Systems
- B.B.A./M.B.A. Integrated Management Information Systems/Business Administration *
- B.B.A. Marketing
- B.B.A./M.B.A. Integrated Marketing/Business Administration *

Norris-Vincent College of Business

M.B.A. Business Administration
M.B.A. Business Administration with Specialization Area
Healthcare Management

For a complete list of minors see page 177.

* Recipients receive both an undergraduate and graduate degree simultaneously.
Aerospace Studies
Norris-Vincent College of Business:
Department of Aerospace Studies

Department Chair: Lt. Col. Daniel J. Reisner
Faculty: Foster, Heller, Reisner.
Contact Information: Rassman Building, Room 227
Telephone: 325-942-2036; Fax: 325-942-2143
http://www.angelo.edu/dept/rotc/

Aerospace Studies
Air Force Reserve Officer Training Corps (AFROTC)
The Air Force ROTC program provides professional preparation for students desiring to serve as officers in the United States Air Force. The program offers information on Air Force career opportunities, role of the military in the American society, and training in leadership skills. Courses are normally taken for academic credit as part of a student’s electives. Entering freshmen may register for Aerospace Studies courses at the same time and in the same manner as they enroll in their other college courses. Students desiring entry after their freshman year must contact the department for approval prior to their planned entry into the program.

The General Military Course (GMC). (Aerospace Studies Leadership Laboratories 1111, 1113, 2111, 2113, and lectures 1112, 1114, 2112, 2114) is a two-year course taken during the freshman and sophomore years, with one credit hour of academic instruction and four hours of Leadership Laboratory a week which includes mandatory physical fitness training (dates and times announced during the semester). Membership in the GMC does not confer any military status or commitment upon the cadets, but affords them the opportunity to learn about the Air Force and its role in the American society.

The Professional Officer Course (POC). (Aerospace Studies Leadership Laboratories 3111, 3113, 4111, 4113, and lectures 3312, 3314, 4312, 4314) is a two-year course normally taken during the student’s junior and senior years. The class entails three credit hours of academic instruction and five hours of Leadership Laboratory a week which includes mandatory physical fitness training (dates and times announced during the semester). Entrance into the POC is limited to qualified students desiring to compete for Air Force commissions and who have had a two-week field training program. Each student selected for the POC is enlisted as a member of the Air Force Reserve and is provided a tax-free subsistence per month. The cadet who completes the POC is, upon graduation, commissioned a second lieutenant in the United States Air Force.

Other Activities. Many other activities, such as intramural sports, banquets, base visitations, drill meets, tours, and community projects are planned throughout the semester. Participation in some of these events will be required.

Special Students Aerospace Studies lecture courses (1112, 1114, 2112, 2114, 3312, 3314, 4312, 4314) are available to students who wish to learn about the Air Force but do not intend to join the Air Force.

Minor in Leadership Studies
Aerospace Studies 3312, 3314, Management 3304, Management 4306 or 4308, and six semester credit hours of approved electives selected in consultation with the program advisor. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level.

Air Force Scholarships for Reserve Officer Training Corps
Four-year Air Force ROTC scholarships are available on a nationwide basis for entering freshmen. Application for these highly competitive scholarships must be accomplished prior to December 1 of the senior year in high school. To apply for the four year Air Force scholarships go to the official U.S. Air Force ROTC website.

These AFROTC scholarships are also available for three years for students in any major program already enrolled in the ROTC program. Students are encouraged to contact the department for additional information.

Ronald W. Bell (USA, Ret.) ROTC Scholarship
This scholarship fund was established by the late Ronald and Mavis Bell to provide financial aid to students who are enrolled in the AFROTC program at Angelo State University. Preference will be given to cadets who meet the following criteria: the student must be United States Veteran; must be in good academic standing with a 2.75 grade point average; cadets must maintain a 15 hour course load; cadets must demonstrate financial need. If no United States Veteran is eligible, a son or daughter of a United States Veteran may qualify. If no other qualifying United States Veteran or their descendant is eligible, then a cadet who was a JROTC cadet may receive the scholarship. If the cadet maintains a 2.75 or better the scholarship will be retained until the cadet graduates.

All of the following scholarships can be applied for by using the Carr Air Force ROTC Scholarship Application plus a current school transcript showing your most recent semesters’ work and two recommendations or evaluations. Other information such as a personal resume, pictures or letters can also be included and is highly recommended as these scholarships are based on a whole person concept.

Mr. and Mrs. Robert G. Carr
Air Force ROTC Scholarships
Approximately 60 AFROTC scholarships up to $1,500 per year are awarded annually to Angelo State University AFROTC students. These awards have been provided by the late Mr. and Mrs. Robert G. Carr of San Angelo to help attract highly qualified students into the AFROTC program and promote academic excellence. All students who are interested in enrolling in the ROTC program are invited to apply for a Carr Air Force ROTC Scholarship which carries no military commitment but allows a student the opportunity to participate in the Air Force officer candidate program.

J.C. Chuck and Lois Wright ROTC Scholarship
This scholarship fund was established by the late Mrs. Lois Wright in memory of her husband to provide financial aid to highly qualified students/ cadets enrolled in the AFROTC program at Angelo State University. Cadets must be at least sophomores with a 2.75 GPA or higher to qualify. Several scholarships are awarded annually in the amount of $1,000 per year. This scholarship carries no military commitment, although it is typically awarded to cadets who have already expressed an intent to become an Air Force Officer.
**Captain Jack Wood Memorial Scholarship**
This scholarship fund was established in memory of Marine aviator Captain Jack Wood. Eligible cadets must be at least a sophomore, meet ROTC standards, maintain a minimum GPA of 2.50 and demonstrate a financial need. The amount of this scholarship varies and can pay up to $400 each year.

**R.F. Durso ROTC Scholarship**
This scholarship fund was established by the Nurre family to honor the bequest of the late Rocco F. Durso to provide financial aid to one highly qualified full time Angelo State ROTC student per year. This student must be deserving and have a strong desire to succeed. Preference will be given to students who graduated from Lakeview High School and participated in the Lakeview Junior ROTC program for a minimum of two years.

**AFROTC Activities**
- **Arnold Air Society (AAS) Robert G. Carr Squadron:** a nationwide professional honorary service organization of Air Force ROTC cadets dedicated toward promoting strong AFROTC-University relationships. The AAS participates in a variety of service functions for the University and the community.

- **The Ram Guard** is comprised of AFROTC students dedicated to the art of precision drill who participate in honor guard formations on campus and in the community.

- **Silver Wings Organization** is a community service organization comprised of students who are dedicated to supporting, as an auxiliary, the Robert G. Carr Squadron of Angelo State University. Membership is welcomed for all ASU students and is not dependent on any association with Air Force Reserve Officer Training Corps.

</tbody>
</table>

Students interested in the Integrated B.B.A./M.P.Ac. in Professional Accountancy will be required to complete a minimum of 150 semester credit hours of degree credit. Of this total, 120 semester credit hours will be at the undergraduate level and 30 semester credit hours will be at the graduate level. The undergraduate course requirements are identical to those for the non-integrated B.B.A. in Accounting, and the graduate course requirements are identical to those for the M.P.Ac. Therefore, this five-year integrated B.B.A./M.P.Ac. program has a true 4+1 modular structure.

Candidates for this program must meet the current admission requirements for the M.P.Ac. program and be unconditionally admitted before taking any graduate M.P.Ac. courses. The student must achieve a cumulative GPA of 3.00 or better in all undergraduate courses and a cumulative GPA of 3.00 or better in all graduate courses.

A unique feature of the integrated program is that the student will begin taking graduate course work in his/her senior year. Upon successful completion of all 150 semester credit hours of this five-year program, the student will be awarded both the B.B.A. in Accounting and the M.P.Ac. degree at the same time; the student will not receive the B.B.A. in Accounting after completing 120 semester credit hours at the undergraduate level.

Should a student decide not to complete the M.P.Ac. portion of the integrated program, then this student would simply have to complete any remaining degree requirements for the B.B.A. in Accounting in order to be awarded that degree. Because of the 4+1 structure of the integrated program, all of the undergraduate courses already completed as part of the integrated five-year program would count towards completion of the B.B.A. in Accounting.

Students interested in the Integrated B.B.A./M.B.A. in Finance will be required to complete a minimum of 150 semester credit hours of degree credit. Of this total, 120 semester credit hours will be at the undergraduate level and 30 semester credit hours will be at the graduate level. The undergraduate course requirements are identical to those for the non-integrated B.B.A. in Finance, and the graduate course requirements are identical to those for the M.B.A. Therefore, this five-year integrated B.B.A./M.B.A. program has a true 4+1 modular structure.

Candidates for this program must meet the current admission requirements for the M.B.A. program and be unconditionally admitted before taking any graduate M.B.A. courses. The student must achieve a cumulative GPA of 3.00 or better in all undergraduate courses and a cumulative GPA of 3.00 or better in all graduate courses.

A unique feature of the integrated program is that the student will begin taking graduate course work in his/her senior year. Upon successful completion of all 150 semester credit hours of this five-year program, the student will be awarded both the B.B.A. in Finance and the M.B.A. degree at the same time; the student will not receive the B.B.A. in Finance after completing 120 semester credit hours at the undergraduate level.

Should a student decide not to complete the M.B.A. portion of the integrated program, then this student would have to complete any remaining degree requirements for the B.B.A. in Finance in order to be awarded that degree. Because of the 4+1 structure of the integrated program, all of the undergraduate courses already completed as part of the integrated five-year program would count towards completion of the B.B.A. in Finance.

Students interested in the Integrated B.B.A./M.B.A. in Management Information Systems will be required to complete a minimum of 150 semester credit hours of degree credit. Of this total, 120 semester credit hours will be at the undergraduate level and 30 semester credit hours will be at the graduate level. The undergraduate course requirements are identical to those for the non-integrated B.B.A. in Management Information Systems, and the graduate course requirements are identical to those for the M.B.A. Therefore, this five-year integrated B.B.A./M.B.A. program has a true 4+1 modular structure.

Candidates for this program must meet the current admission requirements for the M.B.A. program and be unconditionally admitted before taking any graduate M.B.A. courses. The student must achieve a cumulative GPA of 3.00 or better in all undergraduate courses and a cumulative GPA of 3.00 or better in all graduate courses.

A unique feature of the integrated program is that the student will begin taking graduate course work in his/her senior year. Upon successful completion of all 150 semester credit hours of this five-year program, the student will be awarded both the B.B.A. in Management Information Systems and the M.B.A. degree at the same time; the student will not receive the B.B.A. in Management Information Systems after completing 120 semester credit hours at the undergraduate level.

Should a student decide not to complete the M.B.A. portion of the integrated program, then this student would have to complete any remaining degree requirements for the B.B.A. in Management Information Systems in order to be awarded that degree. Because of the 4+1 structure of the integrated program, all of the undergraduate courses already completed as part of the integrated five-year program would count towards completion of the B.B.A. in Management Information Systems.

Center for International Studies

Director: Meghan J. Pace  
Office: 2419 West Avenue N  
Telephone: 325-942-2083, Fax: 325-942-2084

Angelo State University (ASU) is committed to providing our students a globalized education in an effort to prepare them for an ever-changing world. The Center for International Studies (CIS) provides international and educational opportunities for students and faculty and emphasizes the importance of international connections and partnerships as a catalyst for change. The CIS encompasses three inter-related services: Study Abroad, International Students and Scholars Services, and the English Language Learners Institute. Additionally, the CIS sponsors the Student Scholars program to provide scholarships for students involved in international research and internships, the Summer Institute for visiting programs from exchange institutions and is the campus Peace Corps advocate office. The CIS is an official U.S. passport acceptance agency providing passport services to ASU and the San Angelo community.

International Students and Scholars Services (ISSS)
Angelo State University welcomes students from countries around the world. Our office serves both prospective and current international students. Listed below are the admissions requirements for international students to attend Angelo State University.

International Student Admissions
Admission requirements information may be found in the Admission to the University section of this Catalog, see page 13.

Study Abroad
Each year the University offers a variety of summer study abroad programs which are developed and directed by ASU faculty. In recent years, students from Angelo State University have spent their summer sessions in locations such as Australia, Bulgaria, China, Colombia, Costa Rica, France, Germany, Italy, Greece, Mexico, New Zealand, South Korea, Spain, and United Kingdom. Additionally, opportunities for international internship and research experiences are provided to ASU students in certain specialized programs. Students typically earn six hours of credit in the summer programs. Courses vary each year.
Angelo State University has also entered into exchange agreements with institutes and universities from Costa Rica, France, Germany, Italy, Mexico, the Netherlands, South Korea, Taiwan, and the United Kingdom, which enable ASU students to study abroad for a semester or an academic year. These agreements also provide opportunities for international students to study at Angelo State University where they contribute to the learning environment for ASU students through their participation in class and extracurricular activities. In addition, the University provides information and advising for the student who is interested in studying independently at an overseas university. Students who are selected to participate in a study abroad experience are eligible to apply for the International Studies scholarships.

English Language Learners’ Institute
If you are interested in improving your English language skills, the intensive English program at Angelo State University (ASU) will provide you with the opportunity to study and practice the language in an outstanding academic environment. The English Language Learners’ Institute is located in the Center for International Studies on the campus of ASU in San Angelo, Texas.

ELLI is a non-credit program for non-native English speakers who want to learn English for academic and professional purposes. The classes are designed for people who have an interest in studying at universities and colleges in the United States. Additionally, people who would like a short-term American study experience in order to improve their English are also encouraged to attend. Prospective students take a placement test before starting the program and are assigned to the appropriate level. Students who successfully complete the highest level are given a TOEFL waiver for ASU undergraduate and select graduate programs. For further information contact: ELLI@angelo.edu or visit the Center for International Studies.
Testing Center

Director: Lorri Morris
Office: Vincent Building, Room 291
Telephone: 325-942-2624
Email: testingcenter@angelo.edu
Website: http://www.angelo.edu/services/testing_center/tests/

The mission of the Testing Center is to meet the needs of the ASU community and the Greater Concho Valley by providing national standardized testing, both paper-based and online.

A variety of college entrance (undergraduate and graduate), vocational, guidance, state-mandated, distance learning, and/or placement exams are available at Angelo State University. The Testing Center is an open testing facility (testing ASU students as well as the general public), has limited seating, and reservations are made on a first come-first served basis. For available tests, testing policies, fees and/or scheduling an exam, visit the Testing Center website.

The Testing Center is located in the Vincent Building, Room 291 (2333 Vanderventer Avenue). Contact the Testing Center at 325-942-2624, or e-mail testingcenter@angelo.edu.
The Angelo State University Honors Program provides an enriched learning experience that enhances the educational program of academically talented and highly motivated students from all disciplines. At the heart of the program is a learning community of capable and intellectually curious students who seek breadth and depth in their education and commit to becoming well-rounded scholars and students. The program challenges students to delve deeply into their academic studies, to develop their analytical skills, and to actively engage in university and community life. The Honors Program combines coursework, academic and cultural enrichment events, and community engagement activities designed to foster community and to help individual students maximize their intellectual and personal talents and prepare to become engaged citizens and successful practitioners in their chosen career paths.

Goals
The Honors Program at Angelo State University provides member students with opportunities to:

- Partner with like-minded students and faculty in a unique learning community
- Engage in diverse and enriching learning experiences within and beyond the classroom
- Achieve a deeper understanding of course materials through exposure to multidisciplinary perspectives and independent research projects
- Develop enhanced leadership qualities and engage in service-learning activities that foster responsible citizenship
- Participate in cultural and intellectual events that enhance understanding and appreciation for individual and global diversity

Honors Curriculum
The Honors Program curriculum requires a minimum of 18 semester hours as specified below to receive High University Honors. Students wishing to achieve Highest University Honors complete the same curriculum plus an additional 3 semester credit hours honors thesis requirement. The curriculum is designed to be a viable option for most majors.

Applying for Admission
Students must make special application as an entering freshman to be considered for admission to the Honors Program. The recommended standards for admission are a composite SAT score (ERW and mathematics sections only) of 1260 or better or a composite ACT of 27 or better, a competitive class ranking, and a record of engagement in extracurricular and service activities. The selection process considers test scores and records of activity along with responses to application questions and reference letters; therefore, students who do not quite meet the recommended standards may gain admission based on the strength of the overall application, just as students who meet or exceed the stated requirements may not be selected. Admission is competitive and contingent upon the pool of applicants for any given year.

TTUHSC School of Medicine Early Acceptance Program
The joint Angelo State University-Texas Tech University Health Sciences Center School of Medicine Early Acceptance Program offers a select group of Honors Program students the opportunity to apply early (typically during their junior year) to the School of Medicine (SOM) at TTUHSC and waive the Medical College Admission Test (MCAT). Successful applicants to the Early Admission Program are notified of their acceptance by early February and must complete their baccalaureate degree with Honors designation prior to admission to the SOM.

The primary goal of this program is to encourage Honors students to broaden their educational experiences before they enroll in their professional studies. The waiver of the MCAT allows students to include coursework or other experiences in areas such as languages, the humanities, mathematics, and business, thus enabling them to become well-rounded professionals.

General Requirements for Application. Early acceptance is available to Honors Program students within any major who meet the requirements for entry to the School of Medicine and are judged to be exceptional candidates by the SOM Admissions Committee. Students who are eligible to apply must meet the following requirements:

- Enroll officially in the Honors Program
- Enter Angelo State University as freshmen (transfer students are ineligible)
- Be legal residents of the state of Texas
- Have earned a composite score of at least 1360 (mathematics and ERW only) on the SAT or at least 29 on the ACT upon matriculation at Angelo State (the composite score must be earned in one test administration)
- Submit a formal “checklist” form to the Honors Program during the semester of application to the SOM, certifying completion of specified science coursework, attainment of a GPA of at least 3.7 overall and 3.6 in science courses, and evidence of active engagement in the Honors Program and extracurricular activities

Website: http://www.angelo.edu/dept/honors/
Texas Tech University School of Law Early Decision Program

The Honors Program and the Texas Tech University School of Law cooperate in a plan that allows exceptional applicants who are Honors Program students in good standing and have a minimum of 90 semester credit hours to seek and receive notification of their acceptance to the Law School during their third year at Angelo State, which would be one year before receiving their baccalaureate degree and enrolling at the School of Law.

To be eligible to apply for the Honors Program Early Decision, students must meet the following criteria:

- Have an undergraduate GPA of at least 3.5
- Have a LSAT score above the 50th percentile of all takers
- Have a SAT score of at least 1300 (excluding writing section score) or an ACT score of at least 29 (composite scores must be achieved in one sitting)
- Be enrolled in the Angelo State University Honors Program and be making satisfactory progress toward a baccalaureate degree with Honors designation.

Students must apply during the fall semester of their third year and must take the LSAT by December of that year. Students who receive and accept an early decision offer must commit to enroll at the Texas Tech University School of Law and may not apply to other law schools. The School of Law Admissions Committee applies the same standards and procedures for Early Decision applicants as for those considered under the traditional admission process. Students must complete the Honors Program curriculum and graduate with the Honors designation to secure their admission.
University Studies Program

Numerous areas of study and research do not fit into a single disciplinary sphere, and in recent years the American academic community has given increasing attention to the interrelated nature of knowledge. It has become apparent that many significant topics of contemporary relevance are studied most appropriately through the use of data, theories, and methodologies from various academic disciplines. Program areas such as urban studies, environmental quality, and foreign area studies necessitate the use of insights from a variety of academic fields.

The University Studies Program at Angelo State University consists of courses which utilize an interdisciplinary or multidisciplinary approach. These courses will be designed and taught by members of the University faculty who have special interest in and qualifications for the utilization of the interdisciplinary approach.

With the approval of the appropriate academic dean, interdisciplinary courses may be used to fulfill general education and academic major requirements for baccalaureate degree programs. These courses also may be selected as electives in any of the baccalaureate degree programs offered by the University.

Mascots

**Roscoe and Bella**

Roscoe is the crown-some might say clown-prince of Angelo State University while Bella is the princess of the Mall. Seen at most athletic events and many community activities, Roscoe and Bella let their actions do their talking, whether it is leading cheers, handing out candy to children or greeting freshmen when they arrive on campus.

**Dominic**

A purebred Rambouillet ram, Dominic stands as a proud symbol of Angelo State University and the institution’s ties to the region and its people.
As a learning community, ASU is committed to providing a setting that encourages scholarship, intellectual growth and personal development. Students are expected to meet academic challenges, prepare for future endeavors and become productive members of the larger community.

Student Affairs and Enrollment Management focuses on a developmental co-curricular program for students that provides opportunities for engaged participation and learning to broaden their skills and perspectives. Students use support services for personal development and academic growth so that they can maximize their potential leadership experience and enhance their community development and personal values. Residential and physical environments are used to contribute to the students’ education, health and safety.

These collaborative learning opportunities reinforce the intention that all individuals have the opportunity to develop their personal identity and have the potential to become contributing citizens in the global community.

Orientation Programs
Orientation Programs at Angelo State University offer students a great way to learn about the many opportunities and resources available at our campus. Attending orientation allows you to become familiar with the campus and meet other incoming ASU students.

New Student Orientation
New Student Orientation is a one-day program that helps you and your family learn more about Angelo State University. During orientation, you will have the chance to:

• Meet other students and make new friends
• Meet with academic advisors and discuss classes and majors
• Complete course registration
• Learn about academic expectations
• Learn about the University’s services and resources
• Learn about ASU traditions and how to get involved on campus

Transfer Student Orientation
This orientation program is designed specifically for transfer students with 18 (or more) post-high school college credit hours. During Transfer Orientation, you will receive information about college completion, transcript evaluation, financial aid, and campus involvement opportunities. Transfer students should be advised and registered for classes prior to attending this orientation.

Ram Round-Up
Ram Round-Up is a three-day, two-night camp for new incoming students. This camp provides a high energy fun-filled atmosphere to meet your new classmates, learn about ASU spirit and traditions, and further prepare for your first year in college. Activities promote campus involvement, opportunities to connect with other incoming students, learn about campus resources and services, and interact with faculty and staff. Ram Round-Up focuses on ASU traditions, relationships, communication, and success in college.

Ram Round-Up is open to first-year and transfer students. Register online at My Future.

For more information visit our Orientation Programs website.

Ram Family Connection (RFC)
The Ram Family Connection is the parent/family association on campus. Our goal is to connect parents and families with university news, events, and important updates. By doing this, we hope to give parents an active role in supporting their students success in college. RFC sends out monthly electronic newsletters. We are also on facebook. For more information call 325-942-2035. To sign up for the newsletter visit the Ram Family Connection website.
Currently enrolled students requiring emergency medical services should contact University Police or their Housing/Residential Programs Area Coordinator. Students needing emergency medical services will be responsible for all costs.

All registered, domestic, undergraduate students enrolled in: seven (7) or more credit hours during the long semester, three (3) or more credit hours during the summer are eligible to purchase the student health insurance plan which supplements the University Health Clinic Services in major surgical, medical, and prescription drug benefits during both the school term and vacation periods.

All registered international students on non-immigrant visas enrolled in one (1) or more credit hours must be enrolled in the Plan, unless proof of comparable coverage is furnished to the Nursing Department.

Students who do not carry other comprehensive health insurance are strongly urged to enroll in a health care insurance plan, as the Clinic cannot provide hospitalization or comprehensive health care coverage. Insurance information is available in the Business Services Office. Payment of the Medical Services Fee does not satisfy the requirements of the Affordable Care Act.

For more information, please visit the Health Clinic and Counseling Services website or call 325-942-2171 or email asuhealthclinic@angelo.edu.

Counseling

ASU Counseling Services provides free and confidential individual, group, and couples counseling to current students as part of their medical services fee. Services are available to faculty and staff on a limited basis. Students are encouraged to utilize Counseling Services to overcome personal and academic challenges. Common reasons college therapeutic services include: depression, anxiety, adjustment to college, relationship issue, stress, suicidal thoughts, trauma, and academic struggles. Faculty and staff in crisis may receive a one-time personal consultation and then be referred to the community for further treatment. Counseling Services clinicians are licensed professionals in the state of Texas.

Counseling Services educations the campus community about issues surrounding mental health to promote safety and wellness. Counselors collaborate with faculty and staff; provide trainings, outreach, education, and presentations upon request. Counseling Service staff provide consultation services for all members to the ASU community and parents if there is concern about someone else.

To schedule an appointment, call 325-942-2371 or visit us in the University Clinic between 9:00 am and 3:30 pm Monday through Friday. If you are experiencing a mental health emergency call the 24/7 crisis support line at 325-486-6345.

For more information please call us at 325-942-2371 or visit our website or email counselingservices@angelo.edu.
Student Affairs and Enrollment Management

**Students with Disabilities**

Angelo State University is committed to the principle that no qualified individual with a disability, shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments of 2008 (ADAAA), and subsequent legislation. All programs, services, and activities on the campus of Angelo State University are accessible to students with disabilities.

The Office of Student Affairs is the designated campus department charged with the responsibility of reviewing and authorizing requests for reasonable accommodations based on a disability, and it is the student’s responsibility to initiate such a request by contacting the Office of Student Affairs, University Center, Room 112, at 325-942-2047 or 325-942-2211 (TDD/FAQ) or by e-mail at ADA@angelo.edu to begin the process. To the extent practical, the Office of Student Affairs, working in collaboration with the appropriate academic and/or administrative department, will authorize reasonable accommodations to assist qualified individuals with disabilities to have full and equal access to the programs and services of the university, and a full and equal opportunity to meet the academic requirements of their courses and/or their degree requirements, consistent with published academic requirements and the applicable provisions of federal and state legislation. More information on Student Disability Services is provided on our website.

**Career Development**

The Career Development office offers a variety of career-related services and resources to ASU students and alumni. These have been grouped into the following broad categories.

**Career Exploration.** Many students are undecided about a career direction or even a specific academic major. In addition, some who are satisfied with their academic plans may be uncertain how their academic interests relate specifically to employment opportunities after graduation. Career Development provides several services to address the needs of these individuals, including: career counseling, the administration and interpretation of various career inventories, occupation information, assistance researching career fields, and academic planning for employment.

**Part-Time Employment.** Part-time employment can be an important part of the total education experience. A part-time job listing service is maintained in Career Development as a means to assist students in securing employment on campus or within businesses in the area. A variety of jobs are available to Angelo State University students and can be accessed through the Career Development website. But please be aware studies indicate that grades begin to suffer when students don’t limit the number of hours worked to less than 20 per week.

**Job Search.** Career Development offers assistance with the various components of a successful job search, including resume writing, interviewing skills, networking, dining etiquette, salary negotiation, and more. Many helpful resources can be accessed through the Career Development website.

For more information or to schedule an appointment, contact Career Development at 325-942-2255 or come by the office located in the Houston Harte University Center, Room 107.

**Houston Harte University Center**

The facilities, services, and programs of the Houston Harte University Center provide for a wide variety of out-of-class student activities on an individual or organized basis. In addition to recreational and dining facilities, the Center contains several lounges, offices for the University Center Program Council, offices for student government, the Business Services Offices (where building management, campus reservations, and vending services reside) and the Campus Information Desk. The Office of Student Affairs is located there along with Student Life, the Center for Student Involvement, Multicultural and Student Activities Programs, Career Development, the Veterans Educational and Transitional Services Center, Ram Central Station (ASU bookstore), the campus banking center, the campus post office, meeting rooms, a spacious conference center, and the West Texas Collection. For more information about the Houston Harte University Center, call 325-942-2021 or email reservations@angelo.edu. To submit an on-campus reservation request please go to Reservations.

**VETS Center**

Veterans Educational and Transitional Services (VETS) Center. The VETS Center, located on the north side of Houston Harte University Center, was created to assist military veterans, active duty, guard and reserve service members, and their dependents in their pursuit of higher education. To that end, the university works in cooperation with the U.S. Department of Defense (DoD), U.S. Department of Veterans Affairs (VA) and other off-campus resources (including the Texas Veterans Commission [TVC] Hazlewood Exemption) to help our customers achieve their academic goals. The VETS Center provides assistance on how to apply for DoD, VA, and TVC education benefits. We also provide a computer lab, a recreational lounge area, and a quiet study environment for our learning community.

**Tuition Assistance (T/A) Scholarship.** Angelo State University offers a T/A scholarship for service members who use their Tuition Assistance while attending the university. The scholarship covers the cost difference between what T/A and any other gift aid (such as grants and scholarships) covers and the actual cost of tuition and fees for those courses authorized on the TA form. This allows service members using T/A to attend the university at no cost to the student.

**Points of Contact.** Telephone: 325.486.8387; Fax: 325.942.2080; Email: VETS@angelo.edu

**Student Government Association (SGA)**

Angelo State University’s Student Government Association (SGA) is a student organization that makes decisions which have an impact on the ASU campus as a whole. SGA projects and initiatives tackle everything from studies to strategy and planning of the university’s master plan. The SGA also gets the real-world experience of working with administration, faculty, and staff on committees that shape our campus from all areas including parking, facilities, housing, food, finance, health services, academic programs, and much more. Approximately 30 students serve on campus committees and give their input about new ASU projects and initiatives.

Senators serve one-year terms with elections in the spring. The SGA meets bimonthly and includes positions for freshmen looking to get involved. The possibilities of student life improvement are endless. The SGA works to ensure the best quality of education and college life that Angelo State University can offer. The SGA office is located in the Center for Student Involvement in the lower level of the Houston Harte University Center. More information on the Student Government Association is provided on our website.
The Family Educational Rights and Privacy Act of 1974 (20 U.S.C.A. Section 1232g) protects certain rights of students who are enrolled in a post-secondary institution relative to their educational records. The Act grants students:

1. The right to inspect and review their education records within 45 days of the day Angelo State University receives a request for access. Students should submit to the registrar, dean, chair of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask Angelo State University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If Angelo State University decides not to amend the record as requested by the student, Angelo State University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Angelo State University to comply with the requirements of FERPA.

Prior to disclosure of any personally identifiable information other than directory information, except as allowed by the regulations, the University must obtain the written consent of the student and then must maintain a record of the disclosure. The categories included as directory information at Angelo State University which routinely will be made public upon request or published in appropriate University publications are:

- The student’s name, local and permanent mailing address, photograph, major and minor fields of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, team photographs, dates of attendance, classification, enrollment status, degree candidate, degrees, awards and honors received, and type of award/honor, previous educational agency or institutions, and hometown.

Students who desire that their directory information not be released must submit a written request to the Registrar’s Office. Forms for submitting the written request to withhold directory information are available in the Registrar’s Office.

Access to Student Records

The Family Educational Rights and Privacy Act of 1974 provides that students be apprised of the location of their educational records and the administrator responsible for their maintenance. Student records are filed in a variety of offices as listed in the Student Handbook. The administrative officers are responsible for the records under their control and for the appropriate release of information contained in these records. Angelo State University forwards educational records to other educational institutions in which a student seeks or intends to enroll without providing any further notice to the individual regarding the transfer of the records.

Alcohol and Controlled Substance Violations: Parental Notification Policy (FERPA)

The Executive Director of Student Affairs is responsible for determining if and by what means parents or legal guardians will be notified when students under the age of 21 are found to have committed serious or repeated violations of federal, state, or local law, or University policies related to the possession, use, or distribution of alcohol or a controlled substance.

Notification of parents or legal guardians for a violation of federal, state, or local law or institutional policy regarding alcohol or a controlled substance is indicated in any of the following circumstances:

- The violation involved harm or threat of harm to self, other persons, or property.
- The violation involved an arrest in which the student was taken into custody.
- The violation suggests a pattern of alcohol or controlled substance abuse.
- The student who committed the violation required medical intervention or transport as a result of consumption of alcohol or a controlled substance.
- The violation resulted in, or could result in the student being disciplined by the University including but not limited to: housing contract probation, housing contract cancellation, disciplinary probation, deferred suspension, suspension, or expulsion.
The University supports students assuming personal responsibility and accountability for their actions as they learn to establish their own independence. The University also recognizes that the process of establishing personal independence requires support and, at times, assistance or intervention from others. In the appropriate circumstances, notification of parents or legal guardians can be a means of support in that transition for students. Consistent with this approach, the Executive Director of Student Affairs or his/her designee—whenever possible—will involve the student in a discussion about the decision to notify his/her parents or legal guardian and will inform the student that notification will take place.

Nothing in these guidelines shall prevent University officials from notifying parents or legal guardians of health or safety emergencies, regardless of the judicial status of the student.

### Student Organizations

College is a time of learning: learning about oneself, learning about the ideas of others, learning about career opportunities, learning technical skills, learning to relate with others, learning to make responsible decisions, learning to function effectively in a new environment, learning to ask significant questions, and learning to seek significant answers. All of these are part of the college experience.

Coupled with the need for those skills, however, is the need to develop other skills which may not be taught directly in the classroom, such as budgeting, interpersonal relations, delegation, motivation, hands-on problem-solving techniques, long-range planning, program evaluation, personal evaluation, etc. The effective development of these other skill areas can be just as important to your eventual career success as the skills you learn in the classroom.

With over 100 student organizations ranging from academic and honors to spiritual life and club sports, ASU Student Organizations has something for everyone. Visit the [Student Organizations website](#).

### Athletics

Intercollegiate athletics is an integral part of student life at Angelo State. Intercollegiate teams for men include football, basketball, baseball, outdoor track and field, cross country, and indoor track and field. Intercollegiate teams for women include volleyball, soccer, basketball, softball, outdoor track and field, cross country, indoor track and field, tennis, and golf.

Angelo State is a member of the National Collegiate Athletic Association (NCAA) Division II and the Lone Star Conference. The Lone Star Conference is composed of teams from Texas, Oklahoma, and New Mexico.

Intercollegiate Athletic Offices are located in the Junell Center Stephens Arena as are team locker rooms, two weight rooms, and sports medicine facilities. The Norris Baseball Clubhouse is home to the Rams baseball and softball program. The football team plays on campus at the LeGrand Stadium at 1st Community Credit Union Field directly south of the Junell Center. Both men’s and women’s basketball and volleyball compete in the Junell Center Stephens Arena which seats 5,500.

The LeGrand Sports Complex features a 400 meter, all-weather track and has hosted the NCAA Division II Outdoor Track and Field National Championships five times, most recently in spring 2009. The Rambelle softball team plays at Mayer Field, a 750 seat facility that has hosted several NCAA South Central Regional and Super Regional Championships. The baseball team plays at Foster Field at 1st Community Credit Union Stadium, a 4,200 seat facility located on the ASU campus across from the Junell Center.

### University Recreation and Intramurals

University Recreation (UREC) engages the campus community by stimulating growth and development of healthy lifestyles through participation opportunities and educational experiences in the areas of aquatics, fitness, instruction, intramural sports, open recreation, outdoor adventures, wellness, and youth programs. Activities range from popular team and individual/dual sports, Ram-X fitness classes, personalized fitness training, outdoor trips and workshops, and educational classes such as lifeguarding, water safety, and first aid/CPR training.

The Ben Kelly Center for Human Performance Building is a 100,000 square foot facility, which includes a 40’ climbing tower and bouldering area, weight room of 60 cardio pieces with free weight and pin select strength training equipment, three lane indoor track, 25-meter natatorium, four court gymnasium, multipurpose room, dance studio, locker rooms, and four racquetball courts.

The University maintains a large, attractive lakehouse and recreational facilities at nearby Lake Nasworthy. These facilities provide students with excellent opportunities for social events and for recreational activities such as swimming, boating, kayaking, sand volleyball, picnicking, outdoor basketball, and water skiing. Visit the [UREC website](#).

### General Statement Concerning Student Life

Attendance at a tax-supported educational institution of higher learning is optional and voluntary. By such voluntary entrance into the academic community of Angelo State University, students voluntarily assume the obligations of performance and behavior imposed by the University relevant to its lawful missions, processes, and functions. These obligations are in addition to those imposed on all citizens by the civil and criminal law.

When students enter Angelo State University, it is assumed they have serious purpose and a sincere interest in their own social and intellectual development. They are expected to learn to cope with problems with intelligence, reasonableness, and consideration for the rights of others; to obey laws and ordinances of the nation, the State of Texas, and community of which they, as well as their University, are a part; and to conduct themselves peaceably in espousing changes they may consider necessary. As they prize rights and freedoms for themselves, they are expected to respect the rights and freedoms of others.

Students are subject to federal, state, and local laws as well as University regulations and policies. A student is not entitled to greater immunities or privileges before a law than those enjoyed by other citizens generally. Students are subject to such reasonable disciplinary action as the administration of the University may consider appropriate, including suspension, dismissal, and expulsion in appropriate cases, for breach of federal, state, or local laws, or University regulations or policies. This principle extends to conduct off campus which is likely to have adverse effect on the University or on the educational process.

### University Policies, Rules, and Regulations

University policies, rules, and regulations relating to Angelo State University students are made with the view of protecting the best interests of the individual, the general welfare of the entire student body, and the educational objectives of the University. Specific University policies, rules, and regulations governing student conduct adopted by the Board of Regents and the Administration of Angelo State University are provided in the Code of Student Conduct published in the Student Handbook. It is the responsibility of each student to become informed regarding these policies, rules, and regulations and to abide by them at all times.
Travel Management Policy and Procedures

As per SB 263 of the 77th Texas Legislature, Angelo State University maintains a policy that regulates student travel.

Angelo State University
Student/Group Travel Management
Policy and Procedures

1. General
These procedures apply to anyone who engages in transporting students on any university business or related travel activities. On a case-by-case basis, the vice president for finance and administration or designated representative may authorize exceptions to these procedures.

The following procedures are minimum standards; departments may mandate additional procedures. These procedures pertain to students who travel more than 25 miles from campus to an activity or event that is organized and sponsored by the institution and that is (a) funded by the institution and the travel occurs using a vehicle owned or leased by the institution, or (b) required by a student organization officially registered at the institution. These procedures also apply to commercial transportation and privately owned vehicles.

State appropriated funds cannot be used to pay for student travel.

2. Board Authorization
The university president is authorized by the Board of Regents of The Texas Tech University System to establish and administer regulations and procedures for the efficient management of the university. The enabling legislation of this policy is SB 263 of the 77th Texas Legislature. (Refer to Texas Education Code, Chapter 51, Section 51.950.) Said legislation and the university president represent the controlling authority of this policy and procedures.

3. Travel Requirements and Planning
A. Student Travel Requirements

(1) Student Travel (departmental or organization)
A benefits eligible employee (faculty, staff, or applicable teaching assistant) must be accountable for out-of-town trips involving departmental student groups or sponsored student organizations and ensure that all travel documents are completed prior to travel. An accountable employee must accompany the students unless prior approval to travel without accompaniment is granted by the vice president of student affairs and enrollment management on the Student/Group Travel Form.

(2) Students Traveling to Present Research Papers
Students traveling to professional conferences to present their research are not required to have an employee accompany them. The steps outlined in 3.B. below are applicable, and a benefits eligible employee (faculty member or academic administrator) must be accountable for the student’s travel.

B. The accountable employee must complete the following steps:

(1) Submit a Pre-Approval under the name of the employee accountable for the trip, including the name(s) of the student(s). (For Cash Advance Requests, see section 4.)
   a. Any University paid expenses (airfare, hotel, rental car) should be indicated on the Pre-Approval.
(2) Complete Student/Group Travel Form.

3. Travel Requirements and Planning

   a. Any University paid expenses (airfare, hotel, rental car) should be indicated on the Pre-Approval.
(2) Complete Student/Group Travel Form.

4. Student Travel Advances
A. Travel Advances

(1) Cash advances will be given only to the employee accountable for the student travel and expenses. An approved Expense Report requesting an advance must be received by the Travel Office at least five (5) working days prior to the trip.

B. After the trip, the accountable employee must submit an Expense Report within fifteen (15) days after the trip and attach all required documentation. Only the expenses for the employee accountable for the trip can be included with the students’ expenses on the expense report; however, employees can include their travel on the student expense report if the student travel is for the following:

(1) Coaches or directors for band, choir, or athletics.

(2) Faculty or other full-time employees accompanying student group travel for academic conferences, competitions, or presentations of papers.

Any other employees who accompany the students must complete an individual Pre-Approval and Expense Report with accompanying documents.

The only time faculty or staff meals are reimbursable for non-overnight travel is when a faculty or staff member travels as part of a student group.

C. Any unused funds should be returned to the Student Accounts Office with the Expense Report. If the Expense Report exceeds the amount of the advance, a reimbursement check will be issued to the accountable employee for the difference.

D. The accountable employee who fails to submit the Expense Report and unused funds within the allotted time for two trips will be denied any future advances. Exceptions to this policy will be handled on an individual basis. The employee must contact the Travel Office and explain the need for an extension.

In addition to following these procedures, employees and students are required to comply with all operating policies for university travel.
5. **Reserving Vehicles through State-Contracted Rental Companies**
   A. Reservations for rental vehicles must be made by an accountable employee in the department. Students and temporary/casual employees cannot reserve rental vehicles.
   B. Employees can use a state corporate travel card, a personal credit card, or request to use direct billing through Enterprise. The rental company cannot accept purchase orders to reserve vehicles.
   C. Personal Accident Insurance (PAI) must be purchased through the rental company for students traveling in rental vehicles.

6. **Driver Eligibility and Vehicle Safety Requirements**
   For information on driver eligibility and vehicle safety requirements, please refer to Operating Policy 36.03. In the event of a vehicle accident or breakdown, the employee or sponsor accompanying the students should contact his/her department and provide an update on the travel itinerary.

7. **Commercial Transportation**
   Students traveling by commercial transportation must comply with all federal laws regulating travel and the rules of the specific carrier, including laws and rules regarding carry-on baggage and baggage weight restrictions.

8. **Trip Insurance**
   Angelo State University does not provide trip accident insurance for individuals not employed by the university. Contact the Office of Environmental Health, Safety and Risk Management regarding optional trip insurance which is available at a reasonable cost.
Teacher Certification

Candidates applying for the Clinical Teaching (Student Teaching) Program must:

- Attend a clinical teaching (student teaching) application meeting in the long semester prior to clinical teaching (student teaching).
- Submit an application for clinical teaching (student teaching).
- Submit all required forms (See College of Education Calendar for deadlines.) Application forms are available on the College of Education website.
- A degree plan or post-baccalaureate certification plan must be on file in the College of Education office prior to applying to clinical teaching (student teaching).

At the time of application, all applicants must have completed:

- All of the criteria for admission to the Educator Preparation Program,
- A minimum of 95 SCH with a cumulative grade point average of 2.75, and
- All applicable requirements listed below.

All applicants must possess sound physical health, sound mental health, and acceptable moral character. The Admission, Retention, and Dismissal Committee may require the candidate to undergo physical and/or psychiatric evaluation.

Clinical Teaching (Student Teaching) Eligibility Requirements

Note: Candidates should consult their degree plans for reference to required courses in their major. Any deficiencies or requirement listed below must be corrected:

- By the end of the second summer term for fall clinical teaching (student teaching), or
- By the end of the fall semester for spring clinical teaching (student teaching).
Certification: Grades 7 to 12 and All-Level

Candidates pursuing grades 7 to 12 or all-level certification in an area where the semester hour requirement for the major is:

- If the degree major has 30-42 semester hours must have grade point averages in the major of 2.75 (cumulative) with no grade lower than a “C” in all required courses completed and must have completed a minimum 24 semester hours (including 9 advanced hours) in order to be eligible to clinical teach.
- If the degree major has more than 42 semester hours must have grade point averages in the major of 2.75 (cumulative) with no grade lower than a “C” in all required courses completed and must have completed a minimum of 48 semester hours (including 18 advanced) in order to be eligible to clinical teach.
- Candidates must have completed all required advanced Pedagogy and Professional Responsibilities courses (Education 4321, Education 4322, Educational Psychology 3303 and Reading 4320) with grade point averages of 2.75 (cumulative) with no grade lower than a “C” in order to be eligible to clinical teach.

Candidates seeking additional certification areas must meet the same requirements as listed above.

Certification: Early Childhood Education to Grade 6 and Grades 4 to 8

Candidates pursuing Early Childhood Education to Grade 6 and Grades 4 to 8 certification must complete the following to be eligible to clinical teach.

- Except for courses used as electives, a grade of “C” or better is required on all course work.
- Candidates pursuing Early Childhood to Grade 6 certification must complete all courses in the interdisciplinary major in order to be eligible to clinical teach with a cumulative GPA of at least 2.75 with no grade lower than a “C”. All candidates are required to complete Practicum courses as a block prior to clinical teaching (student teaching), with a GPA of at least 2.75 with no grade lower than a “C”.
- Candidates pursuing 4-8 certification must complete all courses in the interdisciplinary major with a cumulative GPA of at least 2.75 with no grade lower than a “C” in order to be eligible to clinical teach. Candidates are required to complete Practicum I courses as a block prior to clinical teaching (student teaching).

The Admission, Retention, and Dismissal Committee of the Teacher Education Council must approve all applications for clinical teaching (student teaching). Candidates who wish to appeal any of the admission requirements must petition the Chair.

TExES Approval Procedure

- The College of Education Certification Advisor must receive approval from the candidate’s major department before he or she will be allowed to register for a content area examination.
- Candidates must have met the requirements and been admitted to the Educator Preparation Program.
- Candidates will be approved to take the Pedagogy and Professional Responsibilities examination during the clinical teaching (student teaching) semester.

TExES Registration Procedure

Registration for the TExES examination is online. Instructions for the online registration process are located on the College of Education website. Candidates needing special testing arrangements should notify the Certification Advisor for registration assistance.

Recommendation For Certification

In order for Angelo State University to recommend a candidate for certification, the candidate must have earned a 2.75 overall grade point average, must have completed all required courses in the teacher certification areas with a grade point average of 2.75 and with no grade lower than a “C”. In addition, the candidate must have earned a 2.75 grade point average in all advanced Education and Reading courses. All other university requirements must be completed and the candidate must possess a degree. All required state certification tests must be passed. The candidate must also continue to demonstrate sound physical health, sound mental health, and acceptable moral character.

It is the candidate’s responsibility to inform the College of Education that all certification requirements have been completed, and to ensure that all appropriate forms and fees have been submitted. Individuals must apply for certifications online at the State Board for Educator Certification’s website.
**Teacher Certification Content Areas**

**Elementary Certifications - Early Childhood - Grade 6**
- EC-6 Generalist
- EC-6 Generalist with EC-12 Special Education

**Middle School Certifications - Grades 4 - 8**
- 4-8 English Language Arts and Reading *
- 4-8 Generalist
- 4-8 Mathematics *
- 4-8 Mathematics-Science *
- 4-8 Science *
- 4-8 Social Studies *

**Secondary Certifications**
- 6-12 Agriculture, Food and Natural Resources
- 7-12 Chemistry *
- 8-12 Computer Science *
- 7-12 English Language Arts and Reading
- 7-12 History
- 7-12 Journalism (Mass Media)
- 7-12 Life Science (Biology)
- 7-12 Mathematics
- 7-12 Mathematics-Physics *
- 6-12 Physical Science *
- 7-12 Social Studies
- 7-12 Speech (Communication)
- EC-12 Technology Applications *

**All-Level Teacher Certifications - Grades EC-12**
- Art *
- French *
- German *
- Music
- Physical Education *
- Spanish
- Theatre

**Supplemental Certifications**
- English as a Second Language *
- Special Education Supplemental Certification

* These certification areas are no longer offered in a degree format. Students interested in obtaining certification in these areas may do so in a post-baccalaureate program. You may contact the Educator Preparation Information Center (325-942-2209) for information and assistance.
Notice: The regulations are based upon present conditions and are subject to change without notice.

### Student Responsibility

Each student is responsible for knowing the academic regulations in the University Catalog. Unfamiliarity with these regulations does not constitute a valid reason for failure to fulfill them. Eligibility to register at each registration period must be determined by the student. A student has the responsibility to register only in courses for which he or she is eligible. If a student registers in a course for which he or she is ineligible, the student may be administratively dropped without receiving any credit for work done.

### General Information

**The Academic Year.** The college year consists of a long session and a summer session. The long session is divided into the fall semester and the spring semester, each approximately fifteen weeks long, including registration, holidays, and final examinations. The summer session is divided into two terms.

**Semester Credit Hour.** The semester credit hour (SCH) is the basic unit of credit. As a rule, one semester credit hour of academic credit is given for each lecture class hour per week for a fifteen week semester. In laboratory or studio situations, one semester credit hour normally is given for two to five contact hours per week for a fifteen week semester. During eight-week terms and summer sessions, the student earns semester credit hours for class contact hours which are essentially equivalent in number to those provided in the long semesters. Where semester hour is used in this Catalog, it is synonymous with semester credit hour (SCH).

### Classification of an Undergraduate Student

A student is classified according to the number of semester hours successfully completed:

<table>
<thead>
<tr>
<th>00-29</th>
<th>Freshman</th>
</tr>
</thead>
<tbody>
<tr>
<td>30-59</td>
<td>Sophomore</td>
</tr>
<tr>
<td>60-89</td>
<td>Junior</td>
</tr>
<tr>
<td>90 or more</td>
<td>Senior</td>
</tr>
</tbody>
</table>

On the basis of semester credit hour load, a student is classified as part-time or full-time during the academic year. A full-time student is one who is enrolled for at least twelve semester credit hours during a semester. A part-time student is one who is enrolled for fewer than twelve semester credit hours during a semester. A full-time student during the Summer I term is one who is enrolled for six or more semester credit hours for that term. A full-time student during the Summer II term is one who is enrolled for six or more semester credit hours for that term. The part-time student is subject to the same academic regulations as the full-time student.

### Student Participation in Testing and/or Evaluation and Assessment

The State of Texas mandates various testing programs for students attending public universities; and the Southern Association of Colleges and Schools Commission on Colleges, the collegiate accrediting body for post-secondary degree-granting institutions in Texas, requires that accredited institutions establish adequate procedures for evaluating the effectiveness of their instructional programs and the achievement of their educational goals. In carrying out these responsibilities, Angelo State University will require such testing of its students or conduct such other programs of evaluation as required by law or deemed necessary or appropriate at the sole discretion of the faculty and administration. Such tests or programs of evaluation will be initiated, implemented, or administered at any time without prior notice to or the approval of any student who is enrolled or who is planning to enroll in Angelo State University.

Many departments require that students complete a comprehensive examination of learning outcomes within their major prior to graduation. The results of this examination will become part of each student’s record.

### Texas Success Initiative (TSI)

#### Purpose.

The Texas Success Initiative (TSI) was established by the State Legislature to assess the readiness of entering college students to enroll in college-level academic course work and to assist students who are not yet ready to enroll in that course work by providing advising and educational support necessary for college success. See ASU’s TSI website for additional information.

#### Testing Requirements.

Each undergraduate student, unless otherwise exempt, who enters a public institution of higher education will be tested for reading, writing, and mathematics skills prior to enrolling in any college-level academic course work. To satisfy this requirement, the student will be required to take the state-approved Texas Success Initiative Assessment (TSIA). High school students who are not exempt should take the TSIA as soon as they become eligible, preferably before they graduate from high school. A student who transfers to Angelo State University from a private or out-of-state institution must meet TSI requirements prior to enrolling in any college-level academic course work by 1) passing all sections of a TSIA; or 2) having earned a grade of “C” or better in an appropriate college-level course approved by Angelo State University.

Angelo State University will administer the TSIA on designated dates. Students who need to take the TSIA in order to become eligible to enroll in college-level academic courses must make arrangements for testing through ASU’s Testing Center. Visit the Testing Center website.

A student who is not exempt and has not been tested for reading, writing, and mathematics skills prior to enrolling at Angelo State University may enroll in course work only under exceptional circumstances. The Coordinator of Developmental English in the Department of English and Modern Languages and the Coordinator of Developmental Mathematics in the Department of Mathematics will determine a TSI assessment waiver on a case-by-case basis.
TSI Exemptions. Exemption from TSI requirements will be granted to any student who:

I. Has achieved the minimum score on the tests specified below:
   A. ACT - a composite score of at least 23 with a minimum score of 19 in the English section will exempt the student from both the reading and writing sections of the TSIA, and/or 19 in the mathematics section will exempt the student from the mathematics section of the TSIA;
   B. SAT - administered prior to March 2016: A combined score of 1070 or higher AND at least a 500 on the Critical Reading and/or Mathematics tests is required for the SAT TSI Exemption. If the student does not satisfy the combined requirement first, then he/she will not be eligible for this exemption.
   C. SAT - administered on or after March 5, 2016: A minimum score of 480 on the Evidence-Based Reading and Writing test shall be exempt for both TSI reading and writing. A minimum score of 530 on the Mathematics test shall be exempt for TSI math;
   D. TAKS - on the eleventh grade exit-level TAKS, a minimum score of 2200 on the English Language Arts section with a writing sub-score of at least 3 will exempt the student from both the reading and writing sections of the TSIA, and/or a minimum scale score of 2200 on the mathematics section will exempt the student from the mathematics section of the TSIA,
   E. STAAR EOC - a minimum score of Level 2 on the English III STAAR EOC will exempt the student from the reading and writing sections of the TSIA, and/or a minimum score of Level 2 on the Algebra II STAAR EOC will exempt the student from the mathematics section of the TSIA.

For exemption purposes, test scores may be no more than five years old.

II. Has completed the coursework specified below:
   A. Degree - an associate or baccalaureate degree awarded from an institution of higher education will exempt the student from the TSIA,
   B. Transfer - satisfactory completion of college-level coursework as determined by Angelo State University from an accredited institution of higher education will exempt the student from the appropriate section of the TSIA,
   C. Completion - satisfactory completion of readiness standards at any Texas institution of higher education will exempt the student from the appropriate section of the TSIA.

III. Has earned a military exemption:
   A. Active Duty - active duty service as a member of the armed forces of the United States or the Texas National Guard will exempt the student from the TSIA,
   B. Reserves - current service as a member of a reserve component of the armed forces of the United States combined with service for at least the three years preceding enrollment will exempt the student from the TSIA,
   C. Prior Service - an honorable discharge, retirement, or release from active duty as a member of the armed forces of the United States, the Texas National Guard, or a reserve component of the armed forces of the United States occurring on or after August 1, 1990, will exempt the student from the TSIA.

Other students, including certain non-degree-seeking students, may be exempt from the TSIA. A student’s exempt status will be determined by the appropriate Developmental Coordinator. Deferrals for students with extraordinary circumstances may also be granted by the appropriate Developmental Coordinator.

Passing Standards. The minimum passing standards for the three skill areas on the TSIA have been set by the Texas Higher Education Coordinating Board as follows: Mathematics—350; reading—351; Writing—essay score of 5, or an essay score of 4 with a multiple choice section score of 480 on the Evidence-Based Reading and Writing test shall be exempt for both TSI reading and writing. A minimum score of 530 on the Mathematics test shall be exempt for TSI math.

Developmental Education. A student who is not exempt and scores less than the minimum passing standard in any skill area must enroll in a prescribed developmental activity for that area during the initial period of enrollment, and must remain continually enrolled in developmental activities until that student has satisfied TSI requirements. Non-exempt students who do not meet the minimum standards will be placed in the appropriate developmental activity as determined by a holistic consideration of their background and abilities by the appropriate Developmental Coordinator.

An Angelo State University student may satisfy TSI requirements in four ways:

- pass the TSIA in the appropriate skill area,
- pass the appropriate T-section of a college-level course,
- successfully complete non-course-based developmental activities as prescribed by the appropriate department,
- secure one of the TSI exemptions listed above.

Refer to the department sections of English and Modern Languages page 68 and/or Mathematics page 118 for a more detailed description of developmental programs for the various skill areas.

Learning Disabilities. Angelo State University considers all federal laws pertaining to individuals with disabilities when assessing and advising students who fail to meet the minimum passing standards of the TSIA.

Performance on the TSIA shall not be used as a condition for admission to Angelo State University or to any degree program the university offers.

All testing fees and costs for developmental activities are the responsibility of the student.

Name Change

Only a valid social security card will substantiate a legal name change for a student. A name change form and social security card must be submitted to the Office of the Registrar prior to the student’s next registration. Registration under a name different from that used in the student’s last enrollment cannot be accomplished without the above certification, which becomes a part of the student’s permanent file. All grade reports and transcripts are issued under the student’s legal name as recorded in the Office of the Registrar.
Academic Regulations

Numbering of Courses

The four-digit numbering system is based upon the following criteria: The level of the course is identified by the first number as follows: freshman, 1; sophomore, 2; junior, 3; senior, 4; and graduate, 5 and 6, with the exception of graduate Physical Therapy which uses 7. The semester credit hour value is identified by the second digit. The University and/or departmental codes are identified by the last two digits.

For an Angelo State University academic course which is equivalent to an academic course offered at a Texas state two-year college, the common course number assigned to the two-year colleges will be listed also. The Angelo State course number will be listed first followed by a slash, then the common course number. For example: Mathematics 1314 would be listed as 1314/1314.

In the portion of this Catalog dealing with curriculum and courses, descriptive titles of courses may be followed by two numbers in parentheses. The first number gives the number of lecture hours each week; the second gives the number of laboratory hours each week. For example, (3-2) indicates three hours of lecture and two hours of laboratory each week. Where three numbers appear, the last number refers to clinical supervision as in Nursing 3206 (1-0-3).

Maximum Course Loads

One Long Semester. A normal full course load for undergraduate students in a long semester is fifteen to eighteen semester credit hours. An undergraduate student with good academic standing (2.00 or better) may enroll for a maximum of eighteen semester credit hours. Students with a grade point average of 3.00 or better may be approved for a maximum of twenty semester credit hours by the chair of their academic major department or by the appropriate college dean. Approval for course loads larger than the stated maximums may be given by the appropriate college dean only in exceptional circumstances and when the student has a grade point average of 3.50 or higher.

Summer Session. A student may enroll for six to seven semester credit hours for each summer term. The total load for the entire summer session shall not exceed fourteen semester credit hours, except that fifteen semester credit hours may be allowed for the graduating senior. Approval for course loads larger than the stated maximums for the summer session may be given by the appropriate college dean in exceptional circumstances only when the student has a grade point average of 3.50 or higher.

The stated maximum course loads for students enrolled at Angelo State apply to all courses in which the student is enrolled concurrently, whether in residence or elsewhere.

Penalty for Excessive Course Load. Any student who registers for more semester credit hours than is allowed by this policy during any semester or summer term shall be required to drop the excess course load at such time as the student course loads are audited by the University.

Excess Undergraduate Credit Hours Rule

Texas Education Code, Section 54.014 and 61.0595 (45-Hour Rule)

Purpose

This subchapter provides financial incentives for institutions to facilitate the progress of undergraduate students through their academic programs and incentives for students to complete their degree programs expeditiously.

Authority

Section 54.014 specifies the tuition that may be charged to students with excess hours. Section 61.0595 specifies the fundability of undergraduate credit hours.

Affected Students

• The limitation on funding of excess undergraduate credit hours applies only to hours generated by students who initially enroll as undergraduates in an institution of higher education in the 1999 fall semester or in a subsequent term. If a student has been enrolled as an undergraduate student in any public or private institution of higher education during any term prior to the 1999 fall semester, the student’s credit hours are exempt.

• Hours generated by non-resident students paying tuition at the rate provided for Texas residents are subject to the same limitations as hours generated by resident students.

Limitation on Formula Funding

Funding of excess undergraduate credit hours is limited as follows:

I. Universities and health-related institutions may not submit for formula funding hours attempted by an undergraduate student who has previously attempted 45 or more semester credit hours or its quarter-hour equivalent beyond the minimum number of hours required for completion of the degree program in which the student is enrolled.

II. An undergraduate student at a four-year institution who is not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours.

III. Students who enroll on a temporary basis in a university or health-related institution and are also enrolled in a private or independent institution of higher education or an out-of-state institution of higher education are considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours.

IV. For the purposes of the undergraduate limit, an undergraduate student who has entered into a master’s or professional degree program without first completing an undergraduate degree is considered no longer to be an undergraduate student after having completed the equivalent of a bachelor’s degree or all of the course work normally taken during the first four years of undergraduate course work in the student’s degree program.

V. For the purposes of the undergraduate limit, students are treated for funding purposes as having whatever major they had on the official census day of the term in question. If a student changes majors during a term, that act does not retroactively change his/her eligibility under the limit.
VI. The following types of credit hours are exempt and do not count toward the limit:

A. hours earned by the student before receiving a baccalaureate degree that has been previously awarded to the student;
B. hours earned through examination or similar method without registering for a course;
C. hours from remedial and developmental courses, technical courses, workforce education courses, or other courses that would not generate academic credit that could be applied to a degree at the institution;
D. hours earned by the student at a private institution or an out-of-state institution; and
E. any hours not eligible for formula funding.

**Tuition Charged to Affected Students**

An institution of higher education may charge a higher tuition rate, not to exceed the rate charged to nonresident undergraduate students, to an undergraduate student whose hours can no longer be submitted for formula funding because of the funding limit defined in section 13.114 of this title (relating to Limitation on Formula Funding).

For further information, contact the Registrar’s Office.

---

**Undergraduates Receiving Graduate Credit**

A senior undergraduate student who has an overall 3.00 or better grade point average, has completed at least 100 semester credit hours of academic work toward a baccalaureate degree and submits an application for admission and a letter of intent may, with the approval of the Dean of the College of Graduate Studies and Research, be granted senior-graduate status and register for a maximum of six semester credit hours of graduate-level work, provided that the total number of semester credit hours in a semester does not exceed 18 or a summer term exceed seven (7). The total number of graduate semester credit hours taken as a senior-graduate may not exceed six, and no course used on the degree plan toward a baccalaureate degree may be used also on a graduate degree plan. Senior-graduate students are eligible for integrated baccalaureate-master’s degree scheduling if their major departments offer such plans. To continue graduate studies, the individual must re-apply for admission and submit all documents required by the program.

---

**Credit by Examination**

Undergraduate students seeking their first baccalaureate degree may earn credit by examination at Angelo State University in a variety of fields. Selected College Level Examination Program (CLEP) General Examinations and Subject Examinations as well as local examinations are administered regularly in the University Credit by Examination Program.

Students who submit ACT or SAT scores to the University for admission purposes are eligible for credit in selected courses if 1) their test scores are high enough to qualify for credit, 2) they enroll at Angelo State University, 3) they satisfactorily complete a fall or spring semester and pass the applicable section of a Texas Success Initiative (TSI) Assessment test.

Credit by examination may also be earned through the Defense Activity for Non-Traditional Education Support (DANTES) Subject Standardized Tests (DSST exams). Score reports submitted for DSST exams that have not been approved will be sent to the dean for evaluation by the appropriate departments.

All examinations in the Credit by Examination Program are available throughout the year with the exception of the ACT, SAT, and some local examinations which have separate established schedules. CLEP examinations are given by appointment.

Advanced registration is required for CLEP examinations. Candidates must register through the Testing Center at least four weeks prior to the administration date.

Fees are charged for all examinations to cover costs of administration, test materials, scoring, and program development. Information on local examination fees, CLEP examination fees, and registration fees may be found online at the Testing Center website.

An individual who does not plan to register at Angelo State University and wishes to have scores forwarded to another institution must take a CLEP examination which is scored by the Educational Testing Service. ETS forwards the score to the designated institution. Since each college or university determines how it will use the CLEP examinations to award credit, individuals are urged to investigate the policies of the institution to which they plan to submit their scores. Information concerning the tests the institution recognizes, the required scores, essay requirements, and other conditions affecting the awarding of credit should be obtained from the institution prior to registering for any CLEP examination.

Students may also earn credit for specified Angelo State University courses by successful completion of Advanced Placement Examinations administered by the College Board in participating high schools. A score of 3 or higher is required to receive credit. The same policy guidelines apply to these examinations as they do to other tests in the credit by examination program.

The credit by examination program at Angelo State University is subject to the following policy guidelines.

- A student may take examinations for credit and have scores submitted to the Office of the Registrar at Angelo State University. However, credit by examination will not be entered on the permanent record until the student has successfully completed a semester or summer term of academic work at Angelo State University. Information about scores required for credit on specific examinations may be obtained from the Office of the Registrar.
- To receive credit by examination, a student must pass the appropriate examination with a score that qualifies for credit. If a student receives credit by examination for a course and that credit is entered on the student’s permanent record, the student cannot at a later date decide that the credit is no longer desired and have the course removed from the student’s transcript. However, a student may repeat a course for which credit by examination was earned by enrolling in a regularly scheduled class and earning a grade for the course which would replace the credit earned by examination.
- Prior to registering for a CLEP examination or local examination, Angelo State University students must obtain the approval of the dean of the college in which they are majoring. Once students have registered for the CLEP exam, they will have two months (60 days) in which to take the exam. Normally, students are permitted to receive credit by examination for courses except when they have completed advanced level work in a particular field and are seeking additional lower-division credit in the same field.
• A student is not allowed to earn credit by examination for any course in which the student has a grade of "A", "B", "C", "D", "F", "I", "P", "CR", "NC", or "AU". Credit by examination may not be earned for a course which is prerequisite to another course in the same discipline for which the student has already earned credit. When such lower-division courses are required in a student’s degree plan, the student is encouraged to seek a modification in the degree plan, substituting an advanced-level course for the lower-division course.

Credit earned by examination may not be used to reduce the residence requirements in any degree program.

None of the examinations in the University’s Credit by Examination Program may be taken more than one time in a six-month period.

ACT and SAT. Students scoring 29-31 on the English section of the ACT will receive credit for English 1301; 32 or above will receive credit for English 1301 and English 1302. Students scoring 28 or above on the Mathematics section will receive three semester credit hours in Mathematics 1314. Students scoring 29 or above on the Science Reasoning section will receive four semester credit hours in Physical Science (non-advanced credit with no ASU equivalent).

Students scoring 34-36 on the New SAT Reading Test will receive credit for English 1301; 37 or above on the New SAT Reading Test will receive credit for English 1301 and 1302. Those scoring 650 or above on the Mathematics section of the New SAT will receive three semester credit hours in Mathematics 1314.

Students who earn non-advanced, non-equivalent credit in physical science on the basis of ACT scores will not use this credit for fulfilling major, minor, or certification requirements. Any student eligible to receive credit based on ACT or SAT scores must have these scores on file in the Office of Admissions prior to the last day of the first semester enrolled. It is the student's responsibility to provide ACT or SAT scores to the Office of Admissions. Test scores cannot be older than five years. The credit will be awarded to the student in the first semester of enrollment. Credit will not be awarded after the student’s first semester at Angelo State University.

Credit by examination may be earned for the following courses. Credit by examination also may be earned for other University courses with the permission of the Provost and Vice President for Academic Affairs.

* Non-equivalent, non-advanced biology, criminal justice, geography, history, kinesiology, management, or physical science credit earned by passing one of these examinations will not be used for fulfilling major, minor, or certification requirements.
CLEP General Examinations. CLEP General Examination scores may be submitted for consideration for credit by individuals who have fewer than 30 semester credit hours, and in the examination areas in which they have not earned semester credit hours. For example, a first-year student who has earned no semester credit hours in the fine arts (art, drama, music) may take the CLEP General Examination in the humanities and submit the examination scores for credit. First-year students at Angelo State University who desire to take a CLEP General Examination for credit should determine with the dean of the college in which they are majoring that they are eligible for the credit sought prior to registering for the examination. Eligibility will be determined according to the courses for which the student has earned credit during the first year.

- Credit for physical science (non-advanced credit with no ASU course equivalent) will be allowed if the student has not earned semester credit hours for any chemistry, geology, physical science, or physics course.
- Credit for University Studies 2381 (humanities fine arts) will be given if the student has not earned semester credit hours for any art, music, or theatre course.
- Credit for University Studies 2381 (social sciences and history) will be given if the student has not earned semester credit hours in an anthropology, economics, geography, political science, history, psychology, or sociology course.

** Core-equivalent, non-advanced biology, criminal justice, geography, history, kinesiology, management, or physical science credit earned by passing one of these examinations will not be used for fulfilling major, minor, or certification requirements.

** The student who successfully completes the examination in political science must also successfully complete one of the following courses in order to graduate: Political Science 2306, 3303, 4301, 4302.

Angelo State University recognizes the International Baccalaureate (IB) Program. Students may receive credit if one of the following options apply:

**Option 1:** Angelo State University will award at least 24 semester hours of course specific credit in subject appropriate areas on all International Baccalaureate exam scores of 4 or above as long as the incoming freshman has earned an IB Diploma. The student must supply an official transcript indicating that the IB Diploma has been earned before any credit may be awarded. The credits are transferred, but not the grade. Credit earned in this manner may not be used to reduce the residence requirements in any degree program. Course credit will not be awarded on any IB exams where the score is a 3 or less. This may mean that the student will not receive 24 hours of college credit, even if he/she has an IB Diploma.

**Option 2:** If a student does not earn an IB Diploma, credit may be granted according to the following table. An official IB examination transcript must be sent to Angelo State University to receive credit. Credit earned in this manner may not be used to reduce the residence requirements in any degree program.

HL = Higher Level Exam  
SL = Standard Level Exam
Applying toward an Angelo State University degree. In some cases, academic wishes to enroll concurrently at another institution for correspondence work. An undergraduate student who is enrolled at Angelo State University and of which no more than eighteen may be earned through correspondence. Students may not repeat by correspondence any course in which a “D” or graduate. Students are discouraged from taking correspondence courses in the registration period in which they plan to graduate. If a student plans to use a correspondence course toward graduation or certification requirements, the student should plan ahead so that all work, including examinations, will be completed and official transcripts are received by Angelo State University at least three weeks prior to graduation. No correspondence course will be approved after the beginning of the semester in which the student plans to graduate.

Students may not repeat by correspondence any course in which a “D” or “F” has been earned at Angelo State University. Maximum course load limits apply to all courses attempted by the student who is enrolled at Angelo State, whether those courses are attempted at Angelo State or elsewhere.

Students must complete any approved correspondence courses within twelve months of the date of approval by the appropriate academic dean.

**Courses for which credit will be earned are determined by the Department of Visual and Performing Arts.

**Non-equivalent, non-advanced credit earned by passing this examination will be used as elective credit.

### Texas International Education Consortium, Inc.

Angelo State University is a member of the Texas International Education Consortium, Inc. (TIEC) which coordinates international education in Texas for institutions of higher education. TIEC engages in separate and joint pursuit of international education exchange and aids institutions of higher education in Texas in building better international education programs for students, faculty, visitors, and participants of other nations.

### Credit for Correspondence and Extension

Correspondence and extension courses are available for undergraduate students who are unable to enroll in residence courses. A student may transfer to the University from an accredited institution a total of thirty semester credit hours of undergraduate extension and correspondence work, of which no more than eighteen may be earned through correspondence.

An undergraduate student who is enrolled at Angelo State University and wishes to enroll concurrently at another institution for correspondence work must obtain approval from the appropriate academic dean if that credit is to apply toward an Angelo State University degree. In some cases, academic departments may designate courses in their degree programs which cannot be taken by correspondence because of lack of equivalency. Academic deans may not grant approval to take these designated courses by correspondence.

Students are discouraged from taking correspondence courses in the registration period in which they plan to graduate. If a student plans to use a correspondence course toward graduation or certification requirements, the student should plan ahead so that all work, including examinations, will be completed and official transcripts are received by Angelo State University at least three weeks prior to graduation. No correspondence course will be approved after the beginning of the semester in which the student plans to graduate.

Students may not repeat by correspondence any course in which a “D” or “F” has been earned at Angelo State University.

Maximum course load limits apply to all courses attempted by the student who is enrolled at Angelo State, whether those courses are attempted at Angelo State or elsewhere.

Students must complete any approved correspondence courses within twelve months of the date of approval by the appropriate academic dean.

### College Board Advanced Placement Tests

Students may earn credit for the following Angelo State University courses by successful completion of Advanced Placement examinations administered by the College Board in participating high schools. A score of 3 or higher is required to receive credit. The same policy guidelines apply to these examinations as to other tests in the credit by examination program.

* Courses for which credit will be earned are determined by the Department of Visual and Performing Arts.

** Non-equivalent, non-advanced credit earned by passing this examination will be used as elective credit.
Experiential Learning

Angelo State University does not award credit for non-academic experiences nor allow the use of experiential training toward a degree.

Enrollment Without Credit

A person who is approved for admission and who wishes to audit a course for no grade must obtain the permission of the chair of the department in which the course is offered, register for the course, and pay the appropriate tuition and fees.

The terms and conditions under which a student may participate in various aspects of the class shall be determined by and is subject to the approval of the faculty member conducting the class.

The student who audits a course does not enjoy the privilege of submitting papers or of receiving grades or credit for the course. However, the name of the student who audits a class does appear on the class roll with an Audit (AU) notation, and the audited course also is listed on the student’s permanent record with an Audit designation.

Any student auditing a class who is disruptive or otherwise distracts from the learning environment of the class may be dropped from the course.

With the approval of the chair of the appropriate academic department, a senior citizen who is 65 years of age or older may be allowed to audit certain courses offered by the University without payment of tuition or fees if space is available.

Information and paperwork may be obtained through the Registrar’s Office.

System of Grading

At the end of each semester and summer term, final grades are available to all students via the RamPort Web system.

The following grades are used with the grade point value per semester credit hour.

</tr>
</tbody>
</table>

The grade “I” is given when the student is unable to complete the course because of illness or personal misfortune. An “I” that is not removed before the end of the next long semester automatically becomes an “F”. A graduate student will be allowed one year to remove a grade of “I” before it automatically becomes an “F”. To graduate from ASU, a student must complete all “I”’s.

The grade “PR” is given only to a student registered in Thesis 6399 or 6699 who, during the semester, makes satisfactory progress, but does not complete the thesis project.

The grade “NP” is given only to a student registered in Thesis 6399 or 6699 who, during the semester, does not make satisfactory progress on the thesis.

To determine the grade point average, the total number of quality hours is divided into the total number of quality points received.

Quality hours are defined as hours for which a student registers and receives a grade of either “A”, “B”, “C”, “D”, or “F”.

A course may be repeated without accumulating additional quality hours. For example, a student who receives a grade of “F” or “D” in a course and then repeats the course and receives a grade of “C” will have three quality hours with six quality points awarded. However, a course may not be repeated which is part of a degree that has already been conferred.

The grade of “CR” is assigned only for credit earned by examination for a course in which the student does not actually enroll.

The grade of “P” is assigned only to courses designated in the Catalog as Pass/Fail courses.

The grade of “D” is not given in graduate courses.

A student earns quality (grade) points on the basis of the last grade (except for “AU”, “CR”, “I”, “NC”, “NP”, “P”, “W”, or “PR”) received in a course at ASU. Additional credit for a repeated course may not be awarded except as provided specifically in the course description.

NOTE: The student should be advised that professional schools and Texas graduate schools may compute the cumulative grade point average by including all courses taken, including those with repeated grades.

Dropping Courses. Courses may be dropped during the registration period and no grade will be assigned. Such courses will not be listed on the student’s permanent record. A student withdrawing from a course after the registration period, but prior to the deadline published in the university’s calendar will receive a “W” or “QW” grade in the course. Ceasing to attend class does not constitute a formal course drop, and failure to drop a course properly will result in a failing grade in the course.

Graduate Program

A grade point average of 3.00 or better on all graduate work completed on this campus is required for graduation. No course with a grade below “C” may be applied toward a master’s degree. Graduate students should note that a grade of “I” not removed within one year automatically becomes an “F”.

160

Angelo State University Undergraduate Catalog 2019-2020
Angelo State University’s grade grievance policy is governed by Operating Policy 10.03 and may be found on the Operating Policy and Procedures website.

Grade Grievance

I. Grade Grievances
   The assignment of a grade in a course is the responsibility of the faculty member and is based on the professional judgment of the faculty member. Except for issues of computation, discrimination, equal treatment, or reasonable accommodation when a documented student need is present in accordance with the Americans with Disabilities Act of 1990 (ADA) guidelines, the faculty member’s grade determination is final.

II. Initiating a Grievance with the Faculty Member
   Students having a grievance concerning a grade in a course of study should make every attempt to resolve the issue with the faculty member who has assigned the grade. Faculty members should listen to the concerns of the student, discuss and, if appropriate, negotiate resolution of the grade assigned to the student.

III. Appeal to the Department Chair or High School Principal (Off-Site Dual Credit)
   A. Should a student be unable to resolve the grievance with the faculty member (either because no resolution was reached with the faculty member or because the faculty member is on leave or not returning to the university), the student may file a written appeal to the department chair. Off-site dual credit students may file a written appeal to their high school principal.
   B. If the faculty member in question is the department chair or high school principal, the student should request that the dean of the college appoint a faculty committee to review the grievance.
   C. If the faculty member in question is the dean of the college, the department chair or high school principal, the student should request that the dean of the college appoint a faculty committee to review the grievance.
   D. The decision of the committee is final, and there is no further appeal through university channels.
   E. The college dean shall forward a written record of all grade grievances within the college inclusive of the outcome, resolution and the resolution date to the Provost and Vice President for Academic Affairs to be reviewed annually.

IV. Appeal to the College
   A. If the student or the faculty member wishes to pursue the grievance further, the student (or faculty member) must present the written request to the dean of the college in which the course is taught within 30 days of the departmental decision. This procedure is to be followed even if the dean of the college is the faculty member in question.
   B. The dean will appoint an ad hoc grievance committee from the college to review the case. If the dean of the college is the faculty member in question, one of the deans from the other colleges of the university will appoint a faculty committee (consisting of tenured faculty) from the college in which the course is taught to serve as the ad hoc committee. One member of the ad hoc committee will be from the department where the disputed grade originated.
   C. The committee will be provided the student’s written statement and evidence as well as the written report of the department chair and faculty member.
   D. The committee may conduct a hearing where the student and the faculty member may present information about the grievance.
   E. The committee will issue a written decision on the grievance to the dean of the college with copies to the student and faculty member.
   F. The decision of the committee is final, and there is no further appeal through university channels.
   G. The college dean shall forward a written record of all grade grievances within the college inclusive of the outcome, resolution and the resolution date to the Provost and Vice President for Academic Affairs to be reviewed annually.

Academic Honesty

The University expects all students to engage in all academic pursuits in a manner that is beyond reproach. Students will be expected to maintain complete honesty and integrity in their experiences in the classroom. Any student found guilty of any form of dishonesty in academic work is subject to disciplinary action.

Procedures for discipline due to academic dishonesty have been adopted by the Board of Regents and are published under the Section on Student Services and Activities in the University’s Student Handbook.

Special Requirements for Participation in Developmental Activities

Students who are not TSI complete are expected to participate fully in required developmental activities, including attending all class meetings of their “T-section” classes unless prevented from doing so by illness, bona fide emergencies, or circumstances beyond their control. Unauthorized absences may result in the deduction of points from the student’s semester average as specified in the course syllabus.

A written explanation of class attendance regulations is provided at the beginning of the semester to all students enrolled in “T-sections” of college-level English, mathematics, developmental reading, developmental writing and developmental study skills courses. A written explanation of class attendance regulations is provided at the beginning of the semester to all students enrolled in “T-sections” of college-level English or mathematics classes as part of the course syllabus.

Dropping a “T-section” Class

A student who is not TSI complete may drop a “T-section” course only by withdrawing from the University.
Academic Regulations

Schedule Changes

Adding Courses. Prior to the beginning of the semester and during the first four days of a Fall or Spring semester (or the first two days of a Summer session), students may add classes using the online self-service registration system. Students who need assistance with this process may come to the Office of the Registrar.

Dropping Courses. Prior to the beginning of the semester and during the first four days of a Fall or Spring semester (or the first two days of a Summer session), students may drop classes using the online self-service registration system. Students who need assistance with this process may come to the Office of the Registrar. Courses dropped during the registration period will not appear on the student’s permanent record, will not receive a grade, and will not be subject to the requirements of the TEC 51.907 policy.

A student dropping a course after the registration period, but prior to the deadline published in the University calendar, will receive a “W” or “QW” grade in the course (See TEC 51.907 Policy below). Ceasing to attend class does not constitute a formal course drop, and failure to drop a course properly will result in a failing grade in the course. Refer to the current schedule changes, course drop, and withdrawal information on the web for a complete description of the process.

TEC 51.907 Course Drop Limit Provisions

Students who enroll as entering freshmen or first-time in college students in undergraduate courses offered through an affected institution of higher education for the first time during the Fall 2007 semester or any subsequent semester are subject to the course drop limit of six course drops including any course a transfer student has dropped at another affected institution.

Institutions Affected

Texas public community colleges, technical institutes/colleges, health science institutions offering undergraduate course work, and universities must comply with the legislation of TEC 51.907.

Students Affected

Students who enroll as entering freshmen or first-time in college students in undergraduate courses offered through an affected institution of higher education for the first time during the Fall 2007 semester or any subsequent semester are subject to the course drop limit restrictions. Transfer students who first enrolled at a Texas public institution during the Fall 2007 semester or subsequent semester are considered first time in college and are affected by the six course drop limit. Students who elect to use the provisions of Academic Fresh Start who have coursework prior to the Fall 2007 semester are grandfathered and are not subject to TEC 51.907. Students who have completed a baccalaureate degree at any recognized public or private institution are not considered affected students whether or not taking additional undergraduate courses.

Course Drop Definition

A course drop, which will be recorded on the transcript, is defined as an affected credit course not completed by an undergraduate student who: is enrolled in the course at the official date of record (see note below), and will receive a non-punitive grade of “W” or “QW”.

NOTE: Date of Record varies according to the length of the course. The most common course lengths are listed below. For the date of record for all other course lengths, please contact the Office of the Registrar.

Course Length | Date of Record
---|---
3 week course | 2nd class day
5 or 6 week course | 4th class day
8 week course | 6th class day
16 week course | 12th class day

Other Factors Regarding Course Drop Limit

Transfer students who are affected by this legislation shall be required to submit all transfer institution transcripts for processing of the transfer course drops which apply to the limit prior to being allowed to utilize any drops at Angelo State University. If the transfer transcript does not indicate any drops toward the limit, Angelo State University will set the drop count for that institution at zero.

If a student was granted a drop at Angelo State University and the Registrar’s Office later learns that the drop counter was set incorrectly, the Registrar’s Office will update the student’s record to correct the counter. If the student has exceeded the six course drop limit, the drop will be removed and the faculty member of the associated course will be contacted to issue the appropriate grade.

Withdrawal Definition

A student is considered to have withdrawn from the institution when the student drops all courses during the semester.

Excluded Courses From Limit

Drops from the following types of courses are excluded from the course drop limit:

- Courses taken by students while enrolled in high school—whether for dual credit, early college credit, or for college credit alone.
- Courses dropped at private or out-of-state institutions.
- Developmental courses, workforce education courses, or other courses that would not generate academic credit that could be applied to a degree.
- Aerospace Studies courses not eligible for formula funding.
- Courses taken as required corequisites such as a lecture class with a required laboratory are counted as one drop whether or not identified as separate courses or as separate sections of a course.
- Courses which meet the definition of complete withdrawal.

Request for Course Drop Exemption Process

Students who feel that a drop should be exempt from the drop limit must complete the Request for Drop Exemption form and provide appropriate documentation to the Registrar’s Office by the end of the term of the course in question. Students may request an exemption for any drop which meets good cause definition.

Exception and documentation requirements:

- Severe illness or other debilitating condition: Statement from doctor.
- Care of a sick, injured or needy person: Statement from doctor regarding illness of the person being cared for. Statement from the sick, injured, or needy person regarding the student’s role as the care-giver or in case of a child, statement from the student.
- Death of family member or another person who is otherwise considered to have a sufficiently close relationship: Death certificate or obituary from newspaper.
• Active duty service with the Texas National guard or other armed forces by the student, a family member, or a person who has a sufficiently close relationship: Orders from service.
• Change in work schedule that is beyond the control of the student: Letter from employer.
• Other good cause as determined by the institution.

For the purposes of this section, please see the following definitions:
• Family members — spouse, child, grandchild, father, mother, brother, sister, grandmother, grandfather, aunt, uncle, nephew, niece, first cousin, step-parent, step-child, or step-sibling.
• Sufficiently close relationship — this relationship can include a relative with the third degree of consanguinity plus close friends including but not limited to roommates, housemates, classmates, or others identified by the student for approval of the institution on a case-by-case basis.

Once the student has submitted the required documentation, the Registrar’s Office will review same and determine if the request is granted. The Registrar’s Office will notify the student of its decision. If the request is granted, the Registrar’s Office will update the student’s record.

**Student Appeal Process**

Students who do not agree with the decision of the Registrar’s Office may appeal the decision to the academic dean of their major. Students must provide a written request with copies of documentation for the Dean’s review within 30 days of the decision of the Registrar’s Office. If the Dean grants the appeal, the Dean’s office will notify the Registrar in writing. Upon receipt of written notification, the Registrar’s Office will update the student’s record. The decision of the Dean is final.

**Withdrawal from the University**

Students must complete and submit the Student Withdrawal Form in RamPort by the appropriate deadline. All deadlines for withdrawing refer to the close of business, which is 5:00 pm Central Time. Refer to the University calendar to determine the last day (deadline) on which a student may withdraw from the University. See the University Calendar website.

The student who fails to withdraw officially will receive a grade of “F” in all courses in progress. A student who withdraws from the University is exempt from the TEC 51.907 policy.

**Separation from the University**

All students separated from the University after the official census date for disciplinary reasons will be awarded a grade of “W” for each class in which they are enrolled at the time the disciplinary action is taken.

**Academic Regulations Concerning Student Performance**

I. **Minimum Academic Performance**

Certain principles have been utilized in developing the regulations governing eligibility to re-register, suspension by the academic dean, and reinstatement following suspension. These principles include:

A. The university’s belief that, as long as its resources permit, each student, once admitted, should be given opportunity to demonstrate the ability to perform acceptable work;
B. The belief that the early assumption of responsibility for one’s own actions is part of the educational process;
C. The belief that the university has particular obligations to the able student;
D. The recognition that discouragement and mistakes are more likely to occur during the early stages of one’s college career than in later semesters; and
E. The belief that academic suspension is not designed as punishment, but is based on the principle that a student should remain eligible for academic work on campus as long as satisfactory progress is being made, within reasonable time, toward the completion of an academic program. When such progress is unsatisfactory, the student is given time to reconsider goals and career plans outside the academic setting.

II. **Minimum Academic Requirements**

An overall 2.00 grade point average (C average) on all college-level work and a 2.00 grade point average (C average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence. All degree programs leading to teacher certification have requirements beyond the minimum identified above. Official grade point averages are not rounded up. A student who meets minimum academic requirements is in good academic standing and eligible for all extracurricular activities, as governed by the rules of the specific activity. Some academic and extracurricular programs have requirements over and above the respective minimum requirements by major.

III. **Student’s Academic Responsibility**

All students are responsible for knowing their academic status and eligibility to re-enroll in the university. If it is determined that an ineligible student has enrolled, the student will be dropped immediately. For official verification of academic status, a student should consult the academic dean.

IV. **Class Attendance**

Responsibility for class attendance rests with the student. Regular and punctual attendance at all scheduled classes is expected, and the university reserves the right to deal at any time with individual cases of non-attendance. An accurate record of attendance for each student must be maintained by the instructor.

In those classes where grades are affected by attendance, information to this effect must be provided in writing at the beginning of each semester. Students have a responsibility of being aware of special attendance regulations where written policies have been distributed to the class by the instructor at the beginning of the semester. There may be a valid reason for a student’s absence from class, such as illness, family emergency, or participation in an authorized university activity, and the instructor should exercise good judgment in determining if there is justification for allowing a student to make up work missed. In classes where students are absent for good cause and the instructor administers a pop test or a daily class assignment, the instructor may choose to allow the student to drop that grade(s) rather than make up the pop test or daily class assignment.

However, by written notice, instructors may place reasonable limitations upon the number and types of assignments and examinations that may be made up or dropped by students for any cause. Also, the manner in which makeup work is administered is to be determined by the instructor.
Academic Regulations

If a dispute arises between an instructor and a student over absences which cannot be resolved, the student should discuss the problem with the instructor. If the issue cannot be satisfactorily resolved, the student may appeal to the instructor’s department chair, academic dean, provost and vice president for academic affairs, and ultimately to the president of the university.

V. Additional Regulations

Individual colleges may have regulations in addition to those described in this policy. Students should check with their respective deans for information and requirements for specific colleges.

Undergraduate Academic Status

Undergraduate Academic Status at Angelo State University is governed by Operating Policy 10.07 and may be found on the Operating Policy and Procedures website. Academic standing is based solely on institutional GPA. A statement on the transcript legend denotes this policy change.

Good Standing, Probation, and Suspension

Angelo State University has three possible academic status levels for students:

I. Academic Good Standing

All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence. Some degree programs have requirements beyond the minimum identified above. A student who meets minimum academic requirements is in good academic standing and eligible for all extracurricular activities, as governed by the rules of the specific activity. Some academic and extracurricular programs have requirements over and above the respective minimum requirements by major.

II. Academic Probation

A. Policies Governing Academic Probation

Academic probation is an emphatic warning that the quality of the student’s work has not met Angelo State University’s minimum academic standards and that the quality must improve during the probationary period in order for the student to continue at Angelo State University. A student will be placed on academic probation at the end of the fall or spring semester in which the Angelo State University GPA is less than 2.00. A student will be removed from academic probation at the end of any long semester or summer term if the Angelo State University GPA is 2.00 or higher.

Students placed on academic probation are given two probationary semesters (fall or spring terms) to raise their Angelo State University GPA to 2.00. For example, if a student is placed on academic probation because the Angelo State University GPA has fallen to 1.85, then at the end of the two following probationary semesters the Angelo State University GPA must be 2.00 or higher, or the student will be placed on First Academic Suspension. See section III.A below for grades earned during summer terms. Grades earned in coursework in which neither hours nor grades are calculated toward the GPA will not affect a student’s academic standing.

See section III below for information regarding appeals of a First Academic Suspension.

B. Readmissions Following Academic Probation

If a student chooses to leave the university for at least one long term, the student must apply for readmission. Re-enrolling students who have taken courses at another college or university must meet Angelo State University’s transfer requirements for readmission. Students who last attended the university while on academic probation must complete their admission application seven (7) business days prior to the semester for which the student is applying. Admitted students will be placed on academic probation.

III. Academic Suspension

A. Policies Governing First Academic Suspension

A first academic suspension will be for the first long semester following placement on First Academic Suspension. Students who are placed on First Academic Suspension from Angelo State University at the end of the spring semester will be reinstated by the Registrar on academic probation for the following fall semester if they (1) attend the summer term at Angelo State University, (2) pass nine semester hours at Angelo State, and (3) earn a 2.00 GPA on all work attempted in the summer term at ASU or if the Angelo State University GPA is 2.00 or greater at the end of the summer term. Otherwise, a student placed on First Academic Suspension at the end of the spring semester will serve that suspension during the fall semester following the suspension.

Students granted reinstatement after suspension will be on academic probation and will be required to undergo any testing and/or counseling considered necessary by the appropriate college dean.

B. Readmission Following a First Academic Suspension

At the end of one long semester period for a First Academic Suspension, students can apply for readmission to Angelo State University for the subsequent semester. Re-enrolling students who have taken courses at another college or university must meet Angelo State University’s transfer requirements for readmission. Readmission applications must be completed seven (7) business days prior to the semester for which the student is applying. Students who re-enter Angelo State University following an academic suspension do so on academic probation. For specific regulations, refer to paragraph on “Academic Probation”. If the Angelo State University GPA is less than 2.00 at the end of the second probationary semester, the student will be placed on second academic suspension. See section V below for information regarding appeals of a Second Academic Suspension.

C. Policies Governing Second Academic Suspension

Students who fail to meet the minimum academic standards defined above will receive a Second Academic Suspension for a period of two calendar years. If there are extenuating circumstances as defined below, students can appeal following the appeals process outlined below. If the appeal is approved, students may return to Angelo State University on academic probation, subject to special conditions imposed by the dean regarding course load limits, work load limits, counseling, etc.

D. Readmission Following a Second Academic Suspension

At the end of the two-year period for a second academic suspension, students may apply for re-admission to Angelo State University. Students whose suspension period has passed and who meet all the requirements for readmission may re-enroll on academic probation. Re-enrolling students who have taken courses at another college or university must meet Angelo State University’s transfer requirements for readmission. All re-enrolling students must apply for admission via the Angelo State University’s policy.

E. Third Academic Suspension

If, at the end of the second probationary semester of a student’s second academic suspension, the Angelo State University GPA is less than 2.00 the student will be placed on a third academic suspension. Students may not apply for readmission for a period of three calendar years. Students whose suspension period has
passed and who meet all the requirements for readmission may re-enroll on academic probation. Re-enrolling students who have taken courses at another college or university must meet Angelo State University’s transfer requirements for readmission. All re-enrolling students must apply for admission via the Angelo State University’s policy.

F. Indefinite Suspension
If, at the end of the second probationary semester of a student’s third academic suspension, the Angelo State University GPA is less than 2.00 the student will be placed on indefinite suspension. Students may not apply for readmission to Angelo State University for a period of 10 calendar years.

IV. Registering at Another Institution During Suspension
Students who have been placed on academic suspension are not prohibited from registering at another institution; however, such academic work will not change the GPA used for calculating probation and suspension, since only those grades earned at Angelo State University are calculated in determining probation-suspension status. Students who enroll at another institution while on suspension from Angelo State University will be considered transfer students if they return and will be required to meet Angelo State’s transfer guidelines for re-admission.

V. Exceptions
Exceptions to the suspension policy may only be made in situations involving documented cases of serious illness or personal misfortune or when students are making discernible progress toward completion of a degree program. Students will receive notification by the Angelo State University Registrar that outlines the suspension appeals process. The appeal must be completed in accordance with the time frame established by the Registrar. Prior to filing an appeal, students must clear all existing holds. If the appeal is granted by the Academic Review Committee, the student will return to Academic Probation.

Unless other special conditions are imposed by the dean, students granted reinstatement and re-admitted on academic probation are given two probationary terms (fall or spring terms) to raise their Angelo State University GPA to 2.00. In addition to any special conditions imposed by the dean, students must meet the conditions under “Academic Probation” explained above. At the end of the second probationary semester, if the Angelo State University GPA is less than 2.00, the student will be placed on second academic suspension.

Cases in which the circumstances are not covered by the above regulations shall be handled at the discretion of the college dean.

Dual Credit Academic Probation
Students are placed on academic probation at the end of any term when a cumulative grade point average of at least 2.00 is not attained in college-level courses. Students are not subject to academic probation until a minimum of six semester hours of ASU dual credit courses have been attempted. Students on academic probation will be allowed to enroll in the next term, but may not register for more than 6 hours of dual credit courses in that term.

Dual credit students who enroll while they are classified as being on academic probation may continue to enroll in succeeding terms providing they achieve at least a 2.00 GPA each term, even though their cumulative GPA is still below 2.00.

Dual Credit Academic Suspension
Dual credit students who enroll in dual credit courses while on academic probation will be suspended from the succeeding long-term if they fail to achieve at least a 2.00 GPA in dual credit courses for that term. Students who are placed on academic suspension at the conclusion of the spring term are not eligible for enrollment in dual credit courses the following fall semester. Students who are placed on academic suspension at the conclusion of the fall term are not eligible for enrollment in dual credit courses during the following spring semester.

Grade Point Average
A student’s academic progress is measured in terms of the student’s overall grade point average, which is based on all course work (including developmental courses) taken in which a computable grade is awarded. The student’s overall grade point average is computed by dividing the total number of quality (grade) points earned by the total number of quality hours. For example, a sophomore student who has 35 quality hours and has earned 85 quality points would have a 2.43 overall grade point average: 85 quality points ÷ 35 quality hours = 2.43 GPA. Quality hours are defined as hours for which a student registers and receives a grade of either “A”, “B”, “C”, “D”, or “F”. See the section entitled “System of Grading” for information on related items.

Dean’s List
An undergraduate student will be eligible for the Dean’s List during the fall or spring semester upon completion of 12 or more college-level (non-developmental) semester credit hours in residence, with a semester grade point average of 3.25 or greater in college-level courses. This honor will be noted on the student’s transcript. Any student making an “F,” “NC”, or “I” will not be eligible for the Dean’s List.

Developmental Education Program
Angelo State University offers developmental education programs in English and mathematics. The developmental curriculum includes both college credit courses paired with developmental activities and non-course-based options. A student required by Texas Success Initiative (TSI) regulations to participate in a developmental education program must be continuously enrolled in developmental activities until that student is TSI complete. A student enrolled in developmental activity is also subject to special provisions regarding withdrawals page 161.

Basic English Skills
A student who fails the writing and/or reading section of the TSIA will be required to complete a developmental course or activity identified by the Department of English and Modern Languages.

Basic Mathematics Skills
A student who fails the mathematics section of the TSIA will be required to complete a developmental course or activity identified by the Department of Mathematics.
Bachelor’s Degree Requirements

Students should refer to the appropriate degree plan in the program section of this Catalog for information concerning a specific degree.

All bachelor degrees must meet general degree requirements, including completion of:

- a minimum of 120 semester credit hours;
- a minimum of 36* semester credit hours at the advanced (junior and senior) level;
- a minimum of 25 percent of the semester credit hours required for the degree in residence at Angelo State University;
- a minimum of 30 semester credit hours, with a maximum of 60** semester credit hours, are required in the major;
- a minimum of 25 percent of the advanced hours in the major must be in residence;
- core curriculum requirements;
- TSI requirements; and
- Applicable GPA requirements.

Only 8 semester credit hours of Physical Activity (PA) may be used to meet degree requirements.

Students seeking teacher certification are expected to complete clinical teaching (student teaching) in residence at Angelo State University.

Grade Requirements

- An overall 2.00 grade point average ("C" average) on all college-level work and a 2.00 grade point average ("C" average) for studies at this institution are required for graduation from Angelo State University. All degree programs require an overall 2.00 grade point average in the student’s major field and a 2.00 grade point average in the major field in residence.
- All degrees leading to teacher certification require a 2.75 overall grade point average and a 2.75 grade point average with no grade lower than a “C” in the certification content area, interdisciplinary major, and professional education. To meet certification requirements a student must also have a 2.75 grade point average in their major in residence.
- Integrated programs require a minimum 3.00 grade point average and 2.00 grade point average in the undergraduate major.

Minors are optional, but some programs may require a minor. Sufficient elective hours, lower-level and/or advanced, are required to meet total degree and advanced-hour requirements.

Bachelor of Applied Arts and Sciences (B.A.A.S.) Degree

This degree assumes the completion of an associate’s degree at a community college prior to beginning work on the B.A.A.S. degree. A block transfer of up to 60 semester credit hours of course credit used toward the associate’s degree will be allowed toward the B.A.A.S. degree. Additional hours of academic credit may also be included with this block.

The Office of Admissions will make an exception to standard policy with regard to non-academic coursework counting toward an associate’s degree. Up to 60 credit hours of non-academic coursework from the associate’s degree may be accepted and applied toward the B.A.A.S. degree. However, should a student choose to change his or her major from the B.A.A.S. degree, the non-academic transfer credits originally applied and accepted may be revoked.

Academic Major/Specialization

The academic specialization in the Bachelor of Applied Arts and Science degree program requires 30 semester credit hours, of which at least 24 must be advanced. At least 25% of these advanced hours must be taken in residence.

NOTE: The B.A.A.S. degree cannot be used in a dual degree.

Bachelor of Arts (B.A.) Degree

Academic Major

The academic major in the Bachelor of Arts degree programs requires no fewer than thirty and no more than sixty semester hours, of which at least eighteen semester hours will be at the advanced level and at least 25% of the advanced hours required in the academic major must be taken in residence.

Bachelor of Arts (B.A.) Degree Specific Requirements

Humanities. One course from the following: Cultural Competence 2323, English 2321, 2322, 2323, 2326, 2329, 2331, 2341, History 2311, 2312, 2322, Honors 2305, Philosophy 1301, 2305, 2306.

Modern Language. The student must earn six semester hours of the same language at the sophomore level (Modern Language 2311, 2312). Most students will begin language study with 1301 unless they earn credit by exam (CLEP, AP). Students who have some previous language experience in Spanish, and who do not earn credit by exam, may instead choose Spanish 1301/1302 to receive 6 semester credit hours in one semester.

* Exceptions to this 36 SCH advanced hour rule are (the B.A.A.S. - 30 SCH, the B.B.S. - 31 SCH, and the B.I.A. - 31 SCH) degrees that have articulation requirements and/or accreditation requirements.

** Exceptions to this 60 SCH maximum in the major are degrees that have agreement requirements and/or accreditation requirements beyond the 60 SCH limit.
Bachelor of Border Security (B.B.S.) Degree

Academic Major
Thirty-one semester hours are required for the major, all 31 semester hours must be advanced. All 31 advanced semester hours must be taken in residence.

Total Hours. A minimum of 124 semester hours.

Bachelor of Business Administration (B.B.A.) Degree

Academic Major
The Bachelor of Business Administration is a broad field degree, comprised of the B.B.A. Core which is common to all B.B.A. majors, and the specific major requirements for each B.B.A. major area. A minor is optional.

Grade Requirements.
A minimum 2.00 grade point average for all college work. A minimum 2.00 GPA for all work taken at Angelo State University. A minimum 2.00 GPA is required in all course work taken to satisfy the B.B.A. core. A minimum 2.00 GPA is required in all course work taken to satisfy the specific major requirements beyond the B.B.A. core, not including any free electives. A minimum 2.00 GPA is required in all course work taken in residence to satisfy the B.B.A. core. A minimum 2.00 GPA is required in all course work taken in residence to satisfy the specific major requirements beyond the B.B.A. core, not including any free electives. Integrated programs require a minimum 3.00 GPA overall and 2.00 GPA in both the undergraduate B.B.A. core and specific undergraduate major requirements beyond the B.B.A. core, not counting any undergraduate free electives.

B.B.A. Core Requirements
Accounting. Accounting 2301, 2302.
Communication. Communication 3352.
Economics. Economics 2301, 2302.
Finance. Finance 3361.
Management. Management 2331, 3301, 3305, 3343, 4303 (Accounting majors must take Accounting 3305 in place of Management 3343.)
Marketing. Marketing 3321.
International Business. A three semester-hour course: Economics 4307, Finance 4367, Management 3311, 3312, Marketing 4321. (Economics majors must take Economics 4307; Finance majors must take either Economics 4307 or Finance 4367; Marketing majors must take Marketing 4321; and International Business majors must take Management 3311.)

Major Field Test
All students pursuing the B.B.A. degree must complete the undergraduate Major Field Test (MFT) as a graduation requirement, which is typically administered within Management 4303.

Bachelor of Fine Arts (B.F.A.) Degree

Academic Major
A total of 60 semester hours in art is required in the studio art major of which 36 hours must be advanced. At least 25% of the advanced hours required in the academic major must be taken in residence.

Specific Requirements
Humanities. One course from the following: Cultural Competence 2323, English 2321, 2322, 2323, 2326, 2329, 2331, 2341, History 2311, 2312, 2322, Honors 2305, Philosophy 1301, 2305, 2306.

Departmental Requirements. During their second year, students will be required to take a skills test to assess their basic knowledge of artistic concepts. The skills test will be administered by the art faculty each spring semester. If a student fails to demonstrate adequate skills, a faculty committee will recommend to the student that he/she repeat course work or complete additional course work. Upon completion of the prescribed course work, the student will repeat the skills test. If adequate skills are still not demonstrated, then the faculty committee will recommend to the student that he/she pursue a different curriculum of study.

Graduating seniors will submit for review and evaluation a completed portfolio of their studio work together with an evaluative paper that will clearly explain, define, and analyze their portfolio work. Both the portfolio work and the contents of the explanatory paper will be reviewed by a committee of art faculty and an art juror from outside the University. The quality of a student’s portfolio work will be an output measure for the faculty to determine the quality of instruction delivered by the department.

Bachelor of Intelligence and Analysis (B.I.A.) Degree

Academic Major
Thirty-one semester hours are required for the major, all 31 semester hours must be advanced. All 31 advanced semester hours must be taken in residence.

Total Hours. A minimum of 124 semester hours.
Academic Regulations

Bachelor of Interdisciplinary Studies (B.I.S.) Degree

Multiple Discipline Academic Major with Mathematics Secondary Certification

The interdisciplinary academic major in the Bachelor of Interdisciplinary Studies (certification) degree program offers certification in the Mathematics 7-12 grade level. This major requires no fewer than 48 semester hours, of which at least 21 semester hours will be at the advanced level. At least 25% of the advanced hours in the academic major must be taken in residence.

For more information about the B.I.S. (certification) degree contact the Department of Mathematics in the College of Science and Engineering.

Teacher Certification

Students seeking teacher certification should refer to the appropriate degree plan elsewhere in this catalog for information. They should also consult with the Department Chair of the major and the Certification Advisor in planning their program in order to make certain they are meeting State requirements. Students pursuing the Bachelor of Interdisciplinary Studies degree can choose the following certification area:

- Grades 7 to 12 Mathematics

Total Hours. A minimum of 125 semester hours.

Bachelor of Music (B.M.) Degree

Academic Major with Specialization in Applied Performance - Instrumental or Voice

80 (instrumental track) or 86 (vocal track) semester hours in music are required for the major, of which 40 (instrumental track) or 42 (vocal track) semester hours must be advanced. At least 25% of the advanced hours required in the academic major must be taken in residence.

Academic Major with Specialization in Teacher Certification

62 semester hours in music are required for the major, of which 24-25 semester hours must be advanced. At least 25% of the advanced hours required in the academic major must be taken in residence. The Bachelor of Music degree with a specialization in Teacher Certification allows the student to meet all requirements for all-level teacher certification in music.

Students should consult the Teacher Certification Officer in planning their programs in order to make certain that they are meeting the requirements of the State Board for Educator Certification.

Total Hours. A minimum of 125 semester hours.

NOTE: The B.I.S. degree cannot be used in a dual degree. No more than one business minor may be used as part of the B.I.S. major.

The student who is in a program leading to teacher certification may be required to exceed 120 semester hours in order to meet all degree and certification requirements.
Bachelor of Science (B.S.) Degrees

Single Discipline Academic Major
The academic major in the Bachelor of Science degree programs requires no fewer than 30 and not more than 60 semester hours, of which at least 18 semester hours will be at the advanced level and at least 25% of the advanced hours required in the academic major must be taken in residence.

Interdisciplinary Academic Major
The interdisciplinary academic major in the Bachelor of Science degree programs requires no fewer than 48 semester hours, of which at least 21 semester hours will be at the advanced level and at least 25% of the advanced hours required in the academic major must be taken in residence.

Interdisciplinary Studies Major
The Interdisciplinary Studies major offers certification at either the Early Childhood to Grade 6 or the Middle School (Grades 4 to 8) level. Students should consult with the Department of Teacher Education and the Certification Advisor in planning their program in order to make certain that they are meeting State requirements.

Areas of concentration include the following:
- Early Childhood to Grade 6, Generalist
- Early Childhood to Grade 6, Generalist with Special Education (EC-12)
- Grades 4 to 8, Generalist

Bachelor of Science (B.S.) Degree
Specific Requirements
A minimum of four semesters (comprising a minimum of fourteen hours) of science courses. These courses must come from animal science (ASCI 3320, 3443, 3449, or 4344 only), biology, chemistry, geography (GEOG 1301/1101 only), geology, health science professions (HSP 2301/2101, 2302/2102 only), food science (FSCI 3446 only), physical science, or physics, and must include more than one discipline. The six hours in the core requirements will be included in the four semester, fourteen hour minimum.

All undergraduate Interdisciplinary Studies programs in the Department of Teacher Education also require a grade of “C” or better in each of the required Health Science Professions (HSP) courses.

Bachelor of Science in Health Science Professions (B.S.H.S.P.) Degree

Academic Major
The single discipline academic major in the Bachelor of Health Science Professions degree program requires 45 to 60 semester hours. The Health Science Professions courses required in residence for each specialization are as follows:
- Healthcare Administration: (21 hours) HSP 4320, 4325, 4330, 4335, 4340, 4345, and 4350.
- Physical Therapy and Allied Health: (31 hours) HSP 2325, 3420, 4315, 4320, 4325, 4330, 4335, 4340, 4345, and 4350.
- Public Health: (27 hours) HSP 2325, 4315, 4320, 4325, 4330, 4335, 4340, 4345, and 4350.

Grade Requirements.
A grade of “C” or above in each of the required Health Science Professions (HSP) courses.

Bachelor of Science in Mechanical Engineering (B.S.M.E.) Degree

Academic Major
The single discipline academic major in the Bachelor of Science in Mechanical Engineering degree program requires no fewer than 69 semester hours, of which at least 38 semester hours will be at the advanced level, at least 25% of the advanced hours required in the major must be taken in residence.

Total Hours. A minimum of 127 semester hours.

Bachelor of Science in Civil Engineering (B.S.C.E.) Degree

Academic Major
The single discipline academic major in the Bachelor of Science in Civil Engineering degree program requires no fewer than 65 semester hours, of which at least 42 semester hours will be at the advanced level, at least 25% of the advanced hours required in the major must be taken in residence.

Total Hours. A minimum of 127 semester hours.
Academic Regulations

Bachelor of Science in Nursing (B.S.N.) Degree

Academic Major
A minimum of 55 semester hours of nursing work.

Bachelor of Science in Nursing
Degree Specific Requirements (Generic Option)
Statistics. Three semester credit hours of statistics.

Advanced Hours
A minimum of 58 semester hours (junior and senior level courses).

Grade Requirements
A grade of “C” or above in each nursing course and a minimum 2.25 grade point average at the completion of each semester in order to progress to the next nursing course. A minimum 2.00 overall grade point average for all college work and a minimum 2.00 grade point average for all work taken at Angelo State University in order to graduate.

Residence
Overall a minimum of 25% of the credits required for the degree in residence at Angelo State University. At least 24 semester credit hours must be at the advanced level. Included are 20 advanced semester hours in nursing courses in residence.

Bachelor of Security Studies (B.S.S.) Degree

Academic Major
The academic major in the Bachelor of Security Studies degree programs requires 42 semester hours, of which at least 18 semester hours will be at the advanced level, at least 25% of the advanced hours required in the academic major must be taken in residence.

Bachelor of Social Work (B.S.W.) Degree

Academic Major
A minimum of 57 semester hours of social work is required of which 54 semester hours must be advanced. At least 25% of the advanced semester hours in social work must be taken in residence. Courses required in residence include: Social Work 4371, 4372, and 4373.

Grade Requirements
A grade of “C” or above in each required social work course and a minimum of 2.50 grade point average in all social work courses. A minimum 2.00 overall grade point average for all college work and a minimum 2.00 grade point average for all work taken at Angelo State University in order to graduate.

Residence
Overall a minimum of 25% of the credits required for the degree in residence at Angelo State University. Social Work courses required in residence include: 4371, 4372, and 4373.

Additional Requirements and Regulations for Baccalaureate Degrees

The Undergraduate Degree Plan
All students working toward a baccalaureate degree must complete a degree plan prior to the completion of 30 semester credit hours (before becoming a sophomore).

Students without an approved degree plan should follow closely the course of study for their proposed major specified under the designated academic department in this Catalog. Failure to do so may result in a delay in the completion of the degree requirements.

Degree plan forms are available in the appropriate departmental offices. For any degree, the student must confer with and receive approval for the degree plan from the academic department chair in the proposed major department and from the dean of the college. Once a student has completed the degree plan, the student is permitted to change the degree plan only with written approval of the department chair and dean of the college.

Certification requirements not a part of the student’s degree program will not be included in the degree plan. Students who want to obtain a certification area beyond what is required in their degree programs should consult the College of Education’s Educator Preparation Information Center.

Certification requirements can change prior to the expiration of a degree plan. Students should consult with department chairs and the College of Education’s Educator Preparation Information Center to determine the latest certification requirements.

Academic Major
A major is usually a group of courses which constitutes a principal field of study. In most cases, it includes courses from a single academic discipline. In some cases (i.e., interdisciplinary or multidisciplinary majors), it will include courses from two or more disciplines.

A baccalaureate major must contain a minimum of 30 semester credit hours and no more than 60 semester credit hours in any single discipline. Exceptions to this 60 hour maximum in the major are degrees that have agreement requirements and/or accreditation requirement beyond the 60 semester credit hour limit.

All students must declare a major prior to the completion of 30 semester credit hours.

Academic Minor
A minor is usually a group of courses which constitutes a secondary, less intensive field of study. Minors, which are included in some baccalaureate programs, may include courses from one, two, or three academic disciplines outside the major. A baccalaureate minor must contain an approved cluster of at least eighteen semester credit hours, of which a minimum of six must be advanced (i.e. junior- or senior-level courses). Requirements for the various minors are included in the “Academic Regulations” section of the Catalog page 177.
Double Major
A student who wishes to earn a degree with a double major may do so provided the student meets all requirements for each major and also provided the two majors fall under the same degree category. Double majors fulfill the requirements of two majors within the degree. For example, a student could earn a Bachelor of Arts degree with a major in history and a major in political science; however, the student could not earn a double major in history and biology since the degree in biology would be a Bachelor of Science degree.

Dual Degrees
Dual degrees are two different types of degrees (eg., a bachelor of arts and a bachelor of science) conferred simultaneously. An example would be a Biology B.S. degree and a Psychology B.A. degree. Dual degree candidates must complete a minimum of 30 hours beyond the requirements of the single degree. Dual majors must complete the requirements of both major fields.

NOTE: The B.A.A.S. degree and the B.I.S. degree cannot be used in a dual degree.

Second Baccalaureate Degree
A student who holds one baccalaureate degree from this University or any college or university that is a member of a regional accrediting association may receive a second baccalaureate degree by completing the following requirements:
- A minimum of thirty new semester hours in residence, including twenty-four new semester hours of advanced work in residence. New semester hours are those taken and completed after the student has received one baccalaureate degree.
- A minimum of twelve new semester hours of advanced work in the major subject field in residence and six new advanced semester hours in the minor subject field in residence (if there is a minor field). For an interdisciplinary major, a minimum of eighteen new semester hours of advanced work in the major fields in residence.
- Completion of all other requirements of the degree sought at Angelo State University, as outlined in the Catalog in effect when the student initiates course work leading to a second baccalaureate degree. Beyond this provision, Catalog selection shall be in accordance with the policy statement “Graduation Under a Particular Catalog.” (See page 171 in this Catalog.)

Graduation Requirements

Graduation Under a Particular Catalog
The University reserves the right to modify the curricula or withdraw any courses when it appears wise to do so. The policies and procedures in this Catalog are currently in effect; however, the University reserves the right to make changes or modifications for good cause.

To receive a degree from Angelo State University, a student must fulfill all requirements for the degree as set forth in a particular University Catalog as amended. Several choices are allowed: (1) Graduation may be under the requirements of the current University Catalog. (2) Graduation may be under the Catalog of the year in force when the student first registered at Angelo State University or when the student registered at an accredited Texas community college prior to transferring to Angelo State University. (3) Graduation may be under the requirements of the Catalog for any subsequent year in which the student was registered at Angelo State University or when the student was registered at another Texas public institution of higher education prior to transferring to Angelo State University. Each of these provisions is subject to the limitation that all requirements for a degree from Angelo State University must be completed within six years from the date of the Catalog selected. For example, a student who chooses to graduate under the requirements of the 2014-2015 University Catalog must complete all requirements for the degree under that Catalog prior to August 2020. Otherwise, a later Catalog must be selected.

Students may be able to graduate under a specific Catalog and degree plan but may not be able to meet certification requirements that have been mandated by the State Board for Educator Certification. Students should consult with department chairs and the College of Education’s Educator Preparation Information Center to determine the latest certification requirements.

Application for Graduation *
The student planning to receive a degree from Angelo State University must file an Application for Graduation online. To be recognized in the program, a student must apply for graduation no later than five business days before the end of a student’s final semester. No degree will be conferred until a degree plan has been approved, the Application for Graduation has been filed, and all requirements for the degree have been met.

Graduation Exercises
Angelo State University has graduation exercises at the end of the fall semester (in December) and at the end of the spring semester (in May). Each candidate for graduation must be present at the graduation ceremony unless the Office of the Registrar has approved the candidate’s written application for permission to be graduated in absentia. In order to participate in the graduation ceremony, a student must complete an Application for Graduation, have a 2.00 institutional grade point average or greater, and have successfully completed or be registered for all courses required for the degree. Additional information about commencement may be found on the Commencement website.

Graduation with Honors
Any candidate for a baccalaureate degree at Angelo State University will be eligible for graduation with honors. The grade point average used in determining graduation honors will be based only on Angelo State University courses.

A student with an institutional undergraduate grade point average of 3.50 but less than 3.70 will be graduated Cum Laude; a student with an institutional grade point average of 3.70 but less than 3.90 will be graduated Magna Cum Laude; and a student with an institutional undergraduate grade point average of 3.90 through 4.00 will be graduated Summa Cum Laude.

Honors designations for candidates at commencement are based on work completed prior to the term of graduation.

* Refer to Credit for Correspondence and Extension, page 159.
Core Curriculum

The core curriculum is designed to give all graduating students the opportunity to acquire a general knowledge of study areas traditionally regarded as basic to a university education. The curriculum complies with Texas legislation requiring each state-supported institution to establish a "core curriculum." For specific and additional academic major program requirements, see the appropriate program section of the Catalog.

Four-hour science courses that are a combined lecture and lab (ex. BIOL 1406) will have 1-hour applied to the component area option B and 3-hours applied to Life and Physical Sciences. Four-hour mathematics courses (ex. MATH 2412) will have 1-hour applied to the component area option B and 3-hours applied to Mathematics.
Academic Regulations

Texas Common Course Numbering System

The Texas Common Course Numbering System (TCCNS) has been designed to aid students in the transfer of general academic courses between Texas
public colleges and universities throughout the state. The system ensures students that courses designated as common will be accepted for transfer and
the credit will be treated as if the courses had actually been taken on the receiving institution’s campus. Angelo State University’s courses identified as common will have the Common Course Number listed immediately adjacent to the ASU course number (e.g. TH 1120/DRAM 1120) in each course description.
For more information concerning the Texas Common Course Number System, please visit the TCCNS website.
Visit the Transfer Admission Requirements website for information on how your credit will transfer. The following lower-division courses have been evaluated by academic departments and determined to be the equivalent of the Angelo State University courses listed.

Angelo State University Undergraduate Catalog 2019-2020


Academic Minors

Single discipline academic majors require a minor. The minor is selected from one or more disciplines outside the academic major. A minimum of 18 semester hours with the student choosing either a single area minor or two multiple area minors as defined below.

Single Area Minor. A series of courses in one academic discipline totaling 18 semester hours, six of which must be advanced, or

Multiple Area Minor. A set of courses selected from two or three academic disciplines. Nine semester hours, including at least six advanced semester hours, are required in each component discipline of a multiple area minor. Certain multiple-discipline minors which have been departmentally designed are not required to meet these general requirements for the multiple area minor.

Accounting

Theatre

* The 18 SCH Reading minor is available for the B.I.S. degree by special permission of the department chair of Teacher Education.

NOTE: Norris-Vincent College of Business majors from the Accounting, Economics and Finance department (AEF) and the Management and Marketing department (MM) may not choose a minor in Business Administration. Bachelor of Interdisciplinary Studies majors may not choose more than one business minor (Accounting, Business Administration, Finance, Management, Marketing) as part of their multiple discipline academic major.

Accounting
Accounting 2301, 2302, 3303, and nine semester credit hours from Accounting 3304, 3305, 3331, 4303, and Business 3347. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level. Prerequisites must be met for all courses selected in this minor.

Aerospace Studies
This discipline may be used only as part of a multiple area minor. At least six semester hours of advanced work will be required for each discipline.

Astronomy
The minor in Astronomy is an eighteen semester hour course of study consisting of Physics 1103, 1104, 1303, 1304, 2371, 3170, 3371, and Geology 4303 or Physics 3331.

Biology
A student who chooses a biology minor must complete Biology 1306/1106 and 1307/1107 and an additional 10 hours of courses. The following biology courses are not eligible for inclusion into the Biology minor: Biology 1308/1108, 1309/1109, and 2406. Students must complete 18 SCH in a single area minor with at least six advanced hours. Students with a major in Chemistry with a Biochemistry Emphasis should follow biology minor requirements for that degree.

Business Administration
Business 1301 and fifteen semester hours of business electives selected from accounting, business, business computer information systems, economics, finance, management, and marketing. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level. Prerequisites must be met for all courses selected in this minor. This minor is not available to students with an undergraduate major in business.

Students wishing to prepare for an MBA program should consult the MBA Director for guidance in selecting appropriate business electives in this minor.

Chemistry
A student who chooses to earn a minor in chemistry must complete the following courses: Chemistry 1311/1111, 1312/1112, 3451, 3452, and one additional chemistry course from Chemistry 3421, 3461, or 4331.

Coaching Preparation
Kinesiology 3321, 3352 or 3363, 3360, 4301, 4361, and 4380.

Computer Science
The minor in computer science is an eighteen hour course of study that must include Computer Science 1315 or 1351, 1336, 1337, 2336, and at least six advanced hours.

Creative Writing
Non-English majors who choose to minor in English may specialize in creative writing by selecting the following courses: English 1301, 1302, 2341, one additional sophomore literature, 3355 and 4376, or 3356 and 4377.

Angelo State University Undergraduate Catalog 2019-2020 177
**Academic Regulations**

**Criminal Justice**
Criminal Justice 1301, and 15 additional hours of Criminal Justice electives.

**Cybersecurity**
Border Security 3307, Computer Science 4307, 4320, Management 3343, and two courses chosen from Border Security 3309, 4301, 4302, 4303.

**Education**
The Education minor is eighteen (18) semester credit hours (SCH) selected from the following list. Nine hours must be advanced hours. All prerequisites apply to the courses. An individual completing this minor will not be eligible for Texas teacher certification. Select from Early Childhood 2305, Education 2302, Educational Psychology 3314, Educational Psychology 3303, Reading 2306, Reading 3332, Reading 3335, Reading 3336, Reading 3339, and Special Education 2361.

**Film Studies**
The film industry in the U.S. is a multibillion dollar business. We are increasingly a visual culture, but not necessarily a visually literate culture. The purpose of a film studies minor at ASU is to build essential literacy skills, such as interpretive, visual, verbal, critical, audio-visual, and narrative literacy to survive in today’s competitive market-place. Students will acquire knowledge in film making techniques, learn how to read visual and cultural cues, and hone their skills in analyzing persuasive and rhetorical messages.

Students interested in obtaining an academic minor in film studies, an interdisciplinary study of how film is both a record of social culture and a force for cultural change, are required to take a total of 18 hours, including 6 advanced hours.

Two courses (6 hours) are required for this minor: Communication/Mass Media 1337 and English 4355. These courses will expose students who opt for a film studies minor to the basic technological, theoretical and artistic terminology and knowledge necessary to successfully interpret this art form.

Students will take an additional 12 hours from the following selected courses*: Arts 1305, Communication 3366, 4352, 4365, Computer Science 1371, 2324, 2325, Theatre 3345, 3311, 4314, 4351, French 4328, German 3339, Psychology 3325, Russian 3339, and Spanish 3334.

Occasionally, University Studies and special topics courses will be offered in various departments which are appropriate for this minor. Students must receive permission to count such special topics courses in their film minor from the Dean of Arts and Humanities.

**Finance**
Finance 3361 and fifteen semester credit hours from Economics or Finance at the 2000 level or above. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level. Prerequisites must be met for all courses selected in this minor.

**French**
French 1301, 1302, 2311, 2312, and 6 hours of advanced work in French.

**Gender Studies**
The interdisciplinary minor in gender studies teaches students to analyze gender and sexuality as aspects of human biology, identity, and culture, thus preparing them for careers in a diverse workplace and/or for graduate studies in gender-related areas. Students who select this 18 hour minor must take Gender Studies 2301, “Introduction to Gender Studies” (3 hours), and fifteen additional hours, selecting five of the following courses: Early Childhood 2305, Educational Psychology 3303, Psychology 4329, Sociology 3315, History 3347, Social Work 4321, Social Work 4327, Communication 4312, Political Science or Philosophy 4333, English 4337, and Nursing 4338.

**Geography**
This discipline may be used only as part of a multiple area minor. At least six semester hours of advanced work will be required in residence for each discipline.

**German**
German 1301, 1302, 2311, 2312, and 6 hours of advanced work in German.

**Health Science Professions**
The single area minor in Health Science Professions must include 18 semester credit hours with a 2.00 or better GPA. All of the HSP courses count toward completion of the minor with the exception of Health Science Professions 2325, 2101, 2102, 2301, 2302, and 4337.

The multiple area minor in Health Science Professions must include 9 semester credit hours with a 2.00 or better GPA. All of the HSP courses count toward completion of the multiple area minor with the exception of Health Science Professions 2325, 2101, 2102, 2301, 2302, and 4337.

**Intelligence and Analysis**
The minor in Intelligence and Analysis is an eighteen semester hour course of study consisting of INA 3310, 3320, and 12 hours of INA electives.

**Journalism**
Students may obtain an academic minor in Journalism by taking the following courses: Mass Media 1311, 2300, 2311, 3313, 3314, and 3363. No Mass Media majors.

**Kinesiology**
Kinesiology 1304, 3333, 3360, and nine additional hours of kinesiology.

**Leadership Studies**
Aerospace Studies 3312, 3314, Management 3304, Management 4306 or 4308, and six semester credit hours of approved electives selected in consultation with the program advisor. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level.

**Linguistics**
The Linguistics minor is an eighteen semester hour course of study designed to complement majors in Biology, Communication, Education, English, Modern Language, Kinesiology, Psychology, and Sociology among others. Linguistics is the scientific study of human language; all courses are taught in English. A minimum of six advanced hours.

* Courses taken to fulfill requirements for this minor may not also be counted toward the student’s major.
Management for Business Major
Management minor for B.B.A. majors (except for Management majors): Management 3301, 4303, and twelve semester credit hours from (choose 4): Management 3303, 3304, 3309, 3312, 3313, 3361, 4302, 4305, 4306 or 4308, 4319, 4331, 4381. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level. Prerequisites must be met for all courses selected in this minor.

Management for Non-Business Major
Business 1301, Management 3301 and twelve semester credit hours selected from Management courses at the 3000 level or above. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level. Prerequisites must be met for all courses selected in this minor.

Marketing
Business 1301, Economics 2301, and Marketing 3321, 3322, 3323, 4325. A total of 18 hours with a 2.00 or better GPA. A minimum of six hours must be at the advanced level. Prerequisites must be met for all courses selected in this minor.

Mathematics
Single area minor or multiple area minor in Mathematics must include Mathematics 2413 and six semester hours chosen from Mathematics 3300, 3301, 3305, 3307, 3315, 3335, 3415, 4301, 4311, 4321, 4331, 4335, 4345, 4351, 4355, or 4361.

Mexican American Studies
The interdisciplinary minor in Mexican American Studies prepares students for careers serving Mexican American constituencies, for professional interaction in a multicultural environment, and for work in settings that focus on people of Mexican origin. Students who select this 18 hour minor must take Mexican American Studies 2301, "Introduction to Mexican American Studies" (3 hours) and fifteen additional hours selected from the following courses: Communication 3355, History 3355, 3356, 3362, 4313, 4351, English 4336, Spanish 3334, 3343, 4324, Sociology 3327, and Political Science 4353.

The additional fifteen hours must be in at least three different disciplines. The student may not select a course in the same discipline as his or her major.

Music-Vocal/Instrumental
Music 1211, 1306, 3340, 3341, four semesters of major ensemble (lower division), one semester of elective major ensemble or small ensemble (lower division), and MUAP 1100 (two semesters).

Students interested in the minor in music-vocal/instrumental must perform an entrance audition prior to the beginning of their first semester of applied music study. Music minors enrolled in applied music must concurrently enroll in a major ensemble. Applied music requirements must be taken prior to upper division study in music.

Music Studies
MUSI 1117 or 1180 or 1181, 1211, 1306, 1312, 2311, 3340, 3341.

Physical Science
This discipline may be used only as part of a multiple area minor. At least six semester hours of advanced work will be required for each discipline.

Professional Education
All prerequisites will apply to the courses. Individuals choosing this minor will have to successfully meet all requirements required for admission to the Educator Preparation Program (EPP) regardless of their degree. These courses, with additional coursework related to Clinical Teaching (Student Teaching), prepare the individual for Texas secondary teacher certification. To become fully certified additional requirements by the state of Texas must be met. Contact the Educator Preparation Information Center Advisor for information about Texas Teacher Certification requirements. Professional Education minor: Educational Psychology 3303, Educational Psychology 3314, Education 4321, Education 4322, Education 4323, and Reading 4320.

Public Relations
Students may obtain an academic minor in Public Relations by taking the following courses: Communication 3335 or Mass Media 3335, Communication 3342 or Mass Media 3342, Communication 4335 or Mass Media 4335, and Communication 4336. In addition, students must take two of the following courses: Mass Media 1311, Communication 2344, Mass Media 2345, Communication 1337 or Mass Media 1337, Communication 2341, Communication 3321, Communication 3352, Communication 4338, Communication 4381 or Mass Media 4381, Theatre 3320, English 3351, Political Science 3341, or History 4340.

Communication or Mass Media majors may not choose the Public Relations minor.

Reading
This discipline may be used only as part of a multiple area minor. At least six semester hours of advanced work will be required for each discipline.

Russian
Russian 1301, 1302, 2311, 2312, and 6 hours of advanced work in Russian.

Social Work
The Social Work Minor consists of Social Work 2307, Social Work 3307, Social Work 3315, and 9 semester credit hours from any Social Work advanced electives; and includes a total of 18 semester credit hours of course work. Minimum grade of “C” is required in all social work courses counted toward the major or minor. A split or dual minor is not available in social work.

Spanish
Spanish 1301, 1302, 2311, 2312, 3301 or 3302, and 3 hours in upper division Spanish or related course in another discipline approved by the department.

Technical Writing
Non-English majors may specialize in technical writing by completing 18 hours of English, including English 3351 and two additional upper-level technical and business writing courses among 3353, 3354, 4360, 4365, 4367, and 4373.
Academic Services

Academic Advising Requirements and Contact Information

Archer College of Health and Human Services
Students are required to see an advisor each semester. Depending on their major and the number of credit hours they have earned, they may be advised by professional advisors in the Center for Academic Excellence or by faculty advisors in their departments. For a listing of professional advisors visit Angelo State’s Undergraduate Academic Advising page.

Health Science Professions. Students must see an advisor each semester until they graduate. A list of available advisors is posted throughout applicable campus buildings. Students are encouraged to contact their assigned advisor directly, or they may contact the department office coordinator to make arrangements.

Kinesiology. Students must see an advisor each semester until they graduate. A list of available advisors is posted throughout applicable campus buildings. Students are encouraged to contact their assigned advisor directly, or they may contact the department secretary to make arrangements.

Nursing. Students must see an advisor each semester until they graduate. The professional advisor advises pre-nursing students for the B.S.N. program up to 60 credit hours, or until students are accepted and admitted to a nursing program. The M.S.N. program advisor will advise graduate students, and advising is required prior to each semester registration. Students are encouraged to contact the department secretary for additional information.

Physical Therapy is a graduate course of study. All undergraduate advising is done by the department of the student’s undergraduate degree. The Physical Therapy faculty cannot advise students on undergraduate matters. The faculty of the Physical Therapy Program is available for periodic (one per year is sufficient) counseling during a student’s undergraduate studies to keep one abreast of physical therapy prerequisites and admissions policies. Once admitted to the physical therapy course of study, each student will be assigned a permanent faculty advisor for his/her graduate course of study.

Psychology and Sociology. Students must see an advisor each semester until they graduate. A list of faculty advisors is available in the departmental office. Students are also encouraged to visit the departmental website for advisement information.

Social Work. All students must be advised each semester until graduation. Social Work majors, Pre-Social Work, and Social Work minors, must be advised by a member of the Social Work faculty each semester before they can register. Social Work minors will see their major advisor before being advised by Social Work faculty, as Social Work faculty will not remove the advising hold for their major. Students may contact the department secretary for additional information or questions.

College of Arts and Humanities
Students are required to see an advisor each semester. Depending on their major and the number of credit hours they have earned, they may be advised by professional advisors in the Center for Academic Excellence or by faculty advisors in their departments. For a listing of professional advisors visit Angelo State’s Undergraduate Academic Advising page.

Communication and Mass Media. Students must see an advisor each semester until they graduate. Students are encouraged to contact the departmental office to receive their advisor assignment.

English and Modern Languages. Students must see an advisor each semester until they graduate. A list of preassigned advisors is maintained by the department’s Advising Committee. Students may contact the departmental secretary or department chair for their assignment and additional advisement information.

History. Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.

Political Science and Philosophy. Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.

Security Studies and Criminal Justice. Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.

Visual and Performing Arts. Students must see an advisor each semester until they graduate. A list of available advisors is included in a departmental student handbook that is circulated to all art, music, and theatre majors. Students are encouraged to contact their assigned advisor directly, or they may contact the departmental secretary to make arrangements.

College of Education
Curriculum and Instruction. Immediately upon acceptance into a program in the Curriculum and Instruction Department, you should arrange a personal appointment with your Graduate advisor to prepare a detailed degree plan. For the duration of your course of study, you should continuously monitor your own progress on your degree plan by using the Unofficial Transcript and Degree Evaluation features of Ramport. Contact your Graduate advisor each semester via e-mail to let them know of your progress and discuss any problems that you may foresee with your schedule.

Teacher Education. Undergraduate students must contact an advisor each semester until they graduate. Advisors are located in the Educator Preparation Information Center and you can reach them by calling 325-942-2209 or stop by CARR 287. Students are encouraged to contact the department secretary or the department chair for additional information.

College of Science and Engineering
Students are required to see an advisor each semester. Depending on their major and the number of credit hours they have earned, they may be advised by professional advisors in the Center for Academic Excellence or by faculty advisors in their departments. For a listing of professional advisors visit Angelo State’s Undergraduate Academic Advising page.

Agriculture. Students must see an advisor each semester until they graduate. The department will match advisors with students in their area of concentration. Students are encouraged to contact the departmental secretary to obtain their advising assignment.
Students, including pre-pharmacy majors, must see an advisor each semester until they graduate. Students are encouraged to contact the departmental secretary or department chair for more information.

Chemistry and Biochemistry. Students, including pre-pharmacy majors, must see an advisor each semester until they graduate. Students are encouraged to contact the department chair to obtain further information.

Computer Science. Students must see an advisor each semester until they graduate. A list of faculty advisors is available in the department office. Students may seek the assistance of an advisor at any time, and may also contact the department office for further information.

Engineering. Students must see an advisor each semester until they graduate. Students are encouraged to report to the departmental office for detailed instructions.

Mathematics. Students must see an advisor each semester until they graduate. Students may seek the assistance of an advisor at any time, and may also contact the department office for further information.

Physics and Geosciences. Students must see an advisor each semester until they graduate. A list of faculty advisors is available in the departmental office. Students are encouraged to contact the department secretary or department chair for additional information.

Norris-Vincent College of Business

All Norris-Vincent College of Business students are required to see an advisor each semester. Depending upon their major and the number of credit hours they have earned, they may be advised by professional advisors in the Center for Student Success or by faculty advisors in their academic departments. The professional advisors in the Center for Student Success are available for consultation year-round. For a listing of departmental advisors, please contact the Center for Student Success or visit the Norris-Vincent College of Business website.

Accounting, Economics, and Finance. All Accounting, Economics, and Finance students must see an advisor each semester until they graduate. Advisor assignments can be found on the Academic Advising website. Students are encouraged to contact their assigned advisor directly, or they may contact the AEF Office Coordinator to make arrangements.

Aerospace Studies. All AFROTC students must see an advisor each semester until they graduate. Advising instructions and assignment of advisors are provided to each student in the syllabus on the first day of class each semester. Each student/cadet is encouraged to contact the AS Office Coordinator if their instructor/advisor has not arranged to meet with him/her by the mid-point of the semester.

Management and Marketing. All Management and Marketing students must see an advisor each semester until they graduate. Advisor assignments can be found on the Academic Advising website. Students are encouraged to contact their assigned advisor directly, or they may contact the M&M Office Coordinator to make arrangements.

Academic Success Centers

Academic Success Centers are free to all ASU students.

ASU Tutor Center. The ASU Tutor Center offers academic support for a variety of subjects and disciplines such as accounting, anatomy, biology, business, chemistry, economics, history, nursing, physics, and physiology. No appointments are necessary.

Supplemental Instruction (SI). Supplemental Instruction is an academic assistance program that uses peer-led group study to help students succeed in traditionally difficult courses. SI consists of regularly scheduled, out-of-class group study that gives students an opportunity to meet with classmates to compare notes, discuss readings and key course concepts, develop study skills strategies and prepare for exams.
Academic Services

Math Lab. The Math Lab is available to all ASU students enrolled in first- and second-year mathematics courses. Math Lab staff provide help with homework assignments and offer additional explanations of concepts and procedures. The Math Lab is open year-round with drop-in service only.

Writing Center. The Writing Center serves all ASU undergraduate and graduate students, offering one-on-one conferences about writing, catering to students from any discipline, at any skill level, and at any stage of the writing process. The Writing Center serves all students on a drop-in basis only.

Online Tutoring. ASU students can schedule an online tutoring appointment via the Academic Tutoring homepage.

Information Technology

Angelo State University is committed to providing students access to technology and electronic resources needed to enhance the teaching and learning environment. Students have access to many services such as registering for classes, checking grades, and paying tuition via the web or the ASU mobile app. The online learning management system enables students to submit assignments, take tests, check grades, and interact with fellow classmates and their faculty member anytime, anywhere. The campus-wide mobile friendly network allows you to connect your laptop, tablet or smartphone to access technology services. Students can tour the campus, meet the President, review the University calendar and current course offerings, submit applications, read the RAM Page (school newspaper), browse the library’s holdings and access full text documents and articles from any location in the world using Angelo State University’s web services.

Angelo State University utilizes a robust network infrastructure to provide electronic access to information for the ASU Community. For on-campus residents, all of the residence halls have wireless connectivity throughout the buildings as well as in the resident’s room. Wireless connectivity is also available in all buildings on campus and many outdoor areas. As part of the university’s ongoing commitment to leveraging technology within the learning environment, the majority of the classrooms and other learning areas are equipped with technology to complement teaching within the specialized academic disciplines. The Library Learning Commons provides 24-hour access to a technology rich and mobile friendly environment which includes large flat panel displays to which students can connect laptops and other devices; digital senders to scan and send documents to students’ e-mail accounts; laptop computers for checkout; enhanced wireless connectivity; and traditional personal computers and scanners. Electrical outlets are conveniently located throughout the Library Learning Commons for students to utilize and recharge digital devices. If you have a problem or question about technology services, a 24-hour technology service center is available to all students (on-campus and off-campus) to assist with technology questions and requests.

Multicultural and Student Activities Programs

The ASU Multicultural & Student Activities Programs is composed of unique areas that create and foster an array of creative involvement opportunities to promote student engagement and diversity appreciation. We strive to help students cultivate their identity and leadership skills to develop professional leaders for a diverse and global society.

- Multicultural Affairs
- Homecoming
- Greek Life
- Student Organizations
- Ram Pantry

Our philosophy is to educate, embrace, and explore engagement activities and multiculturalism. Our goal is to assist in students’ academic persistence, provide cultural experiences, and offer learning opportunities through student activities.

Located in the University Center, Room 114, the Multicultural and Student Activities Program is a central location where students can discover diverse cultures and innovative engaging programs. For more information visit the website or call 325-942-2729 or email multicultural@angelo.edu.

Porter Henderson Library

The Porter Henderson Library at Angelo State University possesses an array of facilities to support the various degree programs offered by the University. The total library holdings surpass 1,500,000 items in a variety of formats, comprising a collection which compares favorably with the national average for library holdings in peer institutions. The holdings include a large and growing collection of electronic resources including streaming videos; a selection of journals and periodicals; significant quantities of microform materials; government documents; research collections available in the Library’s West Texas Collection, located on the Second Floor of the University Center; and CD’s, videos, DVD’s, and other audio-visual materials. The Library provides a wide variety of electronic databases and online services which increase the access to information including nearly 77,000 full text/image serial titles, numerous reference resources, and over 85,000 e-books.

Library facilities contain nearly 100,000 square feet of space. Students enjoy using group study rooms conducive to efficient study and research, open stacks, a media center, and designated quiet study rooms. The Learning Commons opened in January 2011 and it provides a variety of group and collaborative spaces in a technology rich environment as well as a coffee bar. Through the Library’s Interlibrary Loan service and cooperative agreements with other libraries, students and faculty members may request additional resources for their personal research and classroom assignments. The Library provides sessions for students to learn information literacy skills.

On the third floor, the Library shares space with the English and Modern Languages Department, the Freshman College, the Communication and Mass Media (CMM) Department, Advising Center, Tutoring Center, Writing Center, and the Honors Program. In addition, this floor has classrooms, offices, a TV studio, and two climate controlled storage rooms for older and rare Library resources.
### Accounting (ACCT)

</tr>
</thead>
<tbody>
<tr>
<td>1111, 1113</td>
<td>Leadership Laboratory (0-3).</td>
<td>Laboratory experience to accompany Aerospace Studies 1112 and 1114. Students will gain a practical knowledge of customs and courtesies, drill and ceremonies, the environment of an Air Force base and career opportunities available to commissioned officers. Physical fitness activities are also an integral part of the lab experience (dates and times are announced during the semester). Grading will be either pass or fail.</td>
<td></td>
</tr>
<tr>
<td>1112</td>
<td>Heritage and Values of the United States Air Force (1-0).</td>
<td>A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. Additional topics include customs and courtesies, dress and grooming standards, officer opportunities and benefits will be discussed. Group leadership problem-solving and basic communicative skills will be demonstrated. (Offered in fall only.)</td>
<td></td>
</tr>
<tr>
<td>1114</td>
<td>Heritage and Values of the United States Air Force (1-0).</td>
<td>A survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. Additional topics include mission and organization of the Air Force. The transition from cadet to officer is discussed, along with a survey of Air Force leaders and key events in U.S. history. Group leadership problem-solving and basic communicative skills will be demonstrated. (Offered in spring only.)</td>
<td></td>
</tr>
<tr>
<td>2111, 2113</td>
<td>Leadership Laboratory (0-3).</td>
<td>Laboratory experience to accompany Aerospace Studies 2112 and 2114. This experience can be classified as the initial leadership experience prior to Field Training. Activities include: emphasis on customs and courtesies, drill and ceremonies, and giving military commands. Instructing, correcting and evaluating the preceding skills are also part of the training. Physical fitness activities are also an integral part of the lab experience (dates and times are announced during the semester.) Grading will be either pass or fail.</td>
<td></td>
</tr>
<tr>
<td>2112</td>
<td>Team and Leadership Fundamentals (1-0).</td>
<td>Focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The course will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. (Offered in fall only.)</td>
<td></td>

Course Descriptions

Aerospace Studies (AS) continued

3312 Leading People and Effective Communication (3-0). Teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. (Offered in fall only.)

3314 Leading People and Effective Communication (3-0). Teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. (Offered in spring only.)

4111, 4113 Leadership Laboratory (0-3). Laboratory experience to supplement Aerospace Studies 4312 and 4314. This experience comprises the advanced leadership and management experience for Air Force officer candidates. Cadets are intimately involved in the planning, organizing, coordinating, directing, and controlling of all cadet corps operations. Cadets prepare briefings and presentations to enhance the laboratory period and motivate the performance of other cadets. Physical fitness activities are also an integral part of the lab experience (dates and times are announced during the semester). Grading will be either pass or fail.

4312 National Security Affairs/Preparation for Active Duty (3-0). This course is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. Special topics of interest focus on national security processes, regional studies, advanced leadership ethics, Air Force doctrine and joint military doctrine. Individual and group presentations, written reports and student-led seminars are expected. (Offered in fall only.)

4314 National Security Affairs/Preparation for Active Duty (3-0). This course is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. Special topics of interest include military justice, war fighting principles, transition to active duty, the military as a profession and current issues affecting the military profession. Individual and group presentations, written reports and student-led seminars are expected. (Offered in spring only.)

Field Training. Air Force ROTC Field Training is offered during the summer months at Maxwell Air Force Base, AL. Students participate in two weeks of Field Training between their sophomore and junior years before they can enter the Professional Officer Corps (POC). The major areas of study in the Field Training program include junior officer training, survival training, marksmanship, deployments, leadership, base functions, Air Force environment, and physical training. Successful completion of field training is mandatory for those wishing to commission as an Air Force Officer.

Agriculture (AG)

1191 Agriculture Research. (Independent) Individual research problems. Students interested in research at an introductory level. Prerequisites: Student must be in the freshman research program and have permission of the department.

1391 Agriculture Research. (Independent) Individual research problems. Students interested in research at an introductory level. Prerequisites: Agriculture 1191. Student must be in the freshman research program and have permission of the department.

4091 Internship Credit: 1 to 9. A supervised course providing practical on-the-job experience in the student’s minor. Grading will be either pass or fail. Student may repeat course for up to a maximum of 9 hours credit. Prerequisites: Senior standing and approval of department chair; 2.50 or better GPA in major and overall.

Agricultural Economics (AGEC)

2317/AGRI 2317 Introductory Agricultural Economics and Business (3-0). Orientation to Agricultural supply businesses, farm and ranch management, food markets, capital markets, etc. Course will provide an overview of the role of agriculture in the U.S. and world economies.

3330 Agricultural Marketing and Price Analysis (3-0). This course provides students with an introduction to how agricultural products move through markets, and the quantitative skills necessary to analyze price changes in markets. Topics covered include market structures, interactions between buyers and sellers in different market structures, consumer behavior, and the agribusiness supply chain.

3331 Farm and Ranch Business Management (3-0). An overview of the specific concepts and skills related to organization and management of small businesses, including farms, ranches, input suppliers, and commodity processors. Course topics include the economics of farm production, financial analysis and control using the recommendations of the Farm Financial Standards Council, and developing operating and cash flow budgets.

4305 Agricultural Policy and Analysis (3-0). This course provides an introduction to the application of economic principles to the analysis of public policy, highlights important policies that affect agriculture and agribusiness, and explains how these policies affect agricultural production.

4306 International Agricultural Trade and Marketing (3-0). An overview of the economic, management, and marketing principles related to producing and selling agricultural products in an international environment. Course topics include the economics of international trade, the institutions involved in importing and exporting agricultural products, and the policies that govern international trade.

4317 Commodity and Futures Trading (3-0). This course provides an overview of the basic concepts related to interacting with commodities and futures markets. An economic perspective will be used to analyze the use of these markets as management tools.

4331 Farm and Ranch Management (3-0). Principles of farm and ranch organization and management. Development of a business plan to include executive summary of business, resource inventory, SWOT analysis, legal and liability assessment, goals, production plans, financial analysis and marketing plans.
Agricultural Science and Leadership (AGSC)

2300 Introduction to Agriculture Science (3-0). An introduction to the field of agriculture science concepts as addressed in Texas public school curricula.

2302 Principles of Effective Technology Use in Agriculture Science (3-0). Computer hardware and software used in agriculture science in Texas public schools.

2303 Welding and Metal Work (2-2). Basic principles of welding and metalwork, including an introduction to basic metallurgy, cutting and joining metals, use of oxyacetylene, electric arc welding, and plasma arc welding. Emphasis on understanding properties and theory of welding of various metals.

3303 Mechanical Systems Management in Agriculture (2-2). Basic principles of internal combustion engine theory and operations with emphasis on small gas power plants for agricultural and non-agricultural systems.

3313 Management of Supervised Agricultural Experience Programs (3-0). Provide students with the theory and application for working with youth in the selection, management and record keeping procedures used with supervised agricultural experience programs and youth projects.

3331 Agricultural Youth Leadership Organizations (3-0). Principles and application of leadership skills commonly taught in youth agricultural organizations. Emphasis on youth leadership development events and seamlessly integrating activities and curriculum.

4304 Methods of Teaching Agriscience in the Secondary School (3-0). Exploring methods of teaching agriculture science in the classroom.

4308 Agricultural Buildings and Environmental Control (2-2). Determination of agricultural building requirements, materials, design and construction. Includes construction, tools and equipment, framing, environmental control and utilities.

Animal Science (ASCI)

1319/AGRI 1319 Principles of Animal Science (2-2). Fundamental principles of animal science, including the economic impact of animal agriculture upon the United States and the world, animal genetics, anatomy and physiology, growth, reproduction, artificial insemination, lactation, egg laying, nutrition, animal disease, animal research; laboratory includes visits to animal industries in the area, livestock selection.

2242 Livestock Practicum (0-4). Provides students an opportunity to learn skills required in handling and raising livestock. Students with little or no livestock background would gain general livestock knowledge that will be useful in future animal science classes.

2341 Live Animal-Carcass Evaluation (2-2). A study of evaluation methods relating live animal traits to carcass traits of meat animals.

Prerequisite: Animal Science 1319.

3214 Live Animal Meat and Wool Evaluation (3-1). A study of the factors involved in the visual evaluation of sheep, goats, beef cattle, swine, and their meat. (May be repeated once for credit.)

3320 Animal Nutrition and Feeding (2-2). Nutritional functions of nutrients and their digestion, absorption and use and forage feedstuff characteristics and procession; nutritional requirements, ration formulation and feeding methods for farm animal. General course for non-animal science majors.

Prerequisite: Animal Science 1319.

3332 Principles of Animal Nutrition (3-0). Basic principles of animal nutrition, including digestion, absorption, and metabolism of food nutrients; characteristics and functions of the essential nutrients; the measurement of body needs and feed values.

Prerequisite: Animal Science 1319.

3342 Applied Animal Nutrition (2-2). Defining feedstuffs; nutritional requirements of animals; nutritional characteristics of feeds; ration formulation.

Prerequisites: Animal Science 1319, 3332.

3443 Genetics of Livestock Improvement (3-2). Genetic principles and their application to the improvement of livestock through selection and mating.

Prerequisite: Junior standing.

3449 Animal Anatomy and Physiology (3-2). A study of the structure and function of the cells, tissues, organs, and systems of the body of farm animals.

Prerequisite: Animal Science 1319.
Animal Science (ASCI) continued

4181 Seminar in Animal Science (1-0). A course designed to acquaint the student with basic literature of the discipline and to encourage an exchange among animal science majors and faculty members on selected topics. (May be repeated once for credit.)
Prerequisites: Senior standing and Animal Science 1319.

4191, 4391 Research. Individual research problems. (May be repeated to a total of six semester hours credit.)
Prerequisites: Junior standing and Animal Science 1319.

4242 Advanced Livestock, Meat, and Wool Selection (1-3). A study of the factors involved in the visual evaluation of sheep, goats, beef cattle, swine, and their meat and fiber. (May be repeated once for credit.)
Prerequisite: Animal Science 3241.

4248 Reproductive Techniques (1-3). Techniques for increasing reproductive efficiency in farm animals; semen collection and evaluation, pregnancy diagnosis, and artificial insemination.
Prerequisites: Permission of instructor and Animal Science 1319.

4342 Sheep and Goat Science (2-2). Methods of breeding, feeding, management, and marketing of commercial and purebred sheep and goats; production and marketing of animal fibers.
Prerequisites: Senior standing and Animal Science 1319.

4343 Beef Cattle Science (2-2). Methods of breeding, feeding, management, and marketing of commercial and purebred cattle.
Prerequisites: Senior standing and Animal Science 1319.

4344 Animal Reproduction (2-2). Anatomy and physiology of the reproductive systems of farm animals; methods for increasing reproductive efficiency in farm animals.
Prerequisite: Animal Science 1319.

4345 Animal Behavior and Welfare (3-0). Basic Principles of animal behavior, physiology of behavior, stress, welfare and training of animals. Applications of behavior of livestock to their management and welfare.
Prerequisite: Animal Science 1319.

4381 Special Topics (3-0). A course dealing with selected topics in animal science. (May be repeated once for credit when topic varies.)

Art (ARTS)

1301/ARTS 1301 Introduction to Art (3-0). A course designed to lead to a basic understanding and increased enjoyment of the visual arts. For non-art majors/minors only. Option for education majors with an art emphasis.

1302 Primary Art (3-0). A course designed to convey essential artistic concepts, design principles, and theoretical aspects as related to an understanding of the visual arts and how this understanding applies to the development of the child and his/her potential creativity.

1303/ARTS 1303 Art History I (3-0). A survey of architecture, painting, and sculpture from prehistoric times to the Romanesque period of the Middle Ages.

1304/ARTS 1304 Art History II (3-0). A survey of architecture, painting, and sculpture from the Gothic period of the 13th century through the modern era.

1305 Art and Film (3-0). A survey of the use of the visual arts in film, from the earliest days to current trends. This course is intended for non-art majors.

1311/ARTS 1311 Design I (0-6). The study of the organization of visual elements and principles of design.

1312/ARTS 1312 Design II (0-6). Opportunities in experimentation and analysis of creative design problems.

1316/ARTS 1316 Drawing I (0-6). Fundamentals of drawing in a variety of media.

1317/ARTS 1317 Drawing II (0-6). Exercises in drawing in various media and a study of techniques used by historical and contemporary artists.

2356 Digital Imagery (0-6). Introduction to the basics of digital imagery. Includes camera operation, techniques, visual aesthetics, and presentation skills. Emphasis on design, history, and contemporary trends as a means of developing an understanding of photographic aesthetics.

2372 Graphic Illustration (0-6). Problems in illustration making use of various media, combined with a study of techniques used in the reproduction methods of the graphic arts industry. Formerly Art 1371.

2373 Digital Design (0-6). A foundation course centered on the manipulation of the elements of art with the use of the computer.

3311 Drawing III (0-6). Emphasis will be placed on contemporary drawing techniques, visual communication, and styles. (May be repeated for credit.)
Prerequisites: Arts 1311, 1316, 1317.

3312 Figure Drawing (0-6). Focuses on the development of understanding the proportions and aspects of the human figure, while encouraging individual interpretation. (May be repeated once for a total of six credit hours with the consent of the instructor.)
Prerequisites: Arts 1311, 1316, 1317.

3313 Modern Art (3-0). An examination of the development of modern painting and sculpture from the late eighteenth century to the present. Emphasis is placed on the evolution of style, philosophical content, and historical relevance.

3315 Italian Renaissance Art (3-0). The development of painting, sculpture, and architecture from the late thirteenth century to the end of the sixteenth century. Emphasis is placed on the context of philosophic, social, and theological concepts of the period.

3317 Modern Architecture (3-0). A study of the development of architectural structure, form, and style and of related historical influences. The course will cover the period from the mid-eighteenth century to the present.

3319 Greek and Roman Art (3-0). A study of the history of architecture, painting, and sculpture of the classical world.

3320 American Art (3-0). A study of the development of painting and sculpture in the United States with emphasis placed on artistic significance, stylistic interaction, and social, philosophical, and historic relevance.
**Course Descriptions**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3321</td>
<td>Painting I</td>
<td>A studio-laboratory study of procedures and purposes which develop basic painting techniques. Prerequisites: Arts 1311, 1316.</td>
</tr>
<tr>
<td>3322</td>
<td>Watercolor I</td>
<td>A study of the fundamental methods and procedures which are required for working with water soluble paint, especially transparent watercolor. Prerequisites: Arts 1311, 1316.</td>
</tr>
<tr>
<td>3323</td>
<td>Watercolor II</td>
<td>A continued study in basic watercolor techniques with added emphasis on extended and varied creative approaches. (May be repeated for credit with consent of instructor.) Prerequisite: Arts 3322.</td>
</tr>
<tr>
<td>3324</td>
<td>Jewelry</td>
<td>A studio laboratory that introduces traditional as well as contemporary processes and materials used in the creation of jewelry. Techniques will include sawing, piercing, soldering, bezel setting stones, and development of design application using these skills. Prerequisites: Arts 1311, 1316.</td>
</tr>
<tr>
<td>3325</td>
<td>Jewelry II</td>
<td>The development of a personal authentic and conceptual direction in metal work focusing on the relationship of surface to form. Casting is introduced and the fabrication process will be continued. (May be repeated for credit with consent of instructor.) Prerequisite: Arts 3324.</td>
</tr>
<tr>
<td>3327</td>
<td>Fibers</td>
<td>Structural development of fibers in woven forms as a fine art medium. The use of the frame-loom and non-loom weaves, coiling, twining, and twilling. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>3331</td>
<td>Ceramics I</td>
<td>Basic techniques of ceramic production; investigation into the artistic process of creating ceramic art forms. Emphasis on actual ceramic production.</td>
</tr>
<tr>
<td>3332</td>
<td>Ceramics II</td>
<td>A continuation of Arts 3331. Emphasis on wheel production, glaze formulation, kiln construction, and firing techniques. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>3333</td>
<td>Ceramics III</td>
<td>An advanced course designed for the exploration of ceramics as a sculptural vehicle. Emphasis is placed on students ability to perceive the relationship between the idea to the finished three dimensional sculpture. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>3341</td>
<td>Sculpture I</td>
<td>A study of the fundamental concepts in form, using clay modeled over armatures and cast in plaster, carving, and assemblage techniques.</td>
</tr>
<tr>
<td>3361</td>
<td>Printmaking I</td>
<td>A study of the processes of printing using relief, intaglio, stencil, and planographic methods.</td>
</tr>
<tr>
<td>3362</td>
<td>Printmaking II</td>
<td>Opportunities for specialization and experimentation in printmaking processes. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>3371</td>
<td>Typography</td>
<td>A course designed to explore typographical form in the graphic arts as a means of social and commercial communication. Application of typographical principles and analysis of design will be stressed. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>3372</td>
<td>Layout Concepts</td>
<td>An introduction to the print industries involving a study of layout and paste-up design and the preparation of copy for various printing methods. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>4321</td>
<td>Painting II</td>
<td>Advanced studio-laboratory study of procedures and purposes which develop painting techniques with emphasis on individual expression. (May be repeated for credit with consent of instructor.) Prerequisite: Arts 3321.</td>
</tr>
<tr>
<td>4324</td>
<td>Painting III</td>
<td>A continuation of the development of painting skills, including use of the human form as subject matter. (May be repeated for credit with consent of the instructor.) Prerequisites: Arts 3321, 4321.</td>
</tr>
<tr>
<td>4341</td>
<td>Sculpture II</td>
<td>Studies in sculpture based on fundamental principles included in Art 3341 but with greater emphasis on individual expression. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>4342</td>
<td>Sculpture III</td>
<td>Opportunities for specialization in experimental sculpture techniques, including mixed media and installation art. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>4362</td>
<td>Printmaking III</td>
<td>Opportunities for specialization in etching and various photographic methods of printmaking.</td>
</tr>
<tr>
<td>4370</td>
<td>Advanced Computer Application in the Graphic Arts</td>
<td>Focuses on the individual creative solutions derived from the use of computer imaging. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>4371</td>
<td>Internships</td>
<td>An in-service program with campus and/or local establishments as assigned on an individual basis. Arrangements for the art internship must be made with the instructor during the semester prior to participation in the internship. Prerequisites: Completion of area of specialization and consent of instructor.</td>
</tr>
<tr>
<td>4372</td>
<td>Portfolio Preparation</td>
<td>Focuses on the development of the student's individual portfolio. Presentation and marketing skills will be developed. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>4378</td>
<td>New Concepts in Art</td>
<td>This course will allow students to explore new trends in the visual arts either in the context of a studio laboratory experience or within the form of a seminar in which contemporary thought in the visual arts are discussed and analyzed. (May be repeated for credit with consent of instructor.)</td>
</tr>
<tr>
<td>4380</td>
<td>Ceramic Chemistry</td>
<td>The composition, properties, and use of materials in glazes. Calculation of glaze formulas and batches. Laboratory exercises in development of color and texture. (May be repeated for credit with consent of instructor.)</td>

Biology (BIOL)

1106/BIOL 1106 Principles of Biology I Laboratory (0-3). Laboratory designed to reinforce lecture topics of Biology 1306 and develop analytical skills essential to the practice of biology. Students must register for Biology 1306 concurrently. Recommended as a second semester course of a two-semester sequence for students majoring in biological sciences or related disciplines. Not intended for non-majors.

1107/BIOL 1107 Principles of Biology II Laboratory (0-3). Laboratory designed to reinforce lecture topics of Biology 1307 and develop analytical skills essential to the practice of biology. Students must register for Biology 1307 concurrently. Recommended as a first semester course of a two-semester sequence for students majoring in biological sciences or related disciplines. Not intended for non-majors.

1108/BIOL 1108 Human Biology Laboratory (0-2). Laboratory designed to reinforce lecture topics of Biology 1308. Co-registration for Biology 1308 is suggested. Not intended for Biology majors.

1109/BIOL 1109 Man and the Environment Laboratory (0-2). Laboratory designed to reinforce lecture topics of Biology 1309. Co-registration for Biology 1309 is suggested. Not intended for Biology majors.

1306/BIOL 1306 Principles of Biology I (3-0). An introduction to the unifying principles of biology with emphasis on biological chemistry, energetics and homeostasis, cell structure and function, gene expression, and patterns of inheritance. Students must register for Biology 1106 concurrently. Recommended as a second semester course of a two-semester sequence for students majoring in biological sciences or related disciplines. Not intended for non-majors.

1307/BIOL 1307 Principles of Biology II (3-0). An introduction to the unifying principles of biology with emphasis on biological diversity, evolution, and ecology. Students must register for Biology 1107 concurrently. Recommended as a first semester course of a two-semester sequence for students majoring in biological sciences or related disciplines. Not intended for non-majors.

1406/BIOL 1406 Principles of Biology I (3-3). An introduction to the unifying principles of biology with emphasis on biological chemistry, energetics and homeostasis, cell structure and function, gene expression, and patterns of inheritance. Laboratory is designed to reinforce lecture topics and develop analytical skills essential to the practice of biology. Recommended as a second semester course of a two-semester sequence for students majoring in biological sciences or related disciplines. Not intended for non-majors.

1407/BIOL 1407 Principles of Biology II (3-3). An introduction to the unifying principles of biology with emphasis on biological diversity, evolution, and ecology. Laboratory is designed to reinforce lecture topics and develop analytical skills essential to the practice of biology. Recommended as a first semester course of a two-semester sequence for students majoring in biological sciences or related disciplines. Not intended for non-majors.

1408/BIOL 1408 Human Biology (3-2). An introductory owner’s manual to the human body for nonbiology majors. Includes fundamentals of human anatomy and the functions of the major systems of the body, contemporary health issues, human heredity, and human evolution.

1409/BIOL 1409 Man and the Environment (3-2). An introductory owner’s manual to Spaceship Earth for nonbiology majors. Includes a survey of contemporary ecological concepts that affect man’s life, values, and culture. Topics include the biosphere and ecosystems, adaptation, environmental pollution, waste management, conservation, population growth, and world food problems.

1411/BIOL 1411 General Botany (3-3). A consideration of the structural adaptations and diversity of plants and their life cycles. Laboratory will emphasize classification and comparative anatomy of the Kingdoms Fungi and Plantae.

Prerequisite: Credit for one semester of introductory biology for majors (Biology 1306/1106, 1307/1107, 1480).

1413/BIOL 1413 General Zoology (3-3). A consideration of the structural adaptations of animals. Laboratory will emphasize classification and comparative anatomy within the Kingdom Animalia.

Prerequisite: Credit for one semester of introductory biology for majors (Biology 1306/1106, 1307/1107, 1480).

1480 Principles of Biology (3-3). An introduction to the unifying principles of biology, including the chemistry of life, cell structure and function, energy, inheritance, development, evolution, and ecology. Laboratory is designed to develop and improve critical thinking and problem solving skills related to the topics discussed in lectures. Intended for the biology major or minor.

2123 Human Anatomy Laboratory (0-3). Laboratory designed to reinforce lecture topics of Biology 2323. Students must register for Biology 2323 concurrently.

2124 Human Physiology Laboratory (0-3). Laboratory designed to reinforce lecture topics of Biology 2324. Students must register for Biology 2324 concurrently.

2320 Medical Terminology (3-0). Study of common medical terminology used in oral and written communications in the health professions. Terminology describing anatomical, physiological, and pathological conditions will be studied, including those used in diagnostic procedures and treatments. Special emphasis on root words, medical prefixes and suffixes, pronunciation, abbreviations, and symbols.

2323 Human Anatomy (3-0). The study of the structure of cells, tissues, organs, and systems of the human body. Students must register for Biology 2123 concurrently.

2324 Human Physiology (3-0). The study of the normal functions of the cells, tissues, organs, and systems of the human body. Students must register for Biology 2124 concurrently.

Prerequisite: Credit for Biology 2323 or 2423.
2403 Comparative Plant and Animal Physiology (3-3). A general introduction to how plants and animals function, comparative in approach and stressing the principles of physiology which govern the degree of environmental adaptation.
Prerequisites: Biology 1411, 1413.

2406/BIOI 2406 Environmental Biology (3-3). Principles of environmental systems and ecology, including biogeochemical cycles, energy transformations, abiotic interactions, symbiotic relationships, natural resources and their management, lifestyle analysis, evolutionary trends, hazards and risks, and approaches to ecological research. Does not apply toward the biology minor or major.

2423 Human Anatomy (3-3). The study of the structure of cells, tissues, organs, and systems of the human body.

2424 Human Physiology (3-3). The study of the normal functions of the cells, tissues, organs, and systems of the human body.
Prerequisite: Credit for Biology 2323/2123.

3101 Genetics Laboratory (0-2). Computer based problem solving in genetics. Optional laboratory to accompany Biology 3301.
Prerequisite: Concurrent enrollment or credit in Biology 3301.

3301 Genetics (3-0). This is a course in general genetics. Topics are organized into three major areas: cytogenetics, molecular genetics and classical genetics.
Prerequisite: Credit for Biology 1306/1106 and 1307/1107, or Biology 2323/2123 and 2324/2124, with a grade of “C” or better.

3302 Medical Genetics (3-0). A study of the role of genetics in human health with emphasis placed upon the mechanisms, methods of diagnosis and current treatment of genetic diseases. Course work will involve case studies and problem sets and will include learning to use a computer data base to retrieve information on human genetic diseases.
Prerequisite: Must have completed Biology 3301 with a grade of “A”.

3305 Medical Botany (3-0). An introduction to pharmacognosy and humanistic botany, including a discussion of the major food plants, special medicinal plants, plant hallucinogens, poisonous plants, and other economically important plants.
Prerequisite: Credit for one semester of biology or consent of instructor.

3333 Natural History of the Concho Valley (3-0). A study of the relationship among geology, soils, climate, plants, animals, and recent human history in the Concho Valley region of Texas. Emphasis will be placed on understanding woody vegetation and vertebrate animals of the region.

3403 Cell Biology (3-3). Study of the morphology, function, biochemistry and molecular biology of cells and organelles. Laboratory work will involve the practice and application of techniques to cell biology.
Prerequisites: Biology 1306/1106 or 1480, 3301, and two semesters of chemistry.

3411 General Microbiology (3-3). The major areas in the field of microbiology are surveyed, with special emphasis given to the bacteria. Groups of microorganisms are characterized in sufficient detail to reveal their nature. Fundamental concepts of biology and basic biological processes common to all forms of life are emphasized. Laboratory methods are stressed, and detailed studies are made of pure cultures.
Prerequisite: Credit for Biology 1306/1106 and 1307/1107, or Biology 2323/2123 and 2324/2124, with a grade of “C” or better.

3412 Pathogenic Microbiology (3-3). The relationship of microorganisms to human disease with an emphasis on bacteria. Elements of immunity and diagnosis and treatment of infection will be covered. This course includes a heavy emphasis on the role and application of laboratory work.
Prerequisites: Any three of the following courses each with a grade of “C” or better: Biology 1306/1106, 1307/1107, 1411, 1413, 3301, 3411 or 3412, or by special departmental approval.

3413 Immunology (3-2). A study of the specific cellular and humoral responses of the animal body to microorganisms and certain other extrinsic and intrinsic agents.
Prerequisites: Any three of the following courses each with a grade of “C” or better: Biology 1306/1106, 1307/1107, 1411, 1413, 3301, 3411 or 3412, or by special departmental approval.

3421 Histology (3-3). The microscopic study of normal cells, tissues, organs, and systems of the human body with emphasis on integration of microscopic structure with physiology, embryology, and other areas of biology.
Prerequisites: Credit for two courses in biology for majors (Biology 1306/1106, 1307/1107, 1411, 1413, 1480), or (Biology 2323/2123 and 2324/2124).

3461 Entomology (3-3). General entomology: a survey of the important orders and families of insects with emphasis on the natural history, systematics, taxonomy, and physiology of the group. Laboratory will include field trips with required collection and identification of local representative taxa.
Prerequisite: Biology 1413 or consent of instructor.

4061 Internship: Credit 1 to 6. A supervised course providing practical on-the-job experience in the student’s major. Grading will be either pass or fail.
Prerequisites: Sophomore standing and approval of department chair. 3.00 or better GPA in major and overall.

4181 Seminar in Biology (1-0). A course designed to acquaint the student with the basic literature of the discipline and to encourage an exchange among biology majors and faculty members on selected topics.
Prerequisites: Junior standing. Approval from the Chair of the Department is required prior to enrollment.
Course Descriptions

Biology (BIOL) continued

4301 Conservation Biology (3-0). Theory and practice of conservation biology with emphasis on the maintenance of species diversity, factors affecting extinction, genetic impacts of rarity, and practical management considerations, including design of reserves and captive breeding and release programs.
Prerequisites: Credit for one semester of introductory biology for majors (Biology 1306/1106, 1307/1107, 1480) and Biology 3301 or credit for one semester of introductory biology for majors (Biology 1306/1106, 1307/1107, 1480) and Animal Science 3443.

4303 Evolution (3-0). A review of the history of evolutionary thought and discussion of the development of all living organisms from previously existing types under the control of evolutionary processes. Emphasis on the mechanisms of evolution and the different theories regarding the processes that have brought about evolutionary change.
Prerequisites: Credit for one semester of introductory biology for majors (Biology 1306/1106, 1307/1107, 1480) and Biology 3301 or credit for one semester of introductory biology for majors (Biology 1306/1106, 1307/1107, 1480) and Animal Science 3443.

4315 Biogeography (3-0). A study of the distribution of plants and animals over the earth and of the principles that govern this distribution.
Prerequisites: Biology 1411 or 1413 or equivalent.

4381 Special Topics. Selected topics in biology. (May be repeated once for credit when the topic varies.)
Prerequisite: Junior standing.

4401 Ornithology (3-3). A study of the biology of birds, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas birds.
Prerequisite: Biology 1413 or equivalent.

4402 Mammalogy (3-3). A study of the biology of mammals, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas mammals.
Prerequisite: Biology 1413 or equivalent.

4403 Natural History of Bats (3-3). A study of the ecology and evolution of the order Chiroptera with emphasis on unique adaptations related to the life history strategies and echolocation of North American bats. Students will gain hands-on experience with the use of taxonomic keys and field techniques used in sampling and identifying bat species in natural habitats.
Prerequisite: Biology 1413 or consent of the instructor.

4404 Herpetology (3-3). A study of the amphibians and reptiles, their anatomy, evolutionary history, diversity, ecology, behavior, and zoogeography. Laboratory exercises will emphasize the identification and natural history of Texas amphibians and reptiles.
Prerequisite: Biology 1413 or equivalent.

4412 Biological Oceanography (3-3). A study of marine organisms and the environment in which they are found. Particular emphasis will be given to the Gulf of Mexico.
Prerequisite: Credit for one course in biology for majors (Biology 1306/1106, 1307/1107, 1411, 1413, 1480) or consent of instructor.

4421 Developmental Biology (3-3). A study of the molecular and genetic mechanisms regulating the development of animals. Specific topics include gametogenesis, embryogenesis, and tissue development. Laboratory explores the development of various invertebrate and vertebrate model organisms and emphasizes the application of techniques used with these model systems.
Prerequisites: Biology 3301, 3403.

4423 General Physiology (3-3). An advanced course in fundamentals of vertebrate physiology emphasizing function from the molecular to the organ system level. Laboratory exercises combine animal surgery, biochemical and molecular techniques, electronic instrumentation, and/or computer simulations of physiological principles.
Prerequisites: Must have completed Biology 1413 and 1480, or Biology 1306/1106 and 1307/1107, or Biology 2323/2123 and 2324/2124, with a grade of “B” or better.

4425 Bioinformatics (3-3). Introduction to methods for acquiring, analyzing, and employing biological sequence information. Topics will include: Theory and process of PCR, mass spectroscopy, and DNA microarrays. Algorithms for searching and clustering sequences. Applications of bioinformatic data to questions such as the geographical movement of Zika virus, horizontal gene transfer in bacterial viruses, and changes in human gene expression in response to disease and treatment. Students will access remote sequence databases (NCBI, EMBL-EBI) and analyze sequences with open source bioinformatics software running natively, in a Linux virtual machine, and on remote servers. Analyses will include protein structure prediction, phylogenetics using molecular data, and genome annotation. Students will annotate a novel viral genome and submit the completed annotation to NCBI. (Credit may not be earned for this course and Biology 5425.)

4435 Plant Taxonomy (3-3). Laboratory and field studies emphasize the use of a dichotomous key using flowering plants of the Concho Valley as topics of study, and recognition of the major families of flowering plants. Lecture emphasis is on current problems in plant taxonomy and systematics. (Credit may not be earned for this course and Range and Wildlife Management 4435.)

4441 Parasitology (3-3). A study of the anatomy, life cycles, ecology, diseases, diagnosis and treatment of protozoa, helminths, and arthropods parasitic in man. (Credit may not be earned for this course and Biology 5441.)
Prerequisites: Credit for two courses in biology for majors (Biology 1306/1106, 1307/1107, 1411, 1413, 1480), or (Biology 2323/2123 and 2324/2124).

4442 Arachnology (3-3). A study of the origin of the arachnids and their evolutionary relationships to other arthropod groups. A survey of the recognized ordinal groups will be presented in both lecture and laboratory with respect to the existing literature on distribution, morphology, ecology, reproductive life cycles and their relationships to man.

4443 Invertebrate Zoology (3-3). A survey of major invertebrate phyla, with emphasis on the classes of Cnidarians, Annelids, Mollusks, Arthropods, and Echinoderms. Particular attention will be given to phylogenetic relationships and natural history.
Prerequisite: Biology 1413 or equivalent.
4450 Molecular Biology (3-4). A study of the synthesis, function, and regulation of biologically important macromolecules (DNA, RNA, and proteins). Laboratory exercises are designed to develop skills with standard techniques in molecular biology such as electrophoresis, PCR, recombinant DNA technology, DNA sequencing, and bioinformatics.

Prerequisites: “C” or better in Biology 3403 or consent of instructor.

4451 Principles of Ecology (3-3). Examination of basic ecological concepts and principles of the ecosystem and biogeochemical cycles, with particular emphasis on the organization and energetics of populations at the species, interspecies, and community levels in aquatic and terrestrial environments.

Prerequisites: Credit for two semesters of biology for majors (Biology 1306/1106, 1307/1107, 1411, 1413, 1480), and Mathematics 1314 or higher (e.g. Mathematics 1316, 2312, 2413, 2414) or consent of instructor. Mathematics 2312 is strongly recommended.

4480 Introduction to Biometry (3-2). An introduction to the application of statistics to biological research. This course will include an introduction to probability, sampling theory, and hypothesis testing. Emphasis will be on common statistical techniques for biological research.

Prerequisites: Mathematics 1314 or equivalent. Mathematics 2312 or 3321 are recommended.

---

Biology (BIOL) continued

3101 Introduction to Homeland Security (1-0). Students focus on a comprehensive, up-to-date overview of homeland security from an all-hazards perspective. They examine threats to homeland security, including natural and technological disasters, as well as intentional threats of domestic and international terrorism, including weapons of mass destruction. The processes whereby strategic intelligence is gathered and disseminated are analyzed and accompanied with practical assignments where students gather and assess open-source and subscription open-source intelligence on one topic of their choice. This project is presented along with analysis and recommendations within a class portfolio context. Students review the roles and responsibilities of government agencies, non-government organizations, and individual citizens in homeland security. (Credit may not be earned for this course and Border Security 3301.)

3301 Studies in Homeland Security (3-0). This course introduces the student to the field of Border Security Studies. Students focus on a comprehensive, up-to-date overview of border security from an all-hazards perspective. Border security is viewed as a fundamental component of Homeland Security, and as such students examine a wide variety of threats to the homeland. This course incorporates the concepts of critical infrastructure, gathering and analysis of strategic intelligence, and develops the student’s technical writing skills. Students review the roles and responsibilities of government agencies, non-government organizations, and individual citizens in homeland security. (Credit may not be earned for this course and Border Security 3101.)

3307 Introduction to Cybersecurity (3-0). This course introduces students to the wide range of modern communications technologies. Use of these technologies by government and business entities for intelligence gathering, their limitations, and vulnerabilities are introduced to students. An overview of the history of computer hacking is covered. Additionally, a brief overview of law and policy concerning cyber communications are discussed beginning with the National Security Act of 1947. (Credit may not be earned for this course and Intelligence and Analysis 3307.)

3309 Information Security and Protection (3-0). This course prepares students to assess the security needs of computer and network systems, recommend safeguard solutions, and manage the implementation and maintenance of security devices, systems, and procedures. Reviews of past hacking, criminal, and terrorist (state and non-state) attacks on information networks are a component of this course.

3320 History of Terrorism (3-0). Students examine the phenomena of terrorism, counterterrorism, and the associated violence from a historical perspective with a focus on terrorism impacting America. Students describe the social context of terrorism as it relates to the actions of various terrorist groups, how terrorism appears to be a war fought on a different level by a set of different rules, and the emergence of leaderless terrorism (a loose network of groups with common goals apparently acting in isolation towards similar ends). Students conclude the course with discussions on fighting terrorism in the United States, including the potential problems of loss of civil liberties and other obstacles to counterterrorism.

3322 Weapons of Mass Destruction (3-0). This course for the non-scientist is a study of chemical, biological, and radiological science involved in the different forms of weapons of mass destruction. Identification of critical infrastructure and the associated threats are analyzed. The course covers topics of basic science, treatment, and short- and long-term effects, among other issues central to understanding hostile WMD agents.

3340 Legal Issues in International Relations (3-0). Students receive an in-depth overview of laws, policy, strategy, organization, and plans for dealing with various natural, accidental and premeditated threats to homeland security. Students review the respective and relative roles and responsibilities of government agencies, non-government organizations, and individual citizens for U.S. national security. Students discuss various policy and strategy issues, including balancing security and civil liberties and information sharing and protection and the USA Patriot Act.

3343 International Law (3-0). Introduces the student to the basic principles and practices of international law and legal regimes. Examines traditional and emerging topics in the field: human rights, the Law of the Sea, the Law of Armed Conflict, War Crimes Tribunals, and the International Criminal Court.

4071 Internship (1-6 SCH). This course is designed to familiarize students with the application of knowledge gained in course work and with operations and problems in the field of border and homeland security. Students must be pursuing a degree in Border Security. Approval of instructor is required.

4191, 4291, 4391 Research. Individual research problems for superior students majoring in homeland and border security. May be repeated for a total of six semester hours credit.

Prerequisites: Junior or Senior standing. Approval from the Chair of the Department is required prior to enrollment.

4301 Critical Communications Infrastructure (3-0). This course focuses on how cyber communication systems function, their interconnectivity, and vulnerabilities. The course materials focus on processes and policies associated with hardening and protecting critical communications infrastructure from natural hazards, potential terrorist threats, and attacks associated with modern warfare.
4302 Space Imagery and Security (3-0). This capstone course discusses the use of space-based assets to support Homeland Security and Intelligence efforts. Included are the limitations of the technologies, available commercial technologies, and the discussion of the legal, moral, and political issues surrounding the use of these technologies in a democratic society. Students will design and present a project as part of this course. (Credit may not be earned for this course and Intelligence and Analysis 4302.)

4303 Digital Footprints (3-0). A digital footprint is the data users leave behind on digital services. This course explores the inner workings of our digital world. Students will learn about the two main classifications of digital footprints: passive and active. The course covers terms related to internet technology and the dynamics of the internet while examining the mechanism and tools used to break down user and server information. (Credit may not be earned for this course and Intelligence and Analysis 4305.)

4310 Maritime Security (3-0). This course provides students with a broad knowledge of port and coastal security issues and the efforts necessary to protect critical infrastructure. It examines the critical importance of ports of entry (ocean, land, and air) to trade and their vulnerability to disruption and attack. It also examines several contemporary issues, including the importance of sea borne trade to the North American and United State economies, the vulnerabilities of ports to disruption and asymmetric attack, critical port security incidents, and defensive measures to protect ports from disruption or asymmetric attack. Topics also include immigration, an overview of the federal, state and local organizations involved in port and coastal security, and non-U.S. approaches to border and coastal security.

4321 Trends in Terrorism and Counterterrorism (3-0). This is a seminar course in which students examine new and growing threats including: narco-terrorism, environmental terrorism, terrorist recruitment methods, genomic terrorism, and threats to critical infrastructure. Students progress from analysis of past terrorism to present and future responses by national and international counterterrorism. Students consider historical defenses as well as new concepts and innovations for the prevention and mitigation of terrorist attacks.

4330 Disaster Preparedness and Emergency Planning (3-0). Effective emergency planning is the key to surviving natural and man-made disasters. Risk analysis and the formulation of a comprehensive plan, followed by a vigorous and continuing testing program, are essential elements to surviving an emergency. Topics covered include threat assessment, risk analysis, formulating a response plan, staffing an emergency operations center (EOC), interagency coordination and liaison, managing an actual incident, and conducting effective follow-up analysis. Students will select a critical infrastructure component within their communities, evaluate/establish strategic planning to respond to a disaster at that location, consider environmental impacts of a disaster, and present a portfolio of their analysis and response plans in an appropriate format. Actual case studies are discussed. Students are expected to participate actively in role-playing responses to disaster scenarios provide by the professor.

4344 Terrorism and Homeland Security (3-0). This survey course addresses the legal and policy lessons from the past regarding the War on Terrorism. The course examines definition of domestic and international conflict; its modalities (e.g., armed conflict, terrorism, economic coercion, and environmental degradation); types of threats (e.g., nuclear, biological, and chemical); the public law of conflict management; and the U.S. response to external conflict within the confines of domestic and international legal principles recognized by the United States (including constitutional issues.)

4345 Federal Immigration Law (3-0). In this seminar course the student is introduced to Federal Laws dealing with Border Security issues, in particular, U.S.C. Title 8, Title 18, Title 19, Title 21, and Title 31. Overviews of the laws, coupled with discussion of their implementation by the federal courts, are interactively discussed by the student and professor.

4351 Critical Infrastructure Protection (3-0). The evolution and principles of critical infrastructure, in both the private and public sectors, vital to their community, state, or the nation are identified. Risk assessments are performed and students address risk mitigation plans and appropriate countermeasures to a variety of threats from an all-hazards perspective. Includes instruction in homeland security policy, critical infrastructure policy, threat assessment, physical security, personnel security, operational security, contingency planning, case analyses of specific industries and systems, redundancy planning, emergency and disaster planning, security systems, and intelligence operations.

4354 Professionalism and Ethics in Criminal Justice Agencies (3-0). The study of theories and practices in areas of legality, morality, values, and ethics as they pertain to criminal justice. Included will be such topics as police corruption, brutality, and methods of dealing with such practices, as well as the concept of profession and professional conduct. This course is for Border Security or Criminal Justice majors and minors only. (Credit may not be earned for this course and for Criminal Justice 4354.)

Prerequisite: Senior status.

4381 Special Topics (3-0). A seminar in selected homeland and border security topics. May be repeated once for credit when topic varies.

4389 Seminar in Homeland and Border Security (3-0). This capstone course ties together the wide-ranging issues associated in the discipline of Homeland Security, focusing students in conducting research into issues associated with securing the nation’s borders from a variety of transnational threats in a dynamic environment.

Prerequisite: Senior status.

Business (BUSI)

1301/BUSI 1301 Introduction to Business (3-0). Fundamental principles of business organization, ownership, operation, and control. Helpful to beginning students in selecting a major program of study.

2301/BUSI 2301 Legal and Ethical Environment of Business (3-0). An overview of the basic principles of law as they apply to business, with an emphasis on the ethical environment of business. Topics include personal ethics, business ethics, legal ethics, resolution of ethical conflicts, the judicial system and court procedure, alternative dispute resolution, the constitution and business, business torts and crimes, contracts, bailments, forms of business structure, basic property law, international law and other relevant legal and ethical topics.

3347 Business Law for Accountants (3-0). An examination of the legal topics necessary for an accounting major to prepare to be a Certified Public Accountant. Topics include law of agency, contract law, the Uniform Commercial Code, debtor-creditor relationships, government regulation of business, and considerations of business structure.

Prerequisite: Business 2301.

34381 Special Topics: Business Law (3-0). A study of selected topics in business law. May be repeated once for credit when the topic varies.

Prerequisite: Junior status.
Course Descriptions

Chemistry (CHEM)

1105/CHEM 1105 Elements of Chemistry Laboratory (0-2). Laboratory experiments that focus on laboratory technique, data collection, and analysis. The experiments will expand upon the concepts and topics presented in Chemistry 1105. (Chemistry 1105 is optional.) Credit may not be applied to a minor in Chemistry.

1106/Chemistry 1106 Chemistry for the Health Professions Laboratory (0-3). Group learning activities and labs that present the bulk of the information for the Chemistry for the Health Professions Course in an active learning environment. Students will receive the same grade for Chemistry 1106 and Chemistry 1306. Credit may not be applied to a minor in Chemistry.

Corequisite: Chemistry 1306.

1111/Chemistry 1111 General Chemistry I Laboratory (0-3). Laboratory experiments that focus on laboratory technique, data collection, and analysis. The experiments will expand upon the concepts and topics presented in Chemistry 1111.

Corequisite: Chemistry 1111.

1112/Chemistry 1112 General Chemistry II Laboratory (0-3). Laboratory experiments that focus on laboratory technique, data collection, and analysis. The experiments will expand upon the concepts and topics presented in Chemistry 1112.

Corequisite: Chemistry 1112.

1305/Chemistry 1305 Elements of Chemistry (3-0). A survey of the fundamentals of chemistry. An introduction to organic and physiological chemistry and a survey of the chemistry of environmental systems. The accompanying laboratory, Chemistry 1105, is optional. May not be taken after completion of Chemistry 1312/1112. May not be applied to a major or minor in Chemistry or Biochemistry.

1306/Chemistry 1306 Chemistry for the Health Professions (3-0). An introduction to General, Organic and Biological emphasis on the role of chemistry in health and illness. The focus of this class is inquiry based learning designed to reinforce the concepts learned in Chemistry 1106. Intended for nurses and allied health professions; open to others with permission of the instructor. May not be applied to a minor in Chemistry. Students will receive the same grade for Chemistry 1306 as in Chemistry 1106.

Corequisite: Chemistry 1106.

1311/Chemistry 1311 General Chemistry I (3-0). An introduction to the fundamental laws and theories of chemistry, chemical nomenclature, stoichiometry, atomic structure, chemical bonding, periodic table, chemical equations and reactions, and the properties of heat flow and gases.

Prerequisites: Students must have received: a score of 580 or above on the mathematics portion of the SAT if taken before March 2016, a score of 600 or above on the mathematics portion of the SAT if taken in March 2016 or after, a score of 26 or above on the mathematics section of the ACT, completed college algebra with a grade of “C” or better, or completed Chemistry 1305 with a grade of “C” or better in order to enroll in Chemistry 1311/1111.

Corequisite: Chemistry 1111.

1312/Chemistry 1312 General Chemistry II (3-0). This course, which is a continuation of Chemistry 1311, focuses on chemical kinetics, chemical equilibrium, acid-base chemistry, and thermodynamics. Additional topics, such as environmental chemistry, electrochemistry, coordination chemistry, nuclear chemistry, organic chemistry, and/or polymers, may also be introduced.

Prerequisite: Chemistry 1311/1111 or 1411, must be completed with a “C” or better in order to enroll in Chemistry 1312/1112

Corequisite: Chemistry 1112.

1405/Chemistry 1405 Elements of Chemistry (3-3). A course that focuses on describing, explaining and predicting the fundamental principles of chemistry.

1406/Chemistry 1406 Chemistry for the Health Professions (3-3). An introduction to General, Organic and Biological Chemistry with emphasis on the role of chemistry in health and illness. Intended for nurses and allied health professionals; open to others with permission of instructor. Effective fall 2011 credit may not be applied to a major or minor in chemistry.

1411, 1412/Chemistry 1411, 1412 General Chemistry (3-3). Study of the fundamental laws and theories of chemistry, chemical nomenclature, chemical equilibrium, metals and non-metals and their compounds, introduction to nuclear chemistry and the quantum theory of structure.

Prerequisites: Students must have received: a score of 580 or above on the mathematics portion of the SAT if taken before March 2016, a score of 600 or above on the mathematics portion of the SAT if taken in March 2016 or after, a score of 26 or above on the mathematics section of the ACT, completed college algebra, or completed Chemistry 1405 with a grade of “C” or better in order to enroll in Chemistry 1411. Chemistry 1411 is to be completed with a grade of “C” or better in order to enroll in Chemistry 1412.

2153 Fundamentals of Organic Chemistry Laboratory (0-3). Required laboratory experiences to supplement Chemistry 2353. Effective fall 2011 credit may not be applied to a major or minor in chemistry.

Prerequisite: Chemistry 2353 or concurrent enrollment.

Business (BUSI) continued

4391 Research: Business Law. A specialized course which may be directed reading or research for superior students.

Prerequisite: Departmental permission.

Business Computer Information Systems (BCIS)

1305/BCIS 1305 Business Computer Applications (3-0). Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business utilization of the internet.

4366 Business Modeling and Decision Making (3-0). Design and use of financial models for working capital management; cash flow projections; ratio analysis; capital budgeting; security valuation and selection; portfolio management; and real estate investment analysis.

Prerequisites: Business Computer Information Systems 1305 or equivalent, Finance 3361.
**Chemistry (CHEM) continued**

**2353 Fundamentals of Organic Chemistry (3-0).** A brief survey of organic chemistry. Structural theory and the influence of structure on properties of organic compounds are emphasized. (Credit may not be received for both this course and Chemistry 3451.) Effective fall 2011 credit may not be applied to a major or minor in chemistry.

Prerequisite: Chemistry 1305/1105 or 1311/1111. Credit to be validated by credit in Chemistry 2153.

**3301 Descriptive Inorganic Chemistry (3-0).** Discussion of main group elements and transition metals, nuclear properties and periodic trends, ionic and molecular compounds, coordination chemistry, and solid lattices.

Prerequisite: A grade of “C” or better in Chemistry 1312/1112.

**3331 Fundamentals of Biochemistry (3-0).** A brief survey of biomolecules and their metabolism. Application to animal nutrition is made. Effective fall 2011 credit may not be applied to a major or minor in chemistry.

Prerequisite: Chemistry 2353.

**3421 Inorganic Quantitative Analysis (3-3).** Principles of analytical chemistry with emphasis on the fundamental instrumental techniques and methods used for chemical analysis. The course serves as an introduction to more advanced methods.

Prerequisites: Chemistry 1312/1112 with grades of “C” or higher.

**3451, 3452 Organic Chemistry (3-3).** Principles of organic chemistry, including a study of both aliphatic and aromatic compounds. Study of structural theory and reaction mechanisms.

Prerequisites: A grade of "C" or better in Chemistry 1312/1112 for enrollment in Chemistry 3451. A grade of “C” or better in Chemistry 3451 for enrollment in Chemistry 3452.

**3461 Physical Chemistry - Quantum Chemistry and Spectroscopy (3-3).** Laws, theories, and concepts of physical chemistry including quantum chemistry and spectroscopy.

Prerequisite: Physics 2325/2125 and completion of or concurrent registration in Mathematics 2414.

**3462 Physical Chemistry - Thermodynamics and Kinetics (3-3).** Laws, theories, and concepts of physical chemistry including thermodynamics and kinetics.

Prerequisite: Physics 2325/2125 and completion of or concurrent registration in Mathematics 2414.

**4191, 4291, 4391 Research.** Individual research problems for superior students majoring in chemistry. (May be repeated to a total of six semester hours credit.)

Prerequisite: Chemistry 3421.

**4233 Biochemistry Laboratory (0-6).** A survey of the techniques and applications of molecular biology and biochemistry. Emphasis on current techniques and structure/function relationships of biological macro-molecules.

Prerequisites: Biology 3403, and Chemistry 3452, 4331.

**4301 Chemistry Capstone (3-0).** A critical review of chemical topics that requires students to integrate the knowledge and skills introduced across the curriculum. The capstone experience requires technical writing and verbal presentation.

Prerequisite: Must be taken in the spring semester before graduation.

**4331 Biochemistry (3-0).** The chemistry of living organisms. Carbohydrates, lipids, proteins, vitamins, and related cellular constituents are considered.

Prerequisite: Chemistry 3452.

**4332 Intermediary Metabolism (3-0).** Coordinated examination of enzymatic processes in the living cell.

Prerequisite: Chemistry 4331.

**4333 Biophysical Chemistry (3-0).** This course presents an introductory development of classical thermodynamics and dynamics as it applies to equilibrium, kinetics, and the transport properties of biological molecules. Biophysical methods for characterizing biological macromolecules, such as light scattering, sedimentation, electrophoresis, and structure determination methods will be presented and discussed.

Prerequisites: Chemistry 4331, and Mathematics 2413.

**4351 Advanced Organic Chemistry (3-0).** Principles of reaction mechanisms, structure, and spectroscopic analysis as applied to theoretical, industrial, or biochemical studies.

**4381 Special Topics (3-0).** Selected topics in chemistry. May be repeated once for credit when the topic varies.

Prerequisite: Junior standing.

**4421 Instrumental Analysis (3-3).** An introduction to the theoretical and practical aspects of physiochemical methods of analysis, including optical and chromatographic techniques.

Prerequisites: Chemistry 3421, 3452.

**Civil Engineering (CENG)**

**3311 Introduction to Transportation Engineering (3-0).** Introduction to Transportation Engineering is an entry level transportation engineering course. The course covers general knowledge in all the transportation fields including: traffic characteristics and flow theory, transportation planning, geometric design of highways, and traffic safety.

Prerequisites: Engineering 2301 and Physics 2326, 2126.

**3312 Traffic Operations (3-0).** Basic characteristics of traffic, such as drivers, vehicles, volumes, speeds, delay, origins and destinations, intersection performance, capacity, termination and accidents; techniques for making traffic engineering investigations; traffic laws and ordinances, regulations, design and application of signal systems; curb parking control; enforcement and traffic administration; and public relations.

Prerequisites: Civil Engineering 3311; Civil Engineering Majors only, or Departmental permission.

**3341 Geotechnical Engineering (2-3).** Introduction to geotechnical engineering and testing. Identification and classification tests, flow net, principles of settlement, stresses in soils and shear strength testing.

Prerequisites: Engineering 2332; Civil Engineering Majors only, or Departmental permission.

**3351 Introduction to Environmental Engineering (2-3).** Introduction to environmental problems, water quality indicators and requirements, potable water quality and quantity objectives, water sources and treatment methods; water pollution control objectives and treatment methods; solid waste management and introduction to air pollution control.

Prerequisites: Chemistry 1311, 1111; Completion or concurrent enrollment in Engineering 2302.
Civil Engineering (CENG) continued

3352 Hydrology and Hydraulics (2-3). The hydrologic budget: precipitation, evaporation, infiltration, runoff, and steady state groundwater flow. Rainfall-runoff analysis, flood routing and hydrologic frequency analysis. Hydraulics of closed conduits and open channel flow with design applications in culverts, pumps, water distribution, storm and sanitary sewer systems.
   Prerequisite: Engineering 3404.

3353 Hazardous Waste and Site Remediation (3-0). Definition and classification of wastes encountered at contaminated sites. Principles underlying currently available site remediation technologies. Selection of treatment technology using EPA’s screening matrix. Engineering design of remediation systems such as pump-and-treat, bioremediation, and soil vapor extraction.
   Prerequisite: Civil Engineering 3351.

   Prerequisite: Engineering 2332.

3362 Structural Analysis II (3-0). Analysis of statically indeterminate structures using approximation methods, energy, and/or matrix methods. Direct stiffness and flexibility methods are discussed as are a variety of application in structural analysis software.
   Prerequisites: Civil Engineering 3361 and one of the following: Computer Science 1314, Computer Science 1336, or Engineering 2304; Civil Engineering Majors only, or Departmental permission.

4071 Civil Engineering Internship (1-6). Internship in Civil Engineering.
   Prerequisite: Departmental permission.

4091 Independent Study (1-6). Independent study in Civil Engineering. 1-6 hours. May be repeated up to a total of six hours.
   Prerequisite: Departmental permission.

4311 Geometric Design of Highways (3-0). Students taking this class will study the criteria controlling geometric design of highways including design speed, design volume, vehicle requirements and capacity design standards for different highway types; design of sight distance, alignment, grade; cross-section design; access control, frontage roads; intersection design elements, and design of interchange and exchanges.
   Prerequisites: Civil Engineering 3311; Civil Engineering Majors only, or Departmental permission.

   Prerequisites: Engineering 3331; Civil Engineering Majors only, or Departmental permission.

4341 Foundation and Retaining Wall Design (3-0). Application of principles of classical soil mechanics and structural concrete design to the design and analysis of shallow foundations and retaining structures.
   Prerequisite: Civil Engineering 3341. Completion or concurrent enrollment in Civil Engineering 4362.

4351 Water and Wastewater Treatment Design (3-0). Design of physical, chemical and biological processes for the treatment of water and wastewater including air stripping, coagulation and flocculation, sedimentation, filtration, adsorption, chemical oxidation/disinfection, fixed film and suspended growth biological processes, and sludge management.
   Prerequisite: Civil Engineering 3351; Civil Engineering Majors only, or Departmental permission.

4352 Hydraulic System Analysis (3-0). Analysis of hydraulic systems including pipe networks, open channels, sanitary sewer, storm management, water storage tanks and pumping systems.
   Prerequisite: Civil Engineering 3352.

4362 Concrete Design (3-0). Analysis and design of beams, one-way slabs and columns. Mechanics, behavior and design of reinforced concrete members subject to axial loads, bending and shear with ACI specifications.
   Prerequisite: Civil Engineering 3361; Civil Engineering Majors only, or Departmental permission.

4363 Steel Design (3-0). Design and behavior of the elements of steel structures with AISC specifications, proportioning members and connections using load and resistance factor design.
   Prerequisite: Civil Engineering 3361; Civil Engineering Majors only, or Departmental permission.

4366 Bridge Design (3-0). Bridge design in structural steel and reinforced concrete using AASHTO Bridge Design Specifications. Preliminary designs include investigating alternative structural systems and materials. Final designs include preparation of design calculations and sketches.
   Prerequisites: Civil Engineering 3361; and Civil Engineering 4362 or 4363.

4380 Civil Engineering Senior Design (1-4). Civil Engineering capstone experience. Engineering concepts integrated from topics taught in sequences of upper-division courses to produce practical, efficient and feasible solutions of civil engineering problems. Computer applications are included. Final oral and written reports are required. Intended to be taken in the final semester.
   Prerequisites: Senior standing within one semester of graduation. Departmental permission.

4381 Special Topics in Civil Engineering (3-0). Special topics in civil engineering. Course may be repeated for credit when topics vary.
   Prerequisite: Departmental permission.

Communication (COMM)

1311/SPCH 1311 Fundamentals of Human Communication (3-0). Introductory and survey course exploring theory and practice of interpersonal communication across various contexts.

1315/SPCH 1315 Public Speaking (3-0). Planning, organizing, and delivering of general platform speeches and speeches for special occasions.
Course Descriptions

Communication (COMM) continued

1335/COMM 1335 Introduction to Radio/Television/Film (3-0). A survey of the radio/TV cable industry in America including programming, regulations, technology and history. (Credit may not be earned for this course and Mass Media 1335.)

1337/COMM 1337 Beginning Video Production (2-2). Operation and use of television production equipment; fundamentals of digital video production and direction using single- and multi-camera formats. (Credit may not be earned for this course and Mass Media 1337.)

2303/COMM 2303 Audio Production (3-0). Capturing quality recordings in the field and studio. Course assignments will include preproduction planning, scheduling, writing and editing audio projects. (Credit may not be earned for this course and Mass Media 2303.)

2330/COMM 2330 Introduction to Public Relations (3-0). Exploration of the history and development of public relations. Presentation of the theory behind and process of public relations, including the planning, implementation, and evaluation of PR campaigns.

2335/SPCCH 2335 Argument and Debate (3-0). Principles of argument and debate. Practice in preparing written and spoken arguments, with emphasis on principles of critical thinking.

2341/SPCH 2341 Oral Interpretation (3-0). Imaginative and skillful oral reading of literary texts through study of literature styles and presentation techniques. The student will learn to perform prose, poetry, and dramatic texts for general audiences.

2344 Visual Communication (3-0). A course to develop applied and critical skills in visual communication. Special emphasis on print communication, design and information literacy using industry-standard software.

3311 Small Group Communication (3-0). A course to develop skill in leading and participating in small group interaction. Special emphasis on the nature of small groups, factors influencing communication in groups, and small group decision making.

3321 Principles of Persuasion (3-0). An analysis and evaluation of various forms of attitudinal and behavioral control from propaganda to brainwashing. Emphasis on theories of attitude change as applied to modern institutions.

3325 Digital Imaging (3-0). Principles of editing digital images using the industry standard software. Course topics will include image capture, file formats, image correction, and manipulation, storage and output for a variety of visual and photographic media. (Credit may not be earned for this course and Mass Media 3325.)

Prerequisites: Mass Media 1318 and advanced standing.

3331 Advanced Oral Interpretation (3-0). Study in the direction and presentation of literary texts and original speech materials in solo performances and group performances. Types of performances include oratory and extemporaneous speaking; dramatic, prose, and poetry interpretation; duo and programmed oral interpretation events. Students will be expected to both perform and direct in this class.

Prerequisite: Communication 2341.

3335 Public Relations Principles (3-0). Fundamentals of public relations including the history, terminology and various components of the profession. Some time will be spent preparing news releases and public relations campaigns. (Credit may not be earned for this course and Mass Media 3335.)

3336 Social Media Management (3-0). This course will explore how public relations strategies have been influenced by various social media sites. Students will learn how to utilize social media for public relations goals including outreach, consumer relations, social responsibility, and crisis management.

3337 Crisis Communication (3-0). This course focuses on crisis communication and management, emphasizing practical application of theories, strategies, and tactics from a public relations perspective.

3342 Advertising Principles (3-0). A study of the principles and practices of advertising, with an emphasis on the strategic process and preparation of advertising for the mass media. (Credit may not be earned for this course and Mass Media 3342.)

3351 Nonverbal Communication (3-0). A lecture-discussion-activity course focusing on non-verbal processes in human interaction.

3352 Communication in Professional Life (3-0). A course designed to investigate the role of human communication in professional life. Attention to interviewing, workplace culture, interpersonal and team communication, technology, professional presentations, leadership, and work life balance.

3355 Intercultural Communication (3-0). Examines the influence of culture on communication from a human perspective. The course emphasizes increased awareness of one’s own culture in relation to cultures different than his/her own.

3356 Negotiation and Conflict Management (3-0). Examines the role that negotiation plays in the conflict management process with a focus on principled negotiation. The course will examine the differences between competitive and cooperative negotiation focusing on foundations of effective negotiation.

3360 Sports Broadcasting (3-0). This course will provide an introduction to the Sports Broadcasting Media Industry. Students will learn the various role within conducting a live sports broadcast for local television. The roles to be taught in the course will feature: Play-By-Play, Color Analyst, Sports Production and Reporting. (Credit may not be earned for this course and Mass Media 3360.)

3361 Electronic Media Programming (3-0). Theories and strategies of program selection, scheduling and evaluation for electronic media. Theory and practice producing and scheduling prime time television programs. (Credit may not be earned for this course and Mass Media 3361.)

Prerequisite: Communication 1337 or Mass Media 1337 and advanced standing.

3363 Electronic News Gathering and Production (2-2). Theory and practice of producing video newscasts on location and in a station environment. Focus on shooting and editing. Extensive hands-on experience with equipment. Production of multiple packages and news pieces. (Credit may not be earned for this course and Mass Media 3363.)

Prerequisite: Communication 1337 or Mass Media 1337, and advanced standing.
Communication (COMM) continued

3366 Film as Message (3-0). Students will examine selected contemporary films. Interpersonal communication theories, nonverbal communication theories, and rhetorical theories will be used to see how the film creates its message through camera angles, color, gender and cultural assumptions, language choices, and proxemics.

3381 International Study Abroad in Communication (3-0). This course is designed for classes offered through the study abroad program. Course topics vary by program. The course may be repeated for up to 6 hours to meet major requirements.

4301 Senior Seminar (3-0). Capstone course for all areas of communication, emphasizing portfolio development and other preparation for entry into the communication profession. Course topics also include: professional communication excellence, job reviewing, team communication, cultural sensitivity, and work-life balance. (Credit may not be earned for this course and Mass Media 4301.)

4311 Advanced Interpersonal Communication (3-0). Study of communication in dyadic and small-group settings with particular emphasis placed on self-concept theory, interpersonal perception, and communication barriers.

4312 Gender and Communication (3-0). A course designed to investigate the role of gender in human communication. Attention to oral histories, alternative narratives, and gender theory including: systematic, cultural, cognitive, and behavioral approaches to studying gender and communication will be investigated. Special attention to gender in the workplace will be addressed.

4335 Advertising/Public Relations Campaigns and Cases (3-0). Case method and campaign planning as they pertain to advertising and public relations administration. Emphasis on development of creative strategy and media selection. (Credit may not be earned for this course and Mass Media 4335.)

4336 Integrated Marketing Communication (3-0). A course focused on the design and execution of communication and advertising campaigns. Topic varies. This course can be repeated for additional credit with departmental approval.

4337 Event Planning in Public Relations (3-0). Explores principles and practices of managing events for both non-profit and for-profit organizations. Emphasizes organization, site preparation, communications, personnel, and security as well as evaluation and innovation. Students will gain hands-on experience.

4338 Communication Technologies (3-0). Development and use of resources for preparing contextual learning and instruction with computer-mediated communication and collaborative media. Emphasis is placed on communication strategies for production of multi media materials using digital video and audio production techniques.

4351 Communication Theory (3-0). A critical examination of theories and research in communication. The course will focus on rhetorical, interpersonal, group, mass, and organizational communication theories.

4352 Communication Analysis (3-0). Analysis of different types of messages using several rhetorical strategies. Students will analyze the communicator’s intended audience, message channel, types of appeals, and persuasive techniques.

4355 Mass Media Effects and Ethics (3-0). A study of social science research methodology as applied to mass media research. The course will examine current theories of the effects of mass media on audiences. The study of reasoning and ethical decision making as they relate to the mass media. (Credit may not be earned for this course and Mass Media 4355.)

4360 Entertainment-Education in Media (3-0). This course will involve the study of how Entertainment-Education in Media has impacted social change in the United States and throughout the world by educating and entertaining audiences through film and television study from a theoretical perspective. Students will design a new Entertainment-Education media proposal for film or television through social change. (Credit may not be earned for this course and Mass Media 4360.)

4364 Media Management (3-0). Management functions, advertising, sales, and internal organizational structure of media. (Credit may not be earned for this course and Mass Media 4364.)

4365 Advanced Video Production (2-2). Theories and techniques for producing, directing, and editing single and multiple-camera productions; to include script writing, shooting, and post production for video field and studio work. (Credit may not be earned for this course and Mass Media 4365.)

4366 Visual Editing Theory and Techniques (3-0). A study of professional editing techniques, theories and trends in the history and current practice of film and television. Class will use non-linear editing systems, emphasizing technical and relative processes to visual storytelling. (Credit may not be earned for this course and Mass Media 4366.)

4371 Organizational Communication (3-0). The theoretical investigation and practical application of organizational communication principles. Studies will focus on information processing and problem solving within organizations.

4379 Communication Internship. Students gain on-the-job experience by working in industry. Limited to advanced students majoring in Communication. Participants are selected on the basis of written applications submitted to the department chair one semester in advance.

4381 Special Topics (3-0). Selected topics in communication. May be repeated once for credit when topic varies.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in communication.

Prerequisites: Senior standing and department chair approval.

Angelo State University Undergraduate Catalog 2019-2020 197
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>1301/COSC 1301</td>
<td>Computer Literacy (3-0).</td>
<td>Overview of concepts, terminology, hardware and software used in computing and networking.</td>
<td></td>
</tr>
<tr>
<td>1314</td>
<td>Introduction to Programming and Problem Solving (3-0).</td>
<td>Basic competency in computer programming, ability to solve problems by writing computer programs, knowledge of the Python language and an introductory knowledge of object-oriented programming.</td>
<td></td>
</tr>
<tr>
<td>1315/COSC 1315</td>
<td>Fundamentals of Programming (3-0).</td>
<td>Introductory computer programming techniques using a modern, object-oriented programming language.</td>
<td></td>
</tr>
<tr>
<td>1336/COSC 1336</td>
<td>Computer Science I (3-0).</td>
<td>The concepts and properties of algorithms for solving numerical and non-numerical problems. Introduction to computer and programming systems, including the development, debugging, and verification of programs, representation of data, computer characteristics and organization.</td>
<td></td>
</tr>
<tr>
<td>1337/COSC 1337</td>
<td>Computer Science II (3-0).</td>
<td>Continuation of Computer Science 1336. Problem solving and program development techniques emphasizing modular design. Includes advanced programming topics such as class design, records, strings, pointers, and bit manipulation.</td>
<td>Computer Science 1336.</td>
</tr>
<tr>
<td>1351</td>
<td>Java Programming (3-0).</td>
<td>Programming concepts and development in the Java language.</td>
<td></td>
</tr>
<tr>
<td>1371</td>
<td>Introduction to Computer Game Development (3-0).</td>
<td>An introduction to computer game development. Topics include the history of game development, player motivation, game elements, storytelling, characters, game play, level design, interface design, audio, project management, production, marketing and maintenance.</td>
<td></td>
</tr>
<tr>
<td>2324</td>
<td>3D Modeling and Animation I (3-0).</td>
<td>Introduction to three-dimensional (3D) modeling and animation utilizing industry standard software. The course includes the modeling and modification of 3D geometric shapes, as well as an introduction to camera techniques, light sources, textures, rigging, weight-mapping models and rendering for animation.</td>
<td></td>
</tr>
<tr>
<td>2336/COSC 2336</td>
<td>Data Structures and Algorithms (3-0).</td>
<td>Study of basic data structures and their applications such as: linear structures (arrays, lists, stacks, queues) and non-linear structures (trees, graphs); sequential and linked storage representation methods; sorting and searching algorithms; and techniques of algorithmic analysis.</td>
<td>Computer Science 1337.</td>
</tr>
<tr>
<td>3304</td>
<td>Computer Organization and Programming (3-0).</td>
<td>Basic computer organization with emphasis on machine representation of data and instructions; programming in assembly and machine-oriented languages for real and simulated computers.</td>
<td>Computer Science 1337.</td>
</tr>
<tr>
<td>3310</td>
<td>Principles of Unix (3-0).</td>
<td>This course will introduce the students to UNIX and systems programming. Students will use a Linux environment to learn user and administrative commands, create scripts using shell scripting languages, and program using C language, implementing UNIX concepts such as processes, inter-process communication and sockets.</td>
<td>Computer Science 1337.</td>
</tr>
<tr>
<td>3311</td>
<td>Data Base Management (3-0).</td>
<td>Basic data base concepts, organization, and definitions; data description languages; relational data base concepts and examples; comparison of data base systems.</td>
<td>Computer Science 1337.</td>
</tr>
<tr>
<td>3312</td>
<td>Web Programming (3-0).</td>
<td>Techniques for creating dynamic and responsive web pages using the latest markup, styling and client-side scripting technologies. Best practices for code maintainability and for browser and mobile compatibility will be emphasized.</td>
<td>Computer Science 1351 or 1336 or instructor's permission.</td>
</tr>
<tr>
<td>3325</td>
<td>Animation and Modeling II (3-0).</td>
<td>Intermediate methods for three-dimensional (3D) modeling and animation, including spline drawing, dynamic object emitters, surface mapping, skelegons, inverse kinematics, and extended lighting, texturing, and camera techniques.</td>
<td>Computer Science 2324.</td>
</tr>
<tr>
<td>3331</td>
<td>Programming Languages (3-0).</td>
<td>An introduction to the syntax and semantics of programming languages. Actual programming languages may be used to illustrate the language concepts.</td>
<td>Computer Science 2336.</td>
</tr>
<tr>
<td>3344</td>
<td>Computer Architecture (3-0).</td>
<td>Study of the hardware components of a computer system and survey of various computer architectures. Topics may include instruction set design, computer arithmetic, and microprogramming.</td>
<td>Computer Science 3304.</td>
</tr>
<tr>
<td>3352</td>
<td>Theory of Algorithms (3-0).</td>
<td>An in-depth study of computer algorithms, including those for hash tables, trees and graphs; analysis of time and space requirements of algorithms; NP-completeness and undecidability of problems.</td>
<td>Computer Science 2336.</td>
</tr>
<tr>
<td>3371</td>
<td>Computer Game Development I (3-0).</td>
<td>Introduction to the design and implementation of computer games, including real-time graphics, audio and interactive multimedia programming techniques.</td>
<td>Computer Science 2336.</td>
</tr>
<tr>
<td>3372</td>
<td>Handheld Game Development (3-0).</td>
<td>Computer game development for one or more handheld computing devices. Programming topics include graphics, audio, user interfaces and development tools. Other topics may include content creation, developer workflow, hardware acceleration, and power management.</td>
<td>Computer Science 2336.</td>
</tr>
<tr>
<td>4071</td>
<td>Internship: 1 to 3.</td>
<td>The student will participate in a part-time computing position with a cooperating business or government agency whose program has been approved by the Computer Science Department. The internship requires a minimum of ten hours per week. (May be repeated with a limit of 3 hours total)</td>
<td>Junior or senior Computer Science major with at least 18 semester hours in Computer Science, 12 of which must be in residence. Additionally, consent of the department chair is required.</td>
</tr>
<tr>
<td>4091</td>
<td>Research: 1 to 6.</td>
<td>A specialized course providing research opportunities for superior students majoring in computer science.</td>
<td>Senior standing and consent of the department chair is required.</td>
</tr>
</tbody>
</table>
4301 Algorithmic Languages and Compilers (3-0). Formal description of algorithmic languages, compilation techniques, syntactic analysis, code generation, storage allocation, syntax-directed compilers, compiler-building systems.
   Prerequisites: Computer Science 2336, 3304.

4302 Operating Systems (3-0). A study of the design and implementation of operating systems; analysis of system resource management, including the memory, processor, device, and information management functions.
   Prerequisites: Computer Science 2336, 3304.

4306 Software Engineering (3-0). Introduction to the fundamental concepts of computer software development; programming methodology; software reliability; performance and design evaluations, software project management; program development languages, tools and standards.
   Prerequisites: Senior standing and Computer Science 2336.

4307 Ethical Issues in Computing (3-0). Seminar style with discussion of the concern for the way in which computers pose new ethical questions or pose new versions of standard moral problems and dilemmas; study of ethical concepts to guide the computer professional; and computer professional codes of ethics. Case studies will be used to relate to ethical theory. Discussion will include ethical and legal use of software and conflicts of interest.
   Prerequisite: Junior standing.

4308 Computer Graphics (3-0). Study of hardware and software found in graphics systems. Topics such as line and curve drawing, text generation, transformation methods for two and three dimensional systems, fill algorithms, fractal curves and hiddenline algorithms.
   Prerequisites: Computer Science 2336 and Mathematics 2312.

4311 Web Database Design (3-0). Basics of web databases; understanding of web database design concepts; development of working web database using software and software tools readily available on the Internet.
   Prerequisites: Computer Science 2336, 3311.

4312 Internet Technologies (3-0). Technologies that make up the Internet including servers, clients, protocols, browsers and mechanisms for executable content.
   Prerequisite: Computer Science 2336.

4314 Computer Networking (3-0). Introduction to the principles and basic concepts of computer networking, including the Internet. Networking concepts, protocols and technologies are broken down into layers.

4316 Visual Programming (3-0). Programming in and for a visual or GUI environment. Event-driven objects including mouse and window events.
   Prerequisite: Computer Science 1315.

4318 Artificial Intelligence (3-0). Fundamental concepts and techniques of intelligent systems; representation and interpretation of knowledge on a computer; search strategies and control.
   Prerequisites: Senior standing and Computer Science 2336.

4320 Introduction to Computer and Network Security (3-0). In-depth look at the security risks and threats to an organization’s electronic assets, and an overview of components used in an enterprise security infrastructure. Topics will include theoretical background as well as practical techniques to secure an enterprise network.

4340 Offensive Security Techniques (3-0). This course will introduce cybersecurity practices of penetration testing and malware analysis. In virtual machine environments, the students will freely but safely exploit system vulnerabilities by deploying offensive security techniques, such as reconnaissance and backdoor, and determine how to avoid such problems.
   Prerequisites: Computer Science 3310, 4314, 4320.

4371 Computer Game Development II (3-0). Continuation of Computer Science 3371. Advanced game programming techniques, including designing game mechanics, concepts of emergence and progression, and the use of visual design tools.
   Prerequisite: Computer Science 3371.

4381 Special Topics in Computer Science (3-0). Contemporary applications and theory in computer science. (May be repeated once for credit when the topics vary.)

**Criminal Justice (CRIJ)**

1301/CRIJ 1301 Introduction to Criminal Justice (3-0). Topics for this course include history and philosophy of criminal justice and ethical considerations, crime defined, its nature and impact, overview of criminal justice system, prosecution and defense, trial process, corrections.

1306/CRIJ 1306 Courts System and Practices (3-0). Topics for this course include the judiciary in the criminal justice system, right to counsel, pre-trial releases, grand juries, adjudication process, types and rules of evidence and sentencing.

1310/CRIJ 1310 Fundamentals of Criminal Law (3-0). Topics for this course include a study of the nature of criminal law, philosophical and historical development, major definitions and concepts, classification of crime, elements of crimes and penalties using Texas statutes as illustrations, criminal responsibility.

2313/CRIJ 2313 Correctional System and Practices (3-0). Correction in the criminal justice system; organization of correctional system; correctional role; institutional operations: alternatives to institutionalization; treatment and rehabilitation; current and future issues.

2314/CRIJ 2314 Criminal Investigation (3-0). Topics for the course include instruction on investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; uses of forensic sciences; case and trial preparation.

2323/CRIJ 2323 Legal Aspects of Law Enforcement (3-0). Topics for the course include instruction on police authority, responsibilities, constitutional restraints: Law of Arrest; Search and Seizure; Police Liability.

2328/CRIJ 2328 Police Systems and Practices (3-0). Topics for the course include instruction on the police profession, organization of law enforcement systems: The police role; police discretion; ethics; police-community interaction; current and future issues.

3302 Research Methods (3-0). An introduction and overview of the methods used to conduct research in the field of Criminal Justice and social sciences in general.
Course Descriptions

Criminal Justice (CRIJ) continued

3303 Theory and Practice in the Juvenile Justice System (3-0). An intensive examination of the juvenile justice process. Topics focus on the specialized nature of the juvenile system, including juvenile law, the varied roles of juvenile courts, the police and correctional agencies, and an analysis of contemporary American juvenile justice philosophy and practice.

3304 Transnational Crime (3-0). This course differentiates the historical and contemporary patterns, modus operandi, capabilities, and vulnerabilities of transnational criminals and organizations. Course content includes a review of the contemporary literature of South American, Mexican, Asian, European, and African criminal enterprises, traditional organized crime, outlaw motorcycle gangs, and transnational criminal enterprises. In this seminar course the student will conduct directed research on a transnational crime topic and present the results of that research to the class.

3305 Perspectives on Crime in America (3-0). An intensive examination of American crime problems in historical perspective. Through the lens of various perspectives regarding the cause and prevention of crime, the course explores the social and public factors affecting crime, the divergent trends in criminal behavior, and the social characteristics of specific types of criminal deviance.

3306 International Drug Trafficking (3-0). This course is an in-depth study of the epidemic of drug abuse and its association with crime. The course encompasses all aspects of both legal and illegal drug abuse, pharmacology, gang activity, youth, violence, and behavioral pathology. It will also provide a robust examination of public policy issues associated with resolving the national drug control issue, drug trafficking, trends towards decriminalization/legalization, and law enforcement response. Students will have the opportunity to discuss contemporary drug-related issues of the day related to enforcement, medical treatment, harm reduction, or educational responses. Professor directed research in any of these drug policy issue areas will close out the course, enabling students to apply knowledge gained from the course to formulate intelligently their own opinions to develop possible societal solutions to this important national policy crisis.

3308 International Human Trafficking (3-0). This course distinguishes between various types of human trafficking; provides an overview of the history of human trafficking and counterstrategies; discusses the causes and consequences of human trafficking; and critically assesses the achievements of counterstrategies devised and implemented by governments, international organizations, and private actors. This is a writing intensive course in which the student will perform directed research on topics related to human trafficking.

3310 Criminal Justice Process (3-0). An in-depth examination of the various components of the criminal justice system as a process. Topics include legislation and crime, the police, constitutional limits on investigation and apprehension, the role of prosecuting and defense attorneys, bail and preventive detention, processes relating to the guilty plea, and the function of the criminal trial and the correctional process. Requires junior standing and the completion of the law enforcement transfer curriculum.

3312 Criminal Justice Administration (3-0). This course surveys the managerial and organizational philosophies and principles available to criminal justice administrators. It explores the strengths and weaknesses of various practices used to organize and manage personnel, define operational procedures, and determine essential functions within policing, judicial, and corrections agencies.

4071 Internship in Criminal Justice (1-6 SCH). A participant-observation course designed to familiarize students with the application of knowledge gained in course work and with operations and issues in the areas of local law enforcement or criminal justice agencies. Students must be officially pursuing the criminal justice degree and have senior standing. Instructor approval is required.

4091 Independent Research: 1 to 6. A specialized course that may be directed reading or research for superior students majoring in Criminal Justice. Department approval required.

4310 Community Corrections (3-0). Focuses on the analysis and evaluation of programs and processes in community settings such as diversion, probation, parole, and other community-reintegration procedures. Programs are discussed in terms of definition, history, purpose, possibilities, administration and process, problems, cost, and effectiveness.

4330 Seminar on Correctional Problems (3-0). Examination of the most important obstacles faced by corrections in America. Emphasis on professional shortcomings, system deficiencies, and public inadequacies.

4341 International Police Development (3-0). In this course, the student studies the historical development of police in countries outside of the U.S. Particularly, the emphasis will be on police development instituted by occupying and/or intervention forces assigned to a country for the purposes of establishing post conflict peacekeeping and stability operations. Analysis of ongoing efforts to introduce Americanized concepts of effective policing in foreign countries concludes this study.

4350 Seminar on Police Problems (3-0). An examination of the most important obstacles encountered by American law enforcement with emphasis upon professional shortcomings. Relies heavily upon guided independent student problem identification, research, analysis, and the formulation of recommendations. Requires completion of the law enforcement transfer curriculum and senior standing.

4354 Professionalism and Ethics in Criminal Justice Agencies (3-0). The study of theories and practices in areas of legality, morality, values, and ethics as they pertain to criminal justice. Included will be such topics as police corruption, brutality, and methods of dealing with such practices, as well as the concept of profession and professional conduct. This course is for Border Security or Criminal Justice majors and minors only. (Credit may not be earned for this course and Border Security 4354.)

Prerequisite: Senior standing.

4360 Police Personnel Management (3-0). An examination of the present dimensions and future trends of police personnel management with special emphasis on employee development programs, performance appraisal, discipline, and labor relations, including collective bargaining and police unions.

4381 Special Topics (3-0). A course dealing with selected topics in the criminal justice field. (May be repeated once for credit when topic varies.)

Prerequisite: Junior standing.
Cultural Competence (CUL)

2323 World Cultures (3-0). In this course, students will analyze the importance of culture around the world. Students will be introduced to cultures while exploring the historical, contextual, and cultural differences of various regions. Basic concepts related to culture will be introduced and their relevance illustrated through case studies on how culture has impacted the world.

3310 Introduction to Cultural Competence: Making Sense of the World I (3-0). This course serves as an introduction to various analytical approaches for understanding the dynamics of cross-cultural interaction. Students will explore the variety of "worlds" made visible through the lens of theory. The course aims to foster critical thinking about how cultural constructs shape our understanding of the world and attempted solutions to global problems.

3312 Cultural Competence: Making Sense of the World II (3-0). This course is a continuation of Cultural Competence 3310 that extends its analysis of cultural constructs to include specific issues related to international relations, solutions to global problems, and national security.

Early Childhood (ECH)

2305 Socio-Cultural Influences on Child Development (3-0). This course explores the influences of society, culture, political issues, family, and experiences on personal identity and learning success with special emphasis on the development of social competence and self-discipline, as well as the culture of schools and classrooms. A field-based experience is required.

3350 Developmentally Appropriate Environments (3-0). This course links cognitive, physical, social, and affective developmental domains to children’s experience and environment. The focus is on connecting developmental sequence and theory to real world experience and practice. The role of adult influence on children’s development is emphasized. A field-based experience is required.

4350 Applied Child Development (3-0). This course focuses on understanding and analyzing relationships between developmental sequences and children’s styles and processes of thinking, problem solving, cooperative interaction, and self-direction. The role of adults in mediating children’s accomplishments is emphasized including supervised experiences with young children. A field-based experience is required.

Economics (ECON)

1300 Economic Issues (3-0). A one-semester introduction to microeconomic and macroeconomic principles, focusing on contemporary social and economic issues including economic growth and development, poverty and welfare programs, international trade, and government spending and taxation. This course may not be taken to satisfy economics course requirements for the Bachelor of Business Administration degree.

2301/ECON 2301 Principles of Macroeconomics (3-0). Economic principles, aggregate income, output, and employment; money, fiscal, and monetary policy.

Students must have applied and been accepted into the Educator Preparation Program (EPP) prior to enrolling in any of the upper division education courses listed below.
Course Descriptions

**Education (ED) continued**

### 4309 Mathematics: Instructional Strategies for the Elementary and Middle School Teacher (3-0).
This field-based course emphasizes the integration of research and theories about the processes of learning mathematics. The development of logical reasoning in students, stages of intellectual development, appropriate questioning and problem solving strategies and techniques will be used with students in field settings. Addresses instructional strategies and materials for teaching mathematics. A field-based experience is required. Must be taken concurrently with Education 4311 and Education 4314.

Prerequisites: Mathematics 1314 or 1324, 1350, 1351. Must be admitted into the Educator Preparation Program.

### 4311 Social Studies: Instructional Strategies for the Elementary and Middle School Teacher (3-0).
This field-based course emphasizes the integration of research and theories about the processes of learning social studies in the elementary and middle schools. Problem solving, critical thinking, and citizenship will be stressed. Addresses instructional strategies and materials for teaching social studies. A field-based experience is required. Must be taken concurrently with Education 4309 and Education 4314.

Prerequisites: History 1301, 1302, 3301, Political Science 2305, 2306. Must be admitted into the Educator Preparation Program.

### 4314 Science: Instructional Strategies for the Elementary and Middle School Teacher (3-0).
This field-based course emphasizes the integration of research and theories about the processes of learning science. The major science processes such as observing, experimenting, measuring, classifying, analyzing, interpreting, sequencing, recognizing properties and patterns, and inferring will be used with student in field experience settings. Addresses instructional strategies and materials for teaching science. A field-based experience is required. Must be taken concurrently with Education 4309 and Education 4311.

Prerequisites: Biology 1308/1108, Geology 1301/1101 or 1303/1103, Physical Science 3311, 3312. Must be admitted into the Educator Preparation Program.

### 4315 The Elementary School: Organization and Management (3-0).
Focus is on the organization and management of classroom environments, curriculum, time management, planning, and student behavior. Legal and ethical issues related to schools and public education are addressed. Teacher candidates acquire knowledge, skills, and ability by observing and working with experienced public school teachers in elementary classrooms. To be taken concurrently with clinical teaching (student teaching) placement. A seminar format conducted by teams of university and/or public school teachers is utilized.

Prerequisites: Education 4311 and/or 4314, and/or 4309 and admission to the Clinical Teaching (student teaching) Program.

### 4321 Secondary School Organization and Curriculum (3-0).
A study of the structure, organization, and management of the secondary school system emphasizing state and local structures in Texas. Includes an examination of special student populations, the legal and ethical aspects of teaching, and career development. A field-based experience is required.

Prerequisite: Admission to the Educator Preparation Program.

### 4322 Teaching Techniques in the Secondary School (3-0).
A study of the teaching process in the secondary school, including measurement and evaluation of student achievement, instructional media and technology, and planning. A field-based experience in a secondary school is required.

Prerequisite: Admission to the Educator Preparation Program.

### 4323 Teaching in the Secondary School (3-0).
Focus is on the organization and management of classroom environments and student behavior. Legal, ethical, and teacher professional performance issues related to public schools are addressed. To be taken concurrently with clinical teaching.

Prerequisites: Education 4321, 4322, Reading 4320 all with a “C” or better, and admission into the Clinical Teaching Program.

### 4381 Special Topics (3-0).
Selected topics in education. May be repeated once for credit when topic varies.

### 4391 Research.
A specialized course which may be directed reading or research for superior students in education.

---

**Education (ED) Clinical Teaching (Student Teaching)**

### 4630 Supervised Teaching in the Secondary School.
Observation of and participation in supervised teaching in the secondary school. Grading will be either pass or fail.

### 4699 Internship.
This course provides supervision during a probationary period of employment in a school district. This course may be repeated until completion of the probationary period. Grading will be either pass or fail.

### 4972 Clinical Teaching (student teaching) in Grade 4 to Grade 8.
Participation in supervised teaching Grade 4 to Grade 8. Grading will be either pass or fail.

### 4973 Supervised Teaching in the High School.
Observation of and participation in supervised teaching in appropriate public school settings for students seeking Grades 7-12 teacher certification. Grading will be either pass or fail.

### 4974 Supervised Teaching All Levels.
Observation of and participation in supervised teaching in appropriate public school settings for students seeking all level teacher certification. Grading will be either pass or fail.

### 4975 Clinical Teaching (student teaching) in Early Childhood to Grade 6.
Participation in supervised teaching in early childhood to Grade 6 in an elementary and/or middle school. Must be admitted to the Clinical Teaching Program. Grading will be either pass or fail.

---

**Educational Psychology (EPSY)**

### 3303 Child and Adolescent Development (3-0).
A study of human development processes from childhood to adolescence including physical, cognitive, social, emotional, and personality development. Aspects of learning, motivation, classroom management, behavior management, diverse learners, and socio-cultural elements are examined. A case study report is required.

### 3314 Linguistically Diverse Learners (3-0).
Designed to enhance awareness, respect, understanding, and appreciation of the strengths of linguistically and culturally diverse learners through an examination of the research, study of theory, curriculum, assessment methodology, and classroom environments that foster a climate of respect, learning, equity, and excellence.
Engineering (ENGR)

1201/ENGR 1201 Introduction to Engineering (2-0). An introduction to the engineering profession with emphasis on technical communication and team-based engineering design.

1304/ENGR 1304 Engineering Graphics (2-2). Introduction to computer-aided drafting using CAD software and sketching to generate two- and three-dimensional drawings based on the conventions of engineering graphical communication; topics include spatial relationships, multi-view projections and sectioning, dimensioning, graphical presentation of data, and fundamentals of computer graphics.
Prerequisite: Engineering 1201.

1307/ENGR 1307 Plane Surveying (2-3). Development of skills necessary to recognize and solve problems in surveying; introduction and use of various precision instruments used for surveying, including level, theodolites, electronic distance measuring equipment, and total stations for collecting field data; introduction of Global Positioning Systems (GPS) and Geographic Information Systems (GIS) and their use in surveying; and use of graphic design software, such as AutoCAD or Microstation, in surveying problems.
Prerequisites: Engineering 1201, 1304, and enrollment in Mathematics 2413.

2201 Computer Aided Design and Prototype Design (1-3). Use of solid modeling platforms to address the design of common machine and structural elements. An introduction to the concepts and practice of 3D printing, with applications including gears, shafts, fasteners, and mechanisms.
Prerequisite: Engineering 1304.

2301/ENGR 2301 Engineering Mechanics - Statics (3-1). Basic theory of engineering mechanics, using calculus, involving the description of forces, moments, and couples acting on stationary engineering structures; equilibrium in two and three dimensions; free-body diagrams; friction; centroids; centers of gravity; and moments of inertia.
Prerequisites: Physics 2325/2125 and credit for or concurrent enrollment in Mathematics 2414.

2302/ENGR 2302 Engineering Mechanics - Dynamics (3-1). Basic theory of engineering mechanics, using calculus, involving the motion of particles, rigid bodies, and systems of particles; Newton's Laws; work and energy relationships; principles of impulse and momentum; application of kinetics and kinematics to the solution of engineering problems.
Prerequisite: Engineering 2301.

2304/ENGR 2304 Programming for Engineers (3-0). Programming principles and techniques for matrix and array operations, equation solving, and numeric simulations applied to engineering problems and visualization of engineering information; platforms include spreadsheets, symbolic algebra packages, engineering analysis software, and laboratory control software.

2305/ENGR 2305 Electrical Circuits (2-3). Fundamental principles of electric circuits. Network analysis, fields, DC analysis, series and parallel circuits, resistance, inductance, capacitance, current sources, and AC circuit analysis.
Prerequisites: Mathematics 2413 and Physics 2326, 2126.

2318 Economics and Sustainability of Infrastructure (3-0). In this course students will explore the nature of infrastructure systems such as water, power, and transportation, and the interaction among these systems, individuals, communities, and society. Students will apply quantitative economic analysis techniques along with qualitative analysis of the social and environmental impacts to make decisions about infrastructure planning.
Prerequisite: Mathematics 1314.

2332/ENGR 2332 Mechanics of Materials (2-2). Stresses, deformations, stress-strain relationships, torsions, beams, shafts, columns, elastic deformations in beams, combined loading, and combined stresses.
Prerequisites: Engineering 2301 and Mathematics 2414.

3305 Probability and Risk in Engineering (3-0). Modeling of random processes in engineering design and decision making. Fundamentals of probability spaces; random variables, dependence and independence; mean values and moments. Development of mathematical and simulation models, and their relevance to engineering design and decision making.
Prerequisite: Mathematics 3415.

Prerequisites: Chemistry 1311, 1111 and Engineering 2332.

3404 Introduction to Fluid Mechanics (3-3). Introduction of properties of fluids, conservation of mass, energy and momentum with applications to internal and external flows. Laboratory collection and analysis of data from experiments to determine fluid and flow field properties with emphasis on conservation principles.
Prerequisite: Engineering 2302; Civil Engineering Majors, Mechanical Engineering Majors, or Departmental permission.

4201 Professional Engineering Practice (2-0). The role of the engineer as a design professional. Professional responsibility and liability, contract law, risk management, contract formation, business practices, ethics and professional registration.
Prerequisite: Senior standing.

Prerequisites: Engineering 2301 and Mathematics 2414; Civil Engineering or Mechanical Engineering Majors only; or Departmental permission.

4367 Finite Element Analysis (2-2). Theory of the finite element method for common engineering elements including trusses, beams, plates, shells, and solids. Application to structural and mechanical engineering using finite element analysis theory and software.
Prerequisites: Civil Engineering or Mechanical Engineering Majors only; one of the following: Computer Science 1314, Computer Science 1336, or Engineering 2304; and Mathematics 3324.
Course Descriptions

English (ENGL)

1191 Preliminary First-Year Research Experience in English. A one-hour independent research course with English faculty mentor in the fall semester that covers topics related to undergraduate research/creative endeavor in English. By the end of the fall semester, student will have a specific research/creative endeavor agenda for English 1391. Department permission required.

1301/ENGL 1301 English Composition (3-0). Emphasizing the writing process, the course offers abundant practice in producing effective prose essays as well as in analyzing and discussing selected readings.
   Prerequisites: Completion of English Texas Success Initiative (TSI) requirements.

1302/ENGL 1302 Writing Across the Curriculum (3-0). A course in critical reading and writing across the curriculum, including the research process and the research paper.
   Prerequisite: English 1301 or equivalent credit.

1391 First-Year Research Experience in English. An independent research course based upon topic or issue identified in English 1191 by first-year English major and led by student’s faculty mentor. Student will begin the research/creative process and prepare for a presentation at the Angelo State University Undergraduate Research Symposium. Departmental permission required.

For degree plans requiring English sophomore literature, the sophomore literature requirement may be met by taking any of the sophomore literature courses offered (2321, 2322, 2323, 2326, 2329, 2331, 2341). The courses may be taken in any sequence or any combination.

2311/ENGL 2311 Introduction to Technical and Business Writing (3-0). Intensive study of and practice in writing in professional settings. Focus on the types of documents necessary to make decisions and take action on the job, such as proposals, reports, instructions, policies and procedures, e-mail messages, letters, and descriptions of products and services. Practice individual and collaborative processes involved in the creation of ethical and efficient documents.
   Prerequisites: English 1301 or equivalent credit.

2321/ENGL 2321 Introduction to British Literature (3-0). A study of diverse works by British writers. Emphasis on reading, comprehending, appreciating, and thinking critically about the selected works within the context of British culture and literary history.

2326/ENGL 2326 Introduction to American Literature (3-0). A study of diverse works by American writers. Emphasis on reading, comprehending, appreciating, and thinking critically about the selected works within the context of American culture and literary history.

   Prerequisites: English 1301 and 1302.

2331/ENGL 2331 Introduction to World Literature (3-0). A study of diverse works by writers from various countries. Emphasis on reading, comprehending, appreciating, and thinking critically about the selected works within the context of the culture and literary history of the works’ origins.

2340 Introduction to the Study of Language (3-0). An introduction to linguistics, the scientific study of language: the nature of human language; language and the brain; language and society; formal linguistics includes phonetics (the properties of speech sounds), phonology (the systematic sound patterns of language), Morphology (the grammatical structure of words), syntax (the structure of sentences), and semantics/pragmatics (the meaning and use of words and sentences). (Credit may not be earned for this course and Linguistics 2340.)
   Prerequisite: English 1302.

2341/ENGL 2341 Forms of Literature (3-0). An introductory course in which students explore the choices authors make in literary genre and craft.

Satisfactory completion of six semester hours of sophomore English literature is prerequisite to advanced courses (3000- and 4000-level courses). EXCEPTIONS: English 3351, 3352, 3353, 3354, 3360, 3361, 4071, 4360, 4365, and 4367 do not have an English sophomore literature prerequisite.

3301 Medieval English Literature (3-0). English literature of the Middle Ages from the Anglo-Saxon period to the fifteenth century.

3309 Victorian Literature (3-0). Major English works of the Victorian period exclusive of the novel.

3311 English Renaissance Literature (3-0). English literature of the sixteenth and seventeenth centuries, excluding Shakespeare. Typical studies include drama, lyric poetry, dramatic poetry, and prose.

3312 English Literature of the Restoration and Enlightenment (3-0). Major English authors from 1660 to 1785, with analysis of representative works.

3315 Modern British Literature (3-0). A study of British literature of the Modern Period, from 1900-1945, with analysis of representative works from a variety of genres and authors.

3320 Descriptive Linguistics (3-0). An examination of the science of human language: concentration on formal linguistics (phonetics, phonology, morphology, syntax, semantics/pragmatics) and survey of psycholinguistics, sociolinguistics, historical linguistics, applied linguistics. (Credit may not be earned for this course and Linguistics 3320.)
   Prerequisite: English 1302.

3323 English Phonology and Morphology (3-0). Study of the speech sound system and the study of the structure of words. (Credit may not be earned for this course and Linguistics 3323.)
   Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.
3326 English Syntax and Semantics (3-0). Study of the rules of phrase and sentence formation and the study of linguistic meaning of morphemes, words, phrases, and sentences. (Credit may not be earned for this course and Linguistics 3326.)
   Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

3330 Advanced Composition (3-0). Advanced technique and practice in writing processes as well as in rhetorical, literary, and stylistic analysis.

3331 American Literature to 1870 (3-0). A survey of authors, genres, themes, and movements in American literature before 1870.

3332 American Literature after 1870 (3-0). A survey of authors, genres, themes, and movements in American literature after 1870.

3333 British Literature to 1800 (3-0). A survey of authors, genres, themes, and movements in British literature to 1800.

3334 British Literature After 1800 (3-0). A survey of authors, genres, themes, and movements in British literature after 1800.

3336 Folklore (3-0). A study of folk motifs of various cultures throughout the world.

3338 Ancient Greek and Roman Myths (3-0). A study of stories from ancient Greece and Rome about gods, demigods, and heroes and the relations of those stories to historical and contemporary contexts. Selected readings in translation.

3339 Ethnic American Literature (3-0). A study of the contributions of one or more ethnic groups, excluding works covered in English 4336: Mexican American Literature.

3341 Contemporary Literature (3-0). A study of selected works of literature written within the past half century. Will include a variety of authors, genres, and national literary traditions.

3351 Advanced Technical Writing (3-0). Study and practice in document development for majors in agriculture, engineering, mathematics, nursing, science, and other technical fields. The course includes intensive use of computer skills, especially word processing and graphics.
   Prerequisite: 60 semester credit hours.

3352 Business Communications (3-0). Study of and practice in the skills and knowledge needed to communicate effectively in today's business environment.

3353 Web Publishing (3-0). Comprehensive overview of analyzing and designing functional websites for the workplace. Focuses on theoretical aspects and practical applications of web design, as well as principles and practices of multimedia design and implementation.

3354 Intercultural and International Writing (3-0). Comprehensive overview of the role of culture in technical and business writing practices with a focus on designing professional documents for intercultural and international audiences.

3355 Fiction and Fiction Writing (3-0). A study of the theory and accepted practices of fiction and fiction writing. Writing assignments may include both critical essays and original fiction.

3356 Poetry and Poetry Writing (3-0). A study of the theory and accepted practices of poetry and poetry writing. Writing assignments may include both critical essays and original poetry.

3360 Travel and Study USA (3-0). A travel course in English studies related to destination within the United States and to topic selected by instructor. May be repeated once when destination or topic varies.
   Prerequisites: 30 semester credit hours, GPA of 2.50, and department permission.

3361 Travel and Study Abroad (3-0). A travel course in English studies related to destination outside of the United States and to topic selected by instructor. May be repeated once when destination or topic varies.
   Prerequisites: 30 semester credit hours, GPA of 2.50, and department permission.

Satisfactory completion of English 3330 is a prerequisite to all 4000-level courses except for English 4071, 4323, 4355, 4360, 4365, 4367, 4373, 4376, 4377, and 4381.

4071 Internship in English: Credit 1 to 6. An internship experience with advanced assignments in writing, literacy, editing, web design, or teaching English as a second language. (English 4071 may be repeated with a limit of 6 hours total.)
   Prerequisites: 60 hours - including current semester credit hours, a 2.50 or higher cumulative GPA at the time of application, and department permission.

4309 Shakespeare (3-0). A study of Shakespeare's dramatic and non-dramatic works.

4310 Studies in the British Novel (3-0). The study of a variety of topics and authors in the British novel.

4311 Topics in British Literature (3-0). A study of one or more topics in British literature.

4319 Sociolinguistics (3-0). A study of the role of language in society and how society in turn impacts language use. (Credit may not be earned for this course and Linguistics 4319.)

4321 Teaching Literature in the Secondary Schools (3-0). A survey of best practices in teaching literary history and textual analysis in the secondary schools, including an understanding of and practice in the Texas English/Language Arts Standards in reading.

4322 Teaching Writing in the Secondary Schools (3-0). A survey of best practices in teaching writing in the secondary schools, including an understanding of and practice in the Texas English/Language Arts Standards in writing.

4323 Methods of Teaching Foreign/Second Language (3-0). Study and application of perspectives, theories, pedagogies, and methods of language teaching and learning. (Credit may not be earned for this course and Linguistics 4323.)
   Prerequisites: English/Linguistics 2340 or English/Linguistics 3320 and English/Linguistics 3430.

4328 Studies in a Single Author (3-0). A study of one author's creative development and production. (May be repeated once when author varies.)
Course Descriptions

**English (ENGL) continued**

4329 Studies in Short Fiction (3-0). A study of major works, authors, periods, and/or theories of short fiction. Specific topics may vary.

4332 Studies in the American Novel (3-0). The study of a variety of topics and authors in the American novel.

4335 Comparative Literature (3-0). Non-English literature in translation. Emphasis may vary from semester to semester upon theme, genre, or national literature.

4336 Mexican American Literature (3-0). The literature of Mexican American authors in various genres.

4337 Women’s Literature (3-0). A study of literary texts, in various genres, by women.

4338 Reading Graphic Novels (3-0). An introduction to the special visual language of comics, as well as a survey of graphic fiction, memoir, and journalism.

4340 Psycholinguistics (3-0). Study of language and the brain, particularly child language acquisition and adult language learning, but also linguistic performance and oral and print comprehension and production. (Credit may not be earned for this course and Linguistics 4340.)

Prerequisite: English/Linguistics 3320.

4344 Topics in American Literature (3-0). A study of one or more topics in American literature.

4353 Literary Criticism (3-0). A study of critical theories and/or methods of literary interpretation.

4355 Film Criticism (3-0). A study of the cinema as an art form and an index to popular culture.

4360 Professional Editing (3-0). Study and practice in editing methods for business, technical, scientific, and other professional documents, both electronic and paper. Practical experience includes editing documents produced by the business community and university.

4361 English Grammar (3-0). A study of grammar, including grammatical forms and functions, sentence structure, and diagramming.

4363 History of the English Language (3-0). A study of the structures of Old, Middle, Modern, and Present Day English, including readings from the various periods.

4365 Usability Testing (3-0). Overview of usability testing (testing of products, product documentation, and web sites) procedures in technical and business writing, including the construction of a usability testing lab, practice at conducting usability tests through a service-learning project, and methods for reporting usability findings to clients.

4367 Topics in Technical and Business Writing (3-0). A study in one or more topics in technical and business writing. (May be repeated once for credit when topic varies.)

4373 Professional Writing (3-0). Strong emphasis on building writing skills and developing student identity as a professional. Culminates in the assembly of a professional portfolio that the student can use in the search for internships and post-graduation employment.

Prerequisite: 90 semester credit hours, including a 2.00 cumulative GPA in 12 advanced hours in English (3330, 3351 or 3352, 3353, 4360 strongly recommended) or department approval.

4376 Fiction Writing Workshop (3-0). Intensive practice in writing and evaluating fiction. May be repeated once for credit.

Prerequisite: English 3355.

4377 Poetry Writing Workshop (3-0). Intensive practice in writing and evaluating poetry. May be repeated once for credit.

Prerequisite: English 3356.

4381 Special Topics (3-0). Selected topics in English. (May be repeated once for credit when topic varies.)

4391 Research. A specialized course which may be directed reading or research for superior students majoring in English.

---

**Dual Credit: Off-Site Courses**

**English (ENGL)**

ENGL 2322/ENGL 2322 British Literature I (3-0). A survey of the development of British literature from the Anglo-Saxon period to the Eighteenth Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

ENGL 2323/ENGL 2323 British Literature II (3-0). A survey of the development of British literature from the Romantic period to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

---

**Finance (FINC)**

3348 Retirement Planning (3-0). This course focuses on retirement planning for the business, the business owner, and the individual. It consists of two major parts. The first covers qualified plans, nonqualified plans, and IRAs; the second part deals with the retirement needs of individual clients. This course emphasizes the practical knowledge needed for choosing the best retirement plan and designing a plan that will meet a client’s needs from a tax and retirement standpoint.

Prerequisite: Junior standing.

3360 Money and Banking (3-0). The role of money, financial markets, and institutions. Monetary theory, central bank monetary policy, and the international financial system. (Credit may not be earned for this course and Economics 3360.)

Prerequisite: Economics 2301.

3361 Financial Management (3-0). Financial management of the firm; valuation of the firm; working capital policy; capital budgeting; cost of capital; and long-term financing.

Prerequisites: Accounting 2301 and Management 2331.
3362 **Personal Finance (3-0).** Income and expenditure patterns; consumer protection and financial analysis of consumer problems; and personal money management.  
Prerequisite: Junior standing.

3364 **General Insurance (3-0).** Theory of insurance and risk; types of insurance companies; contract terms and clauses; basic features of life, property, liability, and health insurance from a consumer’s viewpoint.  
Prerequisite: Junior standing.

3365 **Corporate Financial Practices (3-0).** Capital markets and valuation of the firm; capital budgeting; cost of capital; and leverage.  
Prerequisite: Finance 3361.

4347 **Estate Planning (3-0).** Various aspects of estate and gift tax planning—including the nature, valuation, transfer, administration, and taxation of property are discussed. Particular emphasis is given to a basic understanding of the unified estate and gift tax system. This course covers gratuitous transfers of property outright or with trusts, wills, and powers of appointment. It also covers federal estate and gift taxation, the marital deduction, and various estate planning devices used in the estate planning process. In addition, the client interview, fact-finding, ethical standards, and the development of appropriate personal estate plans are discussed.  
Prerequisite: Finance 3361.

4361 **Financial Institution Administration (3-0).** The role of financial institutions in the economy; depository and non-depository financial institutions; legal environment; organizational structure; asset/liability management; and international aspects.  
Prerequisite: Finance 3360 or Accounting 2302.

4363 **Investments (3-0).** Basic principles of investment; types of investment media; sources of information; characteristics of stocks and bonds; selection of securities; construction of an investment portfolio; and investment companies.  
Prerequisite: Finance 3361.

4364 **Security Analysis and Portfolio Management (3-0).** Investment objectives; risk and return; analysis and selection of investment securities, timing; portfolio theory, and applications; and evaluation of portfolio performance.  
Prerequisites: Finance 3361.

4367 **International Finance (3-0).** An examination of the international monetary system from World War II to present, transition from fixed to floating exchange rates. Emphasis given to interest arbitrage, spot and forward exchange rates, foreign exchange exposure and risk, reducing foreign exchange risk, capital budgeting and import/export financing in the study of multinational finance.  
Prerequisite: Finance 3361.

4370 **Applied Financial Planning (3-0).** Integrates the financial planning content areas into the development of comprehensive financial plans.  
Prerequisite: Junior standing.

4371 **Internship.** Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input on student performance from the employment supervisor and other agreed-upon requirements. May be repeated once for credit with approval.  
Prerequisite: Approval of both the supervising instructor and the department chair.

4381 **Special Topics (3-0).** Selected topics in finance. May be repeated one for credit when topic varies.

4391 **Research.** A specialized course which may be directed reading or research for superior students majoring in finance.  
Prerequisite: Junior standing.

**Finance (FINC) continued**

**Food Science (FSCI)**

1329/AGRI 1329 **Food Science (3-0).** A fundamental knowledge of the food industry; food safety, sanitation, processing, classification and quality.

3300 **Animal Products and Industry (2-2).** Introduction and survey of the animal products industry intended to illustrate the diversity of animal products, animal product production practices and general food science principals. Emphasis is placed on student’s knowledge of general food science practices and animal derived products. This course is intended for students majoring in fields other than Food Animal Science and Marketing and will focus on a general knowledge necessary to convey an overview of the animal products industry.  
Prerequisite: Food Science 1329.

3446 **Introduction to Meat Science and Muscle Biology (3-2).** The course evaluates the multiple facets of the meat industry from conception of meat animals to consumption of meat products. Knowledge of general history, food safety, inspection, physiology, muscle ultrastructure, harvest, fabrication, meat quality, and processing of meat products will be examined. The role of livestock and the meat industry in producing and providing safe and wholesome vital protein to the world will be emphasized.  
Prerequisite: Junior standing and Animal Science 3449.

4300 **Food Regulations and HACCP (3-0).** A survey of the current and historical food laws and regulations governing meat and food production within the U.S. Emphasis will be placed on organization and availability of these regulations that impact the industry. Additionally, this course will cover food safety programs and provide the opportunity for Hazard Analysis and Critical Control Points (HACCP) certification.

4344 **Food Safety and Sanitation (3-0).** Principles of sanitation in food processing and food service. A study of the physical, chemical and microbiological importance of food spoilage, food preservation, and the methods for control of microbiological growth. The national food service exam will be given at the end of the course.  
Prerequisite: Food Science 1329.

4345 **Food Microbiology (2-2).** The study of microorganisms important in food production, spoilage, preservation, and illness. Nutrient needs, growth characteristics, beneficial products, testing methods, and illnesses caused by microorganisms will be investigated.  
Prerequisite: Food Science 1329.
## Course Descriptions

### Food Science (FSCI) continued

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>4350</td>
<td>Issues in Meat and Food Sciences (3-0)</td>
<td>Lecture, discussion and seminar on current technological, societal, economical and environmental issues facing the meat and food science industries. Emphasis on issues that will continue to impact food production and service management practices including Hazard Analysis and Critical Control Points (HACCP) and other government regulations.</td>
</tr>
<tr>
<td>4381</td>
<td>Special Topics (3-0)</td>
<td>A course dealing with selected topics in food science. May be repeated once for credit when topic varies.</td>
</tr>
<tr>
<td>4391</td>
<td>Food Science Research</td>
<td>Individual research problems. (May be repeated to a total of six semester hours credit.)</td>
</tr>
<tr>
<td>4447</td>
<td>Introduction to Processed Meats and Product Development (2-3)</td>
<td>The course evaluates the facets of the processed meats industry beginning with historical perspective of processed meat products. Knowledge of general ingredient functionality, food safety, production, product coating, cookery, labeling, and formulation will be examined. Understanding of several key concepts relating to production and marketing of processed meat products in the crucial role of supplying prepared protein to the world in a growing consumer base.</td>

General Studies (GS)

1181 Freshman Seminar (1-0). Seminar on various contemporary topics. This course is designed to introduce incoming freshmen to the intellectual and cultural environment of the university and the impacts it will have on their lives as students. Freshman Seminars incorporate various integral elements in order to facilitate first-year students’ transition from high school to college-level learning. Emphasis will be on communication, critical thinking, and information literacy. Open to all majors; restricted to and required of first-time-in-college students.

Prerequisite: Freshman classification or approval of instructor.

Geography (GEOG)

1101 Physical Geography Lab (0-2). The laboratory is designed to reinforce understanding of topics discussed in lectures. To be taken with Geography 1301.

1301/GEOG 1301 Physical Geography (3-0). A geography of the earth with a survey of its atmosphere, oceans, landforms, and environmental regions.

2305 Fundamentals of Geography (3-0). Designed to meet the needs of those planning to teach geography in all grades. The course introduces physical, human, and world geography, as well as basic geographical terms and concepts.

3302 Human Geography (3-0). A study of human interaction with the earth’s natural environments considering the earth as the setting for human physical and cultural evolution.

3303 World Regional Geography (3-0). A survey of major world regions focusing on their distinctive physical and cultural characteristics and the role of each region in the world.

3304 Regional Geography of North America (3-0). A survey, within a regional framework, of the physical and human geography of the United States and Canada.

4381 Special Topics (3-0). A course dealing with selected topics in geography. (May be repeated once for credit when topic varies.)

Geology (GEOL)

1101/GEOL 1101 Earth Science Laboratory (0-2). The laboratory is designed to accompany Geology 1301. This laboratory will include experiments involving topics such as: Earth materials, structure, landforms, mineral resources, and plate tectonics. Concurrent enrollment in, or credit for, Geology 1301 is required.

1103/GEOL 1103 Physical Geology Laboratory (0-2). Laboratory activities designed to accompany Geology 1303. The laboratory includes experiments over topics such as: Earth materials, structure, landforms, mineral resources, and plate tectonics. Concurrent enrollment in, or credit for, Geology 1303 is required.

1104/GEOL 1104 Historical Geology Laboratory (0-2). Laboratory activities designed to accompany Geology 1304. The laboratory includes experiments involving the interpretation of four billion years of Earth history recorded in rocks, including evolutionary changes and the use of fossils in time and space. Concurrent enrollment in, or credit for, Geology 1304 is required.

1191 Freshman Research. This course is for those who have received a freshman research grant. This course fulfills the first semester of that research.

Prerequisite: Instructor approval.

1301/GEOL 1301 Earth Science (3-0). An introduction to the study of the Earth including the atmosphere, geosphere, hydrosphere, and cryosphere. The course will cover general overview of topics such as: rocks and minerals, streams, the ocean, groundwater, weather, climate, plate tectonics, and natural hazards. Concurrent enrollment in, or credit for, Geology 1101 is required.

1303/GEOL 1303 Physical Geology (3-0). Earth materials, structure, landforms, mineral resources, and the processes that form them. Includes plate tectonics and how humans are affected by Earth processes. Concurrent enrollment in, or credit for, Geology 1103 is required.

1304/GEOL 1304 Historical Geology (3-0). Application of geological principles to interpret four billion years of Earth history recorded in rocks. Includes evolutionary changes and the use of fossils in time and space. Concurrent enrollment in, or credit for, Geology 1104 is required.

1347/GEOL 1347 Meteorology (3-0). An introduction to atmospheric properties, physical processes that govern weather and climate, and interactions between the atmosphere and the other components of the Earth system.

1391 Freshman Research II. This course is for those who have received a freshman research grant. This course fulfills the second semester of that research.

Prerequisites: Geology 1191 and instructor approval.

1401/GEOL 1401 Earth Science (3-2). An introduction to the study of the Earth including the atmosphere, geosphere, hydrosphere, and cryosphere. The course will cover general overview of topics such as: rocks and minerals, streams, the ocean, groundwater, weather, climate, plate tectonics, and natural hazards.

1403/GEOL 1403 Physical Geology (3-2). Earth materials, structure, landforms, mineral resources, and the processes that form them. Includes plate tectonics and how humans are affected by Earth processes.

1404/GEOL 1404 Historical Geology (3-2). Application of geological principles to interpret four billion years of Earth history recorded in rocks. Includes evolutionary changes and the use of fossils in time and space.

3102 Field Methods in Geology (0-3). An introduction to geologic mapping techniques. Tools used include Brunton compass, aerial photographs, and field notebook. Techniques will be applied to construct a geologic map during a required field trip over Spring Break. Should be taken immediately before taking Field Geology (GEOL 3600).

Prerequisites: Geology 3400 and 3402.

3302 Introduction to Hydrogeology (3-0). A quantitative overview of the hydrologic cycle including both surface and groundwater hydrology. Topics to include surface water, aquifer properties, groundwater, modeling, human use and abuse of water resources, contamination, and extraction.

Prerequisites: Geology 1303/1103 or 1304/1104 and Mathematics 1314.
Course Descriptions

**Geology (GEOL) continued**

3303 Environmental Geology (3-0). This course emphasizes the complex physical relations between land, sea, atmosphere, and human activity. Topics include geologic hazards, land management, water resources, hazardous waste disposal, energy resources, mineral resources, conservation of resources, and ocean science.

Prerequisites: Geology 1303/1103 or 1304/1104 and Mathematics 1314.

3304 Geomorphology (3-0). Geomorphology is the study of physical, chemical, and biological processes that occur on the surface of a planetary body. This course focuses on the origin, development and relationship of landforms created by fluvial, glacial, aeolian, and karst processes.

Prerequisite: Geology 1303/1103 or 1304/1104.

3310 Geochemistry (3-0). An introduction to the field of Geochemistry including topics of traditional rock Geochemistry, Aqueous Geochemistry, and Isotope Geochemistry using data collection and modeling techniques and scientific software.

Prerequisites: Mathematics 2413, Chemistry 1311/1111, 1312/1112, and Geology 1303/1103.

3371 Geomapping Fundamentals (3-0). An overview of geomapping concepts and terminology. Application of geomapping (GIS: Geographic Information Systems) software to analyze geological information. Topics include relational databases, spatial data analysis, and digital mapping.

Prerequisite: Geology 3302.

3400 Mineralogy and Petrology (3-3). Description, classification, and interpretation of igneous and metamorphic rocks. Interpretations include tectonic setting, processes of formation, and pressure-temperature conditions. Laboratory work consists of hand sample description, examination of thin sections under a petrographic microscope, and field trips.

Prerequisite: Geology 1303/1103 or 1304/1104.

3402 Sedimentology (3-3). Covers the processes that create, deposit, and diagenetically alter sediments, as well as the description of sedimentary rocks and related sedimentary structures.

Prerequisite: Geology 1303/1103 or 1304/1104.

3411 Structural Geology (3-2). A study of ways rocks and continents deform by faulting and folding, methods of picturing geologic structures in three dimensions, and causes of deformation. Includes a weekend field trip project and an introduction to geographic information systems (GIS).

Prerequisite: Geology 1303/1103 or 1304/1104.

3600 Field Geology (0-12). A five or six week summer field course on geologic mapping techniques. Techniques emphasized: measuring stratigraphic sections, collecting and plotting fold and fault data, drafting geologic maps and cross-sections, and preparing reports.

Prerequisites: Geology 3400, 3402, and 3411.

4181 Seminar in Geoscience (1-0). A course designed to introduce students to various geoscience topics and to encourage discussion and exchange of ideas amongst the geoscience majors and faculty. May be repeated once when topics vary.

Prerequisite: Junior standing or permission of the instructor.

4191, 4291, 4391 Research. Individual research problems for students seeking a minor in geology. May be repeated for a total of six semester credit hours.

4300 Introduction to Geophysics (3-0). This course is an introduction to the geophysical methods used to explore the Earth's subsurface with an emphasis on application. Topics include seismicity, ground penetrating radar, magnetics, gravity, and resistivity. (Credit may not be earned for this course and Physics 4300.)

Prerequisites: Geology 1303/1103 and Mathematics 2413.

4303 Planetary Geology (3-0). A capstone study of terrestrial objects including planets, moons, and asteroids to describe and understand the past evolution and current dynamic state of planetary surfaces. Major topics include planetary evolution and differentiation, and surface morphology as an expression of internal dynamics, atmospheres, volcanic activity, and impact cratering.

Prerequisites: Geology 1303/1103 and Mathematics 2413.

4304 Introduction to Volcanology (3-0). Introduction to the physical and chemical properties of magma, including magma generation, rise, storage, and eruptive mechanisms. Types of volcanoes, volcanic hazards, volcano monitoring, and the effect of volcanoes on climate change will also be discussed.

Prerequisite: Geology 3302 and 3402.

**German (GER)**

1301 German I (3-0). Introduction to basic structures and usage of modern German. The emphasis is on development of basic German vocabulary and grammar; accuracy of pronunciation, the acquisition of listening, speaking, reading, and writing skills, and the introduction of cultural elements.

1302 German II (3-0). A sequel to German 1301.

Prerequisite: German 1301 or equivalent.

2311/GERM 2311 German III (3-0). An expansion of the language skills acquired in German 1301 and 1302. Strengthening of basic structures and introduction of more complex structures. The course will increase accuracy in listening, speaking, reading, and writing German, and promote knowledge of cultural background.

Prerequisite: German 1302 or equivalent.

2312/GERM 2312 German IV (3-0). Fourth semester capstone organized around grammatical topics and cultural issues. Review and expansion of structural aspects, reading and discussion of selected German texts, and continued practice in composition and conversation.

Prerequisite: German 2311 or equivalent.

2391 Studies in German (3-0). Individual instruction for the student whose language needs cannot be met in an organized sophomore level (2311/2312) language course. Reading materials and exercises will be selected from areas of the student’s specialization.

<th>Health Science Professions (HSP)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2101/BIOL 2101  Human Anatomy and Physiology I Laboratory (0-2). This is a laboratory course to accompany Health Science Professions 2301. The lab activities focus on basic chemical organization, cell and tissue structure and function; and the study of the skeletal, muscular, and nervous systems. Corequisite: Health Science Professions 2301.</td>
</tr>
<tr>
<td>2102/BIOL 2102  Human Anatomy and Physiology II Laboratory (0-2). This is a laboratory course to accompany Health Science Professions 2302. The lab activities focus on the endocrine system, cardiovascular and respiratory physiology, immunity, digestion, nutrition and metabolism, the urinary system, and the male and female reproductive systems. Corequisite: Health Science Professions 2301/2101.</td>
</tr>
<tr>
<td>2301/BIOL 2301  Human Anatomy and Physiology I (3-0-0). This course, which provides a comprehensive study of the anatomy and physiology of the human body with an emphasis on health and medical issues, is designed for students preparing for careers in the health professions. It will include an overview of organ systems, basic chemical organization, cell structure and function, and tissues; followed by the study of the skeletal, muscular, and nervous systems. Corequisite: Health Science Professions 2301/2101.</td>
</tr>
<tr>
<td>2302/BIOL 2302  Human Anatomy and Physiology II (3-0-0). This course is a continuation of HSP 2301 and expands a comprehensive study of the anatomy and physiology of the human body with an emphasis on health and medical issues. Lecture topics include special senses, the endocrine system, cardiovascular and respiratory physiology, immunity, digestion, nutrition and metabolism, the urinary system, and the male and female reproductive systems. Corequisite: Health Science Professions 2301/2101.</td>
</tr>
<tr>
<td>2305  Introduction to Health Science Professions (3-0). This course exposes students to the many careers in healthcare including their training requirements, job responsibilities, and work environments. Employment opportunities and trends, job prospects, and earnings for the different careers will also be discussed.</td>
</tr>
<tr>
<td>2320  Medical Terminology for Health Science Professionals (3-0). This course examines the principles of medical word building to help future health science professionals develop an extensive medical vocabulary through a study of root words, prefixes, and suffixes. Correct pronunciation and spelling of medical terms will be addressed.</td>
</tr>
<tr>
<td>2325  Basic Skills for Healthcare Professionals (3-0). Introduces students to the basic skills necessary to be successful in entry-level healthcare positions. These skills include Basic Life Support, safe patient handling, vital signs, and basic diagnostic and treatment techniques used by healthcare professionals including basic medical terminology and appropriate professional behaviors.</td>
</tr>
<tr>
<td>2401/BIOL 2401  Human Anatomy and Physiology I (3-2-0). This course, which provides a comprehensive study of the anatomy and physiology of the human body with an emphasis on health and medical issues, is designed for students preparing for careers in the health professions. It will include an overview of organ systems, basic chemical organization, cell structure and function, and tissues; followed by the study of the skeletal, muscular, and nervous systems.</td>

Course Descriptions

**Health Science Professions (HSP) continued**

2402/BIOL 2402 Human Anatomy and Physiology II (3-2-0). This course is a continuation of HSP 2301/2101 and expands a comprehensive study of the anatomy and physiology of the human body with an emphasis on health and medical issues. Lecture topics include special senses, the endocrine system, cardiovascular and respiratory physiology, immunity, digestion, nutrition and metabolism, the urinary system, and the male and female reproductive systems.
Prerequisite: Health Science Professions 2301/2101.

3310 Healthcare Administration History, Culture, and Language (3-0-0). This course is an introduction to the historical and cultural development of modern healthcare administration in contemporary American society and compares it with other countries. Special attention is given to the fundamentals of health services delivery including critiques and use of professional behavior and language.

3315 Health Information Systems (3-0-0). This course discusses what information is needed by whom, the process of designing health information flows, procurement of computer/telecommunication resources, assuring information security, and continuing management of information systems supporting healthcare delivery. The course provides an overview of various health information systems, with emphasis on case studies of systems utilized in areas such as patient-care, clinical decision-support, disease and demographic surveillance, imaging and simulation, and safety and environmental assessment. Legal and ethical issues related to training, security, confidentiality, and the use of informed consent are also addressed.

3320 Healthcare Human Resources and Employment Law (3-0-0). The course discusses human resources planning, staffing, job requirements, job descriptions, sources of labor supply, training and education programs, salary administration, employee communications, legal considerations, and union-management relations. This course examines the legal aspects of healthcare human resource management. Each of the major federal and state enactments impacting human resource management will be studied in depth.
Prerequisite: Management 3301.

3325 Quality Control Management in Healthcare (3-0-0). This course is an introduction of integrated delivery systems and their operations. It includes an examination of patient care management and the patient experience. A framework for understanding healthcare quality efforts is also an integral part of this course.

3330 Healthcare Strategic Management (3-0-0). This class integrates accounting, finance, marketing, MIS, and organizational behavior in the creation of sustainable competitive advantage. It focuses on analyzing, planning, negotiating, problem solving, and decision making for healthcare systems managers in a risk-based environment.
Prerequisite: Management 3301.

3335 Disaster and Emergency Preparedness Management (3-0-0). The Disaster Management and Emergency Preparedness (DMEP) course teaches planning and medical management methods applied to preparedness, emergency, and mass casualty disaster situations. Through lecture and interactive scenarios, health care providers learn incident command terminology, principles of disaster triage, injury patterns, and availability of assets for support. Major topics addressed include planning, triage, incident command, injury patterns and pathophysiology, and consideration for special populations. Students in the course will also complete a free 3 hour online training called the National Incident Management System (NIMS) that is produced by FEMA.

3340 Healthcare Reimbursement (3-0-0). This course explores some of the major issues facing the healthcare industry and the effect that public policy and business environment has on a healthcare organization. Emphasis is on supply and demand theory, reimbursement systems, managed care, charge-master management, Case-mix management, DRG prospective payment, insurance, Medicare, Medicaid, governmental regulations, accessibility, eligibility, budgeting, and planning. Students learn to use informational and research tools to make effective management decisions.
Prerequisite: Finance 3361.

3351 Basic Grant Writing (3-0-0). Developing effective grant writing skills are essential when competing for funds from government agencies and private foundations. This course provides the basic skills, principles, and techniques of successful grant writing to develop a competitive funding proposal for non-profit organizations. Government grants are mentioned at a very high level, but this course does not cover the writing and submission of Government grants.

3405 Physical Examination and Management of Musculoskeletal Injuries I (3-3). Health Science Professions students learn the process of clinical examination and management of common musculoskeletal injuries to the lower extremity and lumbar spine.
Prerequisites: Health Science Professions Major or Minor, Biology 2323/2123 or Health Science Professions 2301/2101.

3410 Physical Examination and Management of Musculoskeletal Injuries II (3-3). Health Science Professions students learn the process of clinical examination and management of common musculoskeletal injuries to the upper extremity, cervical and thoracic spine.
Prerequisites: Health Science Professions Major or Minor, Biology 2323/2123 or Health Science Professions 2301/2101.

3415 Therapeutic Interventions for Musculoskeletal Injuries (3-3). This course instructs HSP students on the theory and practical application of therapeutic modalities and exercise for musculoskeletal injuries.
Prerequisites: Health Science Professions Major or Minor, Biology 2323/2123 or Health Science Professions 2301/2101.

3420 Clinical Pathology for Health Professionals (3-2-0). This course provides information on the prevention and management of systematic disorders, skin diseases, environmental disorders, and other ailments related to the human body.
Prerequisites: Health Science Professions 2301/2101 and 2302/2102 or Biology 2323/2123 and 2324/2124, Health Science Professions 2325.
Individual research problems for superior

This course critically

This course reviews the

Health Behaviors is an overview of the

improvement and the role of assessment. This course helps students lead and relate to community planning and public health.

Students will gain knowledge on the function, organization, financing, policies, and practices of public health in today's world.

The course provides an understanding of basic nutrition science. Students will learn the biological functions and food sources of each nutrient, the role of nutrition in diet planning and weight management, and the relationship between nutrition, health promotion and chronic disease prevention.

The course covers interpersonal communication with patients and their families, as well as public speaking and presentations, and communicating as a leader.

The course introduces students to basic epidemiologic concepts including determinants of health and patterns of disease in populations, descriptive techniques of population health, use of health indicators and different types of data sources. Students will gain an understanding of the role of epidemiology in developing prevention strategies and policy.

The course provides an introduction to the field of public health including its history, values, ethics, mission, and goals. Students will gain knowledge on the function, organization, financing, policies, and practices of public health in today's world.

The course investigates the effects of illness and health on the community. Students will examine the current demographic information of local communities as it relates to community planning and public health.

The community assessment course introduces students to the concepts and methods of community health improvement and the role of assessment. This course helps students lead and participate in community health improvement activities and develop skills to assess community health status and available resources.

Prerequisites: Sociology 4323.

Prerequisite: Junior standing. Approval of the HSP program director is required prior to enrollment.

This course provides an introduction to the field

Describes the critical knowledge and skills needed to be effective leaders in today's complex healthcare environment. The course examines conflict resolution, leadership and negotiation skills, strategic planning, selecting and developing individuals and teams, communicating, managing resources, and using technology.

This course provides an introduction to the field of public health including its history, values, ethics, mission, and goals. Students will gain knowledge on the function, organization, financing, policies, and practices of public health in today’s world.

The course examines key cultural competency information and strategies to promote healthy behaviors and discourage unhealthy behaviors.

Prerequisites: Sociology 4323.

Prerequisite: Health Science Professions 4337.

This course introduces students to the research process. Integrating theory, research design and evidence based practice, students will learn the various methodologies and techniques commonly used in healthcare research.
Course Descriptions

4381 Special Topics (3-0). Selected topics in health science professions. (May be repeated once for credit when topic varies.)
Prerequisite: Junior standing.

History (HIST)

1191 First Year Research in History I. (Independent.) Independent research at an introductory level in History with a History faculty mentor.
Prerequisites: Student must be in the freshman research program and have permission of the department.

1301/HIST 1301 History of the United States to 1865 (3-0). A general survey of American development through the period of the Civil War.

1302/HIST 1302 History of the United States, 1865 to Present (3-0). A survey of American development from Reconstruction to the present, with emphasis on America in world affairs.

1391 First Year Research in History II. (Independent.) Independent research at an introductory level in History with a History faculty mentor.
Prerequisites: History 1191. Student must be in the freshman research program and have permission from the department.

Satisfactory completion of History 1301 and 1302 or equivalent American history credit is prerequisite to advanced history courses (3000- and 4000-level courses).

2311/HIST 2311 History of Western Civilization to 1660 (3-0). Western civilization before 1660. A study of the antecedents of modern institutions, including the political history of the period, and the human condition across cultures.

2312/HIST 2312 History of Western Civilization after 1660 (3-0). Western civilization from 1660 to the present, with emphasis on the background of present-day political, economic, and social issues, and the human condition across cultures.

2372 Introduction to Public History (3-0). Public History introduces students to the techniques and challenges posed by doing archival work, conducting oral history, and conserving and preserving historical artifacts. Students will also take advantage of local historical sites to gain a first-hand appreciation of how archivists and curators perform their jobs.

3301 History of Texas (3-0). Texas from the earliest Native American inhabitants to the present. Topics covered include the war for independence, Reconstruction, recent political and social movements and the contributions of minority groups and women to the development and modernization of the state.

3302 American Colonial History, 1690-1789 (3-0). American history from the Glorious Revolution in England to the Articles of Confederation, stressing increasing maturity of the colonies, the conflicts within the British Empire leading to the American Revolution, and the foundations of the nation during the Confederation period.

3303 The Young Republic, 1789-1837 (3-0). American history from the formation of the Federal Constitution through the presidency of Andrew Jackson. Emphasis will be placed on the establishment of the federal government, the appearance and development of political parties, the War of 1812, the emergency of nationalism and sectionalism after 1815, and the dominant personalities of the era.

3307 U.S. in the Industrial Age, 1877-1939 (3-0). American social and political history from the Gilded Age to the Great Depression, with detailed emphasis on the evolution of modern capitalism and such related topics as labor, agriculture, immigration, and the emergence of the U.S. as a global military and political actor.

3308 U.S. Urban History (3-0). U.S. Urban History will examine the influence of cities, suburbs, and exurbs on American economics, politics, and society from 1600 to the present.

3309 U.S. in War and Upheaval, 1939-1989 (3-0). American social, political, and foreign policy history from World War II to the end of the Cold War, with detailed emphasis on anti-communism, de-industrialization, protest movements, and the culture wars.

3310 U.S. Constitutional History (3-0). Everything has a history, and that includes the U.S. Constitution. This class focuses on the development of the Constitution, the critical ideologies and court decisions that shaped the Constitution up to our time, and how those ideologies and decisions were conditioned by their historical moments.

3335 Renaissance and Reformation (3-0). Major developments in Europe from about 1450 to 1648, focusing on the humanist Renaissance, Protestant Reformation, the Catholic reform movement, and the conflict of Protestants and Catholics through the Thirty Years War of 1618-1648.

3336 Absolutism and Enlightenment: Europe, 1648-1788 (3-0). Major themes are political conflict in England, absolute monarch in France under Louis XIV, the Scientific Revolution, conflict for world empire between France and Britain, and the revolutionary thought of the Enlightenment.

3337 Comparative History of Ancient East and West (3-0). A comparative history of Ancient China and Rome, examining the rise of their respective empires, economic evolution, and their political and military expansion and contraction.

3342 The American Civil War (3-0). An examination of the causes and course of the American Civil War which places that pivotal conflict in the context of the nation’s development during the nineteenth century. Topics include, but are not limited to, life in the Old South, development of an industrial North, slavery, abolitionist movement, and political and military strategy.

3343 Reconstruction, Reconciliation, and Remembrance (3-0). An examination of how wartime Reconstruction efforts signaled the Lincoln administration’s plans for a post-war America. The course will also discuss electoral disenfranchisement and how northern and southern veterans reconciled their conflict at the end of Reconstruction by consciously rewriting the history of the Civil War.

3344 U.S. Environmental History and Politics (3-0). Examines the historical evolution of American politics and policies related to the conservation, preservation, and economic development of American natural resources.

3347 Culture, Gender, and Reform in 19th Century America (3-0). This course will examine the development of American masculinity, femininity, and gender from the early 19th Century to World War I. Students will study the role of gender in politics, the culture of honor in the South, family relationships and romance, and the challenging of gender, racial, and sexual boundaries in the Civil War and afterward.
4314 Historical Preservation, Research, and Writing (3-0). This course will provide students with training in the economics, cultural-political issues, and techniques of preservation, archival research and advanced historical writing. Students will receive preparation for possible employment in such fields as tourism, marketing, archives, museums, and research for corporations and non-profits.

4323 History of U.S. Foreign Relations (3-0). An examination of key events in U.S. diplomatic history as well as significant trends from colonial-revolutionary times to the present.

4324 Sports in American History (3-0). The role of sports in American history, including the economic, big business, social, cultural, racial, gender, ethnic and higher education aspects of sports in American history.

4325 Indians of North America (3-0). A general survey of the pre-historical, cultural, and historical experience of American Indians living north of Mexico.

4330 The Middle Ages (3-0). Europe from the collapse of the Roman Empire to the eve of the Renaissance with particular focus on feudalism, the empire of Charlemagne, the high and late medieval church, the construction of high medieval monarchy, and the Hundred Years War.

4333 Modern Europe from 1871 to 1945 (3-0). Examines European imperial and colonial rivalries, militarism, anti-Semitism, and provides the social and political context of World War I and World War II which all but extinguished Europe as a global locus of power.

4335 Revolutionary Europe, 1789-1871 (3-0). Studies the evolution and impact of the French Revolution, including the emergence of such ideologies of nationalism, communism, liberalism, Romanticism. This course will also examine the rise of European Industrialization, urbanization, and colonialism.

4340 Globalization Since 1945 (3-0). An examination of global economics since World War II. Topics of study will include the dynamics of modernization, international trade, regional conflicts, and the evolution of an integrated global economy.

4342 Dictatorship and Democracy in the 20th Century (3-0). This comparative European and U.S. 20th century history course will examine the rise of Nazi Germany and the Soviet Union and how they affected Far Left and Far Right politics and society in the U.S.

4351 Mexico Since Independence (3-0). Mexican national history from 1823 to the present, detailing the political, economic, and cultural trends since independence and emphasizing United States-Mexican relations.

4360 Latin American Slavery (3-0). Latin American Slavery examines the evolution of slavery in Latin America, offering a comparative framework to understand differences among countries colonized by the Portuguese and the Spanish. This course will look closely at the cultural interactions among Americans, Indians, and European colonizers to understand the basis of caste society in Latin America.

4361 Topics in Military History (3-0). A study of war in different historical epochs. The course will analyze combat and the evolution of military technique within the broad cultural context of political, economic, social, and intellectual factors. (May be repeated once for credit when topic varies.)
Course Descriptions

**History (HIST) continued**

4370 Capstone: Historical Research and Methodology (3-0). The objective of this course is to provide a capstone experience to History majors. Students should have senior status in order to enroll in the class. Students must obtain permission to enroll in the class. Secondary Certification students must take the class the semester prior to their clinical teaching (student teaching) experience.

4371 Internship in History. The student will participate in work and on-the-job training at a historic site, museum, or other appropriate organization. A research paper dealing with the internship experience, written under the direction of a faculty member, will be required. The internship is limited to history majors. Registration allowed only after selection by the History Department made upon written application in the semester prior to placement. See department chair for details.

4381 Special Topics (3-0). A course dealing with selected topics in history. (May be repeated once for credit when topic varies.)

4391 Research. A specialized course of directed reading or research for superior students majoring in history. Must have departmental approval to register.

**Dual Credit: Off-Site Course**

**History (HIST)**

HIST 2322/HIST 2322 World Civilizations II (3-0). A survey of the social, political, economic, cultural, religious, and intellectual history of the world from the 15th century to the present. The course examines major cultural regions of the world in Africa, the Americas, Asia, Europe, and Oceania, their global interactions over time, and the human condition across cultures. Themes include maritime exploration and transoceanic empires, nation/state formation and industrialization, imperialism, global conflicts and resolutions, and global economic integration. The course emphasizes the development, interaction and impact of global exchange.

**Honors Curriculum (HONR)**

2302 Great Works in the Arts (3-0). The course introduces students to the aesthetic, compositional, motivational, and cultural elements of the visual and performing arts. This course satisfies the core performing arts requirement for Honors students.

Prerequisite: English 1302

2305 Honors Seminar in the Humanities (3-0). A seminar-style course for first-year Honors students. Students explore fundamental questions and issues in the humanities from a variety of perspectives, including the historical, cultural, philosophical, and scientific perspectives. Students outside the Honors Program may petition for inclusion with permission of the Honors Program Director and instructor.

3381 Honors Senior Seminar (3-0). Readings and research on selected topics taught from a multidisciplinary perspective. May be repeated once for credit when the topic varies.

Prerequisites: Junior or senior classification and good standing in the Honors Program.

4191, 4291, 4391 Honors Research. Individual research problems for Honors Program students. May be repeated to a total of six semester hours of credit. This course is open only to current Honors Program students.

Prerequisites: Six hours of honors courses. Student must be in good standing with the Honors Program and should be a junior or senior. Permission of instructor required.

4373 Internship. This course is intended to provide Honors Program students the opportunity to perform an internship with an organization through the Honors Program. Internships through the Honors Program typically satisfy one or more of the major goals within the Honors Program. This course is only open to current students in the Honors Program. May be repeated for a total of six hours of credit.

Prerequisites: Six hours of honors courses. Student must be in good standing with the Honors Program and should be a junior or senior.

4381 Honors Research Seminar (3-0). Research seminar for Honors Program students focused on designing, implementing, and presenting original projects suited to the individual student’s discipline.

Prerequisites: Junior or senior classification.

4399 Honors Thesis. Faculty-directed independent research leading to the completion of the Honors Thesis project.

Prerequisites: Senior standing and permission of the Honors Program Director.

**Intelligence and Analysis (INA)**

3300 U.S. Intelligence and Global Security Challenges (3-0). This course’s ultimate objective is to place the student in the role of a senior leader and have him/her face the global security challenges facing our decision makers. 9/11 and the global war on terror has placed the world in a position where friends and allies must work together to defeat terrorism at home and abroad. To be effective our national leaders must reach out and partner with foreign allies. Students will be placed in these roles to help determine and form national security policy. Students will assume the roles of the national security advisor, SECSTATE, Chairman of the Joint Chiefs of Staff (CJCS), and Director for the CIA and of DNI, among others, and will attempt to advise and influence head of a foreign nation, international organization, or internationally-active NGO, with the tasks of (1) explaining the role of the United States in the international system (from a non-US perspective), and (2) designing a national security strategy for your nation or organization that could either affect, neutralize, or capitalize on the hegemonic position of the U.S., (3) and form intelligence partnerships and sharing agreements.

3301 Context, Culture, and Intelligence: The International Dimension (3-0). The intelligence profession is particularly complex because it focuses by definition on foreign threats. Unfortunately for intelligence analysts, this requires that they understand not just other cultures and how their norms and values affect their approach to resolving policy issues or conflicts, but also how historical and other kinds of contextual factors influence how they might respond to American engagement and pressure in a given situation. This course gets at the heart of these complexities through the use of historical case studies and a careful focus on the ways in which context and culture drive the intelligence analysis process and make it a very complex and uncertain endeavor.
3302 Fundamentals of Intelligence Analysis (3-0). This course is designed for students with no experience with the intelligence discipline. It presents the organization and fundamentals of intelligence, defining the discipline, providing an overview of basic intelligence sources, and tracing the history of intelligence organization in the U.S. from the revolution through the modern day. This course introduces students who are interested in pursuing the profession of intelligence to the business of intelligence analysis. Students will develop a broad understanding of strategic intelligence and all phases of the intelligence cycle from requirements to reporting with an emphasis on supporting leadership decision making. It presents material describing the process of intelligence analysis; the role of the analyst; and analysis tools for preparation of assessments based on the collection, correlation, and analysis of intelligence data. The course concludes with a discussion of ethical dilemmas posed by the ongoing war on terrorism and resulting from modern high-tech collection capabilities.

3303 Critical Thinking and Intelligence Analytical Methods (3-0). Thinking critically, analyzing and synthesizing effectively, and solving difficult problems are crucial skills in the intelligence arena. Additionally, rapid changes in technology, information sourcing, and information availability, coupled with fundamental changes in the Intelligence Community and its customers’ expectations, have had a significant impact on the intelligence process and the way in which analysis is conducted and disseminated. This course provides methodology and techniques in critical thinking and analysis skills meant to overcome cultural and self-imposed biases that can impact the objectivity of intelligence analysis and decision-making. Critical thinking and analysis skills are covered, to include analysis of competing hypotheses, matrix analyses, decision/event trees, weighted rankings, and utility analysis, which are designed to improve the objectivity of intelligence analysis and decision making. The course ends with a review of the National Intelligence Estimate (NIE) and analyst-policymaker relationships.

3304 The Intelligence Process: Consumers-Producer Relationships (3-0). This course examines the policymaker and intelligence relationships and how they function to serve national security demands. Policymakers receive their support from a variety of sources. There is an established intelligence process designed to provide intelligence judgments and assessments. Students will learn how that process works and how it can be influenced. The CIA’s Directorate of Intelligence (DI) and the National Intelligence Officers who comprise the National Intelligence Council are responsible for providing all-source intelligence analysis to the Government as a whole, with the President, the National Security Advisor, and the Secretaries of Defense and State being the foremost customers. Students will comprehend customers’ intelligence requirements and how those requirements are serviced to contribute to national security needs. Students will also examine intelligence failures through case studies, evaluate why these failures occurred, and how such failures can be eliminated in the future.

3305 Intelligence Collection: Sources and Challenges (3-0). This course provides a multidisciplinary survey of imagery intelligence (IMINT), Signals Intelligence (SIGINT), Human Intelligence (HUMINT), and Measurement and Signature Intelligence (MASINT). The background, capabilities, and limitations of each intelligence collection method are covered. The course focuses on the intelligence process, specific intelligence challenges of the global war on terrorism and specific collection challenges facing planning activities which enable an integrated approach to intelligence analysis and collection.

3307 Introduction to Cybersecurity (3-0). This course introduces students to the wide range of modern communications technologies. Use of these technologies by government and business entities for intelligence gathering, their limitations, and vulnerabilities are introduced to students. An overview of the history of computer hacking is covered. Additionally, a brief overview of law and policy concerning cyber communications is discussed beginning with the National Security Act of 1947. (Credit may not be earned for this course and Border Security 3307.)

3310 Introduction to the Discipline of Intelligence (3-0). This course focuses on the theory and practice of the disciplines of intelligence to include the intelligence process, the key functions of the intelligence cycle, intelligence technology, analysis, collection capabilities, covert action, and policy support. Students will examine the role of intelligence in national security, policy formation, diplomacy, homeland security, and other national priorities. Students will do a comparative review of the Cold War intelligence community and post-9/11 period of the emergence of the current national Intelligence Community (IC). Students will examine partnerships between the IC and the military services, academic, and scientific communities in developing intelligence practices and Intelligence, Surveillance, and Reconnaissance (ISR) systems and capabilities to address the intelligence challenges of the past 60 years. Finally, the course emphasizes the importance of preparing and providing intelligence to both policy makers and our nation’s warfighters in a manner that result in information sharing and underscores a post-9/11 commitment to conduct intelligence activities in a manner that fully respects and protects American civil liberties and privacy.

3320 Intelligence and Democracy: Issues and Conflicts (3-0). This course examines the conduct of intelligence activities by democratic states, focusing on the inherent conflict between the secret nature of intelligence and “open society.” Using a case study approach, students will review the intelligence organizations in the U.S. and other democracies as well as cases where there has been a clash between democratic values and intelligence activities. The course analyzes the requirements for effective intelligence operations and the impact of oversight and control of those operations. Students will examine Government “control” of intelligence operations; Judicial and Congressional oversight, management, and intervention; and the role and influence of media and public opinion on intelligence activities. Moreover, as a result of 9/11 and the war on terror, students will explore the conundrum of determining whether and to what degree a necessary balance exists between secrecy of intelligence operations at home and abroad and democracy.

4071 Internship (1-6 SCH). This course is designed to familiarize students with the application of knowledge gained in course work and with operations and problems in the field of intelligence and analysis. Students must be pursuing a degree in Intelligence and Analysis. Approval of instructor is required.

4103 Case Studies in Intelligence and Analysis (1-0). This course is a seminar and takes a case study approach to highlighting challenges and lessons learned for successes and failures on intelligence policy, operations, organization, and reform. Topics covered include WWII, Korea, Cold War, Algeria, Vietnam, Cuba, Desert Storm I & II, Post 911, Iraq, Iran, Afghanistan, WMD Proliferation, Terrorism. Includes practical exercise. (Credit may not be earned for this course and Intelligence and Analysis 4303.)

4191, 4291, 4391 Research. Individual research problems for superior students majoring in intelligence and analysis. (May be repeated for a total of six semester hours credit.)

Prerequisites: Junior or Senior standing. Approval from the Chair of the Department is required prior to enrollment.
Course Descriptions

Intelligence and Analysis (INA) continued

4300 Advanced Problems in National Security and Intelligence Policy (3-0). This course provides a strategic overview of the complex challenges surrounding the creation, application, and administration of national security and intelligence policy. Students will examine the most compelling national security and intelligence issues of our time and their interrelationships with U.S., foreign, military, economic, diplomatic, and domestic policy. Students will learn the formal/informal structure of the national security establishment and the intelligence community and the processes involved in how policy makers and analysts integrate national security policy and intelligence to form national strategy. Students will examine the changing nature of external threats in a multi-polar world and identify U.S. defense and intelligence policy issues for the remainder of this century and into the next. The course gives students awareness of the U.S. position in the international military, diplomatic, economic, and intelligence community and the effects of the current U.S. and global economic situation on U.S. national security and how the roles and organizations within the Intelligence Community support the national security process.

4301 Advanced Intelligence Analysis: How to Think In Complex Operating Environments (3-0). This course focuses the analyst on how to think, not what to think, in order to foster critical thoughts and enhance the student’s cognitive performance. It is modeled on the Socratic method of instruction and offers concepts on advanced thinking that are applicable to all work environments, but particularly to the intelligence analysis enterprise. Students discover how to decompose an analytical problem into its fundamental elements. The output of this process includes five principal kinds of observables for collection and analysis: technical, functional, cultural, situational, and biometric. Students also learn how to write effective requirements and observables. They further learn how to re-aggregate data into and to synthesize information into knowledge, thereby creating actionable intelligence.

4302 Space Imagery and Security (3-0). This capstone course discusses the use of space-based assets to support Homeland Security and Intelligence efforts. Included are limitations of the technologies, available commercial technologies, and discussion of the legal, moral, and political issues surrounding the use of these technologies in a democratic society. Students will design and present a project as part of this course. (Credit may not be earned for this course and Border Security 4302).

4303 Capstone: Case Studies in Intelligence (3-0). Case Studies in WWII, Korea, Cold War, Algeria, Vietnam, Cuba, Desert Storm I & II, Post 911, Iraq, Iran, Afghanistan, WMD Proliferation, and Terrorism. Includes practical exercise. This course is a seminar and takes a case study approach to highlighting challenges and lessons learned for successes and failure on intelligence policy, operations, organization, and reform. Students must be in senior status and it is preferable to take this course in the final semester. (Credit may not be earned for this course and Intelligence and Analysis 4103.)

4305 Digital Footprints (3-0). A digital footprint is the data users leave behind on digital services. This course explores the inner workings of our digital world. Students will learn about the two main classifications of digital footprints: passive and active. The course covers terms related to internet technology and dynamics of the Internet while examining the mechanisms and tools used to breakdown user and server information. (Credit may not be earned for this course and Border Security 4303.)

4314 Strategic Thought and Leadership (3-0). This course explores how leaders at the executive level of organizations think and influence the actions of others, both tactically and strategically. Students investigate examples of leadership, ethics, decision-making, and strategy along a spectrum of adversity. Historical case studies highlight commonalities and habits of mind that form the nexus between successful strategic thought and leadership.

4381 Special Topics (3-0). A course in selected intelligence topics. May be repeated once for credit when topics vary.

International Studies (ISTD)

3271 Internship. Students will participate in a structured work experience either on campus or with a non-profit sponsor. A pass or fail grade will be assigned by the instructor based on input on student performance from the supervisor, completion of a project and using the required weekly journals prepared by students. Course may be repeated once for credit with permission of the instructor or department head.

Prerequisite: Permission of the instructor.

3381 Special Topics In International Studies (3-0). These courses are designed for classes offered through the study abroad program and are often interdisciplinary in nature. (Course topics vary by program and each course may be repeated when the topic varies.)

Kinesiology (KIN)

1301/PHED 1301 Foundations of Kinesiology (3-0). Survey of the historical and philosophical foundations, scope, objectives, and future of kinesiology-related careers. In addition, scientific foundations, programs, professional considerations, and leadership requirements for employment within this profession will be emphasized.

1304/PHED 1304 Principles of Wellness (3-0). The study of the aspects that make up total wellness. Subject areas will include the health-related aspects of physical fitness, proper nutrition, heart disease, substance abuse, and the influence of mental, emotional, and psychological factors on these aspects.

1341 Introduction to Athletic Training (3-0). The clinical education of skills and techniques relating to upper extremity, cervical and thoracic spine, head, face and thorax assessment involving health history, visual inspection, physical inspection, and functional testing.

3170 Exercise Physiology Lab (0-2). The course will add an optional lab component to Kinesiology 3370.

Prerequisites: Biology 2323/2123, 2324/2124 or Health Science Professions 2301/2101, 2302/2102.

3300 Outdoor Fitness and Wellness (3-0). Discussion and practice of outdoor activities, including backpacking, hiking, fishing, kayaking, shooting, hunting, climbing, first aid, and environmental issues. Course will focus on trip planning from a backpacking perspective with the understanding that backpacking techniques will be used for all outdoor adventures. The primary focus of the course is the idea that fitness achieved through outdoor activities is an important component of health and wellness.
Kinesiology (KIN) continued

3301 Youth Development in Context (3-0). This course provides an overview of youth development principles utilizing an ecological framework (Bronfenbrenner’s nested doll theory). As this time period is extremely formative for the lives of youth, major theories and concepts from various fields will be examined through the lens of Kinesiology. Special attention will be placed on the application of these principles with a sensitivity to context.

3321 Essentials of Coaching (3-0). A study of the concepts and competencies essential to coaching children and adolescents in the various sport settings. Topics such as coaching theory, coaching philosophies, the coach-athlete relationships, the coach-parent relationships, designing practice/training schedules, and administrative duties will be emphasized.

3333 Motor Development (3-0). A study of psychomotor development. The focus is on the growth years, though developmental considerations for all age groups are considered. Implications for sport, exercise, and physical activity will be discussed.

3345 Assessment of the Lower Extremity (3-0). The study of clinical assessment specifically related to the lower extremity (i.e. toes, foot, ankle, lower leg, knee, pelvis, and thigh).

3346 Assessment of the Upper Extremity (3-0). The study of clinical assessment specifically related to the upper extremity, head, cervical spine, and thorax.

3351 Measurement and Evaluation in Exercise and Sport (3-0). Measurement techniques unique to the evaluation of physical performance objectives, including physical fitness and acquisition of basic motor and sport skills. Practical experiences will be provided in test administration, scoring, and interpretation of results.

3352 Motor Skill Acquisition (3-0). Designed to provide students with an opportunity to acquire and demonstrate proficiency in a variety of basic motor skills in selected team and individual activities.

3360 Care and Prevention of Activity Related Injuries (3-0). This course presents key concepts pertaining to the field of athletic training to assist future professionals in making correct decisions and taking appropriate actions when dealing with an activity-related injury or illness within their scope of practice.

3370 Physiology of Exercise (3-0). Physiological responses of the system of the human body to acute and chronic exercise. Emphasis is on the processes and mechanisms for such responses.

3372 Kinesiology: Biomechanical Analysis of Movement (3-0). Principles of human movement emphasizing an understanding of the relationship of structure and movement with respect to anatomy and mechanical analysis.

4091 Research: 1 to 3. Individual research problems for superior students majoring in kinesiology. 3.00 GPA and department chair approval required.

4301 Sport Management (3-0). Designed to provide an overview of the organization, administration, and management of sport and recreation programs. Emphasis on leadership, critical thinking and problem solving skills, and creativity processes related to success in the multidimensional, multidiscipline fields of sport and recreation. Areas covered include: program development and implementation, marketing and promotions, staff development and management, and strategic planning.

4302 Sport Leadership and Ethics (3-0). The purpose of this course is to introduce the student to the leadership and ethics in sport. An emphasis will be placed on the application of leadership theories and ethical dilemmas. In doing so the student will gain a holistic understanding of leadership and ethics in sport.

4330 Management Strategies and General Medical Concerns in Athletic Training (3-0). This course will introduce and describe basic management strategies and general medical issues in the field of athletic training.

4331 Sports Law (3-0). A course that focuses on the legal elements and responsibilities found in sports and the entire realm of physical activities. The legal environment, legal duties and responsibilities, risk management, and participant rights will be addressed. Emphasis will be placed on developing proficiency in recognizing and solving problems and issues in sports and physical activities.

4333 Health Promotion in the Workplace (3-0). This course will provide students with an opportunity to learn about planning and implementing a comprehensive health promotion program in the workplace setting. Emphasis will be on developing environmental and social support for healthy behaviors within the business community. Additional topics that will be addressed include: building awareness, knowledge, skills, and interpersonal support for personal behavior change.

4343 Adapted Physical Activities (3-0). A survey of various disabling conditions: physical, mental, and emotional, and the implications that these disabilities impose on physical activities, fitness, and sport. A field experience is required.

4345 Therapeutic Modalities (3-0). The study of the theories, applications, and methods of various modalities consisting of cryotherapy, electrotherapy, and thermotherapy in addition to principles of traction, intermittent compression, and massage.

4346 Therapeutic Exercise (3-0). The study of a comprehensive rehabilitation/reconditioning program involving techniques of flexibility, muscular strength, muscular endurance, and cardiorespiratory training involving anaerobic and aerobic principles.

4356 Methods of Teaching Physical Activities (3-0). Development of competencies for delivering instruction in community, school and other physical activity settings.
Course Descriptions

Kinesiology (KIN) continued

4361 Psychological Aspects of Sport and Exercise (3-0). The purpose of this course is to introduce the student to the fields of sport and exercise psychology. An emphasis will be placed on the application of psychological theories and training techniques specifically to coaching athletes. The expanding field of exercise psychology will also be studied with emphasis on the psychological effects of sustained exercise on health well-being.

4363 Motor Learning (3-0). Learning in the psychomotor domain; motor learning theories, psychological and physiological basis of skill behavior, motor and skill learning, state of performer and application of instructional techniques in motor learning and skill performance.

Prerequisite: Junior or Senior classification or approval of instructor.

4373 Internship. Supervised internship with selected wellness and recreational organizations. Recommended for students not seeking teacher certification.

Prerequisites: Senior standing, minimum GPA of 3.00, and approval by department. Apply by March 1 for the following fall semester and by November 1 for the following spring semester.

4380 Sport and Exercise Nutrition (3-0). The metabolism of food by various systems of the body and its relation to exercise. The role of diet along with the application of nutritional principles to enhance human performance.

4381 Special Topics (3-0). Selected topics in kinesiology. (May be repeated once for credit when topic varies.)

4382 Exercise Testing (3-0). Introduction to a variety of laboratory and field tests utilized in the evaluation of functional work capacity in specific areas of human performance. Emphasis is given to the application of the following: 1) benefits and risks associated with exercise testing, 2) health screening and risk stratification, 3) physical fitness testing and interpretation, 4) exercise testing for children, the elderly, and pregnant women, and 5) legal issues.

Prerequisite: Kinesiology 3370 or consent of instructor.

4383 Exercise Prescription (3-0). Introduction to basic theory and application relative to exercise prescription for healthy individuals and individuals with specific clinically diagnosed diseases. Emphasis is given to an application of the following: 1) benefits and risks associated with exercise, 2) health screening and risk stratification, 3) general principles of exercise prescription, 4) exercise prescription for diseased individuals, 5) exercise prescription for children, the elderly, and pregnant women, 6) methods for changing exercise behavior.

Prerequisite: Kinesiology 3370 and 3372 or consent of instructor.

4390 Theory of Strength and Conditioning (3-0). A course designed to provide students with the knowledge and skills to design and implement safe and effective strength and conditioning programs.

Prerequisites: Kinesiology 3370, 3372, or consent of instructor.

Latin (LATI)

Dual Credit: Off-Site Courses

LATI 1411/LATI 1411 Beginning Latin I (4-0). Grammar and vocabulary. Emphasis on the value of Latin as a background for the study of English and modern foreign languages.

LATI 1412/LATI 1412 Beginning Latin II (4-0). Grammar and vocabulary. Emphasis on the value of Latin as a background for the study of English and modern foreign languages.

Prerequisite: Latin 1411.

LATI 2311/LATI 2311 Intermediate Latin I (3-0). Review of grammar and readings in Roman literary works.

Prerequisite: Latin 1412.

LATI 2312/LATI 2312 Intermediate Latin II (3-0). Review of grammar and readings in Roman literary works.

Prerequisite: Latin 2311.

Linguistics (LING)

2340 Introduction to the Study of Language (3-0). An introduction to linguistics, the scientific study of language: the nature of human language; language and the brain; language and society; formal linguistics includes phonetics (the properties of speech sounds), phonology (the systematic sound patterns of language), morphology (the grammatical structure of words), syntax (the structure of sentences), and semantics/pragmatics (the meaning and use of words and sentences). (Credit may not be earned for this course and English 2340.)

Prerequisite: English 1302.

Satisfactory completion of six semester hours of sophomore English literature is prerequisite to advanced Linguistics courses (3000- and 4000-level courses) that are cross listed with English courses.

Prerequisite: Spanish 2312 or equivalent, or consent of department chair.

3320 Descriptive Linguistics (3-0). An examination of the science of language: concentration on formal linguistics (phonetics, phonology, morphology, syntax, semantics/pragmatics) and survey of psycholinguistics, sociolinguistics, historical linguistics, applied linguistics. (Credit may not be earned for this course and English 3320.)

Prerequisite: English 1302.

3323 English Phonology and Morphology (3-0). Study of the speech sound system and the study of the structure of words. (Credit may not be earned for this course and English 3323.)

Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.
Course Descriptions

Linguistics (LING) continued

3326 English Syntax and Semantics (3-0). Study of the rules of phrase and sentence formation and the study of linguistic meaning of morphemes, words, phrases, and sentences. (Credit may not be earned for this course and English 3326.)
   Prerequisite: English/Linguistics 2340 or English/Linguistics 3320.

4071 Internship in Linguistics: Credit 1 to 6. An internship experience with assignments in linguistics and teaching English as a Second or Foreign Language. (Linguistics 4071 may be repeated with a limit of 6 hours total.)
   Prerequisite: 60 hours - including current semester credit hours, a 2.50 or higher cumulative GPA at the time of application, and department permission.

4319 Sociolinguistics (3-0). A study of the role of language in society and how society in turn impacts language use. (Credit may not be earned for this course and English 4319.)

4323 Methods of Teaching Foreign/Second Language (3-0). Study and application of perspectives, theories, pedagogies, and methods of language teaching and learning. (Credit may not be earned for this course and English 4323.)
   Prerequisites: English/Linguistics 2340 or English/Linguistics 3320 and English/Linguistics 4340.

4340 Psycholinguistics (3-0). Study of language and the brain, particularly child language acquisition and adult language learning, but also linguistic performance and oral and print comprehension and production. (Credit may not be earned for this course and English 4340.)
   Prerequisite: English/Linguistics 3320.

4381 Special Topics (3-0). Selected topics in Linguistics. May be repeated once for credit when topic varies.
   Prerequisite: Linguistics 3320 or 4310 or consent of department chair.

4391 Research. A specialized course which may be directed reading or research for advanced students or those seeking professional certification.

Management (MGMT)

2331 Applied Business Statistics (3-0). Introduction to statistical analysis including such topics as: descriptive statistics, probability distributions, sampling, statistical inference, and correlation and regression analysis.
   Prerequisites: Business Computer Information Systems 1305 and Mathematics 1324.

3301 Principles of Management (3-0). An introduction to the management of organizations, the impact of managerial action on organizational stakeholders, and the role of organizations in society. Emphasis will be on the five functions of management: planning, organizing, staffing, leading, and controlling.

3303 Human Resource Management (3-0). Techniques and procedures of general personnel management: employer-employee relationships, recruitment, selection, placement, and training of employees; job analysis; wage plans and policies; transfer and promotion; employee health and safety; and employment services and fringe benefits.
   Prerequisite: Junior standing.

3304 Organization Behavior (3-0). An experiential and theoretical approach to human behavior in an organizational setting, by analysis of individual, group, and organizational processes, with a goal of understanding, predicting, and improving the performance of organizational elements.
   Prerequisite: Junior standing.

3305 Production and Operations Management (3-0). Operations Management is concerned with management of resources and activities that produce and deliver goods and services to customers. This course will focus on the basic concepts, issues, and techniques for efficient and effective management of operations. Topics include operations strategy, product and service design, capacity planning, location planning, demand forecasting, aggregate planning, master scheduling, material requirements planning, enterprise resource planning, quality management, inventory management and supply chain management.
   Prerequisite: Management 2331.

3309 Entrepreneurship (3-0). A course designed to provide students with an understanding of the entrepreneurial process. To include models for creating a business; developing and using business, financing and marketing plans; and managing the new venture during early operation and expansion. Business plan software will be utilized to prepare a business plan for a new expanding business. (Formerly Management 4309.)
   Prerequisite: Junior standing.

3311 International Business (3-0). This course will survey international business frameworks, trade and investment theories and institutions, multinational corporations, strategy, functional management, operations and concerns.
   Prerequisite: Junior standing.

3312 International Management (3-0). This course is designed to develop the knowledge and skills needed to manage effectively in different cultures to ensure sustained competitive advantage.
   Prerequisite: Junior standing.

3313 Current Issues in Management (3-0). A study of selected current problems which affect and are affected by management in American business. Problems will include change in worker values, relations with governmental jurisdictions, efficiency, quality, and international competitiveness.
   Prerequisite: Junior standing.

3332 Data Analytics (3-0). An introduction and overview of information resources commonly used in business including secondary and syndicated data resources. The focus of the course is enabling students to identify, locate, analyze, and report on business data sources both qualitatively and quantitatively.
   Prerequisite: Management 2331.

3343 Management Information Systems (3-0). The course provides a foundation in the theory and practical application of information systems within an organization. Managing, analyzing, designing, and implementing an MIS will be the focus of the course. Strategic value, methodologies, quality, decision making, modeling, re-engineering, software, hardware, and ethics will all be included.
   Prerequisite: Junior standing.
Course Descriptions

Management (MGMT) continued

3361 Project Management (3-0). This course provides the student with an introduction to the project management process. The course focuses on both the common body of knowledge associated with project management as well as the art of managing projects. Students will be introduced to current project management software and will complete a series of project exercises and a major project. Some assignments will be in teams. This course provides students with a foundation to facilitate a career and professional certification in project management.
Prerequisite: Junior standing.

3381 International Study Abroad in Business (3-0). This course is designed for classes offered through the study abroad program. Course topics vary by program. (This course may be repeated for up to 6 hours to meet major requirements.)

3393 Web Systems Development (3-0). The course covers hypertext markup language and other Web-centered software. Students will learn how to plan, design, create and maintain Web sites using hypertext markup code and other scripting languages.
Prerequisite: Junior standing.

4091 Research: 1 to 6. A specialized course providing research opportunities for superior students. Grading will be either pass or fail.
Prerequisite: Permission of the instructor.

4301 Practicum in Management Information Systems. Instruction providing detailed education, training, and work-based experience in the design and administration of management information systems, generally at a work or organizational site. The practicum is an unpaid learning experience involving actual information systems under the supervision of a faculty member. Student teams will evaluate the design and implementation of a significant information system or will develop such a system where none exists. Project management, management of the information systems function, and systems integration will be components of the project experience.
Prerequisite: Permission of the Department.

4302 Ethics in Organizations (3-0). A course designed to: assist the student in the recognition of unresolved ethical issues likely to confront decision makers in business and other organizations; help the student become aware of some of the complexities involved in the application of moral reasoning to organizational decisions; and encourage the student to search for structural changes in business and other organizations in order to benefit society. This is a seminar and case study course, and substantial oral and written communication ability is required. The student would benefit if Philosophy 2306 were first completed.
Prerequisite: Junior standing.

4303 Strategic Management (3-0). A senior business capstone course concerned with the study and development of strategy for the overall organization. The course is interdisciplinary in nature, requiring students to apply knowledge and skills learned in previous courses to solve problems of an organization operating in its social, political, legal, ethical, international, and economic environment. As part of course requirements, students will be required to submit a portfolio which provides evidence over their ASU career that the student has developed competencies, beyond subject matter knowledge, in areas such as leadership, communications, decision-making, and creativity. Students will also be required to take an examination covering the common body of knowledge of the B.B.A. degree.
Prerequisites: Communication 3352, Finance 3361, Management 3301, Marketing 3321, Graduating semester, and permission of the Department.

4305 Organization Theory (3-0). Study of the antecedents and consequences of organization design and structure. This course will focus on structure, technology, environmental adaptation and managerial control systems of organizations operating within rapidly changing, global environments. An introduction to strategic analysis, planning, and decision-making.
Prerequisite: Junior standing.

4306 Applied Leadership (3-0). This course is designed to place students in real situations where they may practice leadership while studying and applying management theories involving leadership, motivation, group dynamics, and decision-making skills.
Prerequisite: Junior standing.

4308 Housley Leadership Class (3-0). The Principled Leadership course is a seminar style leadership dialogue and workshop designed to bring self-awareness to the development of student leaders. With sessions like You, Inc. covering individual brand power, themed discussions about the need for principled and disciplined leaders and discussions that challenge definitions of “service” - each week provides applicable and inspiring content for students on the path to fulfilling their leadership potential. (Credit may not be earned for both Management 4308 and Management 4306.)
Prerequisite: Departmental permission required.

4311 Small Business Competition Seminar (3-0). As a seminar course, the course is designed for students to apply knowledge gained in previous courses by working with local entrepreneurs in formulating business plans. The course will require participation in visiting and working at various locations. Students will complete a Small Business Management Certification Program from the Small Business Development Center.
Prerequisite: Departmental approval required.

4319 Forecasting and Planning (3-0). The course serves as a general course in forecasting methods. Techniques covered include smoothing, decomposition, regression, judgmental techniques, and new product forecasting. Comparison and selection of the appropriate techniques is addressed. Emphasis is placed on the interface between forecasting and the managerial functions of implementation and control. A combination of lectures, analytical exercises, problems, and computer exercises are used. Implementation of a forecast system in a small business is also utilized.
Prerequisite: Management 2331 or consent of instructor.

4331 Global Supply Chain Management (3-0). The course explores key issues involved with design and management of global supply chains. Specifically, the course will focus on the integration of suppliers, logistics, production facilities, and distribution centers in order for customers to receive the right product at the right quantity and the right time. Also, emphasis will be given to issues of contract administration, location, and evaluation of foreign suppliers, exchange fluctuations, and customs procedures. Key concepts of supply chain management (SCM) and opportunities involving SCM strategy will be studied. In addition to conceptual topics, quantitative tools will also be presented in class.
Prerequisites: Management 3305.

4336 Networks and Data Communication (3-0). Provides an in-depth knowledge of data communications and networking requirements including networking and telecommunications technologies, hardware, and software. Management of telecommunications networks, cost-benefit analysis, and evaluation of connectivity options are also covered.
Prerequisites: Management 3343 and Computer Science 1315.
Management (MGMT) continued

3443 System Analysis and Design (3-0). Provides an understanding of the system development and modification process. Emphasizes the factors for effective communication and integration with users and user systems. Encourages interpersonal skill development with clients, users, team members, and others associated with development, operation, and maintenance of the management information system. Use of data modeling and analysis tools.

Prerequisites: Computer Science 1315 and junior standing.

3444 Database Management Systems (3-0). Extension of the analysis and design concepts of Management 4343 to management information systems involving design and construction of databases under a database management system (DBMS).

Prerequisite: Computer Science 1315 and junior standing.

3461 Organizational Training and Development (3-0). This course provides students with the foundational knowledge and applied skills to design and implement training and development in organizational settings, including assessing training needs, active learning strategies, evaluating training effectiveness, and incorporating technology to train organizational members.

Prerequisite: Junior standing.

3462 Seminar in Management Information Systems (3-0). Designed to acquaint the student with current literature and to evaluate new technological developments in the field of management information systems.

Prerequisite: Management 3343.

3471 Internship in Management. Students will participate in a structured work experience at the management trainee level. A pass or fail grade will be assigned by the instructor based on input from student performance from the employment supervisor and using the required weekly journals prepared by students. (Course may be repeated once for credit with permission of the instructor or department chair.)

Prerequisite: Permission of the instructor.

3481 Special Topics (3-0). Selected topics in management. May be repeated once for credit when topic varies.

Prerequisite: Junior standing.

Marketing (MKTG)

3321 Marketing (3-0). Fundamentals of marketing in the modern economic system. This course is a prerequisite for all other marketing courses except Marketing 3322 which may be taken concurrently.

Prerequisite: Junior standing.

3322 Consumer Behavior (3-0). An integration of behavioral concepts in the analysis of consumer behavior and in marketing strategy formulation.

Prerequisite: Junior standing.

3323 Sales (3-0). Topics include: Management of the personal selling function of firms; selection and training of sales personnel; performance evaluation; establishment of realistic sales goals; motivation of the sales force; coordination of personal selling with non-personal organization communications.

Prerequisite: Junior standing.

3324 Sports and Entertainment Marketing (3-0). This course investigates the business of entertainment, including movies, concerts, theme parks, and sporting events that have a tremendous impact on our economy and provide many career opportunities. These activities are global in their reach and impact. Sports marketing is a growing division of the marketing field that focuses on the business of sports and the use of sports as a marketing tool.

3325 Promotion Management (3-0). A study of Integrated Marketing Communications and the traditional promotional mix: advertising, sales promotion, direct marketing, public relations, and personal selling. Including communication and promotion theories, campaign strategies, promotion budgeting, media analysis; and audience measurement.

Prerequisite: Junior standing.

3326 Retailing (3-0). A study of the many facets of retailing to include the development of retail strategies, retail consumer behavior, product considerations, store location and layout, merchandise management, the buying function, promotional strategy, personal selling, management of human resources, controlling the retail operation, and consumer services.

Prerequisite: Junior standing.

4091 Research: 1 to 6. A specialized course providing research opportunities for superior students. Grading will be either pass or fail.

Prerequisite: Permission of the instructor.

4321 International Marketing (3-0). A study of the fundamental concepts, principles, and theories of marketing in an international setting. Particular attention is given to foreign environmental variables including political, legal, geographic and culture affecting marketing strategies. Global issues that challenge today’s marketer, techniques for successfully entering international markets and the basic elements of an international marketing mix are studied.

Prerequisite: Junior standing.

4322 Digital and Social Media Marketing (3-0). A study of the changing digital marketing landscape with emphasis on search engine marketing, digital advertising, and social media marketing. Use of current market tools is stressed.

Prerequisite: Marketing 3321.

4325 Marketing Management (3-0). Case analysis involving strategy and tactics for the solution of marketing problems; decision-theory stressing the interdisciplinary nature of marketing management.

Prerequisites: Marketing 3321, 3322, and three elective hours in Marketing.

4381 Special Topics (3-0). Special topics in marketing. (May be repeated once for credit when topic varies.)

Prerequisite: Junior standing.

Mass Media (MM)

1311 Writing for Mass Media (3-0). The fundamentals of purpose, context, voice, technique, and structure for effective writing for various forms of mass media.

1318/COMM 1318 Photography I (3-0). Application of photographic principles using a digital SLR. Emphasis on effective use of camera controls, light, and composition. Digital file formats, storage, and output will also be discussed.
Course Descriptions

**Mass Media (MM) continued**

1335/COMM 1335 Introduction to Radio/Television/Film (3-0). A survey of the radio/TV cable industry in America including programming, regulations, technology and history. (Credit may not be earned for this course and Communication 1335.)

1337/COMM 1337 Beginning Video Production (2-2). Operation and use of television production equipment; fundamentals of digital video production and direction using single- and multi-camera formats. (Credit may not be earned for this course and Communication 1337.)

2300/COMM 2300 Media Literacy (3-0). An analysis of media and its impact on society. Emphasis is on understanding the cultural, political, economic and social impact of media in the United States and the world.

2303/COMM 2303 Audio Production (3-0). Capturing quality recordings in the field and studio. Course assignments will include preproduction planning, scheduling, writing and editing audio projects. (Credit may not be earned for this course and Communication 2303.)

2311 News Reporting and Writing (3-0). Methods of gathering and writing news including audience analysis, news evaluation, fact gathering, interviewing, and information dissemination.

Prerequisite: Mass Media 1311.

2335 Writing for Public Relations (3-0). The fundamentals of creating messages for a variety of Public Relations applications including press releases, pitch letters and campaign proposals. Special attention will be given to social media applications.

2345 Multimedia Development and Design (3-0). Principles and practice of visual communication using a variety of industry-standard software. Projects range from publication design to web development with a focus on the application of graphic design principles.

3311 Media Law (3-0). A study of statutory, administrative, and case law relevant to the First Amendment and U.S. print and broadcast media. Attention given to applicable Texas state law.

3313 Magazine and Feature Writing (3-0). Techniques of feature writing, with a practical approach to researching, writing, targeting niche audiences, and marketing feature stories to the mass media.

Prerequisite: Mass Media 1311.

3314 Copy Editing (3-0). Principles and practices in copy editing, photograph selection and editing, headline writing, use of the language, and news judgment.

Prerequisite: Mass Media 1311.

3325 Digital Imaging (3-0). Principles of editing digital images using the industry standard software. Course topics will include image capture, file formats, image correction, and manipulation, storage and output for a variety of visual and photographic media. (Credit may not be earned for this course and Communication 3325.)

Prerequisites: Mass Media 1318 and advanced standing.

3335 Public Relations Principles (3-0). Fundamentals of public relations including the history, terminology and various components of the profession. Some time will be spent preparing news releases and a public relations campaign. (Credit may not be earned for this course and Communication 3335.)

3342 Advertising Principles (3-0). A study of the principles and practices of advertising, with an emphasis on the strategic process and preparation of advertising for the mass media. (Credit may not be earned for this course and Communication 3342.)

3360 Sports Broadcasting (3-0). This course will provide an introduction to the Sports Broadcasting Media Industry. Students will learn the various role within conducting a live sports broadcast for local television. The roles to be taught in the course will feature: Play-By-Play, Color Analyst, Sports Production and Reporting. (Credit may not be earned for this course and Communication 3360.)

3361 Electronic Media Programming (3-0). Theories and strategies of program selection, scheduling and evaluation for electronic media. Theory and practice of producing and scheduling prime time television programs. (Credit may not be earned for this course and Communication 3361.)

Prerequisites: Communication 1337 or Mass Media 1337 and advanced standing.

3363 Electronic News Gathering and Production (2-2). Theory and practice of producing video newscasts on location and in a station environment. Focus on shooting and editing. Extensive hands-on experience equipment. Production of multiple packages and news pieces. (Credit may not be earned for this course and Communication 3363.)

Prerequisites: Communication 1337 or Mass Media 1337, and advanced standing.

3381 International Study Abroad in Mass Media (3-0). This course is designed for classes offered through the study abroad program. Course topics vary by program. This course may be repeated for up to 6 hours to meet major requirements.

4301 Senior Seminar (3-0). Capstone course for all areas of mass media, emphasizing portfolio development and other preparation for entry into the mass media profession. Course topics also include: professional communication excellence, job interviewing, team communication, cultural sensitivity, and work-life balance. (Credit may not be earned for this course and Communication 4301.)

4314 Magazine Development and Design (3-0). The publishing, production, and management of magazines. Focus on creation, development, budgeting, content, layout, sales, and technical procedures. Students will participate in a project developing and producing a magazine.

Prerequisite: Mass Media 2345.

4321 Advanced Photography (3-0). Advanced photographic principles using a digital SLR. Emphasis on the use of color, light, and composition in photography.

Prerequisites: Mass Media 1318, Communication 3325 or Mass Media 3325, or permission of the instructor.

4335 Advertising/Public Relations Campaigns and Cases (3-0). Case methods and campaign planning as they pertain to advertising and public relations administration. Emphasis on development of creative strategy and media selection. (Credit may not be earned for this course and Communication 4335.)

Prerequisite: Mass Media 3335 or 3342.
Mass Media (MM) continued

4355 Mass Media Effects and Ethics (3-0). A study of social science research methodology as applied to mass media research. The course will examine current theories of the effects of mass media on audiences. The study of reasoning and ethical decision making as they relate to the mass media. (Credit may not be earned for this course and Communication 4355.)

4360 Entertainment-Education in Media (3-0). This course will involve the study of how Entertainment-Education in Media has impacted social change in the United States and throughout the world by educating and entertaining audiences through film and television study from a theoretical perspective. Students will design a new Entertainment-Education media proposal for film or television through social change. (Credit may not be earned for this course and Communication 4360.)

4364 Media Management (3-0). Management functions, advertising, sales, and internal organizational structure of media. (Credit may not be earned for this course and Communication 4364.)

Prerequisite: Advanced standing.

4365 Advanced Video Production (2-2). Theories and techniques for producing, directing, and editing single and multiple-camera productions; to include script writing, shooting, and post production for video field and studio work. (Credit may not be earned for this course and Communication 4365.)

Prerequisite: Communication 1337 or Mass Media 1337.

4366 Visual Editing Theory and Techniques (3-0). A study of professional editing techniques, theories and trends in the history and current practice of film and television. Class will use non-linear editing systems, emphasizing technical and creative processes to visual storytelling. (Credit may not be earned for this course and Communication 4366.)

Prerequisite: Communication 1337 or Mass Media 1337.

4379 Mass Media Internship. Students gain on-the-job experience by working in the industry. Limited to students majoring in Mass Media. Upper-level students are selected on the basis of a written application submitted to the department chair one semester in advance. (May be repeated once for credit for a maximum of 6 semester hours credit.)

Prerequisite: Department permission required.

4381 Special Topics (3-0). Selected topics in mass media and mass communication. (May be repeated once for credit when topic varies.)

Prerequisites: Senior standing and department chair approval.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in mass media.

Prerequisites: Senior standing and department chair approval.

Mathematics (MATH)

1151 Mathematical Technology (1-0). An introduction to using software to solve mathematical applications.

1191 Research. Individual research problems.

1314/MATH 1314 College Algebra (3-0). Exponents and radicals, logarithms, factoring, algebraic quotients, systems of equations, inequalities, absolute value, complex numbers, quadratic equations, binomial theorem, progressions, theory of equations, and determinants.

Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.

1316/MATH 1316 Trigonometry with Analytic Geometry (3-0). Trigonometric functions, radian measure, solutions of triangles, graphs of trigonometric functions, trigonometric identities, trigonometric equations, polar coordinates, vectors, and conic sections.

Prerequisite: Mathematics 1314 or a suitable score on a placement exam.

1324/MATH 1324 Finite Mathematics I (3-0). Topics include basic algebra, linear equations, quadratic equations, functions and graphs, inequalities, logarithms and exponential functions, mathematics of finance, linear programming, matrices, systems of linear equations, and applications to management, economics, and business.

Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.

1325/MATH 1325 Business Calculus and Finite Mathematics II (3-0). Topics include set operations, counting techniques and probability, random variables and distribution functions, limits and continuity, derivatives, graphing and optimization, exponential and logarithmic functions, antiderivatives, integration, and applications to management, economics, and business.

Prerequisite: Mathematics 1324 or an acceptable score on the departmental placement examination.

1332/MATH 1332 Introduction to Contemporary Mathematics (3-0). A survey of ideas in contemporary mathematics. Topics may include graphs and networks, theory of elections and apportionment, statistics, and mathematical models. Recommended for students who wish to satisfy their core mathematics requirement but do not plan to take additional mathematics coursework.

Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.

1342/MATH 1342 Elementary Statistics (3-0). A survey of basic statistical methods from an elementary standpoint. Topics include distributions, central tendency, variability, inferential procedures for one population; brief introduction to sampling techniques and nonparametric methods.

Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.

1350/MATH 1350 Mathematics for Elementary/Middle School Teachers I (2-2). Sets and relations, the system of whole numbers, numerical systems, the system of integers, elementary number theory, fractions and rational numbers, decimals and real numbers. Lab activities will include making and using math manipulatives, comparing different problem solving techniques, making interdisciplinary connections, and experiencing math concepts through auditory, visual, and kinesthetic approaches to inquiry-based activities.

Prerequisite: Mathematics 1324 or equivalent.

1351/MATH 1351 Mathematics for Elementary/Middle School Teachers II (2-2). Decimals and real numbers, nonmetric geometry, metric geometry, measurement, graphs, probability and statistics. Lab activities will include making and using math manipulatives, comparing different problem solving techniques, making interdisciplinary connections, and experiencing math concepts through auditory, visual, and kinesthetic approaches to inquiry-based activities.

Prerequisite: Mathematics 1350.

1391 Research. Individual research problems.
Course Descriptions

Mathematics (MATH) continued

2305/MATH 2305 Discrete Mathematics I (3-0). An introduction to discrete mathematics including counting principles, combinatorics, discrete probability, sequences, series, and binomial theorem.
Prerequisite: Completion of Mathematics Texas Success Initiative (TSI) requirements.

2312/MATH 2312 Precalculus (3-0). Review of algebra, solving equations and inequalities, study of functions and inverse functions, vectors in the plane and space, parametric equations, and lines and planes in space.
Prerequisite: Mathematics 1314 or a suitable score on a placement exam.

2313/MATH 2313 Calculus I (3-0). Differential calculus for functions of one variable including a study of limits, continuity, derivatives of different classes of functions, maxima and minima, concavity, related rates, and optimization problems.
Prerequisites: Mathematics 1316 and 2312 or 2412, or a suitable score on a placement exam.

2314/MATH 2314 Calculus II (3-0). Introduction to the (Riemann) integral and the relationship between the derivative and integral; techniques for evaluating integrals using the fundamental theorem of calculus; applications of the integral to physical and geometrical problems.
Prerequisite: Mathematics 2313 or 2413.

2412/MATH 2412 Precalculus (4-0). An overview of topics from algebra, trigonometry, and analytic geometry that are needed for calculus, including equations and inequalities, functions and inverse functions, trigonometric functions, and applications.
Prerequisite: Mathematics 1314 with a grade of "C" or better, or a score of 26 or higher on the mathematics section of the ACT, or a score of 600 or higher on the mathematics section of the SAT if taken before March 2016, or a score of 620 or above on the mathematics section of the SAT if take in March 2016 or after, or a sufficient score on a placement examination.

2413/MATH 2413 Calculus I (4-0). Calculus of functions of one variable including a study of limits, continuity, differentiation of different classes of functions, applications of the derivative, introduction to the integral, the relationship between the derivative and integral, and the Fundamental Theorem of Calculus.
Prerequisites: Mathematics 1316 and 2312; or a suitable score on a placement exam.

2414/MATH 2414 Calculus II (4-0). A continued study of calculus of functions of one variable including techniques of integration, improper integrals, applications of the integral, sequences and series, power series, and differentiation and integration of parametric and polar curves.
Prerequisite: Mathematics 2413.

3300 Introduction to Abstract Mathematics (3-0). Logic, set operations, equivalence relations, properties of the real number system, cardinality of sets, and related topics, with an emphasis throughout on developing the necessary skills to read and construct formal mathematical arguments.
Prerequisite: Mathematics 2413.

3301 Linear Algebra (3-0). The algebra and geometry of finite dimensional vector spaces; determinants; linear transformations and matrices; characteristic values and vectors of linear transformations.
Prerequisite: Mathematics 2413.

3305 Discrete Mathematics II (3-0). Graphs, matrices, computational methods, and other discrete structures.
Prerequisite: Mathematics 2305.

3307 Probability and Statistics (3-0). Mathematical models of random processes; probability spaces; random variables; dependence and independence; mean values and moments of random variables; density and distribution functions; laws of large numbers.
Prerequisites: Mathematics 2305, 3415.

3310 Introduction to Problem Solving (3-0). Designed to help the student develop analytical skills through exposure to a variety of problem solving techniques utilizing algebra, geometry, trigonometry, and other areas of precalculus mathematics. Includes graphing calculator and instructional software applications. For students pursuing secondary teacher certification in mathematics.
Prerequisites: Mathematics 2312 or 2412, 2413.

3311 Elementary Number Theory (3-0). Tests for divisibility, unique factorization, integer representations, greatest common divisors, least common multiples, congruences, and the distribution of primes.
Prerequisites: Mathematics 1324, 1350, 1351.

3313 The Evolution of Mathematics (3-0). Historical development of selected mathematical concepts, terminology and algorithms; impact of mathematics on the development of our culture.
Prerequisites: Mathematics 1324, 1350, 1351.

3315 Vector Calculus (3-0). Calculus of vector-valued functions including differentiation, integration; line, surface, and volume integrals; gradient, divergence, and curl; integral theorems; applications.
Prerequisite: Mathematics 3415.

3321 Statistics (3-0). A survey of statistical methods, including distributions, central tendency, variability, inferential procedures for two or more populations; one-way ANOVA, inferential methods for regression and correlation.
Prerequisite: Mathematics 1314, 1324, 1342, 2312, or 2412.

3324 Applied Mathematics for Engineering (3-0). Application of mathematical principles to the analysis of engineering problems using linear algebra and ordinary differential equations (ODE’s). Topics include: mathematical modeling of engineering problems; separable ODE’s; first-, second-, and higher-order linear constant coefficient ODE’s; characteristic equation of an ODE; non-homogeneous equations; matrix addition and multiplication; solution of a linear system of equations; rank, determinant, and inverse of a matrix; eigenvalues and eigenvectors; solution to system of ODE’s by diagonalization; Fourier transforms. This course also introduces the use of scientific computing for the solution of differential equations and linear algebra problems.
Prerequisites: Mathematics 2313 and 2314 or Mathematics 2413 and 2414.

3333 Calculus III (3-0). Multivariate calculus and applications; partial differentiation, multiple integrals, infinite series, and approximation techniques.
Prerequisite: Mathematics 2414.

3335 Differential Equations (3-0). Solution of differential equations, with geometric and physical applications.
Prerequisite: Mathematics 2414.
Mathematics (MATH) continued

3415 Calculus III (4-0). Calculus of multivariable functions including partial differentiation, multiple integrals, vector functions, line integrals, Green’s Theorem, and Stoke’s Theorem.
Prerequisite: Mathematics 2414.

4091 Research: 1 to 6. May be repeated for a total of 12 credits.
Prerequisite: Consent of the department chair.

4171, 4271, 4371 Internship. Supervised internship with an approved cooperating business or government agency encompassing duties directly related to the mathematical sciences. Grading will be either pass or fail. (May be repeated for credit.)

4181 Seminar in Mathematics (1-0). Presentations and discussions on selected topics to encourage an exchange among mathematics majors and faculty members. (May be taken at most twice for credit.)

4301 Abstract Algebra (3-0). Elementary number theory including integer congruences and modular arithmetic, equivalence relations, basic topics in ring and group theory including the fundamental homomorphism theorems, structure and basic properties of fields.
Prerequisite: Mathematics 3300.

4311 Numerical Analysis (3-0). Number representations, error analysis; roots of equations; numerical integration, approximation, and differentiation; systems of equations; approximation by spline functions; ordinary differential equations; Monte Carlo methods and simulation.
Prerequisites: Mathematics 2414.

4321 College Geometry (3-0). A study of Euclidean, non-Euclidean, and transformational geometry.
Prerequisites: Mathematics 1314 and 1316; or 2312 or 2412.

4322 A Survey of Mathematics with Applications (3-0). Logic and set theory, algebraic and transcendental functions, inverse functions, limits, the derivative and integral, sequences and series, linear systems, vectors, geometry, probability and statistics. Emphasis on applications utilizing the graphics calculator.
Prerequisites: Mathematics 1316, 2305, 2312 or 2412, 2313 or 2413, 3301, 3307 or 3321, 3310, 4321: 2.75 GPA, with no grade lower than "C" in all required mathematics courses attempted, cumulative and in residence; admission to the Educator Preparation Program.

4331 Analysis (3-0). The real number system, functions, limits, continuity, differentiation, Riemann integration, sequences.
Prerequisites: Mathematics 2414, 3300.

Prerequisite: Mathematics 3335.

4345 Topics in Applied Mathematics (3-0). Selected topics in applied mathematics. May be repeated for credit when the topic varies.
Prerequisite: Consent of the instructor.

4351 Topology (3-0). Sets and functions, metric spaces, topological spaces, compactness, separation, connectedness, approximation.
Prerequisite: Mathematics 3300.

4355 Topics in Abstract Mathematics (3-0). Selected topics from number theory, field theory, or other areas of higher mathematics, with an emphasis on understanding and constructing proofs of theorems. (May be repeated for credit when the topic varies.)
Prerequisite: Consent of the instructor.

4361 Complex Variables (3-0). Complex numbers, analytic functions, complex integration, power series, residues, conformal mapping, and applications.
Prerequisite: Mathematics 2414.

4391 Research. Individual research problems. (May be repeated to a total of six semester hours credit.)
Prerequisite: Junior standing.

Mechanical Engineering (MENG)

Prerequisite: Mathematics 3415.

3351 Measurement and Instrumentation (2-3). Fundamentals of mechanical engineering measurement instruments and theory including measurement principles, function, and application. Data acquisition, data analysis, statistical methods, and uncertainty analysis. A focus on measurement of force, stress, strain, pressure, and temperature. Analog and digital data acquisition system theory and practice.
Prerequisites: Engineering 2303 and Mathematics 3324.

Prerequisites: Mathematics 3324, and either Engineering 2304 or Computer Science 1314 or 1336.

Prerequisites: Mechanical Engineering 2311, Mathematics 3324.

3441 Mechanisms and Dynamics of Machines (3-3). Kinematic analysis of common machine elements including gear trains, cams, followers, and linkages. Kinetic analysis of machines and components; power transmission, load and stress analysis, shafts, bearings, belts, and flywheels.
Prerequisites: Engineering 2302 and Mathematics 3324.

4071 Mechanical Engineering Internship (1-6). Internship in Mechanical Engineering.
Prerequisite: Departmental permission.

4091 Independent Study (1-6). Independent study in Mechanical Engineering. 1-6 hours. May be repeated up to a total of six hours.
Prerequisite: Departmental permission.
Mechanical Engineering (MENG) continued

4311 Thermal-Fluids System Design (2-2). Mechanical engineering solutions through application of thermodynamic, fluid mechanics, and heat transfer principles including the hardware, software, and instrumentation needed to implement such solutions. Focus areas may include pump selection and piping systems, HVAC, heat exchangers, power, gas, and refrigeration cycles.
    Prerequisites: Engineering 3404 and Mechanical Engineering 3411, 3351.

    Prerequisite: Engineering 3331; Mechanical Engineering Majors only, or Departmental permission.

4341 Machine and Power System Design (2-2). Mechanical engineering solutions through application of mechanics, mechanisms, materials, and energy/power principles including the hardware, software, and instrumentation needed to implement such solutions. Applications to multidisciplinary problems; focus upon mechanical engineering design and analysis considering energy and the transmission of power.
    Prerequisites: Engineering 2332 and Mechanical Engineering 3351, 3441.

4351 Mechatronic System Design (2-2). Solutions to mechanical engineering problems through the synthesis of data acquisition systems, sensors, transducers, actuators, software platforms, mechanical and electrical components, numerical resources, process flow. An emphasis upon the use of programmable logic controllers with control theory and application to achieve desired system performance.
    Prerequisites: Mechanical Engineering 3351, and either Engineering 2304 or Computer Science 1314 or 1336.

4352 Dynamical Systems (3-0). System modeling and rigorous analytical and numerical treatment of complex problems arising in engineering and the sciences.
    Prerequisite: Mathematics 3324.

4361 Design of Experiments (2-2). Use of engineering principles to verify and test engineering and mechanical equipment. Calibration of testbeds/systems and proposal of experimental protocols and procedures to gather data and address engineering problems. A strong emphasis upon written and oral communication in a technical engineering context.
    Prerequisites: Engineering 2332 and Mechanical Engineering 3351, 3441.

4380 Mechanical Engineering Senior Design (1-4). Mechanical Engineering capstone experience. Engineering concepts integrated from topics taught in sequences of upper-division courses to produce practical, efficient and feasible solutions of mechanical engineering problems. Computer applications are included. Final oral and written reports are required. Intended to be taken in the final semester.
    Prerequisite: Senior standing within one semester of graduation and/or Departmental permission.

4381 Special Topics in Mechanical Engineering (3-0). Special topics in mechanical engineering. Course may be repeated twice for credit when topics vary.
    Prerequisite: Departmental permission.

Mexican American Studies (MAS)

2301 Introduction to Mexican American Studies (3-0). The objective of this interdisciplinary course is to provide an introductory level survey of Mexican-origin people in the United States. The course examines the various political, social, cultural, and economic currents and influence that have shaped the Mexican American experience.

Music (MUAP)

Titles of courses are followed by two numbers in parentheses. The first number gives the number of lecture hours each week; the second gives the number of rehearsal or laboratory hours each week. For example, (1-1) indicates one hour of lecture and one hour of laboratory each week. For ensembles, (0-5) indicates five hours of rehearsal each week.

The numbers in parentheses following MUAP courses and MUSI courses taught in a private setting indicate actual clock hours of instruction. For example, (1/2) indicates one half hour of private instruction each week, while (1) indicates one hour of private instruction each week.

B.A. majors, non-majors, and B.M. students studying a secondary instrument may only take one credit (1/2 hour) lessons.

Non-music majors: A limited number of non-music majors will be accommodated in applied study each semester. Enrollment is not guaranteed.

Students enrolled in applied music are expected to practice. B.A. students are expected to practice a minimum of six hours a week in addition to lesson time. B.M. with a specialization in Teacher Certification students are expected to practice a minimum of nine hours a week in addition to lesson time. B.M. with a specialization in Applied Performance-Instrumental/Piano or Voice students are expected to practice a minimum of twelve hours a week in addition to lesson time.

Applied Music

1100 Applied Music for Music Minors or Non-majors (1/2). Private study of principles and techniques of performance. For music minors, non-majors, and secondary study for music majors. (May be repeated for credit.)

1101 Applied Music (1/2). Private study of principles and techniques of performance on an instrument or voice. For B.A. students.

Prerequisite: Successful completion of MUAP 1201.

### Course Descriptions

**Music (MUEN) Ensemble**

All ensembles may be repeated for credit. Participation in ensembles is by permission of the instructor.

- **1100, 3100 Concert Choir (0-5)**. Performance experience of choral art music repertoire. Open to all students by audition.
- **1101, 3101 Chamber Singers (0-3)**. Performance experience of chamber works from the choral art music repertoire. Open to all students by audition.
- **1102, 3102 Opera/Music Theatre Workshop (0-3)**. A study of singing-acting techniques with experimental learning through the use of scene work taken from opera and music theatre literature. This group will perform ensembles, quartets, trios, and duets as well as solo material. Open to all students by audition.
- **1103, 3103 Mesquite Singers (0-2)**. Performance experience of works from the popular choral music repertoire. The ensemble presents regular performances to the ASU community, its alumni, friends, and to the greater San Angelo and West Texas communities. Open to all students by audition.
- **1110, 3110 Marching Ram Band (0-5)**. Performance experience in the Marching Ram Band. Open to all students with three years of high school marching band experience or equivalent.
- **1111, 3111 Wind Ensemble (0-3/5)**. Performance experience of wind band repertoire. Open to all students by audition.
- **1112, 3112 Symphonic Band (0-3)**. Performance experience in the concert band medium. Open to all students with three years of high school band experience or equivalent.
- **1113, 3113 Jazz Ensemble (0-3)**. Performance experience of jazz band repertoire. Open to all students with the permission of the instructor.
- **1114, 3114 Ram Horns (0-3)**. Performance experience in the basketball pep band. Open to all students by audition.
- **1115, 3115 Marching Percussion (0-2)**. Performance experience in Marching Percussion.
- **1120, 3120 Symphony Orchestra (0-5)**. Performance experience of orchestral and string repertoire. Violin, viola, cello and bass players may enroll with high school orchestra or similar experience. Open to wind and percussion players by audition.

**2301 MUSI 2311 Music Theory III (3-0):** A continuation of MUSI 1312. The study of non-harmonic tones, the use of seventh chords in harmonization, tonal harmonic progression and voice leading, secondary dominant and secondary leading tone chords, modulation, and binary and ternary forms. Students will harmonize melodies and figured bass examples and analyze tonal compositions.

**Prerequisite:** Successful completion of MUSI 1312.

**2312/MUSI 2312 Music Theory IV (3-0):** A continuation of MUSI 2311. The study of modal borrowing, Neapolitan chords, augmented sixth chords, enharmonicism, and a multitude of 20th and 21st century practices and techniques. Students will learn to use the information covered in class to harmonize melodies and figured bass examples and analyze tonal and 20th century compositions.

**Prerequisite:** Successful completion of MUSI 2311.

**3136 The High School Marching Band (0-2):** The study of the organization, administration, current practices, drill writing and appropriate literature for the high school marching band. Application of concepts included.

**Prerequisite:** Successful completion of MUSI 2311.

**3150 Improvisation (1-1):** A study of the techniques, practices and styles of improvisation in music through the use of practical experiences.

**Prerequisite:** Successful completion of MUSI 2311.

**3233 Elementary Music Methods (2-1):** The study of philosophies and methodologies related to teaching in the elementary music classroom. Application will be through participation in sample lessons and creating and tracking elementary music lessons. Field experiences included.

**Prerequisite:** Successful completion of MUSI 2311.

**3234 Secondary Instrumental Methods (2-1):** The study of band and orchestral curriculum, scheduling, organization, recruitment, band/orchestral literature and its sources, class management and discipline, ensemble performance skills, professional organizations and their application to the public school setting, administrators, central administrations and parent booster organizations.

**Prerequisite:** Successful completion of MUSI 2311.

**3235 Secondary Choral Methods (2-1):** The study of the adolescent voice, the changing male voice, voice classification, choral curriculum and scheduling, choral organization, auditioning, recruitment, overview of choral literature, source for choral literature, repertoire selection, class management and discipline, ensemble performance skills, professional organizations, administrators and central administrations, and parent booster organizations.

**Prerequisite:** Successful completion of MUSI 2311.

**3251 Form and Analysis (2-0):** An overview of forms used in Western music. Music from the medieval period through the 21st century will be considered.

**Prerequisite:** Successful completion of MUSI 2311.

**3340 Music History I (3-0):** A survey of Western art music, including its social contexts, from Antiquity through the Classical Era ending with Mozart. This course emphasizes listening and a comprehension of important styles and genres.

**Prerequisites:** Successful completion of MUSI 1211 and 1306.

232 Angело State University Undergraduate Catalog 2019-2020
3220  Adult Health Nursing I Practicum (0-0-6).  Students provide research-based, safe, and appropriate care to culturally diverse adult patients with common medical, surgical, or psychiatric conditions. Students use standards of care, informatics/technology, interdisciplinary communication, and error prevention techniques in a variety of settings. Grading will be either pass or fail.  
   Prerequisites: Nursing 3304, 3305.

3301  Health Policy and Professional Issues (3-0-0).  This course addresses pertinent political, social, ethical, economic and education forces that influence trends and issues impacting professional nursing and health care delivery systems in general.

3304  Health Assessment (3-0-0).  Students learn to (a) perform thorough and accurate interviews, history-taking and physical assessments of culturally diverse individuals with health problems, (b) identifying and applying pathophysiologic principles across the lifespan, (c) relating findings to prevention and early detection of disease, and (d) documenting and communicating findings effectively and accurately.

3305  Clinical Nursing Skills (3-0-0).  Study of advanced skills, emphasizing patient safety and quality. Didactic theory and concepts underpin and frame hands-on lab practice, clinical simulations, documentation and professional communication. Competencies are validated by performance tests. Simulations involve critical-thinking applications for ethical issues and conflict scenarios.  
   Corequisite: Nursing 3108.

3307  Pharmacology (3-0-0).  Study of pharmacologic principles, including pharmacokinetics and drug metabolism. Students learn therapeutic uses of drugs, mechanisms of action, and adverse effects for major classes of drugs, as well a commonly used drugs in each category.  
   Prerequisites: Chemistry 1306/1106, Nursing 2324 or Nursing 3309.

3309  Applied Pathophysiology and Genomics (3-0-0).  Study of pathologic phenomena that influence disease processes, injuries and health impairments. Students learn disease and injury causes, manifestations, diagnoses and treatments. Genetic and genomic principles are included as essential elements for health care providers in evaluating needs of patients and delivering of care to patients and families. An understanding of the dynamic relationship between pathophysiology and genetics/genomics facilitates the development of patient-centered care. To promote practical application, analysis of genomic influences to specific patient disease manifestations is explored through case studies.  
   Prerequisites: Biology 2323/2123, 2324/2124 or Health Science Professions 2301/2101, and Health Science Professions 2302/2102.

3317  Psychiatric and Mental Health Nursing: Theoretical Foundations (3-0-0).  This course focuses on the biological, environmental, cultural and interpersonal factors related to the mental health of individuals across the lifespan. Emphasis is placed on therapeutic communication, understanding of psychopathology, pharmacology and appropriate treatments for providing comprehensive nursing care to the client with mental health problems.  
   Corequisites: Nursing 3214 and Nursing 3414.

3410  Adult Health Nursing I (4-0-0).  This course examines nursing care of patients with common medical, surgical, and psychiatric conditions. Students learn theories, research, and standards of care that are related to common disease processes and conditions.

3414  Fundamentals of Nursing (4-0-0).  Presents foundational principles of ethics, laws, regulations, professionalism, documentation, communication, quality, safety, and evidence-based care in nursing practice. Using standards of care, students learn strategies to optimize health outcomes, including therapeutic interventions and interpersonal and interdisciplinary communication.  
   Corequisites: Nursing 3317 and Nursing 3214.

4212  Obstetric and Pediatric Nursing Practicum (0-0-6).  Students provide research-based, safe, and appropriate care to culturally diverse childbearing and childrearing families and their children. Grading will be either pass or fail.  
   Prerequisite: Nursing 3220.

4302  Leadership in Nursing Practice (3-0-0).  Current theories of management, leadership, and change are explored and related to the nursing process in organizing and providing health care to individuals, families, groups, community, and society. The student will apply management theory to nursing practice.

4305  Research: An Evidence-Based Approach to Care (3-0-0).  An evidence-based analytical approach to decision making and problem solving incorporating principles of leadership, collaboration, theory, research and professional practice. Students are provided the opportunity to evaluate research studies and apply the basic steps of the research process.

4307  Community-Based Health Promotion and Disease Prevention (3-0-0).  This course explores health promotion and disease prevention in diverse and multi-cultural communities and vulnerable populations. Students create an evidence-based project to improve health in a community setting.

4322  Obstetric and Pediatric Nursing (3-0-0).  This course focuses on research-based care of childbearing and childrearing families. Students learn processes, concepts, and standards of care related to pregnancy, labor, childbirth, newborns, infants, children, adolescents, and their families. Students review common acute and chronic and behavioral pediatric and obstetric conditions and complications.

4325  Nursing Concept Synthesis (3-0-0).  Forum for peer and faculty interaction to explore and synthesize ethical and practice issues in the senior capstone residency related to previously learned nursing concepts. The course will also include structured preparation for the professional nursing role and the NCLEX licensure exam.

4404  Senior Capstone Residency (0-0-200).  A clinical immersion (200 clock hours) to strengthen and broaden baccalaureate nursing skills, judgments and decision making. Supervised by a preceptor, students synthesize and apply evidence-based skills and knowledge to nursing practice. The residency may focus on one specific setting or be an experience in which a variety of settings are merged.  
   Prerequisite: Nursing 4221.
Course Descriptions

Nursing (NUR) continued

4411 Adult Health Nursing II (4-0-0). Examines chronic and complex medical and psychiatric conditions requiring acute nursing care. Students learn theories, research, and standards of care related to complex multi-system disorders, as well as strategies affecting health behavior to improve health outcomes.

Electives

4313 Contemporary Concepts in Patient Safety (3-0). This course presents an overview of contemporary concepts in patient safety including specific interventions for compliance with the National Patient Safety Goals. The student will explore the development and promotion of a culture of safety and minimization of risk of harm to patients in the provision of healthcare. This course provides a foundation for working with quality management tools and data collection processes to improve systems related to providing nursing care.

4329 Hospice and Palliative Care Nursing (3-0). This course presents an overview on hospice and palliative care including standards of practice, admission criteria, symptom management, and interdisciplinary teamwork. Provides a foundation for working with patients and families throughout the dying process.

4330 PTSD and Implications for Nursing Practice (3-0-0). This course evaluates pertinent causes and issues that impact professional nursing care of individuals with Post Traumatic Stress Disorder (PTSD). Students analyze societal, ethical, cultural and economic factors that impact health care and professional nursing practice related to this disorder.

4333 Critical Care Nursing (2-0-3). Explores the interrelationship of human biopsychosocial dimensions of critical care nursing and examines the theoretical basis and nursing process for alterations in human functioning as consequences of critical illness and care.

4334 Cardiopulmonary Rehabilitation (3-0-0). Provides a basic understanding of exercise physiology of the cardiorespiratory system and in-depth study of diagnostic assessments, clinical care, and post-event rehabilitation methodology of the coronary patient. The student will develop skills to assess and monitor rehabilitative therapy for various levels of function. Psychological needs and support systems for the families of coronary patients are also discussed.

4336 Pain and Therapeutic Interventions (3-0-0). Pain, perceived and diagnosed, is explored from a patient’s perspective. Anxiety’s effect on pain, the difference between pain and suffering, and therapeutic approaches will be discussed.

4338 Women’s Health Care (3-0-0). Presents an analysis of selected issues and trends in women’s health care. Students will evaluate past and present trends in the delivery and financing of health care for women, appraise positive and negative practices affecting physical and mental health, and examine major health deviations of women throughout the life cycle.

4339 Nursing Aspects of Aging (3-0-0). Explores the current knowledge base concerning the process of aging incorporating the impact of societal values toward the elderly.

4341 Basic Concepts in Identifying the Health Needs of Adolescents (3-0-0). Addresses the range of normal growth and development and its relationship to behavior in adolescence. The student will develop skills to improve assessment, communication and understanding of adolescents and their families.

4346 Communicating with the Spanish-Speaking Patient (3-0-0). This course is designed to develop basic conversational skills necessary to communicate with Spanish-speaking patients and their families. Students will acquire a basic linguistic and cultural foundation enabling them to interview and manage patients of all ages in a variety of clinical settings using Spanish; to take a history and perform a physical exam using Spanish-speaking populations.

4348 Nursing Care of the Veteran Client (3-0-0). This course will provide an introduction to the military/veteran culture and the healthcare needs and concerns related to this unique population.

4381 Special Topics (3-0). Selected topics in nursing. (May be repeated once for credit when the topic varies.)

Research. A specialized course providing research opportunities for superior students enrolled in the nursing program.

Prerequisites: Junior standing.

Philosophy (PHIL)

1301/PHIL 1301 Introduction to Philosophy (3-0). Problems in interpretation of the nature of knowledge, reality, and value.

2305 Critical Reasoning and Logic (3-0). This course explores how values and beliefs are manifested in the language we use. By learning to evaluate problems in reasoning and the solutions to them, students become more aware of linguistic strategies and the impact of those strategies in our human experience. This course helps to assess rationally real life situations in order to avoid common mistakes and assumptions in our culture as well as in other cultures.

2306/PHIL 2306 Introduction to Ethics (3-0). This course offers an introduction to moral thought. It explores topics such as moral objectivism and relativism, what makes an action morally good or bad, and the connection between morality and happiness. In this course students learn to apply ethical systems to current moral debates.

3310 History of Ancient and Medieval Philosophy (3-0). A study of some of the most significant contributions to philosophical thought from the pre-Socratics to Aquinas. This course covers from the 6th century B.C. to the 14th century.

3311 History of Modern Philosophy (3-0). A study of key philosophical figures whose thoughts contributed to the development of philosophy from the 15th century to the 19th century.

3312 Introduction to Metaphysics (3-0). This introductory course will consider the traditional problems of metaphysics: personal identity, time, space, causation, freewill, universals and particulars, as well as more recent philosophical concerns such as “vagueness.” The course will look at some of the most important of the philosophers who contributed to this literature, including the Empiricists Locke, Berkeley, and Hume, as well as the rationalists Descartes, Leibniz and Spinoza, up to and including more recent contemporary literature on these problems.
3313 Philosophy of Religion (3-0). This course examines some fundamental issues concerning the nature of religious belief, the relation between faith and reason, the arguments for and against the existence of God, and the problem of evil.

3315 Philosophy of Art (3-0). This course will take students through a history of the Philosophy of Art from Hegel’s introductory lectures on aesthetics to Theodor Adorno’s reflections on modern music.

4311 Philosophy of Science and Technology (3-0). This course reflects on the nature of the scientific enterprise and its technological ramifications. It covers topics in the philosophy of science, including the difference between science and non-science, the nature of the scientific method, the ontological status of theoretical entities or the role of values in science. It also addresses the relation between science and technology and some fundamental topics in the philosophy of technology.

4312 Philosophy of Mind (3-0). This course explores traditional and contemporary views on the nature of mind. It covers topics such as the mind-body problem, causation of mental entities, the fitting of consciousness in a physical world, intentionality, and computational approaches to mind. Thought experiments involving robots, zombies, Martians, or brains in vats will help us reflect on our nature as beings with mental lives.

4310 Philosophy of Science and Technology (3-0). A survey of debate concerning political violence from the beginning of the 20th Century to the present. (Credit may not be earned for this course and Political Science 4331.)

4311 Philosophy of Science and Technology (3-0). A study of key philosophical figures whose thoughts contributed to the development of philosophy from the beginning of the 20th Century to the present. (Credit may not be earned for this course and Political Science 4332.)

4312 Philosophy of Mind (3-0). A study of modern political thought from Hobbes to Nietzsche. (Credit may not be earned for this course and Political Science 4332.)

4313 Philosophy of Religion (3-0). This course covers in depth the works of one or two prominent figures in the history of philosophy. This is a variable topic course. May be repeated once for credit when topic varies.

4314 Existentialist Approaches to Political Violence: Kierkegaard to Sartre (3-0). A survey of debate concerning political violence from the middle of the nineteenth century to the present. (Credit may not be earned for this course and Political Science 4334.)

4315 Philosophy of Art (3-0). This course will take students through a history of the Philosophy of Art from Hegel’s introductory lectures on aesthetics to Theodor Adorno’s reflections on modern music.

4330 Great Philosophical Figures (3-0). This course covers in depth the works of one or two prominent figures in the history of philosophy. This is a variable topic course. May be repeated once for credit when topic varies.

4331 Classical Political Philosophy (3-0). A study of Greek, Roman, and medieval thinkers from Socrates to Machiavelli. (Credit may not be earned for this course and Political Science 4331.)

4332 Modern Political Philosophy (3-0). A study of modern political thought from Hobbes to Nietzsche. (Credit may not be earned for this course and Political Science 4332.)

4333 Contemporary Political Philosophy (3-0). A study of contemporary political thinkers from the beginning of the 20th Century to the present. (Credit may not be earned for this course and Political Science 4433.)

4334 Existentialist Approaches to Political Violence: Kierkegaard to Sartre (3-0). A survey of debate concerning political violence from the middle of the nineteenth century to the present. (Credit may not be earned for this course and Political Science 4334.)

4360 Topics in Contemporary Philosophy (3-0). A study of key philosophical figures whose thoughts contributed to the development of philosophy from the beginning of the 20th Century.

4391 Research. Students may take this course as Directed Readings in Philosophy or as a Research Senior Thesis. This second option is strongly recommended for students intending to apply for Graduate Studies in Philosophy. May be repeated for a total of 6 semester hours credit.

4395 Capstone Seminar (3-0). Students will develop a portfolio from papers and writing samples that best represent their achievements in the discipline. The portfolio should include an introduction justifying the selection of the content material and a critical analysis of the progress made in the degree program.

A student with a physical disability which would prevent taking physical activity courses should obtain written certification of the disability from a physician. The Dean of the student’s major college may grant permission for other college level work to be substituted for physical activity courses upon petition by the student.

The following physical activity courses are designed to provide the student with knowledge and application of fundamental techniques required to participate in each activity at the recreational level. (These courses may not be repeated for credit.)

1111 Adaptive Activities (0-2). A program of activities modified to meet the needs of students who are not qualified for full participation in the physical activity program. The activities offered will be those recommended by the examining physician for each individual student. This course may be repeated for a maximum of four semester hours of credit or until such time as the physician recommends entry into the unrestricted program.

Prerequisite: A written statement by a physician in which a specific modified program of activities is recommended for the student.

1103 Wally/Volleyball (0-2).
1108 Disc Activities (0-2).
1110 Fitness Walking (0-2).
1112 Swimming (0-2).
1113 Racquetball (0-2).
1114 Tennis (0-2).
1115 Bowling (0-2).
1116 Conditioning (0-2).
1117 Team Sports (0-2).
1118 Golf (0-2).
1119 Jogging (0-2).
1120 Weight Training (0-2).
1124 Badminton/Pickleball (0-2).
1125 Special Activities (0-2). Includes a variety of non-traditional activities and sports. (May be repeated once for credit when activities differ.) Activities may include but are not limited to archery, wallyball, mountain biking, in-line skating and rugby.
1126 Strength and Conditioning (0-2).
1127 Kettlebells (0-2).
1133 Handball (0-2).

* Only 8 SCH of physical activity courses may be used to meet degree requirements.
Course Descriptions

**Physical Activity (PA) continued**

1134 Intermediate Handball (0-2).

1137 Yoga (0-2).

2101 Intercollegiate Activities (0-8). Participation as a member of an intercollegiate athletic squad. Upon dismissal or voluntary withdrawal from the intercollegiate program, the student must report to the Chair of the Kinesiology Department for assignment to the regular physical activity program or to the adaptive program. (May be repeated for credit.)
Prerequisite: Membership on an intercollegiate athletic team.

2102 Precision Drill and Dance (0-5). Participation as a member of the University dance and drill team, the Angelettes. Upon dismissal or voluntary withdrawal from the program the student must report to the Chair of the Kinesiology Department for assignment to the regular physical activity program or the adaptive program. (May be repeated for credit.)
Prerequisite: Instructor’s approval.

2111 Fitness and Aquatic Activities (0-2). For Kinesiology majors only.

**Physical Science (PS)**

1115, 1117/PHYS 1115, PHYS 1117 Introduction to Physical Science Laboratory (0-2). Optional laboratory experiences to supplement Physical Science 1315 and 1317, respectively.
Prerequisite: Credit for at least one college-level mathematics course.

1315, 1317/PHYS 1315, PHYS 1317 Introduction to Physical Science (3-0). An introduction to the foundations of physical science, including selected areas of physics, chemistry, earth science, and space science.
Prerequisite: Credit for at least one college-level mathematics course.

3311, 3312 Physical Science Concepts (3-0). A study of physical systems and sub-systems, interactions, variables, motion, energy, electricity, and magnetism. For students pursuing teacher certification.
Prerequisite: Mathematics 1314 or 1324.

**Physics (PHYS)**

1101/PHYS 1101 General Physics Laboratory (0-3). Laboratory experiences designed to accompany Physics 1301. Experiments to study mechanics, thermodynamics, and waves. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.) Concurrent enrollment in, or credit for, Physics 1301 is required.
Prerequisite: Mathematics 1314 or equivalent.

1102/PHYS 1102 General Physics II Laboratory (0-3). Laboratory experiences designed to accompany Physics 1302. Experiments to study of electricity, magnetism, light, and atomic physics. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.) Concurrent enrollment in, or credit for, Physics 1302 is required.
Prerequisite: Physics 1301 or equivalent.

1103/PHYS 1103 Stellar Astronomy Laboratory (0-2). Laboratory experiences to supplement Physics 1303. Topics included are stellar magnitudes and distances, spectroscopy and spectral classification, stellar evolution, stellar motions, galaxies, and cosmology. Some night observing sessions are required.

1104/PHYS 1104 Solar System Astronomy Laboratory (0-2). Laboratory experiences to supplement Physics 1304. Topics included are planetary orbits, telescopic observations of Saturn and Jupiter, lunar features, comets, celestial coordinates, celestial sphere concepts. Some night observing sessions are required.

1191 Freshman Research. Freshman research for students selected for a freshman research grant who are majoring in physics. This course satisfies the first semester of that research.
Prerequisite: Instructor approval required.

1301/PHYS 1301 General Physics I (3-0). Study of mechanics, thermodynamics, and waves. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.) Concurrent enrollment in, or credit for, Physics 1101 is required.
Prerequisite: Mathematics 1314 or equivalent.

1302/PHYS 1302 General Physics II (3-0). Study of electricity, magnetism, light, and atomic physics. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.) Concurrent enrollment in, or credit for, Physics 1102 is required.
Prerequisite: Physics 1301 or equivalent.

1303/PHYS 1303 Fundamentals of Astronomy (3-0). An introductory study of the current knowledge and techniques of astronomy. Stellar astronomy and cosmology will be emphasized.

1304/PHYS 1304 Astronomy of the Solar System (3-0). A study of the current knowledge and techniques of astronomy as applied to our solar system. Information obtained from recent planetary probes and lunar exploration will be emphasized.

1391 Freshman Research II. Freshman research for students selected for a freshman research grant who are majoring in physics. This course satisfies the second semester of that research.
Prerequisite: Instructor approval required.

1401/PHYS 1401 General Physics I (3-3). Study of mechanics, thermodynamics, and waves. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.)
Prerequisite: Mathematics 1314 or equivalent.

1402/PHYS 1402 General Physics II (3-3). Study of electricity, magnetism, light, and atomic physics. (This course will not count as the introductory physics course for physics majors and pre-engineering majors.)
Prerequisite: Physics 1301/1101.

2125/PHYS 2125 Fundamentals of Physics I Laboratory (0-3). Laboratory experiences designed to accompany Physics 2325. Emphasis is placed on experiments utilizing the fundamental concepts of mechanics and thermodynamics. Concurrent enrollment in, or credit for, Physics 2325 and Mathematics 2413 is required.

2126/PHYS 2126 Fundamentals of Physics II Laboratory (0-3). Laboratory experiences designed to accompany Physics 2326. Emphasis is placed on experiments utilizing the fundamental concepts of electricity, magnetism, and optics. Concurrent enrollment in, or credit for, Physics 2326 and Mathematics 2414 is required.
Course Descriptions

Physics (PHYS) continued

2325/PHYS 2325 Fundamentals of Physics I (3-0). A comprehensive course with emphasis placed on the capacity to utilize the fundamental concepts of mechanics and thermodynamics in the solution of problems. Concurrent enrollment in, or credit for, Physics 2125 and Mathematics 2413 is required.

2326/PHYS 2326 Fundamentals of Physics II (3-0). A comprehensive course with emphasis placed on the capacity to utilize the fundamental concepts of electricity, magnetism, and optics in the solution of problems. Concurrent enrollment in, or credit for, Physics 2126 and Mathematics 2414 is required.

2371 Topics in Astronomy (3-0). An overview of relevant and current topics related to modern astronomy such as the beginnings of this field of science, NASA and the development of the space program, modern telescope design and operation, and the latest discoveries and research.
Prerequisites: Physics 1303, 1304.

2425/PHYS 2425 Fundamentals of Physics I (3-3). A comprehensive course with emphasis placed on the capacity to utilize the fundamental concepts of mechanics and thermodynamics in the solution of problems.
Prerequisite: Credit for or parallel registration in Mathematics 2413.

2426/PHYS 2426 Fundamentals of Physics II (3-3). A comprehensive course with emphasis placed on the capacity to utilize fundamental concepts of electricity, magnetism, and optics in the solution of problems.
Prerequisites: Physics 2325/2125 and credit for or parallel registration in Mathematics 2414.

3170 Observational Methods in Astronomy (1-0). Modern techniques used by astronomers to collect and analyze data from various sources. Topics will include instrument design and operation, processing of astronomical images, and data analysis using small and large datasets.
Prerequisites: Mathematics 2312 or 2412, Physics 1303, 1304.

3301 Mathematical Methods for Scientists and Engineers (3-0). An introduction to specific mathematical topics as applied to standard problems in science and engineering.
Prerequisite: Credit for or parallel registration in Mathematics 3415.

3310 Computational Physics (3-0). An introduction to using numerical methods and computational techniques to solve physics problems, including numerical solutions to differential equations, Monte Carlo simulations, and graphical analysis. Case studies are largely drawn from the material presented in the introductory physics courses.
Prerequisites: Physics 2326/2126 and Computer Science 1314.

3331 Mechanics (3-0). Vectors, Newtonian mechanics, noninertial reference frames, central forces, systems of particles, rigid bodies, Lagrange’s equations, and oscillating systems.
Prerequisites: Physics 2326/2126, and credit for or parallel registration in Physics 3301.

3332 Thermal and Statistical Physics (3-0). A study of thermodynamics and statistical methods in physics with applications from classical and quantum physics.
Prerequisites: Physics 2326/2126, and credit for or parallel registration in Physics 3301.

3341 Electricity and Magnetism (3-0). Maxwell’s equations, electrostatics, magnetostatics, and electromagnetic waves.
Prerequisites: Physics 3301, and credit for or parallel registration in Physics 3461.

3371 Astrophysics (3-0). Fundamental physical concepts applied to observational and theoretical astronomy. Emphasis will be on conceptual understanding of topics such as the life cycle of stars and the structure of the universe.
Prerequisites: Mathematics 2312 or 2412, Physics 1303, 1304, and 1301/1101 or 2326/2126.

3443 Electronic Instruments (3-3). A study of the basic electronic instruments and their uses in science. Laboratory emphasis on the applications of these instruments and their operation and maintenance.
Prerequisite: Physics 2326/2126.

3444 Digital Electronics (3-3). A study of the behavior of digital logic circuit elements, with an emphasis on applications in research instrumentation, industrial controls, and computer design.
Prerequisite: Computer Science 2336 or 3304 or Physics 2326/2126.

3461 Modern Physics (3-3). An introduction to atomic physics, nuclear physics, and solid state physics.
Prerequisite: Physics 2326/2126 or equivalent; and Mathematics 2414 or equivalent.

4191, 4291, 4391 Research. Individual research problems for superior students majoring in physics. (May be repeated for a total of six semester credit hours.)
Prerequisite: Junior standing.

4300 Introduction to Geophysics (3-0). This course is an introduction to the geophysical methods used to explore the Earth’s subsurface with an emphasis on application. Topics include seismicity, ground penetrating radar, magnetics, gravity, and resistivity. (Credit may not be earned for this course and Geology 4300.)
Prerequisites: Geology 1303/1103, Mathematics 2413.

4362 Solid State Physics (3-0). Crystallography, x-ray diffraction, metals, insulators, electrical, and optical properties of semiconductors and low temperature techniques.
Prerequisites: Physics 3301, 3461.

4363 Quantum Mechanics (3-0). A study of the fundamental principles of quantum theory with emphasis on both the Schroedinger and matrix formulations.
Prerequisites: Physics 3301, and credit for or parallel registration in Physics 3461.

4381 Special Topics (3-0). A course dealing with selected topics in physics. May be repeated once for credit when the topic varies.
Prerequisite: Junior standing.

4452 Applied Optics (3-3). An experimental study of geometrical and physical optics with emphasis on current applications to physics and related fields of study.
Prerequisites: Physics 2326/2126, and credit for or parallel registration in Physics 3301.
**Course Descriptions**

**Physics (PHYS) continued**

4462 Applied Nuclear Physics (3-0). A study of the production and detection of radiation and its interaction with matter. Emphasis will be placed on nuclear radiation.

Prerequisites: Physics 2326/2126, and credit for or parallel registration in Physics 3301.

**Political Science (POLS)**

2107/GOVT 2107 Federal and Texas Constitutions (1-0). A study of the United States and Texas Constitutions. Grading will be either pass or fail.

Prerequisite: By permission only. Enrollment limited to students who have already completed a minimum of 6 SCH of Political Science courses but have not satisfied the requirement for a study of the federal and state Constitutions.

2305/GOVT 2305 Federal Government (Federal Constitution and Topics) (3-0). Origin and development of the U.S. Constitution, structure and powers of the national government including the legislative, executive, and judicial branches, federalism, political participation, the national election process, public policy, civil liberties and civil rights.

2306/GOVT 2306 Texas Government (Texas Constitution and Topics) (3-0). Origin and development of the Texas constitution, structure and powers of state and local government, federalism and intergovernmental relations, political participation, the election process, public policy, and the political culture of Texas.

2313 Fundamentals of Law and Politics (3-0). Using an interdisciplinary approach, this course will serve as a foundation for the study of the law, the courts, and the constitution.

2341 World Politics (3-0). This course studies the interactions between members of the international system to provide for military, economic, environmental, and social security. Concepts such as power, international law, international organizations, human rights, sustainable development, collective security, and national security are examined as well as different frameworks for interpreting these interactions and for prescribing actions for promoting security. Other issues to be explored include global economy and transnationalism.

*Satisfactory completion of Political Science 2305 and 2306 or equivalent credit is prerequisite to advanced political science courses (3000- and 4000- level courses).*

3302 American Political Parties and Interest Groups (3-0). This course studies the development of the American political party system and organized interest groups with a focus on national and state-level organization, and their roles in campaigns, elections, public opinion, and voter mobilization. Additionally, this course will examine the influence of political parties and interest groups within our political institutions and on the policy-making process.

3303 State and Local Government (3-0). A general study of various principles and elements involved in state and local governments, with special consideration shown to federal-state relations, state constitutions, municipal charters, and administrative problems.

3305 Public Administration (3-0). A study of the fourth branch of government: its organization, personnel, finance, and methods of policy formation, with an analysis of problems accompanying an expanding bureaucracy.

3306 Non-profit Management (3-0). Public policy continues to expand beyond the public sector with non-profit organizations increasingly administering public funds and supervising programs that impact the community and society. The course will provide students with an overview of the challenges facing non-profit management from a public policy perspective. Students will learn all aspects of the non-profit management process.

3307 The U.S. Congress (3-0). This course is an analysis of the politics and legislative process of the U.S. Congress. Topics include policy-making, recruitment, party leadership, structure and influence of the committee system, and the legislative branch’s relationship with the presidency, Supreme Court, mass media, and voters.

3308 The American Presidency (3-0). An in-depth examination of the American presidency and the Chief Executive’s formal and informal roles within the American political system. Emphasis will be given to the evolution of the presidency, its power and constraints, organization of the White House, and the dynamics of the office including presidential character, governing style, and public conceptions of the office. This course will also address the effect the mass media and public opinion has had on the presidency and how the Oval Office has responded.

3309 The Supreme Court and the Judicial Process (3-0). This course will study of the United States Supreme Court as a political and legal institution and as the third branch of the federal government as established by the U.S. Constitution. It will also cover the federal and state court systems, the processes by which they operate, and the influence they have on public policy.

3311 American Political Culture (3-0). A study of the cultural context of American politics, the development and transmission of political attitudes and values, and the role of public opinion in the political process. (Credit may not be earned for this course and Sociology 3310.)

3313 American Campaigns, Elections, and Voting Behavior (3-0). An in-depth examination of the electoral process in the United States including analysis of the theoretical and practical importance of elections in the policy-making process, the techniques of professional campaign management and American voting behavior.

3315 Political Economy of Latin America (3-0). A study of the political economy of Latin America, especially with regard to the theory and practice of how economic motives affect political decisions and how most political decisions have economic repercussions, both domestically and in Latin America. This course reviews and explores the key themes of Latin America’s relationship with the global political economy and raises questions about the nature of state action in Latin American countries.

3316 American Politics and Mass Media (3-0). This course is an overview of the influence of the mass media on the American political system. Specifically, it examines how the press defines what is newsworthy, shapes public opinion, affects the political behavior and decision-making of elected officials, and has become the “fourth branch” of government.
3317 Politics and Administrative Strategies (3-0). This course focuses on topics such as political rhetoric, strategic communications, agenda-setting, framing, priming, and selective exposure. Attention will also be given to the role of traditional and digital media in conveying political information to the public, political advertising, campaign strategies, and the management of political information during times of crisis or political scandals.

3318 Political Psychology and Behavior (3-0). This course examines the psychological aspects of American political phenomena. Topics include factors that influence political decision making, public opinion, voting behavior, and political participation and socialization.

3331 American Political Thought I (3-0). This course is a study of the thought and rhetoric of American political figures during critical moments in American history from the colonial period through the Civil War. Students will examine the relationship between the political actions they initiated.

3332 American Political Thought II (3-0). This course is a study of the thought and rhetoric of American political figures during critical moments in American history from the Civil War to the present. Students will examine the relationship between the political actions they initiated.

3335 Introduction to Political Concepts (3-0). This course will provide students with an introductory survey of the most basic and enduring concepts used throughout virtually every other area of political science, from comparative politics, through international relations to American political institutions. Concepts covered will include: Justice, Liberty, Power, Equality, Human Nature, Democracy, the Nation, the State, Ideology, Civil Society, and Globalization.

3341 Comparative Political Systems (3-0). A comparative study of modern post-industrial societies and the third world. The course content will alternate between the analysis of the major political systems in Europe and the study of developing areas such as Africa, Asia, and Latin America. (The course may be repeated once for credit when the topic varies.)

3343 Political Economy of Globalization (3-0). This course is an introduction to the politics of globalization. It provides students with analytical tools to better understand the multi-dimensions and its impact on contemporary world politics. The course also discusses the controversy surrounding the consequences of globalization.

3348 Model Organization of American States (3-0). Course prepares students for participation in a Model Organization of American States simulation. Students are assigned particular countries for which they prepare position papers, resolutions and participate in a Model Organization of American States meeting in a competition against schools from Texas, Mexico and beyond. The course stresses historical and contemporary hemispheric issues and allows students to gain knowledge of contemporary Latin America.

3350 Religion and Politics (3-0). Theoretical perspectives for and against religion’s compatibility with secular democratic society are assessed. The empirical backdrop for these competing theories is scrutinized in light of select statistical evidence. The effects of religious belief on political participation rates, democratic attitudes, and trust in scientific consensus receive particular focus.

3351 International Relations (3-0). A study of international relations since World War II, which examines changing global economic and political systems and important contemporary international issues.

4301 The Constitution and Constitutional Law (3-0). This course looks at the U.S. Constitution and how it has structured political life in America for more than 225 years. Students examine the principles of separation of powers and federalism, exploring the claims of the authority of each of the three “departments of power”—legislative, executive, and judicial—as well as the division of power between the national and state governments. In addition to reading the Constitution itself, students will study the relevant opinions of the Supreme Court and other insightful or authoritative commentaries on the Constitution.

4302 Constitutional Rights and Liberties (3-0). This course studies the specific limits placed on governmental power in the “bill of rights” and other sections of the Constitution, as well as the limits derived from less specific phrases in the 14th Amendment. These rights and liberties include the freedoms of religion and conscience, speech and press, the right to keep and bear arms, the rights of property, the procedural rights of the criminally accused, as well as the rights and liberties found in the ideas of “due process” and “equal protection” of the laws. The Supreme Court and its opinions are the focus of this course, but additional commentary will also be consulted.

4310 Current Issues in Public Policy (3-0). This course focuses on relevant areas of public policy in the American political system. It will examine the social, political, cultural, and economic underpinnings of public policy and how it is developed and implemented. (This course may be repeated for credit when the topic varies.)

4311 Urban Problems and Public Policy (3-0). A study of issues and research areas in selected urban problems and the development of public policy in response to these problems.

4321 Comparative Political Economy (3-0). This course is an introduction to comparative political economy with an eye to the influence of political and institutional factors on economic performance. The course will examine, among others, the following questions. (1) Why do countries differ so much in their level of economic development? and (2) Why do countries adopt distinctive economic policies?

4331 Classical Political Philosophy (3-0). A study of Greek, Roman and medieval thinkers from Socrates to Machiavelli. (Credit may not be earned for this course and Philosophy 4331.)

4332 Modern Political Philosophy (3-0). A study of modern political thought from Hobbs to Nietzsche. (Credit may not be earned for this course and Philosophy 4332.)

4333 Contemporary Political Philosophy (3-0). A study of contemporary political thinkers from the beginning of the 20th Century to the present. (Credit may not be earned for this course and Philosophy 4333.)

4334 Existentialist Approaches to Political Violence: Kierkegaard to Sartre (3-0). A survey of debate concerning political violence from the middle of the nineteenth century to the present. (Credit may not be earned for this course and Philosophy 4334.)

4351 United States Foreign Policy (3-0). An examination of the processes of formulating and conducting United States foreign policy, the factors that influence foreign policy, and the objectives and instruments of such policy.
Course Descriptions

**Political Science (POLS) continued**

4353 International Relations of the Western Hemisphere (3-0). A study of the evolving international relations in the Western Hemisphere, especially with regard to political, economic, and security issues pertinent to U.S. foreign policy and foreign relations in the region.

4354 International Relations of Europe (3-0). A study of the evolving international relations of Europe in the post-World War II era with particular attention given to contemporary political, economic, and security issues of the region.

4361 Research in Political Science: Capstone (3-0). Research in Political Science prepares students to understand different methods of conducting research and to produce original work of their own. Students will learn current trends in the discipline and complete a substantive paper using original research and ideas.

4371 Internship in Political Science. The student will be assigned to work in a unit of government. A research paper dealing with the internship experience written under the direction of a faculty member will be required.

Prerequisites: Political Science major, junior/senior status, and departmental approval.

4381 Special Topics (3-0). A course dealing with selected topics in political science. (May be repeated once for credit when topic varies.)

Prerequisite: Junior standing.

4391 Research. A specialized course which may be directed reading or research for exceptional students majoring in political science.

4671 Practicum in Politics: Washington, D.C. Internship Program. Supervised internship with government offices and agencies, including primarily congressional and legislative offices in Washington, D.C. Requires approval for participation in university program by the ASU Office of the President.

**Psychology (PSY)**

2301/PSYC 2301 General Psychology (3-0). Introduction to the scientific study of factors underlying behavior. In addition to the physiological bases of behavior, other factors such as intelligence, learning, motivation, emotion, and perception are covered.

2304 Developmental Psychology (3-0). A study of psychological, social, cultural, physical and emotional factors in personality development and behavior. Emphasis will be given to developmental changes from conception through death.

Prerequisite: Psychology 2301 or 2315.

2315/PSYC 2315 Psychology of Adjustment (3-0). A study of the dynamics of human behavior from a life adjustment approach. Representative topics include stress management, understanding personality, love, marriage, human sexuality, and death and bereavement. Credit may not be applied to a major or minor in psychology.

2319/PSYC 2319 Social Psychology (3-0). A survey of environmental forces as they affect individual and group behavior. Topics to be studied include subcultural influences, group dynamics, attitude change, interpersonal attraction, prosocial behavior and health. (Credit may not be earned for this course and Sociology 2326.)

Prerequisite: Psychology 2301 or Sociology 1301.

2321 Research Methods and Statistical Analysis (3-0). A survey of experimental and non-experimental methods of gathering data as well as the statistics required to analyze this data. Analyses include measures of central tendency and variability, correlation, regression, standard scores, t-tests, analysis of variance, and chi square.

3301 Experimental Psychology (3-0). This course seeks to provide an integrated blend of content and methodology in representative areas of experimental psychology, with methods discussed in the context of actual research. Some representative areas include psychophysics, perception, learning, memory, problem solving, and human factors.

Prerequisite: Psychology 2301.

3303 Learning and Memory (3-0). A study of the principles of learning and memory and how they relate to understanding behavior. The course will review theories of classical and instrumental conditional conditioning, biological constraints on learning and memory, memory formation, thinking and language.

Prerequisite: Psychology 2301.

3307 Motivation (3-0). A study of theories and research on biological and acquired motives in humans. Topics include emotions, hunger, sex, aggression, achievement, affiliation, and power.

Prerequisite: Psychology 2301.

3309 Industrial-Organizational Psychology (3-0). A study of the methods and principles of psychology applied to work situations. Emphasis will be placed on leadership, communication, job satisfaction, performance evaluation, consumer problems, and productivity.

Prerequisite: Psychology 2301.

3311 Psychological Testing (3-0). A survey of a wide variety of both group and individual psychological tests. Students will be introduced to personality, intelligence/aptitude, vocational interest, and achievement instruments that are frequently used. Technical considerations associated with test validity, reliability, objectivity, and standardization will be considered.

Prerequisites: Psychology 2301, 2321 (or equivalent).

3313 Introduction to Counseling Psychology (3-0). An introduction to the history and profession of counseling and a survey of the major counseling theories.

Prerequisite: Psychology 2301.

3315 Child Psychology (3-0). A study of physical, cognitive and social development from birth through childhood. Topics include childbirth, bonding, parenting styles, abuse, divorce, day care, and the role of genetic and environmental factors in the development of individual differences and similarities.

Prerequisite: Psychology 2301.

3317 Applied Psychology (3-0). This course provides a survey of the career fields in psychology and the skills needed to select and pursue them. Career options will be considered at the bachelor’s, master’s and doctoral levels. Also, the steps involved in applying to graduate school will be addressed.

Prerequisite: Psychology 2301.

3319 Adolescent Psychology (3-0). An examination of the physical, cognitive, and social development of adolescents, as well as the influence of contextual factors. Includes critical thinking about developmental processes, theories, concepts, and research.
Course Descriptions

**Psychology (PSY) continued**

3321 Intermediate Statistics and Research Methods (3-0). Further experience with research design and the analysis, interpretation, and presentation of data. Students will gain experience with statistical software for data analysis.
Prerequisites: Psychology 2301, 2321.

3323 Cultural Psychology (3-0). A study of the role of cultural norms in psychological and behavioral diversity. Topics include immigration, globalism, and the influence of socio-cultural forces on similarities and differences in human thought, emotion, personality, and behavior.
Prerequisite: Psychology 2301.

3325 Psychology of Stereotypes, Prejudice, and Discrimination (3-0). An introduction to theories and empirical research concerning stereotypes, prejudice, and discrimination. This course explores a variety of perspectives regarding stigmatized groups and analyzes how relevant theories/perspectives are depicted in popular films.
Prerequisite: Psychology 2301.

3327 Psychology of Leadership (3-0). An examination of classic and contemporary theories of leadership, including their evolution and an analysis of strengths and weaknesses. Applications are made to real-world leaders and a critique of their effectiveness. Topics include leadership styles, personality, self-analysis, and perspectives of leadership across diverse individuals, groups.
Prerequisite: Psychology 2301.

3329 Educational Psychology (3-0). An introduction to the field of educational psychology, including the theoretical and applied aspects of learning, motivation, human development, personality, and evaluation. Information from different branches of psychology are integrated to fit a variety of contexts, such as human services, education, occupational, legal, medical, and recreational.
Prerequisite: Psychology 2301.

4191 Research. Practice in planning, conducting, and/or reporting laboratory, field, or library research. (May be taken three times for credit.)
Prerequisite: Psychology 2301.

4301 Personality (3-0). A study of the theories of personality formation and development. Considers the individual as a social and biological organism and relates both sets of factors to the development of personality.
Prerequisite: Psychology 2301.

4303 History of Psychology (3-0). A study of the historical origins of psychology, the effect of science, contributing schools of psychology, and psychological theories.
Prerequisite: Psychology 2301.

4305 Abnormal Psychology (3-0). This course is designed to provide an understanding of normal versus abnormal behavior. In addition, the characteristics, etiology, and treatment of psychological disorders affecting adults will be reviewed.
Prerequisite: Psychology 2301.

4309 Cognition (3-0). A study of higher level intellectual processes, including attention, knowledge representation, problem solving, decision making, expertise, and language.
Prerequisite: Psychology 2301.

4313 Behavioral Neuroscience (3-0). A study of the interaction between the nervous systems and behavior. Representative topics include the structure and function of the nervous system, learning and memory, neuropsychiatric and language disorders, sleep and waking, aggression and effects of abused drugs.
Prerequisite: Psychology 2301.

4315 Child and Adolescent Psychopathology (3-0). This course is designed to provide an understanding of the characteristics, etiology, and treatment of psychological disorders affecting children and adolescents.
Prerequisites: Psychology 2301, 4305.

4319 Drugs and Behavior (3-0). A study of the various drugs of abuse, both legal and illegal. Consideration of drug use and misuse, the political and social ramifications, and drug abuse prevention and treatment.
Prerequisite: Psychology 2301.

4321 Seminar in Psychological Research (3-0). A step-by-step guide to conducting research on contemporary topics in Psychology. Students will develop hypotheses, design a study, collect data, statistically analyze the data, interpret the results, and write and present a research report.
Prerequisites: Psychology 2301, 2321, 3321.

4323 Advanced Social Psychology (3-0). An in-depth study of selected topics in social psychology, emphasizing classic and contemporary readings.
Prerequisite: Psychology 2319 or Sociology 2326.

4325 Professional Ethics (3-0). A study of values, standards, and ethical ideas that guide professional applications of psychology in teaching, research, and practice, including an in-depth exploration of ethical principles and professional codes of conduct.

4327 Human Sexuality (3-0). Provides a biopsychosocial perspective on human sexuality across the lifespan. Topics include the male and female sexual anatomy/physiology, multicultural perspective of sexuality, sexual behavior, sexual orientations, sexuality across the life cycle, the prevention and treatment of sexuality problems, and social problems related to human sexuality.

4329 Evolutionary Psychology (3-0). A broad survey of relevant areas of study in the application of evolutionary theory to psychology and human behavior. Appropriate for students in psychology and the biological sciences.

4331 Psychology of Aging (3-0). A study of psychological perspectives of aging and applications. Topics include cognitive and biological changes, psychopathologies and physiological maladies that are unique to this population, healthy ways to manage this developmental stage, and intervention strategies.
Prerequisite: Psychology 2301.

4335 Health Psychology (3-0). A study and application of contemporary theories and research in health psychology. Emphasis is on the interplay of biological, psychological, and social factors in relation to illness and wellness. Topics include pain and its management, behavioral factors in cardiovascular disease, weight management, alternative methods of healing, and connections between stress and disease.
Prerequisite: Psychology 2301.
Course Descriptions

### Psychology (PSY) continued

4371, 4671 Internship in Psychology. The student will be assigned to work in a human service agency. (Psychology 4371 may be repeated once.)
Prerequisite: Completion of 15 semester credit hours in undergraduate psychology, department selection.

4381 Special Topics (3-0). Selected topics in psychology. (May be repeated once for credit when topic varies.)
Prerequisite: Junior standing.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in psychology. (May be repeated once for credit.)
Prerequisite: Junior standing.

### Range and Wildlife Management (RWM)

2321 Forage Production and Utilization (3-0). A study of the classification, distribution, production, and utilization of rangeland forages as related to wildlife and livestock production systems.

2322 Rangeland Soil Science (2-2). An introduction to the nature and properties of soils. Application of science and technology to the use of this natural resource and the roles in the environment.

3331 Principles of Range Management (2-2). Application of ecological principles in the management of rangelands for sustained production.

3332 Range Improvement (2-2). Principles and practices of range improvements including weed and brush control, revegetation, fertilization, and grazing systems.
Prerequisite: Range and Wildlife Management 3331.

3335 Range Plants (2-2). A study of the important range plants and range ecosystems of Texas and other western states. The identification, distribution, ecological and economic value of introduced and native species will be emphasized.

4331 Wildlife Management Technique (2-2). Students will be introduced to a variety of wildlife management techniques and equipment used to manage a host of wildlife species ranging from insects and reptiles to small mammals, birds, and big game. Techniques studied will include population survey methodology, animal capture and handling, harvest analysis of game species, habitat assessment, aging, field necropsy and sample extraction techniques, as well as study and recognition of the more common wildlife diseases.

4333 Range Wildlife Management (2-2). Introduction to the ecology and management of wildlife populations, integration of other resource demands with that of wildlife.

4334 Big Game Ecology and Management (2-2). A study of the distribution and life histories of North American big game species with a focus on those major game species, including exotic game species, found in Texas.

4381 Special Topics (3-0). Selected topics in range management or wildlife management. May be repeated once for credit when topic varies.

4391 Range Inventory and Research. Individual research problems. (May be repeated to a total of six semester hours credit.)
Prerequisite: Junior standing.

4435 Plant Taxonomy (3-3). Laboratory and field studies emphasize the use of a dichotomous key using flowering plants of the Concho Valley as topics of study and recognition of the major families of flowering plants. Lecture emphasis is on current problems in plant taxonomy and systematics. (Credit for both Range and Wildlife Management 4435 and Biology 4435 cannot be awarded.)

### Reading (RDG)

3332 Reading in the Content Areas (3-0). An examination of reading and writing processes across the content areas with an emphasis on planning instruction, implementing strategies, and selecting materials for the elementary classroom.
Prerequisite: Education 2302.

3335 Reading Development in the Elementary School (3-0). An understanding from birth through the elementary grades of reading development, methods of reading instruction, and instructional sequence. Field component required: 5 hours.
Prerequisites: Education 2302 with a minimum grade of “C”. (May not be taken concurrently.)

3336 Teaching Reading in the Language Arts Classroom (3-0). A study of the integrated language arts process in the elementary classroom. Focus on effective teaching of the language arts modes of listening, speaking, reading, writing, viewing, and representing.
Prerequisites: Education 2302 with a minimum grade of “C”. (May not be taken concurrently.)

3339 Reading in the Middle School Classroom (3-0). Examines reading and writing processes, the development of reading and writing abilities and skills, theories and models of reading, assessment, remedial strategies, planning, and materials for the 4-8 literacy learning environment. (Credit may not be earned for this course and Reading 3335.)
Prerequisites: Education 2302 with a minimum grade of “C”. (May not be taken concurrently.)

4301 Assessment and Evaluation of Reading and Writing (3-0). An examination of appropriate assessment and evaluation strategies for the classroom teacher to utilize. Both formal and informal assessment measures are introduced for evaluation of student performance and planning instruction. A field-based experience is required.
Prerequisites: Reading 3332, 3335 or 3339, 3336 all with a “C” or better.

4303 Reading and Language Arts: Instructional Strategies for the Elementary and Middle School Teacher (3-0). This field-based course emphasizes the integration of research and theories concerning the processes of learning reading and language arts knowledge and skills. This course is the capstone field-based experience in reading/language arts prior to the clinical teaching (student teaching) experience. A field-based experience is required.
Prerequisites: Reading 3332, 3335 or 3339, 3336. All with a “C” or better.
An overview of the history and development of social work as a profession. The course is designed to foster a philosophical, historical, and critical understanding of the social work profession, social work values and ethics, and fields of practice.

Prerequisite: Social Work 2307.

Human Behavior in the Social Environment I (3-0). The biopsychosocial science base of social work practice. Includes theories of biological, social, cultural, psychological, and spiritual development within the context of the social environment through the life course. Focuses on the critical evaluation and application of theories and knowledge to person-environment transactions.

Prerequisites: Social Work 2307 and admission into the Social Work degree program or a declared Social Work minor.

Social Work Practice I (3-0). The introduction to social work practice with individuals, couples, families and small groups, including the use of communication skills, supervision, and consultation. Focuses on engagement, assessment and evaluation, planning for service delivery, implementing empirically based interventions, and evaluating outcomes.

Prerequisites: Social Work 2307 and admission into the Social Work degree program.

Prerequisite or Corequisite: Social Work 3307.

Corequisite: Social Work 3307.

Human Behavior in the Social Environment II (3-0). The biopsychosocial science base of social work practice. Includes a critical analysis of the interactions between the person and the dynamic nature of groups, organizations, communities, society, and economic systems. Focuses on multiple dimensions of the person and the range of social systems in which they live.

Prerequisites: Social Work 3307, 3309.

Social Work Practice II (3-0). The introduction to social work practice with large groups, organizations, and communities, including the use of communication skills, supervision, and consultation. Focuses on engagement, assessment and evaluation, planning for service delivery, implementing empirically based interventions, and evaluating outcomes.

Prerequisites: Social Work 2307, 3309.

Social Work Policy and Practice (3-0). Provides the knowledge, skills, and values to apply social welfare policy and practice. Focuses on policy analysis, implementation of policy to achieve social and economic justice, and the impact of social policy on the social work profession.

Prerequisites: Social Work 2307 and admission into the Social Work degree program.

Social Work Research Methods I (3-0). Presentation of the methods used in scientific inquiry and program evaluation; knowledge of how scientific evidence informs social work practice and how social work practice informs scientific inquiry is of primary concern. Focuses on the skills related to conducting research and practice evaluation. Ethical, cultural, and professional value considerations in the research process are emphasized.

Prerequisites: Social Work 2307 and admission into the Social Work degree program.
Course Descriptions

3357 Social Work Research Methods II (3-0). Presentation of selected statistical methods used in scientific inquiry, program evaluation, and knowledge of how statistical analysis informs social work practice. Focuses on the skills related to statistical analysis, interpretation, and application. Ethical, cultural, and professional value considerations in statistical analysis are emphasized.
Prerequisite: Social Work 3355.

4303 Social Work and Children/Families (3-0). Provides knowledge and skills necessary for generalist social work practice relating to children and families among diverse populations. Topics include the changing dynamics of families, social problems faced by children and families, counseling and intervention programs for children and families, child abuse and neglect, child and family advocacy, and the role of the social worker in foster care adoption, and the courts.
Prerequisite: Social Work 2307.

4305 Social Work and Mental Health (3-0). Provides knowledge and skills necessary for generalist social work practice relating to people with mental illness. The role and function of the social worker in mental health settings is of primary concern. Promotes the application of social work values, ethics, and standards in work with mentally ill people from diverse backgrounds.
Prerequisite: Social Work 2307.

4307 Social Work and Aging (3-0). Provides a biopsychosocial perspective on the functioning of older adults. Topics cover the various aspects of geriatric social work including biopsychosocial changes associated with aging, assessment and intervention with the elderly, substance abuse and the elderly, group work with the elderly, issues surrounding spirituality, abuse and neglect, family and social support, and issues relating to death and dying.
Prerequisite: Social Work 2307.

4309 Social Work and Health Care (3-0). Provides knowledge and skills necessary for generalist social work practice in a hospital and other health care settings with people from diverse backgrounds. Topics include an introduction to evidence-based practice in health care environments, medical terminology, and biopsychosocial factors relating to physical illness and disease. Promotes the application of social work values, ethics, and standards in physical health care.
Prerequisite: Social Work 2307.

4311 Social Work Diversity and Ethical Practice (3-0). This course is designed to increase student awareness, knowledge and understanding of issues related to the diverse populations served in generalist social work practice. Additional topics covered include a history of the evolution of ethics in social work, ethics theories, and the ethical decision making process.
Prerequisite: Social Work 2307.

4317 Social Work and Case Management (3-0). An in-depth analysis of the case management process from a generalist perspective. Focuses on evidence-based practices in contemporary case management, clarification of practitioner attitudes, cultural competence, effective communication skills, client assessment, service plan development, case documentation, the monitoring of services and treatment, and case termination.
Prerequisite: Social Work 2307.

4321 Social Work and Domestic Violence (3-0). This course is designed to provide the student with a broad knowledge of issues and methods relevant to domestic violence (spousal violence; intimate partner violence). The course content is designed to provide the participant with a foundation of understanding of domestic violence dynamics and a knowledge base for working with those affected by domestic violence.

4323 Social Work and the Military (3-0). This course provides students with a basic introduction to military culture to allow them to work more effectively with active duty service members, veterans, their family members, and other involved systems.

4327 Social Work and Human Sexuality (3-0). Provides a biopsychosocial perspective on human sexuality across the lifespan. Topics include the male and female sexual anatomy/physiology, multicultural perspective of sexuality, sexual behavior, sexual orientations, sexuality across the life cycle, the prevention and treatment of sexuality problems, and social problems related to human sexuality.

4329 Social Work and International Practice (3-0). This course will examine Social Work Practice at an International level, focusing on globalization and its social, economic, political, and cultural consequences; comparative social policies; and social and economic development as strategies of change and progress. To accomplish these, an understanding of socio-cultural differences is crucial to practice overseas or in our own international communities. Topics to be covered will include, but not limited to: AIDS/HIV, migration, refugees, healthcare, human trafficking, and human rights.

4333 Study Abroad: European Culture and Diversity (3-0). This course will highlight the unique and diverse culture of Austria, Netherlands, and Romania. The focus will be on how the culture and diversity of Austria, Netherlands, and Romania influence various areas of life; specifically related to the arts, culture, customs and traditions, and religion.

4336 Study Abroad: European Social Welfare (3-0). This course will explore the social welfare system in Austria, Netherlands, and Romania to examine the similarities and differences from the social welfare system in the United States. An examination of how Austria, Netherlands, and Romania have developed over time to address social welfare issues and how the policy implications have impacted the recipients of social welfare services in each country. The course will also examine the differences in how each country deals with social issues, and how these differences impact social welfare policy.

4346 Social Work and International Practice (3-0). This course will examine the growing trend of social work practice internationally and focus on economic, social, and environmental justice; along with the impact of international policy related to human rights, human trafficking, refugees, and poverty. It will also examine how global conflict impacts individuals safety and human rights.

4371 Social Work Field Education I. A supervised internship of at least 250 hours in an approved agency appropriate to social work; fosters the integration of classroom knowledge, values, and ethics with practice-based knowledge that seeks to increase practice skills and promotes professional competence. Restricted to Bachelor of Social Work majors.
Prerequisites: A grade of “C” or higher in all required Social Work courses, good academic standing as a senior in the social work program, and permission from the Social Work Program Director and the Social Work Field Education Director.
4372 Social Work Field Education II. A supervised internship of at least 250 hours in an approved agency appropriate to social work; fosters the integration of classroom knowledge, values, and ethics with practice-based knowledge that seeks to increase practice skills and promotes professional competence. Restricted to Bachelor of Social Work majors.

Prerequisite: Social Work 4371.

4373 Social Work Practice III (3-0). The integrative seminar in social work. This capstone course facilitates the integration and application of the generalist social work curriculum in diverse, evolving, and emerging practice contexts. Student career development, use of technology, and professional leadership are emphasized. As a part of this course, students must take and pass a comprehensive examination.

Prerequisite: Social Work 4371.

4381 Special Topics in Social Work (3-0). Selected topics in social work. (May be repeated once for credit when topic varies.)

4391 Independent Research in Social Work (3-0). A specialized course which may be directed reading or research for superior students. (May be repeated once for credit when topic varies.)

Prerequisite: Approval from the Social Work Program Director.

1301/SOCI 1301 Introduction to Sociology (3-0). Outline of the sociological perspective and a survey of topical studies in sociology. Representative topics may include family, politics, economy, religion, education, crime, population, environment, and others.

1306/SOCI 1306 Social Problems (3-0). Study of social problems and issues facing the United States. Major problems and issues are analyzed and alternative solutions are evaluated. The course is designed for non-majors as well as majors.

2325/SOCI 2325 Social Psychology (3-0). A survey of environmental forces as they affect individual and group behavior. Topics to be studied include subcultural influences, group dynamics, attitude change, interpersonal attraction, prosocial behavior and health. (Credit may not be earned for this course and Psychology 2319.)

Prerequisite: Psychology 2301 or Sociology 1301.

3310 American Political Culture (3-0). A study of the cultural context of American politics, the development and transmission of political attitudes and values, and the role of public opinion in the political process. (Credit may not be earned for this course and Political Science 3311.)

3312 Social Change and Development (3-0). Topics of current interest concerning social changes related to the global processes of industrial development and modernization.

3315 The Family (3-0). The family as a social institution and its relationships to other institutions, with special emphasis on the American family in a time of rapid social change.

3319 Population and Ecology (3-0). Topics of current interest concerning human population dynamics and relationships between man and the environment.

3325 Social Research and Data Analysis (3-0). A review of the methods of social research with a brief introduction to elementary statistics, data analysis, and practice in computer applications.

3327 Human Diversity and Social Inequality (3-0). A study of social values that promotes the understanding, affirmation, and respect for people from diverse backgrounds; integrates knowledge on at-risk populations and covers the effects of inequality, discrimination, stigma, and prejudice on human functioning. Promotes the understanding of economic and social justice.

3341 Juvenile Delinquency (3-0). A study of the nature, extent, and varieties of delinquency in the United States relative to social institutions and peer groups. The course will survey historical and current theory as well as research pertaining to delinquent behavior, treatment, and prevention.

3343 Criminology (3-0). A survey of the nature and extent of crime in America. The course will examine classical and contemporary theory as well as research pertaining to criminal behavior, treatment, and prevention.

4161 Integrative Seminar in Sociology (1-0). Senior capstone course for sociology majors that facilitates a synthesis of the sociology curriculum. This course focuses on the application of sociology across a variety of settings. An exit examination is required.

Prerequisite: Senior standing.

4301 Sociological Theory (3-0). Analysis of the main traditions of sociological thought.

Prerequisite: Sociology 1301.

4323 Community Development (3-0). A service learning course focusing on community development. Students will have assigned readings and engage in applied social research while being assigned to work in the San Angelo community on one of the department’s priority service learning projects.

Prerequisite: Junior or Senior standing.

4331 Sociology of Aging (3-0). A study of the social dimensions and significance of the aging experience: the individual experience of aging, description of the aging population and the social status of the aged, and the consequences of aging and the aged on society.

4332 Death and Dying (3-0). An extension of social gerontology into the last stage of the life course, examining such topics as the social and personal meaning of death and dying, grief and bereavement, and the interrelationships between the dying person and family, friends, and professionals.

4341 Social Deviance and Social Control (3-0). Provides a conceptual and theoretical overview of deviance in society and analysis of specific types of deviance with emphasis on a sociological understanding of the meanings, processes, and control of deviant behavior.

4371, 4671 Internship in Sociology. The student will be assigned to work in a social service agency. (4371 may be repeated once.)

Prerequisites: Completion of 15 credit hours of sociology, departmental selection.

4381 Special Topics (3-0). Selected topics in sociology. (May be repeated once for credit when topic varies.)
Sociology (SOC) continued

4391 Research. A specialized course which may be directed reading or research for superior students majoring in sociology. (May be repeated once for credit.)
Prerequisites: Junior standing.

Spanish (SPAN)

1301 Spanish I (3-0). Introduction to basic structures and usage of modern Spanish. The emphasis is on development of basic Spanish vocabulary and grammar, accuracy of pronunciation, the acquisition of listening, speaking, reading, and writing skills, and the introduction of cultural elements.
Prerequisite: Spanish 1301 or equivalent.

1302 Spanish II (3-0). A sequel to Spanish 1301.
Prerequisite: Spanish 1301 or equivalent.

2311/SPAN 2311 Spanish III (3-0). An expansion of the language skills acquired in Spanish 1301 and 1302. Strengthening of basic structures and introduction of more complex structures. The course will increase accuracy in listening, speaking, reading and writing Spanish, and promote knowledge of cultural background.
Prerequisite: Spanish 1302 or equivalent.

2312/SPAN 2312 Spanish IV (3-0). Fourth-semester capstone course organized around grammatical topics and cultural issues. Review and expansion of structural aspects, reading and discussion of selected Spanish texts, and continued practice in composition and conversation.
Prerequisite: Spanish 2311 or equivalent.

3301 Advanced Spanish Grammar for Conversation (3-0). Spanish grammar as related to conversation.
Prerequisite: Spanish 2312 or consent of department chair. (Spanish 2312 has prerequisites of 1301, 1302, 2311.)

3302 Advanced Spanish Grammar for Composition (3-0). Spanish grammar as related to composition.
Prerequisite: Spanish 2312 or consent of department chair.

3310 Advanced Spanish Composition (3-0). An intensive course designed to develop an appreciation of style in written Spanish. Students should gain an awareness of the difference between oral and written Spanish. Students will review key areas of grammar, expand their vocabulary, and examine their writing, practicing both formal and informal expression.
Prerequisite: Spanish 2312 or consent of department chair.

3314 Advanced Spanish Conversation (3-0). A course designed to improve the student’s conversation skills and fluency. This course is primarily directed toward meeting the needs of future language teachers.
Prerequisite: Spanish 2312 or consent of department chair.

3334 Film and Culture of the Spanish-Speaking World (3-0). An analysis of Spanish and Latin-American culture through film. Students will explore Spanish and Latin American representations of nationality, ethnicity, politics, and gender. This course will be taught in English. Knowledge of Spanish is desirable but not required. Lectures and class discussions will be in English. Spanish majors and minors are required to complete all written assignments in Spanish.

3342 Spanish Civilization (3-0). A survey of the history and culture of Spain from prehistoric times to the present.
Prerequisite: Spanish 2312 or department consent.

3343 Spanish-American Civilization (3-0). A survey of the history and culture of Spanish America from pre-Columbian times to the present.
Prerequisite: Spanish 2312 or department consent.

4071 Internship in Spanish: Credit 1 to 6. An internship experience with advanced assignments in Spanish. (Spanish 4071 may be repeated with a limit of 6 hours total.)
Prerequisite: 60 hours - including current semester credit hours, a 2.50 or higher cumulative GPA at the time of application, and department permission.

4320 Survey of Spanish Literature (3-0). A survey of Spanish literature from the Middle Ages to the present. Students assumed to have completed Spanish 3301 and 3302.

4324 Survey of Spanish-American Literature (3-0). A survey of Spanish-American literature from pre-colonial to the present. Students assumed to have completed Spanish 3301 and 3302.

4381 Special Topics (3-0). Selected topics in Spanish. May be repeated once for credit when topic varies.
Prerequisite: Spanish 2312 or equivalent, or consent of department chair.

4391 Research. A specialized course which may be directed reading or research for superior students majoring in Spanish.

Dual Credit: Off-Site Courses

Spanish (SPAN)

SPAN 1411/SPAN 1411 Beginning Spanish I (4-0). Basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the beginner level.

SPAN 1412/SPAN 1412 Beginning Spanish II (4-0). Continued development of basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner to low intermediate level.
Course Descriptions

Special Education (SPED)

2361 A Survey of Exceptionalities (3-0). A survey of diverse populations in educational settings with emphasis on students with special needs, limited English proficiency, cultural differences, educational disabilities, and/or gifts and talents. Regulations as well as appropriate instructional and assessment strategies, and information on referring students for special programs and resources are included. A field-based experience is required.

Prerequisite: Special Education 2361 with a "C" or better.

3360 Management Issues with Individuals with Disabilities (3-0). Study of management theories and practices, assessment methodology and strategies for working with learning and behavioral differences. Special emphasis will be given to theories of consultation and practices of working with diverse groups. A field-based experience is required.

Prerequisite: Special Education 2361 with a "C" or better.

3364 Educating Individuals with High-incidence Disabilities in an Inclusive Environment (3-0). A study of special problems related to the education of students with high-incidence disabilities. Designed to provide a working knowledge of instructional approaches and behavioral strategies. A field-based experience is required.

Prerequisite: Special Education 2361 with a "C" or better.

3365 Principles of Assessment (3-0). Designed to provide assessment strategies, formal and informal, to assess, plan, monitor, and evaluate the development of students with learning differences. A field-based experience is required.

Prerequisite: Special Education 2361 with a "C" or better.

4362 Behavior and Discipline Management Theory (3-0). A practical approach to the implementation of behavioral assessment and discipline management of students with learning and behavioral differences. A field-based experience is required. (Must be taken concurrently with Special Education 4363.)

Prerequisite: Special Education 2361, 3360, 3364, 3365 all with a "C" or better. Admission to the Educator Preparation Program.

4363 Learning Disorders (3-0). A study of practices of working with learning differences. A field-based experience is required. (Must be taken concurrently with Special Education 4362.)

Prerequisite: Special Education 2361, 3360, 3364, 3365 all with a "C" or better. Admission to the Educator Preparation Program.

Theatre (TH)

1104 Rehearsal and Performance (0-3). A program of activities to include participation in the cast and/or production staff of at least one dramatic production each semester. (May be repeated for a maximum of four semester credit hours but may not be used to meet theatre major or minor requirements.)

1120/DRAM 1120 Theatre Practicum (0-3). Supervised laboratory assignments in areas of specialization. (May be repeated for a maximum of four semester credit hours but may not be used to meet theatre major or minor requirements.)

1310/DRAM 1310 Introduction to Dramatic Art (3-0). A historical survey of the development of dramatic art; introduction to contemporary theatre practice.

1330/DRAM 1330 Technical Production (3-0). Basic techniques in scene construction; technical drafting for the stage; survey of technical areas of concentration. Theatre 1120 must be taken in conjunction with this course.

1351/DRAM 1351 Acting I (3-0). Study of acting techniques; vocal and physical training.

1352/DRAM 1352 Acting II (3-0). Study of acting techniques, vocal, and physical training with a focus on scene structure and character development.

2334 Stage Lighting (3-0). Study of design principles and techniques of lighting for the stage. Theatre 1120 must be taken in conjunction with this course.

3311 Dramatic Literature (3-0). A critical study of representative 20th-21st Century drama with emphasis on script analysis, dramatic theory, and stage production.

3320 Vocal Production (3-0). Development of clear articulation and enunciation, correct pronunciation, proper vowel placement and control of the speaking voice through study and exercise specifically for the actor.

3331 Theatre Production Management (3-0). Management of the physical stage; production schedules; box office; public relations. Theatre 1120 must be taken in conjunction with this course.

Prerequisite: Theatre 1351 or 1352.

3334 Scene Design (3-0). Basic techniques of scenery design; ground plans, renderings, elevations; perspective drawing.

Prerequisites: Theatre 1330, 3345, or consent of instructor.

3341 Costume Design and Construction (3-0). Study of historical costume with emphasis on major cultures and historical periods. The nature and use of costume fabrics and sewing implements; cutting, with and without patterns; pattern-making and alteration; wardrobe management. Theatre 1120 must be taken in conjunction with this course.

3345 Computer Graphics for the Theatre (3-0). The use of computers in designing for theatrical production, with study of computer graphics and other software for scenic, lighting, costume, sound, promotions, and projections design.

3353 Acting III - Styles (3-0). An exploration of special problems the actor encounters with dramatic texts from various periods. Plays, manners, customs, and movement characteristics of Greek, Elizabethan, French Neoclassical, and Restoration periods will be studied through monologue work.

4301 Senior Seminar (3-0). Capstone course for all areas of theatre, emphasizing portfolio development and other preparation for entry into the theatre profession. Course topics also include: professional communication excellence, job interviewing, team communication, cultural sensitivity, and work-life balance.

4311 History of Dramatic Art I (3-0). A historical study of the theatre from primitive times to the Eighteenth Century. Course includes an examination of the physical theatre, acting styles, costumes and scenery, representative plays, and theories of drama applicable to the various periods under consideration.

Angelo State University Undergraduate Catalog 2019-2020 247
Course Descriptions

**Theatre (TH) continued**

4312  *History of Dramatic Art II (3-0).* A historical study of the theatre from the Eighteenth Century to the present. Includes a study of the physical theatre, development of modern drama, acting styles, and theories of drama applicable to the various periods under consideration.

4314  *Playwriting (3-0).* Analysis of play structure. Each student will write a one-act play to demonstrate comprehension of the processes involved.

4321  *Directing (3-0).* Basic techniques of directing for the stage; scene interpretation; pictorial composition. Students direct and supervise production of short scenes.

Prerequisites: Theatre 1330, 1351 or 1352, 2334.

4331  *Stage Make-up (3-0).* Basic techniques in the application of theatrical make-up, corrective, character, and nonrealistic types.

4341  *Theories of Dramatic Production (3-0).* A study of the essential elements of theatre production. Criteria for evaluating and selecting plays and the philosophy of performance theories.

4351  *Acting IV - Advanced Acting (3-0).* Focus on acting for the camera, alternative approaches to acting and preparation of career development process - development of resume, headshots, portfolio, auditioning, markets, etc. A study of the essential elements of theatre production. Criteria for evaluating and selecting plays and the philosophy of performance theories.

Prerequisite: Theatre 1351 or 1352, or permission of instructor.

4381  *Special Topics (3-0).* A course dealing with selected topics in theatre. May be repeated once for credit when topic varies.

Prerequisites: Sophomore, Junior, or Senior standing.

4391  *Research.* A specialized course which may be directed reading or research for superior students majoring in theatre.

Prerequisites: Senior standing and department chair approval.

**University Studies (USTD)**

2381  *Special Topics in Interdisciplinary Studies (3-0).*

3381  *Special Topics in Interdisciplinary Studies (3-0).* These courses are designed to consider selected topics which lend themselves to the use of an interdisciplinary approach. Guest lecturers, team-teaching, and field study often will be included. Courses in various fields of study may be offered through the medium of newspaper or television as they are made available. Each course may be repeated once for credit when topic varies.

William A. Taylor, Ph.D.
Interim, Department of Security Studies and Criminal Justice

Christopher D. Stewart, M.F.A.
Department of Visual and Performing Arts

College of Education

Kimberly K. Livengood, Ph.D.
Department of Curriculum and Instruction

Kimberly L. Dickerson, Ph.D.
Department of Teacher Education
University Administration

College of Science and Engineering
William A. Kitch, Ph.D.
  David L. Hirschlorf Department of Engineering
Chase A. Runyan, Ph.D.
  Department of Agriculture
Michael T. Dixon, Ph.D.
  Department of Biology
Kyle A. Beran, Ph.D.
  Department of Chemistry and Biochemistry
Erdoğan Dogdu, Ph.D.
  Department of Computer Science
Karl J. Havlak, Ph.D.
  Department of Mathematics
David L. Bixler, Ph.D.
  Department of Physics and Geosciences

Norris-Vincent College of Business
Charles A. Pier, Ph.D.
  Department of Accounting, Economics, and Finance
Daniel J. Reisner, M.A.
  Department of Aerospace Studies
Andrew A. Tiger, Ph.D.
  Department of Management and Marketing

Administrative Staff

Office of the President
Candice B. Brewer, B.S.
  Director of Carr Foundation Operations
Rebecca Brackin, B.B.A.
  Director of Communications and Marketing
Emily Knopp, M.S.A., C.P.A., CISA
  Director of Audit Services
Adelina C. Morales, B.B.A.
  Executive Assistant to the President
James R. Reid, M.Ed.
  Athletic Director

Division of Academic Affairs
Margaret Alexander
  Head of Circulation
Mark A. Allan, M.S.L.S., J.D.
  Assistant Director for Research and Instruction Services
Cynthia D. Belden, M.L.S.
  Head of Library Cataloging Services
Rosalinda R. Castro, B.S.
  Director of Registrar Services
Shirley M. Eoff, Ph.D.
  Director of Honors Program
David A. Erickson, M.B.A.
  Director of the Small Business Development Center

Division of Development and Alumni Relations
Kimberly Adams, M.Ed.
  Director of Development and Alumni Services
Jennifer J. Love, B.B.A.
  Development Officer
Kevin Pepper, B.B.A.
  Development Officer

Division of Finance and Administration
James E. Adams, B.S.
  Director of Public Safety and Chief of University Police
Elaine M. Beach, M.B.A.
  Director of Customer Support and Multimedia Services
Brian M. Braden, M.S.
  Executive Director of Information Technology and Chief Technology Officer
Curt Braden, B.B.A.
  Associate Director of Information Technology
Jason Brake, B.S.
  Information Technology Security Officer
Martha Cox
  Manager of Student Accounts/Bursar
Janet Coleman, B.B.A.
  Executive Director and Controller
Patrick Dienschke, M.Ed.
  Coordinator of Learning and Communication Services
Jackie Droll, M.A.
  Technology Services Program Manager
Cody Guins
  Director of Facilities, Planning and Construction
University Administration

Jay Halbert, B.B.A.
Director of Facilities Management

Jeane M. Irby, M.B.A.
Director of Strategic Planning and Assistant to the Chief Information Officer

Brian Jackson, M.B.A.
Associate Director of Information Technology

Jennifer Lennon, M.B.A.
HUB/Licensing Coordinator

Jessica A. Manning, M.B.A.
Director of Business Services

Kurtis Neal, S.P.H.R.
Director of Human Resources

M. Lanell Nichols
Accounts Payable Manager

Duane Pruitt
Executive Director of Budget/Payroll Services

Samuel Spooner III, M.S.
Director of Risk and Emergency Management

Elicia K. Rankin
Purchasing and Travel Supervisor

David C. Rosipal, B.S.
Associate Director of Special Events Facilities/Services

Sandra K. Rosser, M.B.A.
Director of OneCard and Parking Services

Michelle Norris
Director of Scholarships

Bradley C. Petty, Ph.D.
Executive Director of Student Affairs

Mark Rehm, M.Ed.
Director of Counseling Services

Amanda Ritchie
Assistant Director of Admissions - Campus Experience

Dan Robertson, M.S.
Director of University Recreation

Julie J. Ruthenbeck, M.S.
Director of Career Development

Jeffrey J. Sefcik, M.B.A.
Executive Director of Enrollment Management

Dallas Swafford, M.Ed.
Director of Student Disability Services

Susan J. Williams, B.S.
Director of Affiliated Military and Veteran Services

Division of Student Affairs and Enrollment Management

Sharla A. Adam, M.A.
Director of Admissions

Erika Baeza, M.A.
Director of Multicultural and Student Activities Programs

Tracy W. Baker, M.P.S.
Director of Housing and Residential Programs

Suzie Dusek, M.B.A.
Director of Enrollment Management Operations

Mary E. Escobar, M.B.A.
Associate Director of Financial Aid

Clint Havins, Ph.D.
Director of Student Life

Elisa Hernandez
Assistant Director of Admissions

Martha C. Hicks
Accountant–Collections Coordinator

Charles E. Kerestly
Director of Financial Aid

Paula Kueter
HSI Grant Project Director

Kerri Mikulik, FM.Ed.
Associate Director of Admissions

Angelo State University Undergraduate Catalog 2019-2020 251
The Faculty

(Date) indicates year of hire

Underlined name indicates a member of the Graduate Faculty

Susan M. Abernathy (2014)
Specialization: Low-dimensional Topology
Assistant Professor of Mathematics
Ph.D., Louisiana State University
M.S., Louisiana State University and A&M College
B.A., Trinity University

Christie L. Adkins (2010)
Senior Instructor in Biology
M.S., B.S., Angelo State University

Tia L. Agan (2017)
Specialization: Field Experiences
Assistant Professor of Education
Ed.D., Texas Tech University
M.Ed., Angelo State University
B.S., Texas Christian University

Charles C. Allen (2002)
Professor of Physics
Ph.D., Purdue University
M.S., University of Illinois at Urbana-Champaign
B.S., Brown University

Jonathan D. Alvis (2016)
Associate Professor of Music and Director of Bands
D.M.A., M.M., University of North Carolina-Greensboro
B.S., Concord University

Specialization: Molecular Systematics
Professor of Biology
Ph.D., University of Texas at Austin
B.S., Texas A&M University

Bonnie B. Amos (1987)
Specialization: Botany
Professor of Biology
Ph.D., University of Oklahoma
M.S., B.S., Angelo State University

Daniel Anderson (2018)
Instructor in Theatre
M.F.A., Texas State University
B.A., Stephen F. Austin State University

Dara A. Anderson (2017)
Instructor in Curriculum and Instruction
M.Ed., B.S., Angelo State University

Esteban C. Apodaca (1989)
Professor of Art
M.F.A., University of Arizona
B.F.A., New Mexico State University

Dick T. Apronti (2017)
Assistant Professor of Civil Engineering
Ph.D., M.S., University of Wyoming
B.S., Kwame Nkrumah University of Science and Technology

Kenna L. Archer (2010)
Assistant Professor of History
Ph.D., Texas Tech University
M.E.S., B.A., Baylor University

Anna G. Arreola (2013)
Senior Instructor in English
M.A., B.A., Angelo State University

Erin L. Ashworth-King (2009)
Specialization: Early Modern British Literature
Associate Professor of English and Chair of the
Department of English and Modern Languages
Ph.D., B.A., University of North Carolina at Chapel Hill
M.A., University of Maryland at College Park

Lee T. Atkins (2017)
Specialization: Clinical Biomechanics
Assistant Professor of Physical Therapy
Ph.D., Texas Tech University Health Sciences Center
M.P.T., Angelo State University
B.S., Texas Tech University

Ashley M. Atwood (2017)
Instructor in Curriculum and Instruction
M.Ed., Angelo State University
B.B.A., Texas State University

Specialization: Philosophy
Professor of Philosophy
Ph.D., B.A., Universidad Complutense de Madrid
B.A., Saint Louis University

Dionne T. Bailey (2001)
Specialization: Computational Algebraic Geometry
Professor of Mathematics
Ph.D., Emory University
B.S., University of Texas at Permian Basin
Erica Bailey (2017)
Specialization: Media Effects
Assistant Professor of Communication
Ph.D., Pennsylvania State University
M.A., Virginia Polytechnic Institute and State University
B.A., Otterbein University

Walter M. Baranowski (2011)
Assistant Clinical Professor of Nursing
M.S., University of Cambridge
B.S.N., A.A.S., Angelo State University
B.S., Chapman University
A.A.S., Air University-Community College of the Air Force

Mario A. Barrientos (2008)
Senior Instructor in Mathematics
M.S., University of Texas at San Antonio
B.S., Sull Ross State University

Anthony D. Bartl (2012)
Specialization: Constitutional Law
Associate Professor of Political Science
Ph.D., M.A., Baylor University
B.A., Northern Illinois University

Anthony Battistiini (2017)
Assistant Professor of Civil Engineering
Ph.D., M.A., University of Texas-Austin
B.S., Lehigh University

Alfredo Becerra III (2017)
Clinical Instructor in Nursing
M.S.N., B.S.N., B.S., Angelo State University

Bruce E. Bechtol, Jr. (2010)
Specialization: International Security, Asian Studies
Professor of Political Science
Ph.D., Union Institute & University
M.M.S., Marine Corps University
M.A., Catholic University of America
B.S., University of the State of New York

Kyle A. Beran (2018)
Professor of Chemistry and Chair of the Department of Chemistry and Biochemistry
Ph.D., University of Kansas
B.S., Angelo State University

Cynthia Y. Bishop (2004)
Senior Instructor in Mathematics
M.S., Texas A&M University
M.S., B.S., Angelo State University

David L. Bixler (1998)
Specialization: Atomic, Molecular and Optical Physics
Professor of Physics and Chair of the Department of Physics and Geosciences
Ph.D., M.A., Rice University
B.S., Tarleton State University

Frank A. Blair (2008)
Senior Instructor in Communication and Director of Ram Radio
M.A., B.A., Angelo State University

Azadeh Bolhari (2017)
Assistant Professor of Civil Engineering
Ph.D., Colorado State University
M.S., University of Colorado-Denver
B.S., Iran University of Science and Technology

Timothy Bonenfant (2005)
Professor of Music
D.M.A., M.M., B.A., University of Nevada
M.F.A., California Institute of the Arts

Jeffrey G. Boone (1999)
Specialization: Mass Communications, Communication Research Methods
Professor of Mass Media
Ph.D., University of Tennessee
M.A., Texas Tech University
B.S., Murray State University

Kevin A. Boudreaux (1995)
Senior Instructor in Chemistry
M.S., University of Texas at Austin
B.S., Louisiana State University

Heather J. Braden (2010)
Specialization: Geriatrics, Neuro, Motor Control
Professor of Physical Therapy
Ph.D., Texas A&M University
M.S., Texas Tech Health Science Center
B.S., Angelo State University

Loree A. Branham (2007)
Specialization: Food Safety
Professor of Animal Science and Research Scientist at the Management, Instruction, and Research Center
Ph.D., Texas Tech University
M.S., B.S., Angelo State University

Jennifer M. Braziel (2010)
Specialization: Advanced Practice Nursing - Acute Care
Assistant Professor of Nursing
D.N.P., Texas Christian University
M.S.N., Yale University School of Nursing
B.S.N., A.A.S., Angelo State University
Faculty

Steven T. Brewer (2014)
*Specialization:* Behavioral Neuroscience
Assistant Professor of Psychology
Ph.D., M.S., University of New Orleans
B.S., Rogers State University

Robert M. Briwa (2019)
Instructor in Geography
M.A., Kansas State University
B.A., State University of New York-Genesco

Benjamin Brojakowski (2019)
Assistant Professor of Communication
Ph.D., Bowling Green State University
M.A., Marywood University
B.A., King’s College

*Specialization:* Medical Microbiology
Associate Professor of Nursing
Ph.D., M.S., Texas Tech University
B.S., Angelo State University

Assistant Professor of Health Science Professions
Dr.P.H., Florida A&M University
M.P.H., B.S., Florida State University

Ji’Lynda M. Brown (2019)
Clinical Instructor in Health Science Professions
M.P.H., B.S., Florida A&M University

Katherine A. Bunker (2017)
Instructor in Art
M.F.A., Texas Tech University
B.A., Incarnate Word

Johnny K. Burkhalter (2014)
Clinical Instructor in Psychology
Ph.D., M.S., B.S., Texas A&M University

Michael J. Burnett (2011)
Associate Professor of Theatre and Assistant Director of University Theatre
M.F.A., University of Mississippi
B.A., Sul Ross State University

Charlene D. Bustos (2011)
*Specialization:* Reading, General Education
Associate Professor of Teacher Education
Ph.D., Texas Tech University
M.A., Angelo State University
B.A., Our Lady of Lake University

Allyn Byars (2005)
*Specialization:* Exercise Physiology Research
Professor of Kinesiology
Ph.D., University of Mississippi
M.S.Ed., Baylor University
B.A., Henderson State University

Gustavo M. Campos (2015)
Instructor in Political Science
M.P.A., B.A., Angelo State University

Sara O. Carlisle (2017)
Instructor in Curriculum and Instruction
M.Ed., Angelo State University
M.A., Texas A&M University

Kenneth W. Carrell (2016)
Assistant Professor of Physics and Planetarium Director
Ph.D., M.S., B.S., Texas Tech University

Leah D. Carruth (2015)
Assistant Professor of Teacher Education
Ph.D., M.Ed., B.A., Texas Tech University

David A. Carter (2001)
Assistant Professor of Chemistry
Ph.D., University of Arizona
B.S., Wayland Baptist University

Doyle D. Carter (2006)
*Specialization:* Health and Physical Education
Professor of Kinesiology
Ed.D., Texas A&M University-Commerce
M.Ed., Sul Ross State University
B.B.A., Angelo State University

Lesley L. Casarez (2014)
*Specialization:* Guidance and Counseling and Professional School Counseling
Associate Professor of Curriculum and Instruction
Ph.D., Texas Tech University
M.Ed., Sul Ross State University
M.Ed., Texas State University
B.J., University of Texas at Austin

Anthony N. Celso (2011)
*Specialization:* Terrorism, Mideast Security
Professor of Security Studies
Ph.D., M.A., B.A., The Ohio State University

Jacqueline L. Chappell (2018)
Clinical Instructor in Nursing
M.S.N., B.S.N, Angelo State University
Jaeyong Choi (2019)
Assistant Professor of Criminal Justice
Ph.D., Indiana University of Pennsylvania
M.A., B.A., Dongguk University-Republic of Korea

Anica Cisneroz (2017)
Instructor in Curriculum and Instruction
M.A., B.A., Angelo State University

Scarlet M. Clouse (2019)
Professor of Education and Dean, College of Education
Ed.D, Texas A&M University-Commerce
M.Ed., B.S., Sul Ross University

Specialization: French and Linguistics
Professor of French and Spanish
Ph.D., M.A., University of Texas at Austin
B.A., Texas Christian University

Michael Conklin (2019)
Assistant Professor of Business Law
J.D., Washburn University School of Law
M.B.A., Oklahoma City University
B.B.A., University of Central Oklahoma

Robert P. Cope (2008)
Specialization: Meat Science
Senior Instructor of Agriculture and Research Associate at Management, Instruction, and Research Center
M.S., B.S., Tarleton State University

Clinical Instructor in Nursing
M.S.N., Walden University
A.A.S.N., Manchester Community College

Emerson P. Crabill (2019)
Assistant Professor of Biology
Ph.D., University of Nebraska-Lincoln
B.A., University of Kansas

Mark B. Crouch (2001)
Professor of Computer Science
Ed.D., M.Ed., Texas Tech University
M.B.A., Angelo State University
B.S., University of Texas at Tyler

Edwin J. Cuenco (2012)
Associate Professor of Art
M.F.A., George Washington University
B.F.A., Philippine Women’s University

Drew A. Curtis (2013)
Specialization: Counseling Psychology
Associate Professor of Psychology
Ph.D., Texas Woman’s University
M.A., B.S., Sam Houston State University
A.A., Lone Star College System

Bryan Cutsinger (2019)
Assistant Professor of Economics
Ph.D., M.A., George Mason University
B.B.A., University of Colorado

Jeffrey D. Dailey (2011)
Specialization: Criminal Investigation, Intelligence Analysis, Forensic Psychology
Associate Professor of Border Security
Ph.D., Sam Houston State University
M.S., Eastern Kentucky University
B.S., Florida Atlantic University

Terence A. Dalrymple (1979)
Specialization: Creative Writing
Professor of English and John S. Cargile University Professorship
Ph.D., Oklahoma State University
M.A., B.A., Southwest Texas State University

Jordan A. Daniel (2013)
Specialization: Recreation and Youth Development
Assistant Professor of Kinesiology
Ph.D., Texas A&M University
M.Ed., B.B.S., Hardin Simmons University

Pamela B. Darby (2014)
Clinical Instructor in Nursing
M.S.N., A.S.N., Angelo State University
B.S.N., Texas A&M University at Corpus Christi

William B. Davidson (1993)
Specialization: Social and Personality Psychology
Professor of Psychology
Ph.D., University of Texas at Austin
B.A., Trinity University

Jenny R. Davis (2019)
Specialization: Accounting Information Systems
Instructor in Accounting
M.B.A., B.B.A., Angelo State University

Michael D. DeCelles (2004)
Specialization: Financial Accounting
Associate Professor of Accounting
Ph.D., University of Oklahoma
B.S., University of Missouri-Kansas City
Faculty

Kimberly L. Dickerson (2015)
Associate Professor of Teacher Education and Chair of the Department of Teacher Education
Ph.D., Texas A&M University
M.S., B.S., University of Houston-Clear Lake

Brook R. Dickison (2015)
Assistant Professor of Curriculum and Instruction
Ed.D., Texas Tech University
M.Ed., Angelo State University
B.S., Texas A&M University

James W. Dickison (2011)
Specialization: Agriculture Education, Reproductive Physiology
Associate Professor of Agriculture and Davidson Chair for Agriculture Science and Leadership
Ph.D., Texas A&M University
M.S., B.S., Texas Tech University

Laurie J. Dickmeyer (2018)
Assistant Professor of History
Ph.D., M.A., University of California-Irvine
M.A., University of British Columbia
B.A., Valparaiso University

Nicole M. Dilts (2008)
Specialization: Technical Communication and Rhetoric
Professor of English
M.A., B.A., Bowling Green State University

William L. Dittmann (2019)
Instructor in Border and Homeland Security
Ph.D., M.A., B.A., Sam Houston State University

Specialization: Vertebrate Ecology and Systematics
Associate Professor of Biology and Chair of the Department of Biology
Ph.D., University of Texas at Austin
B.A., Miami University of Ohio

Erdoğan Doğdu (2019)
Professor of Computer Science and Chair of the Department of Computer Science
Ph.D., M.S., Case Western Reserve University
B.S., Hacettepe University

Robert C. Dowler (1988)
Specialization: Vertebrate Systematics and Mammalogy
Professor of Biology and Mr. and Mrs. Victor P. Tippett Endowed Professorship
Ph.D., Texas A&M University
M.A., Texas Tech University
B.S., The Ohio State University

Brittany S. Draper (2017)
Clinical Instructor in Psychology
Ph.D., Capella University
M.S., B.A., Angelo State University

Allison Dushane (2016)
Specialization: Eighteenth and Nineteenth Century Literature
Associate Professor of English
Ph.D., M.A., Duke University
B.A., University of San Diego

Carla E. Ebeling (2017)
Instructor in Biology
M.S., B.S., Angelo State University

J. Christopher Ellery (1990)
Specialization: Drama, American Literature, Creative Writing
Professor of English
Ph.D., Texas A&M University
M.A., University of Arkansas
B.F.A., Arkansas Tech University

Professor of Music
Ph.D., Texas Tech University
M.M., B.M., Texas State University at San Marcos

Jennifer L. Engle (2017)
Instructor in Curriculum and Instruction
M.A., Angelo State University
M.L.A., Texas Christian University
B.A., University of Texas-Arlington

Shirley M. Eoff (1981)
Specialization: British History
Professor of History and Director of the Honors Program
Ph.D., Texas Tech University
M.A., Hardin Simmons University
B.A., Howard Payne University

Edwar E. Escalante (2019)
Instructor in Economics
M.S., Texas Tech University
B.A., State University of San Antonio Abad, Peru

David A. Faught (2009)
Associate Professor of Spanish
Ph.D., University of California-Irvine
M.A., Brigham Young University
B.A., Angelo State University

Carlos A. Flores, Jr. (2015)
Specialization: Special Education
Assistant Professor of Teacher Education
Ed.D., M.Ed., Texas Tech University
B.S., Angelo State University
Laurel E. Fohn (2013)
Specialization: Pathophysiology, Molecular Genetics, and Developmental Biology
Associate Professor of Biology
Ph.D., M.D., University of Texas Health Science Center at Houston
B.S., Angelo State University

James N. Forbes (1996)
Specialization: Developmental Psychology
Professor of Psychology and Chair of the Department of Psychology and Sociology
Ph.D., M.S., University of Florida
B.A., B.S., University of Washington

Renee Foshee (2018)
Specialization: Tax Accounting
Assistant Professor of Accounting
J.D., Texas Tech University School of Law
L.L.M., Southern Methodist University
M.Acy., Texas State University
L.L.M., Temple University
B.S., Abilene Christian University

Theresa A. Freitag (2017)
Instructor in Public Speaking
M.A., Angelo State University
B.A., University of Texas-Austin

Ashlee R. Fuchs (2011)
Senior Instructor in Mathematics
M.S., Texas Tech University
B.A., Angelo State University

Wrennah L. Gabbert (2014)
Professor of Nursing, Director of the Nursing Program, James A. “Buddy” Davidson Foundation Chair in Nursing Excellence, and Chair of the Department of Nursing
Ph.D., Capella University
M.S.N., B.S.N., University of Texas at Arlington

Samuel C. Gallander (2019)
Clinical Instructor in Social Work and Master of Social Work Program Field Education Director
M.S.W., Texas State University
B.S., Angelo State University

Ellada Gamreklidze (2019)
Assistant Professor of Mass Media and Ram Page Advisor
Ph.D., Louisiana State University
M.A., University of Missouri
B.A., Georgian Technical University-Tbilsi Georgia

Manuel J. Garcia-Ruiz (2018)
Assistant Professor of Mechanical Engineering
Ph.D., University of Sydney-Australia
M.S., B.S., University of Los Andes-Bogota Columbia

Kevin G. Garrison (2009)
Specialization: Technical Communication, Rhetoric
Associate Professor of English
Ph.D., M.A., Texas Tech University
B.A., Angelo State University

Jessica A. Garza (2019)
Instructor in Geology
M.S., University of Hawaii at Manoa
B.S., University of the Incarnate Word

Roberto M. Garza (1988)
Specialization: International Relations, Comparative Politics
Professor of Political Science
Ph.D., M.A., Purdue University
J.D., The George Washington University
B.A., University of Denver

Specialization: Composition, Rhetoric
Associate Professor of English
Ph.D., University of South Carolina
M.A., University of Charleston
B.A., University of West Florida

Donna B. Gee (2008)
Specialization: General Education
Professor of Teacher Education
Ed.D., M.Ed., Texas Tech University
B.S. Ed., Lubbock Christian University

John Glassford (2002)
Professor of Political Science
Ph.D., The Open University, Scotland
M.A., B.A., University of Edinburgh

Gary J. Glover (2016)
Assistant Professor of Aerospace Studies
M.B.A., Texas Tech University
B.A., Angelo State University

Dorothy D. Goddard (2015)
Specialization: Advanced Practice Nursing - Family Primary Care
Assistant Professor of Nursing
D.N.P., University of Texas at Arlington
M.S.N., Texas Tech University Health Sciences Center
B.S.N., A.A.S.N., Angelo State University
Facult y

Cathryn L. Golden (2017)
Specialization: Auditing
Instructor in Accounting
M.P.A.c., B.B.A., Angelo State University

Adrienna R. Gonzalez (2018)
Clinical Instructor in Nursing
M.S.N., B.S.N., Western Governors University
A.A.S.N., San Antonio College

Johns W. Graham III (2019)
Instructor in History
Ph.D., Yale University
M.A., Georgetown University
B.A., Angelo State University

Beverly J. Greenwald (2008)
Specialization: Family Nurse Practitioner
Professor of Nursing
Ph.D., North Dakota State University
M.S.N., Georgia College
B.A., Jamestown College

Michael T. Griffin (1990)
Senior Instructor in Biology
M.S., B.S., Angelo State University

Matthew J. Gritter (2012)
Specialization: Public Policy
Associate Professor of Political Science and Chair of the
Department of Political Science and Philosophy
Ph.D., M.A., The New School
B.A., Wheaton College

Teresa E. Hack (2008)
Specialization: Social Psychology
Professor of Psychology
Ph.D., M.S., Purdue University
B.A., Indiana University-Kokomo

Dennis W. Hall (2016)
Specialization: Matroid Theory
Assistant Professor of Mathematics
Ph.D., M.S., Louisiana State University and A&M College
B.S., University of Monetvallo

Ralph R. Hall (2004)
Professor of Art
M.F.A., Texas Christian University
B.F.A., Calvin College
B.A., Maharishi International University

Mark L. Hama (2001)
Specialization: Late 19th and 20th Century British Literature
Professor of English
Ph.D., M.A., Tulane University
B.A., University of Texas at Austin

Kinsey O. Hansen (2016)
Specialization: Educational Administration
Assistant Professor of Education
Ed.D., Texas Tech University
M.B.A., University of Phoenix-Tulsa
B.B.A., Texas State University

Dinah J. Harriger (2011)
Associate Professor of Nursing
Ph.D., B.A., Texas A&M University
M.S., Texas Tech University

Mohammad Shafinul Haque (2018)
Assistant Professor of Mechanical Engineering
Ph.D., M.S., University of Texas-El Paso
B.S., Khulna University of Engineering and Technology

Karl J. Havlak (2000)
Specialization: Mathematical Modeling
Professor of Mathematics and Chair of the
Department of Mathematics
Ph.D., M.S., Texas Tech University
B.S., Angelo State University

Connie A. Heimann (1999)
Specialization: Behavioral Ecology, Science Education
Professor of Biology
Ph.D., Oklahoma State University
M.S.E., B.S.E., Henderson State University

Kenneth J. Heineman (2009)
Specialization: 19th and 20th Century U.S. Political and Social
History, Immigration, Foreign Policy, Industrialization
Professor of Security Studies
Ph.D., M.A., University of Pittsburgh
B.A., Michigan State University

Christopher A. Hernandez (2017)
Instructor in Security Studies
M.A., Angelo State University
B.A., Park University

Audrey B. Heron (2015)
Specialization: Educational Psychology
Assistant Professor of Curriculum and Instruction
Ph.D., Texas Tech University
M.Ed., B.A., Angelo State University
Larrimore W. Hettick (2017)
Specialization: Industry Analysis
Instructor in Management
M.A., St. Mary’s College of California
B.A., Pepperdine University

Randolph D. Hicks II (1987)
Associate Professor of Criminal Justice
Ph.D., University of Southern Mississippi
M.A., B.S., California State University at Fresno

Michael C. Holcomb (2019)
Assistant Professor of Physics
Ph.D., M.S., Texas Tech University
B.A., Austin College

Eddie F. Holik III (2014)
Assistant Professor of Physics
Ph.D., M.S., Texas A&M University
B.S., Angelo State University

Autumn M. Hoover (1999)
Senior Instructor in Mathematics
M.S., B.A., Angelo State University

Herman O. Howard (2016)
Specialization: Sports Broadcasting
Professor of Communication and Chair of the Department of Communication and Mass Media
Ph.D., Regent University
M.A., Central Michigan University
B.S., Indiana State University

Biqing Huang (2009)
Specialization: Corporate Finance
Associate Professor of Finance
Ph.D., The University of Texas at San Antonio
M.A., Kansas State University
B.S., Zhongshan University

Han-Hung F. Huang (2012)
Specialization: Rehabilitation Science, Research
Associate Professor of Physical Therapy
Ph.D., University of Kansas Medical Center
B.S., Chung Shan Medical University, Taiwan

Jun Huang (2017)
Specialization: International Business, Data Analytics
Assistant Professor of International Business
Ph.D., Texas A&M International University
M.S., Oxford Brookes University
B.S., Guangdong University of Technology

Specialization: Applied Mathematics
Professor of Mathematics
Ph.D., M.A., University of California-Los Angeles
B.S., University of Texas at Austin

Teresa L. Huckaby (2015)
Specialization: Orthopedics
Assistant Clinical Professor of Physical Therapy and Academic Coordinator of Clinical Education
D.P.T., Temple University
M.P.T., B.S., Angelo State University

Mellisa N. Huffman (2015)
Specialization: Rhetoric and Composition
Assistant Professor of English and Coordinator of 1st Year Writing
Ph.D., University of New Mexico
M.A., B.A., Angelo State University

Travis W. Humphrey (2017)
Instructor in Mathematics and Coordinator of Developmental Mathematics
M.A., Western Governor’s University
M.A., University of Phoenix
B.A., Sul Ross University

You-jou Hung (2009)
Specialization: Motor Control, Therapeutic Exercise, Research
Associate Professor of Physical Therapy
Ph.D., University of Iowa
M.S., University of North Carolina at Chapel Hill
B.S., Chung Shan Medical University

Bruce A. Hunt Jr. (2016)
Assistant Professor of Political Science
Ph.D., M.A., University of Houston
B.A., Bridgewater State University

Specialization: Applied Economics, Economic Development and Growth
Professor of Economics and Norris Family Chair in Business
Ph.D., Utah State University
M.B.A., University of New Haven
B.S., Yarmouk University

John E. Irish (1999)
Professor of Music
D.M.A., University of Cincinnati
M.M., B.M., University of Texas at San Antonio
Faculty

Roger M. Jackson (2012)
Specialization: Sixteenth and Seventeenth Century English Literature
Associate Professor of English
Ph.D., University of North Carolina at Chapel Hill
M.A., St. John’s College
B.A., Brown University

Mark E. Jarmon (2017)
Instructor in Intelligence and Analysis
M.S.S., B.S.S., Angelo State University

Codi B. Jaynes (2017)
Instructor in Mathematics
M.A., B.S., Angelo State University

Avis F. Johnson-Smith (2010)
Specialization: Family Nurse Practitioner and Pediatric Nurse Practitioner Studies
Professor of Nursing
D.N.P., University of Minnesota
M.S.N., Troy University
B.S.N., Valdosta State University

Ashley Jones (2017)
Clinical Instructor in Nursing
M.S.N., B.S.N., Excelsior College
A.D.N., Covenant School of Nursing

Clifton T. Jones (2015)
Professor of Economics and Dean, Norris-Vincent College of Business
Ph.D., Texas A&M University
B.A., University of Texas-Austin

Nan K. Jones (2010)
Senior Instructor in English and Coordinator of Developmental English
Ed.D., Hardin-Simmons University
M.A., Angelo State University
B.A., University of Texas at Austin

Chelsea D. Kading (2019)
Clinical Instructor in Social Work
M.S.W., Texas State University
B.A., Angelo State University

Raj Kamalapur (2015)
Specialization: Operations Management
Associate Professor of Management
Ph.D., M.S., M.S., Western Michigan University
B.Eng., Gulbarga University

Sahit M. Kara (2000)
Specialization: Financial, Managerial, and Labor Economics
Professor of Economics and Johnny Fender Fellowship in Community Economic Development
Ph.D., M.A., Texas Tech University
M.S., Georgia State University
B.A., Karadeniz Tech University

Susan E. Keith (1997)
Specialization: Health Education, Kinesiology
Professor of Kinesiology
Ph.D., Texas Woman’s University
M.S.Ed., Baylor University
B.S., University of Central Oklahoma

John D. Kellermeier (2016)
Specialization: Meat Science and Muscle Biology
Assistant Professor of Animal Science
Ph.D., B.S., Texas Tech University
M.S., Angelo State University

Tamra K. Kelly (2019)
Instructor in Curriculum and Instruction
M.A., B.A., Angelo State University

Steven T. Keniston (2015)
Instructor in Piano
D.M.A., University of Texas at Austin
M.M., Baylor University
B.A., College of Charleston

Steven W. King (2012)
Senior Instructor in Chemistry
Ph.D., University of North Carolina at Chapel Hill
B.A., Elon University

Professor of Civil Engineering and Chair of the David L. Hirschfeld Department of Engineering
Ph.D., University of Texas at Austin
M.S.C.E., B.S.C.E., University of Illinois

John E. Klingemann (2007)
Specialization: 19th and 20th Century Mexico, Latin America, U.S.-Mexico Borderlands, Political and Social History
Professor of History and Dean, College of Arts and Humanities
Ph.D., University of Arizona
M.A., B.A., Sul Ross State University

Paula C. Koca (2007)
Senior Instructor in Mathematics
M.S., Nicholls State University
B.A., Angelo State University
Elizabeth C. Koeman-Shields (2019)  
Assistant Professor of Geosciences  
Ph.D., University of Notre Dame  
B.S., Grand Valley State University

Linda A. Kornasky (1996)  
Specialization: American Literature  
Professor of English  
Ph.D., Tulane University  
M.A., B.S., University of Rhode Island

Crystal M. Kreitler (2011)  
Specialization: Cognitive Psychology  
Associate Professor of Psychology  
Ph.D., M.S., Texas Christian University  
M.S., B.A., Angelo State University

Greg Krukonis (2017)  
Specialization: Ecology, Evolution, and Genetics of Viruses  
Assistant Professor of Biology  
Ph.D., University of Arizona  
B.A., University of Pennsylvania

Robert A. La Flamme (2016)  
Specialization: Critical Analysis  
Instructor in Intelligence, Security Studies, and Analysis  
M.S., National Intelligence University  
B.A., University of San Diego

Christine M. Lamberson (2012)  
Specialization: U.S. Political, Policy, and Social History  
Associate Professor of History  
Ph.D., University of Wisconsin-Madison  
A.B., Washington University in St. Louis

Kevin J. Lambert (2005)  
Professor of Music and Interim Director of Choral Activities  
D.M.A., University of Colorado, Boulder  
M.M., California State University, Fullerton  
B.M.E., Northern Arizona University

Jong Hwa Lee (2017)  
Specialization: Contemporary Rhetoric  
Assistant Professor of Communication  
Ph.D., Ohio University  
M.A., San Jose State University  
B.A., Keimyung University, South Korea

Won-Jae Lee (2005)  
Specialization: Statistics and Research Methods, Criminal Justice Administration  
Professor of Criminal Justice and Executive Director (Asian Relations) to the Provost and Vice President for Academic Affairs  
Ph.D., Sam Houston State University  
B.A., Dong-Guk University

Associate Professor of Computer Science  
Ph.D., Washington University, Missouri  
M.C.S., B.S., Texas A&M University

Heather L. Lehto (2012)  
Associate Professor of Geology  
Ph.D., M.S., University of South Florida  
B.S., University of California-Santa Barbara

Stephen L. P. Lippi (2018)  
Specialization: Behavioral Neuroscience  
Assistant Professor of Psychology  
Ph.D., M.A., B.S., George Mason University

Kimberly K. Livengood (2007)  
Specialization: Multicultural Education  
Professor of Curriculum and Instruction and Chair of the Department of Curriculum and Instruction  
Ph.D., Texas A&M, College Station  
M.S., Texas A&M, Corpus Christi  
B.S., Texas Tech University

Nicole M. Lozano (2017)  
Specialization: Relationships and Gender  
Assistant Professor of Psychology  
Ph.D., M.A., University of Nebraska-Lincoln  
B.S., Sam Houston State University

Sarah B. Lynch (2016)  
Assistant Professor of History  
Ph.D., University of Leeds  
M.Phil., Trinity College-Dublin  
B.A., University College-Dublin

Kristen N. Lyons (2015)  
Assistant Professor of Curriculum and Instruction  
Ph.D., Texas Tech University  
M.Ed., B.S., Angelo State University

Flor L. Madero (2012)  
Specialization: Interpersonal Communication  
Associate Professor of Communication  
Ph.D., University of Texas at Austin  
M.A., B.A., Angelo State University

Vincent P. Mangano (2012)  
Senior Instructor in Accounting  
M.B.A., Angelo State University  
B.S., New Hampshire College

Leah B. Mangrum (2009)  
Specialization: Documentary Film and Learning Technologies  
Associate Professor of Communication  
M.F.A., B.A., B.A., University of North Texas
Faculty

Eduardo V. Martinez (2014)
Specialization: U.S. Intelligence and Global Security Challenges
Instructor in Intelligence, Security Studies, and Analysis
J.D., Mississippi College
M.S.S.T., U.S. Army War College
M.A., Antioch University
B.A., University of Texas-Austin

Specialization: Neuroscience, Motor Control
Professor of Physical Therapy
Ph.D., B.S., Northwestern University
M.M.S.C., Emory University

Janet L. Maxwell (2001)
Professor of Chemistry
Ph.D., University of South Carolina
B.S., University of Oklahoma

Brian J. May (1994)
Specialization: Animal Nutrition
Professor of Animal Science, Research Scientist at
Management, Instruction, and Research Center, and
President of the University
Ph.D., Texas A&M University
M.S., B.S., Angelo State University

Leslie M. Mayrand (1998)
Specialization: Maternal-Child Health
Professor of Nursing and Dean, Archer College of Health and
Human Services
Ph.D., University of Texas at Austin
M.S.N., University of Texas Health Science Center-San Antonio
B.S.N., B.A., Incarnate Word College

D. Rozena McCabe (2016)
Associate Professor of Kinesiology
Ph.D., Texas Woman’s University
M.Ed., Stephen F. Austin State University
B.S., Trinity University

Patsy L. McCall (2015)
Clinical Instructor in Psychology
M.S., B.S., Angelo State University

Lauren M. McCormick (2013)
Clinical Instructor in Nursing
M.S.N., B.S.N., A.A.S.N., Angelo State University

Melissa R. McDowell (2012)
Specialization: Education
Assistant Professor of Nursing
Ed.D., University of Mary Hardin-Baylor
M.S.N., South University
B.S.N., A.A.S.N., Angelo State University

Cheryl A. McGaughey (1984)
Senior Instructor in Finance
M.B.A., University of Mississippi
B.B.A., Stephen F. Austin State University

Mary E. McGlamery (2015)
Online Instructor in Curriculum and Instruction
Ph.D., M.S., B.S., Texas A&M University-Commerce

Rebekah O. McMillan (2019)
Assistant Professor of History
Ph.D., M.A., University of Arkansas
B.A., Ouachita Baptist University

Ashley A. Meyer (2017)
Instructor in Theatre and Director of University Theatre
M.A., Texas Tech University
B.F.A., Texas State University

Specialization: Instructional Leadership
Assistant Professor of Nursing
Ed.D., University of Alabama
M.S.N., B.S.N., Medical College of Georgia

Katherine T. Miller (2017)
Instructor in English
Ph.D., Florida State University
M.F.A., University of Arizona-Tuscon
M.A., University of Redlands

Sherry A. Miller (2012)
Assistant Clinical Professor of Kinesiology and
Clinical Education Coordinator
M.S., University of North Texas
B.A., Texas Lutheran College
A.A.S., Casper College

Juan P. Montemayor (1985)
Senior Instructor in Mathematics
M.S., Texas A&M University
B.S., Angelo State University

Rex T. Moody (2012)
Specialization: Consumer Behavior and Promotions
Associate Professor of Marketing
Ph.D., University of Colorado-Boulder
M.B.A., University of New Mexico
B.A., Colorado State University

Kelly D. Moore (2013)
Specialization: Wound Care, Acute Care and Administration
Associate Clinical Professor of Physical Therapy
D.P.T., Texas Tech University Health Sciences Center
M.B.A., Angelo State University
B.S., Southwest Texas State University
Kristi L. Moore (2009)
Specialization: Developmental Psychology, Educational Psychology
Associate Professor of Psychology
Ph.D., University of Florida
M.S., B.S., Shippensburg University

Shawn S. Morrow (2014)
Assistant Professor of Criminal Justice
Ph.D., Walden University
M.Ed., University of North Texas
B.A., Angelo State University
A.A.S., Howard College

Mark B. Motl (1990)
Professor of Computer Science
Ph.D., M.C.S., Texas A&M University
B.S., Angelo State University

Elisabeth-Christine Muelsch (1992)
Specialization: Nineteenth-Century French Literature
Professor of French
Ph.D., M.A., Albert Ludwig University, Freiburg

Amy L. Murphy (2016)
Specialization: Higher Education Administration
Assistant Professor of Education
Ph.D., M.Ed., B.A., Texas Tech University

Laurence E. Musgrove (2009)
Specialization: Rhetoric, Composition
Professor of English
Ph.D., M.A., University of Oregon
B.A., Southwestern University

Nicholas J. Negovetich (2011)
Specialization: Parasitology, Ecology
Associate Professor of Biology
Ph.D., M.S., Wake Forest University
B.A., Wabash College

Kendra L. Nicks (2012)
Specialization: Orthopedics, Manual Therapy
Associate Professor of Physical Therapy
Sc.D., Texas Tech University Health Sciences Center
B.S., University of Texas Southwestern Medical Center

Beth T. Niehues (2017)
Senior Instructor in Computer Science
M.S., University of Texas-Dallas
B.S., Angelo State University

Instructor in Political Science
Ph.D., Baylor University
M.A., Southern Methodist University
J.D., Texas Tech University School of Law
B.A., Creighton University

David L. O’Dell (1992)
Senior Instructor in Spanish
M.A., University of Texas at Austin
B.A., University of Arkansas at Little Rock

Alyse K. O’Hara (2018)
Instructor in English
M.A., Angelo State University
B.A., Utica College of Syracuse

Maria De Los Santos Onofre-Madrid (1984)
Assistant Professor of Spanish
M.A., University of Texas at Arlington
B.A., Angelo State University

Edith M. Osborne (2008)
Professor of Chemistry
Ph.D., Texas A&M University
B.S., Southwestern Oklahoma State University

Vincent P. Osmanski (1991)
Assistant Clinical Professor of Nursing
M.S.N., University of Texas Health Science at San Antonio
B.S.N., Angelo State University

Corey J. Owens (2008)
Specialization: Grazing Management and Livestock Production Systems
Senior Instructor in Animal Science and Research Associate at Management, Instruction, and Research Center
M.S., B.S., Angelo State University

Adam G. Parker (2010)
Specialization: Sport Nutrition, Strength and Conditioning
Associate Professor of Kinesiology
Ph.D., Baylor University
M.S., B.S., Texas A&M University

Sandra K. Pate (2011)
Specialization: Organizational Theory and Policy
Associate Professor of Management
Ph.D., University of North Texas
M.B.A., B.S., University of Nebraska

Simon Pfeil (2018)
Assistant Professor of Mathematics
Ph.D., M.S., Louisiana State University
B.S., Southeastern Louisiana University
Faculty

Charles A. Pier (2009)  
_specialization: Income Tax  
Associate Professor of Accounting and Chair of the  
Department of Accounting, Economics, and Finance  
Ph.D., University of Texas-Arlington  
M.S., University of Rhode Island  
M.B.A., Florida Institute of Technology  
B.S., University of the State of New York

Jason E. Pierce (2009)  
_specialization: American West, Native West, American  
Environmental History, Race and Identity and Public History  
Associate Professor of History and Chair of the  
Department of History  
Ph.D., University of Arkansas  
M.A., Portland State University  
B.A., For Lewis College

Aldo R. Piñón-Villarreal (2017)  
Assistant Professor of Civil Engineering  
Ph.D., M.A., New Mexico State University  
B.S., Autonomous University of CD Juarez, Mexico

Donald Plachno (2015)  
Instructor in Communication and Director of Ram TV  
M.A., B.A., Angelo State University

Constance L. Plocinski (2009)  
Associate Professor of Music  
D.M.A., University of Nebraska-Lincoln  
M.M., Louisiana State University and A&M College  
B.S., Southwest Missouri State University

Charles J. Plott (2009)  
_specialization: Pedagogy  
Instructor in Kinesiology  
M.A.T., Angelo State University  
B.S., Auburn University

Michael S. Powers (2019)  
Instructor in History  
Ph.D., University of Arkansas  
M.A., Clemson University  
B.A., University of Florida

Kathleen M. Price (1991)  
_specialization: Exercise Physiology, Biomechanics  
Professor of Kinesiology  
Ph.D., Texas Woman’s University  
M.S., B.S., Baylor University

Jennifer C. Price-Fierro (2018)  
Clinical Instructor in Nursing  
M.S.N., B.S.N., A.A.S.N., Angelo State University

Chelsea D. Procter-Willman (2019)  
Clinical Instructor in Health Science Professions  
M.S., Ohio University  
B.S., Angelo State University

Marcie E. Puckitt (2016)  
Instructor in English and Coordinator of the Writing Center  
M.A., B.A., Angelo State University

Robert M. Pullin (2012)  
_specialization: Criminal Justice  
Associate Professor of Border Security  
Ph.D., M.S., Sam Houston State University  
B.S., University of Houston-Victoria

Christine L. Purkiss (2009)  
_specialization: General Education  
Professor of Teacher Education  
Ed.D., M.Ed., Texas Tech University  
B.S. McMurry College

Professor of Music  
D.M.A., University of Southern California  
M.M., Florida State University  
B.M., Columbus State University

Saravanan Ramasamy (2017)  
Assistant Professor of Organic Chemistry  
Ph.D., University of Oklahoma  
M.A., B.S., Bharathiar University

Gayle L. Randall (2014)  
Senior Instructor in Management and Marketing  
M.B.A., B.B.A., Angelo State University

Daniel J. Reisner (2019)  
Assistant Professor of Aerospace Studies and Chair of the  
Department of Aerospace Studies  
M.A., American Public University  
B.A., Iowa State University

Donna Rich (2011)  
_specialization: Advanced Practice Nursing - Family Primary Care  
Assistant Clinical Professor of Nursing  
D.N.P., Texas Christian University  
M.S.N., Angelo State University  
B.S.N., Texas Tech University Health Sciences Center  
A.A.S.N., Odessa College

Rigel K. Rilling (2012)  
Instructor in Chemistry  
M.S., Angelo State University  
B.S., University of Dallas
Fagner M. Rocha (2017)
Assistant Professor of Music and Director of Orchestra
D.M.A., M.M., Texas Tech University
B.M., Universidade Federal do Rio Grande do Sul

Leslie Y. Rodriguez (2011)
Specialization: Organizational Communication
Assistant Professor of Communication
Ph.D., University of Southern Mississippi
M.A., B.A., Angelo State University

Lopamudra Roychoudhuri (2012)
Associate Professor of Computer Science
Ph.D., DePaul University
M.Tech., Indian Statistical Institute
M.S., B.S., University of Calcutta

Chase A. Runyan (2013)
Specialization: Beef Cattle Production
Associate Professor of Animal Science, Director of the
Management, Instruction, and Research Center, Research
Scientist at MIR, and Chair of the Department of Agriculture
Ph.D., M.S., Texas A&M University
B.S., Oklahoma State University

Ingrid A. Russo (2012)
Assistant Clinical Professor of Social Work and
Field Education Director for the B.S.W. Program
M.S.W., Fordham University
B.A., College of Mount Saint Vincent

Senior Instructor in English
M.A., B.A., Angelo State University

Micheal W. Salisbury (2001)
Specialization: Animal Reproductive Physiology
Professor of Animal Science, and Dean, College of Graduate Studies and Research
Ph.D., New Mexico State University
M.S., B.S., Angelo State University

Brenda Sanchez (2017)
Clinical Instructor in Nursing
M.S.N., B.S.N., A.D.N., Angelo State University

Professor of Geology
Ph.D., B.A., Rice University
M.A., University of Missouri-Columbia

Anne M. Scaggs (2016)
Assistant Clinical Professor in Social Work
Ed.D., Walden University
M.S.W., University of Texas
B.S.W., University of North Texas

Kraig L. Schell (2000)
Specialization: Industrial-Organizational Psychology
Professor of Psychology and Director of Assessment
Ph.D., University of Cincinnati
M.A., University of Central Oklahoma
B.S., Oklahoma Christian University

April E. Schmidt (2013)
Senior Instructor in Spanish
Ph.D., University at Albany, State University of New York
M.A., Florida State University
B.A., Keene State College

Heather M. Schoen (2017)
Instructor in Curriculum and Instruction
M.A., Angelo State University
B.S., Abilene Christian University

Cody B. Scott (1995)
Specialization: Grazing Management, Animal Behavior
Professor of Animal Science and Research Scientist at the
Management, Instruction, and Research Center
Ph.D., Utah State University
M.S., B.S., Angelo State University

Senior Instructor in English
M.A., B.A., Angelo State University

Senior Instructor in Management
M.B.A., University of Texas at Austin
B.B.A., Angelo State University

Raelye N. Self (2015)
Specialization: Educational Administration
Assistant Professor of Educational Administration
Ed.D., Texas Tech University
M.Ed., M.S., B.S., Angelo State University

Olalekan Seriki (2016)
Specialization: Marketing Strategy
Assistant Professor of Marketing
Ph.D., University of Oklahoma
M.B.A., University of North Carolina at Chapel Hill
B.S., Lagos State University

Gabriela I. Serrano (2007)
Specialization: 19th Century American Literature
Associate Professor of English
Ph.D., M.A., The University of North Texas
B.A., University of Texas at El Paso
Faculty

Christopher M. Shar (2018)
Assistant Professor of Social Work and Director of the Master of Social Work Program
Ph.D., The Catholic University of America
M.S.W., Widener University
B.A., Shippensburg University of Pennsylvania

Juehui Shi (2019)
Assistant Professor of Management
Ph.D., The University at Buffalo
M.B.A., Montclair State University
B.S., Elmira College

Stephen A. Shields (2019)
Instructor in Geology
M.S., Missouri State University
B.S., Grand Valley State University

Matthew T. Shipes (2017)
Assistant Professor of Music
D.M.A., University of Georgia
M.M., University of Arkansas
B.M., Baylor University

Regina B. Shipley (2015)
Assistant Professor of Curriculum and Instruction
Ed.D., Hardin-Simmons University
M.Ed., Angelo State University
B.B.A., University of Texas at San Antonio

Jennifer L. Shoemake (2017)
Clinical Instructor in Sociology
M.S., Texas Tech University
B.S., Midwestern State University
A.A., Western Texas College

Trent W. Shuey (2015)
Instructor in Percussion and Assistant Director of Bands
M.M., University of Nevada-Reno
B.M., Eastern Oregon University
A.A., Blue Mountain Community College

Andrew J. Siefker (2004)
Specialization: Applied Mathematics and Analysis
Associate Professor of Mathematics
Ph.D., Arizona State University
M.S., B.E.E., Georgia Institute of Technology

Shirley J. Simpson (2017)
Assistant Clinical Professor of Sociology
Ph.D., M.A, Purdue University
B.A., California State University-Stanislaus
A.A., Napa Valley College

Specialization: Sport Psychology, Athletic Administration
Professor of Kinesiology
Ed.D., Texas A&M University
M.Ed., Kutztown University
B.A., Fairfield University

Sangeeta Singg (1981)
Specialization: Counseling Psychology
Professor of Psychology
Ph.D., M.S., East Texas State University at Commerce
M.A., Mississippi State University
B.A., Punjab University

Satvir Singh (2017)
Specialization: Organizational Behavior and Human Resources
Assistant Professor of Management
Ph.D., University of Texas-El Paso
M.B.A., Willamette University
B.A.LL.B, B.A., Punjabi University

Ben R. Skipper (2014)
Specialization: Ornithology, Ecology, Geographic Information Systems
Assistant Professor of Biology
Ph.D., Texas Tech University
M.S., University of Nebraska
B.S., Auburn University

Gregory J. Smith (2013)
Associate Professor of Chemistry
Ph.D., University of Kansas
B.S., Texas A&M University-Corpus Christi

John C. Smith III (1994)
Specialization: Logic and Foundations
Professor of Mathematics
Ph.D., University of North Texas
M.S., B.S., Angelo State University

June H. Smith (1991)
Specialization: Interpersonal and Organizational Communication
Professor of Communication
Ph.D., University of Texas at Austin
M.A., Texas Tech University
B.A., Angelo State University

Veronica Snow (2014)
Specialization: Athletic Administration and Coaching
Assistant Professor of Kinesiology
Ed.D., United States Sports Academy
M.Ed., B.Ed., Hardin-Simmons University
A.A., Yavapai College
Steven R. Snowden (2005)
Specialization: Kinesiology
Associate Professor of Kinesiology and Chair of the
Department of Kinesiology
Ph.D., B.S., Texas A&M University
M.S., Sam Houston State University

Marva J. Solomon (2010)
Specialization: Reading
Associate Professor of Teacher Education
Ph.D., M.A., University of Texas at Austin
B.A., Texas Tech University

Jeremy P. St. John (2018)
Assistant Professor of Management
Ph.D., M.S., B.B.A., University of North Texas

Tammy K. Stafford (2018)
Assistant Clinical Professor of Nursing
D.N.P., Texas Tech University Health Science Center
M.B.A., M.S.N., University of Phoenix
B.S.N., West Texas A&M-Canyon

Thomas W. Starkey, Jr. (2009)
Associate Professor of Social Work and Chair of the
Department of Social Work
Ph.D., University of North Texas
M.S.S.W., University of Texas at Arlington
B.S.W., Texas A&M University-Commerce

Cheryl K. Stenmark (2010)
Specialization: Industrial-Organizational Psychology
Associate Professor of Psychology
Ph.D., M.S., University of Oklahoma
B.S., Tarleton State University

Christopher D. Stewart (2015)
Associate Professor of Art and Chair of the Department of
Visual and Performing Arts
M.F.A., University of Nebraska
B.F.A., Texas Tech University

Devon A. Stewart (2016)
Assistant Professor of Art History
Ph.D., M.A., Emory University
B.S., Missouri State University

Ned E. Streth (1978)
Specialization: Invertebrate Zoology
Professor of Biology
Ph.D., Texas A&M University
M.A., Southwest Texas State University
B.A., University of Texas at Austin

Elaine L. Stribling (2018)
Instructor in Teacher Education
Ph.D., Texas Tech University
M.Ed., Angelo State University
B.S., Texas A&M University

Benedict C. Sum (2005)
Professor of Art
M.F.A., B.A., Texas Tech University

Professor of Mathematics and Dean, College of Science and Engineering
Ph.D., B.S., University of Texas at Austin

Twyla J. Tasker (2015)
Specialization: Curriculum Design
Assistant Professor of Curriculum and Instruction
Ph.D., Texas Tech University
M.Ed., Tarleton State University
B.A., Baylor University

Jesse L. Taylor (2014)
Specialization: Matroid Theory
Assistant Professor of Mathematics
Ph.D., Louisiana State University
M.S., Louisiana State University and A&M College
B.S., Middle Tennessee State University

William A. Taylor (2011)
Specialization: Security Studies, Military History, Strategic
Thought, Defense Policy
Associate Professor of Security Studies
Ph.D., M. Phil., George Washington University
M.A., Georgetown University
M.A., University of Maryland-College Park
B.S., United States Naval Academy

Andrew A. Tiger (2018)
Associate Professor of Management and Chair of the
Department of Management and Marketing
Ph.D., University of Houston
M.S., B.S., University of Oklahoma

Mark L. Tizzoni (2017)
Instructor in History
Ph.D., M.A., University of Leeds
B.A., University of Scranton

Sharynn M. Tomlin (1987)
Specialization: Organizational Theory and Strategic Policy,
International Business
Professor of Management, M.B.A. Director, and
Associate Dean, Norris-Vincent College of Business
Ph.D., University of North Texas
M.B.A., B.B.A., Angelo State University

268 Angelo State University Undergraduate Catalog 2019-2020
Andrew P. Wright (2013)
Specialization: Water Use and Policy, Natural Resource Policy
Associate Professor of Agricultural Economics
Ph.D., M.A., M.P.A., Texas Tech University
B.A., Truman State University

Jun Wu (2018)
Specialization: Gangs
Assistant Professor of Criminal Justice
Ph.D., M.A., Sam Houston University
B.A., Zhejiang Police College-China

Ralph A. Zehnder (2013)
Associate Professor of Chemistry
Ph.D., M.S., University of Siegen, Germany

Audrey G. Zoeller (2018)
Specialization: Livestock Reproduction and Nutrition
Instructor in Agriculture
M.S., Angelo State University
B.S., Oklahoma State University

President Emeritus

E. James Hindman
President Emeritus
Appointed 1995, Emeritus since 2007

Emeritus Faculty

Nancy G. Allen
Distinguished Professor of English Emerita
Appointed 1984, Emerita since 2018

Johnny M. Bailey
Distinguished Professor of Mathematics Emeritus
Appointed 1968, Emeritus since 2006

D. Harris Brinson
Director of Bands Emeritus
Appointed 1974, Emeritus since 1997

H. Ray Dawson
Distinguished Professor of Physics Emeritus
Appointed 1966, Emeritus since 2003

Arnoldo De León
Distinguished Professor of History Emeritus
Appointed 1973, Emeritus since 2015

William Doll
Distinguished Professor of Theatre Emeritus
Appointed 1999, Emeritus since 2018

Edgar N. Drake
Distinguished Professor of Chemistry Emeritus
Appointed 1965, Emeritus since 1999

Gloria A. Duarte
Professor of English Emerita
Appointed 1977, Emerita since 2010

Jack C. Eli
Distinguished Professor of Communication Emeritus
Appointed 1971, Emeritus since 2004

Charles A. Endress
Distinguished Professor of History Emeritus
Appointed 1969, Emeritus since 2010

Gilbert R. Engdahl
Distinguished Professor of Animal Science Emeritus
Appointed 1976, Emeritus since 2014

Mary Ellen Hartje
Distinguished Professor of English Emerita
Appointed 1993, Emerita since 2018

Bill J. Henderson
Distinguished Professor of Government Emeritus
Appointed 1966, Emeritus since 2000

E. James Holland
Distinguished Professor of Government Emeritus
Appointed 1967, Emeritus since 2003

G. Leon Holland
Professor of Agriculture Emeritus
Appointed 1969, Emeritus since 2000

David G. Loyd, Jr.
Distinguished Professor of Physics Emeritus
Appointed 1969, Emeritus since 2008

Terry C. Maxwell
Distinguished Professor of Biology Emeritus
Appointed 1976, Emeritus since 2014

C. Varren Parker, Jr.
Professor of Physics Emeritus
Appointed 1969, Emeritus since 2005

Robert V. Prestiano
Professor of Art Emeritus
Appointed 1973, Emeritus since 2008

Troy D. Reeves
Professor of English Emeritus
Appointed 1969, Emeritus since 2003

Donald R. Shelby
Professor of Agriculture Emeritus
Appointed 1973, Emeritus since 2000

Mark Sonntag
Distinguished Professor of Physics Emeritus
Appointed 1985, Emeritus since 2018

Otto W. Tetzlaff
Distinguished Professor of German Emeritus
Appointed 1968, Emeritus since 1999

H. Dempsey Watkins
Distinguished Professor of History Emeritus
Appointed 1966, Emeritus since 1997

Bill D. Watts
Professor of Drama Emeritus
Appointed 1969, Emeritus since 1999
