General Physics II Lab
PHYS·1402 Lab
2019 Spring

Description
Required laboratory experiences to supplement Physics 1402. Concurrent enrollment in lecture required.

Time and Location
Time: T and R 14:00–16:50
Place: B124

Instructor Information
Chris Murrell B124
cmurrell@burnetcisd.net

Student Learning Outcomes
These are explained in the syllabus for the lecture portion of this course.

Course Materials
• Physics 1402 Laboratory Manual, 2016
• scientific calculator with one-variable statistics (average and standard deviation)

Attendance Policy
Attendance will be taken at each lab. There are no makeups for labs. In exceptional circumstances, if you know ahead of time that you will not be in town due to a university obligation, you may be able to attend another lab section. You must contact the instructor at least three days ahead of time to discuss this.

Classroom Conduct
Mobile phones and music players must be turned off at all times. Note that this means that you cannot use a mobile phone as your calculator. Use of any electronic device other than your calculator during an exam is not allowed.

Each student must bring his/her own lab manual to class. Additional copies are not available.
Food, candy, gum, drinks, or tobacco are not allowed in the laboratory at any time.

Assessment
You are responsible for studying each lab prior to the lab meeting and completing the pre-lab assignment. Unless otherwise stated, pre-lab assignments must be turned in before lab starts. Late pre-labs are not accepted. If you arrive at lab a few minutes late, immediately turn your prelab in to the instructor.
Each lab report is to be completed and handed in at the end of the lab period including all data, calculations, and answers to questions.
Pre-labs count for 25% of each lab score, lab reports count for 75% of each lab score. Your lowest lab score (prelab plus report) will be dropped before calculating your average lab score.

Accommodations
Persons with disabilities which may warrant academic accommodations must contact the Councilors Office in order to request and to implement academic accommodations.

Honor Code
Angelo State University expects its students to maintain complete honesty and integrity in their academic pursuits. Students are responsible for understanding the Academic Honor Code, which is contained in both print and web versions of the Student Handbook.
