PSY 6340 SPORT PSYCHOLOGY (SPRING 2019)

Instructor: William Davidson, PhD
Phone: 325-227-1016
E-mail: Bill.Davidson@angelo.edu
Virtual Office Hours (online): M-F 1:00 – 3:00 PM

COURSE OVERVIEW AND INTRODUCTION

Purpose. The purpose of this course is to introduce students to the mental aspects of playing individual and team sports. The psychological processes that guide athletes’ performance are considered in conjunction with the physical skills.

Structure. This is an ONLINE course. All tests and assignments can be completed from remote sites. The Blackboard software system houses all aspects of the course. The course begins on Monday, March 18, and ends on Friday, May 10 at noon (eight weeks). Please take a look at the course folders. The main ones are Syllabus, Schedule of Due Dates, Discussions, Application Project, Application Exercises, Tests, Learning Modules, and MyGrades.

If you have questions at any time during the course, please ask them by going to the Discussions folder - click on Questions forum, then Create Thread, write something in the Subject box that indicates what your question is about, and then ask it. This way, you and other students can access my answer. I will check this forum daily.

Etiquette Expectations. The course provides students with the opportunity to practice writing helpful messages to classmates, similar to what they may encounter later in corresponding with coworkers in the workplace. It is essential to write in a courteous and respectful style.

Technical Support. The ASU Helpdesk (325 942-2911) provides students with technical assistance at all hours of the day or night. It is staffed by local technicians M-F 7:00 AM until 6:00 PM; other times it is staffed by non-local technicians.

COURSE OBJECTIVES

● Gain factual knowledge

● Learn about fundamental theories and research

● Learn to apply the course material

STUDENT LEARNING OUTCOMES

Student will:

● Gather, analyze, evaluate, and synthesize information about sport psychology;
• Develop, interpret, and express psychological ideas through written communication;

• Analyze numerical data and arrive at informed conclusions.

TEXTBOOK

GRADE CRITERIA

The course grade will be based on the number of points earned out of a possible 1000. The cutoffs for determining a letter grade will follow the traditional standard of 90% (A), 80% (B), and 70% (C).

• Six tests & one quiz. There are six tests worth 90 points apiece. The tests are composed of 30 objective questions, and there is a time limit of 45 minutes (important point: the test will automatically submit itself at the beginning of the 45th minute unless you have submitted it earlier). You can take each test THREE times, and each retake will have a different set of questions (but with some overlap from the previous version). The Grade Center will retain the highest score.

The quiz covers the assigned research article on perfectionism. It is worth 45 points and is composed of 15 objective (true-false) questions. There is a time limit of 20 minutes ((important point: the test will automatically submit itself at the beginning of the 20th minute unless you have submitted it earlier). You can take it THREE times, and each retake will have a different set of questions (but with some overlap from the previous version). The Grade Center will retain the highest score. Note – the quiz questions are derived from the research article’s “learning objectives” presented in the Learning Module folder.

All of the weekly tests and the quiz are available in the Tests folder, beginning on the first class day. The fact that they are all posted at the beginning of the course allows you to “work ahead” if you want and take them earlier than the week they are due (this feature provides an accommodation to students who know they must be away from this course during certain periods of time). The due dates/times are on Tuesdays at 9:00 AM CST in successive weeks, beginning on Tuesday of the second week of the course.

CRUCIAL INSTRUCTIONS FOR TAKING TESTS AND THE QUIZ

The tests are delivered with software called Respondus Lockdown Browser (RLB). This software is already loaded in computer labs on campus, but if you want to take tests from other locations, you will need to download the software onto the computer where you take the test (click on the Support tab on the Blackboard homepage to access the link).

To take a test, click on the RLB icon on the desktop and it will take you into Blackboard. Then,
click on this course; then click on the Tests folder; then click on the test you are to take. You will be asked if the instructor provided a "Password"; answer "No". If you have entered Blackboard properly by accessing it through the RLB icon, the password for the test will be entered automatically on your behalf and you can start the test. If you try to take a test without going through the RLB, you will be asked to provide a test password that you don't have, so you cannot take the test.

There is a university requirement that online tests must utilize a video recording system. Below are the instructions.

Testing via Respondus™ Monitor

Access to tests will be through Respondus™ Lockdown Browser and will be video recorded via Respondus™ Monitor [See Other Required Materials for a list of needed equipment]. Use of another electronic device is prohibited.

There are two practice quizzes: a) one is a Webcam test and b) a short 10 question practice quiz over ASU trivia that is not graded. These tools will be available to the student to assure accessibility. Students are highly encouraged to go through these practice quizzes in advance of taking a graded test. This process will allow you to become familiar with the technology associated with testing and improve the testing environment. These quizzes, instructional videos, and more information regarding Respondus Monitor can be found under the Respondus Monitor Help tab in your Blackboard course.

OTHER REQUIRED MATERIALS

- Computer with MAC or Windows Operating System
- High Speed Internet Access
- Ethernet adapter cable recommended (wireless connections can drop during tests and Collaborate sessions)
- Webcam

Refer to Angelo State University's Distance Education website for further technology requirements:
http://www.angelo.edu/online-education/technology_requirements.php

GRADE CRITERIA (CONTINUED)

● Discussions. There are three discussion forums that are worth 45 points apiece. They give you an opportunity to read what other students think about selected issues and how they can be applied to the solution of problems faced by professionals. See the instructions in the Discussion folder.

● Application Exercises. There are four application exercises that are worth 45 points apiece. They are intended to give you practice at using psychology to solve problems that sport participants face and to prepare you for the Application project.

● Application Project. This project requires you to integrate material from different areas of
psychology and apply it to solving problems people face in sports. It is worth 75 points. The instructions and the link to submit it are in the Application Project folder. It is desirable to work on this project weekly, as you come across relevant material in the weekly assignments.

●Punctuality. The online course format requires you to exercise a lot of self-discipline. The timely completion of tests, application exercises, and discussions is very important, because something is due every week. To encourage and reward your consistent progress on mastering course material, you begin the course with 25 “punctuality” points. If none of the assignments are submitted on a due date, then 5 points will be deducted.

Permissible Resources in Completing Assessments. Students should work alone when completing all of the assessments in the course (exams, application exercises, discussion forums, application project). However, the use of the textbook and class notes is permissible.

FEEDBACK ABOUT PERFORMANCE. To get additional feedback about your performance on particular assignments, open the MyGrades page and click on the name of the assignment in the Graded section (note: if the assignment is a test in the RLB, then you will need to access Blackboard via the RLB to see the extra feedback - during the week following a test, the test settings will be changed so that you can review the incorrect answers).

POLICY ON MAKE-UP WORK

The exams, application exercises, and discussions are available from the first class day until their due dates, which is an ample amount of time. To protect yourself against unexpected emergencies, do not wait until the last day. If you miss a deadline, the make-up work is worth 75% of the original points. The make-up work can be submitted any time after their due dates, using the same submission links as the regular assessments.

With regard to the make-up discussion forums, only the thread counts, so there no need to submit replies (because classmates are unlikely to read replies after the due date).

With regard to the make-up tests, only the first attempt after the deadline counts (unlike regular tests which allow three attempts). Use the regular test links.

In rare cases, a student begins an attempt at a test too close to the deadline time of 9:00 AM and then submits it after the deadline time has passed. In such cases, there is a five-minute grace period, after which the score will be adjusted for make-up credit.

COURSE CALENDAR

Dates / Topics / Readings / Assignments

Week One (March 18 – 26 at 9:00 AM) / Introduction to Sport Psychology; Motivation / Chapters 1 & 2 / Test 1, Discussion Forum #1

Week Two (March 26- April 2 at 9:00 AM) / Anxiety & Arousal; Preperformance Routines /
Chapters 4 & 5 / Test 2, Application Exercise #1

Week Three (April 2 – 9 at 9:00 AM) / Imagery, Self-Talk, & Concentration; Relaxation Techniques / Chapters 6 & 7 / Test 3, Application Exercise #2

Week Four (April 9 – 16 at 9:00 AM) / Goals & Self-Regulation; Self-Efficacy / Chapters 8 & 10 / Test 4, Application Exercise #3

Week Five (April 16 – 23 at 9:00 AM) / Choking & Pressure; Self-Handicapping / Chapters 11 & 12 / Test 5, Discussion Forum #2

Week Six (April 23 – 30 at 9:00 AM) / Leadership & Coaching; Team Processes / Chapters 22 & 23 / Test 6, Application Exercise #4

Week Seven (April 30 – May 7 at 9:00 AM) / Perfectionism / Research Article #1 / Quiz 1; Discussion Forum #3

Week Eight (May 6 - 10 at noon) / Application Project

WITHDRAWAL FROM COURSE

The last day to withdraw from this course is Friday, April 19.

UNIVERSITY POLICIES THAT APPLY TO THIS COURSE
