ECO 2301:
PRINCIPLES of MACROECONOMICS
ONLINE
SPRING 2019

Section: D20  Instructor: Dr. Kara  Office: RAS 253
ONLINE Office Hours: M – W: 12:00 – 2:00, T: 12:00 – 2:00, THU.: 8:00 – 12:00.
(Thursday is BY APPOINTMENT ONLY, no hours on Friday).
Phone: 486 6458  e-mail: mkara@angelo.edu

WEBCAM REQUIRED FOR EXAMS

WEBSITE ACCESS CODE: Principles of Economics with Connect Master.
Asarta and Butters, McGraw-Hill, 2016. (Connect Master access code with loose-leaf print out).
This is not a paper textbook. It is a website with video lectures, an e-book and graded quizzes. There is a
loose-leaf print out that you can use as a “book” if you want. You can purchase the loose-leaf print out
from the publisher’s website while you are completing your registration (more on this below).

WHAT WILL HAPPEN IN THIS COURSE?
There are online quizzes (on Connect), and online tests (all on Blackboard)
which you will take on certain dates (see Bb Course
Calendar). Tests will require using the LockDown Browser
and Webcam (see below).
No need to get confused. Everything will be done on Bb.
Your grade will be a weighted average of your scores on quizzes and
tests (tests weigh much more than quizzes).
You study the material, take the quizzes and tests, get good grades
and pass!
Awesome!
What you need to do to complete your set up is explained in detail
in the Appendix at the end and on the START HERE page on BB.

Please understand: I am here for you. Taking this online course
does not mean that you are completely on your own. I am
approachable, I am accessible, I am available. You must let me
know immediately if you are having problems.
The most important thing is to let me know immediately if you
are having any problems.
COURSE OVERVIEW  This is an introductory macroeconomics course aimed at introducing you to the terminology, methodology and theory used by economists. It will provide you with the basic knowledge about the national economy and help you understand fundamental concepts and methods applied. The course will also introduce you to the basic economic concepts and models used in (1) understanding the functions & workings of the market system; (2) explaining and predicting the behavior of national output, unemployment and inflation; and (3) understanding monetary and fiscal policies and their impacts on the economy. CATALOG DESCRIPTION: Economic principles, aggregate income, output and employment; money, fiscal, and monetary policy. Prereq.’s: MATH 1302, 1332, 1324 or equivalent.

COURSE OBJECTIVES:
By the end of the course, successful students should be able to:
1. Perform supply and demand analysis to analyze the impact of economic events on markets,
2. Know and interpret measurements of critical variables of the national economy,
3. Understand, analyze and evaluate factors determining the output and price level in the national economy.

GRADING AND POLICIES:

- Your grade will be determined by the weighted average of your scores on the tests and on-line (Bb-Connect) quizzes. None of the tests are comprehensive including the 4th test.

<table>
<thead>
<tr>
<th>Average of on-line quizzes</th>
<th>18% on Bb-CONNECT</th>
</tr>
</thead>
<tbody>

<tr>
<td></td>
<td>Mon. May 6, 8:00 AM - 11:59 PM</td>
</tr>
</tbody>
</table>

Remember, your grade will be a weighted average of your tests and your quiz average. Tests weigh much more than the quiz average (82% to 18%). You must keep in mind that you cannot pass by making poor grades from tests even if your quiz average is high. In other words, having a high quiz average cannot save you alone, if your test scores are poor.

QUIZZES: (18%) We will have quizzes on Bb for each chapter. LearnSmart Achieve Modules are graded quizzes just like regular quizzes. They are part of the 18% of course grade. Quizzes and LearnSmarts are the best preparation for the tests and are essential in improving your learning. The average of quizzes and LearnSmarts will make 18% of your course grade. You will have two attempts for each quiz. Each quiz will expire at 11:59 PM on its due date. There are no make – ups for online quizzes. If you miss one for any reason, it is a zero on the grade book.
DEADLINES: All deadlines, for all quizzes and tests can be followed on the CALENDAR that can be seen on Bb. Therefore, there is no reason to miss any test or assignment. My advice: You will be given an ample time interval for each quiz. Do not leave it to the last minute. Do your quizzes well before the deadline. This is an online course. You must complete all of the on-line assignments. If you are missing on-line work, that means you are missing class.

TESTS: (82%) We will have 4 online tests with weights shown above. None of the tests will be comprehensive. All tests are multiple choice. The weighted average of tests will make 82% of your course grade.

TEST AVAILABILITY: Tests are only available during certain intervals. This is NOT a class where tests will be available for several days. If you need a class that makes tests available for longer periods, several days, or weeks, or longer, this class is not a good fit for you; especially since there is no make up for missed tests and quizzes (please see the next bullet). Our tests will be on a certain day only (see CALENDAR), from 8 AM to 11:59 PM. Unlike quizzes, you will have only one attempt at tests.

• There is absolutely no make up for a missed test unless previous arrangements have been made or, a real emergency, such as an earthquake, volcano eruption, zombie invasion etc. has caused you to miss a test. If the determination is made to offer a make up test, it will be a paper based test administered by me on campus. Since most of you cannot come to campus to take a test, do not miss any tests. (Nevertheless, you should let me know right away if you miss a test.) As mentioned above, there are no make ups for quizzes.

• You must have reliable internet connection. If not, you should take the on-line quizzes and tests on the campus labs. You are responsible if you miss a quiz or a test because your internet service had an interruption or your computer acted funny. I would like to repeat this because it gave us so much headache: If your computer or internet crashed and you missed a test or an assignment, you missed it. Such are the risks of taking on-line courses. (Nevertheless, you should let me know right away if such a thing happens.)

• There will be no homework, project or other graded assignment for this course. Just the exams and on-line quizzes listed above.

• There are NO “extra credit” assignments or projects in this course. Your grade will SOLELY be determined by what you make on the tests. Therefore, “Is there any way for me to get extra credit in this course?” or “What can I do to get extra credit?” are completely irrelevant questions.

• In assigning your grades, I will take the grade distribution in the class into consideration. The grading scale will be as the following: 90 and above: A; 80 – 89: B; 70 – 79: C; 60 – 69: D; 59 and under: F.
# TENTATIVE SCHEDULE

The specific learning goals for each chapter are listed in the book.

**Test 4 (21%): May 6, Mon., 8:00AM - 11:59PM**

**Special Needs:**
Persons with special needs which may warrant academic accommodations must contact the Student Life Office, Room 112 University Center, in order to request such accommodations prior to any accommodations being implemented. You are encouraged to make this request early in the semester so that appropriate arrangements can be made.

**Academic Honesty:**
Angelo State University expects its students to maintain complete honesty and integrity in their academic pursuits. Students are responsible for understanding the Academic Honor Code, which is contained in both print and web versions of the Student Handbook.
APPENDIX 1:  STEP by STEP
HOW TO GET STARTED? WHERE TO BEGIN? WHAT TO DO FIRST?
1. Read and understand the syllabus. Syllabus is our contract. You can find the syllabus on the left tab on BB, and also under EVERYTHING is HERE tab.
2. Make sure your computer and internet connection are fit for taking an online course. Also make sure you have the latest version of Respondus Lockdown Browser on your computer. Download it from the Tech Support link you see at the top in BB.
3. You should create your account in Connect by taking the bonus quiz on BB, START HERE! You cannot complete any graded work (quizzes) unless your Connect is set up. More on this below.
4. Take the WEBCAM Bonus quiz on BB, START HERE! to make sure your webcam works fine. It will give you 100 points as a bonus quiz grade if you complete and submit it before the expiration. Like any graded quiz, if you miss it, it is a zero in your quiz average.
5. Take the Syllabus Bonus quiz on BB, START HERE! to make sure you understood everything about the course. It will give you 100 points as a bonus quiz grade if you complete and submit it before the expiration. Like any graded quiz, if you miss it, it is a zero in your quiz average.
6. Complete the items in the MATH REFRESHER folder. They are graded quizzes with deadlines, like any other quiz. They are simple quizzes to brush up on your basic math skills. The key word is simple. Do not miss any, do them all. Any graded quiz you miss is a zero in your quiz average.
7. The dates for quizzes and tests are on Bb, Course Calendar. Do not miss any because there are no makeups, anything you miss is a zero.
If you complete all that, you are ready to move ahead. Good luck.

Please understand: I am here for you. Taking this online course does not mean that you are completely on your own. I am approachable, I am accessible, I am available. You must let me know immediately if you are having problems.
CREATING YOUR ACCOUNT IN CONNECT:
You will do this only once. You need the access code that came with the book.

1) Go to Bb, “START HERE!” tab. Find the bonus quiz for Connect registration.
2) When you click the Bonus Quiz link, then, Connect will take over and will ask for your access code to create your account.
3) Just follow the simple instructions and complete creating your account. If you do not create your account by the due date, you will receive (zero) from that quiz.
4) Also, you must find the correct answer (easy) and submit the bonus quiz. If you do not submit the bonus quiz, the assignment will be incomplete (grade = zero).
5) Remember, you will be missing all other graded quizzes until your account is set up in Connect.

APPENDIX 2:
RULES AND SUGGESTIONS

TEST and WEBCAM RULES:
You CAN use your notes and the book in the test (not the ebook, see below).

• However, you cannot use any electronic device other than the computer on which you are taking the test and a simple calculator. You cannot have access to a second computer, tablet, whatever. Too many to list. You cannot have a friend or family, you cannot use your phone, you cannot make or take a call, you cannot use a walkie-talkie, teleporter, phaser gun, time machine, nothing.

• You must use the webcam during the test. Using the webcam requires the LockDown Browser. LockDown Browser means you cannot use the ebook.
• LockDownBrowser and webcam is required only for tests. Not for quizzes. You can use any browser that will work for quizzes and no webcam needed for quizzes.

• Not a rule, but suggestion: Instead of wifi, Use an Ethernet cord to “hard wire” your computer to the router helping to ensure you will not lose connection with Blackboard.

• CRITICAL: You MUST make sure that the webcam shows you at all times (not the top of your head, not the ceiling, not the floor). Make sure you are framed properly in the shot so your face and shoulders can be seen as well as some of the background. Also, the lighting should not be too dark or not be pointing directly into the lens which blinds the shot. You should have a clear video.

• Be sure not to mute your microphone. It is important that the audio can be heard clearly on the video.

• If I cannot see the video clearly, your test will be voided (canceled) AND you will be required to take a proctored essay test. Please make sure that will not happen.

• If I see something that leads me to believe that you have violated the rules, you will receive a zero and face possible disciplinary action.

FREQUENTLY ASKED QUESTIONS AND HELPFUL HINTS

WHEN SHOULD I DO THE QUIZZES?

The deadlines for quizzes are not suggestions for when to take the quiz. You should not wait until the deadline to do the quiz, you should do them as soon as you are ready.

Always watch the calendar because there may be changes (just in case). You are responsible for keeping up with the flow of class. Once the deadline comes, the quiz expires. It is gone. There is no make up.
Tests are different because tests are not available before the test day. You can only take the test on the test day.

Check the calendar frequently. Always check the calendar.

**WHAT IF I HAVE QUESTIONS?**

You can post your questions on the discussion board (YOU HAVE A QUESTION?) on Bb and get a discussion topic going among your classmates. I will also check the discussion board during online office hours and respond when necessary.

**OF COURSE** you can always e-mail me anytime you want. I make an effort to respond fast. Please keep in mind that I prefer you to post your question on the DB so everybody can benefit. But, by all means, you can e-mail me 24 - 7.

Please note that no office hours are listed for Fridays and weekends. As usual, I will check the board and emails outside of office hours. But, there might be longer wait times.

You can also drop by during my office hours which are the same as above except Thursdays. Thursday office visits are by appointment only. As a rule of thumb, I always suggest to check and make sure I am at the office before you come. We may have university committee meetings, doctor appointments etc. that could sometimes cause us to miss office hours.

The most important thing is to let me know immediately if you are having any problems.
