Required Text:

Course Description
This course is an introduction to U.S. politics with a particular focus upon foreign policy, the founding and the U.S. Constitution, the three branches of government, and public policy.

ASU Mission Statement
Angelo State University is a member of the Texas Tech University System, and delivers undergraduate and graduate programs in the liberal arts, sciences, and professional disciplines in a learning-centered environment distinguished by its integration of teaching, research, creative endeavor, service, and co-curricular experiences, ASU prepares students to be responsible citizens and to have productive careers.

Course Objectives
This is an introductory course so the course objectives are modest:

1. Students should gain some conceptual knowledge; new terminology, classifications, and concepts (i.e. capitalism, exceptionalism, democracy, ideology and so on). The point is NOT to memorize "facts" and "data" about the mechanisms of government, some of which should have been achieved in high school courses, but to develop critical thinking about these concepts.

2. Students should develop a clearer understanding of, and commitment to personal values; by the end of this course you should have a deeper sense of YOUR own core values, and of first principles, and why you have them (i.e. how you view human nature, your core principles and so on).

3. Students should be more adequately equipped to analyze, and critically evaluate ideas, arguments, and different points of view (following how this was done in class; the spirit of questioning, the use of irony, paradox, evaluation of interest and so on).

Course requirements
All course requirements must be met in full for the successful completion of the course. All assigned work must be completed. All FOUR tests must be completed regardless of cumulative course GPA.

Honor Code
ASU expects its students to maintain complete honesty and integrity in their academic pursuits. Students are responsible for understanding the academic honor code, which is available at:
Assessment
4 Short Multiple test quizzes 25% each test consists of 30 questions in 30 mins on all aspects of the course content, including all the assigned readings from the textbook. The quiz will be taken on Blackboard, the settings are as follows: one hour, no backtracking, force completion, and presentation of one question at a time, randomized. This is not intended to be an open book test and students who attempt to check lecture, textbook and other references while taking the test are likely to find themselves in time trouble.

Note: I will calculate the final grade for the course based upon the best three test scores, as long as ALL FOUR TESTS were completed, regardless of grades.

Grading Scale
A-90% and over, outstanding.
B-80% very good.
C-70% satisfactory.
D-60% minimum required.
F-less than 60%.

The Course Calendar
(I reserve the right to make course changes from time to time)
