TEXTBOOK

Required:

Course Description and Objectives

This course introduces you the basic and principal methods used in the field of criminology and criminal justice. Topics that will be covered in this class are divided into four sections, including (1) the foundation for scientific inquiry in criminal justice, (2) key concepts and components of research design, (3) different types of research design and their procedures to conduct, and (4) brief introduction to data analysis and interpretation. You will be asked to apply the materials covered above to your own research proposal.

By the end of this semester, you will be expected to:

- Identify important terminologies and concepts related to research design in the field of criminology and criminal justice.
- Apply different types of research designs to different research questions.
- Distinguish well-designed research from poorly designed and unethical research.
- Efficiently find academic resource to solve research questions related to criminology and criminal justice.
Annotated References

You will read 3 articles that are provided by the instructor. For each article, you are asked 7 questions as listed below. Each annotated reference should consist of a citation that conforms to APA guidelines, along with a write-up that consists of no more than 300 words. Each annotated reference should include:

1. What is the research question and why is it important?
2. What is the main conclusion from the prior literature?
3. What sample did the author(s) use and what is the sampling strategy?
4. What is the unit of analysis?
5. What is the dependent variable(s) and key independent variable(s)?
6. What is the main finding?
7. What is the policy implication?

The annotated references will be due on Week 7 Friday midnight. All submission will be on the Blackboard, under the folder of “Annotated Reference”. Do not start this project too early, because you will need basic knowledge of research method and design, which you will learn from this class, to accomplish this assignment. At the same time, do not start this project too late, because it will take your time. Students will be graded accordingly to APA format, quality or organization of writing, and summary of article.

Tests

There will be 3 open-book tests in this course. Test 1 covers Chapter 1 to 4. It will have 25 multiple choices (2 points for each). Test 2 covers Chapter 5 to 7. It will have 17 multiple choices (2 points for each) and 4 short answer questions (4 points for each). The final test will only have ten questions that are closed connected to your own research design. This question will cover topics discussed throughout the semester and will require that students understand the subject matter of research methods. Students have 1 hour for each test.

Make-Up Exams

Make up exams are only possible where medical documentation indicates students were advised not to attend class because of a medical emergency. Students without the documentation at the next class will receive a zero grade for the exam.
**Academic Honesty**
Academic dishonesty of any kind (e.g. plagiarism, cheating) will not be tolerated. Students found to have plagiarized or cheated will receive a failing grade for the course. If a cell phone is visible during an exam, the student will receive a zero for that test. There will also be disciplinary actions at the university level. Further information concerning academic honesty can be found at: http://www.angelo.edu/content/files/17358-university-honor-code.

**Disabled Student Policy and Services for Disabled Students**
ASU is committed to the principle that no qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments of 2008 (ADAAA), and subsequent legislation.

Student Affairs is the designated campus department charged with the responsibility of reviewing and authorizing requests for reasonable accommodations based on a disability, and it is the student's responsibility to initiate such a request by emailing studentservices@angelo.edu, or by contacting:

Office of Student Affairs  
University Center, Suite 112  
325-942-2047 Office  
325-942-2211 FAX

**Student Absence for Observance of Religious Holy Days**
“A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence.” Please see ASU Operating Policy 10.19.

**Email Correspondence**
Email is the best way to reach your instructor after class. I will respond you within 24 hours. If I may not address your question or concern within 24 hours, I will let you know in advance. Email should be sent in a formal and professional style. Always put CRIJ 3302 or Methods of Research in your title line as this will help me respond to your emails promptly. Do not use emoji in your email, except for smiling face 😊, because I want you to think positively every day.
## Annotated Outline of Topics to Be Covered for Each Class Meeting
