Course Objectives

Learning Objectives
Introduction to Business is designed to introduce students to the world of organizations and business and to help students become creative, self-directed learners. As a result of completing this course, the student should have achieved the following:

1. Explain how business success is measured in economic and ethical terms.
2. Identify the pros and cons of different small business models and be conversant in the
steps entrepreneurs take to start up a business.
3. List and define the four basic functions of management, and describe how different organizational structures fit best with the needs of a specific organization’s mission and culture.
4. List and describe the basic elements required from human resources management (HRM), including what steps are required to attract and retain employees; identify key legal requirements and laws affecting HRM such EEO, ADA, and OSHA.
5. Explain key marketing concepts including the "Four Ps", market drivers, market channels, and the product development process.
6. Identify the key elements of and uses for financial statements including the balance sheet, income statement, and cash flows.

Methods of Assessing Learning Outcomes
Learning Outcomes will be assessed through exams and assignments.

These objectives can only be achieved through a joint effort: I will work to stimulate your interest and learning in these areas, but you will be expected to display initiative and a program of self-study as well. In that sense, a complementary objective of the course is to provide you with an environment that will encourage and reward your own intellectual effort, while simultaneously maintaining rigorous standards that identify those who are motivated to pursue excellence in their own educational preparation for a business career.

Angelo State University employs a letter grade system. Grades in this course are determined on a percentage scale:

- **A** = 90 – 100 %  
  = 495 - 550 points
- **B** = 80 – 89 %  
  = 440 - 494 points
- **C** = 70 – 79 %  
  = 385 - 439 points
- **D** = 60 – 69 %  
  = 330 - 384 points
- **F** = Below 60%  
  = Below 330 points

**Tests and Final Exams**
The tests given during the term are objective-test format. The tests will consist of 50-60 multiple-choice questions given in an online format and will sample from both the general concepts and the details presented in the text.

Please keep in mind that being prepared and taking the tests during the allocated times is your responsibility. The tests are on the schedule; mark the dates on your calendar now.

Each exam is worth 100 points. Students have approximately 70 minutes to complete the exam; the questions are challenging, so prepare well for each test - there is not time to look up all the answers when you take the test. Test questions will come from a test pool and will be ordered randomly. Once the exam is launched, it must be completed; it cannot be paused and restarted.

I strongly recommend you take the exam in a location with a solid Internet connection such as the ASU library or a campus-based computer lab. If the Internet session is interrupted while taking the exam, students may contact ASU Technology Services Center to get a trouble ticket. Students may then contact me to re-open or re-start the exam.

Students may use their books, notes, or PowerPoint slides to take exams; however, students may not collaborate with each other for exams. **Students that do not adhere to the Academic Honesty and Integrity Policy will receive an F in the class.**

The final exam will cover only the material covered since the prior exam.

**Chapter Assignments**
There are a total of 20 online Connect assignments. Students are responsible for all 20 online Connect assignments. Each of the due dates for the assignments is listed on the Class Schedule. Each assignment is worth 7.5 points. Late submissions will not be accepted.

**Attendance Policy**
This is a self-directed online course; there is not an attendance requirement.

**Response Time**
I normally respond within hours, even minutes, of your email; you can expect a response to your question(s) within 24 hours.
