Learning Outcomes:

- 1) Livestock breeds and the importance of each species
 - 2) Production and husbandry practices relative to each species.
- These learning outcomes will be evaluated through exams and quizzes.

Attendance: If a student anticipates an absence, they should let me know ahead of time. Communication is appreciated before or after an absence! Lab is not something that can be made up due to an absence therefore students should do their best to attend. Attendance will be taken each time lab meets and after 2 absences, students will lose 10 points per absence.

Laboratory: Lab will meet each week at either the MIR or in the Vincent building. Occasionally lab will meet outside of the ASU campus and there will be transportation provided on those occasions. Location of labs will be announced in class and/or via email prior to the lab. Students are responsible for checking email for any last minute changes. A 3 minute presentation over livestock equipment will be required by each student. Equipment will be randomly assigned to students. A rubric for the presentation will be provided to students.

Classroom Etiquette: Treat others as you would like to be treated. Cell phone usage should be minimal and hats and caps should be taken off in the classroom (both ladies and gentlemen). Excessive use of cell phones and disrespect to classmates will result in the student being asked to leave the classroom. *Students that show up after the first exam or quiz has been handed out will NOT be allowed to take that exam or quiz for credit in the course.*
