Ph.I.L.S. Labs: 18 labs worth 10 points each for a total of 180 points

These physiology interactive lab simulations are designed to help you better understand different physiological concepts discussed this semester. There are 18 labs covered this semester. Each lab is worth 10 points for a total of 180 points. Each lab consists of an activity and then a post-lab quiz. To receive all 10 points, you must complete the activity completely and correctly. You must then save a copy of your lab results and submit them via Blackboard Assignments.

LearnSmart Assignments: 25 points each chapter for a total of 100 points

Each chapter covered this semester has a LearnSmart assignment associated with it. Each assignment is worth 25 points. These assignments should be done individually and will take on average 60-90 minutes to complete. These questions will test your knowledge on the topics discussed in class and will refer you to readings in the text that will help you better comprehend topics in class that are challenging for you. The LearnSmart assignments typically give you a window of 1 week to complete. No late assignments will be accepted and each assignment closes at 11:59 of the assigned date.

BONUS POINTS – Chapters 6, 8, 11, 13 – 40 Bonus Points Possible

These practice questions are optional to help you review and prepare for your test. This is your chance to receive bonus points in the course for completion of the questions. Each chapter is worth up to 10 bonus points (40 total bonus points possible). The number of questions you correctly complete determines how many bonus points you receive. All practice questions are due by 8:00AM on the day of the corresponding quiz.
