TECHNOLOGY REQUIREMENTS

A complete list of technology requirements for online education at Angelo State University is available at https://www.angelo.edu/online-education/technology_requirements.php. Internet connectivity problems and home computer problems are not considered adequate excuses for missing assigned learning activities. Technical support concerns should be submitted to the IT Service Center via phone at (325) 942-2911 or toll-free at (866) 942-2911.

GRADING SYSTEM

Each assignment will be worth a varying number of points. Grades will be determined by the percentage of the total possible points earned.

The following grading scale is in use for this course:

- A = 90.00-100%
- B = 80.00-89%
- C = 70.00-79%
- F = below 70%

METHODS OF INSTRUCTION

- Since this course is delivered online, candidates are responsible for understanding the assignments and learning the material. If questions arise, it is important to ask the instructor immediately for help since many of the tasks build on one another.
- Course design includes a combination of learning activities to strengthen the academic and professional competence of candidate's writing skills, presentation skills, collaboration, analysis, and practical application/experience.
- Learning activities may include, but are not limited to critical analysis submissions incorporating research, writing, and reflection; digital presentations with multimedia and/or interactive elements; collaboration opportunities through online discussion boards, wikis, or blogs; practical case studies requiring research, writing, and

collaboration; and other projects and activities such as interviews, field visits, modeling, and videos.

COMMUNICATION

The course is designed to offer regular and substantive interaction between candidates and instructors. Both candidates and instructors are responsible for effective, appropriate, and timely communications and interactions in the course.

CANDIDATE COMMUNICATIONS: Candidates should initiate communications with instructors through Class Café or the ASU email system. Check frequently for announcements and reminders. Scoring rubrics and module information outline the specific interaction and communication requirements for each learning activity.

Course content and subject-specific questions should be posted to Class Café for interactions with other candidates and instructors about the content. Technical support concerns should be submitted to the IT Service Center via phone at (325) 042-2911 or toll-free at (866) 942-2911.

WRITTEN SUBMISSIONS: It is an expectation of this department that you use academic and professional writing skills. Candidates should follow APA guidelines for formatting and citations in all learning activities unless otherwise specified. Failure to utilize accurate APA citations and references constitutes plagiarism.

USE GOOD "NETIQUETTE":

- Check the discussion frequently and respond appropriately and on subject.
- Focus on one subject per message and use pertinent subject titles.
- Capitalize words only to highlight a point or for titles. Otherwise, capitalizing is generally viewed as SHOUTING!
- Be professional and careful with your online interaction. Proper address for faculty is by formal title such as Dr. or Ms./Mr. Jones unless invited by faculty to use a less formal approach.
- Cite all quotes, references, and sources.
- When posting a long message, it is generally considered courteous to warn readers at the beginning of the message that it is a lengthy post.
- It is extremely rude to forward someone else's messages without their permission.
- It is fine to use humor, but use it carefully. The absence of face-to-face cues can cause humor to be misinterpreted as criticism or flaming (angry, antagonistic criticism). Feel free to use emoticons such as J or :) to let others know you are being humorous.

(From "The Net User Guidelines and Netiquette" by A.H. Rinald, 1994, Florida Atlantic University. Adapted with permission.)

INSTRUCTOR COMMUNICATIONS: Instructors will provide communications relevant to the course and subject matter through weekly emails, Blackboard announcements, Class Café,

interactions during learning activities such as moderating discussion boards, and feedback on submitted assignments. These course activities help build a sense of community among learners.

Instructors will typically respond to email within 24 hours. Class Café discussions will include both peer and instructor responses as appropriate to assist with candidate mastery of the subject. Instructors will typically provide feedback on assignments within 48-72 hours of submission of the assignment through Blackboard. Feedback communication is provided to candidates by instructors in Grade Center, Turn It In Feedback Center, or on scoring rubrics in Blackboard as appropriate for each assignment.

CANDIDATE PARTICIPATION

- Candidates are expected to be active learners. It is a basic assumption of the instructor that candidates will be involved discovering, processing, and applying the course information using peer-review journal articles and researching additional information through the ASU Online Library and Internet.
- Candidates are expected to engage with the material, their peers, and their instructors. Ensure that you are reading all of the materials provided in the Blackboard modules. Participate in discussions with your peers about the content through Class Cafe.
- If you have questions, it is important to ask immediately since many of the tasks build on one another.

ATTENDANCE

Distance course. Candidates are required to follow the course calendar and the expectations related to candidate participation. Candidates are expected to engage in course activities and submit assignments by due dates and times identified in the course calendar.

Faculty are required to confirm attendance of candidates in a course at the beginning of each term to the ASU Registrar Office as part of complying with regulations regarding the administration of federal financial aid. In accordance with ASU processes and federal regulations, academic attendance in a course is considered active engagement which includes but is not limited to submitting an academic assignment or participating in an online discussion in the course about academic matters.
