COURSE DESCRIPTION

This course introduces students to the economic way of thinking and the fundamental tools of macroeconomic analysis and the factors that influence them. Special emphasis is placed on how market and political institutions influence how humans respond to the scarcity of resources. The course makes heavy use of graphical analysis and presupposes knowledge of algebra.

LEARNING OUTCOMES

By the end of this course, students should be able to:
- understand and apply fundamental economic concepts such as scarcity, opportunity cost, incentives, and marginal analysis.
- analyze markets in terms of the interaction of supply and demand.
- understand the basic ideas of comparative institutional analysis and public choice.
- understand and use tools of macroeconomic analysis to better understand current events.

GRADING

Grades will be assigned according to students’ final scores:

90+ A
80-89.9 B
70-79.9 C
60-69.9 D
59.9 or less F

Final scores are broken down into the following components:
**Reading & Attendance** 30%
**Homework** 30%
**Exams** 40%

*Reading and Attendance:* At the beginning of each non-Exam class, I will roll a normal 6-sided die. On a 6, I will take attendance. You will also be assigned completion grades for doing the readings or answering pop quiz questions about them. For more information see the section on using Launchpad below. I will drop the lowest 2 grades from this category. Pop quiz questions will have only two possible results 0 or 100. Right or wrong.

*Homework:* At the end of each unit there will be an online quiz over the material. For more information see the section on using Launchpad below. I will drop the lowest 1 grade from this category.

*Exams:* There will two midterms and a final. The final will be comprehensive and count for two exam grades. Any student with an ‘A’ before the final exam can skip the final exam and receive an A for the course. If you take the final, I will drop the lowest 1 (of 4) exam grades.

A grade of zero will be given for any exam missed. If the exam was missed for a University-excused reason (i.e., representing the University in a competition, a health emergency, or a family emergency) the student will have the opportunity to make up the exam or replace that grade with the final exam. Otherwise, the grade of zero will remain.

**CLASSROOM RULES AND BEHAVIOR**
**DEPARTMENT OF ACCOUNTING, ECONOMICS AND, FINANCE**

Students are expected to show respect to classmates, instructors, and especially guest speakers. These are rules that I will enforce during this class:

1. Do not talk during class meetings. Talking is disruptive to the instructor and to your fellow classmates.
2. Do not arrive late to class and do not leave the classroom during class meetings. Exceptions may occur for medical emergency, physiological urgency or situations where prior instructor approval has been granted.
3. Do not use (including viewing of) communication devices (phones, iPad, etc) during class meetings. All electronic devices should be silenced during class meetings. This includes laptops.
4. Do not read/view other unassigned materials (newspapers, magazines, etc,) during class meetings.
5. Do not exhibit disruptive posture during class meetings. e.g. sleeping, slouching, laying, resting feet/head on furniture, etc.
6. Do not use notebook computers during class meetings unless prior instructor approval has been granted.
7. Do not bring/use food and/or tobacco products during classroom meetings unless prior instructor approval has been granted.

INFORMATION ON USING LAUNCHPAD FOR ECO 2301

Our textbook for this class is the Launchpad version of Cowen and Tabarrok, Modern Principles of Macroeconomics, 4th edition. The online version includes both the text from the physical book and quizzes, exercises, etc. I recommend you start with the trial version for the first few weeks of class. You should be able to purchase access online or buy an access code in the bookstore.

Two parts of the course will be run on Launchpad, Reading grades and Homework. You will usually receive one grade in each category for every unit, and most units correspond to one chapter in the textbook.

READING ASSIGNMENTS ON LAUNCHPAD

Doing the readings ahead of time is vital for this course. Reading grades are either 100% (if you did the work) or 0% (if you didn’t). You will receive a reading grade for most units that we cover. Your reading grade will usually be based on the Learning Curve assessment in Launchpad. Learning Curve lets you keep answer questions until you achieve a predetermined score, which will correspond to a 100. You should read the chapter before attempting the Learning Curve. Usually, you will also wait until after the first lecture in that unit as well.

HOMEWORK ASSIGNMENTS ON LAUNCHPAD

For each unit there will be a short quiz over the material covered in the book and lectures. These are referred to as Graded Homework in Launchpad. They will be due after the last lecture in each unit. You should complete the quizzes by yourself. They are not a group activity.

MR UNIVERSITY

The creators of your textbook also have an online version of their macro course at MRUniversity.com. Some videos are assigned as part of the course material, but there are many more on the site that will be helpful for any concepts you are struggling with.

TECHNICAL DIFFICULTIES

You are responsible for securing access to a reliable computer & network to do the assignments, such as a school computer lab. If you have a shaky internet connection at home, make time to do your work on campus.
Whenever you finish a Launchpad assignment, you should take a screenshot that indicates that the assignment is complete. Make sure to capture the date and time. Save these screenshots in a folder until the end of the semester. We will update you on your grades after each exam and before the final. If your grades do not come through correctly, email me (eescalante@angelo.edu) the appropriate screen shot so that I can correct the grade. No screen shot, no grade correction.

ACADEMIC HONESTY

Academic honesty is expected on all work. Students are expected to maintain complete honesty and integrity in their online experiences. Any student found guilty of any form of dishonesty in academic work is subject of disciplinary action and possible expulsion from ASU.

We adhere to the academic honesty statement as set forth in the Angelo State University Student Handbook: Angelo State University's Academic Integrity Policy. The University "faculty expects all students to engage in all academic pursuits in a manner that is above reproach and to maintain complete honesty and integrity in the academic experience both in and out of the classroom setting and may initiate disciplinary proceedings against a student accused of any form of academic dishonesty, including but not limited to, cheating on an examination or other academic work, plagiarism, collusion, and the abuse of resource materials."

PLAGIARISM

Plagiarism at ASU is a serious topic. The Angelo State University’s Honor Code gives specific details on plagiarism and what it encompasses. Plagiarism is the action or practice of taking someone else's work, idea, etc., and passing it off as one's own. Plagiarism is literary theft.

In your discussions and/or your papers, it is unacceptable to copy word for word without quotation marks and the source of the quotation. We use the APA Style Manual of the American Psychological Association as a guide for all writing assignments. Quotes should be used sparingly. It is expected that you will summarize or paraphrase ideas giving appropriate credit to the source both in the body of your paper and the reference list. Papers are subject to be evaluated for originality via Bb Safe Assignment or Turnitin. Resources to help you understand this policy better are available at the ASU Writing Center: Angelo State University's Writing Center Website.
