Assessing Outcomes & Grade Determination
Method of Assessing Outcomes
Student learning outcomes will be assessed with:

• Worksheets/Quizzes (20%) for material are assigned each week. Worksheets will normally be posted on Mondays and ALL quizzes will be completed through Blackboard and due on Fridays.
• Conceptual Activities (20%) will be posted on Blackboard and due as announced in class and on Blackboard.
• Four midterm exams (40%) completed using Respondus LockDown Browser and due as given below.
• A comprehensive Final Exam (20%) on Wednesday May 6th.
NOTE #1: Blackboard assignments are due “at the end of the day” which means 11:59PM. However, tests are timed and WILL NOT be available all the way until the end of the day (e.g. tests with 1-hour time limits will not be available starting at 11:00PM). Blackboard issues will arise, if you wait until the last minute to complete assignments you run the risk of missing them. I can fix problems such as browser crashes and internet outages, but NOT the hour before it is due. You have multiple days to complete work, so due dates are firm.

NOTE #2: Midterm Exams will require the use of Respondus LockDown Browser. This is a separate application that you MUST have downloaded and installed on your computer in order to use.

Late Work
Unexcused late work or missed tests will not be accepted. If your assignments are not submitted by the posted deadline you will receive a zero for that assignment. You must contact your professor before the assignment is due if you believe it will be late or as soon as possible after the due date in the case of an unexpected emergency.

Grade Determination
Your final grade will be determined by your scores on all tests and exams.
