Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:

- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions

HBSE II Application Paper: Each student will interview an adult individual in a place of their choosing which will help maintain your client’s confidentiality. Each student will write a paper that will include
research (5 peer reviewed Articles/texts/journals) regarding a specific problem that their client is living with such as i.e. poverty, mental health, criminal justice, etc. The student will conduct research on said problem and summarize their findings. The student will also discuss the Person in Environment (PIE) theory, all Factors of the theory, and their engagement, assessment, and intervention of the selected individual.

**Professional Performance:** This is relevant to attendance; engaging in class activities—group work/discussions/asking questions, including frequency and quality; professional presentation; and so forth. An expectation of a professional social worker is that they are present in their practice setting. The expectation for students in a social work program is that they are motivated to learn and have a sense of dedication to their studies. Thus, my expectation of you is that you will be present in class. Class begins and ends at the scheduled time. Students are to be present for the duration of class.

**Assignment Submission**
All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at chelsea.kading@angelo.edu and attach a copy of what you are trying to submit. **Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue.** This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

**Late Work or Missed Assignments Policy**

**POLICY ON LATE OR MISSED ASSIGNMENTS**
Due dates and times for assignments are posted. Failure to submit your assignments on the assigned date will result in a zero. No papers, assignments or postings will be accepted late without preapproval from instructor.

**NOTE:** *All assignments submitted in this course are to be written in strict accordance with the Publication Manual of the American Psychological Association (6th ed.).*

**General Policies Related to This Course**
All students are required to follow the policies and procedures presented in these documents:

- [Angelo State University Student Handbook](#)¹
- [Angelo State University Catalog](#)²
Student Responsibility and Attendance

All students are expected to follow the National Association of Social Workers Code of Ethics.

For a three times weekly class: There is no grade penalty for the first 2 absences (this is not an invite to miss class). Any additional absence will result in a loss of 10 points off of your total grade. The 7th absence results in a failing grade for the course. Please refer to ASU policy regarding class attendance. Being more than 5 minutes late for class will count as an absence or leaving early without speaking to instructor.

Electronic devices, including cell phones, Blackberries, laptops, and so forth, are not to be turned on or used in class. If the use of these devices is detected by the course instructor, the particular student using the device will be asked to leave the class for that day.

**Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.

Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
