Students will formulate a macro level plan to assist the clients in the case study. Students will be asked to support their presentations using information from the textbooks, as well as to locate and use scholarly resources (e.g., peer reviewed journal articles, books, demographic research, creditable internet sources, and so forth). An outline will be provided to the instructor (including references). Students are expected to engage in research without regard to their own personal beliefs about the topic.

Your literature review should also include evidence based practices that can assist you with the population. This paper should be 3-5 pages not including the title and reference pages. You are required to use at least 5 peer reviewed and credible references.

Assignment Submission

All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at anne.scaggs@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

Student Evaluation of Faculty and Course

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
