Course Overview and Goals:
This course is designed to assist students in completing their thesis. There are two components of the course: completion of either an empirical research study, including its design and implementation or equal product, and completion of the written thesis document and defense.

Course Expectations:
Students enrolled in this course are expected to be in regular communication with me about their thesis project. This include meeting deadlines that are established based on where the project is at.

Required Textbooks:

Course Evaluation:
Writing: Substantive content and the quality of the student's writing will be considered in all written assignments. Substantive content includes closely following instructions for the content of the assignment. Quality of writing covers clarity of expression and organization, appropriate use of references and academic writing style, use of inclusive language, and correct grammar, spelling, and punctuation. Please contact the instructor if this is unclear or needs further explanation.

Written Work:
ALL written work that contains citations and/or references should conform to the Publication Manual of the American Psychological Association.

Please remember that mere submission of assignments does not necessarily constitute successful completion of them. Each piece of work submitted and/or presented will be evaluated in regard to quality factors such as cogency, clarity of presentation, adherence to APA publication and other guidelines, evidence of effort, and timeliness. All of these will be factored into your grade for each assignment.
