3. Receive a positive performance evaluation from the internship sponsor.

Course Philosophy and Additional Skills Developed: This course is designed to balance discussion and interaction with traditional lectures. Research has established that providing opportunities for active learning in the classroom usually improves the overall learning a student takes away from a course. Furthermore, the skills outlined below are critical to developing a desire for life-long learning required to succeed in your career of choice. With this in mind, this class and the lectures have been developed to engage students in discussion, small group work, and other activities to actively engage your participation. Therefore, the following ground rules are applied to the course:

1. Active participation - Everyone - students, professor, and visitors - will actively participate in the class on a daily basis. Attendance is not only expected, but imperative. A portion of your course grade will be dependent upon your active involvement in the course.
2. Cooperation and Mutual Respect - As leaders, we must learn to create an atmosphere of trust in our work teams. This means appreciating the unique set of experiences, beliefs and values each member brings to class. Another important element of trust and respect is listening. Good leaders are notable for the ability to listen to others and ask meaningful questions. Respectful turn-taking in both sharing and listening is expected.
3. Creativity – You will be challenged to create new thought. When we think through something for the first time, we are creating our logic, purposes and reasons for thinking. We are making new assumptions. We are forming new concepts. We are asking new
questions. We are making new inferences. We are working out a problem in a direction that is new to us.

4. Problem-solving – You will be required to not only identify problems but also to generate solutions and make recommendations based on a logical and thorough analysis of the alternatives.

5. Individual accountability – All members of the class will be held responsible for their own learning as well as the learning within their individual project teams. No member of any team should feel that he/she is doing more or less than an equal share of the project. Therefore, each team will be given the opportunity to sanction non-contributing team members through the following process: 1) verbal warning by the group with the professor as witness; 2) written warning by the team with a copy submitted to the professor; and 3) firing by the team by unanimous vote and sufficient written documentation provided to the professor.

**Required Readings**

Other readings are assigned in a timely manner as needed and are provided to you as PDF, MS Word format, or a link to an online resource will be provided.

**Grading Policies**

The internship class will required the following:

Journals – 40%
Performance evaluation – 40%
Final analysis – 20%

A pass or fail grade will be assigned by the instructor based on the performance evaluation completed by the employer, weekly journals of the work experience and a strategic analysis of the business or division.

**Response Time**
All assignments are due at the end of the semester will be graded and returned to the students by the end of finals week.

**Missed/Late Work**
Late assignments will be penalized one letter grade per class day.
Participation/Absenteeism

Attendance is essential as an intern working in a business or division. Absences greater than two are considered excessive and could be reflected in your final grade and performance report provided. Excessive absences are reported to the Office of Financial Aid for federal funding purposes.
