Course Title: Elementary Microbiology (3-0-1)

Course Number: NUR 2411

Prerequisite: Anatomy and/or Physiology

Course Description:

This course focuses on building knowledge in infectious microbiology for the nursing student. It includes lecture and laboratory formatted instruction designed to educate in core concepts in microbiology and application in a clinical setting.

Course Methods:

A variety of learning modalities will be employed in the course, including those involving individual as well as group efforts.

Course Objectives: Upon completion of the course, the student will be able to:

1. To demonstrate knowledge in discerning signs and symptoms of medically relevant infections due to viruses, protozoa, bacteria and fungi in order to apply knowledge in clinical settings
2. To develop individualized care plans for diseases resulting from infectious processes including pathogenesis, diagnosis, signs and symptoms, transmission, treatment modalities including antibiotic resistance issues, patient education
3. To demonstrate understanding of the methods of infectious transmission and the means by which these are controlled, including those related to hospital settings (nosocomial)
4. To demonstrate knowledge of the nature of antimicrobial resistance and to incorporate this knowledge within the context of providing appropriate healthcare
5. To demonstrate knowledge in administering quality care in the context of safe handling of infectious materials/patients in order to minimize risk of transmission

IDEA Objectives

- Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
- learning to apply course material (to improve thinking, problem solving and decision)
- learning how to find, evaluate and use resources to explore a topic in depth
Topical Outline:

(January 13)
Chapter 1 (Introduction to Microbiology)
Chapter 3 (Introduction to Prokaryotes)

(January 15)
Continue Chapter 3
Chapter 4 (Introduction to Eukaryotes)

(January 20/Holiday)

(January 22)
Continue Chapter 4
Chapter 6 (Viruses)

(January 27)
Continue Chapter 6
Chapter 7 (Fundamentals of microbial growth)

Exam One (January 29)-covers chapters 1, 3, 4 and 6

(February 3)
Chapter 7 (Fundamentals of microbial growth)

(February 5)
Review Exam One
Chapter 8 (Microbial Metabolism)

(February 10)
Chapter 9 (principles of infectious disease/epidemiology/pathogenesis)

(February 12)
Chapter 9 continued
Chapter 10 (host-microbe interactions)

(February 17)
Finish chapter 10
Chapter 11 (Innate Immunity)

(February 19)
Continue Chapter 11
Chapter 12 (Adaptive Immunity)

Exam Two (February 24)-covers chapters 7, 8, 9 & 10
(February 26)
Finish chapter 12
Chapter thirteen (Immune System Disorders)

(March 2)
Review Exam Two
Continue Chapter 13

(March 4)
Chapter fourteen (Vaccines)

Spring Break (March 9-13)

(March 16)
Continue Chapter 14
Chapter fifteen (Antimicrobial drugs)

(March 18)
Continue Chapter 15

(March 23)
Chapter 17 (skin /eye infections)

Exam Three (March 25)-covers chapters 11, 12, 13, 14 & 15

(March 30)
Continue Chapter 17

(April 1)
Review Exam Three
Chapter 16 (respiratory Infections)

(April 6)
Continue Chapter 16

(April 8)
Chapter 19 (Digestive system infections)

(April 13)
Continue Chapter 19
(April 15)
Chapter 20 (urinary and reproductive system infections)
(April 20)
Chapter 20 continued

(April 22)
Chapter 18 (Nervous System infections-select topics)

(April 27)
Chapter 21 (cardiovascular and lymphatic infections-select topics)

*Final /not comprehensive (May 4)/8 -10 AM*
*Covers chapters 16-21*

LAB Schedule (students have a copy of the lab session signed up for during registration)

D1Z first session
   2/14, 2/15
D1Z second session
   3/20, 3/21
D2Z first session
   2/21, 2/22
D2Z second session
   3/27, 3/28
D3Z first session
   2/28, 2/29
D3Z second session
   4/3, 4/4
D4Z first session (for online session)
   2/7, 2/8
D4Z second session (for online session)
   3/6, 3/7

*Teaching Methods/ Strategies:*

This course will be taught as an extension of a didactic, in class, course in Microbiology. It was created to support the growing numbers of students needing the course for completion of requirements toward entry into the nursing program. The course format will be exactly as for the lecture course. All recordings from the lecture portion of the course will be made available to students in the online course. A discussion board will be available for each class day in which students can ask questions of the professor and/or one another for assistance.
Laboratories are mandatory for this course and require campus attendance.

**Evaluation:** Course grades will be dependent upon meeting the learning objectives and completing activities of the course as follows:

- **Examinations (4)**: 80% (each worth 20%)*
- **case studies**: 10%
- **Laboratory**: 10%

A = 90-100%
B = 80-90%
C = 70-79%
Anything below 70 is failing grade

**Required Textbooks:**

Lourdes Norman-McKay
Microbiology/basic and clinical principles
Isbn -13: 978-0-321-92829-0

Microbiology Laboratories for the Nursing Student (Symbiosis-the Pearson custom library for the biological sciences)

Cowan, Microbe Files-case studies in microbiology

**Testing:**

Testing for the online course in microbiology will be online and will require the use of the lockdown browser and respondus monitor, which means all test taking will be videotaped for professor viewing. The bb course provides help instructions for this system, specifically in terms of using the lockdown browser and respondus monitor. Please ensure you have read that information. Make up tests are generally not allowed. Only under emergency situations will any request to delay test taking be considered. No consideration for taking an exam at a time other than indicated will be made if the professor does not receive communication by email from the student in advance of the start time of the exam. Additionally, if an exam has to be made up, it may take an alternate form.
Lectures:
All laboratories are mandatory. Lab manuals are required for this course.

Each student is required to attend two 2-day weekend labs, for a total of 4 days. They cannot be made up. If there is an issue in attending a lab session for which you have signed up, you must arrange a trade with another student and you must notify me via email.

- Failure to make arrangements with another student, ie trade lab days, will generate a 0 for the lab.
- Failure to bring the lab manual to the lab sessions will generate a 0 for the entire lab.
- Failure to attend both days of a lab will generate a 0 for the lab.

General Policies Related to the Course:
All students are required to follow the policies and procedures presented in the following documents:

- ASU Graduate Catalog located on the ASU website https://www.angelo.edu/catalogs/ and
- University Undergraduate Nursing Handbook, located on the Nursing website: http://www.angelo.edu/content/files/19304-undergraduatetudenthandbook20132014pdf

STUDENT RESPONSIBILITY & ATTENDANCE
In order to complete this course successfully, you do have to participate in all course activities, including assignments, discussions in class, quizzes, exams and projects. Students are expected to engage in course activities and submit work by due dates and times.

Homework policy: All work must be turned in on the specified due date. Most of the time the homework will be submitted to assignment links in blackboard. I will announce through blackboard any deviation from this practice. Homework is assigned well in advance of a due date. Since most of the assignments are submitted through blackboard there should be very few reasons that justify late submissions.

Late homework policy: For every class day that an assignment is late, 20 points will be deducted from earned grade. If I receive an email from you prior to missing class, and an assignment was due to be turned into class as opposed to submission to blackboard, you will be allowed the next class date or Friday of the week you missed class to get the assignment turned in.
Missing assignments due to absence:
If you must miss class, please email instructor in advance of class that will be missed. If email is received, any work that was missed can be made up. However it is the student’s responsibility to stay on top of missed work, not the instructor. Additionally, for planning purposes, this class will probably require a minimum of 5-6 study hours per week on average.

COMMUNICATION

Faculty will respond to email and/or telephone messages within 24 hours during working hours Monday through Friday. Weekend messages may not be returned until Monday although reasonable attempt will be made to accommodate learning during this time.

Written communication via email: All private communication will be done exclusively through your ASU email address. Check frequently for announcements and policy changes.

Instructor communicates exclusively through blackboard email and announcements outside of face to face classroom communication. Instructor also follows up in announcement format to all students reminders of due dates, assignments, etc.

Instructor office hours include:
Monday through Thursday 9:30 to 11:00. Email notification of intent for conference or visit is preferable to ensure responsible scheduling.
Jacqueline.brown@angelo.edu
Instructor office: Archer College 318N
Instructor office phone number: 325-486-6864

ACADEMIC INTEGRITY

Academic honesty is expected on all work. Students are expected to maintain complete honesty and integrity in their educational experiences. Any student found guilty of any form of dishonesty in academic work is subject of disciplinary action and possible expulsion from ASU. All codes and policies are set forth in the University Student Handbook of Angelo State University http://www.angelo.edu/student-handbook/ as well as the Department of Nursing Undergraduate Student Handbook http://www.angelo.edu/dept/nursing/handbook/index.html.

PLAGIARISM
Plagiarism at ASU is a serious topic. The Angelo State University’s Honor Code gives specific details on plagiarism and what it encompasses. Plagiarism is the action or practice of taking someone else’s work, idea, etc., and passing it off as one's own. Plagiarism is literary theft.

In your discussions and/or your papers, it is unacceptable to copy word for word without quotation marks and the source of the quotation. We use the APA Style Manual of the American Psychological Association as a guide for all writing assignments. Quotes should be used sparingly. It is expected that you will summarize or paraphrase ideas giving appropriate credit to the source both in the body of your paper and the reference list. Papers are subject to be evaluated for originality via Bb Safe Assignment or Turnitin. Resources to help you understand this policy better are available at the ASU Writing Center http://www.angelo.edu/dept/writing_center/academic_honesty.php.

STUDENTS WITH DISABILITIES
1. “Angelo State University is committed to the principle that no qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments Act of 2008 (ADAAA), and subsequent legislation.”

2. “Student Contact: The Student Life Office is the designated campus department charged with the responsibility of reviewing and authorizing requests for reasonable accommodations based on a disability, and it is the student’s responsibility to initiate such a request by contacting the Student Life Office, Room 112 University Center, at (325) 942-2191 or (325) 942-2126 (TDD/FAX) or by email at Student.Life@angelo.edu to begin the process.”

Reasonable accommodations will be made for students determined to be disabled or who have documented disabilities.

INCOMPLETE GRADE POLICY (OP 10.11 Grading Procedures)
It is policy that incomplete grades be reserved for student illness or personal misfortune. Please contact faculty if you have serious illness or a personal misfortune that would keep you from completing course work. Documentation may be required.

STUDENT ABSENCE FOR OBSERVANCE OF RELIGIOUS HOLY DAYS
1. “A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence.” Please see ASU Operating Policy 10.19.

COPYRIGHT POLICY
Students officially enrolled in this course should make only one printed copy of the given articles and/or chapters. You are expressly prohibited from distributing or reproducing any portion of course readings in printed or electronic form without written permission from the copyright holders or publishers.

SYLLABUS CHANGES
The faculty member reserves the option to make changes as necessary to this syllabus and the course content. If changes become necessary during this course, the faculty will notify students of such changes by email, course announcements and/or via a discussion board announcement. It is the student’s responsibility to look for such communications about the course on a daily basis.

COURSE EVALUATION
Students are provided the opportunity, and are strongly encouraged to participate in a course evaluation at the end of the semester. Areas on the IDEA evaluation include:

- gaining factual knowledge
- learning to apply course material (to improve thinking, problem solving and decision)
- acquiring an interest in learning more by asking questions and seeking answers
- learning how to find and use resources for answering questions and solving problems
- developing skill in expressing oneself orally and in writing
- learning to analyze and critically evaluate ideas, arguments and points of view
