**Grading System**
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:

- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)

**Teaching Strategies**
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

**Assignment and Activity Descriptions**
*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.*
Professional Performance 10%
This is relevant to attendance; engaging in class activities, including frequency and quality; professional presentation; and any factors that would normally be evaluated in a professional social work setting. Essentially, ask yourself if what you are doing would be perceived as professional in an employment setting among social workers.
Please note that I view absences from class in the same way as an employer and co-workers might see absences from work. An absence may be excused for academic purposes (medical issues, deaths, school sports, etc) as it might at work, but in a professional setting, to miss work, you must take PTO, and once you run out of PTO/sick leave, if you miss work, you do not get paid. Missing a certain number of days often results in a write-up. Also, missing work often requires other staff to pick up the excess work, clients go without assistance, etc. Therefore, any absence will result in point deductions in professional performance.

Meetings/Discussion Threads 20%
Students will attend 1 organizational meeting. Students can select any of the following meetings (meeting must be a minimum of 45 minutes long):
- City Council meetings
- County Commissioners meetings
- AA or NA meetings
- Any governmental committee meeting
- Town hall meetings
- Non-profit agency board of directors meetings
- Non-profit agencies coalition meetings
- Support group meetings
- Public Trainings
- Other meetings may be accepted with prior approval of the instructor
Students will provide verification of their attendance of the meeting as well as a summary of the activities of the meeting which will be submitted as a discussion thread. Your summary must include the student’s reaction to the meeting.

It is the student’s responsibility to ensure that their attendance at the meeting is in no way disruptive to the meeting and that students do not misrepresent their motivations for being in the meeting (ex: students should not act as if they have a drinking problem in an AA meeting if the student doesn’t actually have a substance use issue).

There will be 5 additional discussion threads (the meeting will be shared in a separate discussion thread). Discussions will cover readings. You must respond to at least 2 of your peer’s posts with in depth responses supported with at least 1 peer reviewed journal article or your course text.
Examinations 30%
There will be three examinations in this course. Each examination will cover a portion of assigned readings, classroom lectures, classroom activities, grants, the NASW Code of Ethics, the Texas Board of Social Work Examiners (TBSWE) Code of Conduct, and the TBSWE Scope of Practice.

Assessment Papers 40%
Throughout the semester, students will write 3 papers in order to develop their ability to engage, assess, intervene, and evaluation groups, organizations, and the community. Each paper will conform to the standards of the *Publication Manual of the American Psychological Association, 7th Edition* (2019). Each paper will be no more than 5 pages in length (not including cover page and references).

Group Paper
Students will apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with and assess a small group (i.e. a campus group such as a fraternity, sorority, Korean Student Association, etc NOT SSWA or Phi Alpha). Students will discuss how to engage the group, how to assess any unmet needs of the group, select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of the group in order to address the needs, and then select and use appropriate methods for evaluation of outcomes of the proposed intervention. Students MUST use 3 peer reviewed journal articles in addition to any other resources utilized. When writing the paper, please follow the outline below.

I. Introduction
II. Engagement
   a. Brief history of the group
   b. Purpose of the group
   c. Characteristics/Demographics of the group members
   d. Discuss how you would use empathy, reflection, and interpersonal skills to engage the group
III. Assessment
   a. Current objectives used to meet group purpose
   b. Discuss group perceptions of their current work (how does the group think they are doing?) Include a discussion of the groups strengths and limitations
   c. Identify areas of additional needs
IV. Proposed Interventions
   a. Identify 2 needs and propose an intervention for each need.
   b. Discuss the benefits and outcomes of each intervention
   c. Clearly layout how you would implement one of your 2 proposed interventions
V. Proposed Evaluation  
a. Discuss how you will evaluate the efficacy of your chosen intervention (i.e. pretest/post-test, survey etc.)

VI. Conclusion

identified community issue. Students will discuss how to engage with stakeholders and key individuals within the community, how to assess any unmet needs of the community, select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of the community in order to address the needs, and then select and use appropriate methods for evaluation of outcomes of the proposed intervention. Students MUST use 3 peer reviewed journal articles in addition to any other resources utilized. When writing the paper, please follow the outline below.

I. Introduction

II. Engagement
   a. Describe identified community need
   b. Identify Stakeholders and Key Individuals (who will be able to help address the need)

Assignment Submission
All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at ckading@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

Late Work or Missed Assignments Policy

The course is set up on weekly modules. The week begins on Monday and ends on Sunday.
Assignment due dates are shown on the calendar/schedule of this syllabus or posted within Blackboard. Failure to submit your assignments on the assigned date will result in a 10 point deduction for the first day and a 5 point deduction for each day after the posted deadline. No papers or postings will be accepted more than one week past the assigned due date.

Exams and quizzes cannot be made up for any reason.

**General Policies Related to This Course**

Grading Rubrics Student Evaluation of Faculty and Course
Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
