Statement on Required Use of Masks/Facial Coverings by Students in Class At Angelo State University
As a member of the Texas Tech University System, Angelo State University has adopted the mandatory
Facial Covering Policy to ensure a safe and healthy classroom experience. Current research on the COVID-
19 virus suggests there is a significant reduction in the potential for transmission of the virus from person
to person by wearing a mask/facial covering that covers the nose and mouth areas.
Therefore, in compliance with the university policy students in this class are required to wear a
mask/facial covering before, during, and after class. Faculty members may also ask you to display your
daily screening badge as a prerequisite to enter the classroom.
You are also asked to maintain safe distancing practices to the best of your ability. For the safety of
everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the
classroom immediately. The student will be responsible to make up any missed class content or work.
Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action
through the Office of Student Conduct.

Seating: Everyone will assigned a place to sit on the first day of class, and will be expected to sit in that
same seat for the duration of the semester. ASU Administration has asked that we do this in the event
that we need to do contact tracing at any time durign th semester. If you need to sit closer to the front,
let me know immediately, and can make changes to the seating arrangement that first day. Once seating
is finalized that day, we have been asked to not alter it. Thanks you in advance for your cooperation in this
matter.

Required Text: What’s That Sound; An Introduction to Rock and Its History, 5th edition, by Covach and Flory
The student will also be asked to purchase one album, to be assigned by the professor, as part of one of the
class projects.

Course Description: A study of the predecessors to and evolution of rock music from the early 50’s through the
developments to the present. The course is designed for non-music majors.

Some of the materials presented in this class, in addition to being historical, are very graphic and direct, using
language that some may object to, and referring to practices that are not just outside of the mainstream, but
also in many cases, illegal. They are part of the culture we will be studying, and we would be doing the course
a disservice by ignoring them.

Major Course Objectives:
• Gaining factual knowledge (terminology, classifications, methods, trends)
• Learning fundamental principles, generalizations, or theories
• Gaining a broader understanding and appreciation of intellectual/cultural activity (music, science,
  literature, etc.)
• Developing a clearer understanding of, and commitment to, personal values.

Student Learning Outcomes: The students will be able to:
• Recognize, define, and employ significant terms and concepts introduced in the readings or lectures.
• Employ a range of technical language to identify, discuss, compare, and integrate aspects of musical
  style within the rock, blues, or rhythm and blues idiom.
• Identify representative pieces chosen from each period, and draw intelligent conclusions about
  probable genre, artist, possible recording labels, and approximate date.
• Listen to an example from a genre of music studied in class, comprehend its distinctive characteristics, and articulate those characteristics.
• Listen, read and think critically about the relationship between musical style and cultural history.
• Listen to an example from a genre of music studied in class, and articulate a comparison to other music genres discussed in class.
• Describe musical examples with regard to the student’s personal likes and dislikes, using factual knowledge gained in class to justify these opinions.
• Demonstrate the ability to work effectively with others to support a shared purpose or goal.

**Method of Assessing Learning Outcomes:**
Learning outcomes will be assessed by:
• Three Exams (100 points each)
• One CD Review (200 points)
• One Teamwork Project (100 points)
• Final Exam (200 points)
• Total points for course - 800

The grading scale is as follows:
• 90-100% (720 to 800 points): A
• 80-89% (640 to 719 points): B
• 70-79% (560 to 639 points): C
• 60-69% (480 to 559 points): D
• 59% and below (0 to 479 points): F

**Exams:**
The three exams will be given via Blackboard on the following dates.
   Monday, September 14, 2020
   Monday, October 5, 2020
   Monday, October 26, 2020

Test access will begin at 12 AM (midnight) and end at 11:59 PM on each of the specified dates above.

Included in the exams will be a section on Tune Identification. What that means is that I will play a portion of a tune and the students will identify the tune and the artist from a list included on the test.

Makeup exams will not be given except under emergency situations, such as a death in the family, or accidents/illnesses that involve hospitalization.

**CD Review Assignment:**
The CD Review Assignment will be due on **Thursday, November 5th, 2020**. I will accept assignments until 11:59 PM on this date. The student will write a review of an important album assigned at the beginning of the semester. Each album will be randomly chosen by the professor. Each student will be assigned a unique album from every other student, which will be purchased by the student (unless the student already owns the album in question).

**Please do not discuss these bullet pointed items in a tune-by-tune fashion.** I am looking for the general approach the musicians take over the course of the entire album. Discussing melody, harmony, rhythm, etc. for each individual tune will take you far too long to do, and take far too long for me to grade. **I will deduct 20 points (a letter grade) from your score if you do this.**

Please turn all assignments via the link in Blackboard, or to my campus email address, tbonenfant@angelo.edu.

Each album will have its own unique issues which need to be discussed. My office hours are an ideal time to ask questions concerning your specific CD. Please have your CD with you when calling so that I can use it to help demonstrate answers to your questions.

Teammwork Project: Rock and Roll Space Capsule Project: The Golden Record
Pioneers 10 and 11, which preceded Voyager, both carried small metal plaques identifying their time and place of origin for the benefit of any other spacefarers that might find them in the distant future. With this example before them, NASA placed a more ambitious message aboard Voyager 1 and 2, a kind of time capsule, intended to communicate a story of our world to extraterrestrials. The Voyager message is carried by a phonograph record, a 12-inch gold-plated copper disk containing sounds and images selected to portray the diversity of life and culture on Earth.

Rock and Roll Space Capsule Project
The Rock and Roll Space Capsule Project will be due on Tuesday, November 17th, 2020. I will accept assignments until 11:59 PM on this date. For this project, groups of four will be formed, assigned randomly by the professor once the class roster has been finalized. Each team will be responsible to collect a list of music from the entire history of rock and roll that showcases the span of musical achievement and significance in that genre.

Each team will turn in these two items:
1) Teamwork Assessment Form
2) Rock and Roll Space Capsule Report

Each team will come up with a list of ten musical selections that are significant in the history of rock and roll. Think about your social responsibility to include a diverse body of rock music and musicians for this project. Remember to think globally instead of only locally or individually. It is possible to pick selections of music that you may not personally like or identify with. You may consult with your classmates, friends, and relatives when constructing this list.

Each team will then work together to create a final list of ten rock and roll songs and write the rationale for each song’s inclusion.

Once the Teamwork portion is finished, each student will complete and submit a Teamwork Assessment Form. This form evaluates the contributions of each member of the team and will be kept confidential.

Any student who does not fill out Teamwork Assessment Form will receive a zero (0/100) for the entire assignment.
The Report

1) List the ten music selections included in the report IN CHRONOLOGICAL ORDER:
   10 points: 1 point per song.
   Each song’s appropriateness to the list will be graded here.
2) Each song should include a YouTube link:
   5 points: ½ point per song.
3) Write a short paragraph for each song, discussing the reasons for that song’s inclusion on this list:
   25 points: 2 ½ points per song.
   Your reasoning for each song’s inclusion will be graded here.
4) Things to consider when choosing songs for this list:
   A) their influence upon the history of rock music
   B) How do the songs represent the social, political, and cultural issues of their respective time?
   C) Do the songs represent each era (50s, 60s, 70s, 80s, 90s, 2000s, 2010s) up to the present day?
   30 points: 3 points per song.

The Teamwork Assessment Form

The Teamwork Assessment Form will be worth 30 points. Any student who does not fill out Teamwork Assessment Form will receive a zero (0/100) for the entire assignment.

Final exam:
The final exam will be given on **Saturday, November 21st, 2020**, and is comprehensive in nature. It will be similar in format to the other tests given during the semester. Test access will end at 11:59 PM on that date.

Academic Honesty:
Angelo State University expects its students to maintain complete honesty and integrity in their academic pursuits. Students are responsible for understanding the Academic Honor Code, which is contained in both print and web versions of the Student Handbook. In essence, the willingness to cheat undermines our purpose at the university.

Plagiarism includes letting your parents write your essay (even small portions) or turning in an essay from high school for credit in this class. **Terminology for Listening Guides and CD reviews:**

**Rhythm; Meter:** Most tunes in Rock and Roll will be in what is called 4/4 time; that is, patterns of 4 beats in a repetitive manner. See “Will You Still Love Me Tomorrow?” above.

Other common meters are ¾ (see “If You Don’t Know Me By Now”) http://www.youtube.com/watch?v=MKGfT3PmaLc&feature=related

Tempo - slow/medium/fast; Are there any repetitive rhythmic patterns, as in this example from Curtis Mayfield?

Other possibilities are singing a high note on the word “high” or the word “heaven”; singing a low note on the word “low” or the word “bottom”; singing a rapid series of notes on the word “running” etc.

**Melody/Harmony**

Syllabic: one note per sung syllable (see first six words in “If You Don’t Know Me By Now”)

Melismatic: two or more notes per sung syllable (Next word – “now” has two notes)

Melismas are very common is gospel and blues music: See “I Got A Woman” by Ray Charles http://www.youtube.com/watch?v=Mrd14PxaUco&list=PL2E739639829E0D78&lf=BFp

Major / minor; the two basic types of keys; major keys sound happy or upbeat; minor keys sound forlorn or sad; For an example; the opening of “I’ll Be Missing You” by Puff Daddy starts out in a minor key, but moves to a major key at 0:49.

Consonant / Dissonant; dissonance is harsh, clashing sound, creating tension. Consonance is associated with the resolution of that tension For example: compare the opening of “Heroin” by the Velvet Underground (Consonant) to the same tune at 5:00 (Dissonant).

Timbre is simply a description of the instruments and voices you are hearing;

The most common timbres we hear in Rock are vocals (lead and background) electric and acoustic guitar, electric bass, and drum set. We will also sometimes hear piano/keyboard, saxophones and other wind instruments, orchestral strings, etc. Timbre can also describe a change to the basic characteristic sound of an instrument. The most common example you will run into throughout the semester would be distortion on an electric guitar.

Electric guitar without distortion: Allman Brothers – Ramblin’ Man

Electric guitar with distortion: Led Zeppelin – Whole Lotta Love

Dynamics is the musical term for Volume; soft – medium – loud

Texture: You will encounter three basic kinds of texture:

**Monophonic:** one melody line WITHOUT accompaniment: Son House – John The Revelator

**Homophonic:** a melody, with an accompanying background that’s is clearly subordinate. Most rock and roll is in this type of texture; see “At Last” by Etta James. http://www.youtube.com/watch?v=_1uunRdQ61M

**Polyphonic:** two or more melodies being performed simultaneously;

See the chorus of “Good Vibrations” by the Beach Boys

1) First melody in low voices – 0:25
2) Second melody in middle voices as first voice continues – 0:32
3) Third melody enters in high voices as first two voices continue – 0:38

Word-Music Relationships

Does the overall mood of the music fit the overall mood of the lyrics? See “I’ll Be Missing You” opening above (The mood can be the opposite of the lyrics for an ironic affect.)

**Example of word painting:** “Helplessly Hoping” by Crosby, Stills and Nash

In these lines, the numbers stated in the text match the number of voices actually singing the line:

Other possibilities are singing a high note on the word “high” or the word “heaven”; singing a low note on the word “low” or the word “bottom”; singing a rapid series of notes on the word “running” etc.
