Course Syllabus Statement on Required Use of Masks/Facial Coverings by Students in Class At Angelo State University

As a member of the Texas Tech University System, Angelo State University has adopted the mandatory Facial Covering Policy to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.

No Food or Drink Policy

Due to COVID-19, there will be no food or drink allowed in any classrooms, seminar rooms, or public gathering areas in the Health and Human Service building until further notice. The only exception to this policy is a student may have bottled water or water in a container that is able to be sealed and will not spill or leak.

Program Outcomes
Upon completion of the program of study for the MSW program, the graduate will be prepared to:

**Competency 2: Engage Diversity and Difference in Practice.** Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture’s structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.

**Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities.** Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of interprofessional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision-making.

**Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities.** Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of interprofessional teamwork and communication in interventions, recognizing that beneficial outcomes may require interdisciplinary, interprofessional, and inter-organizational collaboration.

Grading System

Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:

- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)
Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions
*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.

Professional Performance: This is relevant to attendance; engaging in class activities, including frequency and quality; professional presentation; and so forth. An expectation of a professional social worker is that they are present in their practice setting. The expectation for students in a social work program is that they are motivated to learn and have a sense of dedication to their studies. Thus, my expectation of you is that you will be present in class. Class begins and ends at the scheduled time. Students are to be present for the duration of class. It is expected that all other demands of your time-work, family, appointments, other courses, etc. will be negotiated. Students will be requested their full presence in class, physical and intellectual presence.

Examinations: There will be four (4) online, multiple attempt (two), timed (75 mins), examinations in this course. You will not be allowed to use books, notes, ppts, or any other type of assistive materials. Each of these examinations is worth 10% of your total course grade. You will take each of these examinations via Blackboard using the Respondus LockDown browser.

Resume and Personal Narrative
Each student will write a resume in this course; students are encouraged to seek assistance from the career development center (UC 114) on campus in completing this assignment. Additionally, each student will complete a personal narrative, at least five pages in length (the paper can be longer if necessary) including cover sheet and references (references are expected) covering the following sections conforming to the standards of the Publication Manual of the American Psychological Association, 6th Edition (2010):

1. your understanding of the social work profession (including its historical development, mission, and values) and how the social work profession is similar to and differentiated from sociology, psychology, psychiatry, and counseling;

2. list and define all six core values of the social work profession; discuss the relationship of these core values to the NASW Code of Ethics; choose at least two of the core values of the social work profession and discuss their importance to you and the social work profession;

3. discuss why you desire to enter the social work profession; include a discussion of the following: your personal identification with the social work profession; the ecological
paradigm (person-in environment perspective, biopsychosocial approach to clients), advocacy for client access to social work services, your conceptualization and appreciation of human diversity, and generalist social work practice;

4. discuss three of your personal strengths and three of your personal weaknesses or challenges covering the following points;

   a. how your personal strengths will help you become a professional social worker; and

   b. how you plan to overcome any personal weaknesses or challenges to become a professional social worker; and

5. discuss your future goals as a professional (e.g., graduate work in social work, social work employment, social work career path, career-long learning plan, and so forth).

Group Power Point Presentations

Each student will read the Ritter, Vakalahi, and Kiernan-Stern (2009) text, in conjunction with the main social work text for the course, as assigned. Students will sign-up in groups to present on a particular practice setting in social work during the semester. The topics include Social Work and Children/Families; Social Work and Health Care; Social Work and Mental Health/Substance Abuse; Social Work and Aging; Social Work and Criminal Justice; and Social Work and Administration/Policy/Community Practice.

The power point presentation should cover the following:

1. The nature of the particular area of social work practice.

2. The role and function of social workers in that particular area of social work practice on the micro and macro levels of practice.

3. Related professional organizations; degree level, licensure, and/or certification required for practice in the particular area; and salary.

Students will be awarded a grade based on the quality of presentation, information provided, use of APA, and relevance of PowerPoint Slides.

Students are required to notify the instructor of the topic each intends to discuss by the date identified in the Syllabus.

Assignment Submission

All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at tstarkey@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-
2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

Late Work or Missed Assignments Policy

POLICY ON LATE OR MISSED ASSIGNMENTS
The course is set up on weekly modules. The week begins on Monday and ends on Sunday. Assignment due dates are shown on the calendar/schedule or posted within Blackboard. Failure to submit your assignments on the assigned date will result in a 10 point deduction for the first day and a 5 point deduction for each day after the posted deadline. No papers or postings will be accepted more than 5 days past the assigned due date.

General Policies Related to This Course
All students are required to follow the policies and procedures presented in these documents:

Course Syllabus Statement on Required Use of Masks/Facial Coverings by Students in Class At Angelo State University
As a member of the Texas Tech University System, Angelo State University has adopted the mandatory Facial Covering Policy to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.
No Food or Drink Policy

Due to COVID-19, there will be no food or drink allowed in any classrooms, seminar rooms, or public gathering areas in the Health and Human Service building until further notice. The only exception to this policy is a student may have bottled water or water in a container that is able to be sealed and will not spill or leak.

**Grading Rubrics**

**Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.

Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
2. Developing knowledge and understanding of diverse perspectives, global awareness, or other cultures
3. Learning to apply course material (to improve thinking, problem solving, and decisions)
4. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course
5. Acquiring skills in working with others as a member of a team
