### Class Mask Policy

As a member of the Texas Tech University System, Angelo State University has adopted the mandatory [Facial Covering Policy](#) to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.

### Course Delivery

This is a face-to-face course with learning resources and supplemental materials posted in Blackboard. The course site can be accessed at [ASU's Blackboard Learning Management System](#).

**COVID-19 Course Organization/Delivery**

Due to COVID-19, students will be separated into two groups: one group will attend class on Tuesday, and the other will attend class on Thursday; this is to make sure there is appropriate social-distancing at all times. You will receive an email from your professor telling you which course day to attend class. **The same course material will be covered on each day**
and material will be captured through Knowmia which will be uploaded after class (for online viewing for those unable to attend the specific class day in person). Assignments and their due dates will be based on whether students are in the Tuesday or Thursday class. (see the course schedule below).

**Required Texts and Materials**

**Technology Requirements**
To successfully complete this course, students need to be able to access [Blackboard] as well as [FlipGrid] for class activities/assignments. FlipGrid will be used to record responses regarding class activities and to respond to other classmate’s posts.

**Communication**
Faculty will respond to email and/or telephone messages within 24 hours during working hours Monday through Friday. Weekend messages may not be returned until Monday.

**Written communication via email:** All private communication will be done exclusively through your ASU email address. Check frequently for announcements and policy changes. In your emails to faculty, include the course name and section number in your subject line. (PSY 2110 010)

**Virtual communication:** Office hours and/or advising may be done with the assistance of the telephone, Collaborate, Skype, Zoom, etc.

When making videos on FlipGrid, writing reflections, or responding to others on FlipGrid, please do not use offensive language or derogatory remarks. Please be respectful of other students.

**Grading**

**Evaluation and Grades**
Course grades will be determined as indicated in the table below.

Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:
- A = 189-210 points
- B = 168-188.9 points
- C = 147-167.9 points
- D = 126-146.9 points
- F = 0-125.9 points

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions

FlipGrid Activities (https://flipgrid.com/lippi3349)
Students will be asked to complete FlipGrid assignments, responding to prompts given by the professor. These will involve a student uploading a video of themselves responding on the specific prompt on the FlipGrid assignment page set up by the professor. In addition to making an original post, students will also need to respond to another students post. These responses should be meaningful and provide some additional commentary. Please note: simply saying “I agree” will not get you points. Please provide thoughtful feedback/commentary/responses to posts. Students in the Tuesday section will have their original FlipGrid posts be due by 11:59PM Thursdays and their response to another student’s FlipGrid post will be due by Monday at 11:59PM. Students in the Thursday section will have their original FlipGrid posts be due by 11:59PM Saturday and their response to another student’s FlipGrid post will be due by Wednesday at 11:59PM (please see course schedule at the end of the syllabus).
Reflection/Writing Assignments
Throughout the course, students will complete reflection papers. These papers are not meant to be long, but rather a short paper that allows the student to adequately reflect on the given topic. With the exception of the resume/CV, each reflection paper should be no more than 1.5 pages (double spaced, 1” margins, Times New Roman font). Students will be asked to write 4 write-up/reflection papers throughout the semester covering the following topics: Faculty interview, Resume/CV, Career assessment, and job search. These reflection/writing assignments will be submitted through assignment links in Blackboard.

Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at stephen.lippi@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

Action Plan
At the end of the 8 week course, students will submit an “Action Plan” assignment. This is meant to get the student thinking about what future courses in the Psychology department they would want to get involved in, what certificate programs are of interest to them, and come up with a plan for future semester courses they intend on taking. More information about this assignment will be discussed in class and provided on Blackboard.

POLICY ON LATE OR MISSED ASSIGNMENTS
Due dates and times for assignments are posted. Failure to submit your assignments on the assigned date will result in a 10 percent deduction for each day after the posted deadline. No papers or postings will be accepted more than one week past the assigned due date.

General Policies Related to This Course
All students are required to follow the policies and procedures presented in these documents:

Plagiarism

Plagiarism is a serious topic covered in ASU’s Academic Integrity policy in the Student Handbook. Plagiarism is the action or practice of taking someone else’s work, idea, etc., and passing it off as one’s own. Plagiarism is literary theft.

In your reflection papers, it is unacceptable to copy word-for-word without quotation marks and the source of the quotation. It is expected that you will summarize or paraphrase ideas giving appropriate credit to the source both in the body of your paper and the reference list.

Papers are subject to be evaluated for originality. Resources to help you understand this policy better are available at the ASU Writing Center.

Grading Rubrics

Student Evaluation of Faculty and Course

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
