Grading

Evaluation and Grades

Exams (65% of grade):
There will be three exams and a final for this course. In fairness to all students, there will be no change in the scheduled date or time of the exams. Exam dates are listed in the calendar below. All exams will require Respondus Lock Down Browser. Exams will become available following class on Wednesday and will be open until 11:59 p.m. the following Saturday. Exams will consist of multiple choice, true-false and short answer questions.

Participation (20% of grade):
For in person participation, attendance will be taken daily. We will have discussions in each lecture and you will be expected to participate or you could lose your point for the day. For online participation, you must watch the entire lecture and respond to any questions prompted in the lecture to receive participation points. Yes, I can see how long you watched it.

Homework Assignments (15% of grade):
There will be weekly homework assignments that you will complete via Connect. These assignments are to help ensure that you understand the materials you are reading, and we are discussing in class. Completing these homework assignments are also a useful study technique. Completing these homework assignments are mandatory and should take you about 20 minutes to complete AFTER reading each chapter. DO NOT wait until the last minute to attempt to complete them. After the 11:59 p.m. deadline the assignment will no longer be available, and you will receive a 0 for that assignment. No Exceptions. Many of the questions seen in the assignments will be similar to the questions that will be on the exams, so it is in your best interest to use this as a study technique.

Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:
- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions
Assignment Submission
All homework assignments MUST be accessed and submitted through the homework assignment links in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at paige.trubenstein@angelo.edu and attach a copy of what you are trying to submit.

Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

General Policies Related to This Course
All students are required to follow the policies and procedures presented in these documents:

*Face Covering* - As a member of the Texas Tech University System, Angelo State University has adopted the mandatory *Facial Covering Policy* to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering.
before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.

Lectures and Readings - Students are responsible for all material presented in lecture or covered in assigned readings. Prior to lecture, students are expected to have read any materials assigned for the week. Lectures are not meant to reiterate all material covered in the textbook but rather will emphasize and elaborate on key issues, and introduce additional new material not covered in the textbook.

In Person Etiquette –Please be in your seats before the start of class. If you are late, please quietly take a seat in the back. If you know that you will need to leave early, please sit in the back and leave as quietly as possible. You are expected to silence your cellphone while in lecture or discussion. You are expected to always treat the instructor and classmates with respect. Any disrespect will not be tolerated, and you will be asked to leave. Repeated violations or dismissals will result in consultations with the instructor.

Online & Email Etiquette - When emailing, include the class number (Psyc2304) & your full name in the subject line. Keep in mind there are many students in this class, by adding this you will help me clearly identify you. Write in clear coherent sentences in the body of the paragraph. Remember, you are not texting your friend, you are writing to an instructor for help.

Late or Missed Assignments - Due dates and times for assignments are posted on the syllabus and on Blackboard. Failure to submit your homework and/or participation assignments on or before the assigned date will result in a 0 for that homework and/or participation assignment. Faculty reserve the right to deduct points for late assignments that are accepted past the original due date after consultation and approval for submission with the instructor.

**Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.

Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
