Course Information

As a member of the Texas Tech University System, Angelo State University has adopted the mandatory Facial Covering Policy to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct. Also, due to COVID-19, there will no food or drink allowed in any classrooms, seminar rooms, or public gathering areas in the Health and Human Services building until further notice. The only exception to this policy is a student may have bottled water or water in a container that able to be sealed and not spill or leak.

There is one practice quiz: a short 10 question practice quiz over ASU trivia that is not graded. This tool will be available to the student to assure accessibility. Students are highly encouraged to go through the practice quiz in advance of taking a graded quiz. This process will allow you to become familiar with the technology associated with testing and improve the testing environment. These quizzes, instructional videos, and more information regarding Respondus Monitor can be found under the Respondus Monitor Help tab in your Blackboard course.

Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:
- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions
*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.

Professional Performance 10%

This is relevant to attendance; engaging in collaboration activities, including frequency and quality; professional presentation; and any factors that would normally be evaluated in a professional social work setting. Essentially, ask yourself if what you are doing would be perceived as professional in an employment setting among social workers.

Please note that I view absences from collaborate in the same way as an employer and co-workers might see absences from work. An absence may be excused for academic purposes (medical issues, deaths, school sports, etc.) as it might at work, but in a professional setting, to miss work, you must take PTO, and once you run out of PTO/sick leave, if you miss work, you do not get paid. Therefore, any absence will result in point deductions in professional performance.

Discussions Posts and Peer Feedback 15%
Students are expected to answer each weekly discussion question. Each student must post an original response by Wednesday. If you do not participate in the weekly group discussion, you will receive a “0”. All students will also respond to at least 1 of your peer postings each week. The responses to your peers must be more than: “I agree with you”, “Great post”, etc. There needs to be critical thinking, relevant content to topic, and content from the book. (You must locate at least 1 peer reviewed journal article or use your book as a resource for your post. You must also respond to at least 1 of your peer’s posts making sure you use a credible resource for each post). All discussions are due by Sunday @ 11:59 PM within current week.

**Ethical Dilemma Assignments**

20%

There will be 4 ethical dilemma vignettes during the semester where you are expected to utilize the content from the textbook to provide a 1-2-page response, which you will post in the discussion board section.

**PowerPoint Presentation**

25%

Your course project involves a power point on a topic of your choice. You will make this presentation as if you are giving to other professional social workers and it will be an ethics driven presentation. You must include not only content from the textbook, but you will need to include 5 peer-reviewed journal articles as well. You will record the PPT presentation and upload into Blackboard Each PPT presentation will be at least 15 minutes long, but not more than 25. I will provide you a rubric in the next couple of weeks with more guidelines. You will need to cite and reference your PPT as you would a paper. Each student will watch and provide feedback to at least 4 other students PPT presentation.

**Examinations**

30%

There will be four (3) timed examinations (75 minutes with the final being 120 minutes) in this course. You will have 2 attempts for each exam. Each of these examinations is worth 10% of your total course grade. You will take each of these examinations via Blackboard using the Respondus Monitor LockDown browser.
Assignment Submission
All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at ttilford@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

Late Work or Missed Assignments Policy

POLICY ON LATE OR MISSED ASSIGNMENTS
The course is set up on weekly modules. The week begins on Monday and ends on Sunday. Assignment due dates are shown on the calendar/schedule or posted within Blackboard. Failure to submit your assignments on the assigned date will result in a 10 point deduction for the first day and a 5 point deduction for each day after the posted deadline. No papers or postings will be accepted more than one week past the assigned due date.

General Policies Related to This Course

All students are required to follow the policies and procedures presented in these documents:

- Angelo State University Student Handbook
- Angelo State University Catalog

Student Responsibility and Attendance
This class is asynchronous, meaning you do not have to be on-line at a certain time. There are readings which you will have to complete to be able to adequately participate in individual and group assignments. In order to complete this course successfully, you do have to participate in all course activities i.e. discussion boards, course projects, reflective logs, etc. Students are expected to engage in course activities and submit work by due dates and times. The hope is that students will make substantive contributions which reflect integration of assigned materials as well as any outside readings as appropriate. Scholarly contribution is an expectation. For planning purposes, this class will probably require a minimum of 6-9 study hours per week on average.

Note: This course utilizes Collaborate to engage in role plays, case study, and interaction. A day and 2 session times will be offered for students to have some flexibility. Attendance is not mandatory. Collaborate times will be posted in Banner and a reminder email will be sent the
day of the sessions. Collaborate sessions will be recorded so students who cannot or do not attend can review them.

Face Coverings and Masks
As a member of the Texas Tech University System, Angelo State University has adopted the mandatory Facial Covering Policy to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.
No Food or Drink Policy
Due to COVID-19, there will be no food or drink allowed in any classrooms, seminar rooms, or public gathering areas in the Health and Human Service building until further notice. The only exception to this policy is a student may have bottled water or water in a container that is able to be sealed and will not spill or leak.

**Grading Rubrics**

**Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
2. Developing knowledge and understanding of diverse perspectives, global awareness, or other cultures
3. Learning to apply course material (to improve thinking, problem solving, and decisions)
4. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course
5. Acquiring skills in working with others as a member of a team
6. Developing creative capacities (inventing, designing, writing, performing in art, music, drama, etc.)
7. Gaining a broader understanding and appreciation of intellectual/cultural activity (music, science, literature, etc.)
8. Developing skill in expressing oneself orally or in writing
9. Learning how to find, evaluate, and use resources to explore a topic in depth
10. Developing ethical reasoning and/or ethical decision making
11. Learning to analyze and critically evaluate ideas, arguments, and points of view
12. Learning to apply knowledge and skills to benefit others or serve the public good
13. Learning appropriate methods for collecting, analyzing, and interpreting numerical information
