Course Information

Course Description
This course is designed to add depth to the student’s knowledge of social psychology and its applications to a myriad of social problem relevant to today’s realities.

Prerequisite Skills
Due to the hCoV-19 pandemic, it is essential that students have good computer literacy as an end user, including the use of Blackboard and Top Hat, video players, streaming software, and word processors.

Student Learning Outcomes
The follow learning outcomes are expected:

- Students will be able to expertly apply key social psychological knowledge to social problems
- Students will be able to critically evaluate proposed solutions to social problems based on the extant social psychological literature and related psychological disciplines
- Students will be able to express their opinions professionally and credibly on social psychological topics in writing
CLASSROOM MASK POLICY

As a member of the Texas Tech University System, Angelo State University has adopted the mandatory *Facial Covering Policy* to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are **REQUIRED** to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with this Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.

**Top Hat**

We will be using **Top Hat Pro** ([www.tophat.com](http://www.tophat.com)) for class participation. You will be able to submit answers to in-class questions using Apple or Android smartphones and tablets, laptops, or through text message. You can visit the Top Hat Overview ([https://success.tophat.com/s/article/Student-Getting-Started-with-Top-Hat](https://success.tophat.com/s/article/Student-Getting-Started-with-Top-Hat)) within the Top Hat Success Center which outlines how you will register for a Top Hat account, as well as provides a brief overview to get you up and running on the system.

You can register by simply visiting our course website: Unique Course URL. Note: our course Join Code is XXXXXX

Top Hat Pro may require a paid subscription, and a full breakdown of all subscription options available can be found here: [www.tophat.com/pricing](http://www.tophat.com/pricing).

**Grading**

Students will be measured according to their performance on the following criteria:

- **Examinations (E).** There will be no traditional examinations in the course. Instead, more frequent and smaller “test-like” assignments will be offered that will require completion of open-ended questions (i.e., short answer, brief essay).

- **Application Papers (P).** Students shall construct a series of papers over the term. These papers will require analysis of current and relevant events in the US that social psychology can impact. Instructions will be provided for each assignment.

- **Course Engagement (CE).** I will be tracking course participation through attendance in class on your assigned day, viewing of course materials, and punctual completion of assignments. Each student will begin with maximum points on this measure with deductions applied for missteps beyond a certain minimum expectation:
  - Expected class attendance: 80%
  - Expected viewing of course materials: 95%
  - Expected punctual completion of assignments: 87.5%

In the event that an outbreak of hCoV-19 occurs on campus that dramatically affects this measure, I will adjust it in the fairest manner possible for all students.

---

**Grade Calculation Formula**
\[0.30(E) + 0.25(CE) + 0.45(P)\]

**Grading System**

The following grading scale is in use for this course (rounding is done to the nearest integer according to standard mathematical rules):

- **A** = \(> 90\)
- **B** = 80 - 89
- **C** = 70 - 79
- **D** = 56 - 69
- **F** = \(< 56\)

Additional criteria governing course grades are as follows:

- You must have a non-zero grade for at least 50% of the available assignments and exams. Failure to meet this criterion shall result in automatic failure of the course.
- You must pass \((x > 55\%)\) ALL PORTIONS of the course individually. This means your calculated average on exams, papers, and course engagement in isolation, NOT together. Failure to meet these criteria shall result in course failure.

Note that the instructor has the authority to suspend these rules in individual cases where circumstances may dictate. This will ALWAYS be done to ensure that the student receives the fairest grade possible and will NEVER be used to punish students.

**Submitting Papers**

All papers are submitted through the Assignments tool in Blackboard. Sometimes, things happen with technology. Use the following FAQ to help.

Q: What do I do if I submit the wrong document?
A: Contact me via email to notify me with the correct document attached.

Q: What do I do if the professor tells me that my submission failed (document unreadable, etc.)?
A: If this happens, you will receive a grade of “0” and a note from me that your paper was not readable. Resubmit the assignment via email as soon as possible.

Q: What if Blackboard goes down and I can’t submit?
A: First, contact the Service Center at 942.2911 to inquire about the outage. Open a ticket if necessary. Then, submit as soon as your access is restored.

Q: Can I share a document through Google Docs as a submission?
A: NO. If you do this, I cannot read it. If this happens, you will receive a grade of “0” and a note from me that your paper was not readable. Resubmit the assignment via email as soon as possible but there will be a letter grade penalty.

**Late Work or Missed Assignments Policy**

**EXAMS/PAPERS**

Because these are distance-based assignments this term, there is no make-up policy. If you are late in submitting your work, it will count against your Course Engagement score. If any assignments are unfinished by the last Friday of the second week of November, they will become permanently unavailable.

**COURSE ENGAGEMENT**

Attendance becomes more critical because of the virtual nature of this course. Thus, it is imperative that you attend as often as possible. If you must miss a weekly class session, then I will accept a communication to that effect. The rules are:

- This communication must occur no later than the day of the missed class.
- While you should provide a reason, I do NOT sit in judgment of that reason. I will simply document it.
- Absences that are undocumented will apply against the Course Engagement score.

**Things NOT To Do**

⇒ **Cell phones must be turned off or to a silent setting; texting is disallowed.**
⇒ **Persistent and excessive lateness will not be tolerated.** If you consistently arrive to class late, I will ask for a meeting with you. If a quiz has started, you will not be allowed to take it, but you will receive credit for attendance (the lowest quiz score possible).
⇒ **The use of personal listening devices during class will not be tolerated.**
⇒ While I encourage an open classroom regarding communication, student discussions that become disruptive to the class will not be allowed.
Communication
You may reach me via telephone or email. Email is the preferred communication method. Because I also have administrative responsibilities, it is best to schedule an in-person meeting rather than to rely on office hours.

It is policy that incomplete grades be reserved for student illness or personal misfortune. Please contact me if you have serious illness or a personal misfortune that would keep you from completing course work. I will do everything I can to help you, but that may mean advising you to try the course again another time. See ASU Operating Policy 10.11 Grading Procedures for more information.

Plagiarism

Plagiarism is the action or practice of taking someone else’s work, idea, etc., and passing it off as one’s own. Plagiarism is literary theft.

If I detect that two papers are the same, both students will receive no credit for that assignment.

Student Absence for Observance of Religious Holy Days

A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence. See ASU Operating Policy 10.19 Student Absence for Observance of Religious Holy Day for more information.

Student Evaluation of Faculty and Course

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

This document constitutes an explicit agreement between the course instructor and the students enrolled in the course. All issues pertaining to the conduct of the course shall be governed by this document, and where it is silent, the course instructor’s discretion shall be binding. If any rules, guidelines, and/or restrictions must be changed during the term, the instructor may do so and will communicate those changes to all students through Blackboard.
