Course Syllabus Statement on Required Use of Masks/Facial Coverings by Students in Class at Angelo State University
As a member of the Texas Tech University System, Angelo State University has adopted the mandatory Facial Covering Policy to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.

**Topic Outline**

The course will focus on increasing the student’s conceptual and skill level to become an effective generalist social work practitioner in a health care setting. The content areas covered will include use of different assessment tools, treatment planning and clinical intervention models, impact of acute/chronic illness on patients, social work role and contributions in a hospital setting, treatment of special populations and their unique issues, grief and loss dynamics, discharge planning, managed care, legal and ethical issues, interdisciplinary teamwork, organizational changes in health care settings and health care policy. This course heavily focuses on critical thinking skills, the evaluation of one’s own values in light of the social work profession’s values, and the expression of one’s own ideas and thoughts in a non-prejudicial manner. This course will address health care as it relates to individuals, couples, families, and small groups (i.e., direct practice on the micro and mezzo level). Special attention will be paid to diversity in healthcare and its impacts upon clients.

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions
*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.

Examinations
There will be timed examinations in this course. These exams count collectively towards 40% of your overall grade. The final exam is comprehensive. All exams will be taken via Respondus Monitor.

Case Study Assignments
There will be a total of 3 case studies that will count in place of quiz grades. They are all listed on the syllabus and can all be found in the book. We will discuss further in class the requirement. These will be turned in via TurnitIn Link.

Healthcare Project Paper
Each student will write a paper focusing on a chronic or terminal healthcare condition. The paper shall be no shorter than 8 pages including one page for cover page and another for
references. The body of the paper must be at least 6 pages in content. **Outline below under GRADING RUBRIC.**

**Assignment Submission**
All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at ajones109@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

**Late Work or Missed Assignments Policy**

**POLICY ON LATE OR MISSED ASSIGNMENTS**
Assignments: Failure to submit your assignments on the assigned date will result in a 10 point deduction for the first day and a 5 point deduction for each day after the posted deadline. No papers or postings will be accepted more than 5 days past the assigned due date.

**Exams and Quizzes: NOT ACCEPTED LATE FOR ANY REASON**

The week begins on Monday and ends on Sunday. All assignment due by 11:59 on due date

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.
Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
