Course Objectives

Learning Objectives:
Upon completion of this course, students will be able to:

1. Learn about accounting as an information development and communication function that supports economic decision-making
2. Understand the elements of the financial statements and the accounting concepts related to the topics in the following course schedule
3. Develop necessary skills for analysis, problem-solving, research, and decision-making

You will meet the objectives through a series of exams and homework that will measure your learning

Assessment Methods
Your coursework will be completed in Modules in Blackboard. Each module contains instructions on what needs to be completed in order to be successful in this course. There are PowerPoint presentations and exercise presentations that need to be viewed in every module so that you are able to understand the homework and exams in each module.
We will utilize the McGraw Hill Connect system extensively throughout this class. The system will automatically grade homework and force you to either read or work through the problems in each chapter.

There are two types of homework for each chapter
1. **LearnSmart and/or SmartBook** This is an interactive tool within Connect. It highlights the key points within the text. After reading portions of the text, you will answer questions. If you were to answer all of the questions correctly, the program will direct you to the next section. If you struggled with a particular area or topic, the program then focuses your continued studying and questions on those areas you do not know. Once you master the section, you move to the next.
2. **Homework** This consists of exercise and problems. You must work problems and understand the concepts behind those problems to be successful. The homework is algorithmic and covers the main topics that you will find on the exams. You have multiple attempts to complete the homework so make sure you understand the topics so that you are prepared for each exam.

**Exams** There are a total of 4 exams in this class (one for each module).

**Course Textbook and Required Readings**

You will be using the Connect software so if you get a print version, make sure it is bundled with the software. You can purchase the book directly through our course by clicking on any of the Connect links in our course.

Incomplete as a Course grade

As stated in the Angelo State University Operating Policy and Procedure (OP 10.11 Grading Procedures), the grade "I" is given when the student is unable to complete the course because of illness or personal misfortune. For undergraduates, an "I" that is not removed before the end of the next long semester automatically becomes an "F". A graduate student will be allowed one year to remove a grade of "I" before it automatically becomes an "F". To graduate from ASU, a student must complete all "I"s.

Grade Appeal Process

As stated in the Angelo State University Operating Policy and Procedures (OP 10.03 Student Grade Grievances), a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, has experienced inequitable evaluation procedures, or inappropriate grading practices, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the grade appeal process and the number of days allowed for completing the steps in the process, see Operating Procedure 10.03 at: http://www.angelo.edu/content/files/14196-op-1003-grade-grievance.
