COURSE DESCRIPTION

Spanish 1301 is a beginning Spanish course designed to provide an introduction to the language and culture of the Spanish-speaking world. The students will practice the four language skills (listening/understanding, speaking, reading, and writing) both with the instructor and with classmates. The course materials provide abundant communicative activities along with many form-focused exercises and offer a good variety of authentic cultural materials. Practice will continue beyond the classroom with technology-based exercises. National Standards describe the Five C’s of Foreign Language Education: Communication, Cultures, Connections, Comparisons, and Communities. Successful students will learn “how, when, and why to say what to whom.”

COURSE OBJECTIVES

Students should be able to communicate minimally by using isolated words and memorized phrases with reference to a particular context in which the language has been learned. They should be able to ask and answer some direct questions and express themselves in writing mostly in the present tense about familiar objects, their immediate environment and some basic interests. Students should also be able to read and comprehend simple texts on an elementary level. Students should be able to demonstrate an understanding of some of the salient features of the history and culture (perspectives, practices, products) of the Spanish-speaking world. Upon completion of the course, students should be able to Communicate in all 3 modes—interpretive, presentational, interpersonal—at the ACTFL Novice mid to high level.

INSTRUCTOR & STUDENT ROLES

Because of the way languages are learned by adults, you really cannot be “taught” Spanish. Therefore, my role is to facilitate language learning by creating an environment in which the language acquisition process is enhanced, guiding you and assessing your progress. Every course requirement is designed with this in mind; there is no “busy” work assigned. All of the course work has a purpose. Your role is to fully immerse yourself in the work both in the classroom and through the outside assignments.

IDEA FORM OBJECTIVES

Essential (E):
1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
8. Developing skill in expressing oneself orally or in writing

Important (I):
3. Learning to apply course material (to improve thinking, problem solving, and decisions)

Course Syllabus Statement on Required Use of Masks/Facial Coverings by Students in Class

As a member of the Texas Tech University System, Angelo State University has adopted the mandatory Facial Covering Policy to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, in compliance with the university policy students in this class are required to wear a mask/facial covering before, during, and after class. Faculty members may also ask you to display your daily screening badge as a prerequisite to enter the classroom. You are also asked to maintain safe distancing practices to the best of your ability. For the safety of everyone, any student not appropriately wearing a mask/facial covering will be asked to leave the classroom immediately. The student will be responsible to make up any missed class content or work. Continued non-compliance with the Texas Tech University System Policy may result in disciplinary action through the Office of Student Conduct.

This syllabus is subject to change; changes will be posted on Blackboard.
