Course Objectives

Learning Objectives:

Student will:

- Obtain exposure to practice of accounting
- Apply knowledge and learn skills in the practice of accounting
- Engage in practical problem-solving using critical thinking skills
- Enhance academic education through real world experience

Expectations/Responsibilities of the student during the internship:

- Student must be dependable, punctual, and professional in their internship activity.
- Student must dress in a manner appropriate for the position in the business while engaging in the internship activity. (Follow the guidelines of the employer.)
- Student should understand that he/she represents that business as an employee and must accept the responsibilities of the position.
- Student will be evaluated by his/her supervisor at the business and by the Faculty representative at the conclusion of this internship.

Internship Requirements:

- The expectation is that the student will spend a minimum of 200 hours of internship work during the semester. This work can be face-to-face, online, or a combination of methods. Internship can be a full-time job or a part-time job.
- The internship should be directly related to the field of accounting. There are at least 12 areas within accounting: financial accounting, managerial accounting, tax accounting, cost accounting, not-for-profit accounting, accounting information systems, forensic accounting, governmental accounting, auditing and assurance services, budgetary accounting, international accounting, and accounting education. In addition, practitioners in some of these fields specialize in planning or consulting. There are many options for a future accountant.
- The internship should be more than a clerical position. An important feature of an internship is an opportunity to engage in practical problem-solving and to use critical thinking skills. This is an opportunity apply knowledge of accounting and tax standards to determine the best accounting and/or tax treatment.
- According to the AICPA, employers demand that accountants have strong communication skills which include verbal and interpersonal skills. Internships are an opportunity to witness, learn, and practice business communication skills.
Assignments:

- Student must keep a diary or journal that includes a chronological list of all work experience gained in the internship. The diary for the week must be submitted on Blackboard.
- During the semester, student and faculty will participate in check-in meetings. These will be arranged at a mutually agreeable time and place.
- Some readings may be assigned on Blackboard that support and/or relate to the internship experience.
- Student must write a paper demonstrating the knowledge gained from the work performed and the employer’s training program. It should describe various tasks assigned, how the entire experience integrates with the intern’s academic work, how academic work prepared the student, what academic work could have helped prepare the student, what the student is bringing back to academic work from the internship, and also contain the intern’s evaluation of the internship. The paper must be a minimum of 1,500-2,000 words (about 8-10 pages) in length and include a title page, a table of contents, headings and subheadings, and footnotes as appropriate. Organization, spelling, and grammar are important. Because the Texas State Board of Public Accountancy may request a copy, the paper must meet high standards.

After the Internship:

- Employing firm must provide a written description of the duties performed by the student and the supervision given to the student. Intern’s Duties and Supervision form can be used for this purpose.
- Employing firm must provide a written evaluation of student’s performance.
- Student must maintain copies of the application forms, diary, Duties and Supervision form and written evaluation after the end of the internship. When the student applies for eligibility to take the CPA exam, the documentation must be made available to the Board of Public Accountancy upon request.

Assessment Methods

A pass or fail grade will be assigned by the instructor based on input on student performance and upon submission of all required documents, as described above, by the last official day of the semester.

If, for some reason, you are not able to complete the internship, it is your responsibility to communicate with the employer and with the faculty coordinator.

*Plagiarism*

Plagiarism is a serious topic covered in ASU’s Academic Integrity policy in the Student Handbook. Plagiarism is the action or practice of taking someone else’s work, idea, etc., and passing it off as one’s own. Plagiarism is literary theft.

Incomplete as a Course grade

As stated in the Angelo State University Operating Policy and Procedure (OP 10.11 Grading Procedures), the grade "I" is given when the student is unable to complete the course because of illness or personal misfortune. A graduate student will be allowed one year to remove a grade of "I" before it automatically becomes an "F". To graduate from ASU, a student must complete all "I"s.

Grade Appeal Process

As stated in the Angelo State University Operating Policy and Procedure (OP 10.03 Student Grade Grievances), a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, has experienced inequitable evaluation procedures, or inappropriate grading practices, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the grade appeal process and the number of days allowed for completing the steps in the process, see Operating Procedure 10.03 at: http://www.angelo.edu/content/files/14196-op-1003-grade-grievance.
