Instructor:
Email: beverly.greenwald@angelo.edu
Phone: 701-261-4795
Office: Virtual
Office Hours: Please arrange consultation times by phone or email. I am flexible and available most times during the week and weekends.
Time Zone: ASU and this faculty are on Central Standard Time (CST). All due dates and times in this syllabus are CST. Students working outside of CST will need to make the necessary adjustments.

Course Information

Course Description
This course explores the distribution and determinants of health and disease that affect human populations using health information and technology. Principles of genetics, genomics and epidemiological data are considered for design and delivery of evidence-based, culturally relevant clinical prevention and health promotion strategies and interventions. Evidence-based clinical prevention and population indices form the basis of a health project.

Course Credits
Three Semester Credit Hours (3-0-0)
Online Class: Meets completely online using Blackboard

Prerequisite / Co-requisite Courses
None

Prerequisite Skills
Accessing internet web sites, use of ASU Library resources, and proficiency with Microsoft Word and/or PowerPoint are expectations of the program name. Computer access requirements are further delineated in the graduate Handbook. Tutorials for ASU Library and for Blackboard are
available through RamPort. The ASU [Graduate Nursing Student Handbook](#) should be reviewed before taking this course.

**Program Outcomes**

Upon completion of the program of study for the MSN Program, the graduate will be prepared to:

1. Integrate nursing and related sciences into the delivery of advanced nursing care to diverse populations.
2. Apply organizational and systems leadership skills.
3. Design and implement quality improvement initiatives.
4. Integrate best research evidence to improve health outcomes.
5. Utilize informatics, healthcare technology and information systems.
6. Advocate through system level policy development.
7. Employ effective communication in inter-professional teams.
8. Synthesize the impact of health determinants for provision of culturally relevant health promotion/disease prevention strategies.
9. Practice at the level of a master’s prepared nurse

**Course Delivery**

This is an online course offering. The course will be delivered via the Blackboard Learning Management System. The course site can be accessed at [ASU's Blackboard Learning Management System](https://blackboard.asu.edu).

For online classes, the level of academic rigor is parallel to that of a face-to-face section of the same course and is aligned with departmental standards. Students are advised to approach this course with the same commitment they would make to a face-to-face course.

**Required Texts and Materials**

Library and internet resources will be used instead of a text. See the Modules for assigned reading.

**Recommended Texts and Materials**

None

**Technology Requirements**

To participate in one of ASU’s distance education programs, you need this technology:

- A computer capable of running Windows 7 or later, or Mac OSX 10.8 or later
- The latest version of one of these web browsers: internet Explorer, Firefox, or Safari
- Microsoft Office Suite or a compatible Open Office Suite
- Adobe Acrobat Reader
- High Speed Internet Access
- Ethernet adapter cable required (wireless connections can drop during tests and Collaborate sessions)
- Webcam

**Topic Outline**

Oral Health
Risk Assessment Tools
Risk Reduction
Epidemiology
Statistics
Infectious Diseases
Chronic Diseases
Genetics and Genomics
Environmental Epidemiology
Demographic Assessment
BRFSS Data Analysis
History of Public Health
Health Promotion
Communication
Faculty will respond to email and/or telephone messages within 36 hours during working hours Monday through Friday. Weekend messages may not be returned until Monday.

Written communication via email: All private communication will be done exclusively through ASU email. Check frequently for announcements and policy changes. Emails to faculty should include the course name and section number in the subject line. Please check your ASU email daily for announcements and policy changes. The ASU Help Desk can help you get your ASU email on your cell phone to assist with this essential communication. The Help Desk phone number is 866-942-2911 or 325-942-2911.

Virtual communication: Office hours and/or advising may be done with the assistance of the telephone or Collaborate.

“Netiquette” Guidelines
- Use Good "Netiquette":
- Check the discussion frequently and respond appropriately and on subject.
- Focus on one subject per message and use pertinent subject titles.
- Capitalize words only to highlight a point or for titles. Generally, words that are all capitalized are more difficult to read. Capitalizing may be used for emphasis but excessive capitalizing may be viewed as SHOUTING!
- Be professional and careful with your online interaction. Proper address for faculty is by formal title such as Dr. or Ms./Mr. Jones unless invited by faculty to use a less formal approach.
- Cite all quotes, references, and sources.
- When posting a long message, it is generally considered courteous to warn readers at the beginning of the message that it is a lengthy post.
- It is extremely rude to forward someone else's messages without their permission.
It is fine to use humor, but use it carefully. The absence of face-to-face cues can cause humor to be misinterpreted as criticism or flaming (angry, antagonistic criticism). Feel free to use emoticons such as J or :) to let others know you are being humorous.

(The above "netiquette" guidelines were adapted from Arlene H. Rinald's article, The Net User Guidelines and Netiquette, Florida Atlantic University, 1994, available from Netcom.)

Grading

Evaluation and Grades

Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes. All assignments must be completed at a passing level to pass this course.

The following grading scale is in use for this course:
- A = 90.00-100 percent
- B = 80.00-89.99 percent
- C = 70.00-79.99 percent
- D = 60.00-69.99 percent
- F = 0-59.99 percent (Grades are not rounded up)

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions
*Please note: Rubrics for all assignments and activities are located in the Learning Modules.

Learning Module Exercises
Six Learning Modules will include a learning exercise. Detailed instructions are found under the Exercises tab when it opens. These exercises are open-resource. The questions are of all types and the number of questions varies but is approximately 10. Students will have 180 minutes to complete these exercises.

Epidemiology Video
Students will complete an evaluation after watching a CDC epidemiology video.

Smiles for Life Training Courses
Smiles for Life: A National Oral Health Curriculum was originally developed in 2005 by the Society of Teachers of Family Medicine Group on Oral Health. The 4th edition of Smiles for Life was released in 2020. It continues its broad focus on all primary care clinicians, while adding a module on the oral examination and opportunities for interactive on-line learning opportunities that focus on individual learners and small groups.
Smiles for Life is now the nation’s most comprehensive and widely used oral health curriculum for primary care clinicians. It has been officially endorsed by 20 national organizations, and is in wide use in professional schools and post-graduate training programs.

Course 1 = The Relationship of Oral and Systemic Health
This course addresses the nature, prevalence, and consequences of oral disease throughout the life cycle with a focus on correlations between oral and systemic health. Clinicians will learn their role in preventing oral disease, addressing frequently encountered oral problems, and working as part of an inter-professional team to promote oral health.

Course 2 = Child Oral Health
This course addresses the prevalence, etiology, and consequences of early childhood caries (ECC). Clinicians will learn to assess risk factors, recognize the various stages of ECC, and counsel patients on preventive techniques. Additionally, this module will discuss common oral developmental issues in children such as teething, eruption hematomas, and non-nutritive sucking.

Course 3 = Adult Oral Health
This course addresses how adult oral health is impacted by factors such as disease, aging, medication, and substance use. Clinicians will review risk factors and etiologies of oral conditions, as well as appropriate treatment and referral procedures. This module also addresses effective oral disease prevention, dental care coordination for patients requiring antibiotic prophylaxis, and collaborative anticoagulation management in patients undergoing oral procedures.

Course 4 = Acute Dental Problems
This course addresses the nature of oral pain, as well as acute dental problems precipitated by oral infections or trauma. Clinicians will learn to treat oral pain; accurately assess, treat, and refer patients with oral infections; recognize and triage true dental emergencies; and promote the use of protective equipment to prevent oral injuries.

Course 5 = Pregnancy and Women’s Oral Health
This course addresses the importance of oral health before, during, and after pregnancy. Clinicians will explore the prevalence of oral disease during pregnancy and its consequences for both mothers and children, as well as review dental treatment guidelines for pregnant women.

Course 6 = Caries Risk Assessment, Fluoride Varnish, and Counseling
This course focuses on caries prevention. It offers a brief review of Early Childhood Caries (ECC) and address how the use of fluoride is part of a comprehensive approach to a child’s oral health. Specifically, clinicians will learn the benefits, appropriate safety precautions, and dosing for fluoride, as well as how to apply fluoride varnish and provide follow-up care.

Course 7 = The Oral Examination
This course addresses how to perform consistent and thorough oral examinations of children and adults. Clinicians will learn to differentiate between normal and abnormal findings, and develop an awareness of the examination needs of special populations.

Course 8 = Geriatric Oral Health
This course addresses the vital role medical clinicians can play in promoting the oral health needs of older adults. Clinicians will learn how to perform a comprehensive oral assessment, identify and manage common geriatric oral conditions, counsel patients on effective preventive measures, and collaborate with dental professionals. Additionally, this module will address the link between oral and systemic health and review common oral side effects of medications.

**Geriatric Risk Assessment Tool**
Students will use the Pediatric Risk Assessment Tool as a template to create a Geriatric Risk Assessment Tool for an FNP to use in a Family Practice setting. This tool will include the identification of common oral health risk and protective factors; a guide to common oral health clinical findings; a place for appropriate documentation of an oral assessment; and a plan to improve oral health in the geriatric population.

**Oral Health Promotion Education Evaluation**
Students will analyze oral health evidence for its impact on the delivery of an age-appropriate oral health promotion program. The education message will be evaluated for appropriate level using the Flesch–Kincaid tool.

**Self-Evaluation of Course Objectives**
Students will complete a self-evaluation of meeting the Course Objectives listed in the syllabus.

**IDEA Rating of Instruction**
Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them.

**Assignment Submission**
All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at beverly.greenwald@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

**Late Work or Missed Assignments Policy**
The course is set up on weekly modules. The week begins on Monday at 1 am CST and ends on Friday at 11 pm CST (except holiday weeks; all times in this syllabus are CST). Assignment due dates are shown on the Course Schedule. Late assignments are not accepted without prior approval of faculty. Faculty reserves the right to deduct points for late assignments if they are accepted past the original due date. All assignments must be completed at a passing level to pass this course, even if a grade is not allowed.
Academic honesty is expected on all work. Students are expected to maintain complete honesty and integrity in their online experiences. Any student found guilty of any form of dishonesty in academic work is subject to disciplinary action and possible expulsion from ASU.

General Policies Related to This Course

All students are required to follow the policies and procedures presented in these documents:

- Angelo State University Student Handbook
- Angelo State University Graduate Catalog
- Graduate Nursing Student Handbook

Student Responsibility and Attendance

ON-LINE: This class is asynchronous, meaning you do not have to be on-line at a certain time. There are readings which you will have to complete to be able to adequately complete assignments. To successfully complete this course, students have to participate in all course activities. Students are expected to engage in course activities and submit work by due dates and times. Students must complete all assignments for this course at a passing level to pass this course. The hope is that students will make substantive contributions which reflect integration of assigned materials as well as any outside readings as appropriate. Scholarly contribution is an expectation. For planning purposes, this class will probably require a minimum of 6-9 study hours per week on average, for a 15-week semester or 9 – 13.5 hours per week for a 10-week summer session.

Please note: students from other institutions, taking a one-time ASU course, are bound by ASU policies in this course.

Academic Integrity

Students are expected to maintain complete honesty and integrity in all work. Any student found guilty of any form of dishonesty in academic work is subject to disciplinary action and possible expulsion from ASU.

The College of Health and Human Services adheres to the university’s Statement of Academic Integrity.

Accommodations for Students with Disabilities

ASU is committed to the principle that no qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments of 2008 (ADAAA) and subsequent legislation.
Student Disability Services is located in the Office of Student Affairs, and is the designated campus department charged with the responsibility of reviewing and authorizing requests for reasonable accommodations based on a disability. It is the student’s responsibility to initiate such a request by contacting an employee of the Office of Student Affairs, in the Houston Harte University Center, Room 112, or contacting the department via email at ADA@angelo.edu. For more information about the application process and requirements, visit the Student Disability Services website. The employee charged with the responsibility of reviewing and authorizing accommodation requests is:

Dallas Swafford  
Director of Student Disability Services  
Office of Student Affairs  
325-942-2047  
dallas.swafford@angelo.edu  
Houston Harte University Center, Room 112

**Incomplete Grade Policy**

It is policy that incomplete grades be reserved for student illness or personal misfortune. Please contact faculty if you have serious illness or a personal misfortune that would keep you from completing course work. Documentation may be required. See ASU Operating Policy 10.11 Grading Procedures for more information.

**Plagiarism**

Plagiarism is a serious topic covered in ASU’s Academic Integrity policy in the Student Handbook. Plagiarism is the action or practice of taking someone else’s work, idea, etc., and passing it off as one’s own. Plagiarism is literary theft.

It is unacceptable to copy word-for-word in your discussions and/or your papers without quotation marks and the source of the quotation. It is expected that you will summarize or paraphrase ideas giving appropriate credit to the source both in the body of your paper and the reference list. Quotes are not allowed; rather, rephrase in your own words. The Department of Nursing uses the APA Style Manual of the American Psychological Association as a guide for all writing assignments.

Papers are subject to be evaluated for originality. Resources to help you understand this policy better are available at the ASU Writing Center.
Academic Calendar
Students are responsible for adhering to all dates set forth in the ASU Academic Calendar for the semester.

Special Notes:

a) If you are graduating this semester, please make sure you complete your application for graduation.

b) If you are taking the Comprehensive Exam this semester, please register for this exam.

c) Please note the University Calendar for the Last day to drop a class or withdraw from a regular semester
   Drop an online class
   Withdraw from school

d) Notify your faculty if you plan to drop or withdraw. A general understanding of the circumstances will be helpful for program development.

Student Absence for Observance of Religious Holy Days
A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence. See ASU Operating Policy 10.19 Student Absence for Observance of Religious Holy Day for more information.

Copyright Policy
Students officially enrolled in this course should make only one printed copy of the given articles and/or chapters. You are expressly prohibited from distributing or reproducing any portion of course readings in printed or electronic form without written permission from the copyright holders or publishers.

Syllabus Changes
The faculty member reserves the option to make changes as necessary to this syllabus and the course content. If changes become necessary during this course, the faculty will notify students of such changes by email, course announcements and/or via a discussion board announcement. It is the student’s responsibility to look for such communications about the course on a daily basis.

Title IX at Angelo State University
Angelo State University is committed to providing and strengthening an educational, working, and living environment where students, faculty, staff, and visitors are free from sex discrimination of any kind. In accordance with Title VII, Title IX, the Violence Against Women Act (VAWA), the Campus Sexual Violence Elimination Act (SaVE), and other federal and state laws, the University prohibits discrimination based on sex, which includes pregnancy, and other
types of Sexual Misconduct. Sexual Misconduct is a broad term encompassing all forms of
gender-based harassment or discrimination and unwelcome behavior of a sexual nature. The
term includes sexual harassment, nonconsensual sexual contact, nonconsensual sexual
intercourse, sexual assault, sexual exploitation, stalking, public indecency, interpersonal
violence (domestic violence or dating violence), sexual violence, and any other misconduct
based on sex.

You are encouraged to report any incidents involving sexual misconduct to the Office of Title IX
Compliance and the Director of Title IX Compliance/Title IX Coordinator, Michelle Boone, J.D.
You may submit reports in the following manner:

Online: [www.angelo.edu/incident-form](http://www.angelo.edu/incident-form)
Face to face: Mayer Administration Building, Room 210
Phone: 325-942-2022
Email: [michelle.boone@angelo.edu](mailto:michelle.boone@angelo.edu)

*Note, as a faculty member at Angelo State, I am a mandatory reporter and must report
incidents involving sexual misconduct to the Title IX Coordinator. Should you wish to speak to
someone in confidence about an issue, you may contact the University Counseling Center (325-
942-2371), the 24-Hour Crisis Helpline (325-486-6345), or the University Health Clinic (325-942-
2171).*

For more information about resources related to sexual misconduct, Title IX, or Angelo State’s
policy please visit: [www.angelo.edu/title-ix](http://www.angelo.edu/title-ix).

**Course Disclaimer**

Although it is never the intention of this course instructor to offend anyone, on rare occasions
students do become offended during discussions. The nature of the content of this course may
lead to someone being offended by ideas read or presented, or someone’s ideas or opinions
shared. The purpose is to encourage you to consider, objectively, the viewpoints reflected in
other’s works as you examine your own views, assumptions, and preconceptions in an attempt
to formulate an informed, thoughtful, and defensible position. It is not the intent of this class to
“indoctrinate” you into any particular point of view, persuade you to adopt any specific
position, or even “challenge” your personal beliefs. The hope is that, together, we can all
remain as objective as possible and keep our discussions on a high intellectual plane.

**Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and
pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

The following are considered essential and important evaluation items for this course.
- Learning how to find, evaluate, and use resources to explore a topic in depth
- Learning to apply knowledge and skills to benefit others or serve the public good
